PROXY STATEMENT

This Proxy Statement and the accompanying form of proxy are being furnished in connection with the solicitation by the Board of Directors of Columbus McKinnon Corporation, a New York corporation ("our Company", "we" or "us"), of proxies to be voted at the Annual Meeting of Shareholders (the "Annual Meeting") to be held at the Ramada Hotel and Conference Center, 2402 North Forest Road, Amherst, New York, on July 30, 2007, at 10:00 a.m., local time, and at any adjournment or adjournments thereof. The close of business on June 8, 2007 has been fixed as the record date for the determination of shareholders entitled to receive notice of and to vote at the meeting. At the close of business on June

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

8, 2007, we had outstanding 18,862,887 shares of our common stock, \$.01 par value per share, the holders of which are entitled to one vote per share on each matter properly brought before the Annual Meeting.

The shares represented by all valid proxies in the enclosed form will be voted if received in time for the Annual Meeting in accordance with the specifications, if any, made on the proxy card. If no specification is made, the proxies will be voted FOR the nominees for Director named in this Proxy Statement.

In order for business to be conducted, a quorum must be present at the Annual Meeting. A quorum is a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting. Abstentions, broker non-votes and withheld votes will be counted in determining the existence of a quorum at the Annual Meeting.

Directors will be elected by a plurality of the votes cast at the Annual Meeting, meaning the seven nominees receiving the most votes will be elected. Under the law of the State of New York, our state of incorporation, only "votes cast" by the shareholders entitled to vote are determinative of the outcome of the matter subject to shareholder vote. Abstentions and broker non-votes will be counted in determining the existence of a quorum, but will not be counted towards any other nominee's achievement of plurality or in determining the votes cast on any other proposal.

The execution of a proxy will not affect a shareholder's right to attend the Annual Meeting and to vote in person. A shareholder who executes a proxy may revoke it at any time before it is exercised by giving written notice to the Secretary, by appearing at the Annual Meeting and so stating, or by submitting another duly executed proxy bearing a later date.

This Proxy Statement and form of proxy are first being sent or given to shareholders on or about June 27, 2007.

PROPOSAL 1

ELECTION OF DIRECTORS

Our Certificate of Incorporation provides that our Board of Directors shall consist of not less than three nor more than nine Directors to be elected at each annual meeting of shareholders and to serve for a term of one year or until their successors are duly elected and qualified. Pinchuk, each of whom is presently a Director and, except for Mr. Pinchuk, has been previously elected by our shareholders. COMPENSATION DISCUSSION AND ANALYSIS

OVERVIEW. We are a leading manufacturer and marketer of hoists, cranes, chains, conveyors, material handling systems, lift tables and component parts serving a wide variety of commercial and industrial end-user markets. Our strategy is to leverage our superior material handling design and engineering know-how to provide differentiated products, systems and services to move, lift, position or secure material. We focus on industrial and commercial applications with the highest potential for increasing market share in countries that offer the greatest volume and profit potential.

10

The successful execution of our business strategy depends on our ability to attract, motivate, reward, and retain executive talent with the skills to foster innovative product and service development and grow the business in developing markets with the greatest opportunity. Our executive compensation program is designed to support this strategy by:

- o attracting and retaining key executive talent by offering a competitive compensation program;
- o motivating executive actions that lead to sustained performance; and
- o aligning executive compensation with returns delivered to shareholders.

EXECUTIVE COMPENSATION PHILOSOPHY AND OBJECTIVES. Our executive compensation program is administered by the Compensation and Succession Committee of the Board of Directors (the "Compensation Committee"). In fiscal 2007, the Compensation Committee engaged Mercer Human Resource Consulting, an international compensation consulting firm, to assist it in performing its functions. The Compensation Committee was also assisted by internal Company

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

staff. Our Chief Executive Officer ("CEO") makes recommendations to the Compensation Committee concerning compensation actions for the named executive officers in the Summary Compensation Table below ("NEOs") other than the CEO. In developing these recommendations, the CEO receives assistance from the Vice President - Human Resources (except in the case of recommendations pertaining to the Vice President - Human Resources). In determining base salary adjustments and setting incentive targets for individual compensation elements, the Compensation Committee and CEO typically refer to market data provided by our consultant. For the CEO, Chief Financial Officer and Chief Operating Officer, the Compensation Committee has reviewed market data annually. Market data for all other executive officer positions has been reviewed every two years. Going forward, the Compensation Committee expects to review market data for all NEOs and executive officer positions annually. The Compensation Committee's composition is described in more detail in this proxy statement under the section above entitled "Corporate Governance - Compensation and Succession Committee."

The Compensation Committee has outlined the following program objectives:

1) WE HAVE A COMPREHENSIVE COMPENSATION PROGRAM, CONSISTING OF BASE SALARY, ANNUAL INCENTIVES, LONG-TERM INCENTIVES AND BENEFITS, THAT SUPPORTS OUR OBJECTIVE OF PROVIDING SUPERIOR VALUE TO SHAREHOLDERS AND CUSTOMERS.

Compensation opportunity for our executives is based in part on market practice among a defined group of industrial companies that the Compensation Committee reviews and approves as an appropriate peer group, in part on the market practice of a broader population of industrial companies of comparable size (as indicated in published surveys and databases of executive compensation data), and in part on our own unique strategic business context. Base salary provides a competitive level of fixed compensation for performance of core duties and supports our ability to retain a stable executive team. Our incentive compensation plans include the Executive Management Variable Compensation Plan ("the Variable Compensation Plan"), which is designed to reward annual performance relative to annual performance targets, and the 2002 Restricted Stock Plan (the "Restricted Stock Plan"), the 2002 Incentive Stock Option Plan (the "ISO Plan"), the 2002 Non-Qualified Stock Option Plan (the "Non-Qualified Plan") and the 2006 Long Term Incentive Plan (the "Omnibus Plan") which provide rewards through equity for superior financial performance over intermediate and long-term periods. Benefit plans are designed to be competitive and responsive

11

to the needs and interests of our employees, but are not a major factor in differentiating us in the labor market.

2) OUR EXECUTIVE COMPENSATION PROGRAMS ARE DESIGNED TO MOTIVATE AND REWARD OUR EXECUTIVES FOR SUSTAINED PERFORMANCE THROUGH THE USE OF VARIABLE COMPENSATION TIED TO SHORT, INTERMEDIATE AND LONG-TERM RESULTS

A significant portion of each executive's target total compensation is provided through variable compensation. Short-term performance relative to our business strategy and operating plan is addressed through our Variable Compensation Plan, which rewards annual performance. Our Restricted Stock Plan, ISO Plan, Non-Qualified Plan and Omnibus Plan (collectively, the "Equity Plans") are designed to reward superior long-term performance through equity compensation. We believe that such long-term incentives foster alignment with shareholders by providing equity awards the ultimate value of which are based on our stock price performance over time. Additionally, we incorporate specific performance criteria into the vesting or granting of awards addressing short-term and intermediate-term results, which are expected to lead to

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

sustained financial performance and which establish a threshold to assure that performance goals are appropriately challenging but achievable with significant and effective effort.

3) OUR BUSINESS SUCCESS DEPENDS ON OUR ABILITY TO ATTRACT AND RETAIN EXECUTIVE TALENT THROUGH COMPETITIVE COMPENSATION OPPORTUNITY

Our business is cyclical and highly competitive. In recent years, we have faced a challenging industrial market. Our business strategy emphasizes expanding globally into new markets, enhancing our focus on distributors, heightening our focus on a better understanding of, and better connection with, our end-user customers, providing and maintaining superior service to both our distributors and end-user customers, and continuing to control costs through lean manufacturing and similar improvement disciplines. Our strategy requires that we attract executive talent with these skills and retain executives who are critical to operational excellence and maintaining and fostering key customer relationships. To support our ability to attract and retain talent, we target total compensation opportunity at the market median (50th percentile) for industrial companies of similar size with opportunity tempered by executive skills, experience and individual circumstances. We also incorporate flexibility into our compensation programs and in the assessment process to respond to, and adjust for, the evolving business environment and individual circumstances. Actual compensation is expected to vary based on our performance. We support retention through vesting schedules associated with long-term incentive awards.

EXECUTIVE COMPENSATION POLICIES AND PRACTICES.

OUR TARGET LABOR MARKET. In administering the executive compensation

program, the Compensation Committee relies on market data provided periodically by its external consultant based on filings made by peer companies with the Securities and Exchange Commission. For benchmarking compensation, the Compensation Committee reviews compensation data for industrial companies of comparable size, which reflects the types of companies with which we compete for talent. Here, we use a broader industrial market reference because the number of direct product and service market competitors is limited. Many of the companies that provide similar products and services are either privately-held or headquartered overseas; therefore, executive compensation data may be either unavailable or of limited applicability to the U.S. labor market in which we principally compete.

12

Historically, we have used a peer group for benchmarking compensation. In March 2007, the Compensation Committee altered the peer group to broaden and better align the peer group with our current business context and strategy. The revised peer group incorporates companies that we consider primary competitors for talent, capital, and/or customers. The peers consist of industrial companies of comparable size to us (generally one-half to twice our size in terms of revenue), which typically have significant employee populations in manufacturing, product engineering and sales. In selecting the peers, the Compensation Committee excluded some companies that fit the above description but had low relative corporate governance ratings.

In addition, we also consider data from compensation surveys published by leading compensation firms that are compiled by our consultant. The survey analysis targets companies of comparable size in the durable goods manufacturing sector, supplemented with general industry data as needed.

One of our NEOs, Mr. Wolfgang Wegener, lives and works in Germany. The Compensation Committee considers differences in market practice and currency

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

exchange rates between the U.S. and Germany in making compensation decisions for Mr. Wegener. In administering Mr. Wegener's compensation, the Compensation Committee considers both market practice in Germany as well as internal equity between Mr. Wegener and our other executive officers.

OUR TARGET PAY MIX. The total compensation package for our executive

 officers consists of base salary, variable compensation, long-term incentives and benefits. In determining both the target level of compensation and mix of compensation elements, we consider market practice, business objectives and expectations of our shareholders.

We have chosen a target mix of base salary, variable compensation and long-term incentives that generally reflects our peer industrial companies with actual pay mix varying based on the performance of our Company and of the individual. Peer company practices will continue to be monitored as one reference point as we make decisions regarding target pay mix. However, we will also continue to make strategic decisions based on our unique business objectives, which may differ from common peer company practices.

While our target pay mix includes significant incentive opportunity, historically much of our compensation has been delivered in the form of base salary - due in past years to below target performance, resulting in below target annual incentive payouts, and longer intervals for granting long-term incentive opportunities. In recent years, we have moved to strengthen our pay-for-performance orientation with a higher proportion of compensation provided through variable pay. We believe the current target pay mix achieves several important objectives: it supports a strong pay-for-performance culture; it balances the focus on annual and long-term objectives in support of our business strategy; it satisfies the need for flexibility to motivate and reward exceptional performance; and it maximizes tax deductibility of compensation.

13

The approximate current target pay mix for our executive officers is set forth in the table below. The target pay mix for each NEO is based on current base salary and targeted annual and long-term incentive multiples as a percentage of base salary. We established long-term incentive targets for our executive officers in fiscal 2007 with the adoption of our Omnibus Plan; however, no awards will be granted under this Plan until fiscal 2008.

FACTORS CONSIDERED IN MAKING COMPENSATION DECISIONS. Actual

compensation levels are a function of Company and individual performance as described under each specific compensation element below. When making pay decisions, the Compensation Committee considers the competitiveness of individual elements of compensation as well as the aggregate sum of base salary, annual incentives and the expected value of long-term incentives (determined at grant) for an executive officer. Awards are generally prorated if a NEO is promoted during the year, based on the timing of the promotion. The Compensation Committee may also consider salary increase history, past bonus awards and past equity awards as context in understanding year-to-year changes in compensation and retention effect of prior awards. Under the Variable Compensation Plan and Long-Term Incentive Program, initial award amounts are determined based on comparison of actual performance to pre-established criteria. The Compensation Committee retains the discretion to decrease the size of individual awards in situations where an executive officer's individual performance falls below expectations. Final decisions on any major element of compensation, as well as total compensation for executive officers, are made by the Compensation Committee or the full Board of Directors.

Programs are generally applied consistently to NEOs. Exceptions related to CEO compensation are noted throughout this report. In addition, Mr. Wegener's position is located in Germany, and exceptions related to his compensation are noted throughout this report.

CHIEF EXECUTIVE OFFICER COMPENSATION. The Compensation Committee

establishes performance objectives for the CEO based on our annual business plan and long-term strategic goals approved by the Board of Directors. Progress against these goals is monitored on a quarterly basis. The Compensation Committee evaluates the CEO's performance against these goals annually. The

Compensation Committee also considers market data provided by our consultant, comparisons of our performance to our peers, strategic achievements during the year such as acquisitions and their integration into our business, and internal assessment of the CEO's performance provided by other members of executive management. Based on these factors, the Compensation Committee makes recommendations concerning base salary increases, annual incentive award payments, targets under the Variable Compensation Plan and awards under the Long-Term Incentive Program. The Compensation Committee has regularly-scheduled executive sessions to discuss CEO performance and compensation and other matters without any executive officers present. All aspects of the CEO's compensation are approved by our full Board of Directors.

OTHER NAMED EXECUTIVE OFFICER COMPENSATION. The Compensation

Committee approves base salary increases, Variable Compensation Plan targets and awards under the Long-Term Incentive Program and similar arrangements for the

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

other NEOs after receiving recommendations from our CEO (with input from the Vice President - Human Resources). The Compensation Committee makes the final decision and approves compensation decisions for all NEOs.

COMPONENTS OF COMPENSATION

BASE SALARY. Base salary provides a fixed amount of compensation

necessary to attract and retain key executives and to offset the cyclicity of our business which can cause fluctuations in variable compensation from year to year. The Compensation Committee reviews base salaries on an annual basis, recommends adjustments to the CEO's salary to the Board of Directors, and approves adjustments for other NEOs. Salary adjustments are based on an assessment of the individual executive's performance and merit, our goal of achieving market parity with the salaries of executives in the competitive market, recognition of promotion or other increases in responsibility, the scope of the executive's role relative to our other executives, and the general economic environment impacting the Company. History of salary increases may also be reviewed and considered. Mid-year adjustments are considered when there is a significant change in the executive's role or responsibility.

In November 2006, we restructured our European operations under the name Columbus McKinnon Europe to expand the sale of our complete product portfolio into European markets. Mr. Wegener was selected to lead the expanded business unit and was promoted to Vice President. Effective December 1, 2006, Mr. Wegener's annual base salary was increased to reflect his promotion to Vice President.

In addition, each executive officer's corporate position is assigned a title classification reflecting evaluation of the position's overall contribution to our corporate goals and the value the labor market places on the associated job skills. A range of appropriate salaries is then assigned to that title classification.

Each Spring, these salary ranges are reviewed and may be adjusted to reflect market conditions, including changes in comparison companies, inflation and supply and demand in the market. The midpoint of the salary range corresponds to a "market rate" salary which the Compensation Committee believes is appropriate for an experienced executive who is performing satisfactorily, with salaries in excess of the salary range midpoint appropriate for executives whose performance is deemed superior or outstanding.

15

The Compensation Committee has recommended that any progression within the salary range for an executive officer will depend upon a formal annual review of job performance, accomplishments and progress toward individual and/or overall goals and objectives for each segment of our business that such executive officer oversees, as well as his or her contributions to our overall direction. Long-term growth in shareholder value is an important factor. The results of executive officers' performance evaluations, as well as their demonstration and support of strong ethics and sound corporate governance, form a part of the basis of the Compensation Committee's decision to approve, at its discretion, future adjustments in base salaries of our executive officers.

Base salary adjustments for fiscal 2007 for our NEOs are shown below:

EXECUTIVE OFFICER	FISCAL 2006 BASE SALARY	FISCAL 2007 BASE SALARY
-------------------	----------------------------	----------------------------

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

Timothy T. Tevens, President and Chief Executive Officer	\$525,000	\$550,000
Derwin R. Gilbreath, Vice President and Chief Operating Officer	\$300,000	\$315,000
Karen L. Howard, Vice President - Finance and Chief Financial Officer	\$206,000 (1)	\$265,000
Wolfgang Wegener, Vice President and Managing Director - Columbus McKinnon Europe	\$355,546 (2)	\$373,324 (2)
Joseph J. Owen, Vice President and Hoist Group Leader	\$204,000	\$211,200

(1) Ms. Howard's base salary was increased to \$265,000 in January 2006 upon her promotion to Chief Financial Officer.

(2) Mr. Wegener's base salary was increased from (euro)266,626 to (euro)279,958 in December 2006 upon his promotion to Vice President. His base salary amounts shown in the table above reflect the amounts in euros as of March 31, 2006 and March 31, 2007 converted to US dollars using the conversion rate in effect at March 31, 2007.

EXECUTIVE MANAGEMENT VARIABLE COMPENSATION PLAN. The purpose of the

Variable Compensation Plan is to attract, motivate, reward, and retain highly qualified executives on a competitive basis and provide financial incentives that promote Company success. This Plan is designed to maximize the deductibility of bonuses paid under the Plan under Section 162(m) of the Internal Revenue Code which requires annual compensation in excess of \$1,000,000 to be performance-based in order to be income tax deductible.

At the beginning of each fiscal year, our Board of Directors establishes the key measures or "Drivers" for the Variable Compensation Plan. The Variable Compensation Plan focuses on short-term goals most important to our success over the fiscal year that are generally within the control of the participants. It is the policy and ongoing intention of our Board of Directors to establish targeted performance levels for each Driver as soon as the fiscal year budget is adopted, which typically is just prior to or just after the start of such fiscal year. Targeted performance levels are generally set for our Company as a whole, but may also encompass individual business units, groups, or divisions as appropriate. Drivers and targeted performance levels are based on the Board of

Directors' assessment of our priorities, outlook, current and projected economic conditions and other pertinent factors, and are intended to be challenging but achievable with significant and effective effort. The Board of Directors reviews audited year-end results to determine whether targeted performance levels have been met. The Board of Directors retains discretion to cap, reduce, or eliminate payments under the Variable Compensation Plan.

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

The Board of Directors also determines the weighting to be assigned to each Driver. For each Driver, goals are set at threshold, target, and maximum levels. Payouts are determined by multiplying the appropriate weighting by the percentages outlined in the table below; percentages are prorated when performance falls between levels. The aggregate payout to any NEO may not exceed 300% of target.

DRIVER PERFORMANCE LEVEL -----	PERCENTAGE OF TARGET (TO BE MULTIPLIED BY WEIGHT FOR EACH DRIVER) -----
Maximum Performance Level (or higher)	300%
Target Performance Level	100%
Threshold Performance Level	50%
Below Threshold Performance Level	0%

Variable compensation targets for fiscal 2007 are shown below:

EXECUTIVE OFFICER -----	VARIABLE COMPENSATION TARGET (% OF BASE SALARY) -----
Timothy T. Tevens, President and Chief Executive Officer	75%
Derwin R. Gilbreath, Vice President and Chief Operating Officer	55%
Karen L. Howard, Vice President - Finance and Chief Financial Officer	50%
Wolfgang Wegener, Vice President and Managing Director - Columbus McKinnon Europe	45%
Joseph J. Owen, Vice President and Hoist Group Leader	45%

At the beginning of fiscal 2007, Mr. Gilbreath's Variable Compensation Plan target incentive was increased from 45% of base salary to 55% and Ms. Howard's target was increased from 45% to 50%. These changes were made in order to better align award opportunity with market practice, recognize the importance of their roles and increase the proportion of total compensation which is variable based on performance.

Drivers and associated weightings for fiscal 2007, which were established by the Board of Directors, for each executive officer are shown below. NEOs with corporate responsibilities are measured primarily on consolidated results. Fiscal 2007 Drivers reflected the importance to us in fiscal 2007 of profitability, growth and efficient usage of capital. NEOs with specific business unit responsibility are measured on both consolidated and business unit results. Mr. Tevens, as CEO, has a specific Driver associated with succession planning given the importance of leadership to our future. This is intended to encourage and enhance his focus on the development and maintenance of sound

succession plans for key management positions as well as on meaningful and robust leadership development processes.

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

FISCAL 2007 DRIVERS -----	TIMOTHY T. TEVENS -----	DERWIN R. GILBREATH -----	KAREN L. HOWARD -----	WOLFGANG WEGENER -----
Consolidated Earnings Before				
Interest and Taxes	50%	50%	50%	12.5%
Consolidated Sales Growth	10%	20%	20%	5%
Consolidated Working Capital as a Percentage of Net Sales	10%	15%	15%	3.75%
Return on Capital for Chain and Crane Builders groups	10%	15%	15%	3.75%
Succession Planning based on the Committee's evaluation of performance relative to specific, pre-established objectives	20%	N/A	N/A	N/A
Hoist Business Units	N/A	N/A	N/A	N/A
Columbus McKinnon Europe	N/A	N/A	N/A	75%

Drivers for the fiscal 2008 Variable Compensation Plan are the same except that (i) Consolidated Inventory Turns will replace Consolidated Working Capital as a Percentage of Net Sales as a Driver for all NEOs, (ii) weightings for Consolidated Earnings Before Interest and Taxes for Mr. Tevens, Mr. Gilbreath, Ms. Howard and Mr. Owen will be reduced to 40%, 45%, 45% and 22.5%, respectively, (iii) weightings for Consolidated Sales Growth for Mr. Tevens, Mr. Gilbreath, Ms. Howard and Mr. Owen will be increased to 20%, 25%, 25% and 12.5%, respectively, and (iv) weightings for Mr. Wegener for Consolidated Earnings Before Interest and Taxes, Consolidated Sales Growth, Consolidated Inventory Turns, Return on Capital for Chain and Crane Builders groups and Columbus McKinnon Europe will be 25%, 10%, 7.5%, 7.5% and 50%, respectively.

See the Summary Compensation Table for actual awards for fiscal 2007 performance made to NEOs.

Awards to NEOs are made under the Variable Compensation Plan in order to maximize deductibility of these amounts for federal income tax purposes under Section 162(m) of the Internal Revenue Code. The portion of Mr. Tevens' award that is attributable to succession planning is not expected to meet the performance-based criteria required by Section 162(m) for income tax deductibility. However, the Compensation Committee has determined that it is in our best interest to include succession planning as a criteria for Mr. Tevens even though that portion of the award may not be deductible.

LONG-TERM INCENTIVES. In fiscal 2006, we began to re-evaluate our

long-term incentive strategy to better align long-term incentive awards with our current business and talent needs, resulting in the establishment of our Long-Term Incentive Program. This process continued through fiscal 2007 as we adopted the Omnibus Plan which was approved by shareholders in July 2006. Prior to this time, we had separate equity plans covering different long-term

incentive vehicles - restricted stock, non-qualified stock options, and incentive stock options. All of our Equity Plans are described below.

The objectives of the new Long-Term Incentive Program are to (i) link executive compensation and our long-term performance, (ii) better align key employees with our business strategies and with our shareholders' interests and (iii) provide opportunity for long-term compensation that is competitive with peer companies and sufficient to attract and retain executive talent to effectively manage our business objectives.

In developing target levels for long-term incentive compensation for NEOs in conjunction with the new equity strategy, the following factors were considered: (i) a competitive analysis provided by our consultant, (ii) the impact of roles within our Company and (iii) the cost and share usage associated with the proposed plan. Target long-term incentives (as a percentage of salary) are as follows:

EXECUTIVE OFFICER -----	LONG-TERM INCENTIVE TARGET (% OF BASE SALARY) -----
Timothy T. Tevens, President and Chief Executive Officer	100%
Derwin R. Gilbreath, Vice President and Chief Operating Officer	80%
Karen L. Howard, Vice President - Finance and Chief Financial Officer	80%
Wolfgang Wegener, Vice President and Managing Director - Columbus McKinnon Europe	25%
Joseph J. Owen, Vice President and Hoist Group Leader	50%

These targets may be adjusted by the Compensation Committee.

The target long-term incentive mix for our NEOs consists of non-qualified stock options (30% of target value), restricted stock (30% of target value), and performance shares (40% of target value). Dollar values are converted to share numbers based on an estimate of expected value at grant.

With the July 2006 approval of the Omnibus Plan, we anticipate regular grants will occur on an annual basis at the beginning of each fiscal year, if appropriate, based on Company performance. However, the program was introduced in the second half of fiscal 2007 in connection with a key strategic planning initiative. A revenue-based performance target was set for a partial award reflecting second half fiscal 2007 performance. Since this target was not met, no grants were made under the program for this period.

Going forward, we expect our program to consist of the following:

STOCK OPTIONS AND RESTRICTED STOCK. Stock options are included to

link compensation to stock price appreciation and support our growth objectives. In order to support retention and align executives with our stock performance

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

over a longer horizon, options vest 25% annually over four years and remain exercisable for 10 years from the date of grant.

19

Restricted stock awards are designed to support executive retention and share ownership. Vesting of restricted stock awards under the Restricted Stock Plan and the Omnibus Plan is at the discretion of the Compensation Committee, subject to certain limitations; however, the current practice of the Compensation Committee is to have such awards vest ratably over three years beginning on the third anniversary of the date of the award.

Beginning in fiscal 2008, grants of stock options and restricted stock in the following year (e.g., fiscal 2009) will be determined based on an evaluation of Return on Invested Capital performance for the fiscal year ended. Awards are determined in the following manner:

RETURN ON INVESTED CAPITAL PERFORMANCE LEVEL -----	GRANT VALUE (% OF TARGET) -----
Below Threshold	0%
Threshold	50%
Target	100%
Maximum	150%

Grant levels between threshold and maximum will be interpolated based on results.

PERFORMANCE SHARES. Grants of performance shares will be made

annually beginning in 2008 (with vesting beginning in 2010). Actual vesting of the awards and their ultimate value will be determined by relative three-year total shareholder return. Total shareholder return is based on annualized rates of return reflecting stock price appreciation plus reinvestment of dividends, if applicable. Performance will be assessed against a broader set of peer companies than is used for compensation benchmarking in order to (i) reduce the possibility of distortions in performance within a small group, (ii) better reflect the companies we compete with for capital and (iii) provide a more stable peer group over the 3-year measuring period, by reducing the effect of consolidation and attrition. The peer companies consist of companies that are of comparable size to us (generally one-half to twice our size in terms of revenue) and that we consider to be primary competitors for talent, capital, and/or customers. The performance and payout relationship is illustrated in the table below:

RELATIVE TOTAL SHAREHOLDER RETURN PERFORMANCE -----	PAYOUT (% OF TARGET) -----
Below 25th Percentile	0%
25th Percentile	25%
Median	100%
75th Percentile and above	150%

Payout levels between threshold and maximum will be interpolated based on results.

The long-term incentive strategy is designed to support our business strategy and the interests of our shareholders. Where possible, the program has been designed such that long-term incentives can qualify as performance-based

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

compensation so that the expense associated with the program is fully deductible for federal income tax purposes. Stock options, restricted stock and performance shares are expected to qualify as performance-based compensation.

20

STOCK OPTION GRANTING PRACTICES. Historically, we have made periodic stock option grants to NEOs. No grants were made to NEOs in fiscal 2007; the last grant was made in fiscal 2005, except for NEOs newly hired or promoted. The exercise price for any stock option is equal to the fair market value on the date of grant, which is an average of the opening and closing price on the date of grant. The date of grant is the date of the Board of Directors meeting at which the award is approved.

During fiscal 2006 and 2007, Mr. Tevens and Ms. Howard had in place plans under Rule 10b-5 of the Exchange Act. These plans were established during an appropriate trading window and allowed for the exercise of options due to expire as of December 31, 2006. These plans established pre-set stock price thresholds at which a specific number of options would be exercised, with some of the shares sold to pay the exercise price and the resulting income tax from such sales. Our stock reached these pre-set threshold levels in March and April of 2006. The plans have now been fully executed.

RETIREMENT AND DEFERRED COMPENSATION. Retirement benefits provided to NEOs (other than Mr. Wegener) are the same as those provided to our other full-time, salaried domestic employees. Retirement programs are designed to provide a competitive benefit to employees while allowing the Company to manage costs.

The Columbus McKinnon Corporation Monthly Retirement Benefit Plan, a defined benefit pension plan (the "Pension Plan"), provides an annual benefit at age 65 equal to the product of (i) 1% of the participant's final average earnings plus 0.5% of that part, if any, of final average earnings in excess of social security covered compensation, multiplied by (ii) such participant's years of credited service, limited to 35 years.

Mr. Wegener is covered by a pension plan sponsored by our German subsidiary, Yale Industrial Products GmbH. This defined benefit pension plan provides an annual benefit at age 65 equal to the product of (i) 0.5% of the highest average annual earnings of five years in succession of the last ten years prior to retirement, multiplied by (ii) credited years of service prior to age 65.

We also maintain a 401(k) retirement savings plan covering non-union domestic employees. Highly compensated employees may contribute up to 7% of annual cash compensation (base salary and payments under the Variable Compensation Plan) subject to IRS limits. We match 50% of the employee's contribution up to 3% of salary.

We maintain an Employee Stock Ownership Plan for the benefit of our domestic, non-union employees including our domestic NEOs. This Plan is considered a retirement benefit by the Company in conjunction with its defined benefit pension and 401(k) retirement savings plan.

We do not have a non-qualified retirement or deferred compensation plan in place at this time. However, the Compensation Committee is considering the establishment of a deferred compensation plan in fiscal 2008 under which eligible participants (including our Directors and domestic NEOs) may elect to defer a portion of their compensation.

OTHER BENEFITS AND PERQUISITES. We provide very limited perquisites and other compensation to our NEOs. Instead, as previously discussed, we have

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

elected to provide competitive fixed compensation through salary and benefits with opportunity for additional compensation through variable compensation based on Company performance.

21

NEOs may participate in benefit plans that are offered generally to salaried domestic employees such as those described above, as well as short and long-term disability, life insurance, health and welfare benefits, and paid time off.

Because the market for executive talent is national, and in some cases, global, we may recruit from outside of the regional area in order to obtain top talent. We may elect to pay relocation costs for full-time employees who are required to relocate in connection with their employment (including NEOs) to minimize any financial detriment to the employee. In situations where we pay relocation cost, we may also provide a payment to cover the cost of any additional taxes the employee incurs as a result of the reimbursement (a gross-up payment). See the Summary Compensation Table for amounts provided to Mr. Gilbreath in connection with his relocation.

Mr. Wegener is employed in Germany and receives government benefits including health care, pension and unemployment insurance, for which we provide mandatory contributions. Mr. Wegener is also covered by workers' compensation insurance, for which we make contributions on his behalf. Mr. Wegener is also entitled to the use of an automobile for business purposes.

EMPLOYMENT AND CHANGE-IN-CONTROL AGREEMENTS.

EMPLOYMENT AGREEMENTS. With the exception of Mr. Wegener, the Company

has no employment agreements with its NEOs, but does provide these other NEOs with eligibility for severance benefits under our general severance policy.

Mr. Wegener's agreement, entered into in 1996, does not have a fixed term and may be terminated by either party upon delivering written notice at least six months prior to the end of a calendar quarter. Mr. Wegener's base salary is reviewed and may be adjusted annually. Mr. Wegener also participates in our Variable Compensation Plan and Long-Term Incentive Program.

Mr. Wegener's agreement contains various restrictive covenants relating to the protection of confidential information and non-disclosure.

CHANGE IN CONTROL AGREEMENTS. We have entered into change in control

agreements with Messrs. Tevens and Gilbreath, Ms. Howard and Mr. Owen and certain other of our officers and employees. The intent of these agreements is to provide executive officers with financial security in the event of a change-of-control to facilitate a transaction which may benefit shareholders but result in job loss to executives. The change in control agreements provide for an initial term of one year, which, absent delivery of notice of termination, is automatically renewed annually for an additional one year term. Generally, each of the NEOs (other than Mr. Wegener) is entitled to receive, upon termination of employment within 36 months of a change in control of our Company (unless such termination is because of death, disability, for cause or by the officer or employee other than for "good reason," as defined in the change in control agreements), (i) a lump sum severance payment equal to three times the sum of (A) his or her annual salary and (B) the greater of (1) the annual target bonus under the Variable Compensation Plan in effect on the date of termination and (2) the annual target bonus under the Variable Compensation Plan in effect

immediately prior to the change in control, (ii) continued coverage for 36 months under our medical and life insurance plans, (iii) a lump sum payment equal to the actuarial equivalent of the pension payment which he or she would have accrued under our tax-qualified retirement plans had he or she continued to be employed by us for three additional years and (iv) certain other specified payments. Aggregate "payments in the nature of compensation" (within the meaning

22

of Section 280G of the Internal Revenue Code) payable to any executive or employee under the change in control agreements is limited to the amount that is fully deductible by us under Section 280G of the Internal Revenue Code less one dollar. The events that trigger a change in control under these agreements include (i) the acquisition of 20% or more of our outstanding common stock by certain persons, (ii) certain changes in the membership of our Board of Directors, (iii) certain mergers or consolidations, (iv) certain sales or transfers of substantially all of our assets and (v) the approval by our shareholders of a plan of dissolution or liquidation.

Under the Equity Plans, vesting of equity awards is generally not accelerated upon a change-in-control unless the executive experiences a covered termination. Change in control benefits are provided only upon a covered termination in order to support and promote shareholder interests by limiting cost of these agreements and providing a potential retention vehicle. Severance benefits payable upon a change in control are also limited to the amount that is fully tax deductible to us, which limits our cost.

TAX AND ACCOUNTING CONSIDERATIONS. The Compensation Committee has considered the implications of Section 162(m) of the Internal Revenue Code in making decisions concerning compensation design and administration. The Compensation Committee views tax deductibility as an important consideration and intends to maintain deductibility wherever possible, but also believes that our business needs should be the overriding factor of compensation design. Therefore, the Compensation Committee believes it is important to maintain flexibility and has not adopted a policy requiring that specific programs meet the requirements of performance-based compensation under Section 162(m). The Committee also considers tax implications for executives and structures its compensation programs to comply with Section 409A of the Internal Revenue Code. Accounting and cost implications of compensation programs are considered in program design; however, the main factor is alignment with our business needs.

INCENTIVE PLANS

2006 LONG TERM INCENTIVE PLAN. In May 2006, we adopted the Omnibus Plan and reserved, subject to certain adjustments, an aggregate of 850,000 shares of our common stock for issuance thereunder. The Omnibus Plan was approved by our shareholders in July 2006 at our 2006 Annual Meeting. Under the terms of Omnibus Plan, incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, restricted stock units and stock bonuses may be granted by our Compensation Committee to our officers and other key employees as well as to non-employee directors. In fiscal 2007, we granted 9,390 shares of our common stock and 7,200 restricted stock units under the Omnibus Plan.

NON-QUALIFIED STOCK OPTION PLAN. In October 1995, we adopted the Non-Qualified Plan and reserved, subject to certain adjustments, an aggregate of 250,000 shares of our common stock for issuance thereunder. Under the terms of the Non-Qualified Plan, which was amended in 1999, options may be granted by our Compensation Committee to our officers and other key employees as well as to non-employee directors and advisors. In fiscal 2007, we granted options to purchase 10,000 shares of our common stock under the Non-Qualified Plan. There

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

are 63,320 shares remaining for future issuance under the Non-Qualified Plan. We plan to utilize these available shares in connection with future option grants where appropriate.

INCENTIVE STOCK OPTION PLAN. Our ISO Plan, which was adopted in October 1995 and amended in 2002, authorizes our Compensation Committee to grant to our officers and other key employees stock options that are intended to qualify as "incentive stock options" within the meaning of Section 422 of the Internal

23

Revenue Code. The ISO Plan reserved, subject to certain adjustments, an aggregate of 1,750,000 shares of common stock to be issued thereunder. Options granted under the ISO Plan become exercisable over a four-year period at the rate of 25% per year commencing one year from the date of grant at an exercise price of not less than 100% of the fair market value of our common stock on the date of grant. Any option granted thereunder may be exercised not earlier than one year and not later than ten years from the date the option is granted. In the event of certain extraordinary transactions, including a change in control, the vesting of such options would automatically accelerate. In fiscal 2007, we granted options to purchase 60,000 shares of our common stock under the ISO. There are 69,280 shares remaining for future issuance under the ISO Plan. We plan to utilize these available shares in connection with future option grants where appropriate.

RESTRICTED STOCK PLAN. Our Restricted Stock Plan, which was adopted in October 1995 and amended in 2002, reserves, subject to certain adjustments, an aggregate of 150,000 shares of our common stock to be issued upon the grant of restricted stock awards thereunder. Under the terms of the Restricted Stock Plan, our Compensation Committee may grant to our employees restricted stock awards to purchase shares of common stock at a purchase price of not less than \$.01 per share. Shares of common stock issued under the Restricted Stock Plan are subject to certain transfer restrictions and, subject to certain exceptions, must be forfeited if the grantee's employment with us is terminated at any time prior to the date the transfer restrictions have lapsed. Grantees who remain continuously employed with us become vested in their shares five years after the date of the grant, or earlier upon death, disability, retirement or other special circumstances. The restrictions on any such stock awards automatically lapse in the event of certain extraordinary transactions, including a change in our control. In fiscal 2007, we did not grant any restricted stock awards under the Restricted Stock Plan. There are 48,000 shares remaining for future issuance under the Restricted Stock Plan. We plan to utilize these available shares in connection with future awards where appropriate.

EXECUTIVE MANAGEMENT VARIABLE COMPENSATION PLAN. In 2006, we adopted our Variable Compensation Plan to replace our previous corporate incentive plan and to pay covered employees appropriate bonuses for their performance and to obtain, for federal income tax purposes, the deductibility of bonus awards made under this Plan. Accordingly, the amounts payable under this Plan are intended to constitute "qualified performance-based compensation" under Section 162(m) of the Internal Revenue Code. Our executive officers and certain of our managers are eligible to participate in the Executive Management Variable Compensation Plan. Under this Plan, for each fiscal year, the objective performance goal(s) for each participant is set by the Compensation Committee within the first 90 days of the fiscal year. The performance goals will relate to one or more business criteria within the meaning of Section 162(m) of the Internal Revenue Code, but limited to: net earnings (either before or after interest, taxes, depreciation and amortization), economic value-added (as determined by the Compensation and Succession Committee), sales or revenue, net income (either before or after taxes), operating earnings or income, cash flow (including, but

Edgar Filing: COLUMBUS MCKINNON CORP - Form DEF 14A

not limited to, operating cash flow and free cash flow), cash flow return on capital, return on investment, return on shareholders' equity, return on assets or net assets, return on capital, debt reduction, stockholder returns, return on sales, gross or net profit margin, productivity, expense, margins, operating efficiency, cost reduction or savings, customer or employee satisfaction, safety, working capital, earnings or diluted earnings per share, price per share of our common stock, and market share, any of which may be measured either in absolute terms or as compared to any incremental increase or as compared to results of a peer group. After the end of each fiscal year, the Compensation Committee will determine and certify in writing the amount of bonus to be

24

awarded to each participant in accordance with the limitations established by the Plan, which bonus will be paid in cash.

401(K) PLAN. We maintain a 401(k) retirement savings plan which covers all of our non-union employees in the U.S., including our executive officers, who have completed at least 90 days of service. Eligible participants may contribute up to 30% of their annual compensation (7% for highly compensated employees), subject to an annual limitation as adjusted by the provisions of the Internal Revenue Code. Employee contributions are matched by us in an amount equal to 50% of the employee's contributions, as such term is defined in the 401(k) Plan. Our matching contributions are limited to the first 3.0% of the employee's base pay and vest at the rate of 20% per year.

PENSION PLAN

We have a non-contributory, defined benefit Pension Plan which provides certain of our domestic employees with retirement benefits. As defined in the Pension Plan, a participant's annual pension benefit at age 65 is equal to the product of (i) 1% of the participant's final average earnings, as calculated by the terms of the Pension Plan, plus 0.5% of that part, if any, of final average earnings in excess of such participant's "social security covered compensation," as such term is defined in the Pension Plan, multiplied by (ii) such participant's years of credited service, limited to 35 years. Plan benefits are not subject to reduction for social security benefits.

As discussed above, Mr. Wegener is covered by a pension plan sponsored by our German subsidiary, Yale Industrial Products GmbH. This defined benefit pension plan provides an annual benefit at age 65 equal to the product of (i) 0.5% of the highest average annual earnings of five years in succession of the last ten years prior to retirement, multiplied by (ii) credited years of service prior to age 65.

29

The following table sets forth with respect to each of our plans that provides retirement benefits to our NEOs, (i) the years of credited service of each of the executives named in the summary compensation table, (ii) the present value of his or her accumulated benefit and (iii) payments received by him or her during fiscal 2007:

- (3) The present value of accumulated benefit under the Yale Industrial Products GmbH Pension Plan is calculated as of March 31, 2007 using (i) a discount rate of 4.75%, (ii) the Richttafeln 2005G by Klaus Heubeck Mortality Table, (iii) the retirement age under German social security legislation and (iv) the euro to dollar conversion rate in effect on March 31, 2007.

NON-QUALIFIED DEFERRED COMPENSATION

We do not have any non-qualified defined contribution or other plan that provides for the deferral of compensation. However, the Compensation Committee is considering the establishment of a deferred compensation plan in fiscal 2008 under which eligible participants (including our directors and domestic NEOs) may elect to defer a portion of their compensation.

OTHER POTENTIAL POST-EMPLOYMENT PAYMENTS

It is our policy to provide severance benefits to each of our domestic full-time salaried employees and hourly employees not covered by a collective

30

bargaining agreement who involuntarily lose their positions without cause. Eligible employees who sign a release generally receive (i) one week of base salary at the rate then in effect for each full year of continuous service (with any fractions being rounded up) and (ii) continuation of medical, dental and life insurance benefits for the severance period.

The following table sets forth the amount each NEO would receive under various termination scenarios described above using the following assumptions:
