 Form 10-Q
 December 15, 2015

UNITED STATES
 SECURITIES AND EXCHANGE COMMISSION
 WASHINGTON, D.C. 20549
 FORM 10-Q
 QUARTERLY REPORT
 PURSUANT TO SECTION 13 OR 15(d) OF
 THE SECURITIES EXCHANGE ACT OF 1934
 For the quarterly period ended October 31, 2015
 Commission file number 1-11609
 TOYS “R” US, INC.
 (Exact name of registrant as specified in its charter)

Delaware	22-3260693
(State or other jurisdiction of incorporation or organization)	(IRS Employer Identification Number)

One Geoffrey Way Wayne, New Jersey	07470
(Address of principal executive offices)	(Zip code)

(973) 617-3500
 (Registrant’s telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No
 (Note: As a voluntary filer not subject to the filing requirements of Section 13(a) or 15(d) of the Exchange Act, the registrant has filed all reports pursuant to Section 13(a) or 15(d) of the Exchange Act during the preceding 12 months as if the registrant were subject to such filing requirements.)

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of December 10, 2015, there were 49,389,042 outstanding shares of common stock of Toys “R” Us, Inc., none of which were publicly traded.

TOYS “R” US, INC. AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of presentation

As used herein, the “Company,” “we,” “us,” or “our” means Toys “R” Us, Inc., and its consolidated subsidiaries, except as expressly indicated or unless the context otherwise requires. The Condensed Consolidated Balance Sheets as of October 31, 2015, January 31, 2015 and November 1, 2014, the Condensed Consolidated Statements of Operations and the Condensed Consolidated Statements of Comprehensive Loss for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014 and the Condensed Consolidated Statements of Cash Flows and the Condensed Consolidated Statements of Stockholders’ Deficit for the thirty-nine weeks ended October 31, 2015 and November 1, 2014, have been prepared by us in conformity with accounting principles generally accepted in the United States of America (“GAAP”) for interim reporting, and in accordance with the requirements of this Quarterly Report on Form 10-Q. Our interim Condensed Consolidated Financial Statements are unaudited and are subject to year-end adjustments. In the opinion of management, the financial statements include all known adjustments (which consist primarily of normal, recurring accruals, estimates and assumptions that impact the financial statements) necessary to present fairly the financial position at the balance sheet dates and the results of operations for the thirteen and thirty-nine weeks then ended. The Condensed Consolidated Balance Sheet at January 31, 2015, presented herein, has been derived from our audited balance sheet included in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015, but does not include all disclosures required by GAAP. These financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included within our Annual Report on Form 10-K for the fiscal year ended January 31, 2015. The results of operations for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014 are not necessarily indicative of operating results for the full year.

2. Short-term borrowings and long-term debt

A summary of the Company's consolidated Short-term borrowings and Long-term debt as of October 31, 2015, January 31, 2015 and November 1, 2014 is outlined in the table below:

(In millions)	October 31, 2015	January 31, 2015	November 1, 2014

Less: current portion	204	176	128
Total Long-term debt (7)	\$5,436	\$4,612	\$5,645

On June 30, 2015, Toys "R" Us - Japan, Ltd. ("Toys-Japan") entered into an agreement with a syndicate of financial (1)institutions to refinance its committed line of credit ("Tranche 1" due fiscal 2015) into Tranche 1A due fiscal 2017 and Tranche 1B due fiscal 2016.

(2)Represents obligations of Toys "R" Us, Inc. (the "Parent Company").

(3)Represents obligations of Toys "R" Us Property Company II, LLC ("TRU Propco II").

(4)Represents obligations of Toys "R" Us-Delaware, Inc. ("Toys-Delaware").

(5)Represents obligations of Toys "R" Us Property Company I, LLC and its subsidiaries ("TRU Propco I").

(6)Represents obligations of the Parent Company and Toys-Delaware.

(7) We maintain derivative instruments on certain of our long-term debt, which impact our effective interest rates. Refer to Note 3 entitled "Derivative instruments and hedging activities" for further details.

The Parent Company is a holding company and conducts its operations through its subsidiaries, certain of which have incurred their own indebtedness. Our credit facilities, loan agreements and indentures contain customary covenants that, among other things, restrict our ability to:

• incur certain additional indebtedness;

• transfer money between the Parent Company and our various subsidiaries;

• pay dividends on, repurchase or make distributions with respect to our or our subsidiaries' capital stock or make other restricted payments;

• issue stock of subsidiaries;

- make certain investments, loans or advances;
- transfer and sell certain assets;
- create or permit liens on assets;
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets;
- enter into certain transactions with our affiliates; and
- amend certain documents.

The amount of total net assets that were subject to such restrictions was \$457 million as of October 31, 2015. Our agreements also contain various and customary events of default with respect to the indebtedness, including, without limitation, the failure to pay interest or principal when the same is due under the agreements, cross default and cross acceleration provisions, the failure of representations and warranties contained in the agreements to be true and certain insolvency events. If an event of default occurs and is continuing, the principal amounts outstanding thereunder, together with all accrued and unpaid interest and other amounts owed thereunder, may be declared immediately due and payable by the lenders.

We are dependent on the borrowings provided by the lenders to support our working capital needs, capital expenditures and to service debt. As of October 31, 2015, we have funds available to finance our operations under our \$1.85 billion secured revolving credit facility (“ABL Facility”) through March 2019, subject to an earlier springing maturity, our Toys-Japan unsecured credit lines with two tranches maturing June 2016 and a tranche maturing June 2017 and our European and Australian asset-based revolving credit facility (“European ABL Facility”) through March 2016. In addition, Toys (Labuan) Holding Limited (“Labuan”) and Toys-Japan have uncommitted lines of credit due on demand.

Labuan uncommitted lines of credit, due on demand (\$8 million at October 31, 2015)

Labuan has several uncommitted unsecured lines of credit with various financial institutions with total availability of HK\$220 million (\$28 million at October 31, 2015). As of October 31, 2015, we had \$8 million of borrowings, which has been included in Accrued expenses and other current liabilities on our Condensed Consolidated Balance Sheet, and \$5 million of bank guarantees issued under these facilities. The remaining availability under these facilities was \$15 million. The average interest rate on the drawn borrowings was 1.55% and 2.39% at October 31, 2015 and November 1, 2014, respectively.

European and Australian asset-based revolving credit facility, expires fiscal 2016 (\$79 million at October 31, 2015)

The European ABL Facility, as amended, provides for a five-year £138 million (\$213 million at October 31, 2015) asset-based senior secured revolving credit facility which expires on March 8, 2016. As of October 31, 2015, we had outstanding borrowings of \$79 million, with \$112 million of remaining availability under the European ABL Facility.

Toys-Japan unsecured credit lines, expire fiscals 2016-2017 (\$3 million at October 31, 2015)

Toys-Japan currently has an agreement with a syndicate of financial institutions, which includes three unsecured loan commitment lines of credit.

On June 30, 2015, Toys-Japan entered into an agreement with a syndicate of financial institutions to refinance Tranche 1. As a result, Tranche 1 was refinanced into Tranche 1A and Tranche 1B. Tranche 1A is available in amounts of up to ¥9.45 billion (\$78 million at October 31, 2015), expires on June 30, 2017 and bears an interest rate of Tokyo Interbank Offered Rate (“TIBOR”) plus 0.80% per annum. As of October 31, 2015 we had outstanding borrowings of \$3 million under Tranche 1A, with \$75 million of remaining availability. Tranche 1B is available in amounts of up to ¥2.0 billion (\$17 million at October 31, 2015), expires on June 30, 2016 and bears an interest rate of TIBOR plus 0.80% per annum. As of October 31, 2015 we had no outstanding borrowings under Tranche 1B, with \$17 million of remaining availability. In addition, a commitment fee accrues on any unused portion of Tranche 1A and Tranche 1B at a rate of 0.250% per annum. We paid fees of \$2 million to refinance Tranche 1, which are capitalized as deferred debt issuance costs and amortized over the term of the agreement.

The agreement contains covenants that require, among other things, Toys-Japan to maintain a certain level of net assets and profitability during the agreement terms, including provisions that require Toys-Japan to not incur two consecutive years of ordinary loss in accordance with accounting principles generally accepted in Japan, as defined in the credit agreement. The agreement also restricts Toys-Japan from paying dividends or making loans to affiliates without lender consent.

Tranche 2 is available in amounts of up to ¥3.5 billion (\$29 million at October 31, 2015) and expires on June 30, 2016. As of October 31, 2015, we had no outstanding borrowings under Tranche 2, with \$29 million of remaining availability.

Additionally, on June 30, 2015, Toys-Japan amended an unsecured uncommitted line of credit reducing its total availability from ¥1.5 billion to ¥1.0 billion (\$8 million at October 31, 2015), which renews August 1 of each year unless otherwise

canceled. The uncommitted line of credit continues to bear an interest rate of TIBOR plus 0.50%. As of October 31, 2015 we had no outstanding borrowings under the uncommitted line of credit.

Toys-Japan has an additional unsecured uncommitted line of credit with total availability of ¥0.5 billion (\$4 million at October 31, 2015). As of October 31, 2015 we had no outstanding borrowings under the uncommitted line of credit.

\$1.85 billion secured revolving credit facility, expires fiscal 2019 (\$814 million at October 31, 2015)

Under our ABL Facility which expires on March 21, 2019 subject to an earlier springing maturity, we had outstanding borrowings of \$814 million, a total of \$99 million of outstanding letters of credit and excess availability of \$905 million as of October 31, 2015. We are also subject to a minimum excess availability covenant of \$125 million, with remaining availability of \$780 million in excess of the covenant at October 31, 2015.

Senior unsecured term loan facility, due fiscal 2019 (\$922 million at October 31, 2015)

The senior unsecured term loan facility due fiscal 2019 (the "Propco I Term Loan Facility") requires TRU Propco I to prepay outstanding term loans with 25% of TRU Propco I's annual excess cash flow (as defined in the Propco I Term Loan Facility), commencing with the fiscal year ended January 31, 2015, subject to the rights of the lenders to decline such prepayment. As a result, TRU Propco I made a prepayment of \$25 million on May 11, 2015.

In addition, the Propco I Term Loan Facility requires TRU Propco I to prepay outstanding term loans at specified times, subject to certain exceptions and reinvestment rights, in connection with certain asset sales in an amount equal to 65% of the appraised value (as defined in the Propco I Term Loan Facility) of the real property disposed of in such sale. As a result, on August 28, 2015, TRU Propco I made a prepayment of \$16 million.

3. Derivative instruments and hedging activities

We are exposed to market risk from potential changes in interest rates and foreign currency exchange rates. We regularly evaluate our exposure and enter into derivative financial instruments to economically manage these risks. We record all derivatives as either assets or liabilities on the Condensed Consolidated Balance Sheets measured at estimated fair value and we do not offset assets and liabilities with the same counterparty. We recognize the changes in fair value as unrealized gains and losses. The recognition of these gains or losses depends on our intended use of the derivatives and the resulting designation. In certain defined conditions, we may designate a derivative as a hedge for a particular exposure.

Interest Rate Contracts

We and our subsidiaries have a variety of fixed and variable rate debt instruments and are exposed to market risks resulting from interest rate fluctuations. We enter into interest rate swaps and/or caps to reduce our exposure to variability in expected future cash outflows and changes in the fair value of certain Long-term debt, attributable to the changes in London Interbank Offered Rate ("LIBOR"), Euro Interbank Offered Rate and TIBOR. Some of our interest rate contracts contain credit-risk related contingent features and are subject to master netting arrangements. As of October 31, 2015, our interest rate contracts have various maturity dates through February 2018 and are designated as cash flow hedges in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 815, "Derivatives and Hedging."

The hedge accounting for a designated cash flow hedge requires that the effective portion be recorded to Accumulated other comprehensive loss; the ineffective portion of a cash flow hedge is recorded to Interest expense. We evaluate the effectiveness of our cash flow hedging relationships on an ongoing basis. For our derivatives that are designated as cash flow hedges, no material ineffectiveness was recorded for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014, respectively. Reclassifications from Accumulated other comprehensive loss to Interest expense primarily relate to realized interest expense on interest rate swaps and caps and the amortization of gains recorded on de-designated caps. We expect to reclassify a net loss of less than \$1 million over the next 12 months to Interest expense from Accumulated other comprehensive loss.

Certain of our agreements with credit-risk related contingent features contain cross-default provisions which provide that we could be declared in default on our derivative obligations if we default on certain specified indebtedness. At October 31, 2015, January 31, 2015 and November 1, 2014, there were no interest rate derivative liabilities related to agreements that contain credit-risk related contingent features. As of October 31, 2015, January 31, 2015 and November 1, 2014, we were not required to post collateral for any of these derivatives.

Foreign Exchange Contracts

We enter into foreign currency forward contracts to economically hedge the U.S. Dollar (“USD”) merchandise purchases of our foreign subsidiaries and our short-term, cross-currency intercompany loans with and between our foreign subsidiaries. We

9

enter into these contracts in order to reduce our exposure to the variability in expected cash outflows attributable to changes in foreign currency rates. These derivative contracts are not designated as hedges and are recorded on our Condensed Consolidated Balance Sheets at fair value with a gain or loss recorded on the Condensed Consolidated Statements of Operations in Interest expense.

Our foreign exchange contracts typically mature within 12 months. Some of these contracts contain credit-risk related contingent features and are subject to master netting arrangements. Some of these agreements contain provisions which provide that we could be declared in default on our derivative obligations if we default on certain specified indebtedness. At October 31, 2015, January 31, 2015 and November 1, 2014, derivative liabilities related to agreements that contain credit-risk related contingent features had a fair value of \$4 million, \$2 million and \$1 million, respectively. As of October 31, 2015, January 31, 2015 and November 1, 2014, we were not required to post collateral for any of these derivatives.

The following table sets forth the net impact of the effective portion of derivatives designated as cash flow hedges on Accumulated other comprehensive loss on our Condensed Consolidated Statements of Stockholders' Deficit for the thirty-nine weeks ended October 31, 2015 and November 1, 2014:

(In millions)	39 Weeks Ended	
	October 31, 2015	November 1, 2014
Derivatives designated as cash flow hedges:		
Beginning balance	\$—	\$(1)
Change in fair value recognized in Accumulated other comprehensive loss - Interest Rate Contracts	—	—
Reclassifications from Accumulated other comprehensive loss - Interest Rate Contracts	1	1
Ending balance	\$1	\$—

The following table sets forth the impact of derivatives on Interest expense on our Condensed Consolidated Statements of Operations for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014:

(In millions)	13 Weeks Ended		39 Weeks Ended	
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014
Derivatives not designated for hedge accounting:				
Loss on the change in fair value - Intercompany Loan Foreign Exchange Contracts (1)	\$—	\$(2)	\$(13)	\$(17)
Loss on the change in fair value - Interest Rate Contract	—	(1)	—	(2)
Gain on the change in fair value - Merchandise Purchases Program Foreign Exchange Contracts	1	7	6	6
	1	4	(7)	(13)
Derivatives designated as cash flow hedges:				
Amortization of hedged caps	(1)	—	(1)	(1)
	(1)	—	(1)	(1)
Derivative designated as a fair value hedge:				
Loss on the change in fair value - Interest Rate Contract	—	—	—	(2)
Gain recognized in Interest expense on hedged item	—	—	—	2
	—	—	—	—
Total Interest expense	\$—	\$4	\$(8)	\$(14)

Losses related to our short-term intercompany loan foreign exchange contracts are recorded in Interest expense, in (1) addition to the corresponding foreign exchange gains and losses related to our short-term, cross-currency intercompany loans.

The following table contains the notional amounts and related fair values of our derivatives included within our Condensed Consolidated Balance Sheets as of October 31, 2015, January 31, 2015 and November 1, 2014:

(In millions)	October 31, 2015		January 31, 2015		November 1, 2014

Total derivative liabilities (2)	\$204	\$(4)	\$132	\$(2)	\$216	\$(1)

(1) In April 2015, five interest rate caps matured.

(2) Refer to Note 4 entitled "Fair value measurements" for the classification of our derivative instruments within the fair value hierarchy.

Offsetting of Derivatives

We present our derivatives at gross fair values in the Condensed Consolidated Balance Sheets. However, some of our interest rate and foreign exchange contracts are subject to master netting arrangements which allow net settlements under certain conditions. There was no aggregate gross fair value of derivative liabilities which could be net settled against our derivative assets as of October 31, 2015 and November 1, 2014, respectively. The aggregate gross fair value of derivative liabilities which could be net settled against our derivative assets was nominal as of January 31, 2015. The aggregate gross fair value of derivative assets which could be net settled against our derivative liabilities was less than \$1 million as of October 31, 2015, and nominal as of January 31, 2015 and November 1, 2014, respectively. As of October 31, 2015, January 31, 2015 and November 1, 2014, none of the master netting arrangements involved collateral.

4. Fair value measurements

To determine the fair value of our assets and liabilities, we utilize the established fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the

reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Derivative Financial Instruments

Currently, we use derivative financial arrangements to manage a variety of risk exposures, including interest rate risk associated with our Long-term debt and foreign currency risk relating to cross-currency intercompany lending and merchandise purchases. The valuation of our foreign currency contracts is determined using market-based foreign exchange rates, which are classified as Level 2 inputs.

The valuation of our interest rate contracts is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves, foreign exchange rates and implied volatilities. We evaluate the inputs used to value our derivatives at the end of each reporting period.

For our interest rate contracts, we primarily use Level 2 inputs mentioned above to arrive at fair value. Additionally, for interest rate contracts we incorporate credit valuation adjustments to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements taking into account the impact of any applicable credit enhancements, such as collateral postings, thresholds, mutual puts and guarantees. We measure the credit risk of our derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio. The portfolio-level adjustments are then allocated each period to the individual assets or liabilities within the portfolio.

The credit valuation adjustments are calculated by determining the total expected exposure of the derivatives (which incorporates both the current and potential future exposure) and then applying each counterparty's credit spread to the applicable exposure. The total expected exposure of a derivative is derived using market-observable inputs, such as yield curves and volatilities. The inputs utilized for our own credit spread are based on implied spreads from our debt, which are considered unobservable inputs. These credit valuation adjustments fall within Level 3 of the fair value hierarchy and include estimates of current credit spreads to evaluate the likelihood of default. For counterparties with publicly available credit information, the credit spreads over LIBOR used in the calculations represent implied credit default swap spreads obtained from a third party credit data provider. Generally, significant increases (decreases) in our own credit spread in isolation would result in significantly lower (higher) fair value measurement for these derivatives. Based on the mixed input valuation, we classify these derivatives based on the lowest level in the fair value hierarchy that is significant to the overall fair value of the instrument.

Any transfer into or out of a level of the fair value hierarchy is recognized based on the value of the instruments at the end of the reporting period.

The table below presents our assets and liabilities measured at fair value on a recurring basis as of October 31, 2015, January 31, 2015 and November 1, 2014, aggregated by level in the fair value hierarchy within which those measurements fall.

(In millions)	Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at October 31, 2015

Derivative financial instruments:				
Interest rate contracts	\$ —	\$ —	\$—	\$—
Foreign exchange contracts	—	1	—	1
Total liabilities	\$ —	\$ 1	\$—	\$1

For the periods ended October 31, 2015, January 31, 2015 and November 1, 2014, we had no derivative financial instruments within Level 3 of the fair value hierarchy.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Certain of our assets and liabilities are measured at fair value on a nonrecurring basis. We evaluate the carrying value of all long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Impairment of long-lived assets is included in Other income, net on our Condensed Consolidated Statements of Operations.

The fair value measurements related to long-lived assets held and used classified as Level 3 were determined using a discounted cash flow valuation method or a relative, market-based approach based on purchase offers or appraisals we have received from third parties. The inputs we use to calculate discounted cash flows include the projected cash flows for the asset group (generally by store location) and, when significant, a risk-adjusted rate of return we estimate would be used by a market participant in valuing the assets. The projected cash flows are based on the Company's sales, gross margin and expense forecasts for each asset group, taking into consideration historical cash flows, as well as anticipated costs and/or proceeds from disposal. For our market-based valuations, we use purchase offers we receive from third parties, predominantly for our properties, which are classified as Level 3 because they are not received in an organized market or observable to market participants. Alternatively, when management commits to sell properties and no third party offers exist, we use asset appraisals conducted by external specialists with experience in real estate valuations. These require a significant amount of judgment regarding appropriate comparable properties and their assessment of current market conditions.

For the thirty-nine weeks ended October 31, 2015 and November 1, 2014, we had no impairments to long-lived assets held for sale. There have been no changes in valuation technique or related inputs for long-lived assets for the thirty-nine weeks ended October 31, 2015 and November 1, 2014.

The table below presents our long-lived assets evaluated for impairment and measured at fair value on a nonrecurring basis for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014, aggregated by level in the fair value hierarchy within which those measurements fall. Because these assets are not measured at fair value on a recurring basis, certain carrying amounts and fair value measurements presented in the table may reflect values at earlier measurement dates and may no longer represent their fair values at October 31, 2015 and November 1, 2014. As of October 31, 2015 and November 1, 2014, we did not have any long-lived assets classified as Level 1 or 2 within the fair value hierarchy.

(In millions)	Carrying Value Prior to Impairment	Significant Unobservable Inputs (Level 3)	Impairment Losses
Long-lived assets held and used Balance, May 2, 2015	\$4 4	\$2 2	\$2 2
Long-lived assets held and used Balance, August 1, 2015	4 8	2 4	2 4
Long-lived assets held and used Balance, October 31, 2015	— \$8	— \$4	— \$4

(In millions)	Carrying Value Prior to Impairment	Significant Unobservable Inputs (Level 3) (1)	Impairment Losses
Long-lived assets held and used Balance, May 3, 2014	\$4 4	\$1 1	\$3 3
Long-lived assets held and used Balance, August 2, 2014	8 12	4 5	4 7
Long-lived assets held and used Balance, November 1, 2014	2 \$14	1 \$6	1 \$8

(1) Includes fair values based on offers received, which were previously classified as Level 2 and should have been Level 3, of \$4 million as of August 2, 2014.

Other Financial Instruments

The fair values of our Long-term debt including current portion are estimated using quoted market prices for the same or similar issues and other pertinent information available to management as of the end of the respective periods. The fair values of debt instruments classified as Level 1 are based on quoted prices in reasonably active markets and Level 2 instruments are valued using market prices we obtain from external third parties. Debt instruments classified as Level 3 are not publicly traded, and therefore we are unable to obtain quoted market prices, and are generally valued using estimated spreads, a present value calculation or a cash flow analysis, as appropriate. There have been no significant changes in valuation technique or related inputs for Long-term debt for the thirty-nine weeks ended October 31, 2015 and November 1, 2014. The table below presents the carrying values and fair values of our Long-term debt including current portion as of October 31, 2015, January 31, 2015 and November 1, 2014, aggregated by level in the fair value hierarchy within which those measurements fall.

(In millions)	Long-term Debt		Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Carrying Value	Fair Value			
October 31, 2015	\$5,640	\$5,208	\$ 1,351	\$2,207	\$1,650
January 31, 2015	4,788	4,416	1,346	2,315	755
November 1, 2014	5,773	5,365	1,327	2,308	1,730

Other financial instruments that are not measured at fair value on our Condensed Consolidated Balance Sheets include cash and cash equivalents, accounts receivable, accounts payable, accrued expenses and short-term borrowings. Due to the short-term nature of these assets and liabilities, their carrying amounts approximate fair value.

5. Income taxes

The following table summarizes our Income tax (benefit) expense and effective tax rates for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014:

(\$ In millions)	13 Weeks Ended		39 Weeks Ended		
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014	
Loss before income taxes	\$ (166)	\$ (221)	\$ (400)	\$ (562))
Income tax (benefit) expense	—	(9)	2	(7))
Effective tax rate	—	% 4.1	% (0.5)	% 1.2	%

The effective tax rates for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014 were based on our forecasted annualized effective tax rates, adjusted for discrete items that occurred within the periods presented. Our forecasted annualized effective tax rate was (0.4)% for the thirty-nine weeks ended October 31, 2015 compared to 0.3% for the same period last year.

There were no significant discrete items that impacted our effective tax rate for the thirteen and thirty-nine weeks ended October 31, 2015. For the thirteen and thirty-nine weeks ended November 1, 2014, our effective tax rate was impacted by a tax benefit of \$5 million resulting from a \$6 million benefit related to a decrease in the cost of repatriating foreign earnings which was offset by a tax expense of \$1 million for adjustments to deferred taxes resulting from a change in statutory tax rate.

6. Segments

Our reportable segments are Toys “R” Us – Domestic (“Domestic”), which provides toy and baby product offerings in 49 states, Puerto Rico and Guam, and Toys “R” Us – International (“International”), which operates or licenses “R” Us branded retail stores in 38 foreign countries and jurisdictions with operated stores in Australia, Austria, Brunei, Canada, China, France, Germany, Hong Kong, Japan, Malaysia, Poland, Portugal, Singapore, Spain, Switzerland, Taiwan, Thailand and the United Kingdom. Domestic and International segments also include their respective Internet operations. Segment operating earnings (loss) excludes corporate related charges and income. All intercompany transactions between the segments have been eliminated. Income tax information by segment has not been included as taxes are calculated at a company-wide level and are not allocated to each segment. Revenues from external customers are derived primarily from merchandise sales and we do not generate material sales from any single customer.

The following tables show our percentage of Net sales by product category:

Domestic:	13 Weeks Ended		39 Weeks Ended		
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014	
Baby	47.1	% 47.9	% 47.8	% 48.3	%
Core Toy	15.8	% 15.8	% 14.1	% 13.5	%
Entertainment	6.5	% 6.8	% 6.5	% 7.1	%
Learning	20.4	% 19.6	% 18.7	% 18.1	%
Seasonal	9.4	% 9.1	% 12.1	% 12.2	%
Other (1)	0.8	% 0.8	% 0.8	% 0.8	%
Total	100	% 100	% 100	% 100	%

(1) Consists primarily of non-product related revenues.

Edgar Filing: TOYS R US INC - Form 10-Q

	13 Weeks Ended		39 Weeks Ended		
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014	
International:					
Baby	25.0	% 24.7	% 25.6	% 25.5	%
Core Toy	22.2	% 23.5	% 21.0	% 21.0	%
Entertainment	6.3	% 7.1	% 6.1	% 7.2	%
Learning	31.2	% 29.1	% 28.7	% 27.2	%
Seasonal	14.5	% 14.7	% 17.7	% 18.2	%
Other (1)	0.8	% 0.9	% 0.9	% 0.9	%
Total	100	% 100	% 100	% 100	%

(1) Consists primarily of non-product related revenues, including licensing fees from unaffiliated third parties.

From time to time, we may make revisions to our prior period Net sales by product category to conform to the current period allocation. These revisions did not have a significant impact to our prior year disclosure.

A summary of financial results by reportable segment is as follows:

(In millions)	13 Weeks Ended		39 Weeks Ended	
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014
Net sales

Interest income	1	1	2	3
Loss before income taxes	\$(166)	\$(221)	\$(400)	\$(562)
(In millions)		October 31, 2015	January 31, 2015	November 1, 2014
Merchandise inventories				
Domestic		\$2,228	\$1,353	\$2,168
International		1,090	711	1,156
Total Merchandise inventories		\$3,318	\$2,064	\$3,324

7. Litigation and legal proceedings

We are, and in the future may be, involved in various lawsuits, claims and proceedings incident to the ordinary course of business. The results of litigation are inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in diversion of significant resources. We are not able to estimate an aggregate amount or range of reasonably possible losses for those legal matters for which losses are not probable and estimable, primarily for the following reasons: (i) many of the relevant legal proceedings are in preliminary stages, and until such proceedings develop further, there is often uncertainty regarding the relevant facts and circumstances at issue and potential liability; and (ii) many of these proceedings involve matters of which the outcomes are inherently difficult to predict. However, based upon our historical experience with similar matters, we do not expect that any such additional losses would be material to our consolidated financial position, results of operations or cash flows.

8. Related party transactions

We are owned by an investment group led by entities advised by or affiliated with Bain Capital Partners, LLC, Kohlberg Kravis Roberts & Co. L.P. (together with its affiliates, “KKR”) and Vornado Realty Trust (“Vornado”) (collectively, the “Sponsors”). The Sponsors provide management and advisory services to us pursuant to an advisory agreement executed at the closing of the merger transaction effective as of July 21, 2005 and amended June 10, 2008, February 1, 2009, August 29, 2014 and June 1, 2015 (“Advisory Agreement”). The initial term of the Advisory Agreement was ten years, with the ability to extend annually for one year unless we or the Sponsors provide notice of termination to the other.

In August 2014, the Advisory Agreement was amended in order to reduce the management and advisory fees paid to the Sponsors (the “Advisory Fees”) to \$17 million. The amendment provides that if in the future we successfully complete an initial public offering (“IPO”), the Sponsors may elect to receive from the proceeds of such IPO, an amount equal to the aggregate difference between: (x) the Advisory Fees that we would have paid in fiscal year 2014 and each fiscal year thereafter had such amounts not been fixed and (y) the Advisory Fees that were actually paid by us for fiscal year 2014 and each fiscal year thereafter.

In June 2015, the Advisory Agreement was further amended in order to reduce the Advisory Fees payable in fiscal 2015 and thereafter from \$17 million to \$6 million annually with no further adjustment upon an IPO for such reductions.

We recorded Advisory Fees of \$1 million and \$6 million for the thirteen and thirty-nine weeks ended October 31, 2015, respectively. We recorded Advisory Fees of \$2 million and \$14 million for the thirteen and thirty-nine weeks ended November 1, 2014, respectively. During the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014, we also paid the Sponsors fees of less than \$1 million, respectively, for out-of-pocket expenses. Additionally, the Advisory Agreement provides that affiliates of the Sponsors will be entitled to receive a fee equal to 1% of the aggregate transaction value in connection with certain financing, acquisition, disposition and change of control transactions (“Transaction Fees”). The Advisory Agreement includes customary exculpation and indemnification provisions in favor of the Sponsors and their affiliates. In the event that the Advisory Agreement is terminated by the Sponsors or us, the Sponsors will receive all unpaid Advisory Fees, all unpaid Transaction Fees and expenses due under the Advisory Agreement with respect to periods prior to the termination date plus the net present value of the Advisory Fees that would have been payable for the remainder of the applicable term of the Advisory Agreement. Transaction Fees are capitalized as deferred debt issuance costs and are amortized over the term of the related debt agreement and included in Other assets on our Condensed Consolidated Balance Sheets.

From time to time, we and our subsidiaries, as well as the Sponsors or their affiliates, may acquire debt or debt securities issued by us or our subsidiaries in open market transactions, tender offers, exchange offers, privately negotiated transactions or otherwise. During the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014, affiliates of KKR held debt and debt securities issued by the Company and its subsidiaries. The interest amounts on such debt and debt securities held by related parties were \$1 million and \$6 million during the thirteen and thirty-nine weeks ended October 31, 2015, respectively. The interest amounts on such debt and debt securities held by related parties were \$2 million and \$7 million during the thirteen and thirty-nine weeks ended November 1, 2014, respectively.

Additionally, under lease agreements with affiliates of Vornado, we paid an aggregate amount of \$2 million and \$6 million for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014, respectively, with respect to 0.6%, of our operated stores, which include Toys “R” Us Express stores. Of the aggregate amount paid, less than \$1 million and \$1 million for each of the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014, respectively, was allocable to joint-venture parties not otherwise affiliated with Vornado.

Each of the Sponsors, either directly or through affiliates, has ownership interests in a broad range of companies (“Portfolio Companies”) with whom we may from time to time enter into commercial transactions in the ordinary course of business, primarily for the purchase of goods and services. We believe that none of our transactions or arrangements with Portfolio Companies are significant enough to be considered material to the Sponsors or to our business.

9. Dispositions

During the thirteen and thirty-nine weeks ended October 31, 2015, we sold certain properties and assets for nominal proceeds and \$12 million, respectively, resulting in net gains of \$1 million and \$8 million, respectively. Net gains on sales of properties are included in Other income, net on our Condensed Consolidated Statements of Operations.

10. Stock-based compensation

Amendments to the 2010 Incentive Plan and Amended and Restated Certificate of Incorporation

On May 31, 2015, the Board of Directors adopted amendments to the Toys “R” Us, Inc. 2010 Incentive Plan, as amended (the “2010 Incentive Plan”) and Amended and Restated Certificate of Incorporation, which were adopted by the stockholders of the Company on June 1, 2015. Amendment No. 3 to the 2010 Incentive Plan increased the number of shares available thereunder by 3,000,000 shares and Amendment No. 1 to the Amended and Restated Certificate of Incorporation increased the number of authorized shares of Common Stock by 5,000,000 shares.

One-time award

On June 1, 2015, the Company entered into an employment agreement with David A. Brandon to serve as Chairman of the Board and Chief Executive Officer. The employment agreement provided a one-time award of stock options under the 2010 Incentive Plan subject to time and performance based vesting conditions, which had a grant date of July 1, 2015. The award will vest ratably over forty-eight months commencing on the first month anniversary of the grant date and will only be deemed fully vested when the performance based obligations pursuant to Mr. Brandon’s employment agreement are satisfied. The one-time award has a grant date fair value of \$9 million, at \$8.00 per share.

2015 Award exchange

In June 2015, certain participants under the 2010 Incentive Plan were offered an opportunity to exchange their unvested outstanding restricted stock units granted May 24, 2013 (“RSUs”) for a grant of two new stock options (“New Options”) for every one RSU canceled. The New Options have an exercise price of \$8.00. On July 31, 2015, the Company closed its offer with a total of 64,381 RSUs canceled and a total of 128,762 New Options issued under the 2010 Incentive Plan. The New Options have a grant date of August 3, 2015 and vest 50% on each of May 24, 2016 and May 24, 2017, subject to the participant’s continued employment with the Company, and will vest automatically upon change of control of the Company. These options expire ten years from the date of grant, subject to the earlier expiration in accordance with the New Option award agreement. We accounted for the modification in accordance with ASC Topic 718, “Compensation – Stock Compensation.” Management has concluded that the modification had no impact on stock compensation expense.

11. Accumulated other comprehensive loss

Total other comprehensive (loss) income, net of tax is included in the Condensed Consolidated Statements of Comprehensive Loss and Condensed Consolidated Statements of Stockholders' Deficit. Accumulated other comprehensive loss is reflected in Total stockholders' deficit on the Condensed Consolidated Balance Sheets, as follows:

(In millions)	Foreign currency translation adjustments, net of tax	Unrealized gain (loss) on hedged transactions, net of tax	Unrecognized actuarial losses, net of tax	Accumulated other comprehensive loss
Balance, February 1, 2014	\$(74) \$(1) \$(9) \$(84
Change	22	—	—	22
Balance, May 3, 2014	(52) (1) (9) (62

12. Recent accounting pronouncements

In November 2015, the FASB issued Accounting Standards Update (“ASU”) 2015-17 “Income Taxes (Topic 740), Balance Sheet Classification of Deferred Taxes” (“ASU 2015-17”). ASU 2015-17 simplifies the presentation of deferred taxes by requiring all deferred tax assets and liabilities to be classified as noncurrent on the balance sheet. Under the previous practice, the requirement was to separate deferred taxes into current and noncurrent amounts on the balance sheet. This ASU will align the presentation of deferred tax assets and liabilities with International Financial Reporting Standards (“IFRS”). ASU 2015-17 has no impact on the requirement to offset deferred tax assets and liabilities for each taxing component within a tax jurisdiction. The amendments in this ASU are effective for reporting periods beginning after December 15, 2016, with early adoption permitted. Other than the revised balance sheet presentation of deferred income tax assets and liabilities, the adoption of ASU 2015-17 is not expected to have an impact on our Condensed Consolidated Financial Statements.

In September 2015, the FASB issued Accounting Standards Update (“ASU”) 2015-16 “Business Combinations (Topic 805), Simplifying the Accounting for Measurement-Period Adjustments” (“ASU 2015-16”). ASU 2015-16 eliminates the requirement that an acquirer in a business combination account for measurement-period adjustments retrospectively. Under the previous guidance, an acquirer must recognize adjustments to provisional amounts during the measurement period retrospectively (i.e. as if the accounting for the business combination had been completed at the acquisition date). That is, the acquirer must revise comparative information on the income statement and balance sheet for any prior periods affected. Under ASU 2015-16, acquirers must recognize measurement-period adjustments in the period

in which they determine the amounts, including the effect on earnings of any amounts they would have recorded in previous periods if the accounting had been completed at the acquisition date. The amendments in ASU 2015-16 require an entity to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. ASU 2015-16 did not change the criteria for determining whether an adjustment qualifies as a measurement-period adjustment and does not change the length of the measurement period. The amendments in this ASU are effective for reporting periods beginning after December 15, 2016, with early adoption permitted. The adoption of ASU 2015-16, is not expected to have an impact on our Condensed Consolidated Financial Statements.

In July 2015, the FASB issued ASU 2015-12 “Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)” (“ASU 2015-12”). The amendments in Part I of ASU 2015-12 eliminated the requirements that employee benefit plans measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures, rather these contracts will be measured and disclosed only at contract value. The amendments in Part II of this ASU will require plans to disaggregate their investments measured using fair value only by general type, either on the financial statements or in the notes. Part II of this ASU also eliminated the requirement to disclose the net appreciation/depreciation in fair value of investments by general type and the requirement to disclose individual investments that represent 5% or more of net assets available for benefits. The amendments in Part III of ASU 2015-12 provides a practical expedient to permit plans to measure its investments and investment related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year end that does not coincide with the end of a calendar month. The amendments in this ASU are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. The adoption of ASU 2015-12, is not expected to have an impact on our Condensed Consolidated Financial Statements.

In April 2015, the FASB issued ASU No. 2015-05, “Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement (“ASU 2015-05”). Existing GAAP does not include explicit guidance about a customer’s accounting for fees paid in a cloud computing arrangement. The amendments in this ASU provide guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software licenses element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. As a result of the amendments, all software licenses within the scope of Subtopic 350-40 will be accounted for consistent with other licenses of intangible assets. The amendments in this ASU are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. An entity can elect to adopt the amendments either (1) prospectively to all arrangements entered into or materially modified after the effective date; or (2) retrospectively. For prospective transition, the only disclosure requirements at transition are the nature of and reason for the change in accounting principle, the transition method, and a qualitative description of the financial statement line items affected by the change. For retrospective transition, the disclosure requirements at transition include the requirements for prospective transition and quantitative information about the effects of the accounting change. The adoption of ASU 2015-05 is not expected to have an impact on our Condensed Consolidated Financial Statements.

In April 2015, the FASB issued ASU 2015-04, “Compensation - Retirement Benefits (Topic 715): Practical Expedient for the Measurement Date of an Employer’s Defined Benefit Obligation and Plan Assets” (“ASU 2015-04”). For entities with a fiscal year-end that does not coincide with a month-end, ASU 2015-04 provides a practical expedient that permits the entity to measure defined benefit plan assets and obligations using the month-end that is closest to the entity’s fiscal year-end and apply that practical expedient consistently from year-to-year. Under the previous practice, entities with fiscal year-ends that did not coincide with a month-end, had to adjust the fair value of the plan assets reported by the third-party service provider to reflect the fair value of plan assets as of their fiscal year. The practical expedient should be applied consistently to all plans if an entity has more than one plan. An entity is required to disclose the accounting policy election and the date used to measure defined benefit plan assets and obligations in accordance with the amendments in this ASU. Additional disclosures are required if a contribution or significant event caused by the entity occurs between the month-end date used to measure the defined benefit plan assets and obligations and an entity’s fiscal year-end. The amendments in this ASU are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. Entities should apply the amendments in this update prospectively. Management is currently assessing the impact the adoption of ASU 2015-04 will have on our Condensed Consolidated Financial Statements.

In April 2015, the FASB issued ASU No. 2015-03, “Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs” (“ASU 2015-03”). ASU 2015-03 simplifies the presentation of debt issuance costs by requiring that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Under the previous

practice, debt issuance costs were recognized as a deferred charge (that is, an asset). This ASU will create consistencies with the guidance in IFRS as well as the guidance in FASB Concepts Statement No. 6, "Elements of Financial Statements", which states that debt issuance costs are similar to debt discounts and in effect reduce the proceeds of borrowing, thereby increasing the effective interest rate. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. In August 2015, the FASB issued ASU 2015-15 "Interest - Imputed Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements" ("ASU 2015-15"), which clarifies that the guidance in ASU 2015-03 does not apply to line-of-credit arrangements. According to ASU 2015-15, line-of-credit arrangements will continue to defer and present debt issuance costs as an asset and subsequently amortize the deferred debt costs ratably over the term of the arrangement. Upon transition, an entity is required to comply with the applicable disclosures

for a change in an accounting principle. The amendments in ASU 2015-03 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. A reporting entity should apply the amendments on a retrospective basis to all prior periods presented in the financial statements. Other than the revised balance sheet presentation of debt issuance costs from an asset to a deduction from the carrying amount of the debt liability and related disclosures, the adoption of ASU 2015-03 is not expected to have an impact on our Condensed Consolidated Financial Statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" ("ASU 2014-09"). ASU 2014-09 amends the guidance for revenue recognition to replace numerous, industry-specific requirements and converges areas under this topic with those of the International Financial Reporting Standards. The ASU implements a five-step process for customer contract revenue recognition that focuses on transfer of control, as opposed to transfer of risk and rewards. The amendment also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenues and cash flows from contracts with customers. Other major provisions include the capitalization and amortization of certain contract costs, ensuring the time value of money is considered in the transaction price, and allowing estimates of variable consideration to be recognized before contingencies are resolved in certain circumstances. As a result of the FASB issuing ASU 2015-14 "Revenue from Contracts with Customers (Topic 606) - Deferral of the Effective Date" in August 2015, the amendments in this ASU are effective for reporting periods beginning after December 15, 2017, and early adoption is prohibited. Entities can transition to the standard either retrospectively or as a cumulative-effect adjustment as of the date of adoption. Management is currently assessing the adoption methodology and the impact the adoption of ASU 2014-09 will have on our Condensed Consolidated Financial Statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

As used herein, the "Company," "we," "us," or "our" means Toys "R" Us, Inc. and its consolidated subsidiaries, except as expressly indicated or unless the context otherwise requires. The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to help facilitate an understanding of our historical results of operations during the periods presented and our financial condition. This MD&A should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended January 31, 2015 and the Condensed Consolidated Financial Statements and the accompanying notes thereto, and contains forward-looking statements that involve risks and uncertainties. See "Forward-Looking Statements" below.

Our Business

We generate sales, earnings and cash flows by retailing merchandise in our baby, core toy, entertainment, learning and seasonal product categories worldwide. Our reportable segments are Toys "R" Us – Domestic ("Domestic"), which provides toy and baby product offerings in 49 states, Puerto Rico and Guam, and Toys "R" Us – International ("International"), which operates or licenses stores in 38 foreign countries and jurisdictions. As of October 31, 2015, there were 1,610 operated and 251 licensed "R" Us branded retail stores worldwide. In addition, as of October 31, 2015, we operated 155 Toys "R" Us Express stores ("Express stores"), which includes 89 Express stores that are considered temporary ("Temporary Express") and 66 Express stores with a cumulative lease term of at least two years ("Permanent Express"). Domestic and International segments also include their respective Internet operations.

Financial Performance

As discussed in more detail in this MD&A, the following financial data represents an overview of our financial performance for the thirteen and thirty-nine weeks ended October 31, 2015 compared to the thirteen and thirty-nine weeks ended November 1, 2014:

(\$ In millions)	13 Weeks Ended		39 Weeks Ended			
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014		
Net sales	\$2,331	\$2,459	\$6,949	\$7,378		
Gross margin	832	908	2,569	2,742		
Gross margin as a percentage of Net sales	35.7	% 36.9	% 37.0	% 37.2	%	%
Selling, general and administrative expenses	\$827	\$931	\$2,450	\$2,726		
Selling, general and administrative expenses as a percentage of Net sales	35.5	% 37.9	% 35.3	% 36.9	%	%
Net loss attributable to Toys "R" Us, Inc.	\$(167)	\$(213)	\$(406)	\$(557)		
Non-GAAP Financial Measure:						
Adjusted EBITDA (1)	\$34	\$3	\$226	\$113		

(1) For an explanation of Adjusted EBITDA as a measure of the Company's operating performance and a reconciliation to Net loss attributable to Toys "R" Us, Inc., see "Non-GAAP Financial Measure - Adjusted EBITDA".

Net sales decreased by \$128 million and \$429 million for the thirteen and thirty-nine weeks ended October 31, 2015, respectively, compared to the same periods last year. Foreign currency translation decreased Net sales by \$127 million and \$402 million for the thirteen and thirty-nine weeks ended October 31, 2015, respectively. Excluding the impact of foreign currency translation, Net sales for the thirteen weeks ended October 31, 2015 were essentially flat compared to the same period last year. Excluding the impact of foreign currency translation, Net sales for the thirty-nine weeks ended October 31, 2015 decreased due to a decline in same store sales and store closures within our Domestic segment, partially offset by an increase in same store sales and net sales from new locations within our International segment compared to the same period last year.

Gross margin, as a percentage of Net sales, decreased by 1.2 percentage points for the thirteen weeks ended October 31, 2015, compared to the same period last year. The decrease was primarily a result of margin rate declines within certain categories in our Domestic segment, due in part to our competitive pricing and a shift in sales mix towards lower margin licensed products, and a margin rate decline within our International segment, primarily from

increased cost of U.S. Dollar (“USD”) denominated merchandise purchases. Gross margin, as a percentage of Net sales, decreased by 0.2 percentage points for the thirty-nine weeks ended October 31, 2015, compared to the same period last year. The decrease was primarily due to a margin rate decline within our International segment, primarily from increased cost of USD denominated merchandise purchases. Partially offsetting the decrease was a margin improvement within our Domestic segment mainly attributable to sales mix away from lower margin entertainment products and a prior year loss on previously identified clearance inventory.

Selling, general and administrative expenses (“SG&A”) decreased by \$104 million and \$276 million for the thirteen and thirty-nine weeks ended October 31, 2015, respectively, compared to the same periods last year. Foreign currency translation decreased SG&A by \$40 million and \$139 million for the thirteen and thirty-nine weeks ended October 31, 2015, respectively. Excluding the impact of foreign currency translation, the decrease in SG&A for both periods was primarily due to reductions in payroll expenses, advertising and promotional expenses and occupancy costs. Net loss attributable to Toys “R” Us, Inc. decreased by \$46 million for the thirteen weeks ended October 31, 2015 compared to the same period last year. The decrease was primarily due to a reduction in SG&A and a decrease in Interest expense, partially offset by a decline in Gross margin dollars. Net loss attributable to Toys “R” Us, Inc. decreased by \$151 million for the thirty-nine weeks ended October 31, 2015 compared to the same period last year. The decrease was primarily due to declines in SG&A and Depreciation and amortization, partially offset by a decrease in Gross margin dollars.

Same Store Sales

In computing same store sales, we include stores that have been open for at least 56 weeks from their “soft” opening date. A soft opening is typically two weeks prior to the grand opening. Permanent Express stores that have been open for at least 56 weeks from their soft opening date are also included in the computation of same store sales.

Our same store sales computation includes the following:

- stores that have been remodeled while remaining open;
- stores that have been relocated and/or expanded to new buildings within the same trade area, in which the new store opens at about the same time as the old store closes;
- stores that have expanded within their current locations; and
- sales from our Internet businesses.

By measuring the year-over-year sales of merchandise in the stores that have been open for 56 weeks or more and online, we can better gauge how the core store base and e-commerce businesses are performing since same store sales excludes the impact of store openings and closings, as well as foreign currency translation.

Various factors affect same store sales, including the number of and timing of stores we open, close, convert, relocate or expand, the number of transactions, the average transaction amount, the general retail sales environment, current local and global economic conditions, consumer preferences and buying trends, changes in sales mix among distribution channels, our ability to efficiently source and distribute products, changes in our merchandise mix, competition, the timing of the release of new merchandise and our promotional events, the success of marketing programs and the cannibalization of existing store net sales by new stores. Among other things, weather conditions, terrorism and catastrophic events can affect same store sales because they may discourage travel or require temporary store closures, thereby reducing customer traffic. These factors have caused our same store sales to fluctuate significantly in the past on a monthly, quarterly and annual basis and, as a result, we expect that same store sales will continue to fluctuate in the future.

The following table discloses the change in our same store sales for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014:

	13 Weeks Ended		39 Weeks Ended		
	October 31, 2015 vs. 2014	November 1, 2014 vs. 2013	October 31, 2015 vs. 2014	November 1, 2014 vs. 2013	
Domestic	(0.9))% (1.0)% (1.8)% 1.5	%
International	2.9	% 1.1	% 2.5	% 1.5	%
Toys “R” Us - Consolidated	0.6	% (0.1)% (0.1)% 1.5	%

Percentage of Net Sales by Product Category

	13 Weeks Ended		39 Weeks Ended		
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014	
Domestic:					
Baby	47.1	% 47.9	% 47.8	% 48.3	%

Other (1)	0.8	% 0.8	% 0.8	% 0.8	%
Total	100	% 100	% 100	% 100	%

(1) Consists primarily of non-product related revenues.

	13 Weeks Ended		39 Weeks Ended		
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014	
International:					
Baby	25.0	% 24.7	% 25.6	% 25.5	%
Core Toy	22.2	% 23.5	% 21.0	% 21.0	%
Entertainment	6.3	% 7.1	% 6.1	% 7.2	%
Learning	31.2	% 29.1	% 28.7	% 27.2	%
Seasonal	14.5	% 14.7	% 17.7	% 18.2	%
Other (1)	0.8	% 0.9	% 0.9	% 0.9	%
Total	100	% 100	% 100	% 100	%

(1) Consists primarily of non-product related revenues, including licensing fees from unaffiliated third parties.

From time to time, we may make revisions to our prior period Net sales by product category to conform to the current period allocation. These revisions did not have a significant impact to our prior year disclosure.

Store Count by Segment

	October 31, 2015	November 1, 2014	Change
Domestic (1)	865	894	(29)
International - Operated (2)	745	728	17
International - Licensed (3)	251	204	47
Total (4)	1,861	1,826	35

Store count as of October 31, 2015 includes 289 Toys “R” Us (“TRU”) stores, 224 Babies “R” Us (“BRU”) stores, 213 side-by-side (“SBS”) stores, 58 Juvenile Expansions, 20 Babies “R” Us Express (“BRU Express”) stores and 61 Permanent Express stores. Store count as of November 1, 2014 included 302 TRU stores, 229 BRU stores, 214 SBS stores, 59 Juvenile Expansions, 20 BRU Express stores and 70 Permanent Express stores.

(1) Store count as of October 31, 2015 includes 505 TRU stores, 200 SBS stores, 20 BRU Express stores, 15 BRU stores and five Permanent Express stores. Store count as of November 1, 2014 included 484 TRU stores, 197 SBS stores, 19 BRU Express stores, 15 BRU stores and 13 Permanent Express stores. The net increase in store count from prior year is predominantly due to 26 stores in China and Southeast Asia.

(2) The net increase in store count from prior year is predominantly due to 27 stores in South Africa, five stores in the Philippines and four stores in South Korea.

(3) There were 73 Domestic and 16 International Temporary Express stores open as of October 31, 2015 and 167 (4) Domestic and 23 International Temporary Express stores open as of November 1, 2014, which were not included in our overall store count.

Net Loss Attributable to Toys “R” Us, Inc.

(In millions)	13 Weeks Ended			39 Weeks Ended		
	October 31, 2015	November 1, 2014	Change	October 31, 2015	November 1, 2014	Change
Toys “R” Us - Consolidated	\$ (167)	\$ (213)	\$ 46	\$ (406)	\$ (557)	\$ 151

Net loss attributable to Toys “R” Us, Inc. decreased by \$46 million to \$167 million for the thirteen weeks ended October 31, 2015, compared to \$213 million for the same period last year. The decrease in Net loss attributable to Toys “R” Us, Inc. was primarily due to a reduction in SG&A of \$104 million and a decline in Interest expense of \$16 million, partially offset by a decline in Gross margin of \$76 million.

Net loss attributable to Toys “R” Us, Inc. decreased by \$151 million to \$406 million for the thirty-nine weeks ended October 31, 2015, compared to \$557 million for the same period last year. The decrease in Net loss attributable to Toys “R” Us, Inc. was primarily due to a reduction in SG&A of \$276 million and a decrease in Depreciation and amortization of \$32 million, partially offset by a decline in Gross margin of \$173 million.

Net Sales

(\$ In millions)	13 Weeks Ended				Percentage of Net Sales		
	October 31, 2015	November 1, 2014	\$ Change	% Change	October 31, 2015	November 1, 2014	
Domestic	\$ 1,402	\$ 1,440	\$ (38)	(2.6)%	60.1	58.6	%
International	929	1,019	(90)	(8.8)%	39.9	41.4	%
Toys “R” Us - Consolidated	\$ 2,331	\$ 2,459	\$ (128)	(5.2)%	100.0	100.0	%

Net sales decreased by \$128 million or 5.2%, to \$2,331 million for the thirteen weeks ended October 31, 2015, compared to \$2,459 million for the same period last year. The impact of foreign currency translation decreased Net sales by \$127 million for the thirteen weeks ended October 31, 2015.

Excluding the impact of foreign currency translation, Net sales were essentially flat for the thirteen weeks ended October 31, 2015, compared to the same period last year, with store closures and a decline in same store sales within our Domestic segment offset by increases in same store sales and net sales from new locations within our International segment.

(\$ In millions)	39 Weeks Ended				Percentage of Net Sales		
	October 31, 2015	November 1, 2014	\$ Change	% Change	October 31, 2015	November 1, 2014	
Domestic	\$ 4,302	\$ 4,439	\$ (137)	(3.1)%	61.9	60.2	%
International	2,647	2,939	(292)	(9.9)%	38.1	39.8	%
Toys “R” Us - Consolidated	\$ 6,949	\$ 7,378	\$ (429)	(5.8)%	100.0	100.0	%

Net sales decreased by \$429 million or 5.8%, to \$6,949 million for the thirty-nine weeks ended October 31, 2015, compared to \$7,378 million for the same period last year. The impact of foreign currency translation decreased Net sales by \$402 million for the thirty-nine weeks ended October 31, 2015.

Excluding the impact of foreign currency translation, the decrease in Net sales for the thirty-nine weeks ended October 31, 2015 was predominantly due to a decrease in Domestic same store sales primarily driven by a decline in the number of transactions, and store closures within our Domestic segment. Partially offsetting the decrease in Net sales was an increase in International same store sales primarily driven by higher average transaction amounts, and new locations within our International segment.

Domestic

Net sales for the Domestic segment decreased by \$38 million or 2.6%, to \$1,402 million for the thirteen weeks ended October 31, 2015, compared to \$1,440 million for the same period last year. The decrease in Net sales was primarily a

result of store closures and a decline in same store sales of 0.9%.

The decrease in same store sales resulted primarily from decreases in our baby and entertainment categories. The decrease in our baby category was mainly due to consumables. The decrease in our entertainment category was predominantly due to portable electronics. Partially offsetting these decreases was an increase in our learning category primarily as a result of preschool toys.

25

Net sales for the Domestic segment decreased by \$137 million or 3.1%, to \$4,302 million for the thirty-nine weeks ended October 31, 2015, compared to \$4,439 million for the same period last year. The decrease in Net sales was primarily a result of a decline in same store sales of 1.8% and store closures.

The decrease in same store sales resulted primarily from decreases in our baby, entertainment and seasonal categories. The decrease in our baby category was mainly due to consumables. The decrease in our entertainment category was primarily due to portable electronics and video game software. The decrease in our seasonal category was predominantly due to outdoor products. Partially offsetting these decreases was an increase in our core toy category primarily due to collectibles.

International

Net sales for the International segment decreased by \$90 million or 8.8%, to \$929 million for the thirteen weeks ended October 31, 2015, compared to \$1,019 million for the same period last year. Excluding a \$127 million decrease in Net sales due to foreign currency translation, International Net sales improved primarily as a result of an increase in same store sales of 2.9% and new locations.

The increase in same store sales resulted primarily from increases in our learning and baby categories. The increase in our learning category was mainly due to construction toys. The increase in our baby category was primarily due to baby gear and apparel. Partially offsetting these increases was a decline in our core toy category primarily due to action figures.

Net sales for the International segment decreased by \$292 million or 9.9%, to \$2,647 million for the thirty-nine weeks ended October 31, 2015, compared to \$2,939 million for the same period last year. Excluding a \$402 million decrease in Net sales due to foreign currency translation, International Net sales improved primarily as a result of an increase in same store sales of 2.5% and new locations.

The increase in same store sales resulted primarily from increases in our learning and baby categories. The increase in our learning category was mainly due to construction toys. The increase in our baby category was primarily due to baby gear and apparel. Partially offsetting these increases was a decline in our entertainment category primarily due to video game software and systems.

Gross Margin

The following are reflected in "Cost of sales":

the cost of merchandise acquired from vendors;

freight in;

provision for excess and obsolete inventory;

shipping costs to consumers;

provision for inventory shortages; and

credits and allowances from our merchandise vendors.

We record the costs associated with operating our distribution networks as a part of SG&A, including those costs that primarily relate to transporting merchandise from distribution centers to stores. Therefore, our consolidated Gross margin may not be comparable to the gross margins of other retailers that include similar costs in their cost of sales.

13 Weeks Ended

(\$ In millions)	October 31, 2015	November 1, 2014	\$ Change	Percentage of Net Sales		
				October 31, 2015	November 1, 2014	Change
Domestic	\$477	\$508	\$(31)	34.0	% 35.3	% (1.3)
International	355	400	(45)	38.2	% 39.3	% (1.1)
Toys "R" Us - Consolidated	\$832	\$908	\$(76)	35.7	% 36.9	% (1.2)

Gross margin decreased by \$76 million to \$832 million for the thirteen weeks ended October 31, 2015, compared to \$908 million for the same period last year. Foreign currency translation decreased Gross margin by \$47 million.

Gross margin, as a percentage of Net sales, decreased by 1.2 percentage points for the thirteen weeks ended October 31, 2015, compared to the same period last year. The decrease in Gross margin, as a percentage of Net sales,

was primarily a result of margin rate declines within certain categories in our Domestic segment due in part to our competitive pricing and a shift in sales mix towards lower margin licensed products. Additionally contributing to the decrease was a margin rate decline within our International segment, primarily from increased cost of USD denominated merchandise purchases.

39 Weeks Ended

(\$ In millions)	39 Weeks Ended			Percentage of Net Sales		
	October 31, 2015	November 1, 2014	\$ Change	October 31, 2015	November 1, 2014	Change
Domestic	\$1,523	\$1,564	\$(41)	35.4%	35.2%	0.2%
International	1,046	1,178	(132)	39.5%	40.1%	(0.6)%
Toys "R" Us - Consolidated	\$2,569	\$2,742	\$(173)	37.0%	37.2%	(0.2)%

Gross margin decreased by \$173 million to \$2,569 million for the thirty-nine weeks ended October 31, 2015, compared to \$2,742 million for the same period last year. Foreign currency translation decreased Gross margin by \$155 million.

Gross margin, as a percentage of Net sales, decreased by 0.2 percentage points for the thirty-nine weeks ended October 31, 2015, compared to the same period last year. The decrease in Gross margin, as a percentage of Net sales, was primarily the result of a margin rate decline within our International segment, predominantly from increased cost of USD denominated merchandise purchases. Partially offsetting the decrease was a margin improvement within our Domestic segment mainly attributable to sales mix away from lower margin entertainment products and a prior year loss on previously identified clearance inventory.

Domestic

Gross margin decreased by \$31 million to \$477 million for the thirteen weeks ended October 31, 2015, compared to \$508 million for the same period last year. Gross margin, as a percentage of Net sales, decreased by 1.3 percentage points for the thirteen weeks ended October 31, 2015 compared to the same period last year.

The decrease in Gross margin, as a percentage of Net sales, resulted from margin rate declines predominantly in our learning, baby and core toy categories due in part to our competitive pricing and a shift in sales mix towards lower margin licensed products.

Gross margin decreased by \$41 million to \$1,523 million for the thirty-nine weeks ended October 31, 2015, compared to \$1,564 million for the same period last year. Gross margin, as a percentage of Net sales, increased by 0.2 percentage points for the thirty-nine weeks ended October 31, 2015 compared to the same period last year.

The increase in Gross margin, as a percentage of Net sales, resulted from sales mix away from lower margin products in our entertainment category. The current year margin rate improvement also benefited from a prior year \$8 million loss on previously identified clearance inventory.

International

Gross margin decreased by \$45 million to \$355 million for the thirteen weeks ended October 31, 2015, compared to \$400 million for the same period last year. Foreign currency translation decreased Gross margin by \$47 million. Gross margin, as a percentage of Net sales, decreased by 1.1 percentage points for the thirteen weeks ended October 31, 2015, compared to the same period last year.

The decrease in Gross margin, as a percentage of Net sales, resulted primarily from increased cost of USD denominated inventory purchases, most notably in our core toy and seasonal categories.

Gross margin decreased by \$132 million to \$1,046 million for the thirty-nine weeks ended October 31, 2015, compared to \$1,178 million for the same period last year. Foreign currency translation decreased Gross margin by \$155 million. Gross margin, as a percentage of Net sales, decreased by 0.6 percentage points for the thirty-nine weeks ended October 31, 2015, compared to the same period last year.

The decrease in Gross margin, as a percentage of Net sales, resulted primarily from increased cost of USD denominated inventory purchases, most notably in our learning and core toy categories.

Selling, General and Administrative Expenses

The following table presents expenses as a percentage of consolidated SG&A:

	13 Weeks Ended		39 Weeks Ended		
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014	
Payroll and related benefits	45.0	% 44.5	% 45.1	% 44.9	%
Occupancy costs	32.4	% 31.6	% 33.5	% 32.5	%
Advertising and promotional expenses	6.7	% 8.9	% 6.2	% 7.6	%
Transaction fees (1)	3.2	% 2.9	% 3.1	% 2.9	%
Professional fees	2.8	% 2.7	% 3.3	% 3.3	%
Other (2)	9.9	% 9.4	% 8.8	% 8.8	%
Total	100.0	% 100.0	% 100.0	% 100.0	%

(1) Primarily consists of credit card fees.

(2) Includes costs related to website hosting, transporting merchandise from distribution centers to stores, store related supplies and signage and other corporate-related expenses.

(\$ In millions)	13 Weeks Ended			Percentage of Net Sales		
	October 31, 2015	November 1, 2014	\$ Change	October 31, 2015	November 1, 2014	Change
Toys "R" Us - Consolidated	\$827	\$931	\$(104)	35.5 %	37.9 %	(2.4) %

SG&A decreased by \$104 million to \$827 million for the thirteen weeks ended October 31, 2015, compared to \$931 million for the same period last year. Foreign currency translation decreased SG&A by \$40 million. As a percentage of Net sales, SG&A decreased by 2.4 percentage points.

Excluding the impact of foreign currency translation, SG&A decreased by \$64 million primarily due to a \$25 million reduction in advertising and promotional expenses and a \$24 million decrease in payroll expenses, which included a \$15 million decline in store payroll. Additionally contributing to the decrease in SG&A was a \$10 million decline in occupancy costs, predominantly as a result of Domestic store closures.

(\$ In millions)	39 Weeks Ended			Percentage of Net Sales		
	October 31, 2015	November 1, 2014	\$ Change	October 31, 2015	November 1, 2014	Change
Toys "R" Us - Consolidated	\$2,450	\$2,726	\$(276)	35.3 %	36.9 %	(1.6) %

SG&A decreased by \$276 million to \$2,450 million for the thirty-nine weeks ended October 31, 2015, compared to \$2,726 million for the same period last year. Foreign currency translation decreased SG&A by \$139 million. As a percentage of Net sales, SG&A decreased by 1.6 percentage points.

Excluding the impact of foreign currency translation, SG&A decreased by \$137 million primarily due to a \$60 million decrease in payroll expenses, which included a \$44 million decline in store payroll expenses, a \$46 million decrease in advertising and promotional expenses and a \$9 million decrease in occupancy costs, predominantly as a result of Domestic store closures. Additionally contributing to the decrease in SG&A was an \$8 million reduction in advisory fees as a result of an amendment to the advisory agreement we have with Bain Capital Partners LLC, Kohlberg Kravis Roberts & Co. L.P., and Vornado Realty Trust (collectively, the "Sponsors"). Refer to Note 8 within our Condensed Consolidated Financial Statements entitled "Related party transactions" for further details.

Depreciation and Amortization

(In millions)	13 Weeks Ended			39 Weeks Ended		
	October 31, 2015	November 1, 2014	Change	October 31, 2015	November 1, 2014	Change
Toys "R" Us - Consolidated	\$80	\$86	\$(6)	\$253	\$285	\$(32)

Depreciation and amortization decreased by \$6 million for the thirteen weeks ended October 31, 2015, compared to the same period last year. Foreign currency translation decreased Depreciation and amortization by \$4 million. Excluding the impact of foreign currency translation, the decrease in Depreciation and amortization was primarily due to fully depreciated assets.

Depreciation and amortization decreased by \$32 million for the thirty-nine weeks ended October 31, 2015, compared to the same period last year. Foreign currency translation decreased Depreciation and amortization by \$12 million. Excluding the impact of foreign currency translation, the decrease in Depreciation and amortization was primarily due to fully depreciated assets and the prior year accelerated depreciation of certain assets, which we committed to dispose of prior to the end of their useful lives.

Other Income, Net

Other income, net includes the following:

- credit card program income;
- gift card breakage income;
- net gains on sales of properties;
- foreign exchange gains and losses;
- impairment of long-lived assets; and
- other operating income and expenses.

(In millions)	13 Weeks Ended			39 Weeks Ended		
	October 31, 2015	November 1, 2014	Change	October 31, 2015	November 1, 2014	Change
Toys "R" Us - Consolidated	\$21	\$16	\$5	\$65	\$43	\$22

Other income, net increased by \$5 million to \$21 million for the thirteen weeks ended October 31, 2015, compared to \$16 million for the same period last year. The increase was primarily due to a prior year \$2 million realized loss on foreign exchange, a \$1 million increase in gift card breakage income and a \$1 million increase in credit card program income.

Other income, net increased by \$22 million to \$65 million for the thirty-nine weeks ended October 31, 2015, compared to \$43 million for the same period last year. Foreign currency translation increased Other income, net by \$3 million. Excluding the impact of foreign currency translation, the increase in Other income, net was primarily due to a \$9 million increase in credit card program income, a \$4 million decrease in impairment of long-lived assets and a \$3 million increase in net gains on sales of properties.

Interest Expense

(In millions)	13 Weeks Ended			39 Weeks Ended		
	October 31, 2015	November 1, 2014	Change	October 31, 2015	November 1, 2014	Change
Toys "R" Us - Consolidated	\$113	\$129	\$(16)	\$333	\$339	\$(6)

Interest expense decreased by \$16 million and \$6 million for the thirteen and thirty-nine weeks ended October 31, 2015, respectively, compared to the same periods last year. The decrease in Interest expense for both periods was primarily due to \$35 million of incremental expense recorded in the prior year, mainly composed of the write-off of unamortized deferred debt issuance costs and original issue discount related to extinguishment of debt. Partially offsetting the decrease were higher rates of interest on the Secured term B-4 loan facility due fiscal 2020 and the Tranche A-1 loan facility due fiscal 2019 as a result of the prior year refinancing.

Interest Income

(In millions)	13 Weeks Ended			39 Weeks Ended		
	October 31, 2015	November 1, 2014	Change	October 31, 2015	November 1, 2014	Change
Toys "R" Us - Consolidated	\$1	\$1	\$—	\$2	\$3	\$(1)

Interest income remained consistent for the thirteen weeks ended October 31, 2015, compared to the same period last year. Interest income decreased by \$1 million to \$2 million for the thirty-nine weeks ended October 31, 2015, compared to \$3 million for the same period last year.

Income Tax (Benefit) Expense

The following table summarizes our Income tax (benefit) expense and effective tax rates for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014:

(\$ In millions)	13 Weeks Ended		39 Weeks Ended	
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014
Loss before income taxes	\$(166)	\$(221)	\$(400)	\$(562)
Income tax (benefit) expense	—	(9)	2	(7)
Effective tax rate	—	% 4.1	% (0.5)	% 1.2

The effective tax rates for the thirteen and thirty-nine weeks ended October 31, 2015 and November 1, 2014 were based on our forecasted annualized effective tax rates, adjusted for discrete items that occurred within the periods presented. Our forecasted annualized effective tax rate was (0.4)% for the thirty-nine weeks ended October 31, 2015 compared to 0.3% for the same period last year.

There were no significant discrete items that impacted our effective tax rate for the thirteen and thirty-nine weeks ended October 31, 2015. For the thirteen and thirty-nine weeks ended November 1, 2014, our effective tax rate was impacted by a tax benefit of \$5 million resulting from a \$6 million benefit related to a decrease in the cost of repatriating foreign earnings which was offset by a tax expense of \$1 million for adjustments to deferred taxes resulting from a change in statutory tax rate.

Non-GAAP Financial Measure - Adjusted EBITDA

We believe Adjusted EBITDA is useful to investors because it is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. Investors in the Company regularly request Adjusted EBITDA as a supplemental analytical measure to, and in conjunction with, the Company's financial data prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). We understand that investors use Adjusted EBITDA, among other things, to assess our period-to-period operating performance and to gain insight into the manner in which management analyzes operating performance.

In addition, we believe that Adjusted EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of EBITDA and Adjusted EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions, which items may vary for different companies for reasons unrelated to overall operating performance. We use the non-GAAP financial measures for planning and forecasting and measuring results against the forecast and in certain cases we use similar measures for bonus targets for certain of our employees. Using several measures to evaluate the business allows us and investors to assess our relative performance against our competitors.

Although we believe that Adjusted EBITDA can make an evaluation of our operating performance more consistent because it removes items that do not reflect our core operations, other companies, even in the same industry, may define Adjusted EBITDA differently than we do. As a result, it may be difficult to use Adjusted EBITDA or similarly named non-GAAP measures that other companies may use to compare the performance of those companies to our performance. The Company does not, and investors should not, place undue reliance on EBITDA or Adjusted EBITDA as measures of operating performance.

Reconciliation of Net loss attributable to Toys “R” Us, Inc. to EBITDA and Adjusted EBITDA is as follows:

(In millions)	13 Weeks Ended		39 Weeks Ended	
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014
Net loss attributable to Toys “R” Us, Inc.	\$(167)	\$(213)	\$(406)	\$(557)
Add:				
Income tax (benefit) expense	—	(9)	2	(7)
Interest expense, net	112	128	331	336
Depreciation and amortization	80	86	253	285
EBITDA	25	(8)	180	57
Adjustments:				
Severance (a)	6	1	19	16
Compensation expense (b)	2	10	13	15
Sponsors’ management and advisory fees (c)	1	2	6	14
Store closure costs (d)	1	—	5	5
Net earnings attributable to noncontrolling interest	1	1	4	2
Property losses, net of insurance recoveries (e)	(1)	(2)	(1)	(9)
Net gains on sales of properties	(1)	(2)	(8)	(5)
Impairment of long-lived assets	—	1	4	8
Foreign currency re-measurement (f)	—	—	3	—
Certain transaction costs	—	—	2	1
Litigation (g)	—	—	(1)	—
Obsolete inventory clearance (h)	—	—	—	9
Adjusted EBITDA (i)	\$34	\$3	\$226	\$113

(a) In fiscal 2014, we revised our definition of Adjusted EBITDA to include non-officers’ severance. We have therefore revised our prior periods’ Adjusted EBITDA.

Represents the incremental compensation expense related to certain one-time awards and modifications, net of forfeitures of certain officers’ awards. In fiscal 2014, we revised our definition of Adjusted EBITDA to include the impact of forfeitures of certain officers’ awards and have therefore revised our prior periods’ Adjusted EBITDA.

Represents the fees expensed to our Sponsors in accordance with the advisory agreement. In June 2015, the advisory agreement was amended in order to reduce the advisory fees payable in fiscal 2015 and thereafter from \$17 million to \$6 million annually.

(d) Represents store closure costs, net of lease surrender income. In fiscal 2014, we revised our definition of Adjusted EBITDA to include lease surrender income. We have therefore revised our prior periods’ Adjusted EBITDA.

(e) Represents property losses and insurance claims recognized.

(f) Represents the unrealized loss on foreign exchange related to the re-measurement of the portion of the Tranche A-1 loan facility due fiscal 2019 attributed to Toys “R” Us (Canada) Ltd. Toys “R” Us (Canada) Ltee.

(g) Represents certain litigation expenses and settlements recorded for legal matters.

Represents an incremental loss on previously identified clearance inventory. In fiscal 2014, we also revised our definition of Adjusted EBITDA to include third party fees associated with our clearance efforts. We have therefore revised our prior periods’ Adjusted EBITDA.

(i) Adjusted EBITDA is defined as EBITDA (earnings (loss) before net interest income (expense), income tax expense (benefit), depreciation and amortization), as further adjusted to exclude the effects of certain income and expense items that management believes make it more difficult to assess the Company’s actual operating performance including certain items which are generally non-recurring. We have excluded the impact of such items from internal performance assessments. We believe that excluding items such as Sponsors management and advisory fees, asset impairment charges, restructuring charges, severance, impact of litigation, store closure costs, noncontrolling

interest, net gains on sales of properties and other charges, helps investors compare our operating performance with our results

in prior periods. We believe it is appropriate to exclude these items as they are not related to ongoing operating performance and, therefore, limit comparability between periods and between us and similar companies.

Liquidity and Capital Resources

Overview

As of October 31, 2015, we were in compliance with all of the covenants related to our outstanding debt. Under the \$1.85 billion secured revolving credit facility (“ABL Facility”), we had outstanding borrowings of \$814 million, a total of \$99 million of outstanding letters of credit and excess availability of \$905 million as of October 31, 2015. We are also subject to a minimum excess availability covenant of \$125 million, with remaining availability of \$780 million in excess of the covenant at October 31, 2015.

Toys “R” Us - Japan, Ltd. (“Toys-Japan”) has an agreement with a syndicate of financial institutions, which includes three unsecured loan commitment lines of credit (“Tranche 1A,” “Tranche 1B” and “Tranche 2”). On June 30, 2015, Toys-Japan entered into an agreement to refinance an unsecured loan commitment line of credit (“Tranche 1” due fiscal 2015) into Tranche 1A and Tranche 1B. Tranche 1A is available in amounts of up to ¥9.45 billion (\$78 million at October 31, 2015). As of October 31, 2015, we had outstanding borrowings of \$3 million under Tranche 1A, with \$75 million of remaining availability. Tranche 1B is available in amounts of up to ¥2.0 billion (\$17 million at October 31, 2015). As of October 31, 2015 we had no outstanding borrowings under Tranche 1B, with \$17 million of remaining availability. Tranche 2 is available in amounts of up to ¥3.5 billion (\$29 million at October 31, 2015). As of October 31, 2015, we had no outstanding borrowings under Tranche 2, with \$29 million of remaining availability.

Additionally, on June 30, 2015, Toys-Japan amended an unsecured uncommitted line of credit reducing its availability from ¥1.5 billion to ¥1.0 billion. Toys-Japan has an additional unsecured uncommitted line of credit with total availability of ¥0.5 billion. At October 31, 2015, Toys-Japan had no outstanding borrowings under its uncommitted lines of credit, with a total of ¥1.5 billion (\$12 million at October 31, 2015) of incremental availability.

Our European and Australian asset-based revolving credit facility as amended (the “European ABL Facility”) provides for a five-year £138 million (\$213 million at October 31, 2015) asset-based senior secured revolving credit facility which will expire on March 8, 2016. As of October 31, 2015, we had outstanding borrowings of \$79 million, with \$112 million of remaining availability under the European ABL Facility.

Toys (Labuan) Holding Limited (“Labuan”) has several uncommitted unsecured lines of credit with various financial institutions with total availability of HK\$220 million (\$28 million at October 31, 2015). As of October 31, 2015, we had \$8 million of borrowings and \$5 million of bank guarantees issued under these facilities. The remaining availability under these facilities was \$15 million.

We are dependent on the borrowings provided by our lenders to support our working capital needs, capital expenditures and to service debt. As of October 31, 2015, we have funds available to finance our operations under our ABL Facility through March 2019, subject to an earlier springing maturity, our Toys-Japan unsecured credit lines with two tranches maturing June 2016 and a tranche maturing June 2017 and our European ABL Facility through March 2016. In addition, Labuan and Toys-Japan have uncommitted lines of credit, which are due on demand. If our cash flow and capital resources do not provide the necessary liquidity, it could have a significant negative effect on our results of operations.

In general, our primary uses of cash are providing for working capital purposes (which principally represents the purchase of inventory), servicing debt, remodeling existing stores, financing construction of new stores and paying expenses, such as payroll costs and rental expense, to operate our stores. Our working capital needs follow a seasonal pattern, peaking in the third quarter of the year when inventory is purchased for the fourth quarter holiday selling season. For the thirty-nine weeks ended October 31, 2015, peak borrowings under our revolving credit facilities and credit lines amounted to \$896 million, with remaining availability of \$1,013 million in excess of the ABL Facility covenant. Our largest source of operating cash flows is cash collections from our customers. We have been able to meet our cash needs principally by using cash on hand, cash flows from operations and borrowings under our revolving credit facilities and credit lines.

Although we believe that cash generated from operations, along with our existing cash, revolving credit facilities and credit lines will be sufficient to fund our expected cash flow requirements and planned capital expenditures for at least

the next 12 months, any world-wide financial market disruption could have a negative impact on our ability to refinance our maturing debt and available resources in the future.

Capital Expenditures

A component of our long-term strategy is our capital expenditure program. Our capital expenditures are primarily for enhancing our e-commerce and other information technology and logistics systems, as well as improving existing stores and construction of new stores. Capital expenditures are funded primarily through cash provided by operating activities, as well as available cash.

The following table presents our capital expenditures for the thirty-nine weeks ended October 31, 2015 and November 1, 2014:

(In millions)	39 Weeks Ended	
	October 31, 2015	November 1, 2014
Information technology	\$55	\$50
Store improvements (1)	32	36
Distribution centers	17	23
New stores	11	27
Other store-related projects	24	3
Total capital expenditures	\$139	\$139

(1) Includes expenditures related to the “Clean and Bright” initiative.

Cash Flows

(In millions)	39 Weeks Ended		
	October 31, 2015	November 1, 2014	Change
Net cash used in operating activities	\$(997)	\$(877)	\$(120)
Net cash used in investing activities	(129)	(122)	(7)
Net cash provided by financing activities	831	767	64
Effect of exchange rate changes on Cash and cash equivalents	(7)	(6)	(1)
Net decrease during period in Cash and cash equivalents	\$(302)	\$(238)	\$(64)

Cash Flows Used in Operating Activities

Net cash used in operating activities increased \$120 million to \$997 million for the thirty-nine weeks ended October 31, 2015, compared to \$877 million for the thirty-nine weeks ended November 1, 2014. The increase in Net cash used in operating activities was primarily due to an increase in vendor payments within our International segment in the first quarter of fiscal 2015 due to the timing of vendor payments at year-end, as well as an increase in annual bonus payout and merchandise purchases. These increases were partially offset by improved operating performance.

Cash Flows Used in Investing Activities

Net cash used in investing activities increased \$7 million to \$129 million for the thirty-nine weeks ended October 31, 2015, compared to \$122 million for the thirty-nine weeks ended November 1, 2014. The increase in Net cash used in investing activities was primarily due to a \$3 million decrease in proceeds received from the sales of fixed assets and a \$2 million decline in property insurance claim settlements compared to the prior year.

Cash Flows Provided by Financing Activities

Net cash provided by financing activities increased \$64 million to \$831 million for the thirty-nine weeks ended October 31, 2015, compared to \$767 million for the thirty-nine weeks ended November 1, 2014. The increase in Net cash provided by financing activities was primarily attributable to a \$31 million reduction in capitalized debt issuance costs and a \$25 million increase in net long-term debt borrowings. Refer to Note 2 to the Condensed Consolidated Financial Statements entitled “Short-term borrowings and long-term debt” for further details regarding our debt.

Debt

As of October 31, 2015, we had total indebtedness of \$5.6 billion, of which \$3.6 billion was secured indebtedness. During the thirty-nine weeks ended October 31, 2015, the following events occurred with respect to our debt structure:

-

On June 30, 2015, Toys-Japan entered into an agreement with a syndicate of financial institutions to refinance its Tranche 1 unsecured loan commitment line of credit into Tranche 1A and Tranche 1B. Tranche 1A is available in

33

amounts up to ¥9.45 billion (\$78 million at October 31, 2015) and expires on June 30, 2017. Tranche 1B is available in amounts up to ¥2.0 billion (\$17 million at October 31, 2015) and expires on June 30, 2016.

Refer to Note 2 to the Condensed Consolidated Financial Statements entitled “Short-term borrowings and long-term debt” for further details regarding our debt.

We and our subsidiaries, as well as the Sponsors or their affiliates, may from time to time acquire debt or debt securities issued by us or our subsidiaries in open market transactions, tender offers, exchange offers, privately negotiated transactions or otherwise. Any such transactions, and the amounts involved, will depend on prevailing market conditions, liquidity requirements, contractual restrictions and other factors. The amounts involved may be material. Refer to Note 8 to our Condensed Consolidated Financial Statements entitled “Related party transactions” and Note 16 to our Consolidated Financial Statements entitled “RELATED PARTY TRANSACTIONS” in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Contractual Obligations

Our contractual obligations consist mainly of payments related to Long-term debt and related interest, operating leases related to real estate used in the operation of our business and product purchase obligations. Refer to the “Contractual Obligations” section of Management’s Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report for the fiscal year ended January 31, 2015 included in our Form 10-K filed on March 26, 2015, for details on our contractual obligations.

Critical Accounting Policies

Our Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the related disclosures of contingent assets and liabilities as of the date of the financial statements and during the applicable periods. We base these estimates on historical experience and on other factors that we believe are reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions and could have a material impact on our Condensed Consolidated Financial Statements. Refer to the Annual Report on Form 10-K for the fiscal year ended January 31, 2015 for a discussion of critical accounting policies.

Recently Adopted Accounting Pronouncements

In August 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-13 “Derivative and Hedging (Topic 815): Application of the Normal Purchase and Normal Sales Scope Exception to Certain Electricity Contracts within Nodal Energy Markets” (“ASU 2015-13”). Current GAAP does not contain specific guidance about whether the use of locational marginal pricing by an independent system operator results in net settlement of a contract for the purchase or sale of electricity on a forward basis that necessitates transmission through, or delivery to a location within, a nodal energy market. ASU 2015-13 specifies that entities would not be precluded from applying the normal purchase and normal sales exception to derivative accounting to forward contracts for the physical delivery of electricity in nodal energy markets that result in parties incurring locational margin pricing charges or credits. The new guidance in ASU 2015-13 states that the use of locational marginal pricing by an independent system operator to determine a transmission charge or credit in a nodal energy market would not constitute a net settlement of a forward contract for the purchase or sale of electricity, even when legal title to the electricity is conveyed to the independent system operator during transmission. The Company has adopted the amendments in ASU 2015-13, effective August 10, 2015, as the amendments in the update are effective upon issuance. The adoption did not have an impact on our Condensed Consolidated Financial Statements.

In July 2015, the FASB issued ASU 2015-11, “Inventory (Topic 330): Simplifying the Measurement of Inventory” (“ASU 2015-11”). ASU 2015-11 simplifies the subsequent measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value. The FASB defines net realizable value as the “estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.”

Under current guidance, an entity subsequently measures inventory at the lower of cost or market, with market defined as the replacement cost, net realizable value or net realizable value less a normal profit margin. An entity uses current replacement cost provided that it is not above net realizable value (i.e. the ceiling) or below net realizable value less an “approximately normal profit margin” (i.e. the floor). ASU 2015-11 eliminates this analysis for entities within the scope of the guidance. ASU 2015-11 applies to entities that recognize inventory within the scope of ASC 330, except for inventory measured under the LIFO method or the retail inventory method. The Company has early adopted the amendments in ASU 2015-11, effective May 3, 2015. The adoption did not have an impact on our Condensed Consolidated Financial Statements.

In May 2015, the FASB issued ASU 2015-08, “Business Combinations (Topic 805): Pushdown Accounting - Amendments to SEC Paragraphs Pursuant to Staff Accounting Bulletin No. 115” (“ASU 2015-08”). The amendments in ASU 2015-08 amend various SEC paragraphs included in the FASB’s Accounting Standards Codification to reflect the issuance of Staff Accounting Bulletin No. 115 (“SAB 115”). SAB 115 rescinds portions of the interpretive guidance included in the SEC’s Staff Accounting Bulletins series and brings existing guidance into conformity with ASU No. 2014-17, “Business Combinations (Topic 805): Pushdown Accounting,” which provides an acquired entity with an option to apply pushdown accounting in its separate financial statements upon occurrence of an event in which an acquirer obtains control of the acquired entity. The Company has adopted the amendments in ASU 2015-08, effective May 8, 2015, as the amendments in the update are effective upon issuance. The adoption did not have an impact on our Condensed Consolidated Financial Statements.

In May 2015, the FASB issued ASU 2015-07, “Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)” (“ASU 2015-07”). The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value (“NAV”) per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. Entities should apply the amendments in this update retrospectively to all periods presented. The Company has early adopted ASU 2015-07, effective February 2, 2015. As the Company measures certain defined benefit plan assets using the NAV practicable expedient, upon adoption of ASU 2015-07, the fair value of these plan assets will be removed from the fair value hierarchy in all periods presented in the Company’s Consolidated Financial Statements. The Company will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

Forward-Looking Statements

This Quarterly Report on Form 10-Q, the other reports and documents that we have filed or may in the future file with the Securities and Exchange Commission and other publicly released materials and statements, both oral and written, that we have made or may make in the future, may contain “forward looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such disclosures are intended to be covered by the safe harbors created thereby. These forward looking statements reflect our current views with respect to, among other things, our operations and financial performance. All statements herein or therein that are not historical facts, including statements about our beliefs or expectations, are forward-looking statements. We generally identify these statements by words or phrases, such as “anticipate,” “estimate,” “plan,” “project,” “expect,” “believe,” “intend,” “foresee,” “forecast,” “will,” “may,” “outlook” or the negative version of these other similar words or phrases. These statements discuss, among other things, our strategy, store openings, integration and remodeling, the development, implementation and integration of our Internet business, future financial or operational performance, projected sales for certain periods, same store sales from one period to another, cost savings, results of store closings and restructurings, outcome or impact of pending or threatened litigation, domestic or international developments, amount and allocation of future capital expenditures, growth initiatives, inventory levels, cost of goods, selection and type of merchandise, marketing positions, implementation of safety standards, future financings, estimates regarding future effective tax rates, and other goals and targets and statements of the assumptions underlying or relating to any such statements.

These statements are subject to risks, uncertainties and other factors, including, among others, the seasonality of our business, competition in the retail industry, changes in our product distribution mix and distribution channels, general economic factors in the United States and other countries in which we conduct our business, consumer spending patterns, birth rates, our ability to implement our strategy including implementing initiatives for season, our ability to recognize cost savings, implementation and operation of our new eCommerce platform, marketing strategies, the availability of adequate financing, access to trade credit, changes in consumer preferences, changes in employment

legislation, our dependence on key vendors for our merchandise, political and other developments associated with our international operations, costs of goods that we sell, labor costs, transportation costs, domestic and international events affecting the delivery of toys and other products to our stores, product safety issues including product recalls, the existence of adverse litigation, changes in laws that impact our business, our substantial level of indebtedness and related debt-service obligations, restrictions imposed by covenants in our debt agreements and other risks, uncertainties and factors set forth under Item 1A entitled "RISK FACTORS" of our Annual Report on Form 10-K filed on March 26, 2015, and in our other reports and documents filed with the Securities and Exchange Commission. In addition, we typically earn a disproportionate part of our annual operating earnings in the fourth quarter as a result of seasonal buying patterns and these buying patterns are difficult to forecast with certainty. These factors should not be construed as exhaustive, and should be read in conjunction with the other cautionary statements that are included in this report. We believe that all forward-looking statements are based on reasonable assumptions when made; however, we caution that it is impossible to predict actual results or outcomes or the effects of risks, uncertainties or other factors on anticipated results or outcomes and that, accordingly, one should not place undue reliance on these statements. Forward-looking statements speak only as of the

date they were made, and we undertake no obligation to update these statements in light of subsequent events or developments unless required by the Securities and Exchange Commission's rules and regulations. Actual results and outcomes may differ materially from anticipated results or outcomes discussed in any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no significant change in our exposure to market risk during the thirty-nine weeks ended October 31, 2015. For a discussion of our exposure to market risk, refer to Item 7A entitled "QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK" in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Disclosure controls and procedures are the controls and other procedures that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including the principal executive and principal financial officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

We have evaluated, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act as of the end of the period covered by this report.

Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q to accomplish their objectives at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during our third quarter of fiscal 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

We are, and in the future may be, involved in various lawsuits, claims and proceedings incident to the ordinary course of business. The results of litigation are inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in diversion of significant resources. We are not able to estimate an aggregate amount or range of reasonably possible losses for those legal matters for which losses are not probable and estimable, primarily for the following reasons: (i) many of the relevant legal proceedings are in preliminary stages, and until such proceedings develop further, there is often uncertainty regarding the relevant facts and circumstances at issue and potential liability; and (ii) many of these proceedings involve matters of which the outcomes are inherently difficult to predict. However, based upon our historical experience with similar matters, we do not expect that any such additional losses would be material to our consolidated financial position, results of operations or cash flows.

Item 1A. Risk Factors

As of the date of this report, there have been no material changes to the information related to Item 1A entitled “RISK FACTORS” disclosed in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

Item 6. Exhibits

See the Index to Exhibits immediately following the signature page hereto, which Index to Exhibits is incorporated herein by reference.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
