RANGER GOVERNANCE FILES COUNTERCLAIMS AGAINST COMPUTER ASSOCIATES

Computer Associates Concealed Secret Consumer Study Supporting Findings of Ranger-Commissioned Study

Dallas, Texas, July 30, 2001 - Ranger Governance, Ltd. today filed counterclaims and third party claim in the lawsuit initiated against it last month by Computer Associates (NYSE: CA). These claims seek to halt the dissemination of materially false and misleading public statements which have been made by CA, Charles Wang and Sanjay Kumar as part of an attempt to defeat a proxy contest launched by Ranger and Sam Wyly and to bar the solicitation of proxies by CA based upon these statements. CA's suit was filed in the U.S. District Court for the Eastern District of New York on June 25, 2001.

Ranger's claims allege, among other things, that:

- . CA has mischaracterized the state of the Company's relations with its customers;
- . CA has attempted to cover up the adjudicated illegality of CA's past compensation paid to Wang, Kumar and Russell M. Artzt;
- . CA omitted material information from its proxy materials concerning the background of one of CA's director nominees, Roel Pieper; and
- . CA has made confusing and misleading statements about the financial performance of the Company.

Ranger Governance said, "We are disturbed, but not surprised, to see such a credibility gap across the board in CA's public statements, advertising, SEC filings and other materials. Computer Associates' own secret customer study confirms our beliefs and what we've been saying all along about the alarming level of customer dissatisfaction at CA. This underscores the urgent need to reform CA. Ranger Governance believes it can restore credibility, build shareholder value and get CA growing. The more CA shareholders learn about the true state of their company, the more we believe that they will see that electing the Ranger nominees is the right thing for CA."

In its counterclaims, Ranger states that, "Computer Associates' own secret market study shows that, despite what Wang and Kumar have been saying publicly, the company suffers from abysmal relations with its principal customers; and that those relations are getting worse under current management. . . . Computer Associates intentionally concealed the result of its secret study from the public and its shareholders."

Edgar Filing: COMPUTER ASSOCIATES INTERNATIONAL INC - Form DFAN14A

The counterclaims continued, "By omitting any reference to the fact that the Delaware court determined that the share grant was illegal, Wang and Kumar seek to avoid the embarrassment of admitting that their board's conduct was adjudicated to have been unlawful. In so doing, however, they have provided materially incomplete and misleading information to CA's shareholders in violation of federal securities laws. [CA's] omission was intentional or highly reckless."

On the subject of Roel Pieper, the counterclaims allege that, in addition to violating SEC rules by not disclosing Pieper's past role on the board of directors of Lernout & Hauspie, "[t]he fact that a massive fraud against the shareholders occurred when Pieper was vice-chairman of Lernout & Hauspie, and that the company filed for bankruptcy under his chairmanship, would be relevant to a reasonable shareholder in assessing Pieper's fitness and qualification to sit on the board of Computer Associates."
