Edgar Filing: FIRSTENERGY CORP - Form 35-CERT

1. Financial Statements -----

A copy of GPU Capital, Inc.'s (GPU Capital) and GPU Power's unaudited Consolidated Balance Sheets as of December 31, 2001 and unaudited Consolidated Statements of Operations for the twelve months ended December 31, 2001 will be filed separately under a request for confidential treatment pursuant to Rule 104(b).

GPU Capital was incorporated to secure financing to prepay indebtedness of certain subsidiaries of GPU Electric, Inc. (GPU Electric), and for working capital purposes including investments and acquisitions. A capital contribution was made to GPU Capital of all of the issued and outstanding common stock of GPU Electric, which then became a wholly-owned subsidiary of GPU Capital. GPU Capital is a wholly-owned subsidiary of FirstEnergy.

GPU Capital and GPU Electric own and operate electric transmission and distribution systems outside the United States and will be referred to as "GPU Electric."

2. Investments in Exempt Entities -----

In 1996, Avon Energy Partners Holdings, Inc. (Avon) was formed to acquire a 50% ownership interest in Midlands Electricity plc (Midlands), an English regional electric company. A wholly-owned subsidiary of Avon purchased the outstanding shares of Midlands through a cash tender offer of British pound 1.7 billion (approximately U.S. \$2.6 billion). FirstEnergy's interest in Avon is held by EI UK Holdings, Inc. (EI UK), a wholly-owned subsidiary of GPU Electric.

At the time of acquisition, EI UK borrowed approximately British pound 342 million (approximately U.S. \$586 million) through a five-year bank term loan facility to fund its investment in Holdings. In addition to the amount invested by EI UK, Holdings borrowed approximately British pound 1.1 billion (U.S. \$1.8 billion) through a non-recourse term loan and revolving credit facility to provide for the balance of the acquisition price.

In July 1999, GPU Electric acquired the additional 50% ownership interest in Avon for British pound 452.5 million (approximately US \$714 million). Accordingly, GPU Electric is the sole owner of Midlands' electric distribution and contracting businesses as well as independent power plants worldwide. The acquisition was financed at that time through a US \$250 million equity contribution, the issuance of US \$50 million of commercial paper by GPU Capital, and a two-year British pound 245 million (approximately US \$357 million) credit agreement entered into by EI UK.

In March 2002, FirstEnergy announced that it had finalized terms of an agreement pursuant to which Aquila will acquire a 79.9% interest in Avon for approximately \$1.9 billion including the assumption of \$1.6 billion of debt. The transaction is expected to be completed in April 2002.

In December 2001, FirstEnergy disposed of its ownership in GPU GasNet and related companies, a natural gas transmission business in Australia, through an initial public offering of GasNet's common stock. The IPO provided net proceeds of \$125 million to FirstEnergy and immediately removed \$290 million of GasNet-related debt from FirstEnergy's consolidated debt.

Edgar Filing: FIRSTENERGY CORP - Form 35-CERT

In 1999, GPU Electric acquired Empresa Distribuidora Electrica Regional, S.A. (Emdersa), an Argentine holding company, for \$375 million. The acquisition was financed at that time through the issuance of commercial paper by GPU Capital and a \$50 million capital contribution.

A significant portion of the acquisition debt associated with FirstEnergy's ownership of the above mentioned FUCOs has been refinanced or retired as follows:

GPU Capital had a \$1 billion, 364-day senior revolving credit agreement which expired in November 2001. In November 2001, all outstanding borrowings were paid in conjunction with the completion of the FirstEnergy/GPU merger and the facility was terminated.

GPU Electric had a \$150 million credit facility, which was due to expires in May 2002, to accommodate short-term borrowing needs. In November 2001, this credit facility was terminated in conjunction with the completion of the FirstEnergy/GPU merger.

GPU Australia Holdings had a \$180 million senior revolving credit facility, which expired in November 2001. In October 2001, all outstanding borrowings under this credit facility were paid and the facility was terminated.

EI UK Holdings, Inc. had a British pound 245 million (US \$357 million) credit facility consisting of a two tranches British pound 144 million and British pound 101 million). In November 2001, all outstanding borrowings were paid in conjunction with the FirstEnergy/GPU merger and the facility was terminated.
