This Information Statement and Notice of Action Taken Without a Meeting (collectively, the "Information Statement") is furnished by the Board of Directors of Fields Technologies, Inc., (the "Company" or "Fields"), a Delaware corporation, to the holders of the Company's \$.01 par value common stock at April 8, 2002 to provide information with respect to an action taken by written consent of the holders of a majority of the outstanding shares of the Company's Common Stock that were entitled to vote on such action. ### DISSENTERS' RIGHTS

Under the Delaware General Corporation Law ("DGCL"), the increase in the number of shares of the Company's common stock authorized does not require the Company to provide dissenting Stockholders with a right of appraisal and the Company will not provide Stockholders with such a right.

### INTEREST OF CERTAIN PERSONS IN OR OPPOSITION TO MATTERS ACTED UPON

The Company is not aware of any interest that would be substantially affected through the increase in the number of its authorized shares whether adversely or otherwise.

### VOTING SECURITIES

As of the Record Date, the Company's authorized capitalization consisted of 175,000,000 shares of Common Stock, par value \$.01 per share and 5,000,000 shares of Preferred Stock, par value \$.01 per share. As of the Record Date, there were 162,076,542 shares of Common Stock outstanding, all of which were fully paid, non-assessable and entitled to vote. Each share of Common Stock entitles its holder to one vote on each matter submitted to the Stockholder.

### MATTERS VOTED UPON

Effective April 8, 2002, the Board of Directors of Fields approved a proposal to amend the Company's Certificate of Incorporation to increase the number of our authorized Common Stock shares from 175,000,000 to 300,000,000 and to increase the number of our authorized Preferred Stock shares from 5,000,000 to 30,000,000. The holders of a majority of the outstanding shares of Common Stock also approved these actions by written consent as of April 8, 2002. A copy of the amendment to the Certificate of Incorporation being filed with the Delaware Secretary of State is attached hereto as Exhibit 1.

IT WILL NOT BE NECESSARY FOR STOCKHOLDERS TO EXCHANGE THEIR  
COMPANY STOCK CERTIFICATES.

The amendment to the Certificate of Incorporation will be filed on or about May 29, 2002 after the expiration of the time period required in 14c-5 of the Securities Exchange Act of 1934.

### APPROVAL OF AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO INCREASE AUTHORIZED SHARES OF COMMON STOCK AND PREFERRED STOCK

Our company's certificate of incorporation currently authorizes the

## Edgar Filing: FIELDS TECHNOLOGIES INC - Form PRE 14C

issuance of 175,000,000 shares of common stock, par value \$.01 per share, and 5,000,000 shares of preferred stock, par value \$.01 per share. Our board has unanimously adopted, subject to stockholder approval, an amendment to our restated certificate of incorporation to increase the number of authorized shares of our Common Stock from 175,000,000 shares to 300,000,000 shares and to increase the number of authorized shares of our Preferred Stock from 5,000,000 to 30,000,000.

Approval of the amendment to our certificate of incorporation requires the affirmative vote of a majority of the outstanding shares of common stock entitled to vote on this proposal.

On April 8, 2002, the Record Date, we had 162,076,542 shares of Common Stock issued and outstanding. On the Record Date we also had obligations to issue an additional 12,639,499 shares of Common Stock pursuant to outstanding, options, warrants and other commitments, and we had no shares of Preferred Stock outstanding. On March 28, 2002, we entered into a Securities Purchase Agreement with AW Fields Acquisition, LLC (AW) pursuant to which we will issue, subject to the terms of the Agreement, 11,666,667 shares of our common stock to AW. Furthermore, we will, subject to the terms of the Agreement, grant AW a warrant to purchase an additional 11,666,667 shares of our common stock .

The purpose of increasing the number of authorized shares of Common Stock and Preferred Stock is to provide additional authorized shares which will be issued to fulfill current obligations, possible future financings, and for acquisitions and such other corporate purposes as the board of Directors determines in its discretion. These corporate purposes may include future stock splits, stock dividends or other distributions, future financings, acquisitions and stock options and other equity benefits under our employee benefit plans. The increase in the number of authorized shares of Common Stock and Preferred Stock would enable us to promptly take advantage of market conditions and the availability of favorable opportunities without the delay and expense associated with holding a special meeting of stockholders.

Specifically, Fields has 175,000,000 common shares authorized and 174,716,041 shares issued and outstanding and committed for issuance, leaving 238,959 shares of Common Stock 5,000,000 Shares of Preferred Stock available for acquisitions and/or financing transactions. Fields is actively seeking to raise funds, as previously reported, and additional shares will likely be issued if Fields is successful in obtaining financing. As only 238,959 remaining authorized Common Stock and 5,000,000 Preferred Stock shares are insufficient for our current obligations and for any substantial financing transaction, the Board of Directors sought stockholder approval to increase the authorized common shares and preferred shares as described herein. Other than described above, Fields has no specific plans at this time to issue additional shares of Common Stock or Preferred Stock.

After filing the amendment, the Board of Directors is authorized to issue any of the additional shares of Common Stock and Preferred Stock at such times, to such persons and for such consideration as it may determine in its discretion, except as may otherwise be required by applicable law or the rules of any exchange on which the Common Stock and Preferred Stock may be listed. At the present time, the Common Stock and the Preferred Stock are not listed with any exchange. When and if they are issued, the additional shares of Common Stock and Preferred Stock would have the same rights and privileges as the presently outstanding shares of Common Stock and Preferred Stock.

One result of an increase in the number of shares of authorized common stock and preferred stock may be to help the Board of Directors discourage or

## Edgar Filing: FIELDS TECHNOLOGIES INC - Form PRE 14C

render more difficult a change in control. For example, the additional shares could be issued to dilute the voting power of, create voting impediments for, or otherwise frustrate the efforts of, persons seeking to effect a takeover or gain control of Fields, whether or not the change of control is favored by a majority of unaffiliated stockholders. Fields could also privately place shares with purchasers who might side with the Board of Directors in opposing a hostile takeover bid. We have not adopted this amendment with the intention of using the additional shares for anti-takeover purposes, although we could theoretically use the additional shares to make it more difficult or to discourage an attempt to acquire control of our company. We are not aware of any proposed or contemplated transaction of this type.

The issuance of any additional shares of common stock would also have the effect of diluting the equity interests of existing stockholders and the earnings per share of existing shares of common stock. Such dilution may be substantial, depending upon the amount of shares issued.

The newly authorized shares of Common Stock and Preferred Stock will have voting and other rights identical to those of the currently authorized shares of common stock. Under our certificate of incorporation, holders of our common stock do not preemptive rights. The amendment to increase the number of authorized shares will have no effect on the legal rights of the holders of the existing shares of Common Stock and Preferred Stock.

### SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth as of April 10, 2002, the number and percentage of the outstanding shares of common stock which, according to the information supplied to Fields, were beneficially owned by (i) each person who is currently a director of Fields, (ii) each executive officer, (iii) all current directors and executive officers of Fields as a group and (iv) each person who, to the knowledge of Fields is the beneficial owner of more than 5% of the outstanding common stock. Except as otherwise indicated, the persons named in the table have sole voting and dispositive power with respect to all shares beneficially owned, subject to community property laws where applicable. As of April 10, 2002 the Company had 162,076,542 shares of Common Stock outstanding and no shares of Preferred Stock outstanding
