Explanatory Note

Profire Energy, Inc. (“we,” “us” or “our”) is filing this Amendment No. 1 on Form 10-Q/A (this “Amendment”) to our Quarterly Report on Form 10-Q for the period ended December 31, 2010, originally filed with the Securities and Exchange Commission (the “SEC”) on February 14, 2011 (the “Original Form 10-Q”), to amend our Original Form 10-Q to revise the disclosures contained in Item 4 Controls and Procedures in our Original Form 10-Q to include a conclusion regarding the effectiveness of our disclosure controls and procedures as required by Item 307 of Regulation S-K. In addition, we are concurrently filing an Amendment No. 1 to our annual report on Form 10-K for the year ended March 31, 2010 and our quarterly reports on Form 10-Q for the periods ended June 30, 2010 and September 30, 2010.

For purposes of this Amendment, and in accordance with Rule 12b-15 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), Item 4 of the Original Form 10-Q has been amended and restated in its entirety. In addition, as required by Rule 12b-15 under the Exchange Act, currently-dated certifications from our principal executive officer and principal financial officer are filed as exhibits to this Amendment under Item 6 of Part II hereof. Except as stated herein, this Amendment does not reflect events occurring after the filing of the Original Form 10-Q and no attempt has been made in this Amendment to modify or update other disclosures as presented in the Original Form 10-Q. Accordingly, this Amendment should be read in conjunction with our filings with the SEC subsequent to the filing of the Original Form 10-Q.

PART I – FINANCIAL INFORMATION

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Management is responsible for establishing and maintaining adequate disclosure controls and procedures as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Our disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure and to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this quarterly report on Form 10-Q. Based upon this assessment, we determined that as of the end of period covered by this quarterly report on Form 10-Q our disclosure controls and procedures were not effective because there exist material weaknesses affecting our internal control over financial reporting.

The matters involving internal controls and procedures that our management considers to be material weaknesses under COSO and SEC rules are: (1) lack of a functioning audit committee and lack of independent directors on the Company's board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures; (2) inadequate segregation of duties consistent with control objectives; (3) insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of US GAAP and SEC disclosure requirements; and (4) ineffective controls over period end financial disclosure and reporting processes. The aforementioned potential material weaknesses were identified by our Chief Financial Officer in connection with the preparation of our financial statements as of December 31, 2010, who communicated the matters to our management and board of directors.

Management believes that the material weaknesses set forth in items (2), (3) and (4) above did not have an effect on our financial results. However, the lack of a functioning audit committee and lack of a majority of independent directors on our board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures, can impact our financial statements for the future years.

#### Management's Remediation Initiatives

Although we are unable to meet the standards under COSO because of the limited funds available to a company of our size, we are committed to improving our financial organization. As funds become available, we will undertake to: (1) create a position to segregate duties consistent with control objectives, (2) increase our personnel resources and technical accounting expertise within the accounting function (3) appoint one or more outside directors to our board of directors who shall be appointed to the audit committee of the Company resulting in a fully functioning audit committee who will undertake the oversight in the establishment and monitoring of required internal controls and procedures; and (4) prepare and implement sufficient written policies and checklists which will set forth procedures for accounting and financial reporting with respect to the requirements and application of US GAAP and SEC disclosure requirements.

We will continue to monitor and evaluate the effectiveness of our internal controls and procedures and our internal control over financial reporting on an ongoing basis and are committed to taking further action and implementing additional enhancements or improvements, as necessary and as funds allow. However, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of simple error or mistake. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks.

PART II – OTHER INFORMATION

Item 6. Exhibits

Exhibits. The following exhibits are included as part of this report:

E x h i b i t Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley  
31.1 Act of 2002
