**International Division** includes all operations outside the U.S., with the exception of those reported in the China Division. Currently, the International Division includes more than 11,000 system restaurants in 100 countries and territories. The International Division's period close remains one period earlier than the company's period-end date to facilitate consolidated reporting.

**China Division** includes mainland China, Thailand, and KFC Taiwan. Based on restaurant counts at the end of the third-quarter 2005, the China Division includes 1,657 restaurants in mainland China, 370 restaurants in Thailand, and 132 KFC restaurants in Taiwan.

For 2005, we have moved forward mainland China's business reporting calendar one period to more closely align the timing of reporting its results of operations with our U.S. business.

For purposes of this sales release, we have compared calendar months included in China Division's current reporting calendar with those same months last year. However, for purposes of quarterly financial reporting, we will compare 2005 results with previously reported 2004 results. The 2004 results for mainland China reflect a lag of one period. For example, fiscal fourth-quarter 2005 results for mainland China will end December 31, 2005. Last year's fourth-quarter results ended November 30, 2004.

**System-sales growth for our International and China businesses** includes total sales from all restaurants regardless of ownership, including company-owned, franchise, license, and unconsolidated affiliate (joint-venture) restaurants. Sales of franchise, unconsolidated affiliate (joint-venture) and license restaurants generate franchise and license fees for the company (typically at a royalty rate of 4% to 6% of sales). Franchise, unconsolidated affiliate (joint-venture) and license restaurant sales are not included in the company sales we present on our Consolidated Statements of Income in accordance with U.S. GAAP; however, the franchise fees (which include on-going royalties and initial fees) are included in the company's revenues. We believe system-sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates all our revenue drivers, company and franchise same-store sales as well as new-restaurant development.

**U.S. blended same-store sales** include only company restaurants that have been open one year or more. U.S. blended same-store sales include KFC, Pizza Hut, and Taco Bell company-owned restaurants only. U.S. same-store sales for Long John Silver's and A&W restaurants are not included. U.S. systemwide same-store-sales results including franchise restaurants are reported quarterly within the company's earnings release and include KFC, Pizza Hut, Taco Bell, Long John Silver's and A&W restaurants.
