from the date of grant of the applicable option or stock appreciation right to the end of the term of the applicable option or stock appreciation right. These annual appreciation rates have been set by the Securities and Exchange Commission for illustrative purposes and are not intended to forecast future financial performance of the Company or possible future appreciation, if any, in the price of the Company's Common Stock. Shareholders are therefore cautioned against drawing any conclusions from the appreciation data shown, aside from the fact that the executive officers will only realize value from the grants of options and stock appreciation rights shown when the price of the Company's Common Stock appreciates, which benefits all shareholders commensurately.

Plan Information

In 2000, the Chairman of the Board of the Company established a stock option plan under which he has granted to a broad group of employees of the Company and its subsidiaries options to purchase up to an aggregate of 2,506,120 shares of Common Stock of the Company (as adjusted for stock splits) owned by him. The benefits to the Company of the stock option plan are three-fold. First, the plan aligns the interest of the employees of the Company and its subsidiaries with the long-term interest of the Company's public shareholders. Second, the plan allows employees of the Company and its subsidiaries the potential to accumulate some wealth. Third, since outstanding shares of Common Stock owned by the Chairman of the Board back the options, the Company will issue no new shares when the options are exercised and the options will result in no dilution of the Company's outstanding Common Stock.

The Chairman has the sole right to establish criteria for participation of employees in the plan, to grant options under the plan, to specify the number of shares covered by each option, and to determine the exercise price of each option (provided that the exercise price cannot be less than the fair market value of a share of Common Stock of the Company on the most recent trading day preceding the date of grant). In general, each option granted under the Chairman's plan expires on the last day of November or December of the second calendar year after the year in which the option is granted and is exercisable during the six-month period ending on the expiration date. If the holder of an option ceases to be employed by the Company or one of its subsidiaries, other than as a result of his or her death, before the option first becomes exercisable, the option will expire at the time such holder's employment is terminated. If the holder of an option ceases to be employed by the Company or one of its subsidiaries, other than as a result of death, on or after the date the option first becomes exercisable, the option will expire on the earlier of 90 days after the date of termination of the holder's employment or the end of the term of the option. If the holder of an option dies while in the employ of the Company or one of its subsidiaries, the option will be exercisable by the legal representative or the holder's estate or by his or her heirs during the same period as the option could have been exercised by the holder had he or she lived and remained employed by the Company or one of its subsidiaries.

As of December 31, 2002, there were outstanding under the Chairman's plan options to purchase an aggregate of 1,128,960 shares of Common Stock with a weighted-average exercise price of \$31.67 per share, and there were 1,807,910 shares of Common Stock remaining available for issuance under the Chairman's plan. The Chairman has indicated that he does not intend to grant any further options under his plan if the Company Plan referred to under "Approval of Fastenal Company Stock Option Plan" below is approved by the shareholders of the Company at the Annual Meeting. No decision has been made by the Chairman at this time as to whether he would grant further options under his plan if the Company Plan is not approved by the shareholders. Since the Chairman's plan is backed solely by shares of Common Stock owned by him, the shareholders of the Company were not asked to approve that plan at the time it was established.

The Company established a stock appreciation rights plan in 2000 in connection with the Chairman's adoption of his stock option plan so that stock appreciation rights could be granted to certain officers and employee-directors of the Company who faced practical obstacles in participating in the Chairman's plan due to securities law considerations. The terms of the stock appreciation rights mirror those of the stock options, except that all payments upon exercise of the stock appreciation rights are made in cash. As a result, the stock appreciation rights result in no dilution of the Company's outstanding Common Stock. Further stock appreciation rights will be granted under the Company's stock appreciation rights plan only if the Chairman of the Board grants additional options under his stock option plan.

The Company does not maintain any compensation plans under which Common Stock or other equity securities of the Company are authorized for issuance.

Compensation Committee Interlocks and Insider Participation

As indicated under **Board and Committee Meetings** above, the Company does not have a Compensation Committee or any other committee of the Board of Directors performing equivalent functions. The Board of Directors makes decisions regarding compensation of executive officers of the Company. Three of the Company's executive officers, Robert A. Kierlin, Stephen M. Slaggie and Willard D. Oberton, are directors of the Company. Each of these individuals participated in all deliberations of the Board during the fiscal year ended December 31, 2002 concerning executive officer compensation.

Board Report on Executive Compensation

As required by the rules established by the Securities and Exchange Commission, the Board of Directors has prepared, for inclusion in this Proxy Statement, the following report on the compensation policies of the Board applicable to the Company's executive officers. The Company's executive compensation package consists of three main components: (i) base salary, (ii) the potential for cash bonuses, and (iii) stock-based awards. The types and amounts of compensation paid to any particular executive officer depend on, among other factors, whether or not that officer is a founder of the Company.

Founders

Two of the Company's executive officers, the Chairman of the Board, who also served as chief executive officer of the Company until December 2002, and the Secretary, are founders of the Company and, as shown in the table set forth under Security Ownership of Principal Shareholders and Management above, hold significant portions of the Company's Common Stock which were acquired by them at the time of the Company's incorporation. The compensation of the Chairman of the Board and Secretary for 2002 consisted solely of base salary, which was established by the Board of Directors at its first meeting in 2002. It is the philosophy of the Board of Directors that the Company should modestly compensate the Chairman of the Board and Secretary, and that financial reward for those officers should come in large part from increases in the value of the Company's Common Stock held by them. Consistent with that philosophy, the Board set the base salary of the Chairman of the Board and Secretary for 2002 at the same level as 2001.

The factors considered by the Board in setting the base salary of the Chairman of the Board and Secretary were subjective, such as the level of compensation paid by the Company to its other employees and the day-to-day involvement of such officers in the affairs of the Company. The Board is aware of the executive compensation historically paid by members of the peer group selected in connection with the preparation of the stock performance graph set forth under Performance Graph below (the Peer Group). However, the Board did not consider the compensation paid by the companies in the Peer Group to their chief executive officers in setting the base salary of the Company's Chairman of the Board, since the higher level of compensation generally present at those companies does not reflect the philosophy of the Board that the Chairman of the Board should be modestly compensated and since the Chairman of the Board devotes much of his time to activities other than those of the Company. The Company's performance was not a factor considered by the Board of Directors in setting the base salary of the Chairman of the Board or Secretary. However, the Board of Directors believes that, as a result of their significant share ownership, the interest of those officers are closely aligned with the long-term interest of the Company and its public shareholders.

Other Executive Officers, Including Chief Executive Officer

The compensation in 2002 of the Company's non-founding executive officers, including its Chief Executive Officer, consisted of base salary, the potential for cash bonuses under individual bonus arrangements, and stock-based incentive awards. The Chief Executive Officer served as chief operating officer of the Company until December 2002, at which time he assumed his current position. His compensation for 2002 was determined at the time he served as chief operating officer, and was not altered when he was elected as chief executive officer.

The Board of Directors established, at its first meeting in 2002, the base salary to be paid, and the method for determining any bonuses to be paid, for that year to those employees (other than the founders) serving at that time as executive officers of the Company. Base salary for each such executive officer, including the Chief Executive Officer, was determined by applying a discount factor to the base salary historically paid by members of the Peer Group to their executive officers having comparable responsibilities. The Board of Directors applied a discount factor due to the directors' belief that a significant portion of the total compensation of the Company's non-founding executive officers should be performance-based.

The bonus to be paid for 2002 to the Company's Chief Executive Officer and Vice-President - Product Procurement, Marketing and Logistics (who assumed that position in December 2002 and who, at the time compensation decisions were made, was a non-executive employee of the Company) was calculated based on the amount by which the Company's pre-tax income in each quarter of 2002 exceeded its pre-tax income in the same quarter of 2001. The bonus to be paid for 2002 to the Company's Chief Operating Officer (who assumed that position in December 2002 and who, at the time compensation decisions were made, served as vice-president of sales of the Company) was calculated based on two factors: (1) the amount by which the Company's net sales in each quarter of 2002 exceeded its net sales in the same quarter of 2001, and (2) the amount by which the Company's pre-tax income in each quarter of 2002 exceeded its pre-tax income in the same quarter of 2001. The bonus to be paid to the Company's Chief Financial Officer for 2002 was calculated based on the amount by which net income in each quarter of 2002 exceeded a percentage of net sales in that quarter.

In addition to base salary and bonus, each of the Company's non-founding executive officers, including its Chief Executive Officer, was granted either stock options or stock appreciation rights in 2002. The stock options were granted under the stock option plan for employees of the Company and its subsidiaries established by the Chairman of the Board of the Company in 2000. The stock appreciation rights were granted under a stock appreciation rights plan established by the Company in 2000 in connection with the Chairman's adoption of his stock option plan. The stock option plan and stock appreciation rights plan are described under "Option/SAR Grants" above.

The stock-based awards granted in 2002 to each of the Company's non-founding executive officers were determined by the Chairman of the Board, in the case of stock options, or by the Board of Directors, in the case of stock appreciation rights, based on the recommendation of the Chief Executive Officer and Chief Financial Officer. Each of the Company's non-founding executive officers received the same number of stock-based awards in 2002 as were granted that year individually to the other members of the Company's top management team.

The Company's performance was not a factor considered by the Board of Directors in setting the base salary of the Company's non-founding executive officers or by the Chief Executive Officer or Chief Financial Officer of the Company in making their recommendations regarding the award of stock-based incentives to the Company's non-founding executive officers. However, the Board of Directors believes that, as a result of their individual bonus arrangements and their stock-based awards, the interest of the Company's non-founding executive officers are closely aligned with the long-term interest of the Company and its public shareholders.

Section 162(m)

Section 162(m) of the Internal Revenue Code of 1986 (the Code) limits the deductibility of compensation over \$1,000,000 paid by a company to its executive officers. Since the Company's executive compensation is set at levels such that each executive officer is likely to receive compensation well below the \$1,000,000 limit, the Board of Directors has determined that it is not necessary at this time to take any position with respect to the non-deductibility of compensation in excess of \$1,000,000.

Performance Graph

Set forth below is a graph comparing, for a period of five years ended December 31, 2002, the yearly cumulative total shareholder return on the Company's Common Stock with the yearly cumulative total shareholder return of the NASDAQ Market Index and an index of a group of peer companies selected by the Company (the Peer Group Index).

The companies in the Peer Group are Lawson Products, Inc., Noland Company, MSC Industrial Direct Co., Inc. and W.W. Grainger, Inc. The Company is not included in the Peer Group.

In calculating the yearly cumulative total shareholder return of the Peer Group Index, the shareholder returns of the companies included in the Peer Group are weighted according to the stock market capitalization of such companies at the beginning of each period for which a return is indicated.

The comparison of total shareholder returns in the performance graph assumes that \$100 was invested on December 31, 1997 in each of the Company, the NASDAQ Market Index and the Peer Group Index, and that dividends were reinvested when and as paid.

APPROVAL OF FASTENAL COMPANY STOCK OPTION PLAN

Introduction

Effective February 14, 2003, the Company's Board of Directors authorized the adoption of the Fastenal Company Stock Option Plan (the Company Plan), which is attached to this Proxy Statement as Exhibit A. At that time, the Board directed that the Company Plan be submitted to the shareholders of the Company for approval at the Annual Meeting of Shareholders. If the shareholders approve the Company Plan, it will be effective as of April 16, 2003.

The purpose of the Company Plan is to further motivate the employees of the Company and its subsidiaries to produce a superior return for the Company's shareholders by facilitating their ownership of Common Stock of the Company and by rewarding them for achieving a high level of Company financial performance. The Company Plan is also intended to facilitate retaining employees by providing an attractive capital accumulation opportunity.

-18-

The Company currently maintains no compensation plans under which Common Stock or other equity securities of the Company are authorized for issuance. However, effective January 3, 2000, the Company's Chairman of the Board adopted a stock option plan which provides for the grant by the Chairman, at his discretion, to employees of the Company or its subsidiaries of options to purchase shares of Common Stock of the Company owned by the Chairman. As adjusted for stock splits, the Chairman of the Board has granted, to date, under his stock option plan options to purchase an aggregate of 2,506,120 shares of Common Stock of the Company owned by him. The Chairman of the Board has indicated that he does not intend to grant any further options under his stock option plan if the shareholders of the Company approve the Company Plan. No decision has been made by the Chairman at this time regarding whether he would grant further options under his plan if the Company Plan is not approved by the shareholders.

The description of the Company Plan set forth below is in all respects qualified by the terms of the Company Plan.

Market Price of Common Stock

The closing sale price of the Company's Common Stock as of February 7, 2003 was \$31.86 per share.

Description of Company Plan

Administration

The plan will be administered by the Board of Directors of the Company or a committee of two or more directors appointed by the Board (the Administrator). The Administrator will have the authority to grant options under the Company Plan, to specify the number of shares covered by each option, to set the exercise price, vesting and term of each option (provided that no option shall have an exercise price that is less than the fair market value of the Company's Common Stock on the most recent trading day preceding the date of grant), to interpret the Company Plan, and to make any other determination that it believes necessary or advisable for the proper administration of the Company Plan. The Administrator may delegate administrative duties under the Company Plan to such officers or employees of the Company or others as it may determine.

Number of Shares

The total number of shares of Common Stock of the Company available for issuance upon exercise of options granted under the Company Plan is 3,793,865 (or 5% of the currently outstanding shares), subject to adjustment as provided below. If an option terminates or expires or is surrendered before it has been completely exercised, the shares covered by the unexercised portion of the option may again be made subject to options granted under the Company Plan. Options for no more than 20,000 shares may be granted under the Company Plan to any one participant in any single fiscal year, subject to adjustment as provided below. There is no other limit on the number of shares in respect of which options may be granted to any participant.

The Company has had discussions with the Chairman of the Board regarding the implementation of a program pursuant to which, upon the exercise of any option granted under the Company Plan in 2003, the Company would use the purchase price paid upon such exercise to purchase outstanding shares of Common Stock of the Company, subject to applicable legal restrictions, and the Chairman would contribute to the Company a number of shares of Common Stock owned by him which, together with the shares acquired by the Company, would equal the total number of shares of Common Stock issued by the Company upon exercise of such option. The effect of such a program would be that the exercise of an option granted in 2003 would result in no permanent dilution to the shareholders of the Company. While the Chairman of the Board has indicated an interest in establishing such a program, the Chairman's interest is contingent on the tax, accounting and legal treatment of the program, from both an individual and a Company perspective, and the Chairman has not yet made any commitment to contribute his shares of Common Stock to the Company in connection with such a program. Shareholders of the Company should not assume that such a program will be implemented in determining whether or not to approve the Company Plan.

Eligibility

All employees of the Company and its subsidiaries, currently numbering approximately 7,000, will be eligible to participate in the Company Plan. The Administrator will have the sole right to establish criteria for participation of employees in the Company Plan, provided that any committee administering the Company Plan shall adhere to any criteria for participation established by the Board of Directors from time to time. Participation in the grant of options under the stock option plan established by the Chairman of the Board has generally been limited to employees with greater than three years of service to the Company or any of its subsidiaries by the last business day of the previous year in which the grant occurs, although exceptions have been made for certain employees such as branch managers and district managers. It is the Company's current intention to continue this practice. However, based on shares available and other factors, the criteria for participation may change in years subsequent to 2003.

Termination of Employment; Death

If a participant ceases to be employed by the Company or one of its subsidiaries, other than as a result of his or her death, any outstanding option held by that participant will expire at the time such participant's employment is terminated, except to the extent such option is exercisable on the date employment is terminated. To the extent any such option is exercisable on the date employment is terminated, that option will remain exercisable until the earlier of 90 days after the date of termination of such participant's employment or the end of the term of the option.

If a participant dies while in the employ of the Company or one of its subsidiaries, each of his or her options will be exercisable by the legal representative of his or her estate or by his or her heirs during the same period and to the same extent as the option could have been exercised by the participant had he or she lived and remained employed by the Company or one of its subsidiaries.

Payment of Exercise Price

The exercise price of each option granted under the Company Plan will be payable by check or in such other manner as the Administrator prescribes.

Stock Splits, Dissolutions, Mergers and Similar Events

Except as provided below, in the event of a capital adjustment resulting from a stock dividend, stock split, stock combination, reorganization, merger or similar event, the total number and kind of securities available for issuance upon the exercise of options granted under the Company Plan, the number and kind of securities for which options may be granted to any one participant in any single fiscal year, the number and kind of securities under each outstanding option, and the per share exercise price of each outstanding option, will be adjusted consistent with such capital adjustment.

In the event of a merger or similar transaction in which the Company is not the surviving or acquiring company or in which the Company becomes a wholly-owned subsidiary of another company, the securities of another corporation may be substituted for the shares subject to the Company Plan and any outstanding options, and appropriate adjustments may be made in the total number of securities for the purchase of which options may be granted under the Company Plan, the number of securities for which options may be granted to any one participant in any single fiscal year, the number of securities under each outstanding option, and the per share exercise price of each outstanding option. If no such substitution is made, or in the event of the Company's dissolution or liquidation, each of the outstanding options will terminate as of a date fixed by the Administrator, upon at least 30 days prior written notice to each participant. If notice of termination is given and an option has not previously expired, the holder of that option would have the right, until such termination date (but in no event beyond the expiration date of such option), to exercise all or any part of the option regardless of whether the option would otherwise be exercisable at that time.

Conditions to Exercise of Options

At the discretion of the Administrator, no exercise of an option will be effective unless all withholding taxes arising out of that exercise have been satisfied and unless all applicable securities listing, registration and qualification requirements have been complied with and all necessary or desirable consents and approvals of regulatory bodies have been obtained.

Suspension, Termination and Amendment

The Board of Directors may suspend, terminate or amend the Company Plan at any time. No suspension, termination or amendment of the Company Plan effected after the grant of an outstanding option may impair a participant's rights and obligations related to that option without the participant's consent. However, the consent of a participant to any suspension, termination or amendment of the Company Plan or of such participant's options will be considered to have been given if the participant fails to object in writing within 15 days after written notice of the suspension, termination or amendment has been given to such participant in person or by certified mail. Any amendments to the Company Plan may be made subject to approval by the shareholders of the Company, to the extent considered necessary to comply with applicable law or the listing requirements of any applicable securities exchange or the Nasdaq National Market. Unless the Company Plan is terminated earlier by the Board of Directors, it will remain in effect until options for all available shares have been granted and all granted options have been exercised or expired.

Restrictions on Transfer of Options

Options granted under the Company Plan are not transferable other than by will or by the laws of descent and distribution or pursuant to a domestic relations order, and may not be pledged by a participant to secure debt. The options of a participant are exercisable only by the participant or by a permitted transferee of the participant.

Federal Tax Considerations

All of the options granted under the Company Plan will be non-statutory stock options. Under existing federal income tax provisions, a participant will realize no taxable income, and the Company will be entitled to no deduction, when an option is granted under the Company Plan. When a participant exercises any option, he or she will realize ordinary income, and, subject to the limitations of Section 162(m) of the Code, the Company will be entitled to a related deduction, equal to the excess of the fair market value on the date of exercise of the shares received over the exercise price paid for those shares. Upon disposition by a participant of such shares, the participant will recognize a taxable gain or loss, measured by the difference between the amount realized on the disposition and the tax basis of such shares. In general, the tax basis will be the amount paid for the shares plus the amount treated as compensation income at the time the shares were acquired pursuant to the exercise of the option.

This summary of federal income tax consequences of non-qualified options does not purport to be complete and applies only to participants who are U.S. taxpayers. Reference should be made to the applicable provisions of the Code. There also may be state, local and foreign income tax consequences applicable to transactions involving non-statutory options.

Potential Limitation on Company Deductions

Section 162(m) of the Code denies a deduction to any publicly-held corporation for compensation paid to certain covered employees in a taxable year to the extent that compensation to such covered employee exceeds \$1,000,000. It is possible that compensation attributable to stock options, when combined with all other types of compensation received by a covered employee from the Company, may cause this limitation to be exceeded in any particular year.

Certain kinds of compensation, including qualified performance-based compensation, are disregarded for purposes of the deduction limitation. In accordance with Treasury regulations issued under Section 162(m), compensation attributable to stock options will qualify as performance-based compensation if the option is granted by a compensation committee comprised solely of outside directors and the plan contains a per-employee limitation on the number of shares for which options may be granted during a specified period, the per-employee limitation is approved by the shareholders, and either (i) the exercise price of the option is not less than the fair market value of the stock on the date of grant or (ii) the option is granted (or exercisable) only upon the achievement (as certified in writing by the compensation committee) of an objective performance goal established in writing by the compensation committee while the outcome is substantially uncertain.

The Company does not currently have a compensation committee, and options under the Company Plan will initially be granted by the full Board of Directors. Options granted by the full Board will not qualify under current Treasury regulations as performance-based compensation. However, the Board believes that the Company's executive compensation is currently set at levels such that covered employees are likely to receive compensation, including that attributable to stock options, well below the \$1,000,000 limit. If, in the future, the Board becomes concerned that the deduction limitation of Section 162(m) might be exceeded, the Board may consider establishing a compensation committee to grant options under the Company Plan so that the availability of corporate compensation deductions attributable to such options can be preserved.

Allocation of Benefits

Because all awards of stock options under the Company Plan are entirely within the discretion of the Administrator, the allocation of benefits under the Company Plan in the future is not currently determinable. As a result, the Company has omitted the tabular disclosure of benefits or amounts received or allocated under the Company Plan otherwise required by the rules of the Securities and Exchange Commission. No grants of stock options under the Company Plan have been made to date and no grants will be made until such time as the Company Plan is approved by the shareholders of the Company.

Board Recommendation; Voting of Proxies

The Board of Directors of the Company unanimously recommends that the shareholders of the Company vote to approve the adoption of the Company Plan. Proxies solicited by the Board will, unless otherwise directed, be voted for such approval.

**RELATIONSHIP WITH AND APPOINTMENT
OF INDEPENDENT AUDITORS**

The Audit Committee of the Board of Directors has selected KPMG LLP to serve as the Company's independent auditors for the fiscal year ending December 31, 2003, subject to ratification by the shareholders. While it is not required to do so, the Audit Committee is submitting the selection of that firm for ratification in order to ascertain the view of the shareholders. If the selection is not ratified, the Audit Committee will reconsider its selection. Proxies solicited by the Board of Directors will, unless otherwise directed, be voted to ratify the appointment of KPMG LLP as independent auditors for the Company for the fiscal year ending December 31, 2003.

A representative of KPMG LLP will be present at the Annual Meeting of Shareholders and will be afforded an opportunity to make a statement if such representative so desires and will be available to respond to appropriate questions during the meeting.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and officers to file initial reports of share ownership and reports of changes in share ownership with the Securities and Exchange Commission. Directors and officers are required by Commission regulations to furnish the Company with copies of all Section 16(a) forms they file. Based solely on a review of the copies of such forms furnished to the Company and written representations from the Company's directors and officers, all Section 16(a) filing requirements were met for the year ended December 31, 2002, except as follows: one report, covering the exercise of stock options and the sale of shares received upon such exercise, was filed late by Mr. Lundquist and three reports, each covering the purchase of less than five shares pursuant to the automatic reinvestment of annual cash dividends, were filed late by Mr. Florness. Due to oversights by third parties, one report, covering the exercise of stock appreciation rights for cash, was filed late by Mr. Oberton; one report, covering the exercise of stock options and the sale of shares received upon such exercise, was filed late by Ms. Wisecup and one report, covering the exercise of stock appreciation rights for cash, was filed late by Mr. Florness. In addition, due to oversights by third parties, Mr. Kierlin filed late reports covering three annual grants of options under his stock option plan and the expiration of options to purchase an aggregate of 518,640 shares upon the termination of employment of 816 option holders.

ADDITIONAL MATTERS

The Annual Report of the Company for the fiscal year ended December 31, 2002, including financial statements, is being mailed with this Proxy Statement.

As of the date of this Proxy Statement, management knows of no matters that will be presented for determination at the meeting other than those referred to herein. If any other matters properly come before the meeting calling for a vote of shareholders, it is intended that the shares represented by the Proxies solicited by the Board of Directors will be voted by the Proxies named therein in accordance with their best judgment.

The Company will pay the cost of soliciting Proxies in the accompanying form. In addition to solicitation by the use of mails, certain directors, officers and regular employees of the Company may solicit Proxies by telephone, telegram or personal interview, and may request brokerage firms and custodians, nominees and other record holders to forward soliciting materials to the beneficial owners of stock of the Company and will reimburse them for their reasonable out-of-pocket expenses in so forwarding such materials.

Shareholders who wish to obtain a copy of the Company's 10-K Annual Report filed with the Securities and Exchange Commission for the fiscal year ended December 31, 2002 may do so without charge by writing to Stephen M. Slaggie, Secretary, at the Company's offices, 2001 Theurer Boulevard, Winona, Minnesota 55987-0978.

Edgar Filing: FASTENAL CO - Form DEF 14A

(b) Period of Option. The expiration date with respect to each Option shall be determined and stated by the Administrator at the time of grant.

(c) Vesting of Shareholder Rights. Neither an Optionee nor any transferee pursuant to a Permitted Transfer (as defined below) shall have any of the rights of a shareholder of the Company until the Option has been exercised and the certificates evidencing the Shares purchased are properly delivered to such Optionee or transferee.

(d) Exercise of Option. The period during which each Option may be exercised shall be determined and stated by the Administrator in the award agreement or certificate at the time of grant. Except as otherwise provided in this Plan, an Option may be exercised only while the Optionee is employed by the Company or a Subsidiary, and only if the Optionee has been continuously so employed since the date the Option was granted.

(e) Manner of Exercise. Each exercise of an Option shall be in writing, in such form as the Administrator may prescribe, delivered to the Administrator or its designee, specifying the number of Shares being purchased and accompanied by payment of the Option price for such Shares, by check payable to the Company or in such other manner as the Administrator may prescribe.

(f) Nontransferability of Options. No Option shall be transferable or assignable by an Optionee, otherwise than by will or the laws of descent and distribution or pursuant to a domestic relations order as defined by the Code or Title I of the Employment Retirement Income Security Act (each a Permitted Transfer). Each Option shall be exercisable only by the Optionee or by a transferee pursuant to a Permitted Transfer. No Option shall be pledged or hypothecated in any way and no Option shall be subject to execution, attachment, or similar process.

(g) Termination of Employment. Except as otherwise provided in paragraph 6(h), upon termination of an Optionee's employment with the Company or a Subsidiary, (i) any outstanding Option held by such Optionee shall terminate except to the extent that it is immediately exercisable by its terms at the date of such termination of employment and (ii) to the extent any such Option is immediately exercisable by its terms at the date of such termination of employment, it shall remain exercisable until the earlier of 90 days after the date of such termination of employment or the date of expiration of such Option. The granting of an Option to a Participant does not alter in any way the existing rights of the Company and its Subsidiaries to terminate such person's employment at any time for any reason or for no reason, nor does it confer upon such person any rights or privileges except as specifically provided for in the Plan.

(h) Death of Optionee. If an Optionee dies while in the employ of the Company or any Subsidiary, any outstanding Option shall be exercisable by the Optionee's Successor during the same period and to the same extent as the option could have been exercised by the Optionee had the Optionee lived and remained employed by the Company or a Subsidiary.

7. Adjustments.

(a) Except as provided in paragraph 7(c), in the event of a capital adjustment resulting from a stock dividend, stock split, reorganization, merger, consolidation, or a combination or exchange of Shares, the number and kind of Shares subject to the Plan and the Maximum Annual Grant and the number and kind of Shares under each outstanding Option shall be adjusted consistent with such capital adjustment. The Option price of any Share under each outstanding Option shall be adjusted so that there will be no change in the aggregate purchase price payable upon exercise of any such Option. The granting of an Option pursuant to the Plan shall not affect in any way the right or power of the Company to make adjustments, reorganizations, reclassifications, or changes of its capital or business structure or to merge, consolidate, dissolve, liquidate, or sell or transfer all or any part of its business or assets.

(b) In the event of the dissolution or liquidation of the Company, any Option granted under the Plan shall terminate as of a date to be fixed by the Administrator, provided that not less than 30 days written notice of the date so fixed shall be given to each Optionee and each such Optionee shall have the right during such period (but in no event beyond the expiration date of the applicable Option) to exercise each of his outstanding Options as to all or any part of the Shares covered thereby including Shares as to which such Option would not otherwise be exercisable by reason of an insufficient lapse of time.

(c) In the event of a Reorganization (as hereinafter defined) in which the Company is not the surviving or acquiring company, or in which the Company is or becomes a wholly-owned subsidiary of another company after the effective date of the Reorganization, then

(1) If there is no plan or agreement respecting the Reorganization (Reorganization Agreement) or if the Reorganization Agreement does not specifically provide for the change, conversion, or exchange of the Shares under outstanding and unexercised Options for securities of another corporation, then any Option granted under the Plan shall terminate as of a date to be fixed by the Administrator, provided that not less than 30 days written notice of the date so fixed shall be given to each Optionee and each such Optionee shall have the right during such period (but in no event beyond the expiration date of the applicable Option) to exercise each of his outstanding Options as to all or any part of the Shares covered thereby including Shares as to which such Option would not otherwise be exercisable by reason of an insufficient lapse of time; or

(2) If there is a Reorganization Agreement and if the Reorganization Agreement specifically provides for the change, conversion, or exchange of the Shares under outstanding and unexercised Options for securities of another corporation, then the securities received on account of such Shares shall be subject to the Plan and then-outstanding Options. The Administrator may make appropriate adjustment in the number and kind of Shares for the purchase of which Options may be granted under the Plan and for the Maximum Annual Grant. In addition, the Administrator shall make appropriate adjustment in the number and kind of Shares as to which outstanding Options, or portions thereof then unexercised, shall be exercisable, to the end that the interest of the holder of the Option shall, to the extent practicable, be maintained as before the occurrence of such event. Such adjustment in outstanding Options shall be made without change in the total price applicable to the unexercised portion of the Option but with a corresponding adjustment in the Option price per Share.

The term Reorganization as used in this subparagraph (c) of this paragraph 7 shall mean any statutory merger, statutory consolidation, statutory share exchange, sale of all or substantially all of the assets of the Company, or sale, pursuant to an agreement with the Company, of securities of the Company pursuant to which the Company is or becomes a wholly-owned subsidiary of another company after the effective date of the Reorganization.

(d) Adjustments and determinations under this paragraph 7 shall be made by the Administrator, as specified herein, and its decisions as to what adjustments or determinations shall be made, and the extent thereof, shall be final, binding, and conclusive.

8. Restrictions on Issuing Shares.

The exercise of each Option and the issuance of Shares in connection therewith shall be subject to the condition that if at any time the Administrator shall determine in its discretion that the satisfaction of withholding tax or other withholding liabilities, or that the listing, registration, or qualification of any Shares otherwise deliverable upon such exercise upon any securities exchange or the Nasdaq National Market or under any state or federal law, or that the consent or approval of any regulatory body, is necessary or desirable as a condition of, or in connection with, such exercise or the delivery or purchase of Shares pursuant thereto, then in any such event, such exercise shall not be effective unless such withholding, listing, registration, qualification, consent, or approval shall have been effected or obtained free of any conditions not acceptable to the Administrator.

9. Administration of Plan.

The Plan shall be administered by the Board or by a committee of two or more directors of the Company appointed by the Board (the Administrator). If the Plan is administered by a committee, it shall report all action taken by it to the Board. In administering the Plan, the Administrator shall be governed by and shall adhere to the provisions of the Plan, including any criteria for eligibility or participation established by the Board from time to time. Subject to the foregoing, the Administrator shall determine eligibility to participate in the Plan, ascertain the number of Shares for which each participant is eligible in accordance with any established criteria, grant Options, construe and interpret the Plan, and make all other determinations and take all other actions deemed necessary or advisable for the proper administration of the Plan. All such actions and determinations shall be conclusively binding for all purposes and upon all persons. The Administrator may delegate administrative duties under this Plan to such officers or employees of the Company or others as it may determine.

10. Delivery of Shares and Proceeds.

Upon the exercise of an Option, the Administrator shall cause a certificate for the purchased Shares to be issued by the Company's transfer agent and delivered to the Optionee. The proceeds received from the sale of Shares pursuant to the exercise of Options granted under the Plan shall be the property of the Company, and shall be delivered to it promptly by the Administrator.

11. Amendment, Suspension, or Termination of Plan.

The Board may at any time suspend or terminate the Plan or may amend it from time to time in such respects as it may deem advisable in order that the Options granted thereunder may conform to any changes in the law or in any other respect which it may deem to be in the best interests of the Company. Unless the Plan shall theretofore have been terminated as provided herein, the Plan shall terminate when all available Shares have been granted and no granted Option is outstanding. No Option may be granted during any suspension or after the termination of the Plan. No amendment, suspension, or termination of the Plan shall, without an Optionee's consent, impair any of the rights or obligations under any outstanding Option theretofore granted to such Optionee under the Plan. A Participant's consent to any amendment, suspension, or termination of the Plan or to any Option issued pursuant to the Plan shall be deemed to have been given if the Participant fails to object in writing within 15 days after written notice thereof, given in person or by certified mail sent to the Participant's address contained in the records of the Company. To the extent considered necessary to comply with applicable provisions of law or the listing requirements of any applicable securities exchange or the Nasdaq National Market, any such amendments to the Plan may be made subject to approval by the shareholders of the Company.

12. Adoption and Effective Date of Plan.

The Plan is approved and adopted by the Board of Directors on February 14, 2003. It will be submitted to the Shareholders of the Company at the next annual meeting. The Plan will be effective if approved by a majority of the outstanding Shares present and entitled to vote at such meeting, upon such approval or upon such other date as may be specified in the resolution of approval.
