#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED)

#### 1. Basis of Presentation

#### **Basis of Presentation**

The unaudited Condensed Consolidated Financial Statements of Tyco Electronics Ltd. ("Tyco Electronics" or the "Company") have been prepared in United States Dollars, in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of the Condensed Consolidated Financial Statements in conformity with GAAP requires management to make use of estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Actual results could differ materially from these estimates. In management's opinion, the unaudited Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary for a fair presentation of interim results. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire fiscal year or any subsequent interim period.

The Company consists of three reportable segments: Transportation Connectivity, Communications and Industrial Solutions, and Network Solutions. Effective for the first quarter of fiscal 2011, the Company reorganized its management and segments to align the organization around its strategy. The Company's businesses in the former Specialty Products Group Aerospace, Defense, and Marine; Medical Products; Circuit Protection; and Touch Systems have been moved into other segments. Also, the former Subsea Communications segment and the businesses associated with ADC Telecommunications, Inc. ("ADC"), acquired on December 8, 2010, have been included in the Network Solutions segment. See Note 4 for additional information regarding the Company's acquisition of ADC and Note 20 for additional information regarding the Company's segments.

The Condensed Consolidated Financial Statements have been prepared in accordance with the instructions to Form 10-Q under the Securities Exchange Act of 1934, as amended. The year-end balance sheet data was derived from audited financial statements, but does not include all of the information and disclosures required by GAAP. These financial statements should be read in conjunction with the Company's audited Consolidated Financial Statements contained in the Company's Annual Report on Form 10-K for the fiscal year ended September 24, 2010.

Unless otherwise indicated, references in the Condensed Consolidated Financial Statements to fiscal 2011 and fiscal 2010 are to the Company's fiscal years ending September 30, 2011 and September 24, 2010, respectively.

#### Reclassifications

The Company has reclassified certain items on its Condensed Consolidated Financial Statements to conform to the current year presentation.

## 2. Accounting Pronouncements

## Recently Adopted Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued updates to guidance in Accounting Standards Codification ("ASC") 810, *Consolidation*, that address accounting for variable interest entities. The Company adopted these updates to ASC 810 in the first quarter of fiscal 2011.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 2. Accounting Pronouncements (Continued)

Adoption did not have a material impact on the Company's results of operations, financial position, or cash flows.

In December 2010, the FASB issued an update to guidance in ASC 805, *Business Combinations*, that clarifies the disclosure requirements for pro forma presentation of revenue and earnings related to a business combination. The Company elected to early adopt this guidance during the first quarter of fiscal 2011. See Note 4 for the required pro forma presentation related to the acquisition of ADC.

#### 3. Restructuring and Other Charges, Net

Restructuring and other charges consisted of the following during the quarters ended December 24, 2010 and December 25, 2009:

	For the Quarters Ended				
	December 24, 2010			ember 25, 2009	
		(in mi	llions)		
Restructuring and related charges, net	\$	39	\$	51

 $\label{eq:localization} \mbox{Includes $16$ million of ADC liabilities assumed.}$ 

#### Fiscal 2011 Actions

The Company initiated restructuring programs during the first quarter of fiscal 2011 which were primarily associated with the acquisition of ADC and related to headcount reductions in the Network

6

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 3. Restructuring and Other Charges, Net (Continued)

Solutions segment. In connection with these actions, during the quarter ended December 24, 2010, the Company recorded restructuring charges of \$37 million primarily related to employee severance and benefits. The Company expects to complete all restructuring activities commenced in fiscal 2011 by the end of the fiscal year and to incur additional charges, primarily in the Network Solutions segment, of approximately \$3 million relating to these initiated actions by completion.

During the quarter ended December 24, 2010, in connection with the acquisition of ADC, the Company assumed \$16 million of liabilities related to employee severance and exited lease facilities which have been included in the Network Solutions segment. The Company expects to incur charges of \$2 million related to these actions by completion.

#### Fiscal 2010 Actions

The Company initiated restructuring programs during fiscal 2010 primarily relating to headcount reductions in the Transportation Connectivity segment. In connection with these actions, during the quarter ended December 25, 2009, the Company recorded restructuring charges of \$40 million primarily related to employee severance and benefits. The Company expects to complete all restructuring activities commenced in fiscal 2010 by the end of fiscal 2011 and to incur additional charges, primarily in the Transportation Connectivity segment, of approximately \$3 million relating to these initiated actions by completion.

#### Pre-Fiscal 2010 Actions

During the quarters ended December 24, 2010 and December 25, 2009, the Company recorded net restructuring charges of \$2 million and \$4 million, respectively, related to pre-fiscal 2010 actions. The Company expects to complete all restructuring activities commenced in fiscal 2009 by the end of fiscal 2011 and to incur additional charges, primarily in the Communications and Industrial Solutions segment, of approximately \$6 million relating to these initiated actions by completion.

Restructuring actions initiated in fiscal 2002 primarily related to actions taken as a result of a significant downturn in the telecommunications industry and certain other end markets. As of December 24, 2010, the remaining restructuring reserves related to 2002 actions were \$33 million and related to exited lease facilities in the Network Solutions segment. The Company expects that the remaining reserves will continue to be paid out over the expected terms of the lease obligations which range from one to fifteen years.

#### Restructuring and Related Non-Cash Charges

During the quarter ended December 25, 2009, the Company recorded non-cash charges of \$4 million primarily related to the write-off of fixed assets in connection with exited manufacturing facilities and product lines.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 3. Restructuring and Other Charges, Net (Continued)

#### **Total Restructuring Reserves**

The Company's restructuring reserves by segment were as follows:

	nber 24, 010	Sept	ember 24, 2010
	(in mi	llions)	
Transportation Connectivity	\$ 63	\$	79
Communications and Industrial Solutions	19		19
Network Solutions	91		47
Restructuring reserves	\$ 173	\$	145

Restructuring reserves were included in the Company's Condensed Consolidated Balance Sheets as follows:

	Decem 20	/	-	ember 24, 2010
		(in mi	llions)	
Accrued and other current liabilities	\$	135	\$	115
Other liabilities		38		30
Restructuring reserves	\$	173	\$	145

#### Loss on Divestiture and Impairment of Long-Lived Assets

In December 2009, the Company completed the sale of the Dulmison connectors and fittings product line which was part of the Company's energy business in the Network Solutions segment for net cash proceeds of \$12 million, subject to a final working capital adjustment. In connection with the divestiture, the Company recorded a pre-tax impairment charge related to long-lived assets and a pre-tax loss on sale of \$12 million and \$3 million, respectively, in the first quarter of fiscal 2010.

The impairment charge and loss on sale are reflected in restructuring and other charges, net on the Condensed Consolidated Statement of Operations. The Company has presented the long-lived asset impairment, the loss on sale, and the operations of the Dulmison connectors and fittings product line in continuing operations due to immateriality.

#### 4. Acquisition

In July 2010, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") to acquire 100% of the outstanding stock of ADC Telecommunications, Inc. ("ADC"), a provider of broadband communications network connectivity products and related solutions. Pursuant to the Merger Agreement, the Company commenced a tender offer through a subsidiary of the Company to purchase all of the issued and outstanding shares of ADC common stock at a purchase price of \$12.75 per share in cash followed by a merger of the subsidiary with and into ADC, with ADC surviving as an indirect wholly-owned subsidiary of the Company. On December 8, 2010, the Company acquired 86.8% of the outstanding common shares of ADC. On December 9, 2010, the Company exercised its option under the Merger Agreement to purchase additional shares from ADC that when combined with the shares purchased in the tender offer were sufficient to give the Company ownership

Table of Contents

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 4. Acquisition (Continued)

of more than 90% of the outstanding ADC common shares. On December 9, 2010, upon effecting a short-form merger under Minnesota law, the Company owned 100% of the outstanding shares of ADC for a total purchase price of approximately \$717 million in cash (net of cash acquired of \$546 million) and \$22 million representing the fair value of ADC share-based awards exchanged for Tyco Electronics share options and stock appreciation rights.

Based on the terms and conditions of ADC's share option and stock appreciation right ("SAR") awards (the "ADC Awards"), all ADC Awards became exercisable upon completion of the acquisition. Each outstanding ADC Award was exchanged for approximately 0.4 Tyco Electronics share options or SARs and resulted in approximately 3 million Tyco Electronics share options being issued with a weighted-average exercise price of \$38.88. Issued SARs and the associated liability were insignificant. The fair value associated with the exchange of ADC Awards for Tyco Electronics awards was approximately \$24 million based on Black-Scholes-Merton pricing valuation model, of which \$22 million was recorded as consideration given in the acquisition while the remaining \$2 million was recorded as compensation expense on the Condensed Consolidated Statement of Operations during the quarter ended December 24, 2010.

The acquisition was made to accelerate the Company's growth potential in the global broadband connectivity market. The Company expects to realize cost savings and other synergies through operational efficiencies. ADC's businesses are reported as part of the Company's Network Solutions segment from the date of acquisition.

The ADC acquisition was accounted for under the provisions of ASC 805, *Business Combinations*. The Company has preliminarily allocated the purchase price to tangible and identifiable intangible assets acquired and liabilities assumed based on their fair values. The Company is in the process of completing the valuation of identifiable assets acquired and liabilities assumed and, therefore, the fair values set forth below are subject to adjustment upon finalizing the valuations. In addition, completion of the purchase price allocation may impact the assessment of the net deferred tax asset of \$30 million currently recognized with any adjustment resulting in a corresponding change to goodwill. The amount of these potential adjustments could be significant. The Company expects to complete the purchase price allocation during the current fiscal year.

9

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 4. Acquisition (Continued)

The following table summarizes the preliminary allocation of the purchase price to the fair value of identifiable assets and liabilities assumed at the date of acquisition, in accordance with the acquisition method of accounting:

	(in n	nillions)
Cash and cash equivalents	\$	546
Short-term investments		155
Other current assets		474
Property, plant, and equipment		230
Goodwill		523
Intangible assets		300
Other long-term assets		89
Total assets acquired		2,317
Current maturities of long-term debt		653
Other current liabilities		261
Long-term pension liabilities		74
Other long-term liabilities		44
Total liabilities assumed		1,032
Net assets acquired		1,285
Conversion of ADC Awards to Tyco		
Electronics share awards		(22)
Less: cash and cash equivalents acquired		(546)
Net cash paid	\$	717

Other current assets consist primarily of trade accounts receivable of \$194 million and inventories of \$166 million. Other current liabilities assumed are primarily comprised of accrued and other current liabilities of \$166 million and trade accounts payable of \$88 million.

The fair values assigned to intangible assets were determined through the use of the income approach, specifically the relief from royalty method and the multi-period excess earnings method. Both valuation methods rely on management judgments, including expected future cash flows resulting from existing customer relationships, customer attrition rates, contributory effects of other assets utilized in the business, peer group cost of capital and royalty rates, and other factors. The valuation of tangible assets was derived using a combination of the income approach, the market approach, and the cost approach. Significant judgments used in valuing tangible assets include estimated reproduction or replacement cost, useful lives of assets, estimated selling prices, costs to complete, and reasonable profit.

Useful lives for intangible assets were determined based upon the remaining useful economic lives of the intangible assets that are expected to contribute directly or indirectly to future cash flows.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 4. Acquisition (Continued)

Intangible assets acquired consist of the following:

	An	nount	Weighted-Average Amortization Period
	(in m	illions)	(in years)
Customer relationships	\$	160	11
Developed technology and patents		123	12
Customer order backlog		13	0.3
Trade names and trademarks		4	1
Total	\$	300	11

The acquired intangible assets are being amortized on a straight-line basis over their expected lives. The \$523 million of goodwill is attributable to the excess of the purchase price over the fair value of the net tangible and intangible assets acquired and liabilities assumed. The goodwill recognized is primarily attributable to cost savings and other synergies that the Company expects to realize through operational efficiencies including consolidation of both marketing and general and administrative functions. All of the goodwill has been allocated to the Company's Network Solutions segment and is not expected to be deductible for tax purposes.

ADC contributed net sales of \$51 million and an operating loss of \$57 million to the Company's Condensed Consolidated Statements of Operations during the period from December 9, 2010 to December 24, 2010. This operating loss included restructuring charges of \$35 million, integration costs of \$10 million, acquisition costs of \$7 million, and charges of \$7 million associated with acquisition accounting-related fair value adjustments to inventories and customer order backlog.

The following unaudited pro forma financial information reflects the consolidated results of operations of the Company had the ADC acquisition occurred at the beginning of fiscal 2010.

	2	2010		2009			
		(in	million	ıs)			
Net sales	\$	3,411	\$	3,158			
Net income attributable to Tyco Electronics Ltd.		243		139			

The pro forma financial information is based on the Company's preliminary allocation of purchase price and therefore subject to adjustment upon finalizing the purchase price allocation. The pro forma adjustments described below are net of income tax expense (benefit) at the statutory rate.

Pro forma results for the first quarter of fiscal 2011 were adjusted to exclude \$15 million of share-based compensation charges incurred by ADC as a result of the change in control of ADC, \$13 million of acquisition costs, \$3 million of charges related to the fair value adjustment to acquisition-date inventories, and \$1 million of charges related to acquired customer order backlog. Pro forma results for the first quarter of fiscal 2011 were also adjusted to include \$1 million of charges related to the amortization of the fair value of acquired intangible assets.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 4. Acquisition (Continued)

Pro forma results for the first quarter of fiscal 2010 were adjusted to include \$15 million of charges related to the fair value adjustment to acquisition-date inventories, \$7 million of charges related to acquired customer order backlog, and \$1 million of charges related to the amortization of the fair value of acquired intangible assets.

Pro forma results do not include any anticipated synergies or other anticipated benefits of the acquisition. Accordingly, the unaudited pro forma financial information is not necessarily indicative of either future results of operations or results that might have been achieved had the acquisition occurred at the beginning of fiscal 2010.

#### 5. Inventories

Inventories consisted of the following:

	December 24, 2010		ember 24, 2010		
	(in millions)				
Raw materials	\$ 309	\$	253		
Work in progress	550		509		
Finished goods	868		739		
Inventoried costs on long-term contracts	109		82		
Inventories	\$ 1,836	\$	1,583		

#### 6. Goodwill

The changes in the carrying amount of goodwill by segment were as follows:

	Transportation Connectivity		ommunications and Industrial Solutions		Network Solutions		Total
			(in mil	lions	)		
Balance at September 24, 2010:							
Goodwill	\$ 2,710	\$	3,311	\$	1,865	\$	7,886

## 7. Intangible Assets, Net

The Company's intangible assets were as follows:

		December 24, 2010					<b>September 24, 2010</b>					
	Ca	Gross arrying mount	Accumulated Amortization						Accumulated Amortization		Ca	
				(in millions)								
Intellectual property	\$	854	\$	(363)	\$	491	\$	730	\$	(355)	\$	375
Customer relationships		160		(1)		159						
Other		41		(6)		35		21		(4)		17
Total	\$	1,055	\$	(370)	\$	685	\$	751	\$	(359)	\$	392

During the quarter ended December 24, 2010, the ADC acquisition increased the gross carrying amount of intangible assets by \$300 million. Intangible asset amortization expense was \$11 million and \$8 million for the quarters ended December 24, 2010 and December 25, 2009, respectively.

The estimated aggregate amortization expense on intangible assets currently owned by the Company is expected to be as follows:

	(in m	illions)
Remainder of fiscal 2011	\$	57
Fiscal 2012		58
Fiscal 2013		59
Fiscal 2014		58

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 8. Debt

Debt was as follows:

	December 24, 2010		Sep	tember 24, 2010
		(in mi	llions	)
6.00% senior notes due 2012	\$	719	\$	719
5.95% senior notes due 2014		300		300
6.55% senior notes due 2017		739		740
4.875% senior notes due 2021		249		
7.125% senior notes due 2037		475		475
Floating rate convertible subordinated notes due 2013		199		
3.50% convertible subordinated notes due 2015		227		
3.50% convertible subordinated notes due 2017		227		
Commercial paper, at an interest rate of 0.55%				100
Other		80		79
Total debt <sup>(1)</sup>		3,215		2,413
Less current portion <sup>(2)</sup>		660		106
•				
Long-term debt	\$	2,555	\$	2,307

<sup>(1)</sup> Senior notes are recorded at face amount and, if applicable, are net of unamortized discount and the fair value of interest rate swaps.

During December 2010, Tyco Electronics Group S.A. ("TEGSA"), a wholly-owned subsidiary of the Company, issued \$250 million principal amount of 4.875% senior notes due January 15, 2021. The notes were offered and sold pursuant to an effective registration statement on Form S-3 filed on July 1, 2008, as amended on June 26, 2009. Interest on the notes accrues from the issuance date at a rate of 4.875% per year and is payable semi-annually on January 15 and July 15 of each year, beginning July 15, 2011. The notes are TEGSA's unsecured senior obligations and rank equally in right of payment with all existing and any future senior indebtedness of TEGSA and senior to any subordinated indebtedness that TEGSA may incur. The notes are fully and unconditionally guaranteed as to payment on an unsecured senior basis by the Company. Net proceeds from the issuance were approximately \$249 million.

At December 24, 2010, debt includes \$653 million of ADC convertible subordinated notes due 2013, 2015, and 2017. Under the terms of the indentures governing these notes, following the acquisition of ADC, the right to convert the notes into shares of ADC common stock changed to the right to convert the notes into cash. See Note 4 for more information on the ADC acquisition. Pursuant to the indentures covering the notes, on December 13, 2010, the Company's ADC subsidiary commenced offers to purchase all of the notes at par plus accrued interest. The notes are reflected as current on the Company's Condensed Consolidated Balance Sheet as of December 24, 2010. Subsequent to the quarter ended December 24, 2010, the Company purchased and cancelled notes validly tendered. See Note 21 for additional information regarding the offers.

<sup>(2)</sup>The current portion of long-term debt at December 24, 2010 was comprised of the convertible subordinated notes and a portion of amounts shown as other. The current portion of long-term debt at September 24, 2010 was comprised of commercial paper and a portion of amounts shown as other.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 8. Debt (Continued)

In April 2007, TEGSA entered into a five-year unsecured senior revolving credit facility ("Credit Facility"). At December 24, 2010, the total effective commitment under the Credit Facility was \$1,425 million. TEGSA had no borrowings under the Credit Facility at December 24, 2010 and September 24, 2010.

The Credit Facility contains a financial ratio covenant providing that if the Company's ratio of Consolidated Total Debt (as defined in the Credit Facility) to Consolidated EBITDA (as defined in the Credit Facility) for the then most recently concluded period of four consecutive fiscal quarters exceeds 3.5 to 1.0, an Event of Default (as defined in the Credit Facility) is triggered under the Credit Facility. The Credit Facility and the Company's other debt agreements contain other customary covenants.

TEGSA's payment obligations under its senior notes, commercial paper, and Credit Facility are fully and unconditionally guaranteed by Tyco Electronics Ltd. Neither Tyco Electronics Ltd. nor any of its subsidiaries provides a guarantee as to ADC's payment obligations under its convertible notes.

The Company has used, and continues to use, derivative instruments to manage interest rate risk. See Note 11 for information on options to enter into interest rate swaps ("swaptions"), forward starting interest rate swaps, and interest rate swaps.

The fair value of the Company's debt was approximately \$3,410 million and \$2,680 million at December 24, 2010 and September 24, 2010, respectively.

#### 9. Guarantees

Pursuant to the Separation and Distribution Agreement and Tax Sharing Agreement, upon separation from Tyco International Ltd. ("Tyco International") on June 29, 2007, the Company entered into certain guarantee commitments and indemnifications with Tyco International and Covidien plc ("Covidien"). Under these agreements, principally the Tax Sharing Agreement, Tyco International, Covidien, and Tyco Electronics share 27%, 42%, and 31%, respectively, of certain contingent liabilities relating to unresolved pre-separation tax matters of Tyco International. The effect of the Tax Sharing Agreement is to indemnify the Company for 69% of certain liabilities settled in cash by the Company with respect to unresolved pre-separation tax matters. Pursuant to that indemnification, the Company has made similar indemnifications to Tyco International and Covidien with respect to 31% of certain liabilities settled in cash by the companies relating to unresolved pre-separation tax matters. If any of the companies responsible for all or a portion of such liabilities were to default in its payment of costs or expenses related to any such liability, the Company would be responsible for a portion of the defaulting party or parties' obligation. In addition, Tyco International and Covidien are responsible for their tax liabilities that are not subject to the Tax Sharing Agreement's sharing formula. The Company's indemnification created under the Tax Sharing Agreement qualifies as a guarantee of a third party entity's debt under ASC 460, *Guarantees*.

At December 24, 2010 and September 24, 2010, the Company had a liability representing the indemnifications made to Tyco International and Covidien pursuant to the Tax Sharing Agreement of \$339 million of which \$205 million was reflected in other liabilities and \$134 million was reflected in accrued and other current liabilities on the Condensed Consolidated Balance Sheet. The amount reflected in accrued and other current liabilities is the Company's estimated cash obligation under the Tax Sharing Agreement to Tyco International and Covidien in connection with pre-separation tax

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 9. Guarantees (Continued)

matters that could be resolved within one year. The Company has assessed the probable future cash payments to Tyco International and Covidien for pre-separation income tax matters pursuant to the terms of the Tax Sharing Agreement and determined this amount remains sufficient to satisfy these expected obligations.

In disposing of assets or businesses, the Company often provides representations, warranties, and/or indemnities to cover various risks including unknown damage to the assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. The Company does not have the ability to estimate the potential liability from such indemnities because they relate to unknown conditions; however, the Company has no reason to believe that these uncertainties would have a material adverse effect on the Company's results of operations, financial position, or cash flows.

At December 24, 2010, the Company had outstanding letters of credit and letters of guarantee in the amount of \$422 million, of which \$50 million was related to its contract with the State of New York. See Note 10 for additional information regarding the State of New York contract.

In the normal course of business, the Company is liable for contract completion and product performance. In the opinion of management, except for the charges related to the contract with the State of New York discussed below, such obligations will not significantly affect the Company's results of operations, financial position, or cash flows.

As disclosed in Note 10, in January 2009, the State of New York (the "State") drew down \$50 million against an irrevocable standby letter of credit funded by the Company. Although the Company disputes that the State has any basis to do so, the State has the ability to draw up to an additional \$50 million against the standby letter of credit which could result in additional charges and could have a significant adverse effect on the Company's results of operations, financial position, and cash flows.

The Company generally records estimated product warranty costs at the time of sale. The changes in the Company's warranty liability for the quarters ended December 24, 2010 and December 25, 2009 were as follows:

	For Decemb 201	,	Dece	ended ember 25, 2009

		16		

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 10. Commitments and Contingencies

#### **Tyco Electronics Legal Proceedings**

In the ordinary course of business, the Company is subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, and antitrust claims. Although it is not feasible to predict the outcome of these proceedings, based upon the Company's experience, current information, and applicable law, the Company does not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material adverse effect on its results of operations, financial position, or cash flows.

#### Legal Matters under Separation and Distribution Agreement

The Separation and Distribution Agreement among the Company, Tyco International, and Covidien provided for the allocation among the parties of Tyco International's assets, liabilities, and obligations attributable to periods prior to the Company's and Covidien's separations from Tyco International on June 29, 2007. Under the Separation and Distribution Agreement, the Company assumed the liability for, and control of, all pending and threatened legal matters at separation related to the Company's business or assumed or retained liabilities. Tyco Electronics was responsible for 31% of certain liabilities that arose from litigation pending or threatened at separation that was not allocated to one of the three parties, and Tyco International and Covidien were responsible for 27% and 42%, respectively, of such liabilities. If any party defaults in payment of its allocated share of any such liability, each non-defaulting party will be responsible for an equal portion of the amount in default together with any other non-defaulting party, although any such payments will not release the obligation of the defaulting party. Subject to the terms and conditions of the Separation and Distribution Agreement, Tyco International manages and controls all the legal matters related to the shared contingent liabilities, including the defense or settlement thereof, subject to certain limitations. All costs and expenses that Tyco International incurs in connection with the defense of such litigation, other than the amount of any judgment or settlement, which is allocated in the manner described above, will be borne equally by Tyco International, Covidien, and the Company. At the present time, all significant matters for which the Company shared responsibility with Tyco International and Covidien under the Separation and Distribution Agreement, which as previously reported in the Company's periodic filings generally related to securities class action cases and other securities cases, have been settled. Other than matters described below under "Compliance Matters," the Company presently is not aware of any additional legal matters which may arise for which it would bear a portion of the responsibility under the Separation and Distribution Agreement.

## **Compliance Matters**

As previously reported in the Company's periodic filings, Tyco International received and has responded to various allegations that certain improper payments were made by Tyco International subsidiaries, including Tyco Electronics subsidiaries, in recent years prior to the separation. Tyco International reported to the U.S. Department of Justice and the Securities and Exchange Commission the investigative steps and remedial measures that it had taken in response to the allegations, including that it retained outside counsel to perform a company-wide baseline review of its policies, controls, and practices with respect to compliance with the Foreign Corrupt Practices Act ("FCPA"), and that it would continue to investigate and make periodic progress reports to these agencies. To date, the

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 10. Commitments and Contingencies (Continued)

Company's baseline review has revealed that some of the Company's former business practices may not have complied with FCPA requirements. At this time, the Company believes it has adequate amounts recorded related to these matters, the amount of which is not significant. Any judgment, settlement, or other cost incurred by Tyco International in connection with these matters not specifically allocated to Tyco International, Covidien, or the Company would be subject to the liability sharing provisions of the Separation and Distribution Agreement.

#### **Income Taxes**

In prior years, in connection with the Internal Revenue Service ("IRS") audit of various fiscal years, Tyco International submitted to the IRS proposed adjustments to prior period U.S. federal income tax returns resulting in a reduction in the taxable income previously filed. The IRS accepted substantially all of the proposed adjustments for fiscal 1997 through 2000 for which the IRS had completed its field work. On the basis of previously accepted amendments, the Company has determined that acceptance of adjustments presented for additional periods through fiscal 2006 is more likely than not to be accepted and, accordingly, has recorded them, as well as the impacts of the adjustments accepted by the IRS, on the Condensed Consolidated Financial Statements.

As the Company's tax return positions continue to be updated for periods prior to separation, additional adjustments may be identified and recorded on the Condensed Consolidated Financial Statements. While the final adjustments cannot be determined until the income tax return amendment process is completed, the Company believes that any resulting adjustments will not have a material impact on its results of operations, financial position, or cash flows. Additionally, adjustments may be recorded to shareholders' equity in the future for the impact of filing final or amended income tax returns in certain jurisdictions where those returns include a combination of Tyco International, Covidien, and/or the Company's subsidiaries for the periods prior to the separation.

During fiscal 2007, the IRS concluded its field examination of certain of Tyco International's U.S. federal income tax returns for the years 1997 through 2000 and issued Revenue Agent Reports which reflect the IRS' determination of proposed tax adjustments for the 1997 through 2000 period. Tyco International has appealed certain proposed adjustments totaling approximately \$1 billion. Additionally, the IRS proposed civil fraud penalties against Tyco International arising from alleged actions of former executives in connection with certain intercompany transfers of stock in 1998 and 1999. Based upon statutory guidelines, Tyco International estimates the proposed penalties could range between \$30 million and \$50 million, and it is the Company's understanding that Tyco International is vigorously opposing the assertion of any such penalties. The penalty is asserted against a prior subsidiary of Tyco International that was distributed to Tyco Electronics in connection with the separation. Any penalty ultimately imposed upon the Tyco Electronics subsidiary would be subject to sharing with Tyco International and Covidien under the Tax Sharing Agreement. It is the Company's understanding that Tyco International continues to make progress towards resolving a substantial number of the proposed tax adjustments for the years 1997 through 2000; however, several significant matters remain in dispute. The primary issues in dispute involve the tax treatment of certain intercompany transactions. If Tyco International is not able to resolve these contested adjustments through the IRS appeals process, it may choose to litigate the disputed issues. In addition, Tyco International could settle with the IRS and pay any related deficiencies for the undisputed tax adjustments within the next twelve months.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 10. Commitments and Contingencies (Continued)

The IRS continues to audit certain Tyco International income tax returns for the years 2001 through 2004 and is nearing completion of its fieldwork for this period. It is possible that the audit for the years 2001 through 2004 will conclude within the next twelve months. During the fourth quarter of fiscal 2009, Tyco International settled a matter with the IRS concerning certain tax deductions claimed on Tyco International's income tax returns for the years 2001 through 2004. The Company has reflected \$244 million of liabilities related to the audits of Tyco International's income tax returns for 1997 through 2000 and 2001 through 2004 in accrued and other current liabilities on the Condensed Consolidated Balance Sheets at December 24, 2010 and September 24, 2010 as certain of these matters could be resolved within one year. It is anticipated that the IRS will commence its audit of certain Tyco International income tax returns for the years 2005 through 2007 in fiscal 2011.

The Company continues to believe that the amounts recorded in its Condensed Consolidated Financial Statements relating to the matters discussed above are appropriate. However, the ultimate resolution is uncertain and could result in a material impact to the Company's results of operations, financial position, or cash flows.

#### **Environmental Matters**

The Company is involved in various stages of investigation and cleanup related to environmental remediation matters at a number of sites. The ultimate cost of site cleanup is difficult to predict given the uncertainties regarding the extent of the required cleanup, the interpretation of applicable laws and regulations, and alternative cleanup methods. As of December 24, 2010, the Company concluded that it was probable that it would incur remedial costs in the range of \$14 million to \$25 million. As of December 24, 2010, the Company concluded that the best estimate within this range is \$15 million, of which \$6 million is included in accrued and other current liabilities and \$9 million is included in other liabilities on the Condensed Consolidated Balance Sheet. In view of the Company's financial position and reserves for environmental matters of \$15 million, the Company believes that any potential payment of such estimated amounts will not have a material adverse effect on its results of operations, financial position, or cash flows.

#### Matters Related to the Company's Former Wireless Systems Business

Certain liabilities and contingencies related to the Company's former Wireless Systems business were retained by the Company when this business was sold in fiscal 2009. These include certain retained liabilities related to the State of New York contract and a contingent purchase price commitment related to the acquisition of Com-Net by the Wireless Systems business in 2001. See additional information below.

#### State of New York Contract

In September 2005, the Company was awarded a twenty-year lease contract with the State of New York to construct, operate, and maintain a statewide wireless communications network for use by state and municipal first responders. In August 2008, the Company was served by the State with a default notice related to the first regional network, pursuant to the contract. Under the terms of the contract, the Company had 45 days to rectify the purported deficiencies noted by the State. In October 2008, the Company informed the State that all technical deficiencies had been remediated and the system was

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 10. Commitments and Contingencies (Continued)

operating in accordance with the contract specifications and certified the system ready for testing. The State conducted further testing during November and December 2008. In January 2009, the State notified the Company that, in the State's opinion, the Company had not fully remediated the issues cited by the State and it had determined that the Company was in default of the contract and that it had exercised its right to terminate the contract. The State contends that it has the right under the contract to recoup costs incurred by the State in conjunction with the implementation of the network, and as a result of this contention, in January 2009, the State drew down \$50 million against an irrevocable standby letter of credit funded by the Company. The State has the ability to draw up to an additional \$50 million against the standby letter of credit, although the Company disputes that the State has any basis to do so.

In February 2009, the Company filed a claim in the New York Court of Claims, seeking over \$100 million in damages, and alleging a number of causes of action, including breach of contract, unjust enrichment, defamation, conversion, breach of the covenant of good faith and fair dealing, the imposition of a constructive trust, and seeking a declaration that the State terminated the contract "for convenience." In September 2009, the Court granted the State's motion to dismiss all counts of the complaint, with the exception of the breach of contract claim and a claim for breach of warranty in connection with the State's drawdown on the \$50 million letter of credit. In November 2009, the State filed an answer to the complaint and counterclaim asserting breach of contract and alleging that the State has incurred damages in excess of \$275 million. The Company moved to dismiss the counterclaim in February 2010, and in June 2010 the Court denied the motion. The Company filed its answer to the State's counterclaim in July 2010. The Company believes that the counterclaim is without merit and intends to vigorously pursue its claims in this matter. A trial date has been set for October 2011.

#### Com-Net

At December 24, 2010, the Company had a contingent purchase price commitment of \$80 million related to its fiscal 2001 acquisition of Com-Net. This represents the maximum amount payable to the former shareholders of Com-Net only after the construction and installation of a communications system for the State of Florida is finished and the State of Florida has approved the system based on the guidelines set forth in the contract. Under the terms of the purchase and sale agreement, the Company does not believe it has any obligation to the sellers. However, the sellers have contested the Company's position and initiated a lawsuit in June 2006 in the Court of Common Pleas in Allegheny County, Pennsylvania, which is in the motion pleading and discovery phase. A liability for this contingency has not been recorded on the Condensed Consolidated Financial Statements as the Company does not believe that any payment is probable or reasonably estimable at this time.

#### 11. Financial Instruments

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivable, short-term investments, accounts payable, debt, and derivative financial instruments. The fair value of cash and cash equivalents, accounts receivable, and accounts payable approximated book value as of December 24, 2010 and September 24, 2010. See Note 8 for disclosure of the fair value of debt and Note 12 for additional information on fair value measurements.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 11. Financial Instruments (Continued)

The Company uses derivative and non-derivative financial instruments to manage certain exposures to foreign currency, interest rate, and commodity risks.

#### Foreign Exchange Risks

As part of managing the exposure to changes in foreign currency exchange rates, the Company utilizes foreign currency forward and swap contracts, a portion of which are designated as cash flow hedges. The objective of these contracts is to minimize impacts to cash flows and profitability due to changes in foreign currency exchange rates on intercompany transactions, accounts receivable, accounts payable, and other cash transactions.

The Company expects that significantly all of the balance in accumulated other comprehensive income associated with the cash flow hedge-designated instruments addressing foreign exchange risks will be reclassified into the Condensed Consolidated Statements of Operations within the next twelve months.

#### Interest Rate and Investment Risk Management

The Company issues debt, from time to time, to fund its operations and capital needs. Such borrowings can result in interest rate exposure. To manage the interest rate exposure and to minimize overall interest cost, the Company uses interest rate swaps to convert a portion of fixed-rate debt into variable-rate debt (via fair value hedge designation) and/or convert a portion of variable-rate debt into fixed-rate debt (via cash flow hedge designation). The Company uses forward starting interest rate swaps and swaptions to manage interest rate exposure in periods prior to the anticipated issuance of fixed-rate debt (via cash flow hedge designation). The Company also utilizes interest rate swap and swaption contracts, a portion of which are designated as cash flow hedges, to manage interest rate exposures on cash and cash equivalents and earnings volatility related to certain non-qualified deferred compensation liabilities.

During the first quarter of fiscal 2011, the Company entered into an interest rate swap designated as a fair value hedge on \$50 million principal amount of the 4.875% senior notes. The maturity date of the interest rate swap coincides with the maturity date of the notes. Under this contract, the Company receives fixed amounts of interest applicable to the underlying notes and pays a floating amount based upon the three month U.S. Dollar London interbank offered rate.

The Company utilizes interest rate swap and swaption contracts, a portion of which are designated as cash flow hedges, to manage interest rate exposure on a notional amount of \$40 million of cash and cash equivalents. The fair value of the contracts was not material as of December 24, 2010 and September 24, 2010. There were no such contracts in place during the quarter ended December 25, 2009.

The Company utilizes a swap to manage exposure related to certain of the Company's non-qualified deferred compensation liabilities. The notional amount of the swap was \$24 million and \$19 million at December 24, 2010 and September 24, 2010, respectively, and acts as an economic hedge of changes in a portion of the liabilities. Both the change in value of the swap contract and the non-qualified deferred compensation liabilities are recorded in selling, general, and administrative expense.

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 11. Financial Instruments (Continued)

#### Commodity Hedges

As part of managing the exposure to certain commodity price fluctuations, the Company utilizes commodity swap contracts, all of which are designated as cash flow hedges. The objective of these contracts is to minimize impacts to cash flows and profitability due to changes in prices of commodities used in production.

At December 24, 2010 and September 24, 2010, the Company's commodity hedges had notional values of \$103 million and \$108 million, respectively. The Company expects that significantly all of the balance in accumulated other comprehensive income associated with the commodities hedges will be reclassified into the Condensed Consolidated Statements of Operations within the next twelve months.

#### Hedges of Net Investment

The Company hedges its net investment in certain foreign operations using intercompany non-derivative financial instruments denominated in the same currencies. The aggregate notional value of these hedges was \$1,791 million and \$1,672 million at December 24, 2010 and September 24, 2010, respectively. The Company reclassified foreign exchange gains of \$14 million and \$16 million during the quarters ended December 24, 2010 and December 25, 2009, respectively. These amounts were recorded as currency translation, a component of accumulated other comprehensive income, offsetting foreign exchange gains or losses attributable to the translation of the net investment. See additional information in Note 18.

#### **Derivative Instrument Summary**

The fair value of the Company's derivative instruments as of December 24, 2010 and September 24, 2010 is summarized below.

Contombon 24 2010

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 11. Financial Instruments (Continued)

- All foreign currency derivatives, commodity swap derivatives, and investment swap derivatives that are in asset positions are recorded in prepaid expenses and other current assets on the Condensed Consolidated Balance Sheets, except where a right of offset against liability positions exists.

  Derivative instruments in prepaid expenses and other current assets on the Condensed Consolidated Balance Sheets totaled \$23 million and \$22 million at December 24, 2010 and September 24, 2010, respectively. All interest rate swaps and swaption derivatives in asset positions are recorded in other assets on the Condensed Consolidated Balance Sheets and totaled \$5 million and \$3 million at December 24, 2010 and September 24, 2010, respectively.
- All foreign currency derivatives, commodity swap derivatives, and investment swap derivatives that are in liability positions are recorded in accrued and other current liabilities on the Condensed Consolidated Balance Sheets, except where a right of offset against asset positions exists. Derivative instruments in accrued and other current liabilities on the Condensed Consolidated Balance Sheets totaled \$2 million at December 24, 2010 and September 24, 2010. All interest rate swaps and swaption derivatives in liability positions are recorded in other liabilities on the Condensed Consolidated Balance Sheets and totaled \$6 million and \$12 million at December 24, 2010 and September 24, 2010, respectively.
- (3)

  Contracts are presented gross without regard to any right of offset that exists.

The effects of derivative instruments designated as fair value hedges on the Condensed Consolidated Statement of Operations for the quarters ended December 24, 2010 and December 25, 2009 were as follows:

#### **Gain Recognized**

		For th	For the Quarters Ended

			(in mi	llions)				
Interest rate swaps <sup>(1)</sup>	Interest expense	\$	2	\$	2			

Certain interest rate swaps designated as fair value hedges were terminated in December 2008. Terminated interest rate swaps resulted in a gain of \$2 million in each of the quarters ended December 24, 2010 and December 25, 2009. Interest rate swaps in place at December 24, 2010 had no gain or loss recognized on the Condensed Consolidated Statement of Operations during the period.

#### 12. Fair Value Measurements

Guidance on fair value measurement in ASC 820, Fair Value Measurements and Disclosures, specifies a fair value hierarchy based upon the observability of the inputs utilized in valuation of certain assets and liabilities. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed market assumptions. Fair value measurements are classified under the following hierarchy:

Level 1 Quoted prices in active markets for identical assets and liabilities.

Level 2 Quoted prices in active markets for similar assets and liabilities, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flows methodologies and similar techniques that use significant unobservable inputs.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

## 12. Fair Value Measurements (Continued)

Financial assets and liabilities recorded at fair value on a recurring basis were as follows:

As of December 24, 2010 and September 24, 2010, the Company did not have significant financial assets or liabilities that are measured at fair value on a non-recurring basis.

The following is a description of the valuation methodologies used for the respective financial assets and liabilities measured at fair value on a recurring basis:

Commodity swap contracts Fair value of these assets and liabilities is determined using quoted prices on futures exchanges (level 1).

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 12. Fair Value Measurements (Continued)

Interest rate swaps and swaptions Fair value of these assets and liabilities is determined based on observable inputs other than quoted prices. The positions are primarily valued using market approach models that use readily observable interest rates as their basis (level 2).

Investment swap contracts Fair value of these assets is determined based on observable inputs other than quoted prices. The positions are primarily valued using market approach models that use readily observable equity returns as their basis (level 2).

Foreign currency contracts Fair value of these assets and liabilities is determined using the market approach. Values are based on observable market transactions of spot currency rates and forward rates (level 2).

Short-term investments Short-term investments are comprised of fixed income securities that are marked to fair value based on quoted market prices or other pricing determinations based on the results of market approach valuation models using observable market data such as recently reported trades, bid and offer information, and benchmark securities (level 2).

Rabbi trust assets Rabbi trust assets are principally comprised of equity securities that are marked to fair value based on unadjusted quoted prices in active markets (level 1) and fixed income securities that are marked to fair value based on quoted market prices or other pricing determinations based on the results of market approach valuation models using observable market data such as recently reported trades, bid and offer information, and benchmark securities (level 2).

The majority of derivatives entered into by the Company are valued using the over-the-counter quoted market prices for similar instruments. The Company does not believe that fair values of these derivative instruments materially differ from the amounts that could be realized upon settlement or maturity.

During the quarter ended December 25, 2009, the Company used significant other observable inputs (level 2) to calculate a \$12 million impairment charge related to the Dulmison connectors and fittings product line sold during the quarter for \$12 million. See Note 3 for additional information.

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

# FINANCIAL STATEMENTS (UNAUDITED) (Continued)

**Defined Benefit Pension Plans** 

29

#### 13. Retirement Plans

The net periodic benefit cost for all U.S. and non-U.S. defined benefit pension plans in the quarters ended December 24, 2010 and December 25, 2009 was as follows:

	U.S. Plans				Non-U.S. Plans			
	For the Quarters Ended				]	inded		
	December 24, December 25, 2010 2009			,			ember 25, 2009	
				(in mi	lions)			
Service cost	\$	2	\$	2	\$	16	\$	15
Interest cost		13		14		21		21
Expected return on plan assets		(16)		(15)		(14)		(14)
Amortization of net actuarial loss		9		8		10		8
Settlement/curtailment loss (gain)				2				(1)

\$

8

\$

The net periodic benefit cost for postretirement benefit plans was immaterial for the quarters ended December 24, 2010 and December 25, 2009.

11 \$ 33 \$

The Company anticipates that, at a minimum, it will make the minimum required contributions to its pension plans in fiscal 2011 of \$4 million for U.S. plans and \$67 million for non-U.S. plans. During the quarter ended December 24, 2010, the Company contributed \$1 million to its U.S. plans and \$19 million to its non-U.S. plans.

The Company expects to make contributions to its postretirement benefit plans of \$2 million in fiscal 2011. During the quarter ended December 24, 2010, Company contributions to its postretirement benefit plans were insignificant.

# 14. Income Taxes

Net periodic benefit cost

The Company recorded a tax provision of \$113 million, for an effective income tax rate of 29.6%, and a tax provision of \$69 million, for an effective income tax rate of 28.5%, for the quarters ended December 24, 2010 and December 25, 2009, respectively. The effective income tax rate for the quarter ended December 24, 2010 reflects tax benefits recognized in connection with expected increased profitability in fiscal 2011 in certain entities operating in lower tax rate jurisdictions. These benefits were partially offset by accruals of interest related to uncertain tax positions and the impacts of acquisition and integration costs and restructuring charges related to the acquisition of ADC for which a tax benefit was not recognized. The effective income tax rate for the quarter ended December 25, 2009 reflects tax benefits recognized in connection with expected increased profitability in fiscal 2010 in certain entities operating in lower tax rate jurisdictions partially offset by accruals of interest related to uncertain tax positions and the estimated tax impacts of certain intercompany dividends.

The Company records accrued interest as well as penalties related to uncertain tax positions as part of the provision for income taxes. As of December 24, 2010, the Company had recorded \$1,289 million of accrued interest and penalties related to uncertain tax positions on the Condensed Consolidated Balance Sheet, of which \$1,155 million was recorded in income taxes and \$134 million was recorded in accrued and other current liabilities. During the quarter ended December 24, 2010, the

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 14. Income Taxes (Continued)

Company recognized \$37 million of interest and penalties on the Condensed Consolidated Statements of Operations. As of September 24, 2010, the balance of accrued interest and penalties was \$1,252 million, of which \$1,119 million was recorded in income taxes and \$133 million was recorded in accrued and other current liabilities on the Condensed Consolidated Balance Sheet.

In fiscal 2007, the IRS concluded its field examination of certain of Tyco International's U.S. federal income tax returns for the years 1997 through 2000. Tyco International is in the process of appealing certain tax adjustments proposed by the IRS related to this period. In fiscal 2008, the IRS commenced its field examination of certain Tyco International U.S. federal income tax returns for the years 2001 through 2004. Tyco International's U.S. federal tax filings for years subsequent to 2004 also remain open to examination by the IRS. See Note 10 for additional information regarding the status of IRS examinations.

Although it is difficult to predict the timing or results of certain pending examinations, it is the Company's understanding that Tyco International continues to make progress towards resolving a substantial number of proposed tax adjustments for the years 1997 through 2000. Accordingly, Tyco International and the IRS could reach agreement on these matters within the next twelve months. However, the ultimate resolution is uncertain, and it is not possible to estimate the impact of an agreement with respect to the amount of unrecognized tax benefits on the Condensed Consolidated Balance Sheet as of December 24, 2010.

The Company is not aware of any other matters that would result in significant changes to the amount of unrecognized tax benefits reflected on the Condensed Consolidated Balance Sheet as of December 24, 2010.

# 15. Other Income

In the quarters ended December 24, 2010 and December 25, 2009, the Company recorded net other income of \$12 million and \$8 million, respectively, primarily consisting of income pursuant to the Tax Sharing Agreement with Tyco International and Covidien.

# 16. Earnings Per Share

Basic earnings per share is computed by dividing net income attributable to Tyco Electronics Ltd. by the basic weighted-average number of common shares outstanding. Diluted earnings per share is computed by dividing net income attributable to Tyco Electronics Ltd. by the weighted-average number of common shares outstanding adjusted for potentially dilutive unexercised share options and non-vested restricted share awards. The following table sets forth the denominators of the basic and diluted earnings per share computations:

	For the Quarters Ended		
	December 24, 2010	December 25, 2009	
	(in mi	llions)	
Weighted-average shares outstanding:			
Basic	444	459	
Share options and restricted share awards	5	3	
Diluted	449	462	
	2	29	

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 16. Earnings Per Share (Continued)

Certain share options were not included in the computation of diluted earnings per share because the instruments' underlying exercise prices were greater than the average market prices of Tyco Electronics' common shares and inclusion would be antidilutive. Such shares not included in the computation were 18 million and 22 million as of December 24, 2010 and December 25, 2009, respectively.

#### 17. Shareholders' Equity

#### Common Shares

Subject to certain conditions specified in the articles of association, the shareholders have authorized the Company's board of directors to increase the Company's share capital (the value, in Swiss Francs ("CHF"), of authorized shares multiplied by the par value), by issuing up to 234 million conditional shares and up to 234 million authorized shares. The authorization to issue authorized share capital expires on June 22, 2011 and is subject to shareholder approval for a two-year extension at the Company's next annual general meeting of shareholders. Although the Company states its par value in Swiss Francs, it continues to use the U.S. Dollar as its reporting currency for preparing its Condensed Consolidated Financial Statements.

#### Common Shares Held in Treasury

At December 24, 2010, approximately 23 million common shares were held in treasury, of which 18 million were owned by a subsidiary of the Company. At September 24, 2010, approximately 25 million common shares were held in treasury, of which 21 million were owned by a subsidiary of the Company. Shares held both directly by the Company and by the subsidiary are presented as treasury shares on the Condensed Consolidated Balance Sheets.

## **Contributed Surplus**

Contributed surplus, subject to certain conditions, is a distributable reserve.

# Distributions to Shareholders

Under Swiss law, distributions to shareholders made in the form of a reduction of registered share capital are exempt from Swiss withholding tax. Beginning on January 1, 2011, distributions to shareholders made out of reserves from capital contributions are also exempt from Swiss withholding tax. The Company has recorded contributed surplus as a free reserve established for Swiss Statutory purposes on its statutory balance sheet. Distributions or dividends on the Company's shares must be approved by the Company's shareholders.

In March 2010, the Company's shareholders approved a cash distribution to shareholders in the form of a capital reduction to the par value of the Company's common shares of CHF 0.72 (equivalent to \$0.64) per share, payable in four equal installments in each quarter beginning in the third quarter of fiscal 2010 through the second quarter of fiscal 2011. The Company paid the third installment of the distribution at a rate of \$0.16 per share during the quarter ended December 24, 2010. The capital reduction reduced the par value of the Company's common shares from CHF 1.73 (equivalent to \$1.60) to CHF 1.55 (equivalent to \$1.44).

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

# 17. Shareholders' Equity (Continued)

Upon approval by the shareholders of a cash distribution in the form of a capital reduction, the Company records a liability with a corresponding charge to common shares. At December 24, 2010 and September 24, 2010, the declared but unpaid portion of distributions recorded in accrued and other current liabilities on the Condensed Consolidated Balance Sheets were \$71 million and \$142 million, respectively.

#### Share Repurchase Program

During September 2010, the Company's board of directors authorized an increase in the share repurchase program from \$2.0 billion to \$2.75 billion. During the first quarter of fiscal 2011, the Company purchased approximately 1.4 million of its common shares for \$45 million. During the first quarter of fiscal 2010, the Company purchased approximately 750 thousand of its common shares for \$18 million. Since inception of the share repurchase program, the Company has purchased approximately 62 million shares for \$1,927 million.

#### 18. Comprehensive Income

Comprehensive income consisted of the following:

	For the Quan December 24, 2010		ers Ended December 25, 2009
	(in millions)		
Net income	\$	266	\$ 173
Currency translation <sup>(1)</sup>		(29)	(56)
Gain on cash flow hedges, net of income taxes		11	8
Amortization of unrecognized pension and postretirement benefit costs, net of income taxes		12	6
		260	131
Less: comprehensive income attributable to noncontrolling interests		(1)	(1)
Comprehensive income attributable to Tyco Electronics Ltd.	\$	259	\$ 130

(1)

Includes hedge of net investment foreign exchange gains or losses which offset foreign exchange gains or losses attributable to the translation of the net investments.

## 19. Share Plans

Total share-based compensation costs, which were primarily presented in selling, general, and administrative expenses on the Condensed Consolidated Statements of Operations, were \$22 million and \$15 million during the quarters ended December 24, 2010 and December 25, 2009, respectively.

As of December 24, 2010, there were 15 million shares available for issuance under the Company's stock and incentive plans, of which the Tyco Electronics Ltd. 2007 Stock and Incentive Plan, as amended and restated, is the primary plan.

# NOTES TO CONDENSED CONSOLIDATED

# FINANCIAL STATEMENTS (UNAUDITED) (Continued)

# 19. Share Plans (Continued)

#### Restricted Share Awards

A summary of the Company's outstanding restricted share awards as of December 24, 2010 and changes during the quarter then ended are presented below:

	Shares	Weighted-Average Grant-Date Fair Value	
Non-vested at September 24, 2010	5,044,812	\$ 23.12	
Granted	1,879,044	33.73	
Vested	(1,389,823)	22.54	
Forfeited	(61,489)	21.97	
Non-vested at December 24, 2010	5,472,544	\$ 26.92	

As of December 24, 2010, there was \$111 million of unrecognized compensation cost related to non-vested restricted share awards. The cost is expected to be recognized over a weighted-average period of 2.8 years.

All unvested restricted share awards held by ADC employees fully vested upon acquisition by the Company, as stipulated in the original terms and conditions of the awards. As a result, all ADC restricted share awards vested, and were fully expensed by ADC, coincident to the acquisition.

# **Share Options**

A summary of the Company's outstanding share option awards as of December 24, 2010 and changes during the quarter then ended are presented below:

		Weighted-Average Remaining				
	Shares		ighted-Average Exercise Price	Contractual Term		regate sic Value
				(in years)	(in m	illions)
Outstanding at September 24, 2010	25,143,547	\$	33.26			
Granted	2,804,150		33.73			
Effect of conversion of ADC share options into Tyco Electronics Ltd.						
share options	2,937,569		38.88			
Exercised	(1,888,847)		18.57			
Expired	(1,302,450)		58.82			
Forfeited	(287,180)		21.12			
Outstanding at December 24, 2010	27,406,789	\$	33.84	5.3	\$	156
Vested and non-vested expected to vest at December 24, 2010	26,641,452	\$	34.05	5.3	\$	149
Exercisable at December 24, 2010	19,025,758	\$	37.05	3.8	\$	77
A CD 1 24 2010 1			1 . 1 .	. 1 1	. 1	1 .1

As of December 24, 2010, there was \$51 million of unrecognized compensation cost related to non-vested share options granted under the Company's share option plans. The cost is expected to be recognized over a weighted-average period of 2.4 years.

All share options and stock appreciation right ("SAR") awards related to ADC were converted into share options and SARs related to the Company's common shares. The conversion factor was the

#### TYCO ELECTRONICS LTD.

#### NOTES TO CONDENSED CONSOLIDATED

#### FINANCIAL STATEMENTS (UNAUDITED) (Continued)

# 19. Share Plans (Continued)

tender offer price of \$12.75 per share divided by the volume weighted-average share price for Tyco Electronics common shares for the 10-day period preceding the acquisition. The terms and conditions of the original grants included change-of-control provisions that accelerated vesting. As a result of those provisions, all ADC share options and SARs vested, and were fully expensed, prior to conversion to awards based on the Company's common shares. The number of converted SARs outstanding and the associated liability were insignificant at December 24, 2010.

As a result of the exchange of ADC Awards for Company share options and SARs, the Company recognized \$2 million of incremental compensation expense during the first quarter of fiscal 2011. Those costs, which are included in the total compensation expense above, are presented in acquisition and integration costs in the Condensed Consolidated Statements of Operations.

The grant-date fair value of each share option grant is estimated using the Black-Scholes-Merton option pricing model. Use of a valuation model requires management to make certain assumptions with respect to selected model inputs. Expected share price volatility was calculated based on the historical volatility of the stock of a composite of the Company's peers and implied volatility derived from exchange traded options on that same composite of peers. The average expected life was based on the contractual term of the option and expected employee exercise and post-vesting employment termination behavior. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term which approximates the expected life assumed at the date of grant. The expected annual dividend per share was based on the Company's expected dividend rate. The compensation expense recognized is net of estimated forfeitures. Forfeitures are estimated based on voluntary termination behavior, as well as an analysis of actual option forfeitures.

The weighted-average grant-date fair value of options granted during the quarter ended December 24, 2010 and the weighted-average assumptions the Company used in the Black-Scholes-Merton option pricing model for the quarter then ended were as follows:

Weighted-average grant-date fair value	\$ 9.08
Assumptions:	
Expected share price volatility	36%
Risk free interest rate	1.2%
Expected annual dividend per share	\$ 0.72
Expected life of options (in years)	5.1
20. Segment Data	

Effective for the first quarter of fiscal 2011, the Company reorganized its management and segments to align the organization around its strategy. The Company's businesses in the former Specialty Products Group Aerospace, Defense, and Marine; Medical Products; Circuit Protection; and Touch Systems have been moved into other segments. Also, the former Subsea Communications segment has been included in the Network Solutions segment. The following represents the new segment structure:

*Transportation Connectivity.* This segment consists of the Company's Automotive and Aerospace, Defense, and Marine businesses.

#### TYCO ELECTRONICS LTD.

# NOTES TO CONDENSED CONSOLIDATED

# FINANCIAL STATEMENTS (UNAUDITED) (Continued)

# 20. Segment Data (Continued)

Communications and Industrial Solutions. This segment contains the Company's DataComm, Industrial Products, Consumer Devices, Lighting, Alternative Energy, Medical Products, Circuit Protection, and Touch Systems businesses.

*Network Solutions*. The Subsea Communications, Telecom Service Providers, Enterprise Networks, and Energy businesses are included in this segment. Also, this segment contains the businesses associated with ADC, which was acquired on December 8, 2010.

The following segment information reflects the new segment reporting structure. Prior period segment results have been reclassified to conform to the new segment structure.

Net sales and operating income by segment for the quarters ended December 24, 2010 and December 25, 2009 were as follows:

	Net Sales <sup>(1)</sup> For the				Operating Income For the			
		Quarter	s End	ed		ed		
	December 24, 2010		, , , , , , , , , , , , , , , , , , , ,		December 24, 2010		December 25, 2009	
				(in mil	lions)			
Transportation Connectivity	\$	1,311	\$	1,179	\$	189	\$	99
Communications and Industrial Solutions		1,223		1,090		181		115
Network Solutions		666		623		30		55
Total	\$	3,200	\$	2,892	\$	400	\$	269

Intersegment sales were not material and were recorded at selling prices that approximate market prices.

Segment assets and a reconciliation of segment assets to total assets at December 24, 2010 and September 24, 2010 were as follows:

	December 24, 2010		Sep	tember 24, 2010
