NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 – Summary of Significant Accounting Policies

The Financial Statements were prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which for regulated public utilities, includes specific accounting guidance for regulated operations. For additional information regarding regulatory accounting, see Note 2 – "Regulatory Matters."

Pending Acquisition by Fortis Inc.

On February 21, 2012, CH Energy Group announced that it had entered into an agreement and plan of merger under which it agreed, subject to shareholder approval and the approval of applicable regulatory authorities, to be acquired by Fortis Inc. ("Fortis") for \$65 per share of common stock in cash. On June 19, 2012, shareholders of CH Energy Group approved the proposed acquisition of the Company by Fortis. On July 3, 2012, the Federal Energy Regulatory Commission ("FERC") approved the acquisition of CH Energy Group by Fortis. On July 17, 2012, the Committee on Foreign Investment in the United States approved the acquisition of CH Energy Group by Fortis. On October 2, 2012, the Federal Trade Commission permitted the 30-day waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 with respect to the acquisition of the Company by Fortis to expire. On April 20, 2012, CH Energy Group, Central Hudson, Fortis, FortisUS Inc. ("FortisUS"), and Cascade Acquisition Sub Inc. ("Petitioners"), submitted a joint petition to the New York State Public Service Commission ("PSC" or "Commission") for approval of the proposed transaction under Section 70 of the Public Service Law. Pursuant to a procedure schedule established by the Administrative Law Judges, the PSC Staff and other parties to the proceeding filed testimony and comments on October 12, 2012. On January 25, 2013, a Joint Proposal with the Company, Fortis, PSC Staff, Multiple Intervenors, the Department of State Utility Intervention Unit, and Dutchess, Orange and Ulster counties as signatories, was submitted to the PSC. The signatory parties have concluded that, based on the terms of the Joint Proposal, the acquisition is in the public interest pursuant to New York State Public Service Law, Section 70, and recommend approval by the Commission. The deadline for submission of public comments in the proceeding was extended to May 1, 2013 by the Commission in a notice issued March 22, 2013. On April 24, 2013, the Commission issued a notice stating that the Administrative Law Judges ("ALJs") assigned to this matter would prepare a Recommended Decision ("RD") for the Commission. On May 3, 2013 the Recommended Decision of the two Administrative Law Judges – an advisory document – was issued by the PSC. The RD states that, in its current form, the Joint Proposal does not meet the public interest test as required by New York State Public Service Law, Section 70, but also states that the ALJs recommend the Commission consider adopting the Joint Proposal subject to modifications that would alter the transaction's balance of risks and benefits. Briefs on exceptions to the RD are due May 17, 2013 and briefs opposing exceptions are due on May 24, 2013. While no assurance regarding the closing can be given until a final PSC Order is issued, the Company continues to anticipate that the Commission will review and approve the merger in the second quarter of 2013. Under the terms of the merger agreement, Fortis must close the transaction if all conditions precedent are met, including PSC approval, and a material adverse effect has not occurred. Closing of the transaction would follow shortly after issuance of the final PSC Order approving the merger. Management believes this will occur in the second quarter of 2013.

Unaudited Financial Statements

The accompanying Consolidated Financial Statements of CH Energy Group and Financial Statements of Central Hudson are unaudited but, in the opinion of management, reflect adjustments (which include normal recurring adjustments) necessary for a fair statement of the results for the interim periods presented. These unaudited quarterly Financial Statements do not contain all footnote disclosures concerning accounting policies and other matters which would be included in annual Financial Statements and, accordingly, should be read in conjunction with the audited Financial Statements (including the Notes thereto) included in the combined CH Energy Group/Central Hudson

Table of Contents

CH Energy Group's and Central Hudson's balance sheets as of March 31, 2012 are not required to be included in this Quarterly Report on Form 10-Q; however, these balance sheets are included for supplemental analysis purposes.

Reclassification

Certain amounts in the 2012 Financial Statements have been reclassified to conform to the 2013 presentation.

The Company reclassified amounts related to in-process work for cost of removal of plant assets from accumulated depreciation to deferred costs, regulatory liabilities. This reclassification resulted in a reduction to the March 31, 2012 balance of \$10.6 million.

Revenue Recognition

CH Energy Group's deferred revenue balances as of March 31, 2013, December 31, 2012 and March 31, 2012 were \$3.9 million, \$4.8 million and \$3.9 million, respectively. The deferred revenue balance will be recognized in CH Energy Group's operating revenues over the 12-month term of the respective customer contract.

As required by the PSC, Central Hudson records gross receipts tax revenues and expenses on a gross income statement presentation basis (i.e., included in both revenue and expenses). Sales and use taxes for both Central Hudson and Griffith are accounted for on a net basis (excluded from revenue).

Fuel, Materials & Supplies

The following is a summary of CH Energy Group's and Central Hudson's inventories (In Thousands):

	CH Energy Group			Central Hudson		
	March 31, 2013	December 31, 2012	March 31, 2012	March 31, 2013	December 31, 2012	March 31, 2012
Natural gas	\$2,759	\$ 7,638	\$7,322	\$2,759	\$ 7,638	\$7,322
Petroleum products and propane	2,098	3,942	2,115	-	-	-

Materials and supplies	12,504	12,621	9,966	11,142	11,331	8,781
Total	\$17,654	\$ 24,496	\$19,689	\$14,194	\$ 19,264	\$16,389

Table of Contents

Depreciation and Amortization

Current accounting guidance related to asset retirements precludes the recognition of expected future retirement obligations as a component of depreciation expense or accumulated depreciation. Central Hudson, however, is required to use depreciation methods and rates approved by the PSC under regulatory accounting. These depreciation rates include a charge for the cost of future removal and retirement of fixed assets. In accordance with current accounting guidance for regulated operations, Central Hudson continues to accrue for the future cost of removal for its rate-regulated natural gas and electric utility assets. In accordance with current accounting guidance related to asset retirements, Central Hudson has classified \$44.8 million, \$43.4 million, and \$42.7 million of cost of removal as regulatory liabilities as of March 31, 2013, December 31, 2012, and March 31, 2012, respectively. This liability represents the portion of the cost of removal charge in excess of the amount reported as an Asset Retirement Obligation under GAAP.

See Note 6 - "Goodwill and Other Intangible Assets" for further discussion of amortization of intangibles (other than goodwill).

Earnings Per Share

In the calculation of earnings per share (basic and diluted) of CH Energy Group's Common Stock, earnings for CH Energy Group are reduced by the Preferred Stock dividends of Central Hudson.

The average dilutive effect of CH Energy Group's stock options, performance shares and restricted shares are as follows:

	Three Months Ended March 31,	
	2013	2012
Shares	213,908	260,259

Certain stock options can be excluded from the calculation of diluted earnings per share because the exercise prices of those options were greater than the average market price per share of Common Stock. As of December 31, 2012, no stock options are outstanding. There were no options excluded during the three months ended March 31, 2012.

Table of Contents

Parental Guarantees

CH Energy Group and CHEC have issued guarantees to counterparties to assure the payment, when due, of certain obligations incurred by CH Energy Group subsidiaries, in physical and financial transactions.

Transaction Description	March 31, 2013	
	Maximum Potential Payments	Outstanding Liabilities ⁽¹⁾
Heating oil, propane, other petroleum products, weather and commodity hedges (In Thousands)	\$30,650	\$ 8,555

(1) Balance included in CH Energy Group's Consolidated Balance Sheet.

Management is not aware of any existing condition that would require payment under the guarantees.

Common Stock Dividends

On March 27, 2013, the Board of Directors of CH Energy Group declared a quarterly dividend of 55.5 cents per share payable May 1, 2013, to shareholders of record as of April 10, 2013.

CH Energy Group's ability to pay dividends is affected by the ability of its subsidiaries to pay dividends. The Federal Power Act limits the payment of dividends by Central Hudson to its retained earnings. More restrictive is the PSC's limit on the dividends Central Hudson may pay to CH Energy Group which is 100% of the average annual income available for common stock, calculated on a two-year rolling average basis. Based on this calculation, Central Hudson was restricted to a maximum payment of \$45.1 million in dividends to CH Energy Group for the year ended December 31, 2012. Central Hudson's dividend would be reduced to 75% of its average annual income in the event of a downgrade of its senior debt rating below "BBB+" by more than one rating agency if the stated reason for the downgrade is related to any of CH Energy Group's or Central Hudson's affiliates. Further restrictions are imposed for any downgrades below this level. During the three months ended March 31, 2013, Central Hudson had declared and paid dividends of \$5.0 million to parent CH Energy Group. CH Energy Group's other subsidiaries do not have express restrictions on their ability to pay dividends.

Table of Contents

2010 Rate Order

From July 1, 2010 through June 30, 2013, Central Hudson is operating under the terms of the 2010 Rate Order, which provides for the following:

Description	2010 Rate Order
	\$11.8 million ⁽¹⁾ 7/1/10
Electric delivery revenue increases	\$9.3 million ⁽¹⁾ 7/1/11 \$9.1 million 7/1/12 \$5.7 million 7/1/10
Natural gas delivery revenue increases	\$2.4 million 7/1/11 \$1.6 million 7/1/12
ROE	10.0%
Earnings sharing	Yes ⁽²⁾
Capital structure – common equity	48%
Targets with true-up provisions - % of revenue requirement to defer for shortfalls	
Net plant balances	100%
Transmission and distribution ROW maintenance	100%
RDMs – electric and natural gas ⁽³⁾	Yes
New deferral accounting for full recovery	
Fixed debt costs	Yes ⁽⁴⁾
Transmission sag mitigation	Yes
New York State Temporary Assessment	Yes
Material regulatory actions ⁽⁵⁾	Yes ⁽⁵⁾
Property taxes – Deferral for 90% of excess/deficiency relative to revenue requirement	Yes ⁽⁶⁾

(1) Moderated by \$12 million and \$4 million bill credits, respectively.

(2) ROE > 10.5%, 50% to customers, > 11.0%, 80% to customers, > 11.5%, 90% to customers.

(3) Electric is based on revenue dollars; gas is based on usage per customer.

(4) Deferral authorization in RY2 and RY3 only.

(5) Legislative, governmental or regulatory actions with individual impacts greater than or equal to 2% of net income of the applicable department.

(6) The Company's pre-tax gain or loss limited to \$0.7 million per rate year.

Other PSC Proceedings

On April 20, 2012, CH Energy Group, Central Hudson, Fortis, FortisUS, and Cascade Acquisition Sub Inc., submitted a joint petition to the PSC for approval of the acquisition of CH Energy Group by Fortis and related transactions. The petition describes how the acquisition of Central Hudson by Fortis will produce benefits for constituencies that include customers, employees and communities in Central Hudson's service territory as well as positive public benefits. The petition categorizes the public benefits into three major areas: 1) FortisUS' commitments and intention to preserve and build on the existing strength of Central Hudson, 2) mitigation of any potential negative aspects of the merger consistent with the PSC's disposition of specific issues that have arisen in prior utility merger proceedings in New York State and 3) identifiable monetary benefits resulting from assignment of costs to shareholders and cost savings made possible by the merger. The petition includes proposals and commitments that effectively mitigate any potential risks to Central Hudson's customers from foreign holding company ownership and excess rate risk. On January 25, 2013, a Joint Proposal with the Company, Fortis, PSC Staff, Multiple Intervenors, the Department of State Utility Intervention Unit, and Dutchess, Orange and Ulster counties as signatories, was submitted to the PSC. The signatory parties have concluded that, based on the terms of the Joint Proposal, the acquisition is in the public interest

pursuant to the New York State Public Service Law, Section 70, and recommended approval by the Commission. On May 3, 2013 the Recommended Decision of the two Administrative Law Judges – an advisory document – was issued by the PSC. The RD states that, in its current form, the Joint Proposal does not meet the public interest test as required by New York State Public Service Law, Section 70, but also states that the ALJs recommend the Commission consider adopting the Joint Proposal subject to modifications that would alter the transaction's balance of risks and benefits. Briefs on exceptions to the RD are due May 17, 2013 and briefs opposing exceptions are due on May 24, 2013. While no assurance regarding the closing can be given until a PSC Order is issued by the Commission, a decision from the PSC regarding the Joint Proposal and a subsequent closing is expected in the second quarter of 2013. See Item 7 - "Management's Discussion and Analysis of Financial Condition and Results of Operations" under the caption "Regulatory Matters – PSC Proceedings" for further discussion regarding the terms of the Joint Proposal and schedule.

-17-

Table of Contents

On October 29, 2012, Central Hudson's service territory was impacted by Superstorm Sandy, and approximately 103,000 electric customers were affected. The Sandy storm costs were included in the estimate of \$22 million storm costs identified in the \$35 million of regulatory liabilities to be funded by Fortis. Consistent with the Joint Proposal, on February 6, 2013, Central Hudson filed a petition with the PSC seeking expedited Commission approval to recover \$9.7 million of incremental electric storm restoration expense, with carrying charges. These storm costs represent the amount Central Hudson deferred on its books as of December 31, 2012 based on actual costs incurred, bills received and an estimate for bills outstanding and are above the respective rate allowance during the twelve months ended June 30, 2013, which is the third rate year established by the PSC in its approval of a Joint Proposal in Case 09-E-0588. The Company believes the incremental costs associated with this storm meet the PSC's criteria for deferral: 1) the amount is incremental to the amount in rates; 2) the incremental amount is material and extraordinary in nature and 3) the utility's earnings are below the authorized rate of return on common equity. As of March 31, 2013, the deferred balance related to this storm event was \$9.8 million.

On October 29, 2011, Central Hudson experienced an unusual fall storm with snow accumulations of up to 20 inches in the service territory, resulting in electric service outages to over 150,000 customers, extensive damage to the electric system and significant restoration costs. Following Tropical Storm Irene, the October snowstorm represented the second extraordinary storm event that occurred within the rate year. Central Hudson filed a petition with the PSC to defer for future recovery with carrying charges the \$8.6 million of total incremental electric storm restoration expense. However, because the petition requested the PSC to deviate from its prior precedents, the Company was aware that the amount the PSC granted could have been lower. Accordingly, management deferred only the portion of the incremental costs that strictly follows Commission practice used in the Company's previous requests to defer incremental storm costs. Approximately \$3.7 million and \$3.3 million of incremental restoration expense associated with this storm was expensed in 2011 and 2012, respectively, so that the return on common equity for the twelve months ending June 30, 2012 did not exceed the authorized rate of return of 10%.

Table of Contents

In late August 2011, Central Hudson's service territory was affected by Tropical Storm Irene, disrupting service to approximately 180,000 customers. On November 28, 2011 Central Hudson filed a petition with the PSC seeking to defer for future recovery with carrying charges for the estimated \$11.4 million of incremental electric storm restoration expense above the respective rate allowance during the twelve months ended June 30, 2012. The Company believes the incremental costs associated with this storm meet the PSC's criteria for deferral.

On April 22, 2013, the Commission issued Orders approving deferral of \$8.9 million and denying deferral of \$3.7 million of the incremental electric storm restoration expense related to Tropical Storm Irene and the October snowstorm. Regarding the majority of the disallowed costs, the PSC's decision stated that the Company did not meet the third prong requirement which requires the Company not be in an over earnings position. The Commission adopted a staff recommendation to exclude ratemaking normalization adjustments for purposes of calculating authorized electric regulatory earnings, and therefore denied a portion of these petitioned deferrals based on this third prong criterion. In addition, the PSC's Order stated that approximately \$0.6 million of the costs related to Tropical Storm Irene should have been allocated to a separate storm, Tropical Storm Lee, and that this separate amount did not meet the materiality threshold for recovery. Central Hudson expects to file a petition for reconsideration and rehearing on the PSC's April 22, 2013 Orders challenging the exclusion of the Company's normalization adjustments used to measure earnings. The petition will seek rehearing for reconsideration and recovery of \$3.7 million of costs denied by the Commission for deferral accounting treatment. The Company believes that it is entitled to fully recover all of these incremental electric storm restoration expenses; however Central Hudson cannot predict the final outcome of this proceeding.

NOTE 3 - New Accounting Guidance

Newly adopted and soon to be adopted accounting guidance is summarized below, including explanations for any new guidance issued in 2013 (except that which is not currently applicable) and the expected impact on CH Energy Group and its subsidiaries.

Impact	Category	Accounting Reference	Title	Issued Date	Effective Date
1	Balance Sheet (Topic 210)	ASU No. 2011-11	Disclosures about Offsetting Assets and Liabilities	Dec-11	Jan-13
1	Balance Sheet (Topic 210)	ASU No. 2013-01	Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities	Jan-13	Jan-13
1	Comprehensive Income (Topic 220)	ASU No. 2013-02	Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income	Feb-13	Dec-12
2	Liabilities (Topic 405)	ASU No. 2013-04	Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date	Feb-13	Dec-13

Impact

Key:

- (1) No current impact on the financial condition, results of operations and cash flows of CH Energy Group and its subsidiaries when adopted on the effective date noted. Additional disclosures have been added or presentation of information modified where required.
- (2) No anticipated impact on

the financial
condition,
results of
operations
and cash
flows of CH
Energy
Group and
its
subsidiaries
upon future
adoption.

Table of Contents

NOTE 4 – Income Tax

In September of 2010, Central Hudson filed a request with the Internal Revenue Service ("IRS") to change the Company's tax accounting method related to costs to repair and maintain utility assets. The change was effective for the tax year ending December 31, 2009. This change allows Central Hudson to take a current tax deduction for a significant amount of repair costs that were previously capitalized for tax purposes.

In September 2012, Central Hudson filed corporate income tax returns for the year ended December 31, 2011. With that filing, the Company included an election to adopt the provisions of Revenue Procedure 2011-43 ("Rev Proc"), which provided IRS guidance related to the repair deduction previously taken on electric transmission and distribution property. Adoption of the provisions of the Rev Proc resulted in reduced federal and state net operating income tax loss ("NOL") carryforwards. The Company believes the remaining electric repair deduction meets and complies with the requirements included in the Rev Proc. As such, tax reserves related to the electric transmission and distribution repair deductions have been reclassified to deferred tax liability accounts.

IRS guidance with respect to repairs taken on Gas Transmission and Distribution repairs is still pending. Therefore, remaining reserves related to the gas repair deduction continue to be shown as "Tax Reserve" under the Deferred Credits and Other Liabilities section of the Central Hudson Balance Sheet.

Other than the uncertain tax position related to the Company's accounting method change for gas transmission and distribution repairs, there are no other uncertain tax positions. The following is a summary of activity related to uncertain tax positions (In Thousands):

	Three Months Ended March 31,	
	2013	2012
Balance at the beginning of the period	\$2,000	\$3,172
Adjustments related to tax accounting method change	47	2
Balance at the end of the period	\$2,047	\$3,174

Jurisdiction	Tax Years Open for Audit
Federal ⁽¹⁾	2007 - 2012
New York State	2009 - 2012

(1) Federal tax filings for the years 2007 - 2011 are currently under audit.

Table of Contents

Reconciliation - CH Energy Group

The following is a reconciliation between the amount of federal income tax computed on income before taxes at the statutory rate and the amount reported in CH Energy Group's Consolidated Statement of Income (In Thousands):

	Three Months Ended March 31,	
	2013	2012
Net income attributable to CH Energy Group	\$18,090	\$14,581
Preferred Stock dividends of Central Hudson	92	242
Preferred Stock Redemption Premium	764	-
Federal income tax	7,465	-
State income tax	544	408
Deferred federal income tax	2,833	10,452
Deferred state income tax	323	809
Income before taxes	\$30,111	\$26,492
Computed federal tax at 35% statutory rate	\$10,539	\$9,272
State income tax net of federal tax benefit	879	1,293
Depreciation flow-through	891	797
Cost of Removal	(616)	(596)
Merger Transaction Costs	84	1,705
Other	(612)	(802)
Total income tax	\$11,165	\$11,669
Effective tax rate - federal	34.2 %	39.4 %
Effective tax rate - state	2.9 %	4.6 %
Effective tax rate - combined	37.1 %	44.0 %

The decrease in the effective tax rate for the three months ended March 31, 2013 as compared to 2012 was primarily driven by the decrease in merger related costs. Merger related transaction costs that are facilitative in nature are considered nondeductible for tax purposes. Merger related transaction costs incurred for the three months ended March 31, 2013 were \$0.2 million and for the three months ended March 31, 2012 were \$4.3 million which have been determined to be facilitative and therefore nondeductible.

Table of Contents

Reconciliation - Central Hudson

The following is a reconciliation between the amount of federal income tax computed on income before taxes at the statutory rate and the amount reported in Central Hudson's Statement of Income (In Thousands):

	Three Months Ended March 31,			
	2013	2012		
Net income	\$14,369	\$16,733		
Federal income tax	5,318	-		
Deferred federal income tax	2,565	9,320		
Deferred state income tax	901	1,433		
Income before taxes	\$23,153	\$27,486		
Computed federal tax at 35% statutory rate	\$8,104	\$9,620		
State income tax net of federal tax benefit	901	1,433		
Depreciation flow-through	891	797		
Cost of Removal	(616)	(596)		
Other	(496)	(501)		
Total income tax	\$8,784	\$10,753		
Effective tax rate - federal	34.0 %	33.9 %		
Effective tax rate - state	3.9 %	5.2 %		
Effective tax rate - combined	37.9 %	39.1 %		

NOTE 5 – Acquisitions and Investments

Acquisitions

During the three months ended March 31, 2013, CH Energy Group or Central Hudson made no acquisitions.

Investments

The value of CHEC's investments as of March 31, 2013 is as follows (In Thousands):

CHEC Investment	Description	Intercompany		Equity Investment Total
		Debt	Equity	
Griffith Energy Services	100% controlling interest in a fuel distribution business	\$ 40,000	\$ 40,682	\$80,682
CH-Community Wind	50% equity interest in a joint venture that owns 18% interest in two operating wind projects	-	-	-
Other	Partnerships and an energy sector venture capital fund	-	2,241	2,241
		\$ 40,000	\$ 42,923	\$82,923

Table of Contents

The remaining investments identified as CH-Community Wind and Other are not considered a part of the core business; however, management intends to retain these investments at this time.

NOTE 6 – Goodwill and Other Intangible Assets

Goodwill, customer relationships, trademarks and covenants not to compete associated with acquisitions are included in intangible assets. In accordance with current accounting guidance related to goodwill and other intangible assets, goodwill and other intangible assets that have indefinite useful lives are not amortized, but instead are periodically reviewed for impairment.

In the fourth quarter of 2012, management performed a qualitative assessment of any potential impairment of Griffith's goodwill. The last quantitative analysis of impairment was performed as of September 30, 2010, which reflected that the fair value of Griffith exceeded its carrying value by approximately \$34.2 million. Additionally, management believes that no event has occurred which would trigger impairment since the last quantitative test performed. Based on these factors and other factors considered in its qualitative analysis, management believes that it is more likely than not that the fair market value of Griffith is more than the carrying value and, therefore, the first and second steps of the impairment test prescribed in guidance were not necessary.

The components of amortizable intangible assets of CH Energy Group are summarized as follows (In Thousands):

	March 31, 2013		December 31, 2012		March 31, 2012	
	Gross		Gross		Gross	
	Carrying	Accumulated	Carrying	Accumulated	Carrying	Accumulated
	Amount	Amortization	Amount	Amortization	Amount	Amortization
Customer relationships	\$37,709	\$ 26,645	\$37,709	\$ 26,017	\$36,526	\$ 24,188
Trademarks	318	8	318	-	-	-
Covenants not to compete	411	122	411	97	377	151
Total Amortizable Intangibles	\$38,438	\$ 26,775	\$38,438	\$ 26,114	\$36,903	\$ 24,339

	Three Months Ended March 31, 2013 2012	
Intangibles Amortization Expense (In Thousands)	\$661	\$634

The estimated annual amortization expense for the remainder of the current year and for each of the next four years, assuming no new acquisitions or divestitures, is as follows (In Thousands):

	2013	2014	2015	2016	2017
Estimated Amortization Expense	\$1,984	\$2,636	\$2,374	\$988	\$683

Table of Contents

NOTE 7 – Short-Term Borrowing Arrangements

CH Energy Group and Central Hudson borrowings under its committed and uncommitted short-term borrowing arrangements are as follows (In Thousands):

	March 31, 2013	December 31, 2012	March 31, 2012
CH Energy Group Holding Company Short-term borrowings	\$29,000	\$ 19,500	\$32,000
Central Hudson Short-term borrowings	27,000	-	59,000
Intercompany Borrowing	-	-	(20,000)
Total CH Energy Group	\$56,000	\$ 19,500	\$71,000
Total CH Energy Group Weighted Average Interest Rate	0.97 %	1.08 %	1.12 %

NOTE 8 – Capitalization – Common and Preferred Stock

For a schedule of activity related to common stock, paid-in capital and capital stock, see the Consolidated Statement of Equity for CH Energy Group and Central Hudson.

Effective July 31, 2007, the Board of Directors of CH Energy Group extended and amended the Common Stock Repurchase Program of the Company (the "Repurchase Program"), which was authorized in 2002. As amended, the Repurchase Program authorized the repurchase of up to 2 million shares (excluding shares purchased before July 31, 2007) or approximately 13% of the CH Energy Group's outstanding Common Stock, from time to time, through July 31, 2012. In accordance with the merger agreement with Fortis, which prohibited CH Energy Group from repurchasing additional shares subsequent to February 21, 2012, the Repurchase Program was not renewed. As of December 31, 2012, CH Energy Group had purchased 948,676 shares under the Repurchase Program, which were not retired or cancelled, and the repurchases accordingly have been presented as an increase to treasury stock in CH Energy Group's Consolidated Balance Sheet.

Effective July 1, 2011, employer matching contributions to an eligible employee's Savings Incentive Plan ("SIP") account could be paid in either cash or in CH Energy Group Common Stock, and CH Energy Group initially chose to meet its matching obligation in Common Stock. Since March 1, 2012, the Company has been contributing cash for all of its matching obligations, except for matching contributions associated with classified employees of Central Hudson. The classified employees will continue to receive matching contributions in CH Energy Group Common Stock. As of March 31, 2013, 44,786 shares had been issued from treasury related to employer matching contributions, of which 3,425 shares were issued in 2013.

On March 21, 2013, Central Hudson redeemed its two outstanding series of preferred stock. Registered holders of 4 1/2% Cumulative Preferred Stock received \$107.00 per share plus accrued and unpaid dividends to the redemption date in the amount of \$1.00 per share, for a total redemption price of \$108.00 per share. Registered holders of 4.75% Cumulative Preferred Stock received \$106.75 per share plus accrued and unpaid dividends to the redemption date in the amount of \$1.056 per share, for a total redemption price of \$107.806 per share. The premium paid in connection with the redemption of the preferred stock was recorded as a reduction of Retained Earnings on Central Hudson's Balance Sheet and as Premium on Preferred Stock Redemption on Central Hudson's Income Statement.

Table of Contents

Through March 31, 2013, Central Hudson made \$5.0 million of dividend payments in 2013 to parent CH Energy Group. In the prior year, Central Hudson made no dividend payments to parent CH Energy Group in the three months ended March 31, 2012.

NOTE 9 – Capitalization – Long-Term Debt

NYSERDA

Central Hudson's outstanding Series B NYSERDA Bonds total \$33.7 million at March 31, 2013. These bonds are tax-exempt multi-modal bonds that are currently in a variable rate mode. In its Orders, the PSC has authorized deferral accounting treatment for variations in the interest costs from these bonds. As such, variations between the actual interest rates on these bonds and the interest rate included in the current delivery rate structure for these bonds are deferred for future recovery from or refund to customers and therefore do not impact earnings.

To mitigate the potential cash flow impact from unexpected increases in short-term interest rates on Series B NYSERDA Bonds, on March 28, 2012, Central Hudson purchased an interest rate cap based on an index of short-term tax-exempt debt. The rate cap is two years in length with a notional amount aligned with Series B and will expire on April 1, 2014. The cap is based on the monthly weighted average of an index of tax-exempt variable rate debt, multiplied by 175%. Central Hudson would receive a payout if the adjusted index exceeds 5.0% for a given month. The rate cap replaced an expiring rate cap with substantially similar terms. See Note 14 – "Accounting for Derivative Instruments and Hedging Activities" for fair value disclosures related to this instrument.

Central Hudson is currently evaluating what actions, if any, it may take in the future in connection with its Series B NYSERDA Bonds. Potential actions may include converting the debt to another interest rate mode or refinancing with taxable bonds.

NOTE 10 – Post-Employment Benefits

Central Hudson provides certain health care and life insurance benefits for retired employees through its post-retirement benefit plans. Central Hudson pension benefits include a Retirement Income Plan ("RIP") and a non-qualified Supplemental Executive Retirement Plan ("SERP").

Table of Contents

In its Orders, the PSC has authorized deferral accounting treatment for any variations between actual pension and other post-employment benefits ("OPEB") expense and the amount included in the current delivery rate structure. As a result, post-retirement benefit plans at Central Hudson do not have any impact on earnings. The following information is provided in accordance with current accounting requirements.

The following are the components of Central Hudson's net periodic benefit costs for its pension and OPEB plans for the three months ended March 31, 2013 and 2012 (In Thousands):

	Pension Benefits		OPEB ⁽¹⁾	
	Three Months Ended		Three Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
Service cost	\$3,073	\$2,741	\$760	\$644
Interest cost	5,732	6,177	1,382	1,662
Expected return on plan assets	(7,698)	(6,768)	(1,723)	(1,734)
Amortization of:				
Prior service cost (credit)	433	501	(1,465)	(1,466)
Transitional obligation	-	-	2	641
Recognized actuarial loss	4,840	5,788	1,582	2,326
Net Periodic Benefit Cost	\$6,380	\$8,439	\$538	\$2,073

(1) The OPEB amounts for all periods presented reflect the effect of the Medicare Prescription Drug Improvement and Modernization Act of 2003.

The balance of Central Hudson's accrued pension costs (i.e., the under-funded status) is as follows (In Thousands):

	March 31, 2013	December 31, 2012	March 31, 2012
Accrued pension costs	\$88,828	\$113,885	\$96,547

These balances include the difference between the projected benefit obligation ("PBO") for pensions and the market value of the pension assets, and the liability for the non-qualified Supplemental Executive Retirement Plan ("SERP").

The following reflects the impact of the recording of funding status adjustments on the Balance Sheets of CH Energy Group and Central Hudson (In Thousands):

	March 31, 2013	December 31, 2012	March 31, 2012
Prefunded pension costs prior to funding status adjustment	\$44,956	\$25,172	\$49,996
Additional liability required	(133,784)	(139,057)	(146,543)
Total accrued pension costs	\$(88,828)	\$(113,885)	\$(96,547)
Total offset to additional liability - Regulatory assets - Pension Plan	\$133,784	\$139,057	\$146,543

Table of Contents

Gains or losses and prior service costs or credits that arise during the period but that are not recognized as components of net periodic pension cost would typically be recognized as a component of other comprehensive income, net of tax. However, Central Hudson has PSC approval to record regulatory assets rather than adjusting comprehensive income to offset the additional liability.

Contribution levels for the RIP and OPEB plans are determined by various factors including the discount rate, expected return on plan assets, benefit changes, and corporate resources. In addition, OPEB plan contribution levels are also impacted by medical claims assumptions used and mortality assumptions used.

Contributions for the three months ended March 31, 2013 and 2012 were as follows (In Thousands):

	Retirement Income Plan		OPEB Three Months Ended March 31,	
	2013	2012	2013	2012
Contributions	\$26,000	\$28,000	\$ -	\$ -

Retirement Plan Policy and Strategy

Central Hudson's Retirement Plan investment policy seeks to achieve long-term growth and income to match the long-term nature of its funding obligations. Management has transitioned to a liability-driven investment ("LDI") strategy for its pension plan assets. Management's objective is to reduce the volatility of the plan's funded status and the level of contributions by more closely aligning the characteristics of plan assets with liabilities.

Asset allocation targets in effect for the three months ended March 31, 2013 as well as actual asset allocations as of March 31, 2013 and December 31, 2012 expressed as a percentage of the market value of the Retirement Plan's assets, are summarized in the table below:

Asset Class	December 31, 2012		Target		March 31, 2013	
	Minimum	Maximum	Average	Maximum	Minimum	Maximum
Equity Securities	50.5 %	45 %	50 %	55 %	51.2 %	51.2 %
Debt Securities	47.4 %	45 %	50 %	55 %	47.4 %	47.4 %
Other ⁽¹⁾	2.1 %	- %	- %	- %	1.4 %	1.4 %

⁽¹⁾ Consists of temporary cash investments, as well as receivables for investments sold and interest, and payables for investments purchased, which have not settled as of that date.

The above asset allocations as of December 31, 2012 and March 31, 2013 reflect the transition to a LDI strategy resulting in an asset allocation of approximately 50% equity and 50% long duration fixed income assets. Due to market value fluctuations, RIP assets will require rebalancing from time to time to maintain the asset allocation within target ranges. Management is currently monitoring ongoing market activity and the impact on the pension plan asset allocations to determine if a rebalancing will be necessary.

Table of Contents

Central Hudson cannot assure that the RIP's return objectives or funded status objectives will be achieved.

NOTE 11 – Equity-Based Compensation

CH Energy Group has adopted the CH Energy Group, Inc. 2011 Long-Term Equity Incentive Plan (the "2011 Plan").

The 2011 Plan reserves for awards to be granted up to a maximum of 400,000 shares of Common Stock plus any shares remaining available under the 2006 Long-Term Equity Incentive Plan (the "2006 Plan") as of April 26, 2011 and any shares that are subject to awards granted under the 2006 Plan that are forfeited, cancelled, surrendered or otherwise terminated without the issuance of shares on or after that date. Awards may consist of incentive stock options, nonqualified stock options, stock appreciation rights, restricted shares, restricted share units, performance shares, dividend equivalents and other awards that CH Energy Group may authorize.

The 2011 Plan will continue in effect until February 9, 2021, unless sooner terminated by the Board of Directors. Termination will not affect grants and awards then outstanding.

In December 2012, the board approved the non-refundable accelerated payment of 80% of earned performance shares for certain executive officers for the February 8, 2010 grant and the acceleration of the vesting of 80% of restricted shares outstanding for certain executive officers issued under the February 10, 2010 grant award. In accordance with accounting rules, the modification of the restricted share grant is treated as a cancellation of the original award and issue of a new award with the new grant date fair value and incremental expense recognized. The incremental expense resulting from this modification was not material.

Performance Shares

A summary of the status of outstanding performance shares granted to executives under the 2006 and 2011 Plans are as follows:

Grant Date	Grant Date Fair Value	Performance Shares Granted	Performance Shares Outstanding at March 31, 2013	
February 8, 2010	\$38.62	48,740	37,348	(1)
February 7, 2011	\$49.77	40,320	40,320	
February 6, 2012	\$58.15	39,440	39,440	
February 5, 2013	\$65.02	35,780	35,780	

CH Energy Group treasury stock of 613 shares in 2011 and 4,128 in 2012 were issued in satisfaction of the (1) pro-rated payout of an officer who retired in 2011 and the accelerated payment to certain executive officers in 2012, respectively.

Table of Contents

The ultimate number of shares earned under the awards is based on metrics established by the Compensation Committee at the beginning of the award cycle. Participants may elect to defer receipt of shares earned in accordance with terms and subject to conditions of the Directors and Executives Deferred Compensation Plan. Ultimate payouts from the Directors and Executives Deferred Compensation Plan are made in the form of cash or shares. Accordingly, these awards are classified as liabilities and are adjusted to fair value as of the end of each reporting period.

Performance shares granted February 8, 2010 and shown as outstanding as of March 31, 2013 in the table above, were paid out in April 2013. Those recipients electing not to defer this compensation under the CH Energy Group Directors and Executives Deferred Compensation Plan received shares issued from CH Energy Group's treasury stock totaling 11,354 shares.

Restricted Shares and Restricted Stock Units

The following table summarizes information concerning restricted shares and stock units outstanding as of March 31, 2013:

Grant Date	Type of Award	Shares or Stock Units Granted	Grant Date Fair Value	Vesting Terms	Unvested Shares Outstanding at March 31, 2013
October 1, 2009	Shares	14,375	\$ 43.86	Ratably over 5 years	5,750
November 20, 2009	Stock Units	13,900	\$ 41.43	1/3 each year in Years 5, 6 and 7	13,900
February 8, 2010	Shares	3,060	\$ 38.62	End of 3 years	- (1)
February 10, 2010	Shares	5,200	\$ 38.89	End of 3 years	- (2)
November 15, 2010	Shares	3,000	\$ 46.53	Ratably over 3 years	1,000
February 7, 2011	Shares	1,500	\$ 49.77	1/3 each year in Years 3, 4 and 5	1,500
February 7, 2011	Shares	2,230	\$ 49.77	End of 3 years	2,230
February 6, 2012	Shares	2,170	\$ 58.15	End of 3 years	2,170
February 5, 2013	Shares	2,035	\$ 65.02	End of 3 years	2,035

(1) The vesting of 405 shares was accelerated as approved by the Board of Directors. The remaining 2,655 shares vested on February 8, 2013.

(2) The vesting of 3,520 shares was accelerated as approved by the Board of Directors. The remaining 1,680 shares vested on February 8, 2013.

Compensation Expense

The following table summarizes expense for equity-based compensation by award type for the three months ended March 31, 2013 and 2012 (In Thousands):

CH Energy Group Three Months Ended	Central Hudson Three Months
--	-----------------------------------

Edgar Filing: CENTRAL HUDSON GAS & ELECTRIC CORP - Form 10-Q

	March 31,		Ended	
	2013	2012	March 31,	2012
Performance shares	\$617	\$1,538	\$502	\$525
Restricted shares and stock units	\$105	\$114	\$72	\$65
Recognized tax benefit of restricted shares and stock units	\$41	\$46	\$29	\$26

-30-

Table of Contents

Compensation expense for performance shares is recognized over the three year performance period based on the fair value of the awards at the end of each reporting period and the time elapsed within each grant's performance period.

The fair value of performance shares is determined based on the shares' current market value at the end of each reporting period, estimated forfeitures for each grant, and expected payout based on management's best estimate including analysis of historical performance in accordance with the defined metrics of each grant. Compensation expense is recorded as performance shares are earned over the relevant three-year life of the performance share grant prior to its award. The portion of the compensation expense related to an employee who retires during the performance period is the amount recognized up to the date of retirement.

Compensation expense for restricted shares is recognized over the defined vesting periods based on the grant date fair value of the awards. As of December 31, 2012, there are no stock options outstanding. Stock option expense recognized over the three months ended March 31, 2012 was not material.

The market price of CH Energy Group stock increased approximately \$8 per share immediately following the February 21, 2012 announcement that CH Energy Group had entered into a merger agreement with Fortis. CH Energy Group's equity-based compensation expense for the three months ended March 31, 2013 and 2012 included approximately \$0.1 million and \$1.0 million attributable to the increase in stock price on outstanding performance share awards, which has been recognized at the holding company as a transaction cost resulting from the proposed acquisition of CH Energy Group by Fortis and not allocated to its subsidiaries.

NOTE 12 – Commitments and Contingencies

Electricity Purchase Commitments

On June 30, 2010 and September 9, 2010, Central Hudson entered into agreements with Entergy Nuclear Power Marketing, LLC to purchase electricity (but not capacity) on a unit-contingent basis at defined prices from January 1, 2011 through December 31, 2013. For the three months ended March 31, 2012, energy supplied under these agreements cost approximately \$5.2 million. For the three months ended March 31, 2013, energy supplied under these agreements cost approximately \$4.3 million, which represents approximately 14% of Central Hudson's full-service customer requirements on an annual basis.

These contracts meet the definition of a normal purchase and are therefore excluded from current accounting requirements related to derivatives. In the event the above noted counterparty is unable to fulfill its commitment to deliver under the terms of the agreements, Central Hudson would obtain the supply from the New York Independent System Operator ("NYISO") market, and under Central Hudson's current ratemaking treatment, recover the full cost from customers. As such, there would be no impact on earnings.

Table of Contents

Central Hudson must also acquire sufficient peak load capacity to meet the peak load requirements of its full service customers. This capacity is made up of contracts with capacity providers, purchases from the NYISO capacity market and its own generating capacity.

Environmental Matters

Central Hudson

· Air

There has been no change to this matter in 2013, however, the relevant disclosure is provided as required. In 1999, the New York State Attorney General ("Attorney General") alleged that Central Hudson "may have constructed, and continues to operate, major modifications to the Danskammer Point Steam Electric Generating Station ("Danskammer Plant") without obtaining certain requisite preconstruction permits." In March 2000, the Environmental Protection Agency ("EPA") assumed responsibility for the investigation. Central Hudson believes any permits required for these projects were obtained in a timely manner. Central Hudson sold the Danskammer Plant to Dynegy in January 2001.

While Central Hudson could have retained liability after the sale, depending on the type of remedy, Central Hudson believes that the statutes of limitation relating to any alleged violation of air emissions rules have lapsed.

· Former Manufactured Gas Plant Facilities

Central Hudson and its predecessors owned and operated manufactured gas plants ("MGPs") to serve their customers' heating and lighting needs. These plants manufactured gas from coal and oil beginning in the mid to late 1800s with all sites ceasing operations by the 1950s. This process produced certain by-products that may pose risks to human health and the environment.

The New York State Department of Environmental Conservation ("DEC"), which regulates the timing and extent of remediation of MGP sites in New York State, has notified Central Hudson that it believes Central Hudson or its predecessors at one time owned and/or operated MGPs at seven sites in Central Hudson's franchise territory. The DEC has further requested that Central Hudson investigate and, if necessary, remediate these sites under a Consent Order, Voluntary Cleanup Agreement, or Brownfield Cleanup Agreement. The DEC has placed all seven of these sites on the New York State Environmental Site Remediation Database. As authorized by the PSC, Central Hudson is currently permitted to defer for future recovery the differences between actual costs for MGP site investigation and remediation and the associated rate allowances, with carrying charges to be accrued on the deferred balances at the authorized pre-tax rate of return.

Table of Contents

MGP site investigation and remediation can be divided into various stages of completion based on the milestones of activities completed and reports reviewed. Central Hudson accrues for remediation costs based on the amounts that can be reasonably estimated at a point in time. These stages, the types of costs accrued during various stages and the sites currently in each stage, include:

Investigation – Begins with preliminary investigations and is completed upon filing and approval by DEC of a Remedial Investigation ("RI") Report. Central Hudson accrues for estimated investigation costs, Remedial Alternative Analysis ("RAA"), and Remedial Design costs.

ØSite #6 – Kingston (NY) – Remedial Investigation in Progress

The revised RI report was submitted to the DEC for review and approval in November 2012. The DEC provided general and specific comments to the revised RI report in a letter dated February 27, 2013. Central Hudson submitted a comment response letter to the DEC on March 28, 2013.

-Amounts accrued represent an estimate of costs to complete the RAA and the Remedial Design.

Remedial Alternative Analysis – Engineering analysis of alternatives for remediation based on the RI is compiled into a RAA Report. Upon completion of the RAA and the filing with the DEC, management accrues for an estimate of remediation costs developed and quantified in the RAA based on DEC approved methods, as well as an estimate of post-remediation operation, maintenance and monitoring costs ("OM&M"). These amounts represent a significant portion of the total costs to remediate and are subject to change based on further investigations, final remedial design and associated engineering estimates, regulatory comments and requests, remedial design changes/negotiations, and changed or unforeseen conditions during the remediation or additional requirements following the remediation. Prior to the completion of the RAA, management cannot reasonably estimate what cost will be incurred for remediation or post-remediation activities.

ØSite #5 – North Water Street (Poughkeepsie, NY) – Remedial Alternatives Analysis in progress

DEC approved an Interim Remedial Measure ("IRM") associated with the southern portion of this site. The IRM activities were completed in 2012. The IRM Construction Completion Report ("CCR") and Interim Site Management Plan ("SMP") were submitted to the DEC for review and approval in December 2012 and February 2013, respectively.

In addition, Central Hudson has recently retired and removed propane air facilities formerly located on site. The DEC approved a work plan to investigate the former propane tank area on February 7, 2013. The investigation is tentatively planned to commence in the spring of 2013. Depending on the results of this investigation some level of future remediation may be required in this area.

-Amounts accrued represent an estimate for completion of the RAA and Remedial Design.

Table of Contents

Remedial Design - Upon approval of the RAA and final decision of remediation approach based on alternatives presented, a Remedial Design is developed and filed with the DEC for approval.

Remediation – Completion of the work plan as defined in the approved Remedial Design. Upon completion, final reports are filed with the DEC for approval and may include a CCR, Final Engineering Report ("FER"), or other reports required by the DEC based on the work performed.

ØSite #4 – Catskill (NY) – Remediation in Progress

-Remediation activities commenced in September 2012 and are anticipated to be completed in the summer of 2013.

Amounts accrued represent an estimate of costs to complete the remediation and

OM&M.

Post-Remediation Monitoring – Entails the OM&M as directed by the DEC based on the approved final report of remediation. The activities are typically defined in a SMP, which is approved by the DEC. The extent of activities during this phase may increase or decrease based on the results of ongoing monitoring being performed and future potential usage of the property.

ØSite #1 – Beacon (NY) – Post-Remediation Monitoring Complete

-SMP submitted to the DEC and release letter for the site was received under a March 26, 2013 cover letter.

-No further costs expected and no amounts accrued as of March 31, 2013 related to this site.

If the building at this site were to be removed, further investigation and testing would be required related to the soil under the building, which may require additional remediation. Management cannot currently estimate the costs that may be incurred related to this.

ØSite #2 – Newburgh (NY) – Post-Remediation In Progress

-Amounts accrued represent an estimate of costs for OM&M and execution of the draft SMP.

Central Hudson has recently retired and removed propane air facilities located on Area A. A draft figure associated with a future work plan to investigate the former propane tank area was submitted to the DEC in February 2013.

Additionally, draft figures proposing recovery well installation in Area A and B and a proposal to expand the recovery well system near NMW-46 (Area B) were also submitted to the DEC for approval. Depending on the results from the former propane tank area investigation some level of future remediation may be required in this area. Management cannot currently estimate the costs that may be incurred related to potential remediation of the former propane tank area.

Table of Contents

Ø Site #3 – Laurel Street (Poughkeepsie, NY) – Post-Remediation In Progress

The results of the sampling event completed in January 2013 were submitted to the DEC on February 19, 2013. The DEC approved a request from Central Hudson to reduce the frequency of sampling from a quarterly to semi-annual frequency on February 20, 2013.

Central Hudson continues to work with the DEC to complete an Environmental Easement for the portion of the site owned by Central Hudson.

-Amounts accrued represent an estimate of costs for OM&M.

-No Action Required

Ø Site #7 – Bayeaux Street (Poughkeepsie, NY) – No further investigation or remedial action is currently required. However, per the DEC this site still remains on the list for potential future investigation.

A summary of amounts accrued and spent are detailed in the chart below (In Thousands):

Site #	Liability Recorded as of 12/31/12	Amounts Spent in 2013 ⁽¹⁾	Liability Adjustment	Liability Recorded as of 3/31/13	Current Portion of Liability at 3/31/13	Long-Term Portion of Liability at 3/31/13
1,						
2,						
3, 4	\$ 12,210	\$ 3,628	\$ 883	\$ 9,465	\$ 2,916	\$ 6,549
5, 6	1,743	68	(62)	1,613	922	691
	\$ 13,953	\$ 3,696	\$ 821	\$ 11,078	\$ 3,838	\$ 7,240

(1) Amounts spent in 2013 as shown above do not include legal fees of approximately \$8 thousand.

Based on a cost model analysis completed in 2012 of possible remediation and future operating, maintenance, and monitoring costs for sites #2 through #6, Central Hudson believes there is a 90% confidence level that the total costs to remediate these sites will not exceed \$152.0 million over the next 30 years. The cost model involves assumptions relating to investigation expenses, results of investigations, remediation costs, potential future liabilities, and post-remedial operating, maintenance and monitoring costs, and is based on a variety of factors including projections regarding the amount and extent of contamination, the location, size and use of the sites, proximity to sensitive resources, status of regulatory investigations, and information regarding remediation activities at other MGP sites in New York State. The cost model also assumes that proposed or anticipated remediation techniques are technically feasible and that proposed remediation plans receive DEC and New York State Department of Health ("NYSDOH") approval.

Future remediation activities, including OM&M and related costs may vary significantly from the assumptions used in Central Hudson's current cost estimates, and these costs could have a material adverse effect (the extent of which cannot be reasonably determined) on the financial condition, results of operations and cash flows of CH Energy Group and Central Hudson if Central Hudson were unable to recover all or a substantial portion of these costs via collection in rates from customers and/or through insurance.

Table of Contents

Central Hudson expects to recover its remediation costs from its customers. The current components of this recovery include:

- Current Rate Order includes cash recovery from customers of \$13.6 million spread equally over the three year settlement period ending June 30, 2013;

- As part of the 2010 Rate Order, Central Hudson maintained previously granted deferral authority and subsequent recovery for amounts spent over the rate allowance.

- Total MGP Site Investigation and Remediation costs recovered through rates and other regulatory mechanisms from July 1, 2007 through March 31, 2013 was approximately \$25.6 million, with \$1.2 million recovered in the three months ended March 31, 2013.

- The total spent in the three months ended March 31, 2013 related to site investigation and remediation was approximately \$3.7 million.

- The regulatory asset balance as of March 31, 2013 was \$14.7 million, which represents the difference between amounts spent or currently accrued as a liability and the amounts recovered through rate allowance, as well as carrying charges accrued. Upon completion of investigation at sites #5 and #6, when remediation and post-remediation costs will be able to be reasonably estimated and therefore will be recorded as a liability, this regulatory asset balance will likely increase significantly. Management projects that the investigation at these sites will likely be completed within the next two years.

Central Hudson has put its insurers on notice and intends to seek reimbursement from its insurers for its costs. Certain of these insurers have denied coverage. In addition to the rate allowance amounts noted above, Central Hudson recovered approximately \$2.3 million from insurance. There were no insurance recoveries in the first quarter of 2013. However, we do not expect insurance recoveries to offset a meaningful portion of total costs.

· Little Britain Road property owned by Central Hudson

In 2000, Central Hudson and the DEC entered into a Voluntary Cleanup Agreement ("VCA") whereby Central Hudson removed approximately 3,100 tons of soil and conducted groundwater sampling. Central Hudson believes that it has fulfilled its obligations under the VCA and should receive the release provided for in the VCA, but the DEC has proposed that additional groundwater work be done to address groundwater sampling results that showed the presence of certain contaminants at levels exceeding the DEC criteria. Central Hudson believes that such work is not necessary and has completed a soil vapor intrusion study showing that indoor air at the facility met Occupational Safety and Health Administration ("OSHA") and NYSDOH standards. In October 2011, the DEC requested a 'non-committal' meeting with Central Hudson to discuss the site and possible next steps. At the annual MGP meeting with Central Hudson in October 2012, the DEC discussed the Little Britain Road property requesting an upcoming meeting to discuss the site and possible next steps. Central Hudson responded that we are available for such a meeting. A meeting date has yet to be established.

Table of Contents

At this time Central Hudson does not have sufficient information to estimate the need for additional remediation or potential remediation costs. Central Hudson has put its insurers on notice regarding this matter and intends to seek reimbursement from its insurers for amounts, if any, for which it may become liable. Central Hudson cannot predict the outcome of this matter.

·Eltings Corners

Central Hudson owns and operates a maintenance and warehouse facility. In the course of Central Hudson's hazardous waste permit renewal process for this facility, sediment contamination was discovered within the wetland area across the street from the main property. In cooperation with the DEC, Central Hudson continues to investigate the nature and extent of the contamination. Additional off-site sediment and on-site groundwater sampling was performed during 2012 in accordance with a supplemental work plan approved by the DEC. Results from the on-site groundwater sampling activities were submitted to the DEC in January of 2013. Following their review, the DEC issued a letter dated March 28, 2013 relieving Central Hudson from any further on-site groundwater sampling. The sediment sampling results are expected to be submitted to the DEC in the spring of 2013. Further sediment investigation is expected to take place in 2013. The extent of the contamination as well as the timing and costs for any future remediation efforts cannot be reasonably estimated at this time.

CHEC

During the three months ended March 31, 2013, the amount spent by Griffith on remediation efforts in Maryland, Virginia and Connecticut were immaterial.

Griffith's reserve for environmental remediation is \$1.4 million as of March 31, 2013, of which \$0.4 million is expected to be spent in the next twelve months.

In connection with the 2009 sale of operations in certain geographic locations, Griffith agreed to indemnify the purchaser for certain claims, losses and expenses arising out of any breach by Griffith of the representations, warranties and covenants Griffith made in the sale agreement, certain environmental matters and all liabilities retained by Griffith. Griffith's indemnification obligation is subject to a number of limitations, including a five-year limitation within which certain claims must be brought, an aggregate deductible of \$0.8 million applicable to certain types of non-environmental claims and other deductibles applicable to certain specific environmental claims, and caps on Griffith's liability with respect to certain of the indemnification obligations. The sale agreement includes an aggregate cap of \$5.7 million on Griffith's obligation to indemnify the purchaser for breaches of many of Griffith's representations and warranties and for certain environmental liabilities. In 2009, the Company reserved \$2.6 million for environmental remediation costs it may be obligated to pay based on its indemnification obligations under the sale agreement. To date, Griffith has paid approximately \$1.2 million under its environmental remediation cost obligation. In the first quarter of 2011, Griffith reduced the reserve by \$0.6 million based on the completion of an environmental study. The balance as of March 31, 2013 related to the divestiture is \$0.8 million. Management believes this is the most likely amount Griffith would pay with respect to its indemnification obligations under the sale agreement.

Table of Contents

Certain Litigation Related to the Fortis Transaction

Following the announcement of the proposed acquisition of CH Energy Group by Fortis on February 21, 2012, several complaints were filed by purported CH Energy Group shareholders in the Supreme Court of the State of New York, County of New York (the "New York County Court") and the Supreme Court of the State of New York, County of Dutchess, challenging the proposed merger. The Dutchess County actions have been transferred to the New York County Court, and all actions have been joined under the master caption In re CH Energy Group, Inc. Shareholder Litigation, Index No. 775,000/2012.

On April 9, 2012, a master amended complaint was filed in the joined litigation related to the proposed acquisition of CH Energy Group by Fortis. The master amended complaint, which was filed on behalf of a putative class of CH Energy Group public shareholders, names as defendants CH Energy Group, its directors, Fortis, FortisUS, and Cascade Acquisition Sub, Inc. and generally alleges that the individual defendants breached their fiduciary duties in connection with the proposed transaction and that the entity defendants aided and abetted that breach. The master amended complaint further alleges that the preliminary proxy filed in connection with the proposed transaction with Fortis contains material misstatements and omissions. The master complaint seeks, among other things, an order preliminarily and permanently enjoining the proposed transaction with Fortis, damages, and plaintiffs' fees and expenses.

On May 9, 2012, the parties executed a memorandum of understanding that embodies their agreement in principle on the structure of a proposed settlement. The proposed settlement, which is subject to certain conditions, including court approval following notice to a proposed settlement class consisting of all CH Energy Group shareholders during the period from February 19, 2012 through the date of the consummation of the proposed merger (the "Class"), would, among other things, dismiss all causes of action asserted in the master amended complaint and release all claims that members of the Class may have arising out of or relating in any manner to the proposed merger. Pursuant to the terms of the proposed settlement, defendants agreed to make certain disclosures to shareholders. In the meantime, the plaintiffs and their counsel have agreed, among other things, to stay the litigation and not to initiate any proceedings (including, but not limited to, a motion for a preliminary injunction) other than those incident to effecting the settlement.

Table of Contents

Absent court approval of the proposed settlement, the defendants intend to vigorously defend themselves against the action.

Other Matters

Asbestos Litigation

As of March 31, 2013, of the 3,338 asbestos cases brought against Central Hudson, 1,166 remain pending. Of the cases no longer pending against Central Hudson, 2,017 have been dismissed or discontinued without payment by Central Hudson, and Central Hudson has settled 155 cases. Central Hudson is presently unable to assess the validity of the remaining asbestos lawsuits; however, based on information known to Central Hudson at this time, including Central Hudson's experience in settling asbestos cases and in obtaining dismissals of asbestos cases, Central Hudson believes that the costs which may be incurred in connection with the remaining lawsuits will not have a material adverse effect on the financial position, results of operations or cash flows of either CH Energy Group or Central Hudson.

Central Hudson and Griffith are involved in various other legal and administrative proceedings incidental to their businesses, which are in various stages. While these matters collectively could involve substantial amounts, based on the facts currently known, it is the opinion of management that their ultimate resolution will not have a material adverse effect on either of CH Energy Group's or the individual segment's financial positions, results of operations or cash flows.

CH Energy Group and Central Hudson expense legal costs as incurred.

NOTE 13 – Segments and Related Information

CH Energy Group's reportable operating segments are the regulated electric utility business and regulated natural gas utility business of Central Hudson and the unregulated fuel distribution business of Griffith. Other activities of CH Energy Group, which do not constitute a business segment, include CHEC's renewable energy investments and the holding company's activities, which consist primarily of financing its subsidiaries, and are reported under the heading "Other Businesses and Investments."

Certain additional information regarding these segments is set forth in the following tables. General corporate expenses and Central Hudson's property common to both electric and natural gas segments have been allocated in accordance with practices established for regulatory purposes.

Central Hudson's and Griffith's operations are seasonal in nature and weather-sensitive and, as a result, financial results for interim periods are not necessarily indicative of trends for a twelve-month period. Demand for electricity typically peaks during the summer, while demand for natural gas and heating oil typically peaks during the winter.

Table of ContentsCH Energy Group Segment Disclosure

(1) This represents the elimination of inter-company interest income (expense) generated from lending activities between CH Energy Group (the holding company), and its subsidiaries (CHEC and Griffith).

Table of Contents

NOTE 14 - Accounting for Derivative Instruments and Hedging Activities

Accounting for Derivatives

Central Hudson has been authorized to fully recover risk management costs through its natural gas and electricity cost adjustment charge clauses. Risk management costs are defined by the PSC as "costs associated with transactions that are intended to reduce price volatility or reduce overall costs to customers. These costs include transaction costs, and gains and losses associated with risk management instruments." The related gains and losses associated with Central Hudson's derivatives are included as part of Central Hudson's commodity cost and/or price-reconciled in its natural gas and electricity cost adjustment charge clauses, and are not designated as hedges. Additionally, Central Hudson has been authorized to fully recover the interest costs associated with its variable rate debt, which includes costs and gains or losses associated with its interest rate cap contracts. As a result, these derivative activities at Central Hudson do not impact earnings.

Derivative activity related to Griffith's heating oil contracts is not material.

The percentage of Central Hudson's electric and gas requirements covered with fixed price forward purchases is as follows:

Central Hudson	% of Requirement Hedged ⁽¹⁾	
Electric Derivative Contracts:		
April 2013 – December 2013	34.0	%
2014	28.8	%
2015	21.7	%
2016	7.2	%
2017	7.1	%
Natural Gas Derivative Contracts:		
November 2013 – March 2014	2.3	%

(1) Projected coverage as of March 31, 2013.

Derivative Risks

The basic types of risks associated with derivatives are market risk (that the value of the derivative will be adversely impacted by changes in the market, primarily the change in interest and exchange rates) and credit risk (that the counterparty will not perform according to the terms of the contract). The market risk of the derivatives generally offset the market risk associated with the hedged commodity.

The majority of Central Hudson and Griffith's derivative instruments contain provisions that require the Company to maintain specified issuer credit ratings and financial strength ratings. Should the company's ratings fall below these specified levels, it would be in violation of the provisions, and the derivatives' counterparties could terminate the contracts and request immediate payment.

Table of Contents

To help limit the credit exposure of their derivatives, both Central Hudson and Griffith have entered into master netting agreements with counterparties whereby contracts in a gain position can be offset against contracts in a loss position. Of the nineteen total agreements held by both companies, eleven contain credit-risk related contingent features. As of March 31, 2013, the amount that would be required to settle these instruments if the contingent features were triggered is immaterial.

CH Energy Group and Central Hudson have elected gross presentation for their derivative contracts under master netting agreements and collateral positions. On March 31, 2013, neither Central Hudson nor Griffith had collateral posted against the fair value amount of derivatives.

The net presentation for CH Energy Group's and Central Hudson's derivative assets and liabilities as of March 31, 2013, December 31, 2012 and March 31, 2012 are as follows (In Thousands):

Description	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Financial Position	Net Amount of Assets Presented in the Statement of Financial Position	Gross Amounts Not Offset in the Statement of Financial Position

Gross Fair Value of Derivative Instruments

Derivative contracts are measured at fair value on a recurring basis. As of March 31, 2013, December 31, 2012, and March 31, 2012, CH Energy Group's and Central Hudson's derivative assets and liabilities by category and hierarchy level are as follows (In Thousands):

Asset or Liability Category	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
As of March 31, 2013 ⁽¹⁾				
Assets:				
Derivative Contracts:				
Central Hudson - electric	\$5,822	\$ -	\$ -	\$ 5,822
Total Central Hudson Assets	\$5,822	\$ -	\$ -	\$ 5,822
Griffith - heating oil	\$3	\$ 3	\$ -	\$ -
Total CH Energy Group Assets	\$5,825	\$ 3	\$ -	\$ 5,822
Liabilities:				
Derivative Contracts:				
Central Hudson - electric	\$(608)	\$ -	\$ -	\$(608)
Central Hudson - natural gas	(2)	(2)	-	-
Total CH Energy Group and Central Hudson Liabilities	\$(610)	\$(2)	\$ -	\$(608)
As of December 31, 2012 ⁽¹⁾				
Assets:				
Derivative Contracts:				
Central Hudson - electric	\$693	\$ -	\$ -	\$ 693
Central Hudson - natural gas	95	95	-	-
Total Central Hudson Assets	\$788	\$ 95	\$ -	\$ 693
Griffith - heating oil	\$26	\$ 26	\$ -	\$ -
Total CH Energy Group Assets	\$814	\$ 121	\$ -	\$ 693
Liabilities:				
Derivative Contracts:				
Central Hudson - electric	\$(1,367)	\$(110)	\$ -	\$(1,367)
Central Hudson - natural gas	(110)	-	-	-
Total CH Energy Group and Central Hudson Liabilities	\$(1,477)	\$(110)	\$ -	\$(1,367)
As of March 31, 2012 ⁽¹⁾

Derivative Contracts:				

Edgar Filing: CENTRAL HUDSON GAS & ELECTRIC CORP - Form 10-Q

Griffith - heating oil	\$9	\$ -	\$ -	\$ -
Total CH Energy Group Assets	\$9	\$ -	\$ -	\$ -

Liabilities:

Derivative Contracts:

Central Hudson - electric	\$(23,792)	\$ -	\$ -	\$ (23,792)
Central Hudson - natural gas	(14)	(14)	-	-
Total CH Energy Group and Central Hudson Liabilities	\$(23,806)	\$(14)	\$ -	\$ (23,792)

(1) Interest rate cap agreement is not shown in the above table because the FMV at each period stated was zero.

Central Hudson obtains forward pricing for Level 3 derivatives from an independent third party provider of derivative pricing. Significant unobservable inputs utilized in their pricing model are bi-lateral contracts and projected activity of certain major participants. Generally, a change in any of the underlying assumptions would result in a positively correlated change in fair value measurement.

Table of Contents

The table listed below provides a reconciliation of the beginning and ending net balances for assets and liabilities measured at fair value and classified as Level 3 in the fair value hierarchy (In Thousands):

	Three Months Ended March 31, 2013 2012	
Balance at Beginning of Period	\$(674)	\$(16,830)
Unrealized gains/(losses)	5,888	(6,962)
