- ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01 Regulation FD Disclosure

A copy of the news release announcing that Lexaria has filed an important new patent application with the United States Patent and Trademark Office (USPTO) for innovation in treatment options related to central nervous system disease or disorders including viral infection, cancer, neurodegenerative disorders, ADHD, anxiety, depression, OCD, schizophrenia, Alzheimer s, Huntington s, Parkinson s, neuropathic pain and more.

In recent laboratory testing, Lexaria's breakthrough discovery evidenced greatly enhanced drug delivery to brain tissue. Nicotine *in-vivo* (animal) studies showed that up to 560% more nicotine was delivered to brain tissue utilizing DehydraTECH™ than concentration-matched controls lacking DehydraTECH™ enhancements. The study provided evidence of surprising effectiveness in crossing the blood-brain barrier (BBB) which the Company is investigating more extensively, leading to Lexaria's patent application titled: Enhancement of Delivery of Lipophilic Active Agents Across the Blood-Brain Barrier and Methods for Treating Central Nervous System Disorders.

Item 9.01 Financial Statements and Exhibits

99.1 Press Release dated June 29, 2018
