**Item 8.01 Other Events.**

On May 10, 2005, El Paso Corporation issued a press release announcing a private placement to remarket approximately \$272 million aggregate principal amount of senior notes due August 16, 2007 in compliance with its obligations to remarket notes originally issued as part of its 9.00 percent equity security units issued in June 2002. A copy of the press release is attached as Exhibit 99.A.

During the period of May 11-13, 2005, due to unfavorable market conditions we were unable to remarket approximately \$272 million of the senior notes due August 16, 2007 at commercially reasonable rates in accordance with the contracts governing such remarketing. The notes originally formed a part of our June 2002 issuance of 9.00% equity security units, which include obligations to purchase our common stock on August 16, 2005. Pursuant to the terms of these securities, the notes were being remarketed, separately from the equity security units, on behalf of their holders. Our remarketing agent will have two more opportunities to remarket the notes prior to August 16, 2005. If the remarketing agent remains unable to remarket the notes at commercially reasonable rates, then notes that have not been separated from the equity security units will ultimately be cancelled in satisfaction of holders' stock purchase obligations.

The notes were offered in the United States to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933 and to persons outside the United States under Regulation S under the Securities Act. The notes have not been registered under the Securities Act and may not be offered or sold in the United States without registration or an applicable exemption from the registration requirements.
