WIMM-BILL-DANN FOODS OJSC ANNOUNCES

9 MONTHS 2002 FINANCIAL RESULTS

Sales and Gross Margin Growth Maintained

Moscow, Russia December 4, 2002 Wimm-Bill-Dann Foods OJSC [NYSE: WBD] today announced its financial results for the nine months ended September 30, 2002.

During the first 9 months of 2002, Wimm-Bill-Dann's sales increased by 20.3% compared to the same period of last year. Gross margins grew by 3.2% compared to the first nine months of 2001, which has been made possible by the lower cost of raw milk and economies of scale. At the same time, there has been an anticipated growth in sales and distribution expenses. Strong growth was demonstrated on the operating income level, at 8.7% year-on-year, and net income grew by 2.6% compared to the first nine months of 2001. EBITDA also demonstrated a positive trend, going up by 11.1%.

Sergei Plastinin, CEO of Wimm-Bill-Dann Foods OJSC, said: "We have been actively pursuing growth, and plan to keep expanding in the future. At the same time, we intend to contain various cost elements by being more creative on the advertising front, further improving our approach to supply chain management, enhancing our IT infrastructure and closely monitoring our costs on an ongoing basis."

For the 9m 2002, Wimm-Bill-Dann sales amounted to US\$592.4 million compared to

US\$492.5 million in the 9m 2001.

Sales in Wimm-Bill-Dann's Dairy Segment grew by 14.0% from US\$356.8 million in 9m 2001 to US\$406.6 million in 9m 2002, which is primarily due to an enhanced regional presence and natural growth of the segment mostly through volume growth.

Sales in Wimm-Bill-Dann's Juice Segment increased 36.9% from US\$135.7 million in the 9m 2001 to US\$185.7 million in the 9m 2002, primarily as a result of sales volume increase.

The overall gross margins showed an increase of 3.2% primarily due to the lower cost of raw milk. Other factors, such as better terms with suppliers and economies of scale, also contributed to this positive tendency.

Selling and distribution expenses increased year-on-year in 9m 2002 due to higher transportation and warehousing costs, advertising and marketing expenses and personnel expenses.

Establishing a proprietary distribution network as a result of regional expansion, accompanied by the increase in transportation tariffs, played a significant role in the overall cost increase. Furthermore, new warehousing facilities were leased to satisfy growth in volumes. Personnel costs grew both from overall wage increases in Russia and increased number of employees caused by regional expansion.

In response to a more competitive advertising environment, we deliberately increased our advertising and marketing budget as a percentage of sales, in an effort to increase our brand awareness and improve our positioning. Soaring TV advertising rates, which, according to the market statistics, rose approximately 50% year-on-year, also contributed to the growth of this expense category.

General and administrative expenses, including personnel and professional services, increased compared to the same period of last year by 17.4%, primarily as a result of higher requirements imposed upon us as a public company.

EBITDA demonstrated a positive trend of 11.1% increase as compared to the first 9 months of 2001. EBITDA margin was 12.2%.

The company's management will discuss its nine months 2002 results in a conference call on December 4, 2002 at 5 pm Moscow time (9 am EDT in New York). Please refer to the attached list for details of the call.
