Sylvan Learning Systems, Inc. 401(k) Retirement Savings Plan
Baltimore, Maryland

We have audited the accompanying statements of net assets available for benefits of the Sylvan Learning Systems, Inc. 401(k) Retirement Savings Plan as of December 31, 2002 and 2001, and the related statement of changes in net assets available for benefits for the year ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2002 and 2001, and the changes in its net assets available for benefits for the year ended December 31, 2002, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2002 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Sylvan Learning Systems, Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements

December 31, 2002

1. Significant Accounting Policies

Basis of Accounting

The financial statements of the Sylvan Learning Systems, Inc. (the Company or Plan Sponsor) 401(k) Retirement Savings Plan (the Plan) are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Sylvan Learning Systems, Inc. common stock is valued at the last reported sales price on the last business day of the plan year. The units of the collective trust and shares of the mutual funds are valued at fair value as determined by Putnam Fiduciary Trust Company and quoted market prices, respectively. Participant loans are carried at their unpaid principal balance, which approximates fair value.

Realized gains or losses on the sale of investments are computed as the difference between the proceeds received and the average cost of investments held. The change in the difference between cost and fair value, including realized gains and losses, is included in the statement of changes in net assets available for benefits as net appreciation or depreciation in the fair value of investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administration Expenses

All costs and expenses incurred in connection with the administration of the Plan are paid by the Company.

2. Plan Description

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions. Copies of this summary are available from the Company's Human Resources Department.

General

The Plan is a defined contribution plan covering substantially all employees of the Company, Chancery Software Limited (a 42%-owned investment of Sylvan Ventures, which is a consolidated subsidiary of the Company) and as of July 1, 2002, Walden University (a 51%-owned investment of Sylvan Ventures, which is a consolidated subsidiary of the Company) who have completed 30 days of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All investment programs are fully participant-directed. At December 31, 2002, the Plan offers 15 investment options into which participants may direct their investments. Participants have the opportunity to change their investment options daily.

On June 15, 2001, Caliber Learning Network, Inc. (Caliber), a 36%-owned investment of Sylvan Ventures, filed for Chapter 11 bankruptcy protection. The majority of Caliber employees were terminated in 2001 due to the bankruptcy filing, which resulted in a partial plan termination. In connection with this partial plan termination, all affected participants become fully vested in the Company discretionary matching contributions.

Plan Transfers

As a result of the acquisition in March 2002 of OnlineLearning.net, \$157,780 in net assets were transferred into the Company's Plan from the OnlineLearning.net 401(k) Plan. The amount of this transfer is shown as a transfer from other plan on the accompanying statement of changes in net assets available for benefits.

Contributions

Participants may contribute any percentage of their pretax annual compensation, subject to certain annual limitations imposed by the Internal Revenue Code. In addition, employees may rollover distributions received from other plans. The Company makes a discretionary matching contribution in shares of Sylvan Learning Systems, Inc. common stock equal to a percentage of the amount of the compensation that the participant elected to contribute, up to a maximum of 6% of the participant's compensation. The matching contribution percentages for 2002 and 2001 were 50% of the first 3% and 25% on the next 3% of eligible compensation. Additional discretionary contributions may be made at the option of the Company. There were no additional discretionary contributions made by the Company in 2002.

Participant Accounts

Each participant account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of additional Company discretionary contributions related to terminated participants' nonvested accounts, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Effective January 1, 2001, the Plan's vesting policy was amended such that vesting in the Company's discretionary matching contributions plus earnings thereon is based on years of continuous service at a rate of 33-1/3% per year, including the first year of service. A participant is 100% vested after three years of service. Prior to January 1, 2001, vesting was on the basis of 20% per year including the first year of service, with 100% vesting after five years of service.

Participant Loans

Participants may borrow from their account balances a minimum of \$1,000, up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Principal and interest are repaid ratably through payroll deductions over loan terms, which generally do not exceed five years.

Payment of Benefits

Participants may withdraw voluntary after tax contributions, qualified rollovers, and transfers into the plan, and earnings thereon, at any time. Pre-tax deferrals may be withdrawn upon attaining age 59 ½, for reasons of hardship, or employment termination. All types of employee contributions may be withdrawn upon termination of employment. On termination of service, a participant may receive a lump sum amount equal to the vested value of his or her account, or upon death, disability, or retirement, elect to receive a life annuity, joint and survivor annuity or periodic installments, in accordance with plan provisions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

3. Investments

Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.
