**d) Minimum and maximum consideration for the acquisitions:** The consideration of the acquisition should fall within an interval of twenty percent less than the lowest trading price and twenty percent more than the average trading price, respectively, of the shares to be acquired on the Eurolist by Euronext Lisbon during the 5 stock exchange sessions immediately preceding the date of acquisition or the creation of the right of acquisition or allocation of shares, or should correspond to the acquisition price resulting from any contracted financial instruments, to the terms of issue, by the Company or any dependent company, of securities convertible in or exchangeable for Company shares, or to contracts entered into in connection with such conversions or exchanges;

other securities;

**b) Term during which the transfer may be made:** Eighteen months, as of the present resolution;

**c) Form of disposal:** Subject to the terms and mandatory limits established by law, disposal for consideration in any form, notably by sale or exchange, to be made on a regulated market or over-the-counter to certain entities designated by the management board of the disposing company, in compliance with the principle of equal treatment of shareholders as established by law, notably to financial institutions counter-parties to equity swap agreements or other similar financial derivative instruments, or where the disposal is resolved within the framework of, or in connection with, a proposal of application of profits or distribution of reserves in kind, without prejudice to, in case of any disposal in fulfilment of an obligation or arising from the issuance of other securities by the Company or a dependent company, or of contracts related to such issuance, or contractual bond to implement a stock option plan of the Company, to be carried out in accordance with the applicable terms and conditions;

The Board of Directors,

**ANNUAL GENERAL MEETING OF SHAREHOLDERS**

**PORTUGAL TELECOM, SGPS, S.A.**

28 March 2008

**PROPOSAL OF THE BOARD OF DIRECTORS**

**ITEM 8 ON THE AGENDA:**

*(To resolve, pursuant to paragraph 4 of article 8 of the Articles of Association, on the parameters applicable in the event of any issuance of bonds convertible into shares that may be resolved upon by the Board of Directors)*

Whereas:

- A) The convenience of safeguarding the possibility for the Company to strengthen its shareholders' equity, aiming at sizing the same to adequate levels that enable sustaining the Company's future business plans, which requires resorting to public funds on a diversified and broad funding basis;
- B) The internationalisation and diversification of the Company's funding sources and shareholding base reinforces the stability and autonomy of the Company, the promotion of which is of the utmost corporate interest;
- C) Within this context, it appears convenient to keep options open for a possible new issue, by a wholly owned subsidiary of Portugal Telecom, SGPS, S.A., and possibly with a guarantee or support from the latter, of bonds or other securities to be placed notably with specialised segments of international institutional investors, securities which, under certain conditions, may grant the investors the right of exchange for Portugal Telecom, SGPS, S.A.'s ordinary shares (exchangeable securities), thus repeating the experience of three prior issues with considerable international success;
- D) In order to preserve such flexibility, it is important to create the legal mechanisms that will enable such wholly owned subsidiary carrying out such issue of exchangeable securities to have access to such ordinary shares of Portugal Telecom, SGPS, S.A. as may be required to fulfil the exchanges that would take place;
- E) Within the Portuguese legal framework, and as in the three issues of convertible securities previously undertaken by Portugal Telecom International Finance, B.V., the said capacity of the subsidiary issuing exchangeable securities to have access to the ordinary shares, if and when required, in order to fulfil its obligations for an optional exchange by the investors involves a resolution to issue and place at the service of such international issuance an adequate number of Portugal Telecom, SGPS, S.A.'s convertible bonds that may give rise, at such times and quantities as needed, to new shares;

- F) The possibility of implementing said issue also requires, as provided for in the Articles of Association, that the parameters applicable to the issuance of Portugal Telecom, SGPS, S.A.'s convertible bonds supporting the international issuance of exchangeable securities by a subsidiary be henceforth approved by the General Meeting of Shareholders, without prejudice to any possible subsequent readjustments;
- G) Additional flexibility may be assured by means of a resolution conferring to the Board of Directors the power to decide the time of the issuance, in one or more series;
- H) Under the terms of subparagraph 4, a) and paragraph 5 of article 349 of the Portuguese Companies Code, companies whose shares are admitted to trading on a regulated market and have issued bonds may not reduce their share capital to an amount below its debt to the bond holders, unless by virtue of losses;

We propose that it be resolved:

- 1) To approve the possible issue by Portugal Telecom, SGPS, S.A. of convertible bonds approved by resolution of the Board of Directors, as provided for in the law and in the Articles of Association, and in accordance with the following principal parameters, without prejudice to any adaptation or development as may be resolved by the Board of Directors, notably considering the final characteristics of the issuance of exchangeable securities that it may support:

**a) Amount of the issue:** Up to the maximum aggregate amount of or the currency equivalent of 1,000,000,000 Euros.

**b) Interest rate:** To be defined in accordance with the market conditions on the date of the issuance.

**c) Redemption:** A single final maturity at par, with possibility for a provision for early redemption at the option of the issuer, in particular as from the end of the third year.

**d) Conversion bases:** *The number of bonds required for conversion of the bonds nominal amount in cash into one share shall be determined by the conversion price, calculated by adding a conversion premium to the market price on the domestic stock exchange of one share at the time of the issuance.*

The anticipated conversion premium, to be adjusted at the time of the issuance in accordance with market conditions, shall not be less than 20% of the trading price considered, which can, namely, be the Eurolist by Euronext Lisbon closing price for the session immediately before the date of issuance (or of the issuance of the first series), subject to anti-dilution clauses customary in the market.

The conversion price initially defined shall prevail during the whole period of the issue, without prejudice to any possible readjustment by application of anti-dilution clauses customary in the market, in situations regulated in the issuance resolution and under the terms or formulas stipulated therein.

e) **Potential capital increase:**      **The maximum number of ordinary shares that can be initially issued in the increase or increases of capital implicit in the resolution of issuance of the convertible bonds may not exceed the equivalent to 15% of Portugal Telecom, SGPS, S.A.'s share capital at the date of the resolution, without prejudice to the possibility of being exceeded at a later time as a result of subsequent readjustments to the conversion price referred to in the foregoing paragraph.**

f) *Terms of the conversion:*      *The conversion may be requested daily, as from an initial term stipulated in the resolution of issuance, such periods of time stipulated in the resolution of issue being deemed a conversion period in accordance with and for the purposes of subparagraph 1, b) and subparagraph 3, a) of article 370 of the Portuguese Companies Code.*

g) Class:      The conversion shall be made exclusively with ordinary shares.

h) Issue:      In one issuance only or in series, as determined by the Board of Directors.

- 2) To approve forthwith, as a result of the issuance of convertible bonds under the final terms as stipulated, such capital increase or increases as may be required to meet any requests for conversion that may be submitted.
- 3) That the implementation of this resolution be articulated with the implementation of the resolution to reduce the share capital through a share buyback programme taken under item 7 on the agenda, in order to assure the compliance with the limit established by paragraph 5 of article 349 of the Portuguese Companies Code.

**PROPOSAL OF THE BOARD OF DIRECTORS**

**ITEM 9 ON THE AGENDA:**

*(To resolve on the suppression of the pre-emptive right of shareholders in the subscription of any issuance of convertible bonds as referred to under item 8 hereof as may be resolved upon by the Board of Directors)*

**Whereas:**

- A) The resolution taken by this General Meeting, within the context of item 8 on the agenda on the approval of parameters for the issuance of convertible bonds to be resolved by the Board of Directors;
- B) The content of the explanatory report produced by the Board of Directors pursuant to subparagraph 2, c) of article 366, paragraph 2 of article 367 and article 460 of the Portuguese Companies Code;

**We propose that it be resolved:**

- 1) That, bearing in mind that any issuance of convertible bonds as may be resolved by the Board of Directors, whose parameters and implicit share capital increase have been approved within the framework of item 8 on this General Meeting's agenda, is intended to support the issuance to be made by a wholly owned subsidiary of Portugal Telecom, SGPS S.A. as provided therein, the shareholders pre-emptive right in the subscription for such possible issuance of convertible bonds be suppressed;
- 2) That, therefore, such possible issuance be intended for subscription in its entirety by a wholly owned subsidiary of Portugal Telecom, SGPS S.A. that will effect, in the international market, an issuance of securities exchangeable for ordinary shares of Portugal Telecom, SGPS S.A., in particular the company Portugal Telecom International Finance, B.V., or another company wholly owned, directly or indirectly, by Portugal Telecom, SGPS S.A., either existing or to be incorporated, or by a financial institution undertaking to place said convertible bonds in connection with the fulfilment of requests for exchange arising from such issuance.

Lisbon, 13 February 2008

The Board of Directors,

**ANNUAL GENERAL MEETING OF SHAREHOLDERS**

**PORTUGAL TELECOM, SGPS S.A.**

28 March 2008

**REPORT IN RESPECT OF ARTICLES 366-2(C), 367 AND 460-5**

**OF THE PORTUGUESE COMPANIES CODE**

**I**

**EXPLANATION OF THE PROPOSAL FOR SUPPRESSION**

**OF THE PRE-EMPTIVE RIGHT**

The Company considers a possible issue, by a wholly owned subsidiary of Portugal Telecom, SGPS S.A., and with a guarantee by the latter, of bonds conferring under certain conditions to investors the right of exchange for ordinary shares in Portugal Telecom, SGPS S.A..

In this way, in order to guarantee the viability of the issuance and to support the same, we hereby submit to the appraisal and approval of the General Meeting of Shareholders of Portugal Telecom, SGPS S.A. a proposal concerning the possible issuance, by a wholly owned subsidiary of Portugal Telecom, SGPS S.A., and with a possible guarantee or support from the latter, of bonds or other securities to be placed namely with specialised segments of international institutional investors, securities which under certain conditions may grant to the investors the right of conversion or exchange for Portugal Telecom, SGPS S.A.'s ordinary shares (exchangeable securities).

In the form proposed by the Board of Directors a proposal that, together with this report, is available to the shareholders within the legal period preceding the date of the General Meeting of shareholders and is deemed as reproduced herein the convertible bond issue will imply a necessary suppression of the pre-emptive right of the shareholders relying on reasons of corporate interest that seem to unequivocally justify and advise the adoption of the same.

Multiple reasons caused the selection and proposal to the shareholders as regards the exclusion of their pre-emptive right of this particular form of fund raising, should the need for such fund raising be justified, the form of which obviously implies in itself that it be entirely directed outside

the circle of existing shareholders.

Firstly, it is important to take into account that the expansion of shareholders' equity in Portugal Telecom, SGPS S.A. that may prove to be necessary or convenient as a function of the Company's business plans, which is aimed at a magnitude of shareholders' equity adequate to permit support of the same, has required, and will continue to require, that we appeal for funds from the public that, given the continuous increase in the size of this institution, demands an increasingly wider and diversified fundraising basis.

In this way, in view of the current situation and absorption capacity of the domestic capital markets, in particular the convertible securities investors' market, it now becomes imperative to evaluate the placement, namely in the international market with specialist segments of institutional investors, of securities issuances having the size of this one, with characteristics that, without excessive limitations by rigid factors associated with the internal markets, may be adjusted to those of the financial products usually accepted by those markets.

Furthermore, the public raising of significant funds in the foreign markets always results in a further spreading of the image of the issuer and its visibility in the financial community and international markets (notably by way of the qualified research it originates, and of the means used for the promotion of the issuance), thus reinforcing its international prestige and credibility and its negotiation capacity as a participant in such international markets.

Thirdly, taking into account the actual conversion that will be made, it should be stressed that the continuation of the internationalisation and diversification of Portugal Telecom, SGPS S.A.'s shareholder basis is a favourable element in the reinforcement of the stability and autonomy that it is of the utmost corporate interest to develop and to this the issuance subject to authorization strongly contributes both as to the geographical dispersion and as to the diversification of the type of investors, thus creating and reinforcing an additional market capable of increasing the liquidity of the securities and constituting an added space to resort to in future funding needs.

## II

### FORM OF ALLOCATION AND RELEASE CONDITIONS OF CONVERTIBLE BONDS

The convertible bonds to be issued shall be entirely intended for initial subscription by a subsidiary of Portugal Telecom, SGPS S.A., namely Portugal Telecom Internacional Finance B.V. or another company already incorporated or to be incorporated (or by a financial institution, namely acting under instructions of such company as issue agent), which will promote in the international market an issuance of securities exchangeable for ordinary shares of Portugal Telecom, SGPS S.A..

All the bonds making up the issue will be entirely released at the time of the subscription.

## III

### ISSUE PRICE AND CRITERIA FOR ITS DETERMINATION

The issue price of the convertible bonds shall be equal to their nominal value, i.e. the bond will be issued at par, in the nominal value of 5,000 Euros each or otherwise as established under the final conditions of the issue, in such a way as to adjust it to the final value at the international issuance it aims to support.

## Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

As to the bases of any conversion into shares of the bonds issued, it is important, first and foremost, to bear in mind that, given the characteristics and purposes of the transaction, these are not conversion bases with an external range, i.e. addressed to the market, but instrumental conversion bases, i.e. merely addressed to providing the subsidiary issuing the exchangeable securities on the market the access to the necessary shares. However, although the conversion price in question merely defines the internal relationship between both issuances, it is convenient for this issuance to mirror as much as possible (with subsequent adjustment if necessary) the final conditions of the issuance that will be placed in the market by Portugal Telecom, SGPS S.A.'s subsidiary.

In this way, with this instrumental nature and possibly even in anticipation of the final conditions of the issuance to be placed in the market and as set out on the proposal submitted to the General Meeting of shareholders, the number of bonds required for conversion into one share will be determined by the conversion price, calculated by adding a conversion premium to the market price in the domestic stock exchanges of one share in Portugal Telecom, SGPS S.A., at the time of issuance.

## Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

The issue premium will correspond to an interval determined by market conditions, but in any event it is not expected to be less than 20% of the value of the relevant trading price.

The conversion price as thus initially defined will prevail during the whole period of life of the issuance, without prejudice to any possible automatic readjustment in certain instances to be regulated under the issue conditions (e.g. structural changes to the issuers), and according to the formulas stipulated therein.

In any case, the amount of the increase in the initial implied capital cannot exceed an amount equivalent to 15% of the share capital in Portugal Telecom, SGPS S.A. on the date of the resolution, without prejudice to the possibility of it being subsequently exceeded as a result of later conversion price readjustments as referred to in the foregoing paragraph.

*(To resolve on the issuance of bonds and other securities, of whatever nature, by the Board of Directors, and namely on the fixing of the value of such securities in accordance with paragraph 3 of article 8 and subparagraph 1, e) of article 15 of the Articles of Association)*

**Whereas:**

The provisions of paragraph 3 of article 8 and subparagraph 1, e) of article 15 of the Articles of Association and the possible investment requirements of the Company, as well as a desirable flexibility in the Company's management until the next Annual General Meeting of Shareholders;

**We propose that it be resolved:**

To fix at 3,000,000,000 Euros, or its equivalent in another currency or currencies at the date of issue, the amount provided in paragraph 3 of article 8 and subparagraph 1, e) of article 15 of the Articles of Association for issuance by the Company, by resolution of the Board of Directors, of bonds, in any form, or other debt instruments, including hybrid instruments, alone or (with respect to the portion concerning the Company) jointly with one or more companies in which the Company holds, directly or indirectly, over 50% of the respective voting share capital, without prejudice to any issues made by such companies, with the exception of convertible bonds and bonds or other securities convertible into or exchangeable for Portugal Telecom, SGPS S.A. shares, and bonds or other securities conferring a right to subscribe for shares of Portugal Telecom, SGPS S.A., as to which, even where issued by a dependent company, the limits approved in each case by the General Meeting shall apply should the said Meeting resolve to stipulate such limits, and the parameters approved under the provisions of paragraph 4 of article 8 of the Articles of Association being applicable as regards the Company.

In addition to the amount established herein, the Company may also issue convertible bonds as resolved under item 10 on the agenda of the General Meeting of Shareholders of 27 April 2007, in order to satisfy the exchange request that may be made by the holders of the bonds exchangeable for shares of the Company which were issued by the subsidiary Portugal Telecom International Finance B.V., in the total amount of 750,000,000 Euros.

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

Pending a new resolution of the General Meeting, the amount hereby fixed shall be valid until exhausted, with such value being deemed increased by repayments or extinction of securities effected, and, in the case of commercial paper programmes, only the portion of the maximum overall amount of the programmes contracted (or any renewal or substitution thereof) being used from time to time, always deducting any repayments made, shall be relevant as to the use of the amount set forth in the first paragraph of this resolution.

**ITEM 11 ON THE AGENDA:**

*(To resolve on the acquisition and disposal of own bonds and other own securities)*

**Whereas:**

- A) *It is convenient to the Company and its dependent companies to be able to continue to make use, in accordance with the law and current practice applicable to each company, the possibilities inherent in transactions with own bonds;*
- B) Bearing in mind the characteristics of the bonds that can be issued by the Company, including in connection with the issuance of convertible or exchangeable securities made by the Company or any of its dependent companies;

**We propose that it be resolved:**

- 1) To approve, in any case where approval is legally required and subject to a resolution of the management board, the acquisition of own bonds, already issued or to be issued, in any form, under the following terms:
  - a) **Maximum number of bonds to be acquired:** a number corresponding to the total of each issuance, without prejudice to the limits stipulated by law, and deducting any transfers made;
  - b) **Term during which the acquisition may be made:** Eighteen months, as of the present resolution;
