NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(amounts in thousands, except per share data)

Note 1. Basis of Presentation

The accompanying consolidated financial statements of HRPT Properties Trust and its subsidiaries have been prepared without audit. Certain information and footnote disclosures required by accounting principles generally accepted in the United States for complete financial statements have been condensed or omitted. We believe the disclosures made are adequate to make the information presented not misleading. However, the accompanying financial statements should be read in conjunction with the financial statements and notes contained in our Annual Report on Form 10-K for the year ended December 31, 2007. In the opinion of management, all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation, have been included. All intercompany transactions and balances between HRPT Properties Trust and its subsidiaries have been eliminated. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year. Reclassifications have been made to the prior years' financial statements to conform to the current year's presentation.

In September 2006, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards No. 157, Fair Value Measurement, or SFAS No. 157, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurement. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. As required, we adopted SFAS No. 157 on January 1, 2008 and have concluded that the effect is not material to our consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations, or SFAS 141(R). SFAS 141(R) establishes principles and requirements for how the acquirer shall recognize and measure in its financial statements the identifiable assets acquired, liabilities assumed, any noncontrolling interest in the acquiree and goodwill acquired in a business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008. We are currently evaluating the effect that the adoption of SFAS 141(R) will have on our consolidated financial statements.

Note 2. Real Estate Properties

During the six months ended June 30, 2008, we acquired three office properties for \$176,750, excluding closing costs, and we funded \$25,967 of improvements to our owned properties using cash on hand, borrowings under our revolving credit facility and the assumption of \$30,639 of secured mortgage debt.

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

On May 5, 2008, we entered into a series of purchase and sale agreements with Senior Housing Properties Trust for the sale of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565,000. We sold five of these properties in June 2008 for \$83,779, excluding closing costs, and recognized gains totaling \$39,967. We expect the sales of the remaining 43 properties to occur during the next three quarters. These sales are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, waiver of any rights of first refusal held by certain tenants, and financing contingencies relating to certain properties. Accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur.

In June 2008, we also agreed to sell one additional office property for \$15,000. All properties under contract for sale as of June 30, 2008, are classified as held for sale on our consolidated balance sheet. Results of operations for properties under contract for sale or sold as of June 30, 2008, are included in discontinued operations in our consolidated statements of income. Summarized balance sheet and income statement information for properties under contract for sale or sold as of June 30, 2008, is as follows:

Note 3. Indebtedness

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

In January 2008, we prepaid, at par, \$28,600 of 8.50% mortgage debt due in 2028, using cash on hand and borrowings under our revolving credit facility.

In June 2008, we assumed \$30,639 of secured mortgage debt in connection with an acquisition. This mortgage debt bears interest at 7.435%, requires monthly principal and interest payments and matures in 2011.

We have a \$750,000 unsecured revolving credit facility that we use for acquisitions, working capital and general business purposes. The interest rate on this facility averaged 3.5% and 5.9% per annum, for the six months ended June 30, 2008 and 2007, respectively. As of June 30, 2008, we had \$301,000 outstanding and \$449,000 available under our revolving credit facility.

Our public debt indentures and credit facility agreement contain a number of financial and other covenants, including a credit facility covenant which limits the amount of aggregate distributions on common shares to 90% of operating cash flow available for shareholder distributions as defined in the credit facility agreement. We believe that we are in compliance with these financial and other covenants.

Note 4. Earnings per Common Share

Earnings per common share, or EPS, is computed pursuant to the provisions of Statement of Financial Accounting Standards No. 128. The effect of our convertible preferred shares on income from continuing operations available for common shareholders per share is anti-dilutive for the periods presented. The following table provides a reconciliation of both net income and the number of common shares used in the computations of basic and diluted EPS:

Note 5. Segment Information

As of June 30, 2008, we owned 320 office properties and 169 industrial and other properties, excluding properties held for sale. We account for all of these properties in geographic operating segments for financial reporting purposes based on our method of internal reporting. We define these individual geographic segments as those which currently, or during either of the last two quarters, represent or generate 5% or more of our total square feet, revenues or property net operating income. Property level information by geographic segment and property type, excluding properties held for sale or sold, as of and for the three and six months ended June 30, 2008 and 2007 is as follows:

The table below reconciles our calculation of property net operating income, or NOI, to net income, the most directly comparable financial measure under generally accepted accounting principles, or GAAP, reported in our consolidated financial statements for the three and six months ended June 30, 2008 and 2007. We consider NOI to be appropriate supplemental information to net income because it helps both investors and management to understand the operations of our properties. We use NOI internally as a performance measure and believe NOI provides useful information to investors regarding our results of operations because it reflects only those income and expense items that are incurred at the property level. Our management also uses NOI to evaluate individual, regional and company wide property level performance. NOI excludes certain components from net income in order to provide results that are more closely related to our properties' results of operations. NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered an alternative to net income, net income available for common shareholders or cash flow from operating activities as a measure of financial performance. A reconciliation of NOI to net income for the three and six months ended June 30, 2008 and 2007 is as follows:

Note 6. Subsequent Events

In July 2008, we declared a distribution of \$0.21 per common share, or approximately \$47,800, to be paid on or about August 25, 2008, to shareholders of record on July 25, 2008. We also announced a distribution on our series B preferred shares of \$0.5469 per share, or \$3,828, a distribution on our series C preferred shares of \$0.4453 per share, or \$2,672, and a distribution on our series D preferred shares of \$0.4063, or \$6,167, which will be paid on or about August 15, 2008, to our preferred shareholders of record as of August 1, 2008.

This acquisition was funded with cash on hand, the assumption of \$8,915 of mortgage debt, borrowings under our revolving credit facility and the issuance of 2,153.9 shares of our common stock.

In July 2008, we sold three properties with 152 square feet of space for \$39,051, excluding closing costs. In connection with these sales, the buyer assumed mortgage notes totaling \$10,804.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and tables should be read in conjunction with our consolidated financial statements and notes thereto included in this quarterly report and our Annual Report on Form 10-K for the year ended December 31, 2007.

OVERVIEW

We primarily own office buildings located throughout the United States. We also own approximately 17 million square feet of leased industrial and commercial lands located in Oahu, Hawaii.

Property Operations

As of June 30, 2008, 90.9% of our total square feet was leased, compared to 92.7% leased as of June 30, 2007. These results exclude properties under contract for sale and primarily reflect the 2.2 percentage point decrease in occupancy at properties we owned continuously since January 1, 2007. Occupancy data for 2008 and 2007 is as follows (square feet in thousands):

	All Properties (1) As of June 30,		Comparable Properties (1)(2) As of June 30,	
	2008	2007	2008	2007
Total properties	489	475	455	455
Total square feet	63,438	61,366	57,465	57,465
Percent leased (3)	90.9%	92.7%	90.3%	92.5%

(1) Excludes properties under contract for sale as of June 30, 2008.

(2) Based on properties owned continuously since January 1, 2007.

(3) Percent leased includes (i) space being fitted out for occupancy pursuant to signed leases and (ii) space which is leased, but is not occupied or is being offered for sublease by tenants.

During the three months ended June 30, 2008, we signed lease renewals for 1,316,000 square feet and new leases for 379,000 square feet, at weighted average rental rates that were 9% above rents previously charged for the same space. Average lease terms for leases signed during the three months ended June 30, 2008 were 5.6 years. Commitments for tenant improvement and leasing costs for leases signed during the three

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

months ended June 30, 2008 totaled \$13.3 million, or \$7.84 per square foot (approximately \$1.40/sq. ft. per year of the lease term).

During the past twelve months, leasing market conditions in some of our markets have begun to show some weakness. The pace of new leasing activity and the leasing of currently vacant space within our portfolio has slowed and completion of newly constructed office properties in certain markets has increased, causing our occupancy to decline. Required landlord funded tenant build outs and leasing commissions payable to tenant brokers for new leases and lease renewals have generally remained unchanged over the past twelve months, but are starting to increase in certain markets in 2008. These build out costs and leasing commissions are generally amortized as a reduction of our income during the terms of the affected leases. Also, some tenants and prospective tenants have demonstrated reluctance to enter lease renewals or new leases for extended terms. We believe that some decreases in occupancy and effective rents may further reduce the financial results at some of our currently owned properties. However, there are too many variables for us to reasonably project what the financial impact of market conditions will be on our results for future periods.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Approximately 9.7% of our leased square feet and 12.6% of our rents are included in leases scheduled to expire through December 31, 2009. Lease renewals and rental rates at which available space may be relet in the future will depend on prevailing market conditions at that time. Lease expirations by year, as of June 30, 2008, are as follows (square feet and dollars in thousands):

Our principal source of funds for our operations is rents from tenants at our properties. Rents are generally received from our non-government tenants monthly in advance, and from our government tenants monthly in arrears. As of June 30, 2008, tenants responsible for 1% or more of our total rent were as follows (square feet in thousands):

(2) Rent is pursuant to signed leases as of June 30, 2008, plus estimated expense reimbursements; includes some triple net lease rents and excludes lease value amortization. Excludes properties classified in discontinued operations.

Investment Activities

During the six months ended June 30, 2008, we acquired three office properties with 1,252,000 square feet of space for \$176.8 million, excluding closing costs and allocated intangibles. At the time of acquisition, these properties were 92.5% leased and yielded approximately 9.0% of the aggregate gross purchase price, based on estimated annual net operating income, or NOI, which we define as property rental income less property operating expenses on the date of closing. We also sold five office properties containing 449,000 square feet of space for \$83.8 million, and recognized gains totaling \$40.0 million.

Financing Activities

In January 2008, we prepaid, at par, \$28.6 million of 8.50% mortgage debt due in 2028, using cash on hand and borrowings under our revolving credit facility. In June 2008, we assumed \$30.6 million of secured mortgage debt in connection with an acquisition. This mortgage debt bears

interest at 7.435%, requires monthly principal and interest payments and matures in 2011.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Rental income. Rental income increased for the three months ended June 30, 2008, compared to the same period in 2007, primarily due to increases in rental income from our Other Markets segment, offset by a decrease in rental income from our Metro Philadelphia, PA and Metro Boston, MA segments, as described in the segment information footnote to our consolidated financial statements. Rental income from our Other Markets segment increased \$9.0 million, or 9%, primarily because of our acquisition of 27 properties since March 2007. Rental income from our Metro Philadelphia, PA market decreased \$1.4 million, or 5%, primarily due to the decrease in occupancy in 2008. Rental income from our Metro Boston, MA market decreased \$1.6 million, or 12%, primarily due to the decrease in occupancy in 2008, partially offset by rental income from property acquisitions since March 2007. Rental income includes non-cash straight line rent adjustments totaling \$3.3 million in 2008 and \$3.3 million in 2007 and amortization of acquired real estate leases and obligations totaling (\$2.4) million in 2008 and (\$2.8) million in 2007. Rental income also includes lease termination fees totaling \$1.2 million in 2008 and \$31,000 in 2007.

Total expenses. The increase in total expenses primarily reflects our acquisition of properties since March 2007. The increase in depreciation and amortization expense also reflects building and tenant improvement costs incurred throughout our portfolio since March 2007.

Interest expense. The increase in interest expense in 2008 reflects an increase in average total debt outstanding which was used primarily to finance acquisitions in 2008 and 2007, partially offset by a decrease in floating interest rates.

Loss on early extinguishment of debt. The loss on early extinguishment of debt in 2007 relates to the write-off of deferred financing fees associated with the repayment of \$200 million of our floating rate senior notes in June 2007.

Income from continuing operations. The decrease in income from continuing operations is due primarily to the increase in depreciation and amortization expense and a decrease in occupancy, partially offset by income from acquisitions in 2008 and 2007.

Income from discontinued operations. Income from discontinued operations represents operating results from five office properties sold in June 2008, 44 properties under contract to be sold and one office property sold in 2007.

Gain on sale of properties. We recognized gains totaling \$40.0 million on the sale of five office properties in June 2008 for \$83.8 million, excluding closing costs.

Net income and net income available for common shareholders. The increase in net income and net income available for common shareholders is due primarily to the gain on sale of properties recognized in 2008 and income from acquisitions in 2008 and 2007, offset by an increase in

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

depreciation and amortization expense and a decrease in occupancy. Net income available for common shareholders is net income reduced by preferred distributions. The decrease in preferred distributions reflects the partial redemption of our 8 ¾% series B preferred shares in November 2007.

Rental income. Rental income increased for the six months ended June 30, 2008, compared to the same period in 2007, primarily due to increases in rental income from our Oahu, HI and Other Markets segments, offset by a decrease in rental income from our Metro Boston, MA segment, as described in the segment information footnote to our consolidated financial statements. Rental income from our Oahu, HI market increased by \$2.1 million, or 7%, due to an increase in weighted average rental rates for new leases and lease renewals signed during 2007 and 2008. Rental income from our Other Markets segment increased \$16.6 million, or 9%, primarily because of the acquisition of 30 properties since December 2006. LIQUIDITY AND CAPITAL RESOURCES

Our Operating Liquidity and Resources

Our principal sources of funds for current expenses and distributions to shareholders are rents from our properties. This flow of funds has historically been sufficient for us to pay our operating expenses, debt service and distributions. We believe that our operating cash flow will be sufficient to meet our operating expenses, debt service and distribution payments for the foreseeable future. Our future cash flows from operating activities will depend primarily upon the following factors:

- our ability to maintain or improve occupancies and effective rental rates at our properties;
- our ability to restrain operating cost increases at our properties; and
- our ability to purchase new properties which produce positive cash flows from operations.

We believe that present leasing market conditions in some areas where our properties are located may result in decreases in occupancies and effective rents, or gross rents less amortization of landlord funded tenant improvements and leasing costs. Recent rises in fuel prices may cause our future operating costs to increase; however, the impact of these increases is expected to be partially offset by the pass-through of operating cost increases to our tenants pursuant to lease terms. We generally do not purchase turnaround properties or properties which do not generate positive cash flows. Our future purchases of properties which generate positive cash flows can not be accurately projected because such purchases depend upon available opportunities which come to our attention.

Cash flows provided by (used for) operating, investing and financing activities were \$165.7 million, (\$159.7) million and \$7.4 million, respectively, for the six months ended June 30, 2008, and \$132.7 million, (\$238.2) million and \$116.8 million, respectively, for the six months ended June 30, 2007. Changes in all three categories between 2008 and 2007 are primarily related to property acquisitions in 2008 and 2007, and repayments and issuances of debt obligations.

Our Investment and Financing Liquidity and Resources

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

In order to fund acquisitions and to accommodate cash needs that may result from timing differences between our receipt of rents and our desire or need to make distributions or pay operating or capital expenses, we maintain an unsecured revolving credit facility with a group of institutional lenders. At June 30, 2008, there was \$301 million outstanding and \$449 million available under our revolving credit facility, and we had cash and cash equivalents of \$33.3 million. We expect to use cash balances, borrowings under our credit facility, proceeds from the sale of properties and net proceeds of offerings of equity or debt securities to fund our continuing operations and future property acquisitions.

(1) Total debt as of June 30, 2008, net of unamortized premiums and discounts, equals \$2,932,959.

When significant amounts are outstanding under our revolving credit facility or the maturity dates of our revolving credit facility and term debts approach, we explore alternatives for the repayment of amounts due. Such alternatives usually include incurring additional term debt and issuing new equity securities. We have an effective shelf registration statement that allows us to issue public securities on an expedited basis, but it does not assure that there will be buyers for such securities. Although there can be no assurance that we will consummate any debt or equity offerings or other financings, we believe we will have access to various types of financing, including debt or equity offerings, to finance future acquisitions and capital expenditures and to pay our debt and other obligations.

The completion and the costs of our future debt transactions will depend primarily upon market conditions and our credit ratings. We have no control over market conditions. Our credit ratings depend upon evaluations by credit rating agencies of our business practices and plans and, in particular, whether we appear to have the ability to maintain our earnings, to space our debt maturities and to balance our use of debt and equity capital so that our financial performance and leverage ratios afford us flexibility to withstand any reasonably anticipatable adverse changes. We intend to conduct our business activities in a manner which will continue to afford us reasonable access to capital for investment and financing activities.

During 2008, we purchased three office properties for \$176.8 million, plus closing costs and funded improvements to our owned properties totaling \$26.0 million. We funded our 2008 acquisitions and improvements to our owned properties with cash on hand, by borrowing under our

revolving credit facility and by assuming \$30.6 million of mortgage debt on properties acquired.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

On May 5, 2008, we entered into a series of purchase and sale agreements for the sale of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565 million. We sold five of these properties in June 2008 for \$83.8 million, excluding closing costs, and recognized gains totaling \$40.0 million. We expect the sales of the remaining 43 properties to occur during the next three quarters. These sales are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, waiver of any rights of first refusal held by certain tenants and financing contingencies relating to certain properties. Accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur. In June 2008, we also agreed to sell one additional office property for \$15.0 million, excluding closing costs.

In July 2008, we acquired via merger 42 properties containing 1,827,000 square feet of space for approximately \$112 million, subject to adjustment during the second half of 2008 based on the contractual terms. This acquisition was funded with cash on hand, the assumption of \$8.9 million of mortgage debt, borrowings under our revolving credit facility and the issuance of 2,153,941 shares of our common stock.

In July 2008, we sold three properties with 152,000 square feet for \$39.1 million, excluding closing costs. In connection with these sales, the buyer assumed mortgage notes totaling \$10.8 million. We used the net proceeds from these sales to repay amounts outstanding under our revolving credit facility.

During the three and six months ended June 30, 2008 and 2007, cash expenditures made and capitalized for tenant improvements, leasing costs, building improvements and development and redevelopment activities were as follows (amounts in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Tenant improvements	\$ 9,601	\$ 16,015	\$ 14,779	\$ 28,644
Leasing costs	4,091	7,167	7,950	11,420
Building improvements (1)	2,953	3,089	4,742	4,681
Development, redevelopment and other activities (2)	2,955	15,883	6,446	23,185

(1) Building improvements generally include construction costs, expenditures to replace obsolete building components, and expenditures that extend the useful life of existing assets.

(2) Development, redevelopment and other activities generally include non-recurring expenditures or expenditures that we believe increase the value of our existing properties.

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

Commitments made for expenditures in connection with leasing space during the three months ended June 30, 2008, are as follows (amounts in thousands, except as noted):

	New Leases (1)	Renewals (1)	Total (1)
Square feet leased during the period	379	1,316	1,695
Total commitments for tenant improvements and leasing costs	\$ 9,039	\$ 4,252	\$ 13,291
Leasing costs per square foot (whole dollars)	\$ 23.85	\$ 3.23	\$ 7.84
Average lease term (years)	6.3	5.4	5.6
Leasing costs per square foot per year (whole dollars)	\$ 3.79	\$ 0.60	\$ 1.40

(1) Excludes properties classified in discontinued operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

In January 2008, we prepaid at par, \$28.6 million of 8.50% mortgage debt due in 2028, using cash on hand and borrowings under our revolving credit facility.

We have no commercial paper, swaps, hedges, joint ventures or off balance sheet arrangements as of June 30, 2008.

Debt Covenants

Our principal debt obligations at June 30, 2008, were our unsecured revolving credit facility and our \$2.25 billion of publicly issued unsecured term debt. Our publicly issued debt is governed by an indenture. Our public debt indenture and related supplements and our revolving credit facility agreement contain a number of financial ratio covenants which generally restrict our ability to incur debts, including debts secured by mortgages on our properties, in excess of calculated amounts, require us to maintain a minimum net worth, restrict our ability to make distributions under certain circumstances and require us to maintain other financial ratios. At June 30, 2008, we believe we were in compliance with all of our covenants under our indenture and related supplements and our revolving credit facility agreement.

In addition to our unsecured debt obligations, we have \$391.5 million, excluding unamortized premiums and discounts, of mortgage notes outstanding at June 30, 2008.

None of our indenture and related supplements, our revolving credit facility or our mortgage notes contain provisions for acceleration or require us to provide collateral security which could be triggered by our debt ratings. However, our senior debt rating is used to determine the interest rate and the fees payable under our revolving credit facility.

Our public debt indenture and related supplements contain cross default provisions to any other debts of \$20 million or more. Similarly, a default on our public debt indenture would be a default under our revolving credit facility.

Related Person Transactions

On May 5, 2008, we entered into a series of purchase and sale agreements with Senior Housing Properties Trust, or SNH, for the sale by us to SNH, or certain of its subsidiaries, of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565 million.

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

We sold five of these properties to SNH in June 2008 for \$83.8 million and recognized gains totaling \$40.0 million, and three of these properties in July 2008 for \$39.1 million for an estimated gain of \$10 million. We expect the sales of the remaining 40 properties to occur during the next three quarters. SNH was formerly our 100% owned subsidiary. It was spun off to our shareholders in 1999 and, at the time of this spin off, we and SNH entered into a Transaction Agreement which, among other things, prohibited SNH from purchasing medical office, clinic and biotech laboratory buildings. Concurrently with the execution and delivery of the purchase agreements, we and SNH entered into an amendment to the Transaction Agreement, or the First Amendment Agreement, to permit SNH, rather than us, to invest in medical office, clinic and biomedical, pharmaceutical and laboratory buildings. The First Amendment Agreement is subject, in the case of mixed use buildings, to our retaining the right to invest in any mixed use building for which the rentable square footage is less than 50% medical office, clinic and biomedical, pharmaceutical and laboratory use. Because we and SNH are both managed by REIT Management & Research LLC, the terms of these transactions were negotiated by special committees of each company's board of trustees comprised solely of Independent Trustees. The transactions are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, waiver of any rights of first refusal held by certain tenants and financing contingencies relating to certain properties. Accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur.

There have been no changes in our internal control over financial reporting during the quarter ended June 30, 2008, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
