(a) Affiliated Company. See Note 3 in Notes to Quarterly Portfolio of Investments.

(b) Indicates a fair valued security. Total market value for fair value securities is \$26,141,183 representing 14.7% of total net assets.

(c) Private Placement restricted as to resale and does not have a readily available market.

(d) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended.

(e) Less than 0.05% of Net Assets.

Common Abbreviations:

REIT - Real Estate Investment Trust

For Fund compliance purposes, the Fund's industry/geography classifications refer to any one or more of the industry/geography sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or defined by Fund management. This definition may not apply for purposes of this report, which may combine industry/geography sub-classifications for reporting ease. Industries/geographies are shown as a percent of net assets. These industry/geography classifications are unaudited.

See accompanying Notes to Quarterly Portfolio of Investments.

Notes to Quarterly Portfolio of Investments

December 31, 2008 (Unaudited)

Note 1. Valuation and Investment Practices

Securities Valuation: Securities for which market quotations are readily available (including securities listed on national securities exchanges and those traded over-the-counter) are valued at the last quoted sales price on the valuation date on which the security is traded. If such securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by principal market makers. Securities traded on NASDAQ are valued at the NASDAQ Official Closing Price (NOCP). Where market quotations are not readily available or where the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the adviser, does not represent fair value (Fair Value Securities), securities are valued at fair value by a Pricing Committee appointed by the Board of Directors, in consultation with the adviser. In such circumstances, the adviser makes an initial written recommendation to the Pricing Committee regarding valuation methodology for each Fair Value Security. Thereafter, the adviser conducts periodic reviews of each Fair Value Security to consider whether the respective methodology and its application is appropriate and recommends methodology changes when appropriate. Prior to implementation, the Pricing Committee reviews and makes a determination regarding each initial methodology recommendation and any subsequent methodology changes. All methodology recommendations and any changes are reviewed by the entire Board of Directors on a quarterly basis. The Portfolio of Investments include investments valued at \$26,141,183 (14.7% of total net assets) as of December 31, 2008 and \$66,655,800 (22.4% of total net assets) as of September 30, 2008, whose fair values have been estimated by management in the absence of readily determinable fair values.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates fair value.

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards (FASB) No. 157, Fair Value Measurements (FAS 157), as well as FASB Standards No. 159 (FAS 159), Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FASB Statement No. 115, effective April 1, 2008. Management has determined that there is no impact to the Fund as a result of adopting FAS 159. In accordance with FAS 157, fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. FAS 157 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The valuation techniques used by the Fund to measure fair value during the nine months ended December 31, 2008 maximized the use of observable inputs and minimized the use of unobservable inputs. The Fund utilized the following fair value techniques: book value, last available trade price, discounted future cash flow models, multi-dimensional relational pricing model, and option adjusted spread pricing.

The following is a summary of the inputs used as of December 31, 2008 in valuing the Fund's investments carried at value:

Valuation Inputs		Investments in Securities		Other Financial Instruments * Unrealized Appreciation (Depreciation)
Level 1 - Quoted Prices	\$	147,633,131		
Level 2 - Significant Observable Inputs		9,105,697		1,797,451
Level 3 - Significant Unobservable Inputs		18,799,585		
Total	\$	175,538,413	\$	1,797,451

* Other financial instruments include swap contracts.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investments in Securities
Balance as of 3/31/08	\$
Realized loss	(18,594)
Change in unrealized depreciation	(13,150,147)
Net purchases/(sales)	(4,535,467)
Transfer in and/or out of Level 3	36,503,793
Balance as of 12/31/08	\$ 18,799,585

Securities Transactions and Net Investment Income: Securities transactions are recorded on the trade date. Realized gains or losses on sales of securities are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date, or for certain foreign securities, when the information becomes available to the portfolios. Interest income

including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis, using the effective interest method.

Dividend income from investments in real estate investment trusts (REITs) is recorded at management 's estimate of the income included in distributions received. Distributions received in excess of this amount are recorded as a reduction of the cost of investments. The actual amounts of income and return of capital are determined by each REIT only after its fiscal year-end, and may differ from the estimated amounts.

Foreign Currency Translation: The books and records of the Fund are maintained in US dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated into US dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions. Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in the exchange rates between the initial purchase trade date and subsequent sale trade date is included in gains and losses on investment securities sold.

Repurchase Agreements: The Fund may enter into repurchase agreement transactions with United States financial institutions. It is the Fund's policy that its custodian take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. The value of the collateral at the time of the execution must be at least equal to 102% of the total amount of the repurchase obligations, including interest. If the seller defaults, and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Note 2. Unrealized Appreciation/(Depreciation)

On December 31, 2008, based on cost of \$304,945,004 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$15,080,377 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$144,486,968, resulting in net unrealized depreciation of \$129,406,591.

Note 3. Transactions With Affiliated Companies

Transactions during the period with companies in which the Fund owned at least 5% of the voting securities were as follows:

Name of Affiliate	Beginning Share Balance	Purchases	Sales	Ending Share Balance	Dividend Income	Realized Gains (Losses)	Market Value

TOTAL						\$ 426,077	\$ 1,797,451

Note 5. Recently Issued Accounting Pronouncements

In March 2008, FASB issued Statement of Financial Accounting Standards No. 161 (SFAS 161) Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS 133), expands the disclosure requirements in SFAS 133 about entity s derivative instruments and hedging activities. SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. Management is currently evaluating the impact the adoption of SFAS No. 161 will have on the Fund s financial statement disclosures.

Item 2 - Controls and Procedures.

(a) The Registrant's Principal Executive Officer and Principal Financial Officer concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (17 CFR 270.300-3(c))) were effective as of a date within 90 days of the filing date of this report (the Evaluation Date), based on their evaluation of the effectiveness of the Registrant's disclosure controls and procedures as of the Evaluation Date.

(b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d))) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3 Exhibits.

(a) Certification of Principal Executive Officer and Principal Financial Officer of the Registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is attached hereto as Exhibit 99CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
