#### Portfolio of Investments

#### Western Asset Income Fund

March 31, 2009 (Unaudited) (continued)

- B Stepped Coupon Security A security with a predetermined schedule of interest or dividend rate changes at which time it begins to accrue interest or pay dividends according to the predetermined schedule.
- C Bond is currently in default.
- D Non-income producing.
- E Rule 144a Security A security purchased pursuant to Rule 144a under the Securities Act of 1933 which may not be resold subject to that rule except to qualified institutional buyers. These securities, which the Fund s investment adviser has determined to be liquid, unless otherwise noted, represent 17.65% of net assets.
- F Credit Linked Security The rates of interest earned on these securities are tied to the credit rating assigned by Standard & Poor s Rating Service and/or Moody s Investors Services.
- G The coupon rates shown on variable rate securities are the rates at March 31, 2009. These rates vary with the weighted average coupon of the underlying loans.
- H Yankee Bond A dollar-denominated bond issued in the U.S. by foreign entities.
- I Illiquid security valued at fair value under the procedures approved by the Board of Directors.
- J On September 7, 2008, the Federal Housing Finance Agency placed Fannie Mae and Freddie Mac into conservatorship.
- K Zero coupon bond A bond with no periodic interest payments which is sold at such a discount as to produce a current yield to maturity.
- L Aggregate cost for federal income tax purposes is substantially the same as book cost. At March 31, 2009, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation \$ 1,034,808 Gross unrealized depreciation \$ (45,715,481) Net unrealized depreciation \$ (44,680,673)

M Futures are described in more detail in the notes to financial statements.

**Net Asset Value Per Common Share:** 

\$ 10.02

#### **Investment Valuation**

The Fund s securities are valued under policies approved by and under the general oversight of the Board of Directors. Effective January 1, 2008, the Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Funds investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Funds own assumptions in determining the fair value of investments)

Debt securities are valued at the last quoted bid prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last sale price or official closing price on the primary market or exchange on which they trade. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund s Board of Directors.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund s assets carried at fair value:
