UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

x **Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**

For the quarterly period ended July 4, 2009

or

o **Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**

Commission File No. 0-19621

APPLIANCE RECYCLING CENTERS OF AMERICA, INC.

(Exact name of registrant as specified in its charter)

Minnesota

(State or other jurisdiction of
incorporation or organization)

41-1454591

(I.R.S. Employer
Identification No.)

7400 Excelsior Boulevard, Minneapolis, Minnesota

(Address of principal executive offices)

55426-4517

(Zip Code)

952-930-9000

Edgar Filing: APPLIANCE RECYCLING CENTERS OF AMERICA INC /MN - Form 10-Q

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically and posted on its Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such file). ☐ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☒

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). ☐ Yes ☒ No

As of August 10, 2009, there were 4,577,777 outstanding shares of the registrant's Common Stock, without par value.

APPLIANCE RECYCLING CENTERS OF AMERICA, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(In Thousands, Except Per Share Amounts)

1. Nature of Business and Basis of Presentation

Appliance Recycling Centers of America, Inc. and Subsidiaries (we, the Company or ARCA) are in the business of selling new major household appliances through a chain of Company-owned factory outlet stores under the name ApplianceSmart®. We also provide turnkey appliance recycling and replacement services for electric utilities and other sponsors of energy efficiency programs.

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and Article 8 of Regulation S-X promulgated by the United States Securities and Exchange Commission (the SEC). Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, normal and recurring adjustments and accruals considered necessary for a fair presentation for the periods indicated have been included. Operating results for the three-month and six-month periods ended July 4, 2009 and June 28, 2008 are presented using 13-week and 26-week periods, respectively. The results of operations for any interim period are not necessarily indicative of the results for the year.

These financial statements should be read in conjunction with the Company's audited consolidated financial statements and related notes thereto for the year ended January 3, 2009 included in the Company's Form 10-K filed with the SEC on March 20, 2009.

Principles of consolidation: The consolidated financial statements include the accounts of Appliance Recycling Centers of America, Inc. and our subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

ARCA Canada Inc., a Canadian corporation, is a wholly-owned subsidiary. ARCA Canada was formed in September 2006 to provide turnkey recycling services for electric utility energy efficiency programs. The operating results of ARCA Canada are consolidated in our financial statements.

We were a sixty percent owner in North America Appliance Company, LLC (NAACO). NAACO was formed and commenced operations in June 2003 and was a retailer of special-buy appliances in Texas. The operating results of NAACO are consolidated in our financial statements.

Edgar Filing: APPLIANCE RECYCLING CENTERS OF AMERICA INC /MN - Form 10-Q

We were a sixty percent owner in Productos Duraderos de Norte America (PDN), a Mexican corporation. PDN was acquired in September 2006 and refurbished room air conditioners for sale through our NAACO operation in McAllen, Texas, and through our ApplianceSmart Factory Outlet stores. The operating results of PDN are consolidated in our financial statements.

Discontinued operations: During the fourth quarter of 2008, we planned and executed the shutdown of our NAACO and PDN businesses. NAACO and PDN were not operating as planned and were no longer economically viable.

Reclassifications: Certain prior year items have been reclassified to conform to current year presentation. We reclassified the results of our discontinued operations below income (loss) from continuing operations in the consolidated statements of operations. In Note 11 to Notes to Consolidated Financial Statements, we reclassified certain assets, revenue and operating income items between our retail, recycling and unallocated corporate segments.

Table of Contents

2. **Recent Accounting Pronouncements**

In July 2009, the Financial Accounting Standards Board (FASB) issued Statements of Financial Standards (SFAS) No. 168 (SFAS No. 168), *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. This standard replaces SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, and will become the source of authoritative non-SEC authoritative GAAP. SFAS No. 168 establishes a two-level GAAP hierarchy for nongovernmental entities: authoritative guidance and nonauthoritative guidance. Authoritative guidance consists of the Codification and, for SEC registrants, rules and interpretative releases of the Commission. Nonauthoritative guidance consists of non-SEC accounting literature that is not included in the Codification and has not been grandfathered. SFAS No. 168, including the Codification, is effective for financial statements of interim and annual periods ending after September 15, 2009 and we will adopt SFAS No. 168 during the period ending October 3, 2009. As the Codification was not intended to change or alter existing GAAP, it will not have any impact on our consolidated financial statements.

In June 2009, the FASB also published SFAS No. 167, *Consolidation of Variable Interest Entities an amendment to FIN 46(R)*. SFAS No. 167 addresses the effects of eliminating the qualified special purpose entity concept from SFAS No. 140 and responds to concerns about the application of certain key provisions of FIN 46(R), including concerns over the transparency of enterprises' involvement with Variable Interest Entities (VIEs). SFAS No. 167 is effective for fiscal years beginning after November 15, 2009. We do not expect SFAS No. 167 to have a material impact on the preparation of our consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets, an amendment to SFAS No. 140*. SFAS No. 166 eliminates the concept of a qualified special-purpose entity, changes the requirements for derecognizing financial assets and requires additional disclosures in order to enhance information reported to users of financial statements by providing greater transparency about transfers of financial assets, including securitization transactions, and an entity's continuing involvement in and exposure to the risks related to transferred financial assets. SFAS No. 166 is effective for fiscal years beginning after November 15, 2009. We do not expect SFAS No. 166 to have a material impact on the preparation of our consolidated financial statements.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*. SFAS No. 165 requires all public entities to evaluate subsequent events through the date that the financial statements are available to be issued and disclose in the notes the date through which the Company has evaluated subsequent events and whether the financial statements were issued or were available to be issued on the disclosed date. SFAS No. 165 defines two types of subsequent events, as follows: the first type consists of events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet and the second type consists of events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date. SFAS No. 165 is effective for interim and annual periods ending after June 15, 2009 and must be applied prospectively. The adoption of SFAS No. 165 did not have a material effect on our results of operations or financial position.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. SFAS No. 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, financial performance and cash flows. SFAS No. 161 also improves transparency about the location and amounts of derivative instruments in an entity's financial statements; how derivative instruments and related hedged items are accounted for under SFAS No. 133; and how derivative instruments and related hedged items affect its financial position, financial performance and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The adoption of SFAS No. 161 did not have a material effect on our results of operations or financial position.

Edgar Filing: APPLIANCE RECYCLING CENTERS OF AMERICA INC /MN - Form 10-Q

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51*. This statement establishes accounting and reporting standards for noncontrolling interests in subsidiaries and for the deconsolidation of subsidiaries and clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements.

Table of Contents

This statement also requires expanded disclosures that clearly identify and distinguish between the interests of the parent owners and the interests of the noncontrolling owners of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The adoption of SFAS No. 160 did not have a material effect on our results of operations or financial position.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations*. While this statement retains the fundamental requirement of SFAS No. 141 that the acquisition method of accounting (which SFAS No. 141 called the purchase method) be used for all business combinations, SFAS No. 141 (Revised 2007) now establishes the principles and requirements for how an acquirer in a business combination: recognizes and measures in its financial statements, the identifiable assets acquired, the liabilities assumed, and any noncontrolling interests in the acquiree; recognizes and measures the goodwill acquired in the business combination or the gain from a bargain purchase; and determines what information should be disclosed in the financial statements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141 (Revised 2007) is effective for fiscal years beginning on or after December 15, 2008. The adoption of SFAS No. 141 (Revised 2007) did not have a material effect on our results of operations or financial position.

3. Significant Accounting Policies

Trade receivables: We carry unsecured trade receivables at the original invoice amount less an estimate made for doubtful accounts based on a monthly review of all outstanding amounts. Management determines the allowance for doubtful accounts by regularly evaluating individual customer receivables and considering a customer's financial condition, credit history and current economic conditions. We write off trade receivables when we deem them uncollectible. We record recoveries of trade receivables previously written off when we receive them. We consider a trade receivable to be past due if any portion of the receivable balance is outstanding for more than ninety days. We do not charge interest on past due receivables. Our management considers the allowance for doubtful accounts of \$98 and \$292 to be adequate to cover any exposure to loss as of July 4, 2009 and January 3, 2009, respectively.

Inventories: Inventories, consisting principally of appliances, are stated at the lower of cost, determined on a specific identification basis, or market and consist of:

	July 4, 2009	January 3, 2009
Finished goods	\$ 16,646	\$ 18,949
Less provision for inventory obsolescence	(301)	(115)
	\$ 16,345	\$ 18,834

We provide estimated provisions for the obsolescence of our appliance inventories, including adjustments to market, based on various factors, including the age of such inventory and our management's assessment of the need for such provisions. We look at historical inventory agings and margin analysis in determining our provision estimate.

Table of Contents

Property and equipment: Property and equipment consists of the following:

	July 4, 2009	January 3, 2009
Land	\$ 2,050	\$ 2,050
Buildings and improvements	5,316	5,249
Equipment (including computer software)	9,471	9,161
	16,837	16,460
Less accumulated depreciation and amortization	(10,096)	(9,493)
	\$ 6,741	\$ 6,967

Software development costs: We capitalize software developed for internal use and are amortizing such costs over their estimated useful lives of three to five years. Costs capitalized were \$149 and \$72 for the six months ended July 4, 2009 and June 28, 2008, respectively.

Impairment of long-lived assets: We evaluate long-lived assets such as property and equipment for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. We assess impairment based on the estimated future net undiscounted cash flows expected to result from the use of the assets, including cash flows from disposition. Should the sum of the expected future net cash flows be less than the carrying value, we recognize an impairment loss at that time. We measure an impairment loss by comparing the amount by which the carrying value exceeds the fair value (estimated discounted future cash flows or appraisal of assets) of the long-lived assets. We recognized no impairment charges during the three and six months ended July 4, 2009 and June 28, 2008.

Deferred financing fees: Deferred financing fees are presented in the consolidated balance sheets as a component of other assets and are reported net of accumulated amortization. We record amortization expense on a straight-line basis over the term of the underlying debt. Deferred financing fees, net of accumulated amortization, were \$32 and \$38 as of July 4, 2009 and January 3, 2009, respectively.

Product warranty: We provide a warranty for the replacement or repair of certain defective units which varies based on the product sold. Our standard warranty policy requires us to repair or replace certain defective units at no cost to our customers. We estimate the costs that may be incurred under our warranty and record an accrual in the amount of such costs at the time we recognize product revenue. Factors that affect our warranty accrual for covered units include the number of units sold, historical and anticipated rates of warranty claims on these units, and the cost of such claims. We periodically assess the adequacy of our recorded warranty accrual and adjust the amounts as necessary.

Changes in our warranty accrual are as follows:

Three Months Ended

Six Months Ended

	July 4, 2009		June 28, 2008		July 4, 2009		June 28, 2008	
Beginning Balance	\$	81	\$	87	\$	91	\$	80
Standard accrual based on units sold		22		19		41		45
Actual costs incurred		(4)		(1)		(8)		(2)
Periodic accrual adjustments		(17)		(18)		(42)		(36)
Ending Balance	\$	82	\$	87	\$	82	\$	87

Share-based compensation: We account for share-based compensation using the modified prospective method. Under this method, we recognize compensation expense on a straight-line basis over the vesting period for all share-based awards granted. We use the Black-Scholes option pricing model to determine the fair value of awards at the grant date. We calculate the expected volatility for stock option awards using historical volatility. We estimate a 0%-5% forfeiture rate for stock options issued to all employees and Board of Directors members, but will continue to review these

Table of Contents

estimates in future periods. The risk-free rates for the expected terms of the stock options are based on the U.S. Treasury yield curve in effect at the time of the grant. The expected life represents the period that the stock option awards are expected to be outstanding. The expected dividend yield is zero as we have not paid or declared any cash dividends on our Common Stock. Based on these valuations, we recognized share-based compensation expense of \$131 and \$160 for the three months ended July 4, 2009 and June 28, 2008, respectively. For the six months ended July 4, 2009 and June 28, 2008, we recognized share-based compensation expense of \$283 and \$238, respectively. We estimate that the remaining expense for fiscal 2009 and beyond will be approximately \$304 and \$144, respectively, based on the value of options outstanding as of July 4, 2009. This estimate does not include any expense for additional options that may be granted during 2009.

Comprehensive income (loss): Other comprehensive income (loss) refers to revenues, expenses, gains and losses that under generally accepted accounting principles are included in comprehensive income (loss) but are excluded from net income (loss) as these amounts are recorded directly as an adjustment to shareholders' equity. Our other comprehensive income (loss) is comprised of foreign currency translation adjustments. The effect of the foreign currency translation adjustments, net of tax, was income of \$76 and a loss of \$22 for the three months ended July 4, 2009 and June 28, 2008, respectively. The effect of the foreign currency translation adjustments, net of tax, was a loss of \$26 and \$47 for the six months ended July 4, 2009 and June 28, 2008, respectively.

Basic and diluted income (loss) per share: Basic income (loss) per share is computed based on the weighted average number of common shares outstanding. Diluted income (loss) per share is computed based on the weighted average number of common shares outstanding adjusted by the number of additional shares that would have been outstanding had the potentially dilutive common shares been issued. Potentially dilutive shares of Common Stock include unexercised stock options. Diluted per share amounts assume the conversion, exercise or issuance of all potential Common Stock instruments unless their effect is antidilutive, thereby reducing the loss or increasing the income per common share. In calculating diluted weighted average shares and per share amounts, we included stock options with exercise prices below average market prices, for the respective reporting periods in which they were dilutive, using the treasury stock method. We calculated the number of additional shares by assuming the outstanding stock options were exercised and that the proceeds from such exercises were used to acquire Common Stock at the average market price during the year. For the three and six months ended July 4, 2009, we excluded all options from the diluted weighted average share outstanding calculation as the effect of these options is anti-dilutive due to our net loss. For the three and six months ended June 28, 2008, we excluded 8 options from the diluted weighted-average share outstanding calculation because the stock options were granted at a price higher than the average market price for the quarter.

Table of Contents

A reconciliation of the denominator in the basic and diluted income or loss per share is as follows:

	Three Months Ended		Six Months Ended	
	July 4, 2009	June 28, 2008	July 4, 2009	June 28, 2008
Numerator:				
Income (loss) from continuing operations	\$ (411)	\$ 920	\$ (2,373)	\$ 1,247
Loss from discontinued operations, net of income taxes		(83)		(293)
Net income (loss)	\$ (411)	\$ 837	\$ (2,373)	\$ 954
Denominator:				
Weighted average shares outstanding - basic	4,578	4,571	4,578	4,563
Employee stock options		61		64
Weighted average shares outstanding - diluted	4,578	4,632	4,578	4,627
Basic income (loss) per share:				
Continuing operations	\$ (0.09)	\$ 0.20	\$ (0.52)	\$ 0.27
Discontinued operations		(0.02)		(0.06)
Net income (loss)	\$ (0.09)	\$ 0.18	\$ (0.52)	\$ 0.21
Diluted income (loss) per share:				
Continuing operations	\$ (0.09)	\$ 0.20	\$ (0.52)	\$ 0.27
Discontinued operations		(0.02)		(0.06)
Net income (loss)	\$ (0.09)	\$ 0.18	\$ (0.52)	\$ 0.21

4. Investment

On June 1, 2009, we completed a \$263 investment in Diagnostico y Administracion de Logistica Inversa, S.A. de C.V. (DALI), a Mexican company. DALI is a joint venture that operates a refrigerator recycling program sponsored by the Mexican government. Our investment represents a 46.3% ownership in the joint venture. The DALI joint venture is accounted for under the equity method and is presented in the consolidated balance sheets as a component of other assets. The recycling program is a four-year program that is funded annually, with plans to recycle a total of 1.6 million refrigerators. The results of the joint venture were immaterial for the period ended July 4, 2009.

5. Line of Credit

We have an \$18,000 line of credit with a lender. The line was increased from \$16,000 to \$18,000 on February 5, 2008. The interest rate on the line as of July 4, 2009 and January 3, 2009 was 6.25% (the greater of prime plus 1.50 percentage points or 6.25%). The amount of borrowings available under the line of credit is based on a formula using receivables and inventories. Our unused borrowing capacity under this line was \$238 and \$384 as of July 4, 2009 and January 3, 2009, respectively. We may not have access to the full \$18.0 million line of credit due to the formula using our receivables and inventories. The line of credit has a stated maturity date of December 31, 2010, if not renewed, and provides that the lender may demand payment in full of the entire outstanding balance of the loan at any time. The line of credit is collateralized by substantially all our assets and requires minimum monthly interest payments of \$58, regardless of the outstanding principal balance. The lender is also secured by an inventory repurchase agreement with Whirlpool Corporation for purchases from Whirlpool only. The loan requires that we meet certain financial covenants, provides payment penalties for noncompliance and prepayment, limits the amount of other debt we can incur,

limits the amount of spending on fixed assets and prohibits payments of dividends. As of July 4, 2009 and January 3, 2009, we were not in compliance with certain financial covenants of the loan agreement and received a waiver from the lender for those dates.

Table of Contents**6. Long-Term Obligations**

Long-term debt and capital lease obligations consisted of the following:

	July 4, 2009	January 3, 2009
Adjustable rate mortgage, due in monthly installments, adjusted weekly based on 30-day LIBOR plus 2.70 percentage points (3.01% as of July 4, 2009 and 3.38% as of January 3, 2009) on a 20-year amortization due October 2012, collateralized by land and building	\$ 2,642	\$ 2,747
6.85% mortgage, due in monthly installments of \$15, including interest, due January 2012, collateralized by land and building	1,623	1,659
Capital leases and other financing obligations (see below)	1,065	1,065
	5,330	5,471
Less current maturities	616	579
	\$ 4,714	\$ 4,892

Capital leases and other financing obligations: We acquire certain equipment under capital leases and other financing obligations. The cost of the equipment was approximately \$1,526 and \$1,396 at July 4, 2009 and January 3, 2009, respectively. Accumulated amortization at July 4, 2009 and January 3, 2009 was approximately \$577 and \$387, respectively. Depreciation and amortization expense is included in cost of revenues and selling, general and administrative expenses.

In September 2008, we entered into a master equipment lease with a lender providing up to \$250 in available funds. We utilized the entire lease line to fund equipment for the new retail outlets opened in December 2008 and January 2009.

In March 2009, we entered into a master equipment lease with a lender providing up to \$100 in available funds. We utilized the entire lease line in March 2009 to fund equipment for our retail outlet stores.

In June 2009, we entered into a master equipment lease with a lender providing up to \$88 in available funds. We utilized the entire lease line in June 2009 to fund equipment and displays for our retail outlet stores.

7. Accrued Expenses

Accrued expenses were as follows:

	July 4, 2009	January 3, 2009
Compensation and benefits	\$ 1,022	\$ 1,565
Accrued recycling incentive checks	1,232	1,110
Accrued rent	461	461
Warranty expense	82	91
Accrued payables	420	509
Other	433	337
	\$ 3,650	\$ 4,073

8. Commitments and Contingencies

Contracts: We have entered into contracts with five appliance manufacturers. Under the agreements there are no minimum purchase commitments; however, we have agreed to indemnify the manufacturers for certain claims, allegations or losses with respect to appliances we sell.

Table of Contents

Litigation: In December 2004, we filed suit in the U.S. District Court for the Central District of California alleging that JACO Environmental, Inc. (JACO) and one of our former consultants fraudulently obtained U.S. Patent No. 6,732,416 in May 2004 covering appliance recycling methods and systems which were originally developed by us beginning in 1987 and used in serving more than forty-five electric utility appliance recycling programs up to the time the suit was filed. We sought an injunction to prevent JACO from claiming that it obtained a valid patent on appliance recycling processes that we believe is based on methods and processes we invented. In addition, we asked the Court to find that the patent obtained by JACO is unenforceable due to inequitable conduct before the United States Patent Office. We also asked the court for unspecified damages related to charges that JACO, in using the patent to promote its services, engaged in unfair competition and false and misleading advertising under federal and California statutes.

In September 2005, we received a legally binding document in which JACO stated it would not sue us or any of our customers for violating the JACO patent. Further, the defendants in the case did not assert any counterclaims against ARCA.

In January 2009, the Court granted JACO a summary judgment in ARCA's lawsuit against the parties. The ruling was made by the same judge who had earlier denied summary judgment to the defendants. Even though the Court's ruling will have no impact on our method of recycling or ability to conduct existing or future business, we filed an appeal with the Ninth Circuit Court of Appeals in California in February 2009 seeking to have the court set aside the summary judgment. We believe the decision by the trial judge was in error and contrary to the law relating to unfair competition and false advertising. We believe we are entitled to our day in court against JACO for damages caused by their actions, but we do not yet have a timeline on a decision of the appeal.

On October 24, 2006, JACO and SEG Umwelt-Service/Basis of Mettlach, Germany (SEG) filed a patent infringement lawsuit in Federal Court in San Francisco against us. The suit claimed that we had been using refrigerator recycling systems and processes covered by two U.S. patents issued to SEG and exclusively licensed to JACO. JACO and SEG sought an undisclosed amount in damages, in addition to an injunction barring us from continuing to use and market the systems and processes upon which we allegedly infringed. This suit was subsequently dismissed following a transfer of the case to Los Angeles upon the motion of ARCA.

9. Income Taxes

We recorded a benefit from income taxes of \$84 and provision for income taxes of \$293 for the three months ended July 4, 2009 and June 28, 2008, respectively. For the six months ended July 4, 2009 and June 28, 2008, we recorded a benefit from income taxes of \$99 and provision for income taxes of \$176, respectively. In the second quarter of 2009, we recorded a discrete item related to additional Canadian tax deductions determined by completing a detailed transfer pricing study. We recognized a tax benefit of approximately \$183 related solely to our Canadian operations compared to the original tax provision estimate for fiscal 2008. We also recorded a provision for taxes for the six months ended July 4, 2009 of \$79 related to our Canadian operations, which offsets the impact of the discrete item recognized in the second quarter of 2009. We did not record a provision for or benefit from income taxes for our U.S. subsidiaries because we have available net operating losses to offset future taxable income and we have recorded full valuation allowances against our U.S. net deferred tax assets due to the uncertainty of their realization. The realization of deferred tax assets is dependent upon sufficient future taxable income during the periods when deductible temporary differences and carryforwards are expected to be available to reduce taxable income.

We account for uncertain tax positions and recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the

relevant tax authority. As of July 4, 2009, we did not have any material uncertain tax positions.

It is our practice to recognize interest related to income tax matters as a component of interest expense and penalties as a component of selling, general and administrative expense. As of July 4, 2009, we had an immaterial amount of accrued interest and penalties.

Table of Contents

We are subject to income taxes in the U.S. federal jurisdiction, foreign jurisdictions and various state jurisdictions. Tax regulations from each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, we are no longer subject to U.S. federal, foreign, state or local income tax examinations by tax authorities for the years before 2006. We are not currently under examination by any taxing jurisdiction.

We had no significant unrecognized tax benefits as of July 4, 2009 that would reasonably be expected to affect our effective tax rate during the next twelve months.

10. Shareholders Equity

Stock options: Our 2006 Stock Option Plan (the 2006 Plan) permits the granting of incentive stock options meeting the requirements of Section 422 of the Internal Revenue Code of 1986, as amended, and nonqualified options that do not meet the requirements of Section 422. The 2006 Plan has 600 shares available for grant. As of July 4, 2009, 352 options were outstanding to employees and non-employee directors and 15 options have been exercised under the 2006 Plan. Our Restated 1997 Stock Option Plan (the 1997 Plan) has expired, but the options outstanding under the expired 1997 Plan continue to be exercisable in accordance with their terms. As of July 4, 2009, options to purchase an aggregate of 39 shares were outstanding under the 1997 Plan. Options granted to employees typically vest over two years while grants to non-employee directors vest in six months.

During the second quarter of 2009, we granted 52 stock options with an exercise price of \$1.87, vesting periods ranging from six months to two years and a fair value of \$1.59.

The following table summarizes the assumptions used to estimate the fair value of options granted during the second quarter of 2009 using the Black-Scholes Model:

Expected dividend yield	0.0 %
Expected stock price volatility	104.8%
Risk-free interest rate	2.6%
Expected life of options	7 years

Preferred stock: Our amended Articles of Incorporation authorize two million shares of Preferred Stock that may be issued from time to time in one or more series having such rights, powers, preferences and designations as the Board of Directors may determine. To date no such preferred shares have been issued.

11. Segment Information

We operate within targeted markets through two reportable segments: retail and recycling. The retail operation is comprised of income generated through our ApplianceSmart Factory Outlet stores, which includes appliance sales and byproduct revenues from collected appliances. The recycling operation includes all fees charged and costs incurred for collecting, recycling and installing appliances for utilities and other customers and includes byproduct revenue, which is primarily generated through the recycling of appliances. The nature of products, services and customers for both segments varies significantly. As such, the segments are managed separately. Our Chief Executive Officer has been identified as the Chief Operating Decision Maker (CODM). The CODM evaluates performance and allocates resources based on sales and income from operations of each segment. Income from operations represents revenues less cost of revenues and operating expenses, including certain allocated selling, general and administrative costs. There are no intersegment sales or transfers. During 2009, we modified the way we report byproduct revenues, recycling revenues and recycling costs in order to more accurately report the activity within our two reportable segments. Although not material, comparable period revenue and operating income items have been reclassified between our retail and recycling segments to conform to our current year presentation.

Table of Contents

The following table presents our segment information for periods indicated:

	Three Months Ended		Six Months Ended	
	July 4, 2009	June 28, 2008	July 4, 2009	June 28, 2008
Revenues:				
Retail	\$ 19,425	\$ 21,159	\$ 40,438	\$ 40,122
Recycling	5,967	8,503	11,112	15,242
Total revenues	\$ 25,392	\$ 29,662	\$ 51,550	\$ 55,364
Operating income (loss):				
Retail	\$ (645)	\$ 745	\$ (1,965)	\$ 1,869
Recycling	499	1,297	143	1,152
Unallocated corporate costs	2	(502)	(4)	(874)
Total operating income (loss)	\$ (144)	\$ 1,540	\$ (1,826)	\$ 2,147
Assets:				
Retail	\$ 18,623	\$ 18,260	\$ 18,623	\$ 18,260
Recycling	7,188	9,297	7,188	9,297

Interest expense:				
Retail	\$ 186	\$ 204	\$ 391	\$ 439
Recycling	44	55	110	127
Corporate assets not allocable	27	68	76	158
Total interest expense	\$ 257	\$ 327	\$ 577	\$ 724

12. Subsequent Events

During July 2009, we negotiated \$158 in lease concessions with two landlords that will result in deferring rent payments for the remainder of 2009 and adding the payments to the end of the lease.

On August 11, 2009, we entered into an agreement to sell and lease back our St. Louis Park, Minnesota, building. The building is a 126,000 square foot facility which includes our executive offices, a processing and recycling center and a retail store. Pursuant to the agreement, we will sell our St. Louis Park building for \$4,650 and lease the building back over an initial lease term of five years. The sale of the building will

provide the Company with approximately \$2,000 after the repayment of the mortgage. The sale of the building is contingent on the purchaser obtaining the necessary financing. Both parties contemplate the closing of the sale on or before October 12, 2009.

Table of Contents

On August 11, 2009, we received a waiver letter from our lender for a violation of certain financial covenants as of July 4, 2009.

The Company has evaluated subsequent events occurring through August 14, 2009, the date on which this Quarterly Report on Form 10-Q was issued.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking and Cautionary Statements

This quarterly report contains forward-looking statements that involve risks and uncertainties. The statements contained in this quarterly report that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Act of 1934, as amended.

Any statements contained in this quarterly report regarding our future operations, performance and results, and anticipated liquidity discussed herein are forward-looking and, therefore, are subject to certain risks and uncertainties, including, but not limited to, those discussed herein. Any forward-looking information regarding our operations will be affected primarily by the speed at which individual retail outlets reach profitability, the volume of appliance retail sales and the strength of energy conservation recycling programs. Any forward-looking information will also be affected by our continued ability to purchase product from our suppliers at acceptable prices, the ability of individual retail stores to meet planned revenue levels, the rate of growth in the number of retail stores, costs and expenses being realized at higher than expected levels, our ability to secure an adequate supply of special-buy appliances for resale, the ability to secure appliance recycling contracts with sponsors of energy efficiency programs, the ability of customers to supply units under their recycling contracts with us, and the continued availability of our current line of credit.

All of these forward-looking statements are based on information available to us on the date of this quarterly report. Our actual results could differ materially from those discussed in this quarterly report. The forward-looking statements contained in this quarterly report, and other written and oral forward-looking statements made by us from time to time, are subject to risks and uncertainties that could cause actual results to differ materially from those anticipated in the forward-looking statements. Factors that might cause such a difference include, but are not limited to, those discussed in Item 1A Risk Factors in our annual report on Form 10-K for the year ended January 3, 2009.

The following discussion and analysis provides information that we believe is relevant to an assessment and understanding of our operations and financial condition. This discussion should be read with the consolidated financial statements appearing in Item 1.

Overview

We are in the business of selling new major household appliances through a chain of Company-owned factory outlet stores under the name ApplianceSmart®. We also provide turnkey appliance recycling and replacement services for electric utilities and other sponsors of energy efficiency programs.

Subsidiaries. ARCA Canada Inc., a Canadian corporation, is a wholly-owned subsidiary. ARCA Canada was formed in September 2006 to provide turnkey recycling services for electric utility energy efficiency programs. The operating results of ARCA Canada have been consolidated in our financial statements. We were a sixty percent owner in North America Appliance Company, LLC (NAACO). NAACO was formed and commenced operations in June 2003 and was a retailer of special-buy appliances in Texas. The operating results of NAACO have

been consolidated in our financial statements. We were a sixty percent owner in Productos Duraderos de Norte America (PDN), a Mexican corporation. PDN was acquired in September 2006 and refurbished room air conditioners for sale through our NAACO operation in McAllen, Texas, and through our ApplianceSmart Factory Outlet stores. The operating results of PDN have been consolidated in our financial statements.

Discontinued Operations. During the fourth quarter of 2008, we planned and executed the shutdown of our NAACO and PDN operations. NAACO and PDN were not operating as planned and were no longer economically viable. In 2008, our supply of room air conditioners from a major manufacturer was depleted, no longer providing refurbishment opportunities for PDN and revenues for NAACO, which was the basis for our investment in these businesses. We will not have any continuing involvement or significant continuing cash flows in these businesses. The results of operations for NAACO and PDN were included in our retail segment. All results of operations for periods presented prior to the abandonment date have been reclassified as discontinued operations.

Table of Contents

Reporting Period. Operating results for the three-month and six-month periods ended July 4, 2009 and June 28, 2008 are presented using 13-week and 26-week periods, respectively. The results of operations for any interim period are not necessarily indicative of the results for the year.

Key Components of Results of Operations

Revenues. We generate revenues from three sources: retail, recycling and byproduct. Retail revenues are generated through the sale of new appliances at our ApplianceSmart Factory Outlet stores. Recycling revenues are generated by charging fees for collecting, recycling and installing appliances for utilities and other sponsors of energy efficiency programs. Byproduct revenues are generated by selling recovered materials, such as metals and plastics, and reclaimed chlorofluorocarbon (CFC) refrigerants, from appliances we collect and recycle, including appliances from our ApplianceSmart Factory Outlet stores.

Cost of Revenues. Cost of revenues includes all costs related to the purchase of inventory, including freight, costs related to receiving and distribution of inventory, and costs related to delivery and service of inventory after it is sold to the consumer. Also, the costs related to recycling appliances, such as customer service, transportation and processing, and the cost of refrigerators used in our replacement programs, are included in the cost of revenues. Depreciation expense related to buildings and equipment from our recycling centers is presented in cost of revenues.

Selling, General and Administrative Expenses. Selling, general and administrative expenses are comprised primarily of employee compensation and benefits (including share-based compensation), occupancy costs, advertising, bank processing charges, professional services and depreciation.

Interest Expense. Interest expense is comprised of interest charges related to borrowings under our line of credit, mortgages on our Minnesota and California buildings and other long-term obligations, primarily capital leases.

Segments. We operate two reportable segments: retail and recycling. The retail segment is comprised of income generated through our ApplianceSmart Factory Outlet stores, which includes appliance sales and byproduct revenues from collected appliances. Our recycling segment includes all fees charged and costs incurred for collecting, recycling and installing appliances for utilities and other customers and includes byproduct revenue, which is primarily generated through the recycling of appliances. Retail revenues typically have lower profit margins than recycling revenues.

Retail Segment. We operated twenty and sixteen factory outlet stores at the end of the second quarters of 2009 and 2008, respectively. Our twenty factory outlet stores are located in convenient, high-traffic locations in Georgia, Minnesota, Ohio and Texas. In 2008, we opened four new factory outlet stores: our sixth and seventh in Minnesota, third in Texas and fifth in Georgia. In January 2009, we opened our sixth factory outlet store in Georgia.

Edgar Filing: APPLIANCE RECYCLING CENTERS OF AMERICA INC /MN - Form 10-Q

Recycling Segment. We operate seven processing and recycling centers, which are located in Minnesota, California, Texas, Illinois, Colorado and Ontario, Canada. We are actively pursuing opportunities to support energy efficiency programs run by electric utility companies. We handle appliance recycling programs for and in the service territories of Southern California Edison; San Diego Gas & Electric; Southern California Public Power Authority; Austin Energy, AEP Texas and Oncor Electric Delivery in Texas; Ameren and City Water Light & Power in Illinois; Wisconsin Public Power; Ontario Power Authority; Minnesota Power; Xcel Energy in Colorado and New Mexico; Baltimore Gas and Electric in Maryland; and several Southern California municipal electric utilities.

Recent Developments

On June 1, 2009, we completed a \$0.3 million investment in Diagnostico y Administracion de Logistica Inversa, S.A. de C.V. (DALI), a Mexican company. DALI is a joint venture that operates a refrigerator recycling program sponsored by the Mexican government. Our investment represents a 46.3% ownership in the joint venture. The DALI joint venture is accounted for under the equity method and is presented in the consolidated balance sheets as a component of

Table of Contents

other assets. The recycling program is a four-year program that is funded annually, with plans to recycle a total of 1.6 million refrigerators. The results of the joint venture were immaterial for June 2009.

During July 2009, we negotiated \$0.2 million in lease concessions with two landlords that will result in deferring rent payments for the remainder of 2009 and adding the payments to the end of the lease.

On August 11, 2009, we entered into an agreement to sell and lease back our St. Louis Park, Minnesota, building. The building is a 126,000 square foot facility which includes our executive offices, a processing and recycling center and a retail store. Pursuant to the agreement, we will sell our St. Louis Park building for \$4.7 million and lease the building back over an initial lease term of five years. The sale of the building will provide the Company with approximately \$2.0 million after the repayment of the mortgage. The sale of the building is contingent on the purchaser obtaining the necessary financing. Both parties contemplate the closing of the sale on or before October 12, 2009.

On August 11, 2009, we received a waiver letter from our lender for a violation of certain financial covenants as of July 4, 2009.

Results of Operations

The following table sets forth our consolidated operating results for the periods indicated as a percentage of total revenues:

	Three Months Ended		Six Months Ended	
	July 4, 2009	June 28, 2008	July 4, 2009	June 28, 2008
Revenues	100.0%	100.0%	100.0%	100.0%
Cost of revenues	70.1	67.5	73.0	68.0
Gross profit	29.9	32.5	27.0	32.0
Selling, general and administrative expenses	30.4	27.3	30.5	28.1
Operating income (loss)	(0.5)	5.2	(3.5)	3.9
Other income (expense):				
Interest expense, net	(1.0)	(1.1)	(1.1)	(1.3)
Other expenses, net	(0.4)	0.0	(0.1)	0.0
Income (loss) from continuing operations before income taxes	(1.9)	4.1	(4.7)	2.6
Provision for (benefit from) income taxes	(0.3)	1.0	(0.2)	0.3
Income (loss) from continuing operations	(1.6)	3.1	(4.5)	2.3
Loss from discontinued operations, net of income taxes	0.0	(0.3)	0.0	(0.5)
Net income (loss)	(1.6)%	2.8%	(4.5)%	1.8%

Table of Contents**For the Three Months Ended July 4, 2009 and June 28, 2008**

The following table sets forth the key results of operations by segment for the three months ended July 4, 2009 and June 28, 2008 (dollars in millions):

	2009		2008		% Change
Revenues:					
Retail	\$	19.4	\$	21.2	(8.2)%
Recycling		6.0		8.5	(29.8)%
Total revenues	\$	25.4	\$	29.7	(14.4)%
Operating income (loss):					
Retail	\$	(0.6)	\$	0.7	(186.6)%
Recycling		0.5		1.3	(61.5)%
Unallocated corporate costs				(0.5)	100.0%
Total operating income (loss)	\$	(0.1)	\$	1.5	(109.4)%

Revenues. Revenues for the three months ended July 4, 2009 and June 28, 2008 are as follows (dollars in millions):

	2009		2008		% Change
Retail	\$	19.3	\$	21.0	(7.9)%
Recycling		5.4		7.3	(26.3)%
Byproduct		0.7		1.4	(50.6)%
	\$	25.4	\$	29.7	(14.4)%

Our total revenues of \$25.4 million for the second quarter of 2009 decreased \$4.3 million or 14.4% from \$29.7 million in the second quarter of 2008. Retail revenues accounted for 76% of total revenues for the second quarter of 2009 compared to 71% in the second quarter of 2008.

Retail Revenues. Our retail revenues of \$19.3 million for the second quarter of 2009 decreased \$1.7 million or 7.9% from \$21.0 million in the second quarter of 2008. The decrease in retail revenues was due primarily to price compression on product to remain competitive with retailers in the current economic environment and lower customer traffic in our stores. Our second quarter comparable store revenues from the sixteen ApplianceSmart Factory Outlets open for the past twelve months decreased 19.7% or \$4.0 million. We opened five new factory outlet stores throughout 2008 and early in 2009. These new stores contributed \$2.3 million of additional revenues in the second quarter of 2009 compared to the second quarter of 2008. We expect the economic slowdown and cutback in consumer spending to continue through 2009, negatively impacting our sales. We do not plan to open any additional retail stores for the remainder of 2009 and we have delayed the planned opening of our Cumming, Georgia, store until January 2010. We are also evaluating several underperforming stores and determining the best course of action, including negotiating lease concessions and closing underperforming stores during the third and fourth quarters of 2009.

Recycling Revenues. Our recycling revenues of \$5.4 million for the second quarter of 2009 decreased \$1.9 million or 26.3% from \$7.3 million in the second quarter of 2008. The decrease was due primarily to recycling fewer appliances under our California contracts in 2009 compared to 2008. Our contract with Southern California Edison was reduced by 25% in 2009. During the second quarter, we signed new appliance recycling contracts to support programs sponsored by Xcel Energy and Baltimore Gas and Electric. These programs will commence operations

Edgar Filing: APPLIANCE RECYCLING CENTERS OF AMERICA INC /MN - Form 10-Q

in the third quarter of 2009. We are aggressively pursuing new appliance recycling programs but cannot predict if we will be successful in signing new contracts or renewing existing contracts.

Byproduct Revenues. Our byproduct revenues of \$0.7 million for the second quarter of 2009 decreased \$0.7 million or 50.6% from \$1.4 million in the second quarter of 2008. The decrease was due primarily to lower recycling volumes and

Table of Contents

lower scrap metal prices compared to the second quarter of 2008. We expect that scrap material prices will stay depressed throughout 2009 compared to 2008.

Gross Profit. Our overall gross profit of \$7.6 million for the second quarter decreased \$2.0 million or 21.4% from \$9.6 million in the second quarter of 2008. Our gross profit as a percentage of total revenues for the second quarter of 2009 was 29.9% compared to 32.5% in the second quarter of 2008. The decrease in gross profit was related primarily to our retail segment and attributed to price compression on product, lower comparable store sales and a sales shift from out-of-the-box product to in-the-box product. Our retail segment gross profit as a percentage of related revenues for the second quarter of 2009 was 28.5% compared to 32.4% for the second quarter of 2008. Our retail margins on out-of-the box product are typically higher than in-the-box product. Our recycling segment gross profit as a percentage of related revenues for the second quarter of 2009 was 34.3% compared to 32.9% for the second quarter of 2008. The increase in recycling gross profit percentage was due primarily to cost saving initiatives in several areas. Recycling gross profit percentages are typically higher than retail gross profit percentages.

Selling, General and Administrative Expenses. Our selling, general and administrative (SG&A) expenses of \$7.7 million for the second quarter of 2009 decreased \$0.4 million or 4.7% from \$8.1 million in the second quarter of 2008. Our SG&A expenses as a percentage of total revenues for the second quarter of 2009 were 30.4% compared to 27.3% for the second quarter of 2008. Selling expenses increased \$0.3 million to \$5.4 million in the second quarter of 2009 from \$5.1 million in the second quarter of 2008. The increase in selling expenses was due primarily to the four new factory outlet stores open during the second quarter of 2009 compared to the second quarter of 2008. General and administrative expenses decreased \$0.6 million to \$2.4 million in the second quarter of 2009 from \$3.0 million in the second quarter of 2008. The decrease was due primarily to cost-saving initiatives implemented in the second quarter of 2009. We expect general and administrative expenses to continue to be lower compared to 2008 as a result of cumulative cost-saving initiatives implemented throughout 2009.

Interest Expense. Interest expense decreased \$0.1 million to \$0.2 million in the second quarter of 2009 compared to \$0.3 million in the second quarter of 2008. The decrease was due primarily to the decline in the weighted average interest rate on our line of credit. We cannot predict what will happen with interest rates throughout the remainder of 2009.

Provision for (Benefit from) Income Taxes. We recorded a benefit from income taxes of \$0.1 million for the second quarter of 2009 compared to a provision for income taxes of \$0.3 million for the second quarter of 2008. In the second quarter of 2009, we recorded a discrete item related to additional Canadian tax deductions determined by completing a detailed transfer pricing study. We recognized a tax benefit of approximately \$0.2 million related solely to our Canadian operations compared to the original tax provision estimate for fiscal 2008. We also recorded a provision for income taxes of \$0.1 million related to second quarter 2009 taxable income from our Canadian operation. We did not record a provision for or benefit from income taxes for our U.S. subsidiaries because we have available net operating losses to offset future taxable income and we have recorded full valuation allowances against our U.S. net deferred tax assets due to the uncertainty of their realization. The realization of deferred tax assets is dependent upon sufficient future taxable income during the periods when deductible temporary differences and carryforwards are expected to be available to reduce taxable income.

Table of Contents**For the Six Months Ended July 4, 2009 and June 28, 2008**

The following table sets forth the key results of operations by segment for the six months ended July 4, 2009 and June 28, 2008 (dollars in millions):

	2009		2008		% Change
Revenues:					
Retail	\$	40.4	\$	40.1	0.8%
Recycling		11.1		15.3	(27.1)%
Total revenues	\$	51.5	\$	55.4	(6.9)%
Operating income (loss):					
Retail	\$	(1.9)	\$	1.9	(205.1)%
Recycling		0.1		1.1	(87.6)%
Unallocated corporate costs				(0.9)	100.0%
Total operating income (loss)	\$	(1.8)	\$	2.1	(185.0)%

Revenues. Revenues for the three months ended July 4, 2009 and June 28, 2008 are as follows (dollars in millions):

	2009		2008		% Change
Retail	\$	40.3	\$	39.9	1.1%
Recycling		9.9		13.2	(24.9)%
Byproduct		1.3		2.3	(41.4)%
	\$	51.5	\$	55.4	(6.9)%

Our total revenues of \$51.5 million for the six months ended July 4, 2009 decreased \$3.9 million or 6.9% from \$55.4 million for the six months ended June 28, 2008. Retail revenues accounted for 78% and 72% of total revenues for the six months ended July 4, 2009 and June 28, 2008, respectively.

Retail Revenues. Our retail revenues of \$40.3 million for the six months ended July 4, 2009 increased \$0.4 million or 1.1% from \$39.9 million for the six months ended June 28, 2008. The increase in retail revenues was due primarily to opening new factory outlet stores throughout 2008 and early in 2009. These new stores contributed \$6.0 million of additional revenues in 2009 compared to 2008. Our comparable store revenues of the ApplianceSmart Factory Outlets open during the last twelve months were down 14.6% or \$5.6 million. The decrease in comparable store revenues is due primarily to price compression on product to remain competitive with other retailers in the current economic environment and lower customer traffic in our stores. We expect the economic slowdown and cutback in consumer spending to continue through 2009, negatively impacting our sales. We do not plan to open any additional retail stores for the remainder of 2009 and we have delayed the planned opening of our Cumming, Georgia, store until January 2010. We are also evaluating several underperforming stores and determining the best course of action, including negotiating lease concessions and closing underperforming stores during the third and fourth quarters of 2009.

Our factory outlets carry a wide range of new in-the-box and special-buy appliances, which include manufacturer closeouts, factory overruns, floor samples, returned or exchanged items, open-carton items, and scratch and dent appliances. All these appliances are new. Some are in the carton while others are out of the carton.

We continue to purchase the majority of both new in-the-box and special-buy appliances from five major manufacturers. We have no minimum purchase requirements with any of these manufacturers. We believe purchases from these five manufacturers will provide an adequate supply of high-quality appliances for our retail factory outlets; however, there is a risk that one or more of these sources could be curtailed or lost.

Recycling Revenues. Our recycling revenues of \$9.9 million for the six months ended July 4, 2009 decreased \$3.3 million or 24.9% from \$13.2 million for the six months ended June 28, 2008. The decrease was due primarily to

Table of Contents

recycling fewer appliances under our California contracts in 2009 compared to 2008. Our contract with Southern California Edison was reduced by 25% in 2009. Additionally, the revenues from our refrigerator replacement program with Los Angeles Department of Water and Power were down due to lower volumes and the contract not being renewed until the fourth week of January 2009. We expect recycling revenues to continue to lag behind 2008 for the remainder of 2009. However, we are aggressively pursuing new appliance recycling programs but cannot predict if we will be successful in signing new contracts or renewing existing contracts.

Byproduct Revenues. Our byproduct revenues of \$1.3 million for the six months ended July 4, 2009 decreased \$1.0 million or 41.4% from \$2.3 million for the six months ended June 28, 2008. The decrease was due primarily to lower volumes and lower scrap metal prices compared to 2008. We expect that scrap material prices will stay depressed and byproduct revenues will lag behind 2008 throughout the remainder of 2009.

Gross Profit. Our overall gross profit of \$13.9 million for the six months ended July 4, 2009 decreased \$3.8 million or 21.4% from \$17.7 million for the six months ended June 28, 2008. Our gross profit as a percentage of total revenues for the six months ended July 4, 2009 was 27.0% compared to 32.0% for the six months ended June 28, 2008. The decrease in gross profit is related primarily to our retail segment and attributed to price compression on product, lower comparable store sales and a sales shift from out-of-the-box product to in-the-box product. Our retail segment gross profit as a percentage of related revenues for the six months ended July 4, 2009 was 26.1% compared to 33.9% for the six months ended June 28, 2008. Our retail margins on out-of-the box product are typically higher than in-the-box product. Our recycling segment gross profit as a percentage of related revenues for the six months ended July 4, 2009 was 30.4% compared to 26.9% for the six months ended June 28, 2008. The increase in the recycling gross profit percentage is due primarily to cost-saving initiatives in several areas. Recycling gross profit percentages are typically higher than retail gross profit percentages. Our gross profit as a percentage of total revenues for future periods can be affected favorably or unfavorably by numerous factors, including:

1. The mix of retail products we sell.
2. The prices at which we purchase product from the major manufacturers who supply product to us.
3. The volume of appliances we receive through our recycling contracts.
4. The volume and price of scrap metals, plastics and reclaimed CFCs.

Unless we can significantly increase our appliance purchasing volume, resulting in a higher level rebates, or sign substantial recycling contracts utilizing our current recycling facilities, overall gross profit percentages are expected to remain flat or slightly lower in 2009 compared to 2008.

Selling, General and Administrative Expenses. Our selling, general and administrative (SG&A) expenses of \$15.7 million for the six months ended July 4, 2009 increased \$0.1 million or 1.2% from \$15.6 million for the six months ended June 28, 2008. Our SG&A expenses as a percentage of total revenues for the six months ended July 4, 2009 were 30.5% compared to 28.1% for the six months ended June 28, 2008. Selling expenses increased \$1.1 million to \$11.0 million for the six months ended July 4, 2009 from \$9.9 million for the six months ended June 28, 2008. The increase in selling expenses was due primarily to the new factory outlet stores opened over the last twelve months. General and administrative expenses decreased \$0.9 million to \$4.8 million for the six months ended July 4, 2009 from \$5.7 million for the six months ended June 28, 2008. The decrease was due primarily to cost containment initiatives implemented throughout 2009. We expect these cost containment initiatives to generate annual savings of approximately \$2.6 million. Additionally, we have engaged the services of a consultant with retail lease expertise to negotiate lease concessions related to underperforming stores.

Interest Expense. Interest expense decreased \$0.1 million to \$0.6 million for the six months ended July 4, 2009 compared to \$0.7 million for the six months ended June 28, 2008. The decrease was due primarily to the decline in the weighted average interest rate on our line of credit. We cannot predict what will happen with interest rates throughout the remainder of 2009.

Provision for Income Taxes. We recorded a benefit from income taxes of \$0.1 million for the six months ended July 4, 2009 compared to a provision for income taxes of \$0.2 million for the six months ended June 28, 2008. In the second

Table of Contents

quarter of 2009, we recorded a discrete item related to additional Canadian tax deductions determined by completing a detailed transfer pricing study. We recognized a tax benefit of approximately \$0.2 million related solely to our Canadian operations compared to the original tax provision estimate for fiscal 2008. We also recorded a provision for income taxes of \$0.1 million related to the 2009 taxable income from our Canadian operation, which partially offset the discrete item recognized in the second quarter of 2009. We did not record a provision for or benefit from income taxes for our U.S. subsidiaries because we have available net operating losses to offset future taxable income and we have recorded full valuation allowances against our U.S. net deferred tax assets due to the uncertainty of their realization. The realization of deferred tax assets is dependent upon sufficient future taxable income during the periods when deductible temporary differences and carryforwards are expected to be available to reduce taxable income.

Liquidity and Capital Resources

Principal Sources and Uses of Liquidity. Our principal sources of liquidity are cash from operations and borrowings under our line of credit. Our principal liquidity requirements consist of long-term debt and capital lease obligations, capital expenditures and working capital. Our cash and cash equivalents as of July 4, 2009 were \$1.7 million compared to \$3.5 million as of January 3, 2009. Our working capital decreased to \$3.4 million as of July 4, 2009 compared to \$5.8 million as of January 3, 2009.

Net Cash Provided by Operating Activities. Our net cash provided by operating activities was \$1.4 million for the six months ended July 4, 2009 compared to \$2.2 million for the six months ended June 28, 2008. The decrease in cash provided by operating activities was due primarily to lower revenue and retail gross profit percentages offset by cash provided by reducing our inventories.

Net Cash Used in Investing Activities. Our net cash used in investing activities was \$0.6 million for the six months ended July 4, 2009 compared to \$0.4 million for the six months ended June 28, 2008. The increase in net cash used in investing activities was due primarily to our \$0.3 million investment in DALI that was completed on June 1, 2009. The remainder of the net cash used in investing activities was related to internal software development, and the purchase of computer equipment, phone systems, and leasehold improvements to support our new factory outlet store openings. We did not have any material purchase commitments for assets as of July 4, 2009.

Net Cash Used in Financing Activities. Our net cash used in financing activities was \$2.5 million for the six months ended July 4, 2009 compared to \$1.4 million for the six months ended June 28, 2008. The net cash used in financing activities in 2009 and 2008 was due primarily to net payments on our line of credit and payments on our long-term obligations. During the six months ended June 28, 2008, the cash used in financing activities was partially offset by receiving \$0.2 million in cash related to the exercise of stock options.

Outstanding Indebtedness. We have an \$18.0 million line of credit with a lender. The line was increased from \$16.0 million to \$18.0 million on February 5, 2008. The interest rate on the line as of July 4, 2009 and January 3, 2009 was 6.25% (the greater of prime plus 1.50 percentage points or 6.25%). The amount of borrowings available under the line of credit is based on a formula using receivables and inventories. Our unused borrowing capacity under this line was \$0.2 million and \$0.4 million as of July 4, 2009 and January 3, 2009, respectively. We may not have access to the full \$18.0 million line of credit due to the formula using our receivables and inventories. The line of credit has a stated maturity date of December 31, 2010, if not renewed, and provides that the lender may demand payment in full of the entire outstanding balance of the loan at any time. The line of credit is collateralized by substantially all our assets and requires minimum monthly interest payments of \$58,000, regardless of the outstanding principal balance. The lender is also secured by an inventory repurchase agreement with Whirlpool Corporation for purchases from Whirlpool only. The loan requires that we meet certain financial covenants, provides payment penalties for noncompliance and prepayment, limits the amount of other debt we can incur, limits the amount of spending on fixed assets and prohibits payments of dividends. As of July 4, 2009 and January 3, 2009, we were not in compliance with certain financial covenants of the loan

agreement and received a waiver from the lender for those dates.

Table of Contents

In September 2008, we entered into a master equipment lease with a lender providing up to \$0.3 million in available funds. We utilized the entire lease line to fund equipment for the new retail outlets opened in December 2008 and January 2009.

In March 2009, we entered into a master equipment lease with a lender providing up to \$0.1 million in available funds. We utilized the entire lease line in March 2009 to fund equipment for our retail outlet stores.

In June 2009, we entered into a master equipment lease with a lender providing up to \$0.1 million in available funds. We utilized the entire lease line in June 2009 to fund equipment and displays for our retail outlet stores.

As of July 4, 2009, we had long-term obligations of \$5.3 million consisting of mortgages on our Minnesota and California buildings along with various financings, primarily consisting of capital leases.

We believe based on our cost containment initiatives; the sale-leaseback of our St. Louis Park building; close evaluation of our underperforming stores and obtaining lease concessions or closing underperforming stores; the anticipated sales per retail store; the anticipated revenues from our recycling contracts; our anticipated gross profit; our cash balance; our anticipated funds generated from operations; and our current line of credit will be sufficient to finance our operations, long-term obligations and capital expenditures for at least the next twelve months. Our total capital requirements for 2009 will depend upon, among other things as discussed below, the number and size of retail stores operating during the fiscal year and the recycling volumes generated from recycling contracts in 2009. Currently, we have twenty retail stores and seven recycling centers in operation. We may need additional capital to finance our operations if our profits are lower than anticipated or if we pursue new opportunities. Sources of additional financing, if needed in the future, may include further debt financing or the sale of equity (common or preferred stock) or other financing opportunities. There can be no assurance that such additional sources of financing will be available on terms satisfactory to us or permitted by our current debt agreement.

Item 3.

Quantitative and Qualitative Disclosures About Market Risk

Market Risk and Impact of Inflation

Interest Rate Risk. We do not believe there is any significant risk related to interest rate fluctuations on our long-term fixed-rate debt. There is interest rate risk on the line of credit, since our interest rate floats with prime. The outstanding balance on our line of credit as of July 4, 2009 was \$12.4 million. There is also interest rate risk on approximately \$2.7 million in long-term debt entered into in September 2002, since our interest rate is based on the 30-day LIBOR rate. Although the \$12.4 million line of credit is subject to a minimum interest rate of 6.25%, based on average floating rate borrowings of \$15.1 million, a hypothetical 100 basis point change in the applicable interest rate would have caused our interest expense to change by immaterial amounts for the three- and six-month periods ended July 4, 2009.

Foreign Currency Exchange Rate Risk. We currently generate revenues in Canada. The reporting currency for our consolidated financial statements is U.S. dollars. It is not possible to determine the exact impact of foreign currency exchange rate changes; however, the effect on reported revenue and net earnings can be estimated. We estimate that the overall strength of the U.S. dollar against the Canadian dollar had an

Edgar Filing: APPLIANCE RECYCLING CENTERS OF AMERICA INC /MN - Form 10-Q

unfavorable impact on revenues in the amounts of approximately \$0.3 million and \$0.6 million for the three and six months ended July 4, 2009, respectively. In addition, we estimate that such strength had an unfavorable impact of approximately \$0.1 million and \$0.2 million on our net income for the three and six months ended July 4, 2009, respectively. We do not currently hedge foreign currency fluctuations and do not intend to do so for the foreseeable future.

We do not hold any derivative financial instruments nor do we hold any securities for trading or speculative purposes.

Also, we believe the decline in the housing and credit markets could adversely affect buying habits of our customers throughout at least the remainder of 2009.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 (the Exchange Act), as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our Board of Directors and senior management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Based on their evaluation, of our disclosure controls and procedures conducted as of July 4, 2009, the principal executive officer and principal financial officer of the Company have concluded, pursuant to the Exchange Act Rule 13a-15(b), that as of that date our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

During the second quarter of fiscal 2009, there was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Table of Contents

PART II. Other Information

Item 1. Legal Proceedings

In December 2004, we filed suit in the U.S. District Court for the Central District of California alleging that JACO Environmental, Inc. (JACO) and one of our former consultants fraudulently obtained U.S. Patent No. 6,732,416 in May 2004 covering appliance recycling methods and systems which were originally developed by us beginning in 1987 and used in serving more than forty-five electric utility appliance recycling programs up to the time the suit was filed. We sought an injunction to prevent JACO from claiming that it obtained a valid patent on appliance recycling processes that we believe is based on methods and processes we invented. In addition, we asked the Court to find that the patent obtained by JACO is unenforceable due to inequitable conduct before the United States Patent Office. We also asked the court for unspecified damages related to charges that JACO, in using the patent to promote its services, engaged in unfair competition and false and misleading advertising under federal and California statutes.

In September 2005, we received a legally binding document in which JACO stated it would not sue us or any of our customers for violating the JACO patent. Further, the defendants in the case did not assert any counterclaims against ARCA.

In January 2009, the Court granted JACO a summary judgment in ARCA's lawsuit against the parties. The ruling was made by the same judge who had earlier denied summary judgment to the defendants. Even though the Court's ruling will have no impact on our method of recycling or ability to conduct existing or future business, we filed an appeal with the Ninth Circuit Court of Appeals in California in February 2009 seeking to have the court set aside the summary judgment. We believe the decision by the trial judge was in error and contrary to the law relating to unfair competition and false advertising. We believe we are entitled to our day in court against JACO for damages caused by their actions, but we do not yet have a timeline on a decision of the appeal.

On October 24, 2006, JACO and SEG Umwelt-Service/Basis of Mettlach, Germany (SEG) filed a patent infringement lawsuit in Federal Court in San Francisco against us. The suit claimed that we had been using refrigerator recycling systems and processes covered by two U.S. patents issued to SEG and exclusively licensed to JACO. JACO and SEG sought an undisclosed amount in damages, in addition to an injunction barring us from continuing to use and market the systems and processes upon which we allegedly infringed. This suit was subsequently dismissed following a transfer of the case to Los Angeles upon the motion of ARCA.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

On May 14, 2009, we held our Annual Meeting of Shareholders to obtain the approval of record as of March 26, 2009 in connection with the election of directors. Proxies were mailed to the holders of 4,577,777 shares of Common Stock. The following is a summary of the votes cast for or withheld for the election of directors.

	For	Withheld
Edward R. Cameron	3,158,927	598,842
