PENNS WOODS BANCORP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The consolidated financial statements include the accounts of Penns Woods Bancorp, Inc. (the Company) and its wholly-owned subsidiaries: Woods Investment Company, Inc., Woods Real Estate Development Company, Inc., and Jersey Shore State Bank (the Bank) and its wholly-owned subsidiary, The M Group, Inc. D/B/A The Comprehensive Financial Group (The M Group). All significant inter-company balances and transactions have been eliminated in the consolidation.

The interim financial statements are unaudited but, in the opinion of management, reflect all adjustments necessary for the fair presentation of results for such periods. The results of operations for any interim period are not necessarily indicative of results for the full year. These financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company s Annual Report on Form 10-K for the year ended December 31, 2010.

The accounting policies followed in the presentation of interim financial results are the same as those followed on an annual basis. These policies are presented on pages 39 through 46 of the Annual Report on Form 10-K for the year ended December 31, 2010.

In reference to the attached financial statements, all adjustments are of a normal recurring nature pursuant to Rule 10-01(b) (8) of Regulation S-X.

Note 2. Recent Accounting Pronouncements

In October, 2010, the FASB issued ASU 2010-26, *Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts*. This ASU addresses the diversity in practice regarding the interpretation of which costs relating to the acquisition of new or renewal insurance contracts qualify for deferral. The amendments are effective for fiscal years and interim periods within those fiscal years, beginning after December 15, 2011 and are not expected to have a significant impact on the Company s financial statements.

In December, 2010, the FASB issued ASU 2010-28, When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts. This ASU modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating impairment may exist. The qualitative factors are consistent with the existing guidance,

which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. For public entities, the amendments in this update are effective for fiscal year, and interim periods within those years, beginning after December 15, 2010. Early adoption is not permitted. For nonpublic entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Nonpublic entities may early adopt the amendments using the effective date for public entities. This ASU did not have a significant impact on the Company s financial statements.

In January 2011, the FASB issued ASU 2011-01, Receivables (Topic 310): Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20. The amendments in this update temporarily delay the effective date of the disclosures about troubled debt restructurings in update

Table of Contents

2010-20, enabling public-entity creditors to provide those disclosures after the FASB clarifies the guidance for determining what constitutes a troubled debt restructuring. The deferral in this update will result in more consistent disclosures about troubled debt restructurings. This amendment does not defer the effective date of the other disclosure requirements in Update 2010-20. In the proposed update for determining what constitutes a troubled debt restructuring, the FASB proposed that the clarifications would be effective for interim and annual periods ending after June 15, 2011. For the new disclosures about troubled debt restructurings in Update 2010-20, those clarifications would be applied retrospectively to the beginning of the fiscal year in which the proposal is adopted. This ASU is not expected to have a significant impact on the Company's financial statements.

In April 2011, the FASB issued ASU 2011-02, *Receivables (Topic 310): A Creditor s Determination of Whether a Restructuring Is a Troubled Debt Restructuring.* The amendments in this update provide additional guidance or clarification to help creditors in determining whether a creditor has granted a concession and whether a debtor is experiencing financial difficulties for purposes of determining whether a restructuring constitutes a troubled debt restructuring. The amendments in this update are effective for the first interim or annual reporting period beginning on or after June 15, 2011, and should be applied retrospectively to the beginning annual period of adoption. As a result of applying these amendments, an entity may identify receivables that are newly considered impaired. For purposes of measuring impairment of those receivables, an entity should apply the amendments prospectively for the first interim or annual period beginning on or after June 15, 2011. This ASU is not expected to have a significant impact on the Company s financial statements.

In April 2011, the FASB issued ASU 2011-03, *Reconsideration of Effective Control for Repurchase Agreements*. The main objective in developing this update is to improve the accounting for repurchase agreements (repos) and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. The amendments in this update remove from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the collateral maintenance implementation guidance related to that criterion. The amendments in this update apply to all entities, both public and nonpublic. The amendments affect all entities that enter into agreements to transfer financial assets that both entitle and obligate the transferor to repurchase or redeem the financial assets before their maturity. The guidance in this update is effective for the first interim or annual period beginning on or after December 15, 2011 and should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. This ASU is not expected to have a significant impact on the Company s financial statements.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs.* The amendments in this update result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The amendments in this update are to be applied prospectively. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2011. For nonpublic entities, the amendments are effective for annual periods beginning after December 15, 2011. Early application by public entities is not permitted. The Company is currently evaluating the impact the adoption of the standard will have on the Company is financial statements.

In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income*. The amendments in this update improve the comparability, clarity, consistency, and transparency of financial reporting and increase the prominence of items reported in other comprehensive income. To increase the prominence of items reported in other comprehensive income and to facilitate convergence of U.S. GAAP and IFRS, the

Table of Contents

option to present components of other comprehensive income as part of the statement of changes in stockholders equity was eliminated. The amendments require that all non-owner changes in stockholders equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income, the components of other comprehensive income, and the total of comprehensive income. All entities that report items of comprehensive income, in any period presented, will be affected by the changes in this update. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. For nonpublic entities, the amendments are effective for fiscal years ending after December 15, 2012, and interim and annual periods thereafter. The amendments in this update should be applied retrospectively, and early adoption is permitted. The Company is currently evaluating the impact the adoption of the standard will have on the Company is financial statements.

Note 3. Per Share Data

There are no convertible securities which would affect the denominator in calculating basic and dilutive earnings per share. Net income as presented on the consolidated statement of income will be used as the numerator. The following table sets forth the composition of the weighted average common shares (denominator) used in the basic and dilutive earnings per share computation.

	Three Months E 2011	nded June 30, 2010	Six Months E 2011	Inded June 30, 2010
Weighted average common shares issued	4,016,381	4,013,892	4,016,138	4,013,610
Average treasury stock shares	(180,596)	(179,728)	(180,596)	(179,380)
Weighted average common shares and common stock equivalents used to calculate basic earnings per share	3,835,785	3,834,164	3,835,542	3,834,230
Additional common stock equivalents (stock options) used to calculate diluted earnings per share		127		140
Weighted average common shares and common stock equivalents used to calculate diluted earnings per share	3,835,785	3,834,291	3,835,542	3,834,370

Options to purchase 990 shares of common stock at a strike price of \$24.72 were outstanding during the six months ended June 30, 2010 and were included in the computation of diluted earnings per share. The average market price of the Company s stock was \$31.46 for the six months ended June 30, 2010. There were no options outstanding during the six months ended June 30, 2011.

Note 4. Investment Securities

The amortized cost and fair values of investment securities at June 30, 2011 and December 31, 2010 are as follows:

At June 30, 2011 there were a total of 92 and 77 individual securities that were in a continuous unrealized loss position for less than twelve months and greater than twelve months, respectively.

The Company reviews its position quarterly and has determined that, at June 30, 2011, the declines outlined in the above table represent temporary declines and the Company does not intend to sell and does not believe it will be required to sell these securities before recovery of their cost basis, which may be at maturity. There were 169 positions that were temporarily impaired at June 30, 2011. The Company has concluded that the unrealized losses disclosed above are not other than temporary but are the result of interest rate changes, sector credit ratings changes, or company-specific ratings changes that are not expected to result in the non-collection of principal and interest during the period.

The amortized cost and fair value of debt securities at June 30, 2011, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities since borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

		Available	e for Sale		Held to Maturity
