Item 1.01 Entry Into a Material Definitive Agreement.

On July 19, 2013, Boise Cascade Company (the Company) announced that it and its wholly-owned subsidiary, Boise Cascade Wood Products, L.L.C., have entered into a Limited Liability Company Interest Purchase Agreement, dated July 19, 2013, to purchase the Southeast operations of Wood Resources LLC. These operations consist of a plywood manufacturing facility located in each of North and South Carolina. In accordance with the terms of the purchase agreement, the Company will acquire 100% of the equity interests of both Chester Wood Products LLC and Moncure Plywood LLC. Chester Wood Products, based in Chester, South Carolina, produces softwood plywood panels and veneer for a variety of end markets. The approximate annual plywood production capacity at the Chester facility is 320 million square feet. Moncure Plywood, based in Moncure, North Carolina, is a flexible specialty plywood mill that produces both hardwood and softwood panels. The approximate annual plywood production capacity at the Moncure facility is 150 million square feet.

The purchase price for the acquisition is \$102.0 million, subject to adjustment at closing based upon a working capital target. The closing of the acquisition is expected to occur prior to September 30, 2013. The agreement contains standard representations and warranties, indemnities and closing conditions, including receipt of approval under the Hart-Scott-Rodino Act of 1976, as amended. Of the purchase price, \$5.1 million will be placed into escrow at closing to satisfy any claims for indemnification, 50% of which is eligible to be released after one year with the balance released after two years (assuming no pending claims). The Company intends to finance the acquisition with cash on hand and drawings under its revolving credit facility.
