⁽a) Unless otherwise noted, all securities are fair valued. Fair Values are determined pursuant to procedures approved by the Board of Directors. See Note (a) of the accompanying notes to portfolio of investments.

(c) See notes to portfolio of investments for tax unrealized appreciation/depreciation of securities.

See Notes to Portfolio of Investments.

The Japan Equity Fund, Inc.

⁽b) Security is not fair valued.

Notes to Portfolio of Investments (unaudited)
July 31, 2013
Summary of Significant Accounting Policies
(a) Security Valuation:
The Fund is required to value its securities at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.
Equity securities that are traded on an exchange are valued at the last quoted sale price on the principal exchange on which the security is traded at the Valuation Time, subject to application, when appropriate, of the fair valuation factors described in the paragraph below. The Valuation Time is as of the close of regular trading on the New York Stock Exchange (usually 4:00 p.m. Eastern Time). In the absence of a sale price, the security is valued at the mean of the bid/ask quoted at the close on the principal exchange on which the security is traded. Securities traded on NASDAQ are valued at the NASDAQ official closing price. A security using any of these pricing methodologies is determined as a Level 1 investment.
In addition, foreign equity securities that are traded on foreign exchanges that close prior to the Valuation Time are valued by applying fair valuation factors to the last sale price or the mean price as noted above. Fair valuation factors are provided by an independent pricing service provider. These factors are used when pricing the Fund s portfolio holding to estimate market movements between the time foreign markets close and the time the Fund values such foreign securities. These factors are based on inputs such as depositary receipts, indices, futures, sector indices/ETFs, exchange rates, and local exchange opening and closing prices of each security. When the fair value prices are utilized, the value

In the event that a security s market quotations are not readily available or are deemed unreliable, (other than because the foreign exchange on which they trade closed before the Valuation Time), the fair value of a security is determined by the Fund s Pricing Committee, taking into account the relevant factors and surrounding circumstances. A security that has been fair valued by the Pricing Committee may be classified as Level 2 or 3 depending on the nature of the inputs.

assigned to the foreign securities may not be the same as quoted or published prices of the securities on their primary markets. Fair valuation factors are not utilized if the pricing service is unable to provide a valuation factor or if the valuation factor falls below a predetermined threshold. A security that applies a fair valuation factor is determined as a Level 2 investment because the exchange traded price has been

adjusted.

In accordance with the authoritative guidance on fair value measurements and disclosures under accounting principles generally accepted in the United States of America (GAAP), the Fund discloses the fair value of its investments using a three-level hierarchy that classifies the inputs to valuation techniques used to measure the fair value. The hierarchy assigns Level 1 measurements to valuations based upon unadjusted quoted prices in active markets for identical assets and Level 3 measurements to valuations based upon unobservable inputs that are significant to the valuation. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability, which are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity s

own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument s level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. The three-tier hierarchy of inputs is summarized below:

Level 1 quoted prices in active markets for identical investments;
Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, and credit risk); or
Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments).
The following is a summary of the inputs used as of July 31, 2013 in valuing the Fund s investments at fair value. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Please refer to the Portfolio of Investments for a detailed breakout of the security types:
See Notes to Portfolio of Investments.
The Japan Equity Fund, Inc.

Notes to Portfolio of Investments (unaudited) (continued)

July 31, 2013

Investments	Level 1	Level 2	Level 3	Total
Long-Term Investments	\$	\$ 101,556,774	\$	\$ 101,556,774
Short-Term Investment		332,000		332,000
Total Investments	\$	\$ 101,888,774	\$	\$ 101,888,774

The Fund held no Level 3 securities at July 31, 2013.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing transfers at the end of each period. During the period ended July 31, 2013, there were no transfers between Level 1 and Level 2. For the period ended July 31, 2013, there have been no significant changes to the fair valuation methodologies.

(b) Repurchase Agreements:

The Fund may enter into repurchase agreements under the terms of a Master Repurchase Agreement. It is the Fund s policy that its custodian/counterparty segregate the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. The repurchase price generally equals the price paid by the Fund plus interest negotiated on the basis of current short-term rates. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. Under the Master Repurchase Agreement, if the counterparty defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the counterparty of the security, realization of the collateral by the Fund may be delayed or limited. The Fund held a repurchase agreement of \$332,000 as of July 31, 2013. The value of the related collateral exceeded the value of the repurchase agreement at period end.

(c) Foreign Currency Translation:

The books and records of the Fund are maintained in U.S. Dollars as follows: (1) the foreign currency market value of investment securities and other assets and liabilities stated in Japanese yen are translated at the exchange rate prevailing at the end of the period; and (2) purchases, sales, income and expenses are translated at the rate of exchange prevailing on the respective dates of such transactions. The Fund does not isolate the effect of fluctuations in foreign exchange rates from the effect of fluctuations in the market price of securities. Foreign securities, currencies, and other assets and liabilities denominated in foreign currencies are translated into U.S. Dollars at the exchange rate of said currencies against the U.S. Dollar, as of the Valuation Time, as provided by an independent pricing service approved by the Fund Board of Directors.

(d) Security Transactions, Investment Income and Expenses:

Investment transactions are recorded on the trade date (the date upon which the order to buy or sell is executed). Realized and unrealized gains and losses from security and foreign currency transactions are calculated on the identified cost basis. Dividend income and corporate actions are recorded generally on the ex-date, except for certain dividends and corporate actions which may be recorded after the ex-date, as soon as the Fund acquires information regarding such dividends or corporate actions. Interest income and expenses are recorded on an accrual basis.

(e) Distributions:

The Fund records dividends and distributions payable to its stockholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These book basis/tax basis (book/tax) differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed net investment income and net realized capital gains for tax purposes are reported as return of capital.

(f) Federal Income Taxes:

For federal income tax purposes, the cost of securities owned at July 31, 2013 was \$92,629,889, excluding short-term investments. At July 31, 2013, the net unrealized appreciation of investments for federal income tax purposes, excluding short-term securities, of \$9,258,885 was composed of gross appreciation of \$11,571,979 for those investments having an excess of value over cost, and gross depreciation of \$(2,313,094) for those investments having an excess of cost over value.

Item 2. Controls and Procedures

- a) The Registrant's Principal Executive Officer and Principal Financial Officer concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (17 CFR 270.30a-3(c))) were effective as of a date within 90 days prior to the filing date of this report (the Evaluation Date), based on their evaluation of the effectiveness of the Registrant's disclosure controls and procedures as required by Rule 30a-3(b) under the Investment Company Act of 1940 (17 CFR 270.30a-3(b)) and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934 (17 CFR 240.13a-15(b) or 240.15d-15(b)), as of the Evaluation Date.
- b) There were no changes in the Registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d))) that occurred during the Registrant s last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant s internal control over financial reporting.

Item 3. Exhibits

(a) Certification of Principal Executive Officer and Principal Financial Officer of the Registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is attached hereto as Exhibit 99.302CERT.
