Table of Contents

CORPORATE GOVERNANCE

Corporate governance is the system by which companies are directed and controlled and involves the distribution of rights and responsibilities among the Board, management and the Company's Members. The Company has established Corporate Governance Guidelines that spell out its overall approach towards corporate governance.

The Company also has a Code of Business Conduct that applies to all directors, officers and employees in carrying out their responsibilities to, and on behalf of, the Company. No waivers of the Code of Business Conduct were requested of, or granted by, the Board for any director or executive officer during 2014.

The Company's Corporate Governance Guidelines and Code of Business Conduct are available at our website, www.whitemountains.com. These documents are available in print, free of charge, to any Member upon request.

The Board

The day-to-day management of the Company, including preparation of financial statements and short-term and long-term strategic planning, is the responsibility of management. The primary responsibility of the Board is to oversee and review management's performance of these functions in order to advance the long-term interests of the Company and its Members.

In fulfilling this responsibility, directors must exercise common sense business judgment and act in what they reasonably believe to be in the best interests of the Company and its Members. Directors are entitled to rely on the honesty and integrity of senior management and the Company's outside advisors and auditors. However, it is the Board's responsibility to establish that they have a reasonable basis for such reliance by ensuring that they have a strong foundation for trusting the integrity, honesty and undivided loyalty of the senior management team upon whom they are relying and the independence and expertise of outside advisors and auditors.

Mr. Barrette serves as Chairman of the Board and as CEO of the Company. The Board believes that the most effective leadership structure for the Company at the present time is for Mr. Barrette to serve in both roles. As CEO, Mr. Barrette is effective at overseeing the complex, decentralized operations of the Company. By virtue of his broad knowledge of the insurance industry and his long experience and track record with the Company, the Board believes Mr. Barrette is best suited to preside over the Board and set its agendas. The Board is composed of directors that, together, are knowledgeable and experienced in the Company's business, and the Board is satisfied that the current structure provides strong oversight of the Company's affairs.

At meetings of the Board, Morgan W. Davis, the Deputy Chairman, presides over a separate session of non-management directors without Company management present.

Director Independence

The Board has determined that a majority of the Company's current directors are independent, as defined in Section 303A of the New York Stock Exchange (NYSE) Listed Company Manual. Those directors determined to be independent are Messrs. Brouillette, Davis, Frinquelli and Smith and Ms. Holiday. For a director to be independent, the Board must determine that the director has no relationship with the Company (other than being a director or shareholder of the Company or its subsidiaries) or has only immaterial relationships with the Company. The Company does not apply categorical standards as a basis for determining director independence. Accordingly, the Board considers all relevant facts and circumstances, on a case-by-case basis, in making an independence determination.

The Board notes no current relationships (other than being directors or shareholders) with Messrs. Brouillette, Frinquelli and Smith or Ms. Holiday. The Board notes relationships with Mr. Davis, as disclosed herein under *Director Compensation* , that it concluded were immaterial and did not impair his independence. In making its independence determinations, the Board considers all such relationships in light of NYSE standards as well as the attributes it believes should be possessed by independent-minded directors. Those attributes include the relative impact of the transactions to the director's personal finances, the perceived degree of dependence by the director or the Company upon the relationship or transactions continuing in the future and whether the transactions were on terms that were reasonable and competitive.

Table of Contents

Under its charter, the Committee is responsible for determining desired Board skills and evaluating attributes such as independence, integrity, expertise, breadth of experience, knowledge about the Company's business or industry and ownership interest in the Company. In selecting director candidates, the Company seeks a diversity of skills and experience, but does not affirmatively seek diversity based on race, gender, or national origin. Directors must be willing to devote adequate time and effort to Board responsibilities. As set forth in the Company's

Corporate Governance Guidelines and its Charter, the Committee is responsible for recommending director candidates to the Board.

Consideration of Director Candidates Nominated by Members. The Company has not adopted a specific policy regarding consideration of director candidates from Members. Members who wish to recommend candidates for consideration by the Committee may submit their nominations in writing to the Corporate Secretary at the address provided in this Proxy Statement. The Committee may consider such Member recommendations when it evaluates and recommends candidates to the Board for submission to Members at each annual general meeting. In addition, Members may nominate director candidates for election without consideration by the Committee by complying with the eligibility, advance notice and other provisions of our Bye-laws as described below.

The primary purposes of the Audit Committee are to: (1) assist with Board oversight of: the integrity of the Company's financial statements; the qualifications and independence of the independent auditors; the performance of the internal audit function and the independent auditors; and the Company's compliance with legal and regulatory requirements; (2) provide an avenue of communication among the independent auditors, management, the internal auditors and the Board; (3) approve certain related or affiliated person transactions and review disclosures thereof and (4) prepare the Audit Committee Report (which appears on page 29). Risk Oversight

The Board, directly and through its Committees, plays an active role in the oversight of the Company's risk management. The subject of risk management is a recurring agenda item, for which the Board regularly receives reports from management on capital, investments, and operations, including the risks associated with each and the steps management is taking to manage those risks. The Board also discusses with management the Company's business strategy, risk appetite and appropriate levels of risk.

The Board's committees are assigned oversight responsibility for particular areas of risk. For example, the Audit Committee receives a report, at least annually, on company-wide risks which encompass operational, financial, legal, compliance and reputational risks. The Compensation Committee oversees risk related to executive compensation plans and implementation. The Finance Committee oversees the risks related to managing the Company's investment portfolio.

As of April 1, 2015, there were 5,991,584 common shares outstanding. Members of record of common shares shall be entitled to one vote per common share, provided that if, and so long as, the votes conferred by Controlled common shares (as defined below) of any person constitute ten percent (10%) or more of the votes conferred by the outstanding common shares of the Company, each outstanding common share comprised in such Controlled common shares shall confer only a fraction of a vote that would otherwise be applicable according to the following formula:

$$[(T \text{ divided by } 10) - 1] \text{ divided by } C$$

Where: T is the aggregate number of votes conferred by all the outstanding common shares; and C is the number of votes conferred by the Controlled common shares of such person.

Controlled common shares in reference to any person means:

(1) all common shares directly, indirectly, or constructively owned by such person within the meaning of Section 958 of the Internal Revenue Code of 1986, as amended, of the United States; and

(2) all common shares directly, indirectly, or constructively owned by any person or group of persons within the meaning of Section 13(d)(3) of the Exchange Act and the rules and regulations promulgated thereunder; provided that this clause (ii) shall not apply to (a) any person (or any group that includes any person) that has been exempted from the provisions of this clause or (b) any person or group that the Board, by the affirmative vote of at least seventy-five percent (75%) of the entire Board, may exempt from the provisions of this clause.

The limitations set forth above do not apply to any Member which is a Byrne Entity (as defined below) for any matter submitted to the vote of Members, except with respect to the election of directors. Byrne Entity means any of John J. Byrne, any foundation or trust established by John J. Byrne, Patrick Byrne, and any associate or affiliate of any of them (or any group of which any of them is a part), as defined under Section 13(d) of the United States Securities Exchange Act of 1934, as amended.

If, as a result of giving effect to the foregoing provisions or otherwise, the votes conferred by the Controlled common shares of any person would otherwise represent 10% or more of the votes conferred by all the outstanding common shares, the votes conferred by the Controlled common shares of such person shall be reduced in accordance with the foregoing provisions. Such process shall

be repeated until the votes conferred by the Controlled common shares of each person represent less than 10% of the votes conferred by all common shares.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Philosophy

Our executive compensation policies are designed with the primary goal of maximizing shareholder value over long periods of time. We believe that this goal is best pursued by utilizing a pay-for-performance program that closely aligns the financial interests of management with those of our shareholders and encourages appropriate risk taking. We accomplish this by emphasizing variable long-term compensation, the value of which is tied to performance over a number of years rather than entitlements (such as base salary, pensions and employee benefits). To that end, the Compensation Committee (the Committee) has established base salaries and target annual bonuses for our executives that tend to be lower than those paid by comparable property and casualty insurers and reinsurers, while granting the bulk of an executive's target compensation as long-term incentive compensation.

We generally have structured our long-term incentive compensation as performance shares, restricted shares or performance units. At our parent company, long-term incentive compensation is typically in the form of WTM performance shares and restricted shares, which reward company-wide performance. The number of WTM common shares earned from a grant of performance shares, which can be from 0x to 2x the target number granted, is tied to our after-tax annual growth in intrinsic business value per share (as defined by the Committee) over the performance cycle. The market value of our shares is not included as a measure of performance but it determines the value of performance and restricted share awards. In general, no performance shares are earned if annual growth in intrinsic business value per share is less than the risk-free rate and 200% are earned if performance exceeds the risk-free rate by twice the target spread. We use straight-line interpolation to determine the payout percentage for results in between. Performance shares, restricted shares and/or performance units are typically granted annually, and performance is tied to a three-year period. Under our long-term incentive programs, at any given time an executive usually has three overlapping cycles running. This approach avoids cliffs that could foster a short-term outlook and also serves as an effective retention tool.

In the case of our Chairman & CEO, Mr. Barrette, to induce him to rejoin the Company and to incent him as an owner, in January 2007 he was granted a package of 200,000 out-of-the-money, escalating strike price options and 35,000 restricted shares, each of which vested in annual installments over five years. Mr. Barrette also received a tranche of 15,000 restricted shares that were structured to vest in the event of a change in control prior to January 20, 2012. In 2010, shareholders approved modifications to Mr. Barrette's options, which included fixing the exercise price at \$742 per share and reducing the number to 125,000. In conjunction with those changes, the Compensation Committee amended the vesting terms of the tranche of 15,000 restricted shares so that those shares time vest in three equal annual installments beginning on January 20, 2013. Mr. Barrette currently has options to purchase 125,000 shares exercisable until January 20, 2017. Starting with the 2013-2015 cycle, the Committee began granting Mr. Barrette performance shares, as discussed below.

Generally, the performance target for a 100% payout of performance shares has been set at 700 basis points above the risk-free rate, with the Committee often adjusting the target up or down to reflect prevailing circumstances at the time of grant. To establish the risk-free rate, the Committee typically looks to the yield on the 10-year treasury at the beginning of the performance cycle. For the past four years, to reflect the persistent low interest rate environment and the large amount of our capital that is undeployed, we

have set the target at roughly 600 basis points above the risk-free rate

Following OneBeacon's initial public offering in November 2006, its long-term compensation was structured primarily in the form of OneBeacon performance shares, which reward OneBeacon's overall performance. In 2009, OneBeacon's long-term incentives were re-designed with the CEO and CFO receiving about half in the form of performance units that are tied to underwriting performance and half in OneBeacon performance shares. The number of OneBeacon common shares earned from a performance share grant, which can be from 0x to 2x the target number granted, is tied to OneBeacon's after-tax annual growth in book value per share over the performance cycle. The payout earned from a OneBeacon performance unit grant, which also can be from 0x to 2x the target number granted, is tied to OneBeacon's adjusted economic combined ratio over the performance cycle. Other OneBeacon executives received a greater proportion or all of their long-term incentives in performance units or in long-term cash awards that are tied to the results of OneBeacon's specialty business as a whole and the executive's individual business unit. In 2015, OneBeacon also began denominating a portion of its long-term incentives as OneBeacon restricted shares or restricted share units.

Table of Contents

At Sirius Group, long-term incentive compensation is typically in the form of performance units that reward Sirius group-wide performance. The number of units earned at the end of the performance cycle is tied to those elements of performance for which the Sirius Group's management has primary responsibility. As an example, because the parent company keeps responsibility for investing Sirius assets, in calculating performance it is credited with a standard return on its investible assets. The number of units earned can be from 0x to 2x the target number granted. In addition, for its most senior executives, in order to better align their interests with those of our shareholders, we typically denominate a portion of their long-term incentives in WTM performance shares and/or restricted shares.

Our long-term incentive compensation programs are designed to share with management a portion of the value added above a risk-free return on our shareholders' equity. We take this approach because producing a rate of return equal to a risk-free rate does not add value to the capital owners put in the business our shareholders would be better off putting their money in U.S. treasuries and avoiding entirely the risk of owning a portion of a business. We have generally targeted sharing 13% to 17%; however, due to the significant reduction in our capital from the repurchase of 30% of our outstanding shares since 2010, we increased the targeted sharing in some recent cycles up to 20%, including in the 2014-2016 cycle. This year, for the 2015-2017 cycle, we targeted sharing at 18%. The Committee believes that this level of sharing is appropriate because we compete with private equity and hedge funds for talent and investment opportunities where such sharing is common, the Company's value adding opportunities are not limited to the Company's current level of capital, and we want to maintain proper incentives for further share buybacks at value adding prices.

The Committee closely monitors both target and actual value sharing. From year-to-year when we make new long-term incentive grants, we typically adjust the target number of shares granted to individual employees to reflect the Committee's assessment of the per share value of the Company. In addition, we generally limit total annual share grants to employees to less than 1% of the Company's outstanding shares. For the both the 2014-2016 cycle and 2015-2017 cycles, we adhered to this guideline.

When making new grants, the Committee assesses the impact of different performance scenarios on the potential sharing percentage. Further, in order to test our beliefs about the size of the awards we make and their variability, annually the Committee has reviewed and considered a systematic analysis prepared by management of the public disclosures about compensation made by other property and casualty insurers and reinsurers and of the amount and variability of compensation at those companies at differing levels of performance. These analyses have supported the Committee's view that our compensation programs are appropriately sized and more variable than most other insurers and reinsurers, have fewer fixed elements of compensation and perquisites, and do not lead to significant rewards for poor performance as can happen with long-term options granted with a fixed exercise price equal to the market price on the date of grant.

The Committee believes that the compensation structures that have been developed for the Company and its subsidiaries closely align the financial interests of management with those of our shareholders and encourage appropriate, but not excessive, risk taking. In the case of Sirius Group, given its exposure to catastrophic events, beginning in 2008 we implemented a catastrophe spreading mechanism with respect to both its performance units and annual bonus. This mechanism ensures that Sirius Group is charged with at least 50% of its expected annual catastrophe losses whether or not any catastrophe losses are actually incurred. Through this mechanism and Sirius Group's management of its aggregate exposure to very large catastrophic events, the Company's management and the Committee believe that Sirius Group's incentive plans are appropriate and do not encourage excessive risk taking.

Our Compensation Process

The Committee is responsible for approving our compensation practices that affect executive officers, and it specifically approves all compensation for our executive officers and for any employee with target annual compensation in excess of \$1.5 million. Our CEO annually presents the Committee with his evaluation of our executives, their individual performances, responsibilities, and the contributions they made to the Company's accomplishments over the past year, as well as over the last long-term incentive plan cycle and his expectations for the future and succession plans. In connection with this evaluation, the CEO presents the Committee with his recommendations for establishing the compensation for these executives for its consideration. The Committee assesses the performance, responsibilities, and contributions of the CEO, considers CEO succession plans, and sets the compensation of the CEO.

With the exception of significant promotions and new hires, compensation matters are usually addressed at the first meeting of the Committee each year (typically late February) following the availability of financial results for the prior year and the current year's financial plan. This allows us to determine the results of prior period grants and to set targets for the current year and newest long-term performance cycle. Performance cycles for long-term compensation typically run for three years beginning on January 1st of the year of grant.

Because Mr. Davis, the Chairman of the Committee, does not satisfy certain requirements of Section 162(m) to be considered an outside director for purposes of that rule, the Committee formed the Performance Compensation Subcommittee (the Subcommittee) comprised of the other members of the Committee, each of whom met the requirements to be considered an outside director for purposes of Section 162(m). The Subcommittee administers and approves all performance-based compensation awards in order to maintain favorable tax treatment of such awards.

Following the OneBeacon initial public offering (the OB IPO) in November 2006, the Committee determined that it would fully delegate to the OneBeacon Compensation Committee (the OneBeacon Committee) authority for the compensation of OneBeacon's officers, including those who might be Named Executive Officers of the Company. Accordingly, compensation actions for OneBeacon personnel following the date of the OB IPO (including new annual and long-term incentives and approval of payouts on existing annual and long-term incentives) have been taken by the OneBeacon Committee (which is currently comprised of Lowndes Smith (Chair), Lois Grady and Kent Urness, who are independent directors of OneBeacon, and Mr. Barrette) and, to the extent necessary to comply with applicable regulations, a subcommittee that excludes Mr. Barrette.

Compensation for 2014

The principal elements of compensation for our executives are long-term incentive compensation, base salary, and annual incentive bonuses.

Long-Term Incentive Compensation

CEO. In 2014, after reviewing Mr. Barrette's historical compensation, his share ownership, his existing incentives, and compensation granted to CEOs at other property and casualty (re)insurance companies, the Subcommittee determined to grant him 10,750 performance shares for the 2014-2016 performance cycle. The grant date market value was approximately \$6.2 million. The number of performance shares that will be earned will be determined after the end of 2016 based on the Company's performance over the cycle compared to the target described below. The Committee believes that an annual grant of performance shares to Mr. Barrette is the appropriate way to secure his continued employment with the Company and to reward him for performance going forward.

Named Executive Officers. In the case of Messrs. Foy, Campbell, Oberting and Waters, in determining the amount of new long-term incentive compensation grants for 2014, the Committee assessed each executive's scope of authority and ability to impact the success of the Company. Based on the Committee's general experience and the recommendation of the CEO, the Committee established a grant level that it believed was appropriate to reflect each such executive's expected contribution to the Company over the next performance cycle.

Table of Contents

For the CEO and each Named Executive Officer recipient of a WTM performance share grant for the 2014-2016 performance cycle, the Committee established 9% annual growth in intrinsic business value per share as the performance target that would result in a payout of 100% of the target shares. Annual growth of 3% or less would result in a payout of 0% and annual growth of 15% or more would result in a payout of 200%. The targets were consistent with the Company's compensation philosophy described above as the yield on the 10-year treasury at the beginning of 2014 was approximately 3%. To measure growth in intrinsic business value per share, the Committee looks to growth in economic value per share (weighted 50%) and growth in adjusted GAAP book value per share (weighted 50%), in each case including dividends.

In total, the WTM performance share and restricted share grants made to all employees of the Company for the 2014-2016 performance cycle totaled approximately 0.97% of the then outstanding shares, within the Committee's 1% guideline.

In addition, with respect to the 2012-2014 performance cycle which matured at the end of 2014, 8% annual growth in intrinsic business value per share (GIBVPS) was the performance target for a payout of 100% of the target shares. Annual growth of 2% or less would have resulted in a payout of 0% and annual growth of 14% or more would have resulted in a payout of 200%. At its meeting in February 2015, based on an average annual GIBVPS of 7.5%, the Committee confirmed that the payout that was earned was 91% of target.

David Foy. Mr. Foy has been the CFO of the Company since 2003. For the 2012-2014 cycle, Mr. Foy had been granted 3,750 target performance shares and 3,750 restricted shares. Based on the Company's performance over the cycle, he earned 3,413 performance shares. The restricted shares vested on January 1, 2015.

For the performance cycle from 2014-2016, Mr. Foy was granted 3,000 WTM performance shares and 3,000 restricted shares. The grant date market value was approximately \$3.5 million. The number of performance shares that will be earned will be determined after the end of 2016 based on the Company's performance over the cycle compared to the target described above. The restricted shares will vest on January 1, 2017, subject to Mr. Foy's continued employment.

Reid T. Campbell. Mr. Campbell is a Managing Director of White Mountains Capital and the President of White Mountains Advisors. He joined the Company in 1994. For the 2012-2014 cycle, Mr. Campbell had been granted 2,500 target performance shares and 2,500 restricted shares. Based on the Company's performance over the cycle, he earned 2,275 performance shares. The restricted shares vested on January 1, 2015.

For the performance cycle from 2014-2016, Mr. Campbell was granted 2,250 WTM performance shares and 2,250 restricted shares. The grant date market value was approximately \$2.6 million. The number of performance shares that will be earned will be determined after the end of 2016 based on the Company's performance over the cycle compared to the target described above. The restricted shares will vest on January 1, 2017, subject to Mr. Campbell's continued employment.

Kernan V. Oberting. Mr. Oberting has been a Managing Director of White Mountains Capital since 2012 and became President of Sirius Capital Markets in 2015. For the 2012-2014 cycle, Mr. Oberting had been granted 2,500 target performance shares and 2,500 restricted shares. Based on the Company's performance over the cycle, he earned 2,275 performance shares. The

restricted shares vested on January 1, 2015.

For the performance cycle from 2014-2016, Mr. Oberting originally was granted 3,000 WTM performance shares. The grant date market value was approximately \$1.7 million. In November 2014, the Subcommittee modified his grant by canceling 1,500 of the performance shares and granting in their place 1,500 WTM restricted shares that will vest on January 1, 2017, subject to Mr. Oberting's continued employment. The number of performance shares that will be earned will be determined after the end of 2016 based on the Company's performance over the cycle compared to the target described above.

Allan Waters. Mr. Waters has been the CEO of Sirius Group since 2007. In addition, from time to time Mr. Waters takes on responsibility for certain projects at the Company. For the 2012-2014 cycle, Mr. Waters had been granted 1,485 target performance shares and 1,485 restricted shares. Based on the Company's performance over the cycle, he earned 1,351 performance shares. The restricted shares vested on January 1, 2015. Based on Sirius Group's performance for the 2012-2014 performance cycle, which was an annualized after-tax, levered underwriting return on deployed capital (UROC) of 14%, Mr. Waters received a payout of 157.3% of the Sirius Group units granted to him at a value of \$1,482 per unit, which equaled approximately \$6.1 million.

Table of Contents

For the performance cycle from 2014-2016, Mr. Waters originally was granted 2,567 Sirius Group performance units and 2,400 WTM performance shares. The grant date value was approximately \$4.9 million. In November 2014, the Subcommittee modified his grant by canceling 1,200 of the performance shares and granting in their place 1,200 WTM restricted shares that will vest on January 1, 2017, subject to Mr. Waters' continued employment. The performance target for the Sirius Group units is an annual 11% UROC, with a UROC of 4% or less resulting in no payout and a UROC of 18% or more resulting in a 200% payout. The number of performance shares and units that will be earned will be determined after the end of 2016 based, respectively, on the Company's and Sirius Group's performance over the cycle compared to the targets described above.

Base Salary

We pay our executive officers salaries that we believe to be below-market. In 2008, we limited base salaries to a maximum of \$500,000. Each of our Named Executive Officers receives a salary of \$500,000, other than Mr. Oberting whose salary is \$450,000.

Annual Incentive Bonuses

We provide annual bonus opportunities to our executive officers. Each Named Executive Officer participates in the annual bonus pool of his respective business unit. The aggregate bonus pool size for each business unit could range from 0% to 200% of target, depending upon performance. Individual bonuses can vary widely around the pool average based on individual performance and no cap (other than the size of the pool) applies to any single individual. Typically, the head of a business unit receives the average bonus percentage applicable to his business unit.

For 2014, the Named Executive Officers at the WTM level (Messrs. Barrette, Foy, Campbell and Oberting) had target annual bonuses of 75% of salary, which was unchanged from the prior year.

For Messrs. Barrette, Foy, Campbell and Oberting, their annual incentive bonuses are designed to reward company-wide performance. Based on the Company's performance in 2014, the Committee awarded a bonus pool of 44% of target taking into account the Company's 3.6% growth in adjusted book value per share, 1.5% growth in economic value per share, and its performance in achieving qualitative objectives over the course of the year. Among the items considered by the Committee were the Company's disappointing financial results driven by OneBeacon and foreign exchange losses, the closing of the runoff sale, the continued strong performance at Sirius, and the acquisition of a number of promising businesses such as Tranzact, QuoteLab and Wobi. Messrs. Barrette, Foy, Campbell and Oberting received bonuses of \$100,000, \$100,000, \$200,000 and \$100,000, which represented 27%, 27%, 53% and 30% of target.

For our operating subsidiaries (including for our Named Executive Officers at operating subsidiaries), we design our annual incentives to reward performance of the applicable subsidiary operating group. Mr. Waters, who participates in the Sirius Group bonus pool, has an annual bonus target equal to 50% of base salary.

For Sirius Group, including for Mr. Waters, the performance objective was the UROC. Based on a UROC of 16.5% compared to the target of 12%, the indicated bonus pool was 164% of target. The Committee awarded a bonus pool of 164% of target, of which Mr. Waters recommended allocation of 9% of target to certain individuals as a special bonus pool leaving the remaining 155% of target as a base bonus pool. As CEO, Mr. Waters received the base bonus pool percentage of 155%, or \$388,250.

2015 Compensation Actions

New Long-term Incentive Grants and Annual Bonus Targets

In February 2015, the Committee and the Subcommittee made new long-term incentive grants to and established annual bonus target levels for the Named Executive Officers based on the same factors described above with respect to grants made in 2014.

Table of Contents

The new long-term incentive grants for White Mountains executives (other than Mr. Barrette and operating company executives) were allocated 50% as performance shares and 50% as restricted shares, which was the same allocation as in 2014.

For each Named Executive Officer recipient of a WTM performance share grant for the 2015-2017 performance cycle, the Committee established 8% annual growth in intrinsic business value per share as the performance target that would result in a payout of 100% of the target shares. Annual growth of 2% or less would result in a payout of 0% and annual growth of 14% or more would result in a payout of 200%. To measure growth in intrinsic business value per share, the Committee looks to growth in economic value per share (weighted 50%) and growth in adjusted GAAP book value per share (weighted 50%), in each case including dividends. The yield on the 10-year Treasury at the beginning of 2014 was about 2%. In setting the target at 8%, which equaled the yield on the 10-year Treasury + roughly 600 basis points, the Committee considered many factors including the continuing historically low interest rate environment. In addition, the Committee considered the impact of the Company's undeployed capital on expected returns. The Committee determined that 8% was an appropriate target that properly balanced the competing demands of effectively deploying capital and remaining patient for great opportunities.

Clawback Policy

In 2010, the Company adopted a clawback policy applicable to bonuses and long-term incentive awards. If the Company is required to restate any financial statement included in an SEC filing as a result of an employee's misconduct, the Board may, without prejudice to any other remedies available to the Company, seek reimbursement of any bonus or long-term incentive award received by such person that relates in whole or in part to any period for which such financial statements were restated. If the misconduct was fraud, then in addition to other actions, the Board mandatorily will seek such reimbursement.

Other Elements of Compensation

Retirement Benefits

We have no active U.S. defined benefit pension plans. Benefit accruals under all our U.S. qualified defined benefit pension plans and all our U.S. supplemental defined benefit pension plans were frozen for all employees in 2002.

Our Named Executive Officers who are not employees of Bermuda-domiciled entities may participate in our voluntary non-qualified deferred compensation plans whereby they may defer all or a portion of their compensation. Investment options in these plans are those available in our 401(k) plans, including White Mountains common shares and OneBeacon common shares. None of the investment options offered under these plans provides an above-market rate of interest.

Our employees may participate in our qualified 401(k) plans and eligible employees can participate in a qualified employee stock ownership plan. We do not provide supplemental retirement benefits to any employees in connection with these plans.

Perquisites

We review the perquisites that our senior management receives. The primary perquisites include housing allowances in special circumstances and personal use of corporate aircraft.

We allow our Named Executive Officers to use our corporate aircraft from time to time for personal reasons. The aggregate incremental cost to the Company is included, for proxy reporting purposes, as compensation to the Named Executive Officer. For tax purposes, we comply with IRS regulations. We do not gross-up our Named Executive Officers for their taxes associated with perquisites, including with respect to personal use of our aircraft.

Our Named Executive Officers also participate in our other benefit plans on the same terms as our other employees. These plans include medical and health insurance, company paid life insurance and charitable gift matching.

Table of Contents

Certain Board Fees

Our Named Executive Officers do not receive director fees for serving on the Company's board of directors or for serving on the boards of directors of our wholly-owned or majority-owned subsidiaries. However, those Named Executive Officers who serve on the boards of directors of other companies in which we have a minority interest may receive director fees. We consider those board fees when evaluating the compensation of our Named Executive Officers.

Employment and Severance Agreements; Change in Control

We have no long-term employment agreements with our Named Executive Officers although, from time to time, we have entered into short-term arrangements with newly hired executives governing their compensation and severance during up to their first three years with the Company. No such arrangements are in effect with our Named Executive Officers.

At our parent company, severance benefits, if any, are determined by the Committee in its sole discretion. At our operating subsidiaries, our Named Executive Officers participate in the severance plans, if any, generally applicable at those companies.

If any of our most senior executives were to retire, in order to enable the Company to ensure a smooth transition, to receive a non-compete/non-solicit from the executive and to retain access to valuable knowledge, talents and relationships, we generally will consider entering into a one to three year consulting agreement with the executive, which would permit the executive to earn some or all of such executive's long-term incentive compensation then outstanding.

We have no standalone change in control agreements with our Named Executive Officers. However, under our long-term incentive plans, if a change in control of the Company (or a business unit, as applicable) were to occur, certain events, such as involuntary or constructive employment termination or amendments to our incentive plans which are materially adverse to its participants, may cause stock options to become fully exercisable, restricted shares to become immediately vested and performance shares and performance units to become payable in full or in part. Our plans do not provide for tax gross-ups for excess parachute payments that may result from a change in control.

Tax Considerations

As a Bermuda-domiciled company, we do not receive a tax deduction for compensation paid to employees of White Mountains Insurance Group, Ltd. and, accordingly, the limitation of Section 162(m) does not impact compensation paid to our Named Executive Officers who are employees of non-U.S. companies (Messrs. Barrette, Foy and Waters). However, in the case of Named Executive Officers who are employees of subsidiaries that are organized in the United States (Messrs. Campbell and Oberting), Section 162(m) limits the deductibility of their compensation to \$1,000,000 per individual to the extent that such compensation is not performance-based as defined in Section 162(m). The Company is cognizant of Section 162(m) and generally seeks to structure its long-term incentive programs to permit the deductibility of the bulk of such compensation paid to these

Named Executive Officers. However, the Committee may approve compensation that will not meet the Section 162(m) requirements if, in the Committee's judgment, structuring compensation in such manner better promotes the Company's interests (such as with a grant of restricted shares).

Compensation Committee Report

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Prospector

Mr. John Gillespie is the founder and Managing Member of Prospector. Prospector serves as a discretionary adviser with respect to specified assets, primarily common equity securities and convertible fixed maturity investments, managed directly or through WM Advisors on behalf of White Mountains and other clients of WM Advisors. In conjunction with Mr. Gillespie's retirement from the Board, the investment management agreements between WM Advisors and Prospector and OneBeacon and Prospector and the Consulting Agreement described below will terminate during 2015.

Pursuant to an investment management agreement with WM Advisors (the WMA Agreement), Prospector charges WM Advisors fees based on the following schedule: 100 basis points on the first \$200 million of assets under management; 50 basis points on the next \$200 million; and 25 basis points on amounts over \$400 million. At December 31, 2014, Prospector managed a total of \$195.7 million of assets for White Mountains (excluding OneBeacon and Symetra) under this arrangement.

Prospector has separate investment management agreements with OneBeacon (the OneBeacon Agreements) pursuant to which Prospector supervises and directs specified assets, primarily common equity securities and convertible fixed maturity investments, including assets in OneBeacon's defined benefit and defined contribution plans (the ERISA Assets). All assets managed under the OneBeacon Agreements are subject to a single fee schedule that is substantially similar to the terms of the WMA Agreement fee schedule. At December 31, 2014, Prospector managed \$431.2 million of assets for OneBeacon under this arrangement, including \$202.9 million of ERISA Assets.

During 2014, Prospector earned \$6.5 million in total fees pursuant to the WMA Agreement and the OneBeacon Agreements.

Prospector also advises White Mountains on matters including capital management, asset allocation, private equity investments and mergers and acquisitions. Pursuant to a Consulting Agreement for those services, Prospector was granted 6,250 performance shares for the 2014-2016 cycle and 7,000 performance shares for the 2013-2015 cycle. In accordance with the terms of the WTM Incentive Plan, performance against target governing the performance shares will be confirmed by the Compensation Committee of the Board following the end of each performance cycle and the number of performance shares actually awarded at that time will range from 0% to 200% of the target number granted. Based on the Company's performance, Prospector received 145.5% of the 7,750 performance shares granted for the 2012-2014 cycle for a total payout of \$7.5 million.

Pursuant to a revenue sharing agreement, Prospector has agreed to pay White Mountains 6% of the revenues in excess of \$500,000 of certain of Prospector's funds in return for White Mountains having made a founding investment in 1997. During 2014, White Mountains earned \$0.4 million under this arrangement.

At December 31, 2014, White Mountains had \$82.4 million invested in limited partnership investment interests managed by Prospector (the Funds). This total includes \$15.8 million of OneBeacon assets. Under the limited partnership agreements, Prospector serves as general partner and general manager of the Funds and is paid management and incentive performance fees by White Mountains and OneBeacon. For the year ended December 31, 2014, White Mountains and OneBeacon incurred \$1.1 million in management fees and \$0.7 million in incentive fees.

Review, Approval or Ratification of Transactions with Related Persons

The Company's Audit Committee Charter states that the Audit Committee shall approve any related or affiliated person transactions and review disclosures thereof. In determining whether to approve or reject a related person transaction, the Audit Committee takes into account, among other factors it deems appropriate, whether the proposed transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the related persons' economic interest in the transaction. For purposes of Audit Committee approval, a related person transaction is defined as any transaction that is required to be reported under Item 404 of SEC Regulation S-K.

During 2014, the Audit Committee approved all Transactions with Related Persons occurring since the beginning of the Company's calendar year.

EQUITY COMPENSATION PLAN INFORMATION

The following table provides information as of December 31, 2014 with respect to the common shares that may be issued under White Mountains' s existing incentive compensation plans. Performance shares awarded under the WTM Incentive Plan are typically paid in cash, though they may be paid in the Company' s common shares at the election of the Board or a Committee of the Board. For that reason, these plans are listed in the Equity Compensation Plan Table below. Grants of phantom performance shares made under subsidiary incentive plans (which are payable in cash) and grants made under the OneBeacon Incentive Plan (which are payable in OneBeacon common shares) are excluded from this table.

	(1)	(2)	(3)
Plan category	Number of securities that may be issued upon exercise or vesting of outstanding options, warrants and rights at target	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (1))
Equity compensation plans approved by security holders - WTM Incentive Plan:			873,184 (a)
Performance shares	126,717 (b)	\$ 0	

(a) Under NYSE rules, common shares remain available for issuance when the Company pays cash or establishes deferred compensation balances in the settlement of its performance share obligations (which is typically the case) rather than issuing common shares. However, the Compensation Committee has taken a more conservative approach by counting the number of shares granted at target against an inventory available for grant. Under the Company' s approach, as of April 10, 2015, 159,378 common shares remained available for grant at target under the WTM Incentive Plan, which could result in up to 318,756 common shares being issued.

(b) Represents the target amount of WTM performance shares. The number of WTM common shares earned could be 0x to 2x the target number granted and, although typically in cash, may be paid in WTM common shares at the discretion of the Compensation Committee.

AUDIT COMMITTEE REPORT

In connection with the audit of the Company's financial statements for the year ended December 31, 2014, the Audit Committee has: (1) reviewed and discussed with management and PwC the Company's audited financial statements for the year ended December 31, 2014, management's assessment of the effectiveness of the Company's internal control over financial reporting and PwC's audit of the Company's internal control over financial reporting; (2) reviewed and discussed with PwC the matters required by Statement of Auditing Standards No. 61, as amended; and (3) received the written disclosures and the letter from PwC required by the applicable Public Company Accounting Oversight Board rules and discussed with PwC their independence.

Based on these reviews and discussions, the Audit Committee determined that the non-audit fees billed by PwC for services performed in 2014 and 2013 (as presented herein) are compatible with maintaining their independence. Further, the Audit Committee recommended to the Board that the audited financial statements be included in the Annual Report on Form 10-K for filing with the SEC and for presentation to the Members at the 2015 Annual Meeting.

Management is responsible for the preparation, presentation and integrity of the Company's consolidated financial statements as well as for establishing and maintaining adequate internal control over financial reporting. The Company's independent registered public accounting firm, PwC, is responsible for expressing its opinion on the conformity of the Company's audited financial statements with Generally Accepted Accounting Principles (GAAP). In addition, PwC is responsible for expressing its opinion on the effectiveness of the Company's internal control over financial reporting. It is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with GAAP; that, as described above, is the responsibility of management and PwC. In giving its recommendation to the Board, the Audit Committee has relied on (1) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with GAAP and (2) the reports of PwC with respect to such financial statements.

The Audit Committee has established a Charter which outlines its primary duties and responsibilities. The Audit Committee Charter, which has been approved by the Board, is reviewed at least annually, is updated as necessary and is available for viewing at www.whitemountains.com.

PRINCIPAL ACCOUNTANT FEES AND SERVICES

You are being asked to vote on the following advisory resolution:

OTHER MATTERS

Manner of Voting Proxies

Common shares represented by all valid proxies received will be voted in the manner specified in the proxies. Where specific choices are not indicated, the common shares represented by all valid proxies received will be voted FOR each of the proposals named earlier in this Proxy Statement.

In the case of common shares held in employee benefit plans, the trustee will typically vote all common shares within such plans in direct proportion to those common shares actually voted by plan participants.

Should any matter not described above be acted upon at the meeting, the persons named in the proxy card will vote in accordance with their judgment. The Board knows of no other matters which are to be considered at the 2015 Annual Meeting.

Votes Required for Approval

With respect to the election of directors, the nominees receiving the highest number of votes, up to the number of directors to be elected, shall be deemed elected. The other proposals require the affirmative vote of a majority of the voting power held by holders of common shares present at the 2015 Annual General Meeting, in person or by proxy, provided a quorum is present.

Inspectors of Election

Those Members who desire additional copies of this document or would like to receive separate copies of this document in the future should contact their bank, broker or other holder of record or the Corporate Secretary at the address presented under Available Information below.
