Item 1.01 Entry into a Material Definitive Agreement.

On November 13, 2015, Minera William S.A. de C.V. (William), a wholly owned subsidiary of Golden Minerals Company, entered into a Contract of Mining Exploration and Exploitation (the Agreement) with Minera Fumarola, S.A. de C.V. (Minera Fumarola), a wholly owned subsidiary of Prospero Silver Corp., a Canadian resource company (Prospero), pursuant to which William acquired the mining rights for the Santa Rosa vein in the San Luis del Cordero Project in Durango State, Mexico.

Under the terms of the Agreement, William paid Prospero US\$140,000 on signing and is required to pay us \$100,000 annually until production begins. William must complete a minimum of 2,000 meters of drilling within the next 18 months and commence production within three years. Once mining and processing begin, William is required to pay Prospero 15% of net proceeds from the sale of concentrates from the property as defined in the Agreement and an underlying 2% net smelter return royalty to a third party. William is responsible for all of the costs of exploration, preparation for mining, mining, processing and sales, for which it receives a credit in the net proceeds calculation.

The foregoing description of the Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Agreement, which is attached hereto as Exhibit 10.1 and is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.
