On May 3, 2016, The Estée Lauder Companies Inc. (the Company) filed a Current Report on Form 8-K (the May 3, 2016 Form 8-K) regarding a multi-year initiative (Leading Beauty Forward). The Company disclosed, at that time, that Leading Beauty Forward is expected to include a number of initiatives, and that restructuring and other charges to implement those initiatives through fiscal 2021 are expected to total between \$600 million and \$700 million (before tax). At that time, the Company was unable to determine the estimated amount or range of amounts to be incurred by major cost type or the future cash expenditures pursuant to Leading Beauty Forward. In the Company's Quarterly Report on Form 10-Q filed on February 2, 2017 (the December 31, 2016 Form 10-Q), the Company disclosed such details for specific initiatives approved cumulatively through December 31, 2016. The Company is filing this Form 8-K/A to provide details about specific initiatives approved since then.

Between January 1, 2017 and February 16, 2017, the Company approved certain initiatives under Leading Beauty Forward as follows:

- **Optimize Select Corporate Functions** - The Company continued to approve initiatives to realign and optimize its organization to better leverage scale, improve productivity, reduce complexity and achieve cost savings across various functions. These actions will result in a net reduction of the workforce, which includes position eliminations, the re-leveling of certain positions and an investment in new capabilities. The Company also approved consulting and other professional services related to the design of the future structures, processes and technologies of certain corporate functions and, to a lesser extent, costs for training and recruitment related to the new capabilities.
- **Optimize Corporate and Region Market Support Structures** - The Company continued to approve initiatives to enhance its go-to-market support structures and achieve synergies across certain geographic regions, brands and channels. These initiatives are primarily intended to shift certain areas of focus from traditional to social and digital marketing strategies to provide enhanced consumer experience, as well as to support expanded omnichannel opportunities. These actions will result in a net reduction of the workforce, which includes position eliminations, the re-leveling of certain positions and an investment in new capabilities. The Company also approved consulting and other professional services related to the design of the future structures, processes and technologies and, to a lesser extent, other costs for recruitment and training related to the new capabilities.
- **Optimize Supply Chain** - The Company continued to approve certain activities related to initiatives to redesign transportation management activities and to enhance its quality assurance organization. To enable the implementation of these initiatives, other charges were approved for consulting fees and, to a lesser extent, project management costs.

Once the relevant accounting criteria have been met, the Company expects to record restructuring and other charges of approximately \$72 million (before tax) in connection with these initiatives, which are expected to result in future cash expenditures.

Of the \$600 million to \$700 million restructuring and other charges expected to be incurred in connection with Leading Beauty Forward, total cumulative charges approved by the Company through February 16, 2017 were:

(In millions)	Sales Returns (included in Net Sales)		Cost of Sales	Operating Expenses Restructuring Charges		Other Charges	Total

The Company will continue to file additional disclosures in connection with initiatives associated with Leading Beauty Forward that individually or collectively are determined to be significant.
