Independent Accountants' Review Report

To the Chairman and Members of the Board of Directors of Compania de  
Telecomunicaciones de Chile S.A.

We have reviewed the accompanying interim consolidated balance sheet of Compania de Telecomunicaciones de Chile S.A. and subsidiaries as of June 30, 2003, and the related interim consolidated statements of income and cash flows for the six-month period then ended. These interim financial statements (including the related notes) are the responsibility of the management of the Company. The interim consolidated financial statements for the six-month period ended June 30, 2002 were reviewed by other auditors whose report, dated July 21, 2002, stated they were not aware of any material modifications that should be made to those statements for them to be in conformity with accounting principles generally accepted in Chile. The accompanying Management's Discussion and Analysis of the Consolidated Financial Statements is not an integral part of these financial statements, and, therefore, this report does not cover this item.

We conducted our review in accordance with auditing standards established in Chile for a review of interim financial information. A review of interim

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in Chile, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the 2003 interim consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in Chile.

The accompanying financial statements have been translated into English for the convenience of readers outside Chile.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
(Translation of financial statements originally issued in Spanish)

-----

1. Composition of Consolidated Group and Registration in the Securities Registry:
  - a) Compania de Telecomunicaciones de Chile S.A. (Telefonica CTC Chile) is a public corporation registered in the Securities Registry under No. 009 and therefore is subject to oversight by the Chilean Superintendency of Securities and Insurance.
  - b) Subsidiaries registered in the Securities Registry:

As of June 30, 2003 the following subsidiaries of the consolidated group are registered with the Securities Registry:

SUBSIDIARIES	TAXPAYER No.	Registration Number
CTC Transmisiones Regionales S.A. (188 Mundo Telefonica)	96.551.670-0	456
Globus 120 S.A.	96.887.420-9	694

-----

2. Significant Accounting Principles:
  - (a) Accounting period: The interim consolidated financial statements cover the SIX-month periods ended as of June 30, 2003 and 2002.
  - (b) Basis of preparation: These interim consolidated financial statements (hereafter, the interim financial statements) have been prepared in accordance with generally accepted accounting principles in Chile and standards set forth by the Chilean Superintendency of Securities and Insurance.

In case of discrepancies between generally accepted accounting principles issued by the Chilean Accountants Association and the standards set forth by the Chilean Superintendency of Securities and

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

Insurance, for the Company, the standards of the Superintendency shall prevail over the former.

The interim consolidated financial statements of the Company as of June 30 and December 31 of each year are prepared in order to be reviewed and audited respectively in accordance with current legal requirements. The Company has voluntarily adopted the practice of submitting the quarterly financial statements as of March and September to a review of the interim financial information in accordance with standards established for this type of review, as described in generally accepted auditing standard No. 45, Section No. 722, issued by the Chilean Accountants Association.

(c) Basis of preparation:

Certain reclassifications have been made to the 2002 financial statements for comparative purposes.

The interim 2002 consolidated financial statements and their notes have been restated off-the-books by 3.5% in order to allow comparison with the 2003 financial statements.

(d) Basis of consolidation:

These interim consolidated financial statements include assets, liabilities, income and cash flows of the Parent Company and subsidiaries. Significant transactions involving assets, liabilities, income and cash flows between consolidated companies have been eliminated and the participation of minority interests has been reflected and is presented under Minority Interest (see Note 19).

- 1) As of June 30, 2003, since Telefonica CTC Chile no longer had a majority participation or control over the administration of Sonda, only 35% of Sonda's net income has been recognized as equity value in its financial statements. Consolidation with that Company was performed until August 31, 2002.
- 2) The Extraordinary Shareholders' Meeting of Telefonica Data Chile S.A., held in November 2002, approved the incorporation by absorption of the subsidiary Comunicaciones Empresariales S.A.
- 3) The board of directors' meeting of CTC International S.A., held in December 2002, approved the liquidation of this company.
- 4) The Extraordinary Shareholders' Meeting of Telefonica Empresas CTC Chile S.A., held on January 28, 2003, approved the merger by incorporation of the subsidiary Telefonica Data Chile S.A., increasing the capital of Telefonica Empresas CTC Chile S.A. by ThCh\$ 414 equivalent to the issuance of 2,878 shares.
- 5) On May 2, 2003, Telefonica Empresas S.A. sold its holding in Tecnonautica S.A. to Infoera S.A., which became owner of 99.99% of the shares of that company.
- 6) On May 2, 2003, Tecnonautica S.A. sold its holding in Infochile S.A. to Portal de Pagos e Informacion S.A., which became owner of 99.98% of the shares of that company.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)  
-----

2. Significant Accounting Principles, continued:

(d) Basis of consolidation, continued:

During September 2002, Telefonica CTC Chile sold and transferred 25% ownership of Sonda S.A. to Inversiones Pacifico Limitada and Inversiones Santa Isabel Limitada, companies associated with Mr. Andres Navarro H. This transaction caused the purchasing companies to disburse ThCh\$ 27,920,701 (historical), generating a net loss, of ThCh\$ 1,136,160 (HISTORICAL), due to extraordinary proportional amortization of goodwill in relation to the percentage sold and to the difference between the book value of the investment and the amount received. After completing this operation, Telefonica CTC Chile through its subsidiary Telefonica Empresas CTC Chile S.A., holds 35% ownership of that company.

Additionally, on September 26, 2002, Telefonica Empresas signed an agreement with Inversiones Santa Isabel Limitada, which grants it a sales option for 35% of Sonda, which it can exercise between July 16 and 25 2005, at investment book value as of June 30, 2005, plus a premium of UF 142,021, with a minimum value of UF 2,048,885. This minimum value has been guaranteed by Inversiones Santa Isabel Limitada to Telefonica Empresas through issuance of performance bonds (see Note 28b).

Should Telefonica Empresas decide not to exercise the sales option between July 26 and August 5, 2005 Inversiones Santa Isabel Limitada has a purchase option for the same 35% of Sonda, under the same conditions mentioned above.

Santa Isabel can exercise its purchase option in advance between July 26 and July 31, 2003, at the book value on June 30, 2003 plus a premium of UF 96,000, with a minimum price of UF 1,983,185, or between July 26 and July 31, 2004, at the book value as of June 30, 2004 plus a premium of UF 119,000, with a minimum price of UF 2,003,260.

Telefonica CTC Chile will continue to amortize goodwill for its remaining 35% holding in Sonda. Goodwill to be amortized is ThCh\$ 9,808,256 (see Note 11a) as of June 30, 2003. It is being amortized discounting the premium of UF 142,021, over a period of 34 months starting as of September 2002.

Given the conditions contemplated in the contract, recovery of the equity value of this investment is completely assured, while recovery of goodwill will depend on the future net income of Sonda S.A. The Company has made no provision to cover the eventual loss in the recovery of goodwill, since it is estimated that the future net income of Sonda S.A. will be sufficient to cover amortization of the mentioned goodwill.

Those subsidiaries in which there was indirect participation of less than 50% as of June 30, 2002, were consolidated by their Parent Company, Sonda S.A., in which the Company participated with a percentage exceeding 50%.

## COMPANIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
 (Translation of financial statements originally issued in Spanish)

## 2. Significant Accounting Principles, continued:

## (e) Time deposits:

Time deposits are presented at the value of the invested capital plus readjustments, if applicable, and accrued interest as of period end.

## (f) Price-level restatement:

The interim consolidated financial statements have been price-level restated using price-level restatement methodology in accordance with generally accepted accounting principles in Chile, in order to reflect the variation of the currency's purchasing power during both periods. The accumulated variation in the CPI as of June 30, 2003 and 2002, for beginning balances was 1.1% and 0.6%, respectively.

## (g) Basis of conversion:

Assets and liabilities in US\$ (United States dollars), Euros, UF (Unidad de Fomento) and Pound (Sterling Pound), have been translated into Chilean pesos at the exchange rates at each period closing date:

YEAR	US\$	EURO	UF
2002	688.05	681.912	16,355.20
2003	699.12	803.860	16,959.67

The exchange differences are charged or credited to income for the period.

## (h) Marketable securities:

Fixed income securities are carried at their price-level restated purchase price plus accrued interest as of closing date of each period, based on the real interest rate determined on the purchase date or their market value, whichever is less.

Investments in mutual funds units are carried at the value of the unit at each periods closing date. Investments in shares are presented at their price-level restated cost or market value, whichever is less.

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

(i) Inventories:

Equipment destined for sale is carried at price-level restated purchase or development cost or market value, whichever is less.

Inventories estimated to be used during the next twelve months are classified as current assets and their cost is price-level restated. Obsolescence provision has been determined on the basis of a study of materials with slow turnover.

COMPANIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

---

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

---

2. Significant Accounting Principles, continued:

(j) Subsidies on sale of cellular telephones:

Represents the difference between the cost at which the cellular equipment is acquired from suppliers and their resale value to customers.

The amounts for equipment with prepayment plans are charged to income at the time they are sold. Equipment with a contract has been commercialized as being on loan (commodate), a legal figure in which the equipment is given to subscribers to use free of charge. The purchase cost of this equipment is capitalized as property, plant and equipment (subscriber equipment), and is depreciated over a period of 24 month from the date of the contract.

As of June 1, 2002, a customer loyalty policy was implemented and which consists of replacing equipment related to contracts that are more than 18 months old. Based on the above, depreciation provisions have been established for probable early write-off of equipment.

(k) Allowance for doubtful accounts:

Differentiated percentages are applied when calculating the allowance for doubtful accounts, taking into account age factors and eventual collection management factors until 100% is reached for debts over 120 days and 180 days for large customers (corporations).

(l) Property, plant and equipment:

Property, plant and equipment is presented at price-level restated purchase and/or construction cost.

Property, plant and equipment purchased until December 31, 1979 are presented at appraisal value, as stipulated in Article 140 of D.F.L. No. 4, and those acquired after that date are carried at purchase value, except for those assets that are presented at their appraisal

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

value recorded as of June 30, 1986, in accordance with Circular No. 550 issued by the Chilean Superintendency of Securities and Insurance. All these values have been price-level restated.

Until December 31, 2002, works in progress included the real financial cost of the loans relating to their financing, originated during the construction stage and which could have been avoided had these disbursements not been made. Based on the above financial cost has been capitalized for ThCh \$ 5,867,238 in 2002.

As described in Note 3a, as of January 1, 2003 the Company decided not to capitalize the real financial cost of loans in the cost of construction and/or acquisition of property, plant and equipment.

(m) Depreciation:

Depreciation has been calculated and recorded based on the values stated above, by applying set factors determined on the basis of the estimated useful lives of the assets. The average annual financial depreciation rate of the Company is approximately 8.05%.

12

COMPANIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

---

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

---

2. Significant Accounting Principles, continued:

(n) Leased assets:

i) Leased assets with a purchase option. Leased assets with a purchase option, whose contracts have the characteristics of a financial lease, are carried in a manner similar to the purchase of property, plant and equipment, recording the full obligation and interest on an accrual basis. The Company does not legally own those assets and as long as it does not exercise the purchase option, it cannot freely dispose of them.

(n) Intangibles

i) Underwater cable rights:

Underwater cable rights are rights acquired by the Company for the use of the underwater cable's transmission capacity. These are amortized over the respective contract term, with a maximum of 25 years.

ii) Licenses (software):

Software licenses are carried at price-level restated purchase cost. Amortization is calculated using the straight-line method considering the periods in which the license will provide benefits, which does not exceed 4 years.

iii) License for the use of radioelectric space:

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

Corresponds to the cost incurred in obtaining licenses for the use of wireless. They are shown at price-level restated value and are amortized over the concession period (30 years from publication of the decrees covering the respective licenses in the "Diario Oficial").

- (o) Investments in related companies:  
These investments are carried under the equity method, recognizing their income on an accrual basis. Foreign investments have been valued following Technical Bulletin No. 64. Those investments are controlled in dollars, since they are in countries considered unstable under said Bulletin, and their activities are not an extension of the operations of the Parent Company.
- (p) Goodwill and negative goodwill:  
Goodwill and negative goodwill are differences arising upon adjustment of the investment cost, at the time of adopting the equity method or when making a new purchase. The goodwill and negative goodwill amortization period has been determined taking into consideration aspects such as the nature and characteristics of the business and the estimated period for return of the investment. Goodwill arising on foreign investments is controlled in US dollars (the same currency in which the investment is controlled), as per Technical Bulletin No. 64 of the Chilean Accountants Association (see Note 11).
- (q) Transactions with resale or repurchase agreements:  
Purchases of financial instruments with resale agreements are recorded as a fixed rate placement and classified in Other Current Assets.

Financial instrument sales with repurchase agreements are recorded in a manner similar to that when obtaining a loan with investments as guarantees and are shown in Other Current Liabilities.

13

COMPANIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

---

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

-----

### 2. Significant Accounting Principles, continued:

- (r) Obligations with the public:
  - o Obligations from bond issuance are presented in liabilities at the par value of the subscribed bonds. The difference between par value and placement value, determined on the basis of real interest originated in the transaction, is deferred and amortized during the term of the respective bond (see Note 16).
  - o Obligations from issuance of promissory notes: Are presented in liabilities at their placement value, plus accrued interest (see note 16a).

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

Direct costs related to bond placement are capitalized and amortized using the straight-line method over the term of the respective bond.

(s) Income tax and deferred income tax:

Income tax is calculated on the basis of taxable net income. Deferred taxes arising from all temporary differences, tax benefits for tax losses, and other events that create differences between the tax base of assets and liabilities and their accounting basis are recorded in accordance with Technical Bulletins Nos. 60, 68, 69 and 73 issued by the Chilean Accountants Association and in accordance with Circular 1,466 dated January 27, 2000 issued by the Superintendency of Securities and Insurance.

On September 28, 2001 Law No. 19753 was published, increasing the corporate income tax rate to 16% in 2002, 16.5% in 2003 and 17% in 2004 and thereafter. As of June 30 of each year, the accumulated balances of temporary differences include the increase in the income tax rate. Deferred income taxes arising due to the increase in the income tax rate are recorded in accordance with Technical Bulletin No. 71 issued by the Chilean Accountants Association. (see Note 7).

(t) Staff severance indemnities:

The Company's staff severance indemnities obligation is accrued applying the net present value method to accrued benefit using an annual discount rate of 7%, considering a future permanence until the retirement date of each employee (see Note 18).

Expenses for past services rendered by employees resulting from changes in the actuarial base, are capitalized and amortized over the average length of future permanence of the employees.

(u) Operating revenues:

The Company's revenues are recorded on the accrual basis in accordance with generally accepted accounting principles in Chile. Since invoices are issued on dates other than accounting cut-off dates, as of the date of preparation of these financial statements, services rendered and not invoiced have been accrued, and determined on the basis of the contracts and traffic at the current period's prices and conditions. Amounts for this concept are shown in Trade Accounts Receivable.

Revenues from information services are recorded under the following conditions: sale of hardware and licenses is recorded when the equipment and/or software is delivered, and in the case of revenues from projects, these are recorded according to the progress payments reports by the customers and which consider the degree of completion of the respective projects.

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

-----

### 2. Significant Accounting Principles, continued:

#### (v) Foreign currency futures contracts:

The Company has entered into foreign currency futures contracts, representing a hedge against changes in the exchange rate of its obligations in foreign currency.

These instruments are valued in accordance with Technical Bulletin No. 57 issued by the Chilean Accountants Association.

The rights acquired and obligations incurred are detailed in Note 26. The balance sheet only reflects the net right or obligation as of period-end, classified according to the maturity date of each of the contracts, in Other Current Assets or Other Creditors, as applicable. The contract's implicit insurance premium is deferred and amortized using the straight-line method over the term of the contract.

#### (w) Interest rate coverage:

Loan interest covered by interest rate swaps is recorded recognizing the effect of the contracts on the interest rate established in the loans. Rights and obligations for this concept are shown in Other Current Assets or in Other Creditors, as applicable (see Note 26).

#### (x) Computer software:

Software purchase cost is deferred and amortized using the straight-line method over a four-year period.

#### (y) Research and development expenses:

Research and development expenses are charged to income in the period in which they are incurred. Such expenses have not been significant in recent periods.

#### (z) Accumulated deficit in development period of subsidiaries:

In accordance with Circular No. 981 of the Superintendency of Securities and Insurance, the Company has included all disbursements or obligations arising during the development and start up stage of its subsidiaries and which are not assignable to the cost of tangible or nominal assets. This deficit has been absorbed by net income earned by the Company during operations.

#### (aa) Accumulated adjustment for conversion differences:

The Company recognizes the difference between the variation in the exchange rate and the consumer price index arising on the price-level restatement of its investments abroad, controlled in US dollars, as well as adjustments for translation differences arising from subsidiaries and related companies that have been recognized for their foreign investments. The balance in this account is credited (charged) to income in the same period in which the gain or loss on the complete or partial disposal of these investments is recognized.

COMPANIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

---

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

---

2. Significant Accounting Principles, continued:

(ab) Statement of cash flows:

For the purposes of preparing the Statement of Cash Flows in accordance with Technical Bulletin No. 50 issued by the Chilean Accountants Association and with Circular No. 1,312 issued by the Chilean Superintendency of Securities and Insurance, the Company considers mutual funds, resale agreements and time deposits maturing in less than 90 days as cash and cash equivalents.

Cash flows related to the Company's line of business and those not defined as from investment or financing activities are included in "Net Cash Flows from Operating Activities".

(ac) Correspondents:

The Company has current agreements with foreign correspondents, in which the conditions that regulate international traffic are set, charged or paid according to net traffic exchanges (imbalance) and to the rates set in each agreement.

This exchange is accounted for on an accrual basis, recognizing the costs and income in the period in which they are produced, recording the net balances receivable or payable of each correspondent in "Trade Accounts Receivable" or "Accounts Payable" as applicable.

COMPANIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

---

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

---

3. Accounting Changes:

- a) Property, plant and equipment financing cost: As of January 2003, the Company changed the criteria for capitalizing the real financing costs of the loans related to financing the property, plant and equipment works in progress. This change has meant recognizing a

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

higher charge to income for the period, of approximately ThCh\$ 2,200,000, in comparison to 2002.

- b) Change in the reporting entity: At June 30, 2003, since Telefonica CTC Chile does not have a majority holding in Sonda S.A., it has recorded its 35% interest in Sonda under the equity method. Sonda's financial statements were consolidated until August 31, 2002.

As of June 30, 2002 this investment was shown consolidated line by line, with the balance sheet of Sonda S.A. at that time was as follows:

Assets	2002 ThCh\$	Liabilities
Current Assets	57,817,088	Current Liabilities
Property, Plant and Equipment	35,695,206	Long-term Liabilities
Other Assets	19,530,918	Shareholders' Equity
<b>Total Assets</b>	<b>113,043,212</b>	<b>Total Liabilities &amp; Sharehold</b>

For a comparative analysis of the figures, a consolidated statement of income is presented, assuming that for the six month period ended June 30, 2002, the investment in Sonda S.A. was recorded using only the equity method.

	Jan-Jun 2003 ThCh\$	Jan-Jun 2002 ThCh\$	ThCh\$

The conditions of the Mandate and Mercantile Current Account are short and long-term respectively. In the case of Telefonica Internacional Chile S.A. it is denominated in US dollars, accruing interest at a variable rate which adjusts to market conditions (US\$ + Market Spread).

In the case of Sales and Services Rendered, these mature in the short-term (less than a year) and the maturity conditions for each case vary based on the transaction that produces them.

(Translation of financial statements originally issued in Spanish)

8. Other Current Assets:

The detail of other current assets is as follows:

	2002 ThCh\$
Fixed income securities purchased with resale agreement	84,972,362
Fixed income securities sold with repurchase agreements	9,970,993
Collective negotiation bonus to be amortized (a)	-
Adjustment to market value for cellular equipment to be commercialized (c)	3,263,333
Exchange insurance premiums to be amortized	4,260,922
Telephone directories for connection program	8,206,764
Higher discount rate of bonds to be amortized (note 24)	1,217,626
Disbursements for placement of bonds to be amortized (note 24)	1,875,982
Disbursement of negotiable instruments (note 24)	-
Disbursements for foreign financing proceeds to be amortized (b)	1,656,187
Exchange difference insurance debtors (net of partial liquidations)	15,635,558

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

Deferred charges for modification of staff severance indemnities discount rate (net)	114,306
Others	9,216,839
Total	140,390,872

(a) During June 2002, the Company signed a 2-year collective contract with a part of its employees (3 years for Telefonica Movil employees) granting them, among other benefits, a special negotiation bonus. This bonus was paid between June and July of 2002 (for Telefonica Movil employees, a second installment of ThCh\$ 440,000 (historical) will be paid in May 2004). The total benefit which amounts to Ch\$ 2,494,544 (historical), is being deferred using the straight-line method during the term of the respective collective contracts. The long-term portion is shown under "Other" long-term (see note 13).

(b) This amount corresponds to the cost (net of amortization) of the reserve paid to the Banco Central de Chile and disbursements incurred for foreign loans obtained by the Company to finance its investment plan.

(c) Corresponds to adjustment to market value for cellular equipment held in inventory at period-end, which is charged to results in accordance with the method of negotiation, contract or prepayment.

External plant	586,300,232	1,370,886,421	631,291,636
Subscribers' equipment	206,064,719	350,481,453	243,690,801
General equipment	167,222,524	104,673,532	32,863,889
Other Property, Plant and Equipment	141,918,240	441,968,496	180,117,140
Office furniture and equipment	101,513,760	125,417,498	85,715,792
Projects, work in progress and their materials	-	186,782,347	-
Leased assets (1)	4,096,587	12,056,628	4,612,555
Property, plant and equipment temporarily out of service	-	15,039,544	13,411,298
Software and others	36,307,893	102,672,479	76,377,495
Technical revaluation-Circular 550	10,004,489	9,230,699	10,425,577
Total	1,915,891,857	3,969,972,031	2,112,525,021

(1) As of June 2003 this caption mainly considers: ThCh\$ 5,518,866 gross value for purchase of administrative offices with accumulated depreciation of ThCh\$ 598,515 with contract terms of 15 years from 1996, ThCh\$ 3,242,129 gross value for electronic and computer equipment with accumulated depreciation of ThCh\$ 2,896,475 with 12-year contract terms from 1994. In addition there is ThCh\$ 983,305 gross value of long distance transmission equipment with accumulated depreciation of ThCh\$ 208,952 with 18-year contract terms from 1996.

The balance of gross property, plant and equipment includes capitalized interest of ThCh\$ 209,268,747 and ThCh\$ 211,261,434 in 2002 and 2003, respectively. Accumulated depreciation of this interest amounts to ThCh\$ 72,995,897 and ThCh\$ 92,158,887 in 2002 and 2003, respectively.

Depreciation for the periods was charged to operating costs for ThCh\$ 132,791,579 and ThCh\$ 131,022,817, for 2002 and 2003, respectively and to administration and selling expense for ThCh\$ 291,376 for 2003. Property, plant and equipment temporarily out of service, made up mainly of the cable TV networks of La Serena and Concepcion not transferred in the sale of assets to Cordillera Comunicaciones, resulted in a depreciation charge of ThCh\$ 713,140 in 2002 and ThCh\$ 1,476,669 in 2003, which is classified in Other Non-operating Expenses.

The detail by caption of the technical revaluation is as follows:

Description	Net Balance ThCh\$	Accumulated depreciation ThCh\$	Property, plant and equipment 2002 ThCh\$
Land	(454,707)	-	(477,844)
Construction and infrastructure works	(994,531)	(3,553,441)	(4,584,504)
Machinery and equipment	254,510	13,979,018	14,293,047

Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

Total (1,194,728) 10,425,577 9,230,699

Depreciation for higher value of technical revaluation for the period amounts to ThCh\$ (16,340) in 2002 and ThCh\$ (26,826) in 2003. Gross property, plant and equipment includes assets that have been totally depreciated amounting to ThCh\$ 467,929,189 in 2002 and ThCh\$ 609,567,645 in 2003, which include ThCh\$ 12,042,022 and ThCh\$ 12,002,421, respectively, for technical revaluation.

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

(1) Recognition of income for this company is that accrued for May 2002 and 2003.

(2) "As indicated in Note 2d, as of September 2002 the Company no longer has a majority or controlling interest in Sonda S.A. It now recognizes 35% equity in the Company."

As of the date of these financial statements there are no liabilities for hedge instruments assigned to foreign investments. The Company has the intention of reinvesting net income from foreign investments on a permanent basis, therefore there is no net income that is potentially remittable.

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

(Translation of financial statements originally issued in Spanish)

### 16. Obligations with the Public, continued:

#### b) Bonds, continued:

- a) During August 2002, Telefonica CTC Chile prepaid this bond placement, paying the full balance of capital (UF) plus interest accrued as of that date.
- b) During November 2002, Telefonica CTC Chile prepaid this bond placement, paying the full balance of capital (UF) plus interest accumulated as of that date.
- c) Since June 2002, Telefonica CTC Chile has made partial purchases of its placement denominated in euros; at this period-end the early redemption of this placement amounts to 61.0 million euros.
- d) During May 2003, Telefonica CTC Chile prepaid this bond placement of, paying the full capital balance (UF) plus interest accumulated as of that date.
- e) During May 2003, Telefonica CTC Chile made a partial repurchase of 3.0 million dollars of its placement denominated in that same currency; this redemption was made at a price of 111.57% of par value, which meant a payment of 3.34 million dollars, plus interest accrued as of that date on the nominal amount of the repurchase.

These transactions have implied recognizing a charge to income for the balances off "Disbursements for bond placements to be amortized", as well as the expenses corresponding to "Higher discount rate of bonds to be amortized".

In April 2003, the last installment of this issuance was paid.

B	63,987,298	63,987,298

(b) Shareholder distribution:

In accordance with Circular No. 792 of the Chilean Superintendency of Securities and Insurance, the distribution of shareholders based on their participation in the Company as of June 30, 2003 is as follows:

-----

Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

Type of shareholder	Percentage of Total holdings %	Number of shareholders
10% holding or more	63.24	
Less than 10% holding:		
Investment equal to or exceeding UF 200	36.03	2,
Investment under UF 200	0.73	11,
<b>Total</b>	<b>100.00</b>	<b>14,</b>
Company controller	43.64	

(c) Dividend policy:

As established in Law No. 18,046, except otherwise agreed upon at the General Shareholders' Meeting with the unanimous vote of the outstanding shares, when there is net income, at least 30% should be distributed as dividends.

On April 5, 2002, the General Shareholders' Meeting agreed to pay a dividend of ThCh\$1,233,497 (historical) out of retained earnings and which was paid on May 15, 2002.

On April 4, 2003, the General Shareholders' Meeting was informed of the dividend distribution policy proposed by the Board of Directors for 2003.

Distribution for 2003, of at least 30% of net income of the same year - percentage equal to that required by law - by means of a final dividend in May 2004, which will be proposed at the corresponding General Shareholders' Meeting.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

-----

27. Contingencies and restrictions:

a) Lawsuits:

- (i) Complaint filed by Profesionales Temporales Ltda (Protempore Ltda.):

On January 2, 1998, the Company was notified of a complaint filed by Protempore Ltda. with the 15th Civil Court of Santiago for cancellation of contract with damage indemnity amounting to ThCh\$ 7,885,711.

By sentence dated June 28, 2002, the court rejected all parts of the complaint and damage indemnity filed by Protempore and accepted the counterclaim filed by Telefonica CTC Chile, declaring cancellation of the contracts due to non-compliance

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

by the former, sentencing them to indemnify all payments made by the Company as a consequence of their non-compliance. Protempore filed a motion to vacate and appeal against this sentence, which is underway (Case No. 4958-1997).

(ii) Complaint filed by VTR Telefonica S.A.:

On June 30, 2000 VTR Telefonica S.A. filed a complaint in plenary suit for pesos charged for access charges of Ch\$ 2,203 million, based on the differences that would originate when access charge rates were reduced due to the dictation of Tariff Decree No. 187 of Telefonica CTC. The first instance sentence accepted VTR's complaint and compensation alleged by Telefonica CTS. The Company filed a motion to vacate and appeal that is currently underway.

(iii) Labor lawsuits:

In the normal course of business of the Company there have been labor lawsuits filed against it.

To date, among others, there are certain labor lawsuits involving 27 former employees who claim wrongful dismissal. These employees did not sign releases or receive staff severance indemnities. First instance sentences have been handed down in two of these lawsuits, accepting the complaint. They have been appealed by the Company. The Company has obtained favorable sentencing in a third lawsuit, with the Supreme Court ratifying a previous verdict by the Court of Appeals of Concepcion which accepted the Company's arguments.

In addition there are other lawsuits involving 116 former employees who have been paid their staff severance indemnities and have signed their releases, who in spite of having accepted voluntary retirement plans or having been terminated due to the Company's needs, intend to obtain a declaration of nullity. Of these lawsuits, two have been decided in favor of the Company, rejecting the nullity.

Certain labor union have filed complaints before the Santiago Labor Courts, requesting indemnity for various concepts.

46

COMPANIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

---

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

27. Contingencies and restrictions, continued:

In Management's opinion and that of in house legal counsel, the risk of the Company being obliged to pay indemnities in the amounts claimed in the lawsuits mentioned previously is remote. Management considers it

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

improbable that the Company's revenues and shareholders' equity will be significantly affected by these loss contingencies. Therefore no provision has been set up in connection with the indemnities claimed.

(iv) Complaint against the Chilean Government:

Telefonica CTC Chile continued its efforts to have illegalities incurred in drafting Decree 187 which set its rates corrected. The presentation of an administrative replacement recourse is emphasized. Subsequent to the negative response from the Authority, Telefonica CTC Chile filed an indemnity complaint against the Government for illegalities incurred in the process of setting rates

The complaint was for US\$274 million, plus readjustments and interest, and covers past and future damages until May 2004, due to having to charge lower rates than those that should legally have been set.

The Third Civil Court of Santiago accepted the complaint, and notified the Government. Once the answer from the Government had been received, as well as the answer and rejoinder with which the discussion period ends, the Court of Justice dictated the writ of evidence, setting the pertinent, substantial and disputed evidence. To date the complaint is at the evidence stage, within which Telefonica CTC Chile has rendered abundant testimonial evidence.

(v) Manquehue Net:

On June 24, 2003, Telefonica CTC Chile filed a petition for forced compliance with contract with damage indemnity before the mixed arbitration court of Mr. Victor Vial del Rio against Manquehue Net, in the amount of Ch \$ 3,647,689,175 in addition to those accrued during the substantiation process. Likewise and on the same date, Manquehue Net filed a petition for discount compliance (in the amount of UF 107,000), in addition to a petition of obligation to perform (signing of 700 service contracts). Regarding both petitions, the Arbitrator conceded transfer on June 25, 2003. The parties were subsequently notified.

b) Financial covenants:

In order to develop its investment plans, the Company has obtained financing both from the local market and the foreign market (Notes 14, 15 and 16), that establish among others: maximum debt clauses for the Company, interest cover and cash flow.

The maximum debt ratio for these contracts is 1.60, while the interest coverage ratio cannot be less than 3.00 and, lastly, the cash flows ratio must be equal to or exceed 0.166.

Non compliance with these clauses implies that all obligations assumed in those financing contracts will become due.

As of June 30 2003, the Company meets all financial covenants.

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

COMPANIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES

---

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, continued  
(Translation of financial statements originally issued in Spanish)

---

27. Contingencies and restrictions, continued:

c) Contracts with Sonda S.A.

In September 2002, Telefonica CTC Chile through its subsidiary Telefonica Empresas, sold and transferred 25% ownership of Sonda S.A. to Inversiones Pacifico Limitada and Inversiones Santa Isabel Limitada, companies related to Mr. Andres Navarro. In addition, the Company signed an agreement with Inversiones Santa Isabel Limitada, which grants various rights and obligations to both parties in the sales option for the remaining 35% of Sonda, which are detailed in note 2d.

28. Third party guarantees:

a) Purchase of VTR L.D. S.A.

In relation to the purchase of VTR L.D. S.A. (CTC Globus S.A.), VTR S.A. (in which Telefonica CTC Chile S.A. does not participate), declared that regarding any contingency that originated before the purchase and sale contract (dated October 14, 1998) and that was not declared at that time, VTR S.A. shall be solely and exclusively responsible for settling it up to approximately US\$10 million, granting guarantees to cover said contingencies. Those guarantees expired on March 27, 2001.

On December 26, 2001 the parties renewed the guarantees for US\$ 2.5 million, and which expire on December 27, 2003.

On June 14, 2002, the parties signed a release which resulted in a payment by VTR S.A. amounting to US\$ 2 million.

b) Commitment to sell ownership in Sonda S.A.

Inversiones Santa Isabel Limitada, signed an agreement with Telefonica Empresas that give it a sales option for 35% of Sonda (as described in note 2d). To guarantee faithful and timely compliance with the obligations derived from the option contract, Inversiones Santa Isabel Limitada issued bank guarantees in favor of Telefonica Empresas for UF 1,983,185. These guarantees will remain in custody until August 26, 2003 and must be renewed within the following 20 days for UF 2,003,260, bearing in mind that they must be sight and renewed with a maturity date of September 26, 2004. Subsequently, during September 2004 they must once again be renewed until Sept 26, 2005 for UF 2,048,885 with an execution procedure similar to the one previously described.

30. Sanctions:

Neither the Company, nor its Directors and Managers have been sanctioned by the Superintendency of Securities and Insurance or any other administrative authority during the 2003 period.

31. Subsequent Events:

- a) Offer from Telefonica S.A. to purchase shares of Terra Networks

On May 28, 2003 Telefonica S.A. announced an offer to purchase 100% of the shares of Terra Lycos. On July 10, 2003 the Board of Directors of CTC Transmisiones Regionales S.A. agreed to participate in the offer (OPA) and sell the 2,984,986 shares of Terra Networks S.A. it owns at a price of 5.25 euros per share.

- b) Payment of eventual dividend and capitalization of Share Premium.

The Extraordinary Shareholders' Meeting of Telefonica CTC Chile S.A. held on July 11, 2003, approved payment of an eventual dividend of Ch\$17.5 per share to be charged to retained earnings at December 31, 2002. The dividend will be paid on July 30, 2003. Additionally, the Extraordinary Shareholders' Meeting approved modification of the bylaws to reflect the company's capital increase resulting from the capitalization of the "Share Premium" account.

- c) Promise of Sale Contract with Isapre Consalud S.A.

#### 1. HIGHLIGHTS

##### Results for the Period and Business Statistics for the Company

As of June 30, 2003, Telefonica CTC Chile recorded consolidated net income of Ch\$ 8,217 million, figure which compares positively with net income of Ch\$ 1,382 million obtained as of June 30 of the previous year.

At an operating level, the income of Telefonica CTC Chile reached Ch\$ 60,327 million. It should be noted that for comparison purposes, the first half of 2002 includes the contribution of the subsidiary Sonda to the Company's consolidated income.

For comparative purpose in the table below, the following financial statement line items are presented as described in Note 3 to the financial statements:

Certain financial statement information presented as described and quantified in Note 3 (\*)

	For the six month period		
	Ended June 30,		VARIATION
	2002	2003	%
Revenues	390,785	400,309	2.4%
Costs	(197,492)	(208,959)	5.8%
EBITDA	193,293	191,350	-1.0%
Depreciation	(128,163)	(131,023)	2.2%
Operating Income	65,130	60,327	-7.4%

(\*) For comparison purposes, 2002 excludes consolidated results of SONDA S.A.. SONDA S.A. has been presented in the financial statements of the Company since September 1, 2002 as an equity-method investee.

Including the effects of Sonda, consolidated operating income decreased by 9.2% in relation to the first half of the previous year.

Non-operating income at June 30, 2003, shows a loss of Ch\$ 35,398 million, a 33.5% drop in relation to the same period in the previous year, derived mainly from a decrease in price-level restatement, together with a decrease in the financial expenses associated to a lower level of debt and better financing conditions together with a drop in other non-operating revenues.

Regarding business operating statistics, as of June 30, 2003, fixed telephone lines in service of Telefonica CTC Chile reached 2,566,384, a decrease of 7.0% in relation to June 30, 2002. ADSL customers in service increased to 84,202 a growth of 178.2 % in relation to the previous year. Mobile service customers reached 1,944,393, a growth of 13.7% compared to 2002. The long distance business experienced a drop in traffic of 12.5% in domestic long distance (DLD) and a growth of 2.3% in outgoing international long distance (ILD), of 322 million of minutes and 32 million of minutes, respectively, as of June 30, 2003. ATM links for

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

corporate customers decreased by 8.1% whereas IP links grew by 256.0%.

As of June 30, 2003, the corporation's payroll was 4,807 persons, representing a decrease of 39.0% in comparison to June 2002 (13.5% upon excluding the Sonda payroll in 2002).

### Management's Discussion and Analysis of the Consolidated Financial Statements 4

#### Tariff Setting Process for Telefonica CTC (Local Telephone Service)

As an issue prior to the process of setting the rates for the services provided by Telefonica CTC, on January 13 of this year, Telefonica CTC Chile S.A. requested the pronouncement of the Antitrust Commission with respect to decreeing freedom of rates in specific geographic areas, to define the telephone services which will be subject to rate regulation in areas where the market conditions are not sufficient to guarantee a freedom of rates regime and to determine that Telefonica CTC Chile S.A. has the right to offer alternative rate plans without prior authorization.

On April 30, 2003, Telefonica CTC submitted to the Undersecretary of Telecommunications (Subtel) its proposal for the Technical Economic Basis for the Tariff Setting Study for services rendered by Telefonica CTC Chile to other public telephone service suppliers, to concessionaires of intermediate services, which provide long distance telephone services and to suppliers of complementary services.

On May 20, 2003, the Antitrust Commission dictated Resolution No. 686 which defines the services subject to tariff setting by the Ministries of Economy and of Transportation and Telecommunications, which are similar to those established for the 1999 - 2004 period. The mentioned Resolution No. 686 rejects the petition for tariff freedom for specific primary zones requested by Telefonica CTC Chile, and in relation to the request for rate flexibility, informed favorably by the Regulator, the Antitrust Commission did not issue a specific pronouncement in spite of the fact that most of its members were for making a pronouncement on the same, whereas the rest of the members considered that such matter did not correspond to that Commission.

On May 30, 2003, Subtel sent Telefonica CTC Chile the Preliminary Technical Economic Basis. In this respect, Telefonica CTC Chile formulated 84 controversies to the Preliminary Technical Economic Basis of Subtel and requested that an Expert Commission would set up in conformity with what is established in the law and Regulation that Regulates the Procedure, Advertising and Participation of the Tariff Setting Process.

The Expert Commission was officially established on June 17, 2003, integrated by the experts designated by Telefonica CTC Chile and Subtel. On July 17, the mentioned Commission issued its report on the controversies formulated by Telefonica CTC.

### Management's Discussion and Analysis of the Consolidated Financial Statements 5

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

### Process for Setting Interconnection Rates for Telefonica Movil

On January 10, 2003, Telefonica Movil presented its proposal for Technical Economic Basis to the Undersecretary of Telecommunications, to govern the process for setting interconnection rates.

By means of Resolution dated February 22, 2003, Subtel approved the Final Technical Economic Basis that will govern the interconnection rate setting process for the concessionaires mobile telephone service to the public for the 2004 - 2009 period.

### Financial Debt Decrease

Telefonica CTC Chile continues to improve its debt level through amortization of loans, renegotiation of rates and terms of current loans and also through the global decrease in market rates. As of June 30, 2003, interest-bearing debt reached US\$ 1,413 million, reflecting a decrease of 22.8% compared to the nominal interest-bearing debt of US\$ 1,831 million recorded as of June 30, 2002. The decrease in debt levels together with improved financing conditions in turn had the effect of lowering financial expenses for 2003.

### Telefonica S.A.'s Offer to Purchase Shares of Terra Networks

On May 28, 2003, Telefonica S.A. announced an offer to purchase 100 % of the shares of Terra Lycos. On July 10, 2003, the Board of Directors of CTC Transmisiones Regionales S.A. agreed to participate in the offer (OPA) and sell 2,984,986 shares of Terra Networks S.A. owned by it at an unit price of 5.25 Euros.

Recovery in the price of the shares of Terra Networks in the international market during this year, had a positive impact on the investment valuation of the shares that CTC Transmisiones Regionales S.A. holds in that company. This resulted in recognition of Ch\$ 3,375 million in non-operating incomes in the first half of 2003.

### Placement of Negotiable Instruments

On January 27, 2003, Telefonica CTC Chile S.A. registered a line of negotiable instruments in the Securities Registry with a maximum amount of Ch\$ 35,000 million, for a 10-year term. On June 26, Telefonica CTC Chile, placed Ch\$ 20,000 million, through a placing agent, in two series of equal par value, with final maturity deadline in September and November 2003.

Management's Discussion and Analysis of the Consolidated Financial Statements 8

3. ANALYSIS OF RESULTS FOR THE PERIOD

3.1 OPERATING INCOME

As of June 30, 2003, operating income reached Ch\$ 60,327 million, which represents a decrease of 9.2% in comparison to the previous year.

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

### Operating Revenues

Operating revenues for the period reached CH\$400,309 million showing a decrease of 8.0% in relation to 2002. This decrease incorporates the effects of the deconsolidation of Sonda as of September 2002. Isolating this effect, operating revenues increased by 2.4% over the previous year.

This variation was mainly originated by a 12.2% increase in mobile services, together with a 3.8% increase in revenues from corporate communications. The above was partly offset by a 10.3% decrease in long-distance revenues and a drop of 0.8% in local telephone revenues. The latter is mainly due to the generation of greater revenues equivalent to 32.1% for added value services and other services such as ADSL, partly compensating the decreased revenues derived from the Corporation's decrease in traffic and lines in service.

Revenues from Local Telephone Service: Revenues from Basic Telephone Service decreased by 3.6% in respect of the previous year. The variation experienced by this revenue is mainly derived from: (i) the 1.6% decrease in the level of fixed charge, corresponding to the fixed monthly charge for network connections, mainly due to the decrease in the number of lines in service and compensated in part by the indexation of rates applicable to these services; (ii) the 5.0% drop in revenues from variable charge, mainly due to the decrease in lines in service, to the downward trend in the behavior of traffic per line and compensated in part by the indexation applicable to these services.

Consolidated revenues from access charges and interconnections decreased by 6.1%, mainly due to the 2.7% decrease in revenues from domestic long distance access charges and a 19.0% decrease in revenues from international long distance access charges, due to the 22.0% drop in international interconnection traffic, and to a 4.7% decrease in revenues from other charges and interconnection services.

Other Local Telephone Services increased by 32.1% due to an 11.7% increase in value added services, higher revenues equivalent to 61.5% for commercialization of equipment and a 52.3% increase in other services and, lastly, to a 52.3% increase in other services, mainly due to contributions from broad band services for the concept of ADSL, which show a sustained growth during the last few periods.

Long Distance: Revenues from these services decreased by 10.3% in comparison to 2002, due to a decrease of 12.9% and 6.9% in revenues from DLD and ILD, respectively, the latter influenced by an average decrease of 13.6% in the price of these services, in spite of a 2.3% growth in outgoing ILD traffic. Media and circuit rentals show decreased revenues equivalent to 11.0% in relation to the first quarter of 2002.

### Management's Discussion and Analysis of the Consolidated Financial Statements 9

Mobile Communications: Total revenues from this business increased by 12.2% in relation to 2002, mainly due to the 14.6% growth experienced in the average mobile customer base, partially offset by the drop in average revenue per subscriber, and a higher level of prepaid customers in relation to contract customers. It should be noted that these revenues include regulated calling party pays revenues for incoming traffic to

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

mobile telephones.

Corporate Communications: Business revenues shows an increase of 3.8% in comparison to the previous year, corresponding to a 15.5% increase in the sale and rental of equipment and networks, compensated by a 0.4% decrease in private services. The above is explained by the increase in corporate services, a 256.0% increase in dedicated IP links and the growth in Broad Band and ISP services, all offset in part by the 8.1% decrease in the number of ATM services and the 49.3% decrease in Datarred services.

Other Operating Revenues: This income, excluding the effect of Sonda in 2002, shows a 3.0% increase mainly due to higher revenues from alarm monitoring services and increased revenues from maintenance of interior telephone lines and public telephony equipment.

### Operating Costs

Operating costs of Ch\$339,982 million for the period decreased by 7.8% compared to 2002.

This decrease is mainly explained by a 33.5% decrease in salaries which translates into a 12.0% decrease excluding Sonda in 2002, reflecting the savings in the workforce reduction carried out by the Company in October 2002. Depreciation decreased by 1.3% (increase of 2.2% when excluding Sonda in 2002) due mainly to the Corporation's new assets becoming operational. Other operating costs dropped by 5.8%, (however, when excluding Sonda in 2002, they increased by 11.7%) mainly due to an increase in the interconnection service costs and an increase in the Corporation's allowance for doubtful accounts.

Administration and selling costs in comparison to the first half of 2002, show a decrease of 7.0%, however, upon excluding Sonda in 2002, they increased by 5.6% due mainly to the increase in expenses from advertising expenses, sales commissions and outsourcing services, partly offset by remuneration savings due to the reduction in the Corporation's payroll.

### 3.2 NON-OPERATING RESULT

Non-operating result in the first half of 2003 shows a loss of Ch\$35,398 million, figure that is less than the non-operating result for the same period in 2002. The variation in non-operating result is broken down as follows:

Interest income shows a drop of 33.7%, mainly due to lower domestic and international interest rates and less available funds, which have been assigned to diminish the Corporation's financial debt.

Other non-operating income There is a 84.2% increase mainly a rise in the price of Terra Networks shares in the market during 2003 and the final adjustment of the compensatory indemnity due to early termination of the contract with Publiguias S.A., partly offset by the sale of shares booked in the first half of 2002.

Interest expenses decreased by 13.7% in 2003, mainly due to a reduced debt and better financing conditions.

Management's Discussion and Analysis of the Consolidated Financial Statements 10

Other non-operating expenses decreased by 53.8%, derived mainly from higher expenses incurred in 2002 due to staff severance indemnities and

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

expenses related to lawsuits. Additionally, 2002 includes the effect of the lower market value of the Terra Networks shares.

Price-level restatement shows a deficit of \$316 million, 94.5% lower than the loss of Ch\$5,716 million recorded in the first half of 2002. This last figure partly picks up the effect of the devaluation of Sonda's investments in Argentina and Brazil. It should be noted, that there has been a 100% level of coverage on exchange rate variations and 84% coverage of interest rate variations. The Company's coverage policy for the peso-dollar exchange has allowed it to neutralize the effects of the exchange rate variations in 2002 and 2003.

### 3.3 NET INCOME FOR THE PERIOD

Net income was Ch\$ 8,217 million in comparison with net income of Ch\$ 1,382 million earned in 2002. Net income obtained during the period derives from a 33.5% drop in non-operating result and a 9.2% decrease in operating income, together with a 48.4% increase in income tax in relation to the previous year. This increase in tax expense is fundamentally due to a 130.8% increase in deferred tax expense derived from a 101.4% increase in amortization of complementary accounts plus an increase in deferred tax expense of 158.4% for the period, a situation that is partially compensated by a 25.8% drop in income taxes payable.

## 4. RESULTS BY BUSINESS AREA

**Local Telephone Business:** Showed a net loss of CH \$15,469 million in the period, which represents a decrease of CH\$ 3,442 million in the loss with respect to the previous year, explained mainly by a 24.4% decrease in non-operating deficit.

**Long Distance Business:** showed a profit of Ch\$13,458 million, a 35.7% increase over the previous year. This variation is composed of a 22.5% drop in the operating income, and a non-operating gain of Ch\$2,571 million which compares positively with the non-operating deficit of Ch\$5,739 million in the first half of 2002.

**Corporate Communications Business:** This business contributed income of Ch\$4,963 million, compared to income in 2002 of Ch\$9,596 million. This variation is mainly due to a 30.58% drop in operating income as a result of drop in revenue due to the transfer of PYMES customers to local business. The above was partly offset by a decrease in goods and services and salary expenses. In addition there was a non-operating deficit of Ch\$ 1,012 million as of June 2003, while the previous year showed non-operating income of Ch\$214 million for the same period.

**Mobile Business:** The Mobile Communications business contributed income of Ch \$4,200 million to the consolidated net income during the period, whereas in 2002 it had income of Ch\$2,140 million. This positive contribution is derived from higher results at an operating and non-operating level.

**Other Businesses:** These businesses as a whole showed income of Ch\$1,064 million as a result operating income of Ch \$ 4,208 million and a non-operating deficit of Ch\$2,969 million, whereas during the same period in the previous year, there was a loss of Ch\$1,357 million. In 2003 these businesses include mainly public telephone services, maintenance and installations of basic telephone equipment, "Isapre Istel" (employee health insurance) and shared services. In 2002 they also include the results of SONDA.

## 5. STATEMENT OF CASH FLOWS

TABLE No. 4  
CONSOLIDATED CASH FLOWS  
(Figures in millions of pesos as of June 30, 2003)

DESCRIPTION	JAN-JUN 2002	JAN-JUN 2003	VARIATIO MCh\$
Cash flows from operating activities	123,754	154,603	32,849
Cash flows from financing activities	(69,635)	(116,858)	(47,223)
Cash flows from investment activities	(25,783)	(39,508)	(13,725)
Effect of inflation on cash and cash equivalents	(642)	(533)	109
Net change in cash and cash equivalents for the period	27,694	(296)	(27,990)

The decrease of CH\$ 296 million in cash and cash equivalents for 2003 to the increase of CH\$ 27,694 million in 2002, comes from higher cash flows destined to investment and, mainly to greater amortization and prepayment cash flows to decrease the debt of Telefonica CTC Chile, a situation that was partly offset by increased cash flows from operating activities during the first half of 2003, as compared to the same period of the previous year.

Management's Discussion and Analysis of the Consolidated Financial Statements 13

(2) Property, plant and equipment are considered operating assets

Management's Discussion and Analysis of the Consolidated Financial Statements 14

In the previous table, the following is highlighted:

The current ratio shows a decrease because the levels of current assets and liabilities decreased by 37.9% and 35.0%, respectively. The debt ratio

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

decreased due to lower levels of financial liabilities compared to January - June 2002.

### 7. EXPLANATION OF THE MAIN DIFFERENCES BETWEEN MARKET OR ECONOMIC VALUE AND THE BOOK VALUE OF THE COMPANY'S ASSETS

Due to an imperfect market for the assets of the sector, there is no economic or market value that can be compared to the respective accounting values. However, there are certain buildings with a book value of zero or close to zero, which have a market value, which, compared to the book value, is not significant in respect to the Company's assets taken as a whole.

In relation to other assets, such as marketable securities (shares and promissory notes) with a referential market value, the corresponding provisions have been set up, when the market value is lower than the book value.

### 8. REGULATORY ISSUES

#### Fixed Telephony Tariff Decree

Decree No. 187 is in effect as of May 5, 1999. It establishes maximum rates for Telefonica CTC Chile for local telephone services and interconnection services for a period of five years, which expires on May 4, 2004.

The main services subject to tariff regulation are: Telephone Line Service (formerly Fixed Charge), Local Measured Service, Local Tranche, Access Charges, Communications Service from Public Telephones and Network Unbundling Services.

In relation to the procedure to be followed for setting rates for services subject to tariff regulation, on January 13 of this year, Telefonica CTC Chile S.A. requested that the Antitrust Commission decree freedom of rates in specific geographic areas, that they define telephone services which will be subject to rate regulation in areas where the market conditions are not sufficient to guarantee a freedom of rates regime and that they determine that Telefonica CTC Chile S.A. has the right to offer alternative rate plans without prior authorization.

Subtel, together with the process of rate setting for Telefonica CTC Chile, initiated the process of rate setting for public services provided by Entelphone in Easter Island and access charge rates provided by Entelphone, CMET, Telesat and Manquehue Net.

On April 30, 2003, Telefonica CTC submitted to Subtel its proposal for the Technical Economic Basis for the Tariff Setting Study for services provided to the public and for the Tariff Setting Study for services provided by Telefonica CTC Chile to other concessionaires of Public Telephone services, to intermediate services concessionaires that provide long distance telephone services and to suppliers of complementary services.

Management's Discussion and Analysis of the Consolidated Financial Statements 15

On its side, on May 20, 2003, the Antitrust Commission dictated Resolution No. 686 which defines the services subject to rate setting by the Ministries of Economy and of Transportation and Telecommunications, which

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

are similar to those established for the 1999 - 2004 period. The mentioned resolution No. 686 rejects the petition for tariff deregulation for specific primary zones requested by Telefonica CTC Chile, and in relation to the request for rate flexibility, informed favorably by the Regulator, the Antitrust Commission did not issue a specific pronouncement in spite of the fact that most of its members were in favor of making a pronouncement on the same, whereas the rest of the members considered that such matter did not correspond to that Commission.

On May 30, 2003, Subtel sent Telefonica CTC Chile the Preliminary Technical Economic Basis. In this respect, Telefonica CTC Chile formulated 84 controversies to the Preliminary Technical Economic Basis of Subtel and requested the formation off a panel of experts in conformity with what is established in the law and Regulations that regulates the Procedure, Advertising and Participation in the Rate Setting Process.

The Expert Commission was officially constituted on June 17, integrated by the experts designated by Telefonica CTC Chile and Subtel. On July 17, the mentioned panel issued its report on the controversies informed by Telefonica CTC Chile. Once the pronouncement has been sent, which is not binding upon nature Subtel, it has 10 days to dictate the Final Technical Economic Basis.

Entelphone, CMET, Manquehue Net and Telesat did not formulate controversies to the Preliminary Technical Economic Basis. Consequently with the above, Subtel dictated the Final Technical Economic Basis for the respective companies.

Management's Discussion and Analysis of the Consolidated Financial Statements 16

### Mobile Telephone Tariff Decree

Decree No. 97 is in effect as of February 12, 1999. It establishes maximum rates for Telefonica Movil for interconnection services, including Mobile Access Charge, for a period of five years, which expires on February 12, 2004.

Since the expiry of the five-year period of current regulated rates is nearing, on January 10, 2003, Telefonica Movil presented its Technical Economic Basis Proposal to the Undersecretary of Telecommunications, beginning the process of setting the rates for the 2004-2009 period. In Exempt Resolution dated February 22, 2003, the Undersecretary of Telecommunications approved the Final Technical Economic Basis that will apply to the process of setting the Access Charges Rates for the mobile telephone public service for the 2004 - 2009 period.

### Lawsuit Against the State of Chile

Upon extinguishing the administrative instances to correct the illegalities involved in the Tariff Setting Process, Telefonica CTC Chile S.A. filed a lawsuit for damages against the State of Chile.

The lawsuit for US\$274 million, plus readjustments and interests, covers past and future damages until May 2004, resulting from having to charge lower rates than those that should legally have been set.

The Third Civil Court of Santiago accepted the complaint, and notified the State. Once the answer from the State had been received, as well as the

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

answer and rejoinder with which the discussion period ends, the Court dictated the writ of evidence, setting the pertinent, substantial and disputed evidence, which initiated the presentation of evidence stage, in which witnesses for the plaintiff and for the State have testified.

Upon conclusion of the testimonial and partial testing, the expert investigation stage requested by the parties begins.

Management's Discussion and Analysis of the Consolidated Financial Statements 17

### 9. ANALYSIS OF MARKETS, COMPETITION AND RELATIVE PARTICIPATION

Continued growth is observed in the mobile and broad band Internet market during the first quarter of 2003, in contrast with the stagnation in the fixed-network voice communication, long distance and narrow band Internet business.

In the competitive environment, there were no relevant changes in the relative participation of the operators in the various businesses, with exception of an increase in the participation of Telefonica CTC Chile in the broad band market.

Among the relevant competitive events, in mid-April 2003, the highlight is the announcement of the owner of AT&T Chile (AT&T Latin America) that it had requested protection under Chapter 11 of the Bankruptcy Law in the United States of America for reorganizing its operations. At the same time AT&T Corp had an agreement of intent to sell its participation in AT&T Latin America to Southern Cross, which finally did not prosper.

#### Local Telephone Service

This market contemplates providing local telephone services inside the primary areas, interconnection services with other telecommunications companies and other unregulated local services.

Incorporation into this market is regulated by concessions awarded by the Undersecretary of Telecommunications of the Ministry of Transport and Telecommunications (Subtel).

Currently eleven companies with twelve brands participate in this market, including rural operators. The penetration rate per 100 inhabitants as of MAY 2003 was in the order OF 23.7 lines per 100 inhabitants (considering the population figures of the April 2002 census) Telefonica CTC Chile has approximately 75.5% of fixed telephone lines as of May 2003.

On August 21, 1999, Decree No. 187 was published in the Official Gazette. This decree was drafted jointly by the Ministries of Transport and Telecommunications and of Economy, Development and Reconstruction and it sets rates for the regulated services of Telefonica CTC Chile during the five-year period from 1999-2004. The Decree had to be applied retroactively as of May 4, 1999.

In Resolution No. 611, the Antitrust Commission established the possibility for Telefonica CTC Chile to offer alternative tariff plans to Decree No. 187, oriented toward volume discounts, and to request tariff deregulation in certain geographic areas. In this regard, on September 4, 2001, Telefonica CTC Chile presented a proposal for alternative tariff plans (for high traffic consumption), which was approved in October 2002.

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

On May 24, 2002, Telefonica CTC Chile also obtained authorization from Subtel to commercialize prepaid telephone service for low income segments, which was commercially implemented in October 2002.

Of the five companies that were awarded the bid to operate fixed wireless telephone service concessions in the 3,400 to 3,700 MHz or Wireless Local Loop (WLL), only Entel (licenses: one national and 13 regional) is currently developing its projects. Telefonica del Sur (which was awarded licenses from the VIII to X Regions) informed Subtel of the interruption of its project, due to extenuating circumstances, this being the reason that Subtel annulled the concession for local wireless public service in the VIII and IX regions.

### Management's Discussion and Analysis of the Consolidated Financial Statements 18

Telefonica CTC Chile does not currently hold a license to operate with WLL technology.

#### Long Distance

This market contemplates communications services between primary areas (DLD) and international communications (ILD), also known as intermediate services.

On March 9, 1994 Law No. 19,302 came into effect. It establishes the application of a multicarrier system for domestic and international long distance calls. This law allows local telephone operators to participate in the long distance market through an independent subsidiary subject to some requirements.

In this market there are currently 14 companies operating with 17 carrier codes. Traffic in the DLD and ILD market, through fixed telephone lines recorded a drop in the first half of 2003 with respect to the first half of 2002 estimated at 11% and 6% respectively. Telefonica CTC Chile, through its subsidiaries 188 Telefonica Mundo and GLOBUS 120, reached an estimated market share of 38.7% in domestic long distance and 31.4% in outgoing international long distance, in the second quarter of 2003.

#### Corporate Communications

This business area contemplates providing circuit and data services (Datared, El, ATM, Frame Relay), IP network solutions, Hosting, ASP and advanced telecommunications solutions for corporate clients and Internet service providers (ISPs). Likewise, it includes the commercialization of advanced equipment (multiple lines and PABx, among others).

In October 2002, Telefonica Empresas refocused toward the company and corporate segments. In this business Telefonica CTC Chile competes with 8 companies in the private service area and with at least 10 companies in the hosting business, with a market share of approximately 47% considered during the first half of 2003, including sale of advanced equipment to companies.

#### Mobile Communications

Provides mobile communication services (cellular telephony, paging, trunking and wireless data transmission).

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

There are currently four mobile telephone operators and one smaller operator of mobile satellite communications.

Telefonica CTC Chile, through its subsidiary Telefonica Movil, has approximately 30% of a total of 6.6 million of customers estimated as of June 2003.

Regarding the tender offer for PCS mobile spectrum in the 1,900 MHz band (3 bands of 10 MHz each), once the Supreme Court verdict to exclude Smartcom was handed down, the Ministry of Transport and Telecommunications called on Telefonica Movil S.A. and Bellsouth to proceed to bid on the three concessions on July 18, 2002.

### Management's Discussion and Analysis of the Consolidated Financial Statements 19

On July 18, 2002, the three 10 MHz frequencies on the 1,900 MHz band were awarded. Telefonica Movil Chile was awarded two frequencies (20 MHz) for a total of UF 544,521, equivalent to US\$12.8 million.

On the other hand, Telefonica CTC enabled the specialized radio-communications interconnection requested by a mobile service operator, which is available as of the beginning of April 2003.

#### Pay TV

The pay television market is composed of two main cable TV competitors with approximately 80% of the pay TV market. (roughly 710,000 customers), two satellite TV operators and approximately 20 cable TV operators in specific areas, jointly have the remaining 20% of the market.

On July 3, 2000, a contract was signed for the sale by Telefonica CTC Chile of Metropolis Intercom to Cordillera Comunicaciones S.A. once the transaction was authorized by the Antitrust Commission. The amount of the transaction was US\$270 million for 40% of Metropolis Intercom, 100% of its cable television network (except the cable TV network in the IV and VIII Regions) and 100% of Compania de Telecomunicaciones de Chile Plataforma Tecnica Red Multimedia. In addition the arbitration processes of both companies ended by way of a legal settlement.

In January 2002, a merger agreement was reached between Liberty Media and United Global Com (UCG), companies that participate in the Chilean operators Metropolis Intercom and VTR, respectively.

#### Internet Access

In this market there are currently approximately 34 ISP's operating effectively, in which three of them concentrate 83% of the traffic. IP traffic (switched) for the second quarter of 2003 in the network of Telefonica CTC Chile, reached approximately 1,671 million of minutes, a 2% drop in respect to the second quarter of 2002 mainly due to the migration of intensive users to broad band access.

Telefonica CTC Chile focuses on Internet access for corporate clients through its ISP TIE, segment in which it holds a market share near to 30%, and has commercial agreements with ISP Terra.

Telefonica CTC Chile continues with an intensive deployment of internet access through ADSL broad band, directly to the final customer and through a wholesale model in the ISP industry. At the end of June 2003, Telefonica

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

CTC Chile's broadband connections in service reached 84,202, representing a growth of 178.2% when compared to June 2002, thus achieving a market share of 33%.

### Management's Discussion and Analysis of the Consolidated Financial Statements 20

#### Other Businesses

Comprises the Public Telephone market, in which Telefonica CTC Chile participates through its subsidiary CTC Equipos. There are seven nationwide companies of, which CTC Equipos, as of June 2003, has approximately 23% market share as of June 2003 considering its own public telephones. Additionally, Telefonica CTC Chile has another 21,588 community telephones installed.

On January 11, 1999, Telefonica CTC Chile completed the acquisition of 60% of Sonda S.A. The agreement included the commitment of Sonda S.A. to purchase 100% of the information assets of Telefonica CTC Chile, which has completed in the first quarter of 1999.

On October 12, 2001, Telefonica CTC Chile signed a new shareholders' agreement with Inversiones Pacifico II Ltda. and Inversiones Atlantico Ltda. in which it grants each of these companies a call option for its 60% stake in Sonda S.A. maturing in June 2005. Additionally, the outsourcing and rental contracts between Sonda and Telefonica CTC Chile were terminated and a contract was signed in virtue of which Telefonica CTC Chile repurchases, at book value, the assets that were sold to Sonda S.A. in January 1999.

On September 26, 2002, Telefonica CTC Chile S.A., through its subsidiary Telefonica Empresas signed a sales contract for 25% ownership of Sonda S.A. for Ch\$27,921 million (approximately US\$37.5 million), paid in cash.

Through this agreement Inversiones Pacifico II Limitada acquired 11% of Sonda and Inversiones Santa Isabel Limitada acquired 14%. Both companies are related to Mr. Andres Navarro H. Thus, company's control is transferred to Andres Navarro, while Telefonica CTC Chile keeps the remaining 35% ownership through its subsidiary Telefonica Empresas.

On November 20, 2001 a new subsidiary was formed to commercialize and install alarm systems and video cameras for residential and corporate customers, providing monitoring and surveillance services and any other service relating to the above. As of May 2003, it is estimated that Telefonica CTC Chile has a market share of 29% in this service.

### Management's Discussion and Analysis of the Consolidated Financial Statements 21

#### 10. ANALYSIS OF MARKET RISK

##### Financial Risk Coverage

With the attractive foreign interest rates in certain periods, the Company has obtained financing abroad, denominated mainly in dollars and euros and, in certain cases, at a floating interest rate. For this reason the Company faces two types of financial risks, the risk of exchange rate fluctuations and the risk of interest rate fluctuations.

## Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

### Financial risk due to foreign currency fluctuations

The Company has exchange rate coverage instruments, the purpose of which is to reduce the negative impact of dollar and euro fluctuations on its financial results. The percentage of interest-bearing debt exposure is defined and continuously reviewed, basically considering the volatility of the exchange rate, its trend, and the cost and availability of hedging instruments for different terms.

The main hedging instruments used are dollar/UF and dollar/peso forward agreements.

As of June 30, 2003, the interest-bearing debt in original currency expressed in dollars was US\$1,413 million, including US\$991 million of financial liabilities in dollars, US\$220 million in debt expressed in "unidades de fomento" (inflation indexed Chilean currency unit), and US\$160 million of debt in euros. In this manner, US\$1,211 million corresponded to debt exposed to foreign currencies, and therefore directly or indirectly exposed to variations of the dollar.

Simultaneously, the Company had dollar/UF and dollar/peso exchange insurance and assets in dollars that resulted, as of June 30, 2003, in Zero exposure to foreign exchange.

### Financial risk due to floating interest rate fluctuations

The policy for hedging interest rates seeks to reduce the negative impact on financial expenses due to interest rate increases.

As of June 30, 2003, the Company had debts at variable interest rates, Libor, Euro Libor and TAB, mainly for syndicated loans.

To protect the Company from increases in the variable (floating) interest rates, derivative financial instruments have been used, particularly "collars" and "Forward Rate Agreements" (which protect the Libor rate), to limit the future fluctuations of interest rates. As of June 30, 2003, this has allowed the Company to end with an exposure of 16% of the total interest-bearing debt in original currency.
