INTRODUCTION

Community West Bancshares ("Community West") is a bank holding company registered under the Bank Holding Company Act of 1956, as amended. Community West's principal business is to serve as a holding company for its banking subsidiary, Community West Bank, N.A. ("CW Bank") (formerly, Goleta National Bank). When we say "we" or "our" we mean Community West on a consolidated basis with CW Bank.

Community West was incorporated on November 26, 1996, under the laws of the State of California, at the direction of the Board of Directors of CW Bank for the purpose of becoming CW Bank's holding company. The holding company

RISK FACTORS

Ownership of our Common Stock involves risk. You should carefully consider in addition to the other information set forth herein, the following risk factors.

OUR DEPENDENCE ON REAL ESTATE. Approximately 45% of our loan portfolio is secured by various forms of real estate, including residential and commercial real estate. A decline in current economic conditions or rising interest rates could have an adverse effect on the demand for new loans, the ability of borrowers to repay outstanding loans and the value of real estate and other collateral securing loans. The real estate securing our loan portfolio is concentrated in California. If real estate values decline significantly, especially in California, the change could harm the financial condition of our borrowers, the collateral for our loans will provide less security and we would be more likely to suffer losses on defaulted loans.

2

OUR ABILITY TO PAY DIVIDENDS IS RESTRICTED BY LAW AND DEPENDS ON CAPITAL DISTRIBUTIONS FROM CW BANK WHICH IS SUBJECT TO REGULATORY LIMITS. Our ability to pay dividends to our shareholders is subject to the restrictions set forth in California law. We cannot assure you that we will meet the criteria specified under California law or under these agreements in the future, in which case we may reduce or stop paying dividends on our common stock.

CONCENTRATED OWNERSHIP OF OUR COMMON STOCK CREATES A RISK OF SUDDEN CHANGES IN OUR SHARE PRICE. As of September 30, 2005, directors and members of our executive management team owned or controlled approximately 18.65% of our common

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

stock, excluding shares that may be issued to executive officers upon the exercise of stock options. Investors who purchase our common stock may be subject to certain risks due to the concentrated ownership of our common stock. The sale by any of our large shareholders of a significant portion of that shareholder's holdings could have a material adverse effect on the market price of our common stock. In addition, the registration of any significant amount of additional shares of our common stock will have the immediate effect of increasing the public float of our common stock and any such increase may cause the market price of our common stock to decline or fluctuate significantly.

CHANGES IN ECONOMIC CONDITIONS COULD HURT OUR BUSINESS MATERIALLY. Our business is directly affected by factors such as economic, political and market conditions, broad trends in industry and finance, legislative and regulatory changes, changes in government monetary and fiscal policies and inflation, all of which are beyond our control. We serve three primary regions. The Tri-Counties region which consists of San Luis Obispo, Santa Barbara and Ventura counties in the state of California, the SBA Western Region where we originate SBA loans (California, Washington, Oregon and Colorado) and the SBA Southeast Region (Georgia, Florida, Tennessee, Alabama, North Carolina and South Carolina). A deterioration in economic conditions, whether caused by national concerns or local concerns, in these areas could result in any of the following consequences, which could hurt our business materially:

- loan delinquencies may increase;
- problem assets and foreclosures may increase;
- demand for our products and services may decline;
- low cost or noninterest-bearing deposits may decrease; and
- collateral for loans made by us, especially real estate, may decline in value, in turn reducing customers' borrowing power, and reducing the value of assets and collateral associated with our existing loans.

HEAVY REGULATION OF THE FINANCIAL SERVICES INDUSTRY. We are subject to federal and state regulation designed to protect the deposits of consumers, not to benefit shareholders. These regulations include the following:

- the amount of capital we must maintain
- the types of activities in which we can engage
- the types and amounts of investments we can make
- the locations of our offices
- insurance of our deposits and the premiums paid for this insurance
- how much cash we must set aside as reserves for deposits

The regulations impose significant limitations on operations and may be changed at any time, possibly causing future results to vary significantly from past results. Government policy and regulation, particularly as implemented through the Federal Reserve System, significantly affects credit conditions.

BANK REGULATIONS COULD DISCOURAGE CHANGES IN OUR OWNERSHIP. Bank regulations could delay or discourage a potential acquirer who might have been willing to pay a premium price to acquire a large block of our common stock. That possibility could decrease the value of our common stock and the price that a stockholder will receive if shares are sold in the future. Before anyone can buy enough voting stock to exercise control over a bank holding company like Community West, bank regulators must approve the acquisition. A stockholder must apply for regulatory approval to own 10 percent or more of our common stock, unless the stockholder can show that they will not actually exert control. Regardless, no stockholder can own more than 25 percent of our common stock without applying for regulatory approval.

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

THE PRICE OF OUR COMMON STOCK MAY CHANGE RAPIDLY AND SIGNIFICANTLY. The market price of our common stock could change rapidly and significantly at any time. The market price of our common stock has fluctuated in recent years. Fluctuations may occur, among other reasons, in response to:

- short-term or long-term operating results
- legislative/regulatory action or adverse publicity
- perceived value of our loan portfolio
- trends in our nonperforming assets
- announcements by competitors
- economic changes
- general market conditions
- perceived strength of the banking industry in general
- our relatively low float and thinly-traded stock

The trading price of our common stock may continue to be subject to wide fluctuations in response to the factors set forth above and other factors, many of which are beyond our control. The stock market can experience extreme price and trading volume fluctuations that often are unrelated or disproportionate to the operating performance of individual companies. We believe that investors should consider the likelihood of these market fluctuations before investing in our common stock.

WE HAVE A CONTINUING NEED TO ADAPT TO TECHNOLOGICAL CHANGES. The banking industry is undergoing rapid technological changes with frequent introductions of new technology-driven products and services. The effective use of technology allows us to:

- serve our customers better;
- increase our operating efficiency by reducing operating costs;
- provide a wider range of products and services to our customers; and
- attract new customers.

Our future success will partially depend upon our ability to successfully use technology to provide products and services that will satisfy our customers' demands for convenience, create additional operating efficiencies, and respond to regulatory changes. Our larger competitors already have existing infrastructures or substantially greater resources to invest in technological improvements. We cannot assure you that we will be able to effectively implement new technology-driven products and services or be successful in marketing those products and services to our current and future customers.

A CURTAILMENT OF GOVERNMENT GUARANTEED LOAN PROGRAMS COULD AFFECT A SEGMENT OF OUR BUSINESS. A major segment of our business consists of originating and selling government guaranteed

loans, in particular those guaranteed by the SBA. From time to time, the government agencies that guarantee these loans reach their internal limits and cease to guarantee loans. In addition, these agencies may change their rules for loans or Congress may adopt legislation that would have the effect of discontinuing or changing the programs. Non-governmental programs could replace government programs for some borrowers, but the terms might not be equally acceptable. Therefore, if these changes occur, the volume of loans to small business, industrial and agricultural borrowers of the types that now qualify for government guaranteed loans could decline. Also, the profitability of these loans could decline. In late 2004, the SBA eliminated the piggy-back program, in which a conventional real estate loan is made and a SBA 7(a) guaranteed second trust deed is subordinate to the conventional first trust deed. As the funding and sale of the guaranteed portion of 7(a) loans is a significant portion of our business, the long-term resolution to the funding for the 7(a)

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

loan program may have an unfavorable impact on our future performance and results of operations.

ENVIRONMENTAL LAWS COULD FORCE US TO PAY FOR ENVIRONMENTAL PROBLEMS. When a borrower defaults on a loan secured by real property, we generally purchase the property in foreclosure or accept a deed to the property surrendered by the borrower. We may also take over the management of commercial properties when owners have defaulted on loans. While we have guidelines intended to exclude properties with an unreasonable risk of contamination, hazardous substances may exist on some of the properties that we own, manage or occupy. We face the risk that environmental laws could force us to clean up the properties at our expense. It may cost much more to clean a property than the property is worth. We could also be liable for pollution generated by a borrower's operations if we took a role in managing those operations after default. Resale of contaminated properties may also be difficult.

RECENT LEGISLATION ADDRESSING CORPORATE AND AUDITING SCANDALS RESULT IN INCREASED COSTS OF COMPLIANCE. The Sarbanes-Oxley Act and related regulations are increasing the costs of all public companies and have imposed new requirements on auditors. Bank regulations are expected to mirror many of the requirements of this act. We expect to bear increased costs as a result; however, at this time we cannot estimate the amount of additional costs we are likely to incur.

OUR BUSINESS IS SUBJECT TO INTEREST RATE RISK AND VARIATIONS IN INTEREST RATES MAY NEGATIVELY AFFECT OUR FINANCIAL PERFORMANCE. Changes in the interest rate environment may reduce our profits. It is expected that we will continue to realize income from the differential or "spread" between the interest earned on loans, securities and other interest-earning assets, and the interest paid on deposits, borrowings and other interest-bearing liabilities. Net interest spreads are affected by the difference between the maturities and repricing characteristics of interest-earning assets and interest-bearing liabilities. In addition, loan volume and yields are affected by market interest rates on loans, and rising interest rates generally are associated with a lower volume of loan originations. We cannot assure you that we can minimize our interest rate risk. In addition, an increase in the general level of interest rates may adversely affect the ability of certain borrowers to pay the interest on and principal of their obligations. Accordingly, changes in levels of market interest rates could materially and adversely affect our net interest spread, asset quality, loan origination volume and overall profitability.

WE FACE STRONG COMPETITION FROM FINANCIAL SERVICE COMPANIES AND OTHER COMPANIES THAT OFFER BANKING SERVICES THAT COULD HURT OUR BUSINESS. The banking industry is highly competitive. We face competition not only from other financial institutions within the markets we serve, but deregulation has resulted in competition from companies not typically associated with financial services as well as companies accessed through the internet. As a community bank, we attempt to combat this increased competition by developing and offering new products and increased quality of services.

REGULATORY CONSIDERATIONS

As a bank holding company under the Bank Holding Company Act, we are regulated, supervised and examined by the Board of Governors of the Federal Reserve System, or Federal Reserve Board. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of security holders. As a result of this regulatory framework, our earnings are affected by actions of the Federal Reserve Board, the Office of Comptroller of the Currency, which regulates the

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

Bank, and the Federal Deposit Insurance Corporation which insures the deposits of CW Bank within certain limits.

In addition, there are numerous governmental requirements and regulations that affect our business activities. A change in applicable statutes, regulations or regulatory policy may have a material effect on our business.

Depository institutions, like CW Bank, are also affected by various federal laws, including those relating to consumer protection and similar matters.

We are a legal entity separate and distinct from CW Bank. However, our principal source of cash revenues is the payment of dividends from CW Bank. There are various legal and regulatory limitations on the extent to which CW Bank can finance or otherwise supply funds to us and our other affiliates.

As a national bank the prior approval of the Comptroller of the Currency is required if the total of all dividends declared and paid to Community West in any calendar year exceeds CW Bank's net earnings for that year combined with their retained net earnings less dividends paid for the preceding two calendar years.

For a more detailed discussion of the material elements of the regulatory framework applicable to bank holding companies and their subsidiaries and specific information relevant to us, please refer to our annual report on Form 10-K for the year ended December 31, 2004, which is incorporated by reference in this Prospectus.

Article Six of Community West's Articles of Incorporation and Article VI of Community West's Bylaws provide that Community West shall indemnify each of its directors and officers for expenses, judgments, fines, settlements and other amounts incurred in connection with any proceeding arising by reason of the fact that such person was an "agent" of Community West to the fullest extent permissible under California law. For purposes of this law, an agent is any person who is or was a director, officer, employee or other agent of a corporation, or is or was serving at the request of a corporation in such capacity with respect to any other corporation, partnership, joint venture, trust or other enterprise. Section 317 mandates indemnification of an agent for expenses where the agent's defense is successful on the merits. In other cases, Section 317 allows a corporation to indemnify an agent for expenses, judgments, fines, settlements and other amounts actually and reasonably incurred if the agent acted in good faith and in a manner the agent believed to be in the best interests of the corporation and its shareholders. Such indemnification must be authorized by: (i) a majority vote of a quorum of the board of directors consisting of directors who are not parties to the proceedings; (ii) approval of the shareholders, with the shares owned by the person to be indemnified not being entitled to vote thereon; or (iii) the court in which the proceeding is or was pending upon application by designated parties. Under certain circumstances, a corporation can indemnify an agent even

when the agent is found liable. Section 317 also allows a corporation to advance expenses to an agent for certain actions upon receiving an undertaking by the agent that he or she will reimburse the corporation if it is later determined that he or she is not entitled to be indemnified.

In October 2004, Community West entered into Indemnification Agreements with each of its directors pursuant to which it agreed to indemnify each director for expenses, judgments, fines, settlements and other amounts incurred in connection with any proceeding arising by reason of the fact that such director was Community West's "agent" to the fullest extent permissible under California law, subject to the terms and conditions of the Indemnification Agreements. The indemnification provisions also apply to liability under the Federal Securities Laws. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling Community West pursuant to the foregoing provisions, Community West has been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

At present, Community West is not aware of any pending or threatened litigation or proceeding involving its directors, officers, employees or agents in which indemnification would be required or permitted. Community West believes that its Articles of Incorporation and Bylaw provisions and Indemnification Agreements with its directors are necessary to attract and retain qualified persons as directors and officers.
