INTRODUCTION

Community West Bancshares ("Community West") is a bank holding company registered under the Bank Holding Company Act of 1956, as amended. Community West's principal business is to serve as a holding company for its banking subsidiary, Community West Bank, N.A. ("CW Bank") (formerly, Goleta National Bank). When we say "we" or "our" we mean Community West on a consolidated basis with CW Bank.

The holding company reorganization was consummated on December 31, 1997 and each outstanding share of CW Bank's common stock was converted into one share of Community West's common stock and all outstanding shares of CW Bank's common stock were transferred to Community West.

RISK FACTORS

Ownership of our common stock involves various risks which are particular to our company, our industry and our market area. You should carefully consider in addition to the other information set forth herein, the following risk factors.

DEPENDENCE ON REAL ESTATE CONCENTRATED IN THE STATE OF CALIFORNIA. As of June 30, 2006, approximately 40% of our loan portfolio is secured by various forms of real estate, including residential and commercial real estate. A decline in current economic conditions or rising interest rates could have an adverse effect on the demand for new loans, the ability of borrowers to repay outstanding loans and the value of real estate and other collateral securing loans. The real estate securing our loan portfolio is

2

concentrated in California. If real estate values decline significantly, especially in California, the change could harm the financial condition of our borrowers, the collateral for our loans will provide less security and we would be more likely to suffer losses on defaulted loans.

OUR ABILITY TO PAY DIVIDENDS IS RESTRICTED BY LAW AND DEPENDS ON CAPITAL DISTRIBUTIONS FROM CW BANK WHICH IS SUBJECT TO REGULATORY LIMITS. Our ability to pay dividends to our shareholders is subject to the restrictions set forth in California law. We cannot assure you that we will meet the criteria specified under California law or under these agreements in the future, in which case we may reduce or stop paying dividends on our common stock.

CONCENTRATED OWNERSHIP OF OUR COMMON STOCK CREATES A RISK OF SUDDEN CHANGES IN OUR SHARE PRICE. As of June 30, 2006, directors and members of our executive management team owned or controlled approximately 18.16% of our common stock, excluding shares that may be issued to executive officers upon the exercise of stock options under the 1997 Plan and 2006 Plan. Investors who purchase our

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

common stock may be subject to certain risks due to the concentrated ownership of our common stock. The sale by any of our large shareholders of a significant portion of that shareholder's holdings could have a material adverse effect on the market price of our common stock. In addition, the registration of any significant amount of additional shares of our common stock will have the immediate effect of increasing the public float of our common stock and any such increase may cause the market price of our common stock to decline or fluctuate significantly.

RISK DUE TO ECONOMIC CONDITIONS DUE TO CHANGES IN INTEREST RATES OR THE ECONOMY IN THE AREAS WE SERVE. Changes in the interest rate environment may have a negative effect on our income. It is expected that we will continue to realize income from the differential or "spread" between the interest earned on loans, securities and other interest-earning assets, and interest paid on deposits, borrowings and other interest-bearing liabilities. Net interest spreads are affected by the difference between the maturities and repricing characteristics of interest-earning assets and interest-bearing liabilities. In addition, loan volume and yields are affected by market interest rates on loans, and rising interest rates generally are associated with a lower volume of loan originations. We cannot assure you that we can minimize our interest rate risk. In addition, while an increase in the general level of interest rates may increase our net interest margin and loan yield, it may adversely affect the ability of certain borrowers with variable rate loans to pay the interest on and principal of their obligations. Accordingly, changes in levels of market interest rates could materially and adversely affect our net interest spread, asset quality, loan origination volume and overall profitability.

We serve three primary regions. The Tri-Counties region which consists of San Luis Obispo, Santa Barbara and Ventura counties in the state of California, the SBA Western Region where CWB originates SBA loans (California, Colorado, Oregon and Washington) and the SBA Southeast Region (Alabama, Florida, Georgia, North and South Carolina and Tennessee). A downturn in the National economy or in any of these areas may have a negative impact on our future earnings or stock price.

CHANGES IN THE REGULATORY ENVIRONMENT. The financial services industry is heavily regulated. We are subject to federal and state regulation designed to protect the deposits of consumers, not to benefit shareholders. These regulations include the following:

- the amount of capital we must maintain
- the types of activities in which we can engage
- the types and amounts of investments we can make
- the locations of our offices
- insurance of our deposits and the premiums paid for this insurance

3

- how much cash we must set aside as reserves for deposits

The regulations impose limitations on operations and may be changed at any time, possibly causing future results to vary significantly from past results. Government policy and regulation, particularly as implemented through the Federal Reserve System, significantly affects credit conditions.

BANK REGULATIONS COULD DISCOURAGE CHANGES IN OUR OWNERSHIP. Bank regulations could delay or discourage a potential acquirer who might have been willing to pay a premium price to acquire a large block of our common stock. That possibility might decrease the value of our common stock and the price that a stockholder will receive if shares are sold in the future. Before anyone can

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

buy enough voting stock to exercise control over a bank holding company like Community West, bank regulators must approve the acquisition. A stockholder must apply for regulatory approval to own 10 percent or more of our common stock, unless the stockholder can show that they will not actually exert control. As a result, no single stockholder can own more than 25 percent of our common stock without applying for regulatory approval.

THE PRICE OF OUR COMMON STOCK MAY CHANGE RAPIDLY AND SIGNIFICANTLY. The market price of our common stock could change rapidly and significantly at any time. The market price of our common stock has fluctuated in recent years. Fluctuations may occur, among other reasons, in response to:

- short-term or long-term operating results
- legislative/regulatory action or adverse publicity
- perceived value of our loan portfolio
- trends in our nonperforming assets
- announcements by competitors
- economic changes
- general market conditions
- perceived strength of the banking industry in general
- our relatively low float and thinly-traded stock

The trading price of our common stock may continue to be subject to wide fluctuations in response to the factors set forth above and other factors, many of which are beyond our control. The stock market can experience extreme price and trading volume fluctuations that often are unrelated or disproportionate to the operating performance of individual companies. We believe that investors should consider the likelihood of these market fluctuations before investing in our common stock.

DEPENDENCE ON TECHNOLOGY AND TECHNOLOGICAL IMPROVEMENTS. The financial services industry is undergoing rapid technological changes with frequent introductions of new technology-driven products and services. In addition, to better serve customers, the effective use of technology increases efficiency and enables financial institutions to reduce costs. Many of our competitors have substantially greater resources to invest in technological improvements. We face the risk of having to keep up with the rapid changes.

CURTAILMENT OF GOVERNMENT GUARANTEED LOAN PROGRAMS COULD AFFECT A SEGMENT OF OUR BUSINESS. A major segment of our business consists of originating and periodically selling government guaranteed loans, in particular those guaranteed by the SBA. From time to time, the government agencies that guarantee these loans reach their internal limits and cease to guarantee loans. In addition, these agencies may change their rules for loans or Congress may adopt legislation that would have the effect of discontinuing or changing the programs. Non-governmental programs could replace government programs for some borrowers, but the terms might not be equally acceptable. Therefore, if these changes

occur, the volume of loans to small business, industrial and agricultural borrowers of the types that now qualify for government guaranteed loans could decline. Also, the profitability of these loans could decline. In late 2004, the SBA eliminated the piggy-back program, in which a conventional real estate loan is made and a SBA 7(a) guaranteed second trust deed is subordinate to the conventional first trust deed. As the funding and sale of the guaranteed portion of 7(a) loans is a major portion of our business, the long-term resolution to the funding for the 7(a) loan program may have an unfavorable impact on our future performance and results of operations.

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

ENVIRONMENTAL LAWS COULD FORCE US TO PAY FOR ENVIRONMENTAL PROBLEMS. When a borrower defaults on a loan secured by real property, we generally purchase the property in foreclosure or accept a deed to the property surrendered by the borrower. We may also take over the management of commercial properties when owners have defaulted on loans. While we have guidelines intended to exclude properties with an unreasonable risk of contamination, hazardous substances may exist on some of the properties that we own, manage or occupy. We face the risk that environmental laws could force us to clean up the properties at our expense. It may cost much more to clean a property than the property is worth. We could also be liable for pollution generated by a borrower's operations if we took a role in managing those operations after default. Resale of contaminated properties may also be difficult.

RECENT LEGISLATION ADDRESSING CORPORATE AND AUDITING SCANDALS RESULT IN INCREASED COSTS OF COMPLIANCE. The Sarbanes-Oxley Act and related regulations are increasing the costs of all public companies and have imposed new requirements on auditors. Bank regulations have been amended to mirror many of the requirements of this act. As a result of the Sarbanes-Oxley Act, and its implementing regulations, we have incurred substantial cost to interpret and ensure compliance with the law and its regulations. Future changes in the laws, regulation, or policies that impact us cannot necessarily be predicted and may have a material effect on our business and earnings.

FLUCTUATIONS IN INTEREST RATES MAY REDUCE PROFITABILITY. Changes in interest rates environment may affect our level of interest income, the primary component of our gross revenue, as well as the level of our interest expense. Interest rate fluctuations are caused by many factors which, for the most part, are not under our direct control. For example, national monetary policy plays a significant role in the determination of interest rates. Additionally, competitor pricing and the resulting negotiations that occur with our customers also impact the rates we collect on loans and the rates we pay on deposits. As interest rates change, we expect that we will periodically experience "gaps" in the interest rate sensitivities of our assets and liabilities, meaning that either our interest-bearing liabilities will be more sensitive to changes in market interest rates than our interest-earning assets, or vice versa. In either event, if market interest rates should move contrary to our position, this "gap" may work against us, and our earnings may be negatively affected.

Changes in the level of interest rates may also negatively affect our ability to originate loans, the value of our assets and our ability to realize gains from the sale of our assets, all of which ultimately affect our earnings. A decline in the market value of our assets may limit our ability to borrow additional funds. As a result, we could be required to sell some of our loans and investments under adverse market conditions, upon terms that are not favorable to us, in order to maintain our liquidity. If those sales are made at prices lower than the amortized costs of the investments, we will incur losses.

COMPETITION WITH OTHER BANKING INSTITUTIONS COULD ADVERSELY AFFECT PROFITABILITY. The banking industry is highly competitive. We face competition not only from other financial institutions within the markets we serve, but deregulation has resulted in competition from companies not typically associated with financial services as well as companies accessed through the internet. As a community bank, we attempt to combat this increased competition by developing and offering new products and

5

increased quality of services.

OPERATIONAL RISK. Operational risk represents the risk of loss resulting from our operations, including but not limited to, the risk of fraud by

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

employees or persons outside the Company, the execution of unauthorized transactions by employees, transaction processing errors and breaches of internal control system and compliance requirements. This risk of loss also includes the potential legal actions that could arise as a result of an operational deficiency or as a result of noncompliance with applicable regulatory standards, adverse business decisions or their implementation and customer attrition due to potential negative publicity.

Operational risk is inherent in all business activities and the management of this risk is important to the achievement of our objectives. In the event of a breakdown in the internal control system, improper operation of systems or improper employee actions, we could suffer financial loss, face regulatory action and suffer damage to our reputation. We manage operational risk through a risk management framework and our internal control processes. The framework involves business units, corporate risk management personnel and executive management. Under this framework, the business units have direct and primary responsibility and accountability for identifying, controlling and monitoring operational risk. Business unit managers maintain a system of controls with the objective of providing proper transaction authorization and execution, proper system operations, safeguarding of assets from misuse or theft and ensuring the reliability of financial and other data. Business unit managers ensure that the controls are appropriate and are implemented as designed. Business continuation and disaster recovery planning is also critical to effectively manage operational risks. Our internal audit function (currently outsourced to a third party) validates the system of internal controls through risk-based regular and ongoing audit procedures and reports on the effectiveness of internal controls to executive management and the Audit Committee of the Board.

While we believe that we have designed effective methods to minimize operational risks, there is no absolute assurance that business disruption or operational losses would not occur in the event of disaster.

REGULATORY CONSIDERATIONS

As a bank holding company under the Bank Holding Company Act, we are regulated, supervised and examined by the Board of Governors of the Federal Reserve System, or Federal Reserve Board. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of security holders. As a result of this regulatory framework, our earnings are affected by actions of the Federal Reserve Board, the Office of Comptroller of the Currency, which regulates the Bank, and the Federal Deposit Insurance Corporation which insures the deposits of CW Bank within certain limits.

In addition, there are numerous governmental requirements and regulations that affect our business activities. A change in applicable statutes, regulations or regulatory policy may have a material effect on our business.

Depository institutions, like CW Bank, are also affected by various federal laws, including those relating to consumer protection and similar matters.

We are a legal entity separate and distinct from CW Bank. However, our principal source of cash revenues is the payment of dividends from CW Bank. There are various legal and regulatory limitations on the extent to which CW Bank can finance or otherwise supply funds to us and our other affiliates.

As a national bank the prior approval of the Comptroller of the Currency is required if the total of all dividends declared and paid to Community West in

Edgar Filing: COMMUNITY WEST BANCSHARES / - Form S-8 POS

any calendar year exceeds CW Bank's net earnings for that year combined with their retained net earnings less dividends paid for the preceding two calendar years.

For a more detailed discussion of the material elements of the regulatory framework applicable to bank holding companies and their subsidiaries and specific information relevant to us, please refer to our annual report on Form 10-K for the year ended December 31, 2005, as amended on June 26, 2006, which is incorporated by reference in this Prospectus.

ITEM 6. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Community West's Articles of Incorporation provides that Community West shall eliminate the liability of its directors for monetary damages to the fullest extent permissible under California law. Article Six of Community West's Articles of Incorporation and Article VI of Community West's Bylaws provide that Community West shall indemnify each of its directors and officers for expenses, judgments, fines, settlements and other amounts incurred in connection with any proceeding arising by reason of the fact that such person was an "agent" of Community West to the fullest extent permissible under California law. Community West's Articles of Incorporation and Bylaws also provide that Community West is authorized to provide indemnification for its agents to the extent permissible under California law. In both cases, indemnification for breach of duty may be in excess of that expressly permitted by Section 317 of the California General Corporation Law. Section 317 sets forth the provisions pertaining to the indemnification of corporate "agents." For purposes of this law, an agent is any person who is or was a director, officer, employee or other agent of a corporation, or is or was serving at the request of a corporation in such capacity with respect to any other corporation, partnership, joint venture, trust or other enterprise. Section 317 mandates indemnification of an agent for expenses where the agent's defense is successful on the merits. In other cases, Section 317 allows a corporation to indemnify an agent for expenses, judgments, fines, settlements and other amounts actually and reasonably incurred if the agent acted in good faith and in a manner the agent believed to be in the best interests of the corporation and its shareholders. Such indemnification must be authorized by: (i) a majority vote of a quorum of the board of directors consisting of directors who are not parties to the proceedings; (ii) approval of the shareholders, with the shares owned by the person to be indemnified not being entitled to vote thereon; or (iii) the court in which the proceeding is or was pending upon application by designated parties. Under certain circumstances, a corporation can indemnify an agent even when the agent is found liable. Section 317 also allows a corporation to advance expenses to an agent for certain actions upon receiving an undertaking by the agent that he or she will reimburse the corporation if it is later

determined that he or she is not entitled to be indemnified.

In October 2004, Community West entered into Indemnification Agreements with each of its directors pursuant to which it agreed to indemnify each director for expenses, judgments, fines, settlements and other amounts incurred in connection with any proceeding arising by reason of the fact that such director was Community West's "agent" to the fullest extent permissible under California law, subject to the terms and conditions of the Indemnification Agreements. The indemnification provisions also apply to liability under the Federal Securities Laws. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling Community West pursuant to the foregoing provisions, Community West has been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

At present, Community West is not aware of any pending or threatened litigation or proceeding involving its directors, officers, employees or agents in which indemnification would be required or permitted. Community West believes that its Articles of Incorporation and Bylaw provisions and Indemnification Agreements with its directors are necessary to attract and retain qualified persons as directors and officers.

ITEM 9. UNDERTAKINGS.

(a) The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made of the securities registered hereby, a post-effective amendment to this registration statement to include any material information with respect to the plan of distribution not previously disclosed in this registration statement or any material change to such information in this registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, as amended, each such post-effective amendment shall be treated as a new registration statement of the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; and

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned Company hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, as amended, each filing of the Company's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934, as amended (and,

iii

where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934, as amended) that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933, as amended, and will be governed by the final adjudication of such issue.
