**CAUTIONARY STATEMENT CONCERNING
FORWARD-LOOKING STATEMENTS**

We are including the following cautionary statement in this Form S-3 to make applicable and take advantage of the safe harbor provision of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by us or on behalf of us. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements, which are other than statements of historical facts. Certain statements in this Form S-3 are forward-looking statements. These statements are subject to risks and uncertainties and are based on the beliefs and assumptions of management and information currently available to management. The use of words such as "believes," "expects," "anticipates," "intends," "plans," "estimates," "should," "likely" or similar expressions, indicates a forward-looking statement. Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected. Such risks and uncertainties are set forth below. Our expectations, beliefs and projections are expressed in good faith and we believe that they have a reasonable basis, including without limitation, our examination of historical operating trends, data contained in our records and other data available from third parties. There can be no assurance that our expectations, beliefs or projections will result, be achieved, or be accomplished. In addition to other factors and matters discussed elsewhere in this Form S-3, the following are important factors that in our view could cause material adverse affects on our financial condition and results of operations: the risks and uncertainties related to our future operational and financial results, the risks and uncertainties relating to our Internet operations, competitive factors, the timing of the openings of other clubs, the availability of acceptable financing to fund corporate expansion efforts, our dependence on key personnel, the ability to manage operations and the future operational strength of management, and the laws governing the operation of adult entertainment businesses.

For a discussion of some additional factors that may cause actual results to differ materially from those suggested by the forward-looking statements, please read carefully the information under "Risk Factors" beginning on page 3. The identification in this document of factors that may affect future performance and the accuracy of forward-looking statements is meant to be illustrative and by no means exhaustive. All forward-looking statements should be evaluated with the understanding of their inherent uncertainty.

We operate in a very competitive and rapidly changing environment. New risks emerge from time to time and it is not possible for our management to predict all risks, nor can we assess the impact of all risks on our business or the extent to which any risk, or combination of risks, may cause actual results to differ from those contained in any forward-looking statements. All forward-looking statements included in this prospectus are based on information available to us on the date of the prospectus. Except to the extent required by applicable laws or rules, we undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained throughout this prospectus.

You may rely only on the information contained in this prospectus. We have not authorized anyone to provide information different from that contained in this prospectus. Neither the delivery of this prospectus nor the sale of Common Stock means that information contained in this prospectus is correct after the date of this prospectus. This prospectus is not an offer to sell or solicitation of an offer to buy these securities in any circumstances under which the offer or solicitation is unlawful.

RISK FACTORS

An investment in our Common Stock involves a high degree of risk. You should carefully consider the risks described below before deciding to purchase shares of our Common Stock. If any of the events, contingencies, circumstances or conditions described in the risks below actually occurs, our business, financial condition or results of operations could be seriously harmed. The trading price of our Common Stock could, in turn, decline and you could lose all or part of your investment.

Risks Related to the Company and the Offering

Our business operations are subject to regulatory uncertainties which may affect our ability to continue operations of existing nightclubs, acquire additional nightclubs or be profitable.

Adult entertainment nightclubs are subject to local, state and federal regulations. Our business is regulated by local zoning, local and state liquor licensing, local ordinances and state and federal time place and manner restrictions. The adult entertainment provided by our nightclubs has elements of speech and expression and, therefore, enjoys some protection under the First Amendment to the United States Constitution. However, the protection is limited to the expression, and not the conduct of an entertainer. While our nightclubs are generally well established in their respective markets, there can be no assurance that local, state and/or federal licensing and other regulations will permit our nightclubs to remain in operation or profitable in the future.

Our operations in Houston are subject to a Sexually Oriented Business Ordinance originally enacted by the City of Houston in 1997. The Ordinance established new minimum distances that sexually oriented businesses may be located from schools, churches, playgrounds and other sexually oriented businesses. The Ordinance further provided for an amortization period in which locations could continue to operate for a period of time to enable the business to recoup its investment through the approval date of the Ordinance. In May 1997, the City of Houston agreed to defer implementation of the Ordinance until the constitutionality of the entire Ordinance was decided by a trial court. The Trial Court rendered its judgment in favor of the City of Houston on January 31, 2007 and found the 1997 Ordinance constitutional and enforceable. An appeal to the Fifth Circuit Court of Appeals has been timely filed. Additionally, we have filed state court lawsuits on behalf of three of our club locations in Houston seeking judicial review of the results of the amortization process contained within the Ordinance. The final order by the Trial Court resulted in the termination of the abatement and allowed the amortization process to continue as provided in the Ordinance. The new lawsuits seeking review of the determination made by the amortization hearing officials in 1998 stops any enforcement action by the City of Houston for at least 60 days and it is anticipated that further injunctive relief will be sought in the state court cases should it become necessary. In the event all efforts to stop enforcement activity fail and the City of Houston elects to enforce the judgment, we, as well as every other similarly situated sexually oriented business located within the incorporated area of Houston, Texas, will have to either cease providing nude or semi-nude entertainment, or develop alternate methods of operating. In such event, we presently intend to clothe our entertainers in a manner to eliminate the need for licenses and to take such steps as to not be subject to Ordinance compliance. Approximately 24.5% of our club operation's revenues for the six months ended March 31, 2007, were in Houston, Texas. The ruling could have a material adverse impact on our operations, but it is unknown at this time.

Table of Contents

We may need additional financing or our business expansion plans may be significantly limited.

If cash generated from our operations is insufficient to satisfy our working capital and capital expenditure requirements, we will need to raise additional funds through the public or private sale of our equity or debt securities. The timing and amount of our capital requirements will depend on a number of factors, including cash flow and cash requirements for nightclub acquisitions. If additional funds are raised through the issuance of equity or convertible debt securities, the percentage ownership of our then-existing shareholders will be reduced. We cannot assure you that additional financing will be available on terms favorable to us, if at all. Any future equity financing, if available, may result in dilution to existing shareholders, and debt financing, if available, may include restrictive covenants. Any failure by us to procure timely additional financing will have material adverse consequences on our business operations.

There is substantial competition in the nightclub entertainment industry which may affect our ability to operate profitably or acquire additional clubs.

Our nightclubs face competition. Some of these competitors may have greater financial and management resources than us. Additionally, the industry is subject to unpredictable competitive trends and competition for general entertainment dollars. There can be no assurance that we will be able to remain profitable in this competitive industry.

We intend to engage in acquisitions as part of our growth strategy, which will consume resources and may be unsuccessful or unprofitable.

We intend to pursue a strategy of acquiring adult nightclubs that fit within our business model. However, acquisitions are not always successful or profitable. Any future acquisitions could expose us to risks, including risks associated with assimilating new operations and personnel; diversion of resources from our existing operations; inability to generate revenues sufficient to offset associated acquisition costs; and the maintenance of uniform standards, controls, procedures and policies. As we continue to grow our operations, it may place a strain on our management and our resources. Acquisitions may also result in additional expenses from amortizing and/or impairing acquired intangible assets. If we attempt an acquisition and are unsuccessful in its completion, we will likely incur significant expenses without any benefit to us. If we are successful in completing an acquisition, the risks and other issues we face may ultimately make the acquisition unprofitable. Failed acquisition transactions and underperforming completed acquisitions would burden us with significant costs without any corresponding benefits to us, which could cause our stock price to decrease.

Risk of Adult Nightclub Operations

Historically, the adult entertainment, restaurant and bar industry has been a significantly regulated industry. The industry tends to be extremely sensitive to the general local economy, in that when economic conditions are prosperous, entertainment industry revenues increase, and when economic conditions are unfavorable, entertainment industry revenues decline. Coupled with this economic sensitivity are the trendy personal preferences of the customers who frequent adult cabarets. We continuously monitor trends in our customers' tastes and entertainment preferences so that, if necessary, we can make appropriate changes which will allow us to remain one of the premiere adult cabarets. However, any significant decline in general corporate conditions or uncertainties regarding future economic prospects that affect consumer spending could have a material adverse effect on our business. In addition, we have historically catered to a clientele base from the upper end of the market. Accordingly, further reductions in the amounts of entertainment expenses allowed as deductions from income under the Internal Revenue Code of 1954, as amended, could adversely affect sales to customers dependent upon corporate expense accounts.

Permits Relating to the Sale of Alcohol

We derive a significant portion of our revenues from the sale of alcoholic beverages. In Texas, the authority to issue a permit to sell alcoholic beverages is governed by the Texas Alcoholic Beverage Commission (the "TABC"), which has the authority, in its discretion, to issue the appropriate permits. Rick's presently holds a Mixed Beverage Permit and a Late Hours Permit (the "Permits"). These Permits are subject to annual renewal, provided we have complied with all rules and regulations governing the permits. Renewal of a permit is subject to protest, which may be made by a law enforcement agency or by a member of the general public. In the event of a protest, the TABC may hold a hearing at which time the views of interested parties are expressed. The TABC has the authority after such hearing not to issue a renewal of the protested alcoholic beverage permit. While we have never been subject to a protest hearing against the renewal of our Permits, there can be no assurance that such a protest could not be made in the future, nor can there be any assurance that the Permits would be granted in the event such a protest was made. Other states in which we operate have similar laws which may limit the availability of a permit to sell alcoholic beverages or which may provide for suspension or revocation of a permit to sell alcoholic beverages in certain circumstances. The temporary or permanent suspension or revocations of either of the Permits or the inability to obtain permits in areas of expansion would have a material adverse effect on the revenues, financial condition and results of operations of the Company.

Table of Contents

We must continue to meet the Nasdaq Small Cap Market continued listing requirements or we risk delisting.

Our securities are currently listed for trading on the Nasdaq Small Cap Market. We must continue to satisfy Nasdaq's continued listing requirements or risk delisting which would have an adverse effect on our business. If our securities are ever de-listed from the Nasdaq, it may trade on the over-the-counter market, which may be a less liquid market. In such case, our shareholders' ability to trade or obtain quotations of the market value of shares of our common stock would be severely limited because of lower trading volumes and transaction delays. These factors could contribute to lower prices and larger spreads in the bid and ask prices for our securities. There is no assurance that we will be able to maintain compliance with the Nasdaq continued listing requirements.

In the future, we will incur significant increased costs as a result of operating as a public company, and our management will be required to devote substantial time to new compliance initiatives.

In the future, we will incur significant legal, accounting and other expenses. The Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), as well as new rules subsequently implemented by the Securities and Exchange Commission ("SEC"), have imposed various new requirements on public companies, including requiring changes in corporate governance practices. Our management and other personnel will need to devote a substantial amount of time to these new compliance initiatives. Moreover, these rules and regulations will increase our legal and financial compliance costs and will make some activities more time-consuming and costly. For example, we expect these new rules and regulations to make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to incur substantial costs to maintain the same or similar coverage.

In addition, the Sarbanes-Oxley Act requires, among other things, that we maintain effective internal controls for financial reporting and disclosure controls and procedures. In particular, commencing in fiscal 2008, we must perform system and process evaluation and testing on the effectiveness of our internal controls over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act. Subsequently in fiscal 2009, our independent registered public accounting firm will report on the effectiveness of our internal controls over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act. Our testing, or the subsequent testing by our independent registered public accounting firm, may reveal deficiencies in our internal controls over financial reporting that are deemed to be material weaknesses. Our compliance with Section 404 will require that we incur substantial accounting expense and expend significant management efforts. We currently do not have an internal audit group, and we will need to hire additional accounting and financial staff with appropriate public company experience and technical accounting knowledge. Moreover, if we are not able to comply with the requirements of Section 404 in a timely manner, or if we or our independent registered public accounting firm identifies deficiencies in our internal controls over financial reporting that are deemed to be material weaknesses, the market price of our stock could decline, and we could be subject to sanctions or investigations by the SEC or other regulatory authorities, which would require additional financial and management resources.

Uninsured Risks

We maintain insurance in amounts we considers adequate for personal injury and property damage to which the business of the Company may be subject. However, there can be no assurance that uninsured liabilities in excess of the coverage provided by insurance, which liabilities may be imposed pursuant to the Texas "Dram Shop" statute or similar "Dram Shop" statutes or common law theories of liability in other states where we operate or expand. The Texas "Dram Shop" statute provides a person injured by an intoxicated person the right to recover damages from an establishment that wrongfully served alcoholic beverages to such person if it was apparent to the server that the individual being sold, served or provided with an alcoholic beverage was obviously intoxicated to the extent that he presented a clear danger to himself and others. An employer is not liable for the actions of its employee who overserves if (i) the employer requires its employees to attend a seller training program approved by the TABC; (ii) the employee has actually attended such a training program; and (iii) the employer has not directly or indirectly encouraged the employee to violate the law. It is our policy to require that all servers of alcohol working at our clubs be certified as servers under a training program approved by the TABC, which certification gives statutory immunity to the sellers of alcohol from damage caused to third parties by those who have consumed alcoholic beverages at such establishment pursuant to the Texas Alcoholic Beverage Code. There can be no assurance, however, that uninsured liabilities may not arise which could have a material adverse effect on the Company.

Limitations on Protection of Service Marks

Our rights to the tradenames "Rick's" and "Rick's Cabaret" are established under the common law based upon our substantial and continuous use of these trademarks in interstate commerce since at least as early as 1987. "RICK'S AND STARS DESIGN" and "RICK'S CABARET" logos have been registered through service mark registrations issued by the United States Patent and Trademark Office ("PTO"). There can be no assurance that these steps taken by the Company to protect its Service Marks will be adequate to deter misappropriation of its protected intellectual property rights. Litigation may be necessary in the future to protect our rights from infringement, which may be costly and time consuming. The loss of the intellectual property rights owned or claimed by us could have a material adverse affect on our business.

Anti-takeover Effects of Issuance of Preferred Stock

The Board of Directors has the authority to issue up to 1,000,000 shares of Preferred Stock in one or more series, to fix the number of shares constituting any such series, and to fix the rights and preferences of the shares constituting any series, without any further vote or action by the stockholders. The issuance of Preferred Stock by the Board of Directors could adversely affect the rights of the holders of Common Stock. For example, such issuance could result in a class of securities outstanding that would have preferences with respect to voting rights and dividends and in liquidation over the Common Stock, and could (upon conversion or otherwise) enjoy all of the rights appurtenant to Common Stock. The Board's authority to issue Preferred Stock could discourage potential takeover attempts and could delay or prevent a change in control of the Company through merger, tender offer, proxy contest or otherwise by making such attempts more difficult to achieve or more costly. There are no issued and outstanding shares of Preferred Stock; there are no agreements or understandings for the issuance of Preferred Stock, and the Board of Directors has no present intention to issue Preferred Stock.

We do not anticipate paying dividends on common shares in the foreseeable future.

Since our inception we have not paid any dividends on our common stock and we do not anticipate paying any dividends in the foreseeable future. We expect that future earnings, if any, will be used for working capital and to finance growth.

Table of Contents

Future sales of our common stock may depress our stock price.

The market price of our common stock could decline as a result of sales of substantial amounts of our common stock in the public market, or as a result of the perception that these sales could occur. In addition, these factors could make it more difficult for us to raise funds through future offerings of common stock.

There is a limited public trading market for our common stock.

Our stock is currently traded on the Nasdaq Small Cap Market under the trading symbol “RICK”. There is a limited public trading market for our common stock. Without an active trading market, there can be no assurance of any liquidity or resale value of our common stock, and stockholders may be required to hold shares of our common stock for an indefinite period of time.

Our stock price has been volatile and may fluctuate in the future.

The trading price of our securities may fluctuate significantly. This price may be influenced by many factors, including:

- our performance and prospects;
- the depth and liquidity of the market for our securities;
- investor perception of us and the industry in which we operate;
- changes in earnings estimates or buy/sell recommendations by analysts;
- general financial and other market conditions; and
- domestic economic conditions.

Public stock markets have experienced, and may experience, extreme price and trading volume volatility. These broad market fluctuations may adversely affect the market price of our securities.

Our management controls a significant percentage of our current outstanding common stock and their interests may conflict with those of our shareholders.

As of May 7, 2007, our Directors and executive officers and their respective affiliates collectively and beneficially owned approximately 22% of our outstanding common stock, including all warrants exercisable within 60 days. This concentration of voting control gives our Directors and executive officers and their respective affiliates substantial influence over any matters which require a shareholder vote, including, without limitation, the election of Directors, even if their interests may conflict with those of other shareholders. It could also have the effect of delaying or preventing a change in control of or otherwise discouraging a potential acquirer from attempting to obtain control of us. This could have a material adverse effect on the market price of our common stock or prevent our shareholders from realizing a premium over the then prevailing market prices for their shares of common stock.

We are dependent on key personnel.

Our future success is dependent, in a large part, on retaining the services of Mr. Eric Langan, our President and Chief Executive Officer. Mr. Langan possesses a unique and comprehensive knowledge of our industry. While Mr. Langan has no present plans to leave or retire, his loss could have a negative effect on our operating, marketing and financial performance if we are unable to find an adequate replacement with similar knowledge and experience within our industry. We maintain key-man life insurance with respect to Mr. Langan. Although Mr. Langan is under a two-year employment agreement ending in April 2008, there can be no assurance that Mr. Langan will continue to be employed by us. The loss of Mr. Langan could have a negative effect on our operating, marketing, and financing performance.

Table of Contents

Cumulative voting is not available to stockholders.

Cumulative voting in the election of Directors is expressly denied in our Articles of Incorporation. Accordingly, the holder or holders of a majority of the outstanding shares of our common stock may elect all of our Directors. Management's large percentage ownership of our outstanding common stock helps enable them to maintain their positions as such and thus control of our business and affairs.

Our Directors and Officers have limited liability and have rights to indemnification.

Our Articles of Incorporation and Bylaws provide, as permitted by governing Texas law, that our Directors and officers shall not be personally liable to us or any of our stockholders for monetary damages for breach of fiduciary duty as a Director or officer, with certain exceptions. The Articles further provide that we will indemnify our Directors and officers against expenses and liabilities they incur to defend, settle, or satisfy any civil litigation or criminal action brought against them on account of their being or having been its Directors or officers unless, in such action, they are adjudged to have acted with gross negligence or willful misconduct.

The inclusion of these provisions in the Articles may have the effect of reducing the likelihood of derivative litigation against Directors and officers, and may discourage or deter stockholders or management from bringing a lawsuit against Directors and officers for breach of their duty of care, even though such an action, if successful, might otherwise have benefited us and our stockholders.

The Articles provide for the indemnification of our officers and Directors, and the advancement to them of expenses in connection with any proceedings and claims, to the fullest extent permitted by Texas law. The Articles include related provisions meant to facilitate the indemnitee's receipt of such benefits. These provisions cover, among other things: (i) specification of the method of determining entitlement to indemnification and the selection of independent counsel that will in some cases make such determination, (ii) specification of certain time periods by which certain payments or determinations must be made and actions must be taken, and (iii) the establishment of certain presumptions in favor of an indemnitee.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, we have been advised that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

USE OF PROCEEDS

The selling shareholders will pay any underwriting discounts and commissions and expenses incurred by the selling shareholders for brokerage, accounting, tax or legal services or any other expenses incurred by the selling shareholders in disposing of the shares. We will bear all other costs, fees and expenses incurred in effecting the registration of the shares covered by this prospectus, including, without limitation, all registration and filing fees, Nasdaq Small Cap Market listing fees, blue sky registration and filing fees, and fees and expenses of our counsel and our accountants.
