Edgar Filing: Patient Safety Technologies, Inc - Form NT 10-Q

[X] Yes [ ] No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reason why a reasonable estimate of the results cannot be made.

Patient Safety Technologies, Inc. (the "Company") anticipates that its revenue for the three months ended March 31, 2007 is significantly greater than its revenue for the three months ended March 31, 2006. The increase in revenue is primarily the result of an increase in sales of the Company's Safety-Sponge™ System during the 2007 period. The Company anticipates that its operating expenses and net loss for the three months ended March 31, 2007 are significantly less than the expenses and net loss for the three months ended March 31, 2006. The decrease in operating expenses for the three months ended March 31, 2007 when compared to March 31, 2006, was primarily the result of stock based compensation expenses, professional fees, and to a lesser extent salaries and employee benefits. Net loss decreased for the three months ended March 31, 2007 compared to the three months ended March 31, 2006 primarily as a result of a significant decrease in operating expenses.

A reasonable estimate of the results cannot be made at this time due to the fact that the compilation, dissemination and review of the information required to be presented in the Form 10-Q has not been completed.
