Item 1.01. Entry Into a Material Definitive Agreement.

On November 16, 2009 GTX Corp, a Nevada corporation (the “Company”), entered into an Investment Agreement (“Investment Agreement”) with Dutchess Opportunity Fund, II, LP (formerly known as Dutchess Equity Fund, L.P. and herein referred to as the “Investor”) pursuant to which the Investor committed to purchase up to \$10,000,000 of the Company’s common stock, over the course of thirty-six months (the “Equity Line Financing”). The aggregate number of shares the Company can sell to the Investor under the Investment Agreement is 12,000,000. Under the Investment Agreement, the Company is entitled to draw on the facility from time to time by putting (selling) shares to the Investor. The maximum amount that the Company is entitled to put to the Investor under the Investment Agreement in any one draw notice is 200% of the average daily volume (U.S. market only) of the common stock for the three (3) trading days prior to the date of delivery of the applicable put notice, multiplied by the average of the closing prices for such trading days. The purchase price of the shares sold to the Investors is ninety-four percent (94%) of the volume weighted average price (VWAP) of the Company’s common stock during the five (5) consecutive trading day period beginning on the trading day immediately following the date of delivery of the applicable put notice.

On March 11, 2010, the Company and the Investor entered into an Amendment to the Investment Agreement. Under the Amendment, the parties agreed to change (i) the amount that the Company can sell to the Investor under the Equity Line Financing at any time, and (ii) the pricing of the shares sold to the Investor. As revised by the amendment, the Company can, at its option, sell to the Investor at any time the greater of (a) the currently permitted amount (i.e. 200% of the average daily volume of the common stock for the three trading days prior to the date of the put notice), or (b) any other specified amount, up to \$500,000. The amendment also changed the pricing for such sales of common stock to Investor, so that the purchase price now payable by the Investor is equal to 94% of the lowest daily VWAP of the Company’s common stock during the five consecutive trading day period beginning on the trading day immediately following the date of delivery of the applicable put notice.

Finally, under the Amendment, the parties also agreed that if the Investor receives more than ten percent (10%) net profit from its disposition of the shares sold from any put submitted by the Company, any such net profits over ten percent (10%) of the shares disposed of from any put will be promptly remitted to the Company.
