PROSPECTUS SUPPLEMENT SUMMARY

This prospectus supplement summary does not contain all the information you should consider before investing in our common stock. Please read the entire prospectus supplement, the accompanying base prospectus and any free writing prospectus we may authorize to be delivered to you, including the financial statements and other information incorporated herein by reference.

Our Company

Founded in 1985 as a start-up company, Wabash National Corporation is one of North America's leaders in designing, manufacturing and marketing standard and customized truck trailers and related transportation equipment. We believe our position as a leader has been the result of our longstanding relationships with our core customers, our demonstrated ability to attract new customers, our broad and innovative product lines, our technological leadership and our large distribution and service network. Our management team is focused on continuing to size our manufacturing and retail operations to match the current demand environment, implementing our cost savings initiatives, strengthening our capital structure, developing innovative products, improving earnings and selective product introductions that meet the needs of our customers.

We seek to identify and produce proprietary products that offer exceptional value to customers with the potential to generate higher profit margins than those of standardized products. We believe that we have the engineering and manufacturing capability to produce these products efficiently. We introduced our proprietary composite product, DuraPlate®, in 1996. According to the most recent A.C.T. Research Company, LLC (ACT) estimates on total trailer industry shipments, composite trailers have achieved widespread industry acceptance accounting for approximately one out of every three dry van trailer shipments in 2009. Since 2002, sales of our DuraPlate® trailers represented approximately 90% of our total new dry van trailer sales. We are also a competitive producer of standardized sheet and post and refrigerated trailer products and we strive to become the low-cost producer of these products within our industry. Through our Transcraft subsidiary we also manufacture steel flatbed and dropdeck trailers. As part of our commitment to expand our customer base, diversify our revenues and extend our market leadership, Transcraft acquired in July 2008 certain operating assets of Benson International LLC, and its affiliates, a manufacturer of aluminum flatbeds, dump trailers and other truck bodies. In addition, in December 2008, the Company announced a multi-year agreement to build and service all the portable storage container requirements of PODS®⁽¹⁾ as part of our strategy to leverage our DuraPlate® panel technology into other industry segments. We expect to continue a program of product development and selective acquisitions of quality proprietary products that further differentiate us from our competitors and increase shareholder value.

We market our transportation equipment under the Wabash®, DuraPlate®, DuraPlateHD®, FreightPro®, ArcticLite®, RoadRailer®, Transcraft®, Eagle®, Eagle II®, D-Eagle® and Benson™ trademarks directly to customers, through independent dealers and through our Company-owned retail branch network. Historically, we have focused on our longstanding core customers representing many of the largest companies in the trucking industry. Our relationships with our core customers have been central to our growth since inception. We have also actively pursued the diversification of our customer base by focusing on what we refer to as the mid-market. These carriers, which represent approximately 1,250 carriers, operate fleets of between 250 to 7,500 trailers, which we estimate in total account for approximately one million trailers.

Our 11 Company-owned full service retail branches provide additional opportunities to distribute our products and also offer nationwide services and support capabilities for our customers. In addition, we maintain four used fleet sales

centers to focus on selling both large and small fleet trade packages to the wholesale market. Our retail branch network's sale of new and used trailers, aftermarket parts and service generally provides enhanced margin opportunities. We also utilize a network of 25 independent dealers with approximately 60 locations throughout North America to distribute our van trailers. In addition, we distribute our flatbed and dropdeck trailers through a network of 94 independent dealers with approximately 150 locations throughout North America.

(1) PODS® is a registered trademark of PODS, Inc. and Pods Enterprises, Inc.

Recent Developments

The shares being offered will be issued upon exercise of a warrant to purchase shares of our common stock that we originally sold to Trailer Investments, LLC (Trailer Investments) on August 3, 2009, as amended and reissued on May 28, 2010 (the Warrant). In connection with this offering, we have entered into a further amendment of the Warrant. The amendment modifies the cashless exercise provision of the Warrant to facilitate determination of the number of shares that will be withheld to pay the exercise price of the Warrant when the Warrant is exercised in whole or in part in connection with this offering.

In connection with this offering, the selling securityholder will sell the Warrant to the underwriter who will exercise the Warrant for the shares of common stock that will be sold in this offering. A portion of the shares that underlie the Warrant will not be issued and sold but will be used to satisfy the exercise price of the Warrant pursuant to the cashless exercise provisions of the Warrant. TABLE OF CONTENTS

RISK FACTORS

You should carefully consider the following factors, together with the risks relating to our business, strategy and operations and the risks relating to an investment in our common stock, which are incorporated by reference into this prospectus supplement from Part I Item 1A Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, filed by us with the Securities and Exchange Commission, before purchasing any of our common stock. If any of the following risks or those incorporated by reference actually occur, our business, financial condition and results of operations could be materially and adversely affected, and the value of our stock could decline.

Risks Related to the Offering

The registration statement of which this prospectus supplement is a part covers the potential sale of a substantial number of shares of our common stock into the public market by us and the selling securityholder, which may result in significant downward pressure on the price of our common stock and could affect the ability of our stockholders to realize the current trading price of our common stock.

Sales of a substantial number of shares of our common stock in the public market could cause a reduction in the market price of our common stock. As of August 31, 2010, there were 58,946,261 shares of our common stock outstanding. Pursuant to the shelf registration statement of which this prospectus supplement is a part, we may offer and sell at any time and from time to time up to \$73,625,000 of our common stock or other securities, including securities convertible into our common stock. In addition, the selling securityholder named in this prospectus supplement has the right to acquire 9,362,581 shares of our common stock, subject to upward adjustment, issuable upon exercise of the Warrant. In connection with this offering, the selling securityholder will sell the Warrant to the underwriter who will exercise the Warrant for the shares of common stock that will be sold in this offering. Purchasers of our common stock in this offering will experience immediate and substantial dilution in the net tangible book value of their common stock and may experience further dilution upon our issuance of additional securities in the future, which could significantly depress the future market price of their shares.

Under the shelf registration statement that we have filed, we may issue debt and other equity securities or securities convertible into equity securities, any of which may be senior to our common stock as to distributions and in liquidation, which could negatively affect the value of our common stock.

In the future, we may attempt to increase our capital resources by issuing additional debt or other equity securities pursuant to the shelf registration statement, which could include various types of debt securities, preferred stock or securities convertible into or exchangeable for common stock. In the event of our liquidation, our lenders and holders of our debt and preferred securities would receive a distribution of our available assets before distributions to the holders of our common stock. Because our decision to issue securities in our future offerings will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Furthermore, market conditions could require us to accept less favorable terms for the issuance of such securities in the future.

Dividend Policy

We declared quarterly dividends of \$0.045 per share on our common stock from the first quarter of 2005 through the third quarter of 2008. In December 2008, we suspended the payment of our quarterly dividend due to the continued weak economic environment and the uncertainty as to the timing of a recovery as well as our effort to enhance liquidity. No dividends on our common stock were declared or paid in 2009 or have been declared or paid in 2010. In accordance with our Third Amended and Restated Loan and Security Agreement (the Amended Facility), effective August 3, 2009, we are restricted from the payment of cash dividends to holders of our common stock for a period of two years. At any time after the second anniversary of the Amended Facility, our payment of dividends is limited to cash dividends of \$20 million per year unless otherwise approved by a majority of our lenders, so long as no default or event of default is continuing or would be caused by the distribution and only if our available borrowing capacity is in excess of \$40 million after distribution of dividend. The reinstatement of quarterly cash dividends on our common

stock will depend on our future earnings, capital availability, financial condition and contractual restrictions such as those discussed above. We have no current plans to pay cash dividends.

TABLE OF CONTENTS**SELLING SECURITYHOLDER**

All of the shares of common stock offered for sale pursuant to this prospectus supplement are shares initially issuable upon the exercise of the Warrant. The Warrant was issued to Trailer Investments on August 3, 2009 and it was acquired by Trailer Investments, together with shares of preferred stock (which have subsequently been redeemed by us), under a Securities Purchase Agreement, dated as of July 17, 2009, between us and Trailer Investments. The Warrant was amended and reissued on May 28, 2010 and will be further amended in connection with this offering. We refer to Trailer Investments and its donees, pledgees, transferees or other successors-in-interest collectively as the selling securityholder. All of the shares being offered pursuant to this prospectus supplement are issuable upon exercise of the Warrant. The selling securityholder will sell the Warrant to the underwriter pursuant to the terms of an underwriting agreement, and the underwriter will exercise the Warrant immediately prior to the delivery of the shares of common stock to the public pursuant to the cashless exercise provisions of the Warrant. See Underwriting beginning on page S-16 of this prospectus supplement.

The preferred stock and the Warrant were issued in a private placement to Trailer Investments for an aggregate purchase price of \$35,000,000 (the Transaction). As a result of the Transaction, we have a material relationship with Trailer Investments and certain of its affiliates. This relationship includes certain consent rights and privileges we granted to Trailer Investments under the agreements we entered into at the closing of the Transaction. This material relationship includes, for so long as Trailer Investments and its affiliates, including investors in the funds controlled by Lincolnshire Management, Inc. (collectively with Trailer Investments, the Trailer Investors), beneficially own at least 10% of our outstanding common stock, the right of the Trailer Investors to designate five persons for election to our board of directors. As a result of this offering, it is expected that the Trailer Investors will no longer beneficially own any of our outstanding common stock and therefore will no longer have this right. Other elements of this material relationship are more fully described under the Description of Our Common Stock section of the accompanying base prospectus and in (i) our Annual Report on Form 10-K for the year ended December 31, 2009 and (ii) Quarterly Report for the period ended June 30, 2010, each as incorporated by reference in this prospectus supplement.

The following table sets forth information with respect to the selling securityholder and the shares of common stock beneficially owned by the selling securityholder and reflects the shares of common stock offered by this prospectus supplement. Beneficial ownership is determined in accordance with the rules and regulations of the SEC. The information is based on information provided by or on behalf of the selling securityholder to us and on 58,946,261 shares of our common stock outstanding as of August 31, 2010.

Name of Selling Securityholder	Number of Shares Owned			Percentage of Shares Outstanding

(1) Lincolnshire Equity Fund III, L.P. (LEF III), a Delaware limited partnership is the sole member of Trailer Investments, Lincolnshire Equity Partners III, L.P. (LEP III), a Delaware limited partnership, is the general partner of LEF III, and Lincolnshire Equity III, LLC (Equity III), a Delaware limited liability company, is the general partner of LEP III. Thomas J. Maloney, one of our directors who was designated by Trailer Investments holds a majority of the voting power of Equity III. Trailer Investors has also designated the following individuals to serve on our board of directors: Michael J. Lyons, Thomas J. Maloney, Vineet Pruthi, and James G. Binch. All of the shares of common stock beneficially owned by Trailer Investments and offered hereby are not currently

outstanding but are issuable at any time upon exercise of the Warrant.

(2) Notwithstanding that fewer shares are being offered in this offering than the total number of shares for which the Warrant is exercisable, after the conclusion of this offering the selling securityholder is not expected to beneficially own any of the shares shown in the table as being beneficially owned by the selling securityholder. As part of this offering, the selling securityholder will sell the Warrant to the underwriter pursuant to the terms of an underwriting agreement, and the underwriter will exercise the Warrant immediately prior to the delivery of the shares of common stock to the public pursuant to the cashless exercise provisions of the Warrant under which approximately 13,549 shares having a value determined to equal the exercise price will be withheld. As a result, the Warrant is expected to be fully exercised in connection with this offering.

TABLE OF CONTENTS

MATERIAL U.S. FEDERAL TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a general discussion of the material U.S. federal income and estate tax consequences of the ownership and disposition of our common stock by a non-U.S. holder. For purposes of this discussion, you are a non-U.S. holder if you are a beneficial owner of our common stock, and you are not, for U.S. federal income tax purposes:

an individual who is a citizen or resident of the U.S.;

a corporation or partnership created or organized in or under the laws of the U.S., or of any state thereof or the District of Columbia other than a partnership treated as foreign under U.S. Treasury regulations; or

an estate whose income is subject to U.S. federal income taxation regardless of its source; or a trust, in general, if a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have authority to control all substantial decisions of the trust or if the trust has made a valid election to be treated as a U.S. person under applicable U.S. Treasury regulations.

If you are an individual, you may be treated as a resident of the U.S. in any calendar year for U.S. federal income tax purposes, instead of a nonresident, by, among other ways, being present in the U.S. for at least 31 days in that calendar year and for an aggregate of at least 183 days during a three-year period ending in the current calendar year. For purposes of this calculation, you would count all of the days present in the current year, one-third of the days present in the immediately preceding year and one-sixth of the days present in the second preceding year. Residents of the U.S. are taxed for U.S. federal income tax purposes as if they were U.S. citizens.

This discussion does not consider:

U.S. state, U.S. local or non-U.S. tax consequences;

all aspects of U.S. federal income and estate taxes or specific facts and circumstances that may be relevant to a particular non-U.S. holder's tax position;

the tax consequences for the stockholders, partners or beneficiaries of a non-U.S. holder;

special tax rules that may apply to particular non-U.S. holders, such as financial institutions, insurance companies, tax-exempt organizations, U.S. expatriates, broker-dealers and traders in securities; or

special tax rules that may apply to a non-U.S. holder that holds our common stock as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment.

If a partnership, including any entity treated as a partnership for U.S. federal income tax purposes, is a holder of our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If you are a partnership that may acquire our common stock, or a partner in such a partnership, you should consult a tax advisor regarding the tax consequences to you of the partnership's acquisition, ownership and disposition of our common stock.

The following discussion is based on provisions of the U.S. Internal Revenue Code of 1986, as amended, existing and proposed Treasury regulations and administrative and judicial interpretations, all as of the date of this prospectus supplement, and all of which are subject to change, retroactively or prospectively. The following summary assumes that you hold our common stock as a capital asset. **Each non-U.S. holder should consult a tax advisor regarding the U.S. federal, state, local and non-U.S. income and other tax consequences of acquiring, holding and disposing of shares of our common stock.**

Dividends

We do not anticipate making cash distributions on our common stock in the foreseeable future. See Dividend Policy. In the event, however, that we make distributions on our common stock, those payments will constitute dividends for U.S. federal tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those distributions

S-13

TABLE OF CONTENTS

exceed our current and accumulated earnings and profits, they first will constitute a return of capital and will reduce a non-U.S. holder's basis in our common stock, but not below zero, and then will be treated as gain from the sale of stock. Any dividend paid to a non-U.S. holder on our common stock will generally be subject to U.S. federal withholding tax at a rate of 30%, or a lower rate under an applicable income tax treaty. You are urged to consult your tax advisors regarding your entitlement to benefits under a relevant income tax treaty. Generally, in order for us to withhold tax at a lower treaty rate, you must provide us with a Form W-8BEN certifying your eligibility for the lower treaty rate.

If you claim the benefit of an applicable income tax treaty rate, you generally will be required to satisfy applicable certification and other requirements. However,

in the case of common stock held by a foreign partnership, the certification requirement will generally be applied to partners and the partnership will be required to provide certain information;
in the case of common stock held by a foreign trust, the certification requirement will generally be applied to the trust or the beneficial owners of the trust depending on whether the trust is a foreign complex trust, foreign simple trust, or foreign grantor trust as defined in the U.S. Treasury regulations; and
look-through rules apply for tiered partnerships, foreign simple trusts and foreign grantor trusts.
A non-U.S. holder that is a foreign partnership or a foreign trust is urged to consult its tax advisor regarding its status under these U.S. Treasury regulations and the certification requirements applicable to it.

If you are eligible for a reduced rate of U.S. federal withholding tax under an income tax treaty, you may obtain a refund or credit of any excess amounts withheld by filing an appropriate claim for a refund on a timely basis with the U.S. Internal Revenue Service.

If the dividend is effectively connected with your conduct of a trade or business in the U.S. and, if an income tax treaty applies, is attributable to a permanent establishment maintained by you in the U.S., the dividend will generally be exempt from U.S. federal withholding tax, provided that you supply us with a properly executed Form W-8ECI. In this case, the dividend will be taxed on a net income basis at the regular graduated rates and in the manner applicable to U.S. persons and, if you are a foreign corporation, you may be subject to an additional branch profits tax at a rate of 30% or a lower rate as may be specified by an applicable income tax treaty.

Gain on Disposition of Common Stock

You generally will not be subject to U.S. federal income tax on gain recognized on a disposition of our common stock unless:

the gain is effectively connected with your conduct of a trade or business in the U.S. and, if an income tax treaty applies, is attributable to a permanent establishment maintained by you in the U.S., in which case the gain will be taxed on a net income basis at the regular graduated rates and in the manner applicable to U.S. persons and, if you are a foreign corporation, you may be subject to an additional branch profits tax at a rate of 30% or a lower rate as may be specified by an applicable income tax treaty;

you are an individual who holds our common stock as a capital asset, are present in the U.S. for 183 days or more in the taxable year of the disposition and meet other requirements, in which case the gain will be taxed at a rate of 30%;
or

we are or have been a United States real property holding corporation, or USRPHC, for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition and the period that you held our common stock and certain other conditions are met, in which case the gain will be taxed on a net income

basis in the manner described in the first bullet paragraph above.

Generally, a corporation is a USRPHC if the fair market value of its United States real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus its other assets used or held for use in a trade or business. The tax relating to stock in a USRPHC

S-14

TABLE OF CONTENTS

generally will not apply to a non-U.S. holder whose holdings, direct and indirect, at all times during the applicable period, constituted 5% or less of our common stock, provided that our common stock was regularly traded on an established securities market in the calendar year of disposition. We believe that we are not currently, and we do not anticipate becoming in the future, a USRPHC for U.S. federal income tax purposes.

Information Reporting and Backup Withholding

Dividends paid to you are subject to information reporting and may be subject to U.S. backup withholding. You will be exempt from backup withholding if you provide a Form W-8BEN or otherwise meet documentary evidence requirements for establishing that you are a non-U.S. person or otherwise establish an exemption.

The gross proceeds from the disposition of our common stock may be subject to information reporting and backup withholding. If you sell your common stock outside the U.S. through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to you outside the U.S., then the U.S. backup withholding and information reporting requirements generally (except as provided in the following sentence) will not apply to that payment. However, U.S. information reporting, but not backup withholding, will apply to a payment of sales proceeds, even if that payment is made outside the U.S., if you sell our common stock through a non-U.S. office of a broker that:

is a U.S. person;

derives 50% or more of its gross income in specific periods from the conduct of a trade or business in the U.S.;

is a controlled foreign corporation for U.S. tax purposes; or

is a foreign partnership, if at any time during its tax year, one or more of its partners are U.S. persons who in the aggregate hold more than 50% of the income or capital interests in the partnership, or the foreign partnership is engaged in a U.S. trade or business,

unless the broker has documentary evidence in its files that you are a non-U.S. person and various other conditions are met or you otherwise establish exemption.

If you receive payments of the proceeds of a sale of our common stock through a U.S. office of a broker, the payment is subject to both U.S. backup withholding and information reporting unless you provide a Form W-8BEN certifying that you are a non-U.S. person or you otherwise establish an exemption.

You generally may obtain a refund or credit of any amount withheld under the backup withholding rules that exceeds your income tax liability by filing a refund claim with the U.S. Internal Revenue Service.

Additional Withholding Rules for Payments Made After December 31, 2012

The Hiring Incentives to Restore Employment Act of 2010 imposes a withholding tax of 30% on certain types of payments made to foreign financial institutions and certain other non-U.S. entities unless such entities satisfy additional certification, information reporting and other specified requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities). Failure to comply with the new reporting requirements could result in withholding tax being imposed on payments to such entities of dividends on, and proceeds from the sale of, our common stock. This legislation is generally effective for payments made after December 31, 2012.

Prospective investors should consult their own tax advisors regarding this new legislation.

Federal Estate Tax

Common stock owned or treated as owned by an individual who is a non-U.S. person, as specially defined for U.S. federal estate tax purposes, at the time of death will be included in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax or other treaty provides otherwise and, therefore, may be subject to U.S. federal estate tax.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated the date of this prospectus supplement, Morgan Stanley & Co. Incorporated, as the underwriter, has agreed to purchase the Warrant from the selling securityholder.

The underwriter is offering 9,349,032 shares of common stock issuable upon exercise of the Warrant it is purchasing from the selling securityholder subject to the underwriter's acceptance of the Warrant from the selling securityholder and subject to prior sale of the shares. The underwriter is purchasing the Warrant from the selling securityholder pursuant to the terms of the underwriting agreement and will exercise the Warrant immediately prior to the delivery of the shares of common stock to the public pursuant to the cashless exercise provisions of the Warrant. The underwriting agreement provides that the obligations of the underwriter to pay for and accept delivery of the shares of common stock offered by this prospectus supplement are subject to the approval of certain legal matters by its counsel and to certain other conditions. The underwriter is obligated to take all of the shares of common stock offered pursuant to this prospectus supplement if any such shares are taken and pay to the selling securityholder the purchase price of the Warrant.

The underwriter initially proposes to offer part of the shares of common stock directly to the public at the public offering price listed on the cover page of this prospectus supplement. After the initial offering of the shares of common stock, the offering price and other selling terms may from time to time be varied by the underwriter.

The expenses of this offering payable by us are estimated to be approximately \$200,000, which includes legal, accounting and printing costs and various other fees associated with the registration of our common stock. In addition, subject to certain exceptions, we have agreed to pay all expenses incurred by the selling securityholder in connection with this offering, not including underwriting discounts and commissions.

We, the selling securityholder and each of our directors and executive officers have agreed that, without the prior written consent of Morgan Stanley & Co. Incorporated, we, during the period ending 90 days after the date of this prospectus supplement and they, during the period ending 45 days after the date of this prospectus supplement, will not:

offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of directly or indirectly, any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock; file any registration statement with the SEC relating to the offering of any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock; or enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the common stock; whether any such transaction described above is to be settled by delivery of common stock or such other securities, in cash or otherwise. The restrictions described in this paragraph do not apply to:

the sale of the Warrant by the selling securityholder in connection with this offering to the underwriter;
the shares issued by us upon the exercise of the Warrant in connection with this offering;
the issuance by us of shares of common stock upon the exercise of an option or a warrant or the conversion of a security outstanding on the date of this prospectus supplement of which the underwriter has been advised in writing;
issuances of shares of common stock by us under our employee benefit plans existing on the date hereof;

transactions relating to shares of common stock or other securities acquired in open market transactions after the date of this prospectus supplement, as long as no filing under Section 16(a) of S-16

TABLE OF CONTENTS

the Exchange Act shall be required or voluntarily made in connection with subsequent sales of common stock or other securities acquired in such open market transactions, other than a filing made after the expiration of the restricted period;

transfers of shares of common stock or any security convertible into common stock as a bona fide gift, provided that the recipients agree to be bound by the restrictions described in this paragraph and no filing under Section 16(a) of the Exchange Act shall be required or voluntarily made in connection therewith during the restricted period;

distributions of shares of common stock or any security convertible into shares of common stock to limited partners or stockholders of the selling securityholder, provided that the recipients agree to be bound by the restrictions described in this paragraph and no filing under Section 16(a) of the Exchange Act shall be required or voluntarily made in connection therewith during the restricted period;

the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act for the transfer of shares of common stock, as long as such plan does not provide for the transfer of common stock during the restricted period and no public announcement or filing under the Exchange Act shall be required or voluntarily made in connection with its establishment; or

in the case of restricted common stock units held by a director or officer that vest during the restricted period, the disposition of shares of such common stock to us to pay withholding tax obligations upon vesting (but only to such extent).

Additionally, the selling securityholder and our directors and executive officers have agreed that, without the prior written consent of the representative on behalf of the underwriter, they will not, during the period ending 45 days after the date of this prospectus supplement, make any demand for, or exercise any right with respect to, the registration of any shares of common stock or any security convertible into or exercisable or exchangeable for common stock.

In order to facilitate the offering of the common stock, the underwriter may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock. Specifically, the underwriter may sell more shares than it is obligated to purchase under the underwriting agreement, creating a naked short position. The underwriter must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriter is concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. As an additional means of facilitating the offering, the underwriter may bid for, and purchase, shares of common stock in the open market to stabilize the price of the common stock. These activities may raise or maintain the market price of the common stock above independent market levels or prevent or retard a decline in the market price of the common stock. The underwriter is not required to engage in these activities, and may end any of these activities at any time.

Our shares of common stock are listed on the New York Stock Exchange under the symbol WNC.

The underwriter has, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

We, the selling securityholder and the underwriter have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

PROSPECTUS SUMMARY

This summary contains a general summary of the information contained in this prospectus. It may not include all the information that is important to you. You should read the entire prospectus, the prospectus supplement delivered with the prospectus, if any, and the documents incorporated by reference before making an investment decision.

Our Company

Founded in 1985 as a start-up company, Wabash National Corporation is one of North America's leaders in designing, manufacturing and marketing standard and customized truck trailers and related transportation equipment. We believe our position as a leader has been the result of our longstanding relationships with our core customers, our demonstrated ability to attract new customers, our broad and innovative product lines, our technological leadership and our large distribution and service network. Our management team is focused on continuing to size our manufacturing and retail operations to match the current demand environment, implementing our cost savings initiatives, strengthening our capital structure, developing innovative products, improving earnings and selective production introductions that meet the needs of our customers.

We seek to identify and produce proprietary products that offer exceptional value to customers with the potential to generate higher profit margins than those of standardized products. We believe that we have the engineering and manufacturing capability to produce these products efficiently. We introduced our proprietary composite product, DuraPlate®, in 1996. According to the most recent A.C.T. Research Company, LLC (ACT) estimates on total trailer industry shipments, composite trailers have achieved widespread industry acceptance accounting for approximately one out of every three dry van trailer shipments in 2009. Since 2002, sales of our DuraPlate® trailers represented approximately 90% of our total new dry van trailer sales. We are also a competitive producer of standardized sheet and post and refrigerated trailer products and we strive to become the low-cost producer of these products within our industry. Through our Transcraft subsidiary we also manufacture steel flatbed and dropdeck trailers. As part of our commitment to expand our customer base, diversify our revenues and extend our market leadership, Transcraft acquired in July 2008 certain operating assets of Benson International LLC, and its affiliates (Benson), a manufacturer of aluminum flatbeds, dump trailers and other truck bodies. In addition, in December 2008, the Company announced a multi-year agreement to build and service all of PODS®⁽¹⁾ portable storage container requirements as part of our strategy to leverage our DuraPlate® panel technology into other industry segments. We expect to continue a program of product development and selective acquisitions of quality proprietary products that further differentiate us from our competitors and increase shareholder value.

We market our transportation equipment under the Wabash®, DuraPlate®, DuraPlateHD®, FreightPro®, ArcticLite®, RoadRailer®, Transcraft®, Eagle®, Eagle II®, D-Eagle® and Benson™ trademarks directly to customers, through independent dealers and through our Company-owned retail branch network. Historically, we have focused on our longstanding core customers representing many of the largest companies in the trucking industry. Our relationships with our core customers have been central to our growth since inception. We have also actively pursued the diversification of our customer base by focusing on what we refer to as the mid-market. These carriers, which represent approximately 1,250 carriers, operate fleets of between 250 to 7,500 trailers, which we estimate in total account for approximately one million trailers.

Our 11 Company-owned full service retail branches provide additional opportunities to distribute our products and also offer nationwide services and support capabilities for our customers. In addition, we maintain four used fleet sales centers to focus on selling both large and small fleet trade packages to the wholesale market. Our retail branch

network's sale of new and used trailers, aftermarket parts and service generally provides enhanced margin opportunities. We also utilize a network of 25 independent dealers with approximately 60 locations throughout North America to distribute our van trailers. In addition, we distribute our flatbed and dropdeck trailers through a network of 94 independent dealers with approximately 150 locations throughout North America.

TABLE OF CONTENTS

DESCRIPTION OF OUR COMMON STOCK

The following description of our common stock and provisions of our certificate of incorporation and amended and restated bylaws, as amended, are summaries and are qualified by reference to our certificate of incorporation and our amended and restated bylaws, as amended, that are filed as exhibits to the registration statement that includes this prospectus. The General Corporation Law of the State of Delaware (the "DGCL") may also affect the terms of our common stock.

General

We are authorized to issue up to 200,000,000 shares of common stock, par value \$0.01 per share, and up to 25,000,000 shares of preferred stock, par value \$0.01 per share. As of July 28, 2010, (i) there were 58,946,261 shares of our common stock outstanding, (ii) no shares of preferred stock outstanding and (iii) there was a warrant outstanding that is exercisable at \$0.01 per share for 9,362,581 newly issued shares of our common stock, subject to upward adjustment (the "Warrant"). The Warrant was issued together with shares of preferred stock (the "Series E-G Preferred Stock") for an aggregate purchase price of \$35,000,000 to Trailer Investments, LLC in August 2009 (the "Transaction"). On May 28, 2010, we redeemed the Series E-G Preferred Stock for approximately \$47.8 million.

Voting Rights

Holders of our common stock are entitled to attend all annual and special meetings of our stockholders and to vote upon any matter, including, without limitation, the election of directors. Holders of our common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights. Accordingly, holders of a majority of the shares of our common stock entitled to vote in any election of directors may elect all of the directors standing for election. However, for so long as Trailer Investments and its affiliates, including investors in the funds controlled by Lincolnshire Management, Inc. (collectively with Trailer Investments, the "Trailer Investors"), beneficially own at least 10% of our outstanding common stock, they maintain the right to designate five persons for election to our board of directors.

Liquidation Rights

Upon our liquidation, dissolution or winding up, the holders of our common stock are entitled to receive their ratable portion of our assets legally available for distribution after the payment of all debts and other liabilities and subject to the rights of any outstanding preferred stock, if any. If we undergo a change of control (which includes, among other things, more than 50% of our outstanding common stock or voting power becoming owned by any person other than Trailer Investments and its affiliates, and Trailer Investments or its affiliates acquiring all of our outstanding common stock) as defined in the certificates of designation for the Series E-G Preferred Stock that occurs within twelve months of May 28, 2010, which was the date the Series E-G Preferred Stock was redeemed, Trailer Investments will be entitled to receive an aggregate payment equal to \$74,576,877, which is equivalent to the difference between what was received by Trailer Investments when the Series E-G Preferred Stock was redeemed and what it would have been entitled to receive on that date if a change of control had occurred on that date.

Other Rights and Restrictions

Holders of our common stock have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock that we may designate and issue in the future. Our certificate of incorporation and amended and restated bylaws, as amended, do not restrict the ability of a holder of common stock to transfer his or her shares of common stock.

Anti-Takeover Provisions

Organizational Documents. Our certificate of incorporation and our amended and restated bylaws, as amended, provide that any action required or permitted to be taken by our stockholders at an annual or special meeting of stockholders may only be taken if it is properly brought before the meeting or taken by written action in lieu of a meeting by persons who would be entitled to vote at a meeting and who hold shares having

TABLE OF CONTENTS

voting power equal to not less than the minimum number of votes that would be necessary to authorize or take action at a meeting at which all shares entitled to vote were present and void. Our amended and restated bylaws, as amended, further provide that special meetings of stockholders may only be called by our President, board of directors, or chairperson of the board of directors. In addition, our amended and restated bylaws establish an advance notice procedure for stockholder proposals and director nominations to be brought before an annual meeting of stockholders. Stockholders at an annual meeting may only consider proposals or nominations specified in the notice of meeting or brought before the meeting by or at the direction of the board of directors or by a stockholder of record on the record date for the meeting who is entitled to vote at the meeting and who has delivered timely written notice in proper form to our secretary of the stockholder's intention to bring such business before the meeting. These provisions could have the effect of delaying until the next stockholders' meeting actions that are favored by the holders of a majority of our outstanding voting securities.

Stockholders' Rights Plan. We have a Stockholders' Rights Plan (the "Rights Plan") that is designed to deter coercive or unfair takeover tactics in the event of an unsolicited takeover attempt. It is not intended to prevent a takeover on terms that are favorable and fair to all stockholders and will not interfere with a merger approved by our board of directors. Each right entitles stockholders to buy one one-thousandth of a share of Series D Junior Participating Preferred Stock at an exercise price of \$120. The rights will be exercisable only if a person or a group acquires or announces a tender or exchange offer to acquire 20% or more of our common stock or if we enter into other business combination transactions not approved by our board of directors. Trailer Investments is exempted from the application of the Rights Plan to the acquisition of our shares by them. In the event the rights become exercisable, the Rights Plan allows for our stockholders to acquire our stock or the stock of the surviving corporation, whether or not we are the surviving corporation, having a value twice that of the exercise price of the rights. These rights pursuant to the Rights Plan will expire December 28, 2015 or are redeemable for \$0.01 per right by our board under certain circumstances.

Dividends

Holders of our common stock are entitled to receive proportionately any dividends as may be declared by our board of directors on our common stock, subject to any preferential dividend rights of outstanding preferred stock, and subject to any applicable contractual restrictions and limitations, including as a result of our current amended and restated credit facility.

Listing

Our common stock is listed on the New York Stock Exchange under the symbol WNC.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is The Bank of New York Mellon Corporation.

TABLE OF CONTENTS

DESCRIPTION OF DEBT SECURITIES

General

We may issue any combination of senior or subordinated debt securities, which will be direct, general obligations of Wabash National Corporation that may be secured or unsecured. We may issue the senior debt securities and the subordinated debt securities under separate indentures between us, as issuer, and The Bank of New York Mellon Trust Company, N.A., as trustee. Further information regarding the trustee is provided below and may be provided in the prospectus supplement.

Within the total dollar amount of this shelf registration statement, we may issue an unlimited principal amount of debt securities in separate series. We may specify a maximum aggregate principal amount for the debt securities of any series. The debt securities will have terms that are consistent with their respective indentures. Senior debt securities will be unsecured and unsubordinated obligations and will rank equal with all our other unsecured and unsubordinated debt. Subordinated debt securities will be paid only if all payments due under our senior indebtedness, including any outstanding senior debt securities, have been made.

The indentures might not limit the amount of other debt that we may incur and might not contain financial or similar restrictive covenants. The indentures might not contain any provision to protect holders of debt securities against a sudden or dramatic decline in our ability to pay our debt.

The prospectus supplement will describe the particular terms of any debt securities we may offer and may supplement the terms summarized below. The following summaries of the debt securities are not complete. We urge you to read the indentures that will be filed as exhibits to an amendment to the registration statement that includes this prospectus and the description of the additional terms of the debt securities included in the prospectus supplement. See **Where You Can Find More Information** above for information on how to obtain copies of them. When we refer to the indenture or the trustee with respect to any debt securities, we mean the indenture under which those debt securities are issued and the trustee under that indenture. We may supplement any indenture from time to time after we execute it.

When we refer to **debt securities** in this prospectus, we mean both the senior debt securities and the subordinated debt securities.

Series of Debt Securities

We may issue multiple debt securities or series of debt securities under either indenture. This section summarizes terms of the securities that apply generally to all debt securities and series of debt securities. The provisions of each indenture allow us not only to issue debt securities with terms different from those of debt securities previously issued under that indenture, but also to **reopen** a previously issued series of debt securities and issue additional debt securities of that series. We will describe most of the financial and other specific terms of a particular series, whether it be a series of the senior debt securities or subordinated debt securities, in the prospectus supplement for that series. Those terms may vary from the terms described here.

Amounts of Issuances

The indentures might not limit the amount of debt securities that may be issued under them. We may issue the debt securities from time to time in one or more series. We are not required to issue all of the debt securities of one series at the same time and, unless otherwise provided in the applicable indenture or prospectus supplement, we may reopen a series and issue additional debt securities of that series without the consent of the holders of the outstanding debt securities of that series.

Principal Amount, Stated Maturity and Maturity

Unless otherwise stated, the principal amount of a debt security means the principal amount payable at its stated maturity, unless that amount is not determinable, in which case the principal amount of a debt security is its face amount.

The term **stated maturity** with respect to any debt security means the day on which the principal amount of the debt security is scheduled to become due. The principal may become due sooner, by reason of

TABLE OF CONTENTS

redemption or acceleration after a default or otherwise in accordance with the terms of the indenture and debt security. The day on which the principal actually becomes due, whether at the stated maturity or earlier, is called the maturity of the principal.

We also use the terms stated maturity and maturity to refer to the days when other payments become due. For example, we may refer to a regular interest payment date when an installment of interest is scheduled to become due as the stated maturity of that installment. When we refer to the stated maturity or the maturity of a debt security without specifying a particular payment, we mean the stated maturity or maturity, as the case may be, of the principal.

Specific Terms of Debt Securities

The applicable prospectus supplement will describe the specific terms of the debt securities and the price or prices at which we will offer the debt securities. The specific terms will include some or all of the following:

- the title of the series and whether it is a senior debt security or a subordinated debt security;
- any limit on the total principal amount of the debt securities of the same series;
- the stated maturity;
- the currency or currencies for principal and interest, if not U.S. dollars;
- the price at which we originally issue the debt security, expressed as a percentage of the principal amount, and the original issue date;
- whether the debt security is a fixed rate debt security, a floating rate debt security or an indexed debt security;
- if the debt security is a fixed rate debt security, the yearly rate at which the debt security will bear interest, if any, and the interest payment dates;
- if the debt security is a floating rate debt security, the interest rate basis; any applicable index currency or index maturity, spread or spread multiplier or initial base rate, maximum rate or minimum rate; the interest reset, determination, calculation and payment dates; the day count convention used to calculate interest payments for any period; the business day convention; and the calculation agent;
- if the debt security is an indexed debt security, the principal amount, if any, we will pay at maturity, interest payment dates, the amount of interest, if any, we will pay on an interest payment date or the formula we will use to calculate these amounts, if any, and the terms on which the debt security will be exchangeable for or payable in cash, securities or other property;
- if the debt security may be converted into or exercised or exchanged for common or preferred stock or other securities of the Company or debt or equity securities of one or more third parties, the terms on which conversion, exercise or exchange may occur, including whether conversion, exercise or exchange is mandatory, at the option of the holder or at our option, the period during which conversion, exercise or exchange may occur, the initial conversion, exercise or exchange price or rate and the circumstances or manner in which the amount of common or preferred stock or other securities issuable upon conversion, exercise or exchange may be adjusted;
- if the debt security is also an original issue discount debt security, the yield to maturity;
- if applicable, the circumstances under which the debt security may be redeemed at our option or repaid at the holder's option before the stated maturity, including any redemption commencement date, repayment date(s), redemption price(s) and redemption period(s);
- the authorized denominations, if other than \$1,000 and integral multiples of \$1,000;

if applicable, the circumstances under which we will pay additional amounts on any debt securities held by a person who is not a United States person for tax purposes and under which we can redeem the debt securities if we have to pay additional amounts;

whether the debt security will be guaranteed by any guarantors and, if so, the identity of the guarantors and, to the extent the terms thereof differ from those described in this prospectus, a description of the terms of the guarantees;

the assets, if any that will be pledged as security for the payment of the debt security;

the names and duties of any co-trustees, depositaries, authenticating agents, paying agents, transfer agents or registrars for the debt security, as applicable; and

any other terms of the debt security and any guarantees of the debt security, which could be different from those described in this prospectus.

We may sell the debt securities at a substantial discount below their stated principal amount. We will describe U.S.

federal income tax considerations, if any, applicable to debt securities sold at an original issue discount in the prospectus supplement. An original issue discount security is any debt security sold for less than its face value, and which provides that the holder cannot receive the full face value if maturity is accelerated. The prospectus supplement relating to any original issue discount securities will describe the particular provisions relating to acceleration of the maturity upon the occurrence of an event of default. In addition, we will describe U.S. federal income tax or other considerations applicable to any debt securities that are denominated in a currency or unit other than U.S. dollars in the prospectus supplement.

Form of Debt Securities

We will issue each debt security only in registered form, without coupons, unless we specify otherwise in the applicable prospectus supplement. In addition, we will issue each debt security in global *i.e.*, book-entry form only, unless we specify otherwise in the applicable prospectus supplement. Debt securities in book-entry form will be represented by a global security registered in the name of a depositary, which will be the holder of all the debt securities represented by the global security. Those who own beneficial interests in a global debt security will do so through participants in the depositary's securities clearance system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depositary and its participants. References to holders in this section mean those who own debt securities registered in their own names, on the books that we or the registrar maintain for this purpose, and not those who own beneficial interests in debt securities registered in street name or in debt securities issued in book-entry form through one or more depositaries.

Redemption or Repayment

If there are any provisions regarding redemption or repayment applicable to a debt security, we will describe them in a prospectus supplement.

We or our affiliates may purchase debt securities from investors who are willing to sell from time to time, either in the open market at prevailing prices or in private transactions at negotiated prices. Debt securities that we or they purchase may, at our discretion, be held, resold or canceled.

Conversion and Exchange Rights

We will set forth in the prospectus supplement the terms on which a series of debt securities may be convertible into or exchangeable for our common stock or other securities, including the conversion or exchange rate, as applicable, or how it will be calculated, and the applicable conversion or exchange period. We will include provisions as to whether

conversion or exchange is mandatory, at the option of the holder or at our option. We may include provisions pursuant to which the number of our securities that the holders of the series of debt securities receive upon conversion or exchange would, under the circumstances described in those provisions, be subject to adjustment, or pursuant to which those holders would, under those circumstances, receive other property upon conversion or exchange, for example in the event of our merger or consolidation with another entity.

Mergers and Similar Transactions

We might be permitted under any indenture for the relevant series to merge or consolidate with another corporation or other entity. We might be permitted under the indenture for the relevant series to sell all or substantially all of our assets to another corporation or other entity. With regard to any series of debt securities, however, we may not be able to take any of these actions unless all the following conditions, among other things, are met:

If the successor entity in the transaction is not the Company, the successor entity must expressly assume our obligations under the debt securities of that series and the indenture with respect to that series. The successor entity may be organized and existing under the laws of the United States, any State thereof or the District of Columbia. Immediately after the transaction, no default under the debt securities of that series has occurred and is continuing. For this purpose, default under the debt securities of that series means an event of default with respect to that series or any event that would be an event of default with respect to that series if the requirements for giving us default notice and for our default having to continue for a specific period of time were disregarded. We describe these matters below under Default, Remedies and Waiver of Default.

If the debt securities are convertible into our other securities, the person with whom we merge or consolidate or to whom we sell all or substantially all of our assets must make provisions for the conversion of the debt securities into securities that the holders of the debt securities would have received if they had converted the debt securities before the merger, consolidation or sale.

If the conditions described above are satisfied with respect to the debt securities of any series, we may not need to obtain the approval of the holders of those debt securities in order to merge or consolidate or to sell our assets. Also, these conditions may apply only if we wish to merge or consolidate with another entity or sell all or substantially all of our assets to another entity. We may not need to satisfy these conditions if we enter into other types of transactions, including any transaction in which we acquire the stock or assets of another entity, any transaction that involves a change of control of the Company but in which we do not merge or consolidate and any transaction in which we sell less than substantially all our assets.

If we sell all or substantially all of our assets, we will be released from all our liabilities and obligations under the debt securities of any series and the indenture with respect to that series.

Subordination Provisions

Holders of subordinated debt securities should recognize that contractual provisions in the subordinated debt indenture may prohibit us from making payments on those securities. Subordinated debt securities are subordinate and junior in right of payment, to the extent and in the manner stated in the subordinated debt indenture, to all of our senior debt, including all debt securities we have issued and will issue under a senior debt indenture.

We may modify the subordination provisions, including the definition of senior debt, with respect to one or more series of subordinated debt securities. Such modifications will be set forth in the applicable prospectus supplement.

If the trustee under a subordinated debt indenture or any holders of subordinated debt securities receive any payment or distribution that is prohibited under the subordination provisions, then the trustee or the holders will have to repay that money to the holders of the senior debt.

If we distribute our assets to creditors upon any dissolution, winding-up, liquidation or reorganization or in bankruptcy, insolvency, receivership or similar proceedings, we must first pay all amounts due or to become due on all senior indebtedness before we pay the principal of, or any premium or interest on, the subordinated debt securities.

In the event the subordinated debt securities are accelerated because of an event of default, we may not make any payment on the subordinated debt securities until we have paid all senior indebtedness or the acceleration is rescinded.

TABLE OF CONTENTS

Even if the subordination provisions prevent us from making any payment when due on the subordinated debt securities of any series, we will be in default on our obligations under that series if we do not make the payment when due. This means that the trustee under a subordinated debt indenture and the holders of that series can take action against us, but they will not receive any money until the claims of the holders of senior debt have been fully satisfied.

The subordinated debt indenture may allow the holders of senior debt to obtain a court order requiring us and any holder of subordinated debt securities to comply with the subordination provisions.

Defeasance, Covenant Defeasance and Satisfaction and Discharge

When we use the term defeasance, we mean discharge from some or all of our obligations under the indenture. To the extent stated in the applicable prospectus supplement, if we deposit with the trustee funds or government securities, or if so provided in the applicable prospectus supplement, obligations other than government securities, sufficient to make payments on any series of debt securities on the dates those payments are due and payable and other specified conditions are satisfied, then, at our option, either of the following will occur:

we will be discharged from our obligations with respect to the debt securities of such series (legal defeasance); or we will be discharged from any covenants we make in the applicable indenture for the benefit of such series and the related events of default will no longer apply to us (covenant defeasance).

We may exercise our legal defeasance option even if we have previously exercised our covenant defeasance option. If we exercise either defeasance option, payment of the notes may not be accelerated because of the occurrence of events of default.
