SAFE HARBOR" STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Statements contained in this Report, which are not historical facts or information, are "forward-looking statements." Words such as "believe," "expect," "intend," "will," "should," and other expressions that indicate future events and trends identify such forward-looking statements. These forward-looking statements involve risks and uncertainties, which could cause the outcome and future results of operations, and financial condition to be materially different than stated or anticipated based on the forward-looking statements. Such risks and uncertainties include both general economic risks and uncertainties, risks and uncertainties affecting the demand for and economic factors affecting the delivery of health care services, both in the United States and in our overseas markets, impacts of the U.S. Affordable Care Act, the outcome of litigation proceedings and specific matters which relate directly to the Company's operations and properties as discussed in the Company's annual report on Form 10-K for the year ended June 30, 2013. The Company cautions that any forward-looking statements contained in this report reflect only the belief of the Company or its management at the time the statement was made. Although the Company believes such forward-looking statements are based upon reasonable assumptions, such assumptions may ultimately prove inaccurate or incomplete.

The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement was made.

ALLIED HEALTHCARE PRODUCTS, INC.

NOTES TO FINANCIAL STATEMENTS

(UNAUDITED)

1. Summary of Significant Accounting and Reporting Policies

Basis of Presentation

The accompanying unaudited financial statements of Allied Healthcare Products, Inc. (the “Company”) have been prepared in accordance with the instructions for Form 10-Q and do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments considered necessary for a fair presentation, have been included. Operating results for any quarter are not necessarily indicative of the results for any other quarter or for the full year. These statements should be read in conjunction with the financial statements and notes to the financial statements thereto included in the Company’s Annual Report on Form 10-K for the year ended June 30, 2013.

Recently Issued Accounting Guidance

We have reviewed accounting guidance and interpretations thereof issued by the FASB, AICPA and the SEC that have effective dates during the periods reported and in future periods. Management does not believe that any of those pronouncements will have a material impact on the Company’s present or future financial statements.

Fair Value of Financial Instruments

The Company’s financial instruments consist of cash and cash equivalents, accounts receivable and accounts payable. The carrying amounts for cash and cash equivalents, accounts receivable and accounts payable approximate their fair value due to the short maturity of these instruments.

2. Inventories

Inventories are comprised as follows:

	March 31, 2014	June 30, 2013
Work-in progress	\$ 683,789	\$ 663,100
Component parts	7,954,805	7,530,506
Finished goods	2,941,342	2,457,337
Reserve for obsolete and excess inventory	(1,287,360)	(1,312,600)
	\$ 10,292,576	\$ 9,338,343

3. Earnings per share

Basic earnings per share are based on the weighted average number of shares of all common stock outstanding during the period. Diluted earnings per share are based on the sum of the weighted average number of shares of common stock and common stock equivalents outstanding during the period. The number of basic and diluted shares outstanding for the three months ended March 31, 2014 and 2013 were 8,027,147 and 8,029,076, respectively. The number of basic and diluted shares outstanding for the nine months ended March 31, 2014 and 2013 was 8,027,147 and 8,085,091, respectively.

4. Commitments and Contingencies

Legal Claims

The Company is subject to various investigations, claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. The Company intends to continue to conduct business in such a manner as to avert any FDA action seeking to interrupt or suspend manufacturing or require any recall or modification of products.

The Company has recognized the costs and associated liabilities only for those investigations, claims and legal proceedings for which, in its view, it is probable that liabilities have been incurred and the related amounts are estimable. Based upon information currently available, management believes that existing accrued liabilities are sufficient and that it is not reasonably possible at this time that additional liabilities will result from the resolution of these matters that would have a material adverse effect on the Company's results of operations, financial position, or cash flows.

Stuyvesant Falls Power Litigation. The Company is currently involved in litigation with Niagara Mohawk Power Corporation d/b/a National Grid ("Niagara") and other parties, which provides electrical power to the Company's facility in Stuyvesant Falls, New York. In fiscal year 2011, Niagara began sending invoices to the Company for electricity used at the Company's Stuyvesant Falls plant. The Company maintains in its defense of the lawsuit that it is entitled to a certain amount of free electricity based on covenants running with the land which have been honored for more than a century. Niagara's attempts to collect such invoices were stopped in December 2010 by a temporary restraining order, although a court has not yet ruled on the merits of all of Niagara's claims. Among other things, Niagara seeks as damages the value of electricity received by the Company without charge. While the total value of electricity at issue in the litigation is not known with certainty, Niagara alleges in its Motion for Summary Judgment, filed on March 14, 2014, damages of approximately \$492,000 in free electricity since May 2010. Alternatively, Niagara asserts that, in the event that the power covenant is still enforceable, the Company is responsible for delivery fees relating to any free

power to which it is entitled. The Company filed its own motion for summary judgment on March 14, 2014 seeking dismissal of Niagara's claims. Oral arguments on the parties' motions for summary judgment are set for June 13, 2014. As of March 31, 2014, the Company has not recorded a provision for this matter as management intends to vigorously defend this litigation and believes it is not probable that the Company will be required to pay for electricity as Niagara claims. Additionally, the Company believes that any liability it may incur should it not prevail in the litigation would not have a material adverse effect on its financial condition, its result of operations, or its cash flows.

Dräger Patent Litigation. On or about October 4, 2013, Dräger Medical GmbH and certain affiliates (the “Dräger Plaintiffs”) filed a patent infringement lawsuit against the Company in the District of Delaware, asserting that the Company infringes United States Patent Nos. 7,487,776 and 8,286,633, both protecting particular combinations of carbon dioxide absorption cartridges and adapters which fit on anesthesia machines. The Dräger Plaintiffs assert that the Company’s sales of certain models of its Litholyme and Carbolyne single-use carbon dioxide absorption cartridges infringe both patents. The Company has answered the Complaint, asserting invalidity of the patents, non-infringement, and implied license under the doctrine of permissive repair.

On October 25, 2013, the Dräger Plaintiffs filed a motion for preliminary injunction requesting that the Company be enjoined from selling certain models of its Litholyme and Carbolyne cartridges during the pendency of the litigation. A hearing on the motion for preliminary injunction was held on February 7, 2014. On March 24, 2014, the Court ruled in Allied’s favor and denied Dräger’s motion for a preliminary injunction, stating among other things that Dräger had not carried its burden of showing that Allied had infringed Dräger’s patents.

As of March 31, 2014, the Company has not recorded a provision for this matter because the Company cannot estimate a possible loss or range of loss for this matter because the Dräger Plaintiffs have not specified damages claimed and the proceedings are in the early stages. The Company intends to defend against any further litigation brought by the Dräger Plaintiffs and pursue counterclaims for invalidity, non-infringement, and implied license.

Employment Contract

The Company has entered into an employment contract with its chief executive officer with annual renewals. The contract includes termination without cause and change of control provisions, under which the chief executive officer is entitled to receive specified severance payments generally equal to two times ending annual salary if the Company terminates his employment without cause or he voluntarily terminates his employment with “good reason.” “Good Reason” generally includes changes in the scope of his duties or location of employment but also includes (i) the Company’s written election not to renew the Employment Agreement and (ii) certain voluntary resignations by the chief executive officer following a “Change of Control” as defined in the Agreement.

5. Financing

The Company is party to a Loan and Security Agreement, dated November 17, 2009, with Enterprise Bank & Trust (the "Credit Agreement") pursuant to which the Company obtained a secured revolving credit facility with borrowing availability of up to \$5,000,000 (the "Credit Facility"). The Company's obligations under the Credit Facility are secured by certain assets of the Company pursuant to the terms and subject to the conditions set forth in the Credit Agreement.

The Credit Facility was amended on November 12, 2013 extending the maturity date to November 11, 2014. The Credit Facility will be available on a revolving basis until it expires on November 11, 2014, at which time all amounts outstanding under the Credit Facility will be due and payable. Advances under the Credit Facility will be made pursuant to a Revolving Credit Note executed by the Company in favor of Enterprise Bank & Trust. Such advances will bear interest at a rate equal to 3.50% in excess of the 30-day LIBOR rate. Advances may be prepaid in whole or in part without premium or penalty.

Under the Credit Agreement, advances are generally subject to customary borrowing conditions. The Credit Agreement also contains covenants with which the Company must comply during the term of the Credit Facility. Among other things, such covenants restrict the Company's ability to incur certain additional debt; make specified restricted payments, dividends and capital expenditures; authorize or issue capital stock; enter into certain transactions with affiliates; consolidate or merge with or acquire another business; sell certain of its assets or dissolve or wind up the Company. The Credit Agreement also contains certain events of default that are customary for financings of this type including, without limitation: the failure to pay principal, interest, fees or other amounts when due; the breach of specified representations or warranties contained in the loan documents; cross-default with certain other indebtedness of the Company; the entry of uninsured judgments that are not bonded or stayed; failure to comply with the observance or performance of specified agreements contained in the loan documents; commencement of bankruptcy or other insolvency proceedings; and the failure of any of the loan documents entered into in connection with the Credit Facility to be in full force and effect. After an event of default, and upon the continuation thereof, the principal amount of all loans made under the Credit Facility would bear interest at a rate per annum equal to 4.00% above the otherwise applicable interest rate (provided, that the interest rate may not exceed the highest rate permissible under law), and the lender would have the option to accelerate maturity and payment of the Company's obligations under the Credit Facility.

The 30-day LIBOR rate was 0.15% on March 31, 2014.

At March 31, 2014 the Company had no aggregate indebtedness, including capital lease obligations, short-term debt and long term debt.

The Company was in compliance with all of the covenants associated with the Credit Facility at March 31, 2014.

6. Baralyme® Agreement

A reconciliation of deferred revenue resulting from the agreement with Abbott Laboratories (“Abbott”), with the amounts received under the agreement, and amounts recognized as net sales is as follows:

	Three Months ended March 31,		Nine Months ended March 31,	
	2014	2013	2014	2013
Beginning balance	\$ -	\$ -	\$ -	\$ 114,700
Revenue recognized as net sales	0	0	0	(114,700)
	0	0	0	0
Less - Current portion of deferred revenue	0	0	0	0
	\$ 0	\$ 0	\$ 0	\$ 0

7. Share Repurchases

On November 21, 2012 the Company’s Board of Directors approved the purchase of up to 100,000 shares of the Company’s common stock. This authority terminated on February 1st, 2013. Pursuant to this authorization, the Company repurchased 94,139 shares of stock at an average price of \$2.54 for an aggregate total purchase price of \$240,952.

On February 25, 2013 the Company’s Board of Directors authorized the repurchase of up to 100,000 shares of the Company’s common stock for a period of 90 days. Unless terminated by the Board, the repurchase authority renews for successive 90 day periods. Repurchases may be made in the open market or in privately negotiated transactions, with the timing and terms of such transaction at the discretion of the Chairman of the Board. The repurchase authority may be terminated by the Board at any time and without notice. Pursuant to this authorization, the Company repurchased a total of 3,100 shares in the third quarter of fiscal 2013 at an average price of \$2.69 per share for an aggregate total purchase price of \$8,408.

8. Income Taxes

The Company accounts for income taxes under ASC Topic 740: "Income Taxes." Under ASC 740, the deferred tax provision is determined using the liability method, whereby deferred tax assets and liabilities are recognized based upon temporary differences between the financial statement and income tax bases of assets and liabilities using presently enacted tax rates. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. The company has relied on the reversal of existing temporary deferred tax liabilities and tax planning strategies to support the value of its deferred tax assets. In the quarter ended September 30, 2013 the company's cumulative losses exceeded the value available through those strategies and a valuation allowance was established. In the quarter ended March 31, 2014 the Company recorded the tax benefit of losses incurred during the current quarter in the amount of approximately \$361,000. As the realization of the tax benefit of the net operating loss is not assured an additional valuation allowance of approximately \$361,000 was also recorded. The total valuation allowance recorded by the Company as of March 31, 2014 was approximately \$716,000. To the extent that the Company's losses continue in future quarters, the tax benefit of those losses will be subject to a valuation allowance.

9. Demutualization of Product Liability Insurer

The Company's product liability insurer, Medmarc Insurance Group, demutualized and was acquired by ProAssurance Corporation on January 1, 2013. As a policyholder of a mutual insurance company, Allied was entitled to receive a portion of the proceeds received by Medmarc. In January 2013 the Company received a cash payment of approximately \$516,000 as its share of these proceeds. These proceeds are included in Other Income and Expenses. The Company does not anticipate receiving future proceeds of a material amount.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Three months ended March 31, 2014 compared to three months ended March 31, 2013

Allied had net sales of \$9.1 million for the three months ended March 31, 2014, down \$0.1 million from net sales of \$9.2 million in the prior year same quarter. Domestic sales were down 9.2% while international sales, which represented 28.5% of third quarter sales, were up 27.9% from the prior year same quarter.

Orders for the Company's products for the three months ended March 31, 2014 of \$8.8 million were \$0.3 million or 3.3% lower than orders for the prior year same quarter of \$9.1 million. Domestic orders are down 11.8% over the prior year same quarter while international orders, which represented 26.3% of third quarter orders, were 32.1% higher than orders for the prior year same quarter. The decrease in orders for the three months ended March 31, 2014 from the prior year was primarily due to lower activity levels and orders in the Construction market. The Company continues to believe that the purchase of equipment and durable goods and the purchase of equipment by hospitals and municipalities have been cut to meet budgets and conserve cash due to the slow recovery of the economy since the recession in 2008 and uncertainty regarding the impact of the Affordable Care Act. Orders and sales remain below pre-recession levels.

Gross profit for the three months ended March 31, 2014 was \$1.7 million, or 18.7% of net sales, compared to \$1.7 million, or 18.5% of net sales, for the three months ended March 31, 2013.

Selling, general and administrative expenses for the three months ended March 31, 2014 were \$2.7 million compared to selling, general and administrative expenses of \$2.6 million for the three months ended March 31, 2013. Legal expenses are approximately \$365,000 higher than in the prior year. This increase has been offset by decreases in other expense accounts including a \$148,000 decrease in salaries and benefits and a \$39,000 reduction in outside consultants.

Loss from operations was \$960,215 for the three months ended March 31, 2014 compared to loss from operations of \$960,423 for the three months ended March 31, 2013. Other income and expenses for the three months ended March 31, 2013 include approximately \$516,000 of income to the Company as a result of the demutualization of the Company's product liability insurer. This income was a one-time event.

Allied had a loss before benefit from income taxes in the third quarter of fiscal 2014 of \$968,713 compared to loss before benefit from income taxes in the third quarter of fiscal 2013 of \$450,131. The Company's tax provision net of valuation allowance reflects a tax benefit of \$0 for the three months ended March 31, 2014 compared to a tax benefit of \$171,050 for the three months ended March 31, 2013. As previously disclosed in the Company's annual report on Form 10-K for the 2013 fiscal year, the realization of the Company's deferred tax assets have been based on the reversal of existing temporary deferred tax liabilities and tax planning strategies. In the quarter ended September 30, 2013 the Company's tax benefit of cumulative losses exceeded the supportable value of the deferred tax assets and the Company began recording a valuation allowance for losses in excess of the supportable values. In the quarter ended March 31, 2014 the tax benefit of losses in the amount of approximately \$361,000 was offset by a valuation allowance of approximately \$361,000. To the extent that the Company's losses continue in future quarters, the tax benefit of those losses will be fully offset by a valuation allowance.

Net loss for the third quarter of fiscal 2014 was \$968,713 or \$0.12 per basic and diluted share compared to net loss of \$279,081 or \$0.03 per basic and diluted share for the third quarter of fiscal 2013. Net loss for the 2013 period includes the one-time payment related to the demutualization of the Company's product liability insurer. The weighted average number of common shares outstanding, used in the calculation of basic and diluted earnings per share for the third quarters of fiscal 2014 and 2013 were 8,027,147 and 8,029,076, respectively.

Nine months ended March 31, 2014 compared to nine months ended March 31, 2013

Allied had net sales of \$26.6 million for the nine months ended March 31, 2014, down \$1.8 million, or 6.3% from net sales of \$28.4 million in the prior year same period resulting from lower order levels and a decrease in customer orders released for shipment. Domestic sales were down 7.3% from the prior year same period while international sales were down 4.2% from the prior year same period. International business represented 26.1% of sales for the first nine months of fiscal 2014.

Sales for the nine months ended March 31, 2014 and 2013 included \$0 and \$114,700 respectively for the recognition of income of payments resulting from the agreement with Abbott Laboratories to cease the production and distribution of Baralyme®. Income from the agreement was recognized at \$57,350 per month until the expiration of the agreement in August 2012. Allied continues to sell Carbolime®, a carbon dioxide absorbent with a different formulation than Baralyme®, as well as Litholyme®, a new premium carbon dioxide absorbent. The Company ceased the sale of Baralyme® on August 27, 2004.

Orders for the Company's products for the nine months ended March 31, 2014 of \$26.9 million were \$1.1 million or 3.9% lower than orders for the prior year same period of \$28.0 million. Domestic orders are down 5.5% over the prior year same period while international orders, which represented 25.8% of orders for the first nine months of fiscal 2014, were 0.2% lower than orders for the prior year same period. The drop in domestic orders is primarily in the Hospital and Emergency markets. Ambulance services are funded by local governments which have been operating under severe budget constraints. The Company believes that this has negatively impacted orders and sales to this market over the past several years, and in the first nine months of 2014. The Company also believes that as a result of the Affordable Healthcare Act, hospitals have tightened purchases further. The Company believes that international orders and sales reflects reductions in governmental medical expenditures in several countries including Venezuela and Russia. The Company does not believe this decrease indicates a drop in market share.

Gross profit for the nine months ended March 31, 2014 was \$5.5 million, or 20.7% of net sales, compared to \$5.8 million, or 20.4% of net sales, for the nine months ended March 31, 2013. The decrease in gross profit is primarily the result of lower sales levels, and the decrease in income recognized from the agreement with Abbott Laboratories in the prior year. Gross profit, as a percentage of sales, was negatively impacted by the \$114,700 reduction in payments resulting from the Abbott agreement recognized in sales and income. Gross profit for the nine months ended March 31, 2014 was also negatively impacted by an approximately \$138,000 increase in Medical Excise Devises tax, as a result of the tax imposed by the Affordable Care Act beginning on January 1, 2013. The tax is 2.3% of the selling price of the taxable product, subject to certain exceptions.

Selling, general and administrative expenses for the nine months ended March 31, 2014 were \$8.2 million compared to selling, general and administrative expenses of \$8.1 million for the nine months ended March 31, 2013. Legal expenses are approximately \$657,000 higher than in the prior year. This increase has been offset by decreases in other expense accounts including a \$322,000 decrease in salaries and benefits, \$114,000 reduction in outside services and a \$72,000 reduction in telephone expenses as a result of a change in telephone service providers.

Loss from operations was \$2.7 million for the nine months ended March 31, 2014 compared to loss from operations of \$2.4 million for the nine months ended March 31, 2013. Other income and expenses for the nine months ended March 31, 2013 include approximately \$516,000 of income to the Company as a result of the demutualization of the Company's product liability insurer. This income was a one-time event.

Allied had loss before benefit from income taxes in the first nine months of fiscal 2014 of \$2.7 million, compared to loss before benefit from income taxes in the first nine months of fiscal 2013 of \$1.9 million. The Company recorded a tax benefit of \$277,910 for the nine months ended March 31, 2014 compared to a tax benefit of \$710,236 for the nine months ended March 31, 2013. As previously disclosed in the Company's annual report on Form 10-K for the 2013 fiscal year, the realization of the Company's deferred tax assets have been based on the reversal of existing temporary deferred tax liabilities and tax planning strategies. In the nine months ended March 31, 2014 the Company's tax benefit of cumulative losses have exceeded the supportable value of the deferred tax assets and a valuation allowance of approximately \$716,000 has been established. To the extent that the Company's losses continue in future quarters, the tax benefit of those losses would be fully offset by a valuation allowance.

Net loss for the nine months ended March 31, 2014 was \$2,458,186 or \$0.31 per basic and diluted share compared to net loss of \$1,158,806 or \$0.14 per basic and diluted share for the first nine months of fiscal 2013. Net loss for the 2013 period includes the one-time payment related to the demutualization of the Company's product liability insurer. The weighted average number of common shares outstanding, used in the calculation of basic and diluted earnings per share for the first nine months of fiscal 2014 and 2013 were 8,027,147 and 8,085,091, respectively.

Liquidity and Capital Resources

The Company's working capital was \$11.5 million at March 31, 2014 compared to \$13.7 million at June 30, 2013. The decrease in working capital was primarily a result of cash and cash equivalents decreasing by \$2.2 million largely due to the decrease in sales and resulting net loss and an increase in accounts payable of \$0.6 million. Accounts receivable as measured in days of sales outstanding ("DSO") was 40 DSO at March 31, 2014; up from 39 DSO at June 30, 2013. In addition, accounts receivable decreased by \$0.3 million as a result of lower sales. At March 31, 2014 these decreases in working capital were offset by an increase in inventory of \$1.0 million as a result of the decrease in sales demand.

The Company is party to a Loan and Security Agreement, dated November 17, 2009, with Enterprise Bank & Trust (the "Credit Agreement") pursuant to which the Company has a secured revolving credit facility with borrowing availability of up to \$5,000,000 (the "Credit Facility"). The Company's obligations under the Credit Facility are secured by certain assets of the Company pursuant to the terms and subject to the conditions set forth in the Credit Agreement. See Note 5 – Financing to the Company's consolidated unaudited financial statements for more information concerning the Credit Facility.

Any advances under the Credit Facility will be made pursuant to a Revolving Credit Note executed by the Company in favor of Enterprise Bank & Trust. Such advances will bear interest at a rate equal to the 30-day LIBOR rate plus 3.50%. Advances may be prepaid in whole or in part without premium or penalty. The 30-day LIBOR rate was 0.15% on March 31, 2014.

Management has implemented cost saving measures which it believes will reduce the Company's usage of cash, including overhead reductions and deferral of non-essential capital expenditures, however there are no assurances that these measures will be successful. If these cost saving measures are not successful, the Company may need to borrow under the Credit Facility to fund its operations. The Credit Facility expires on November 11, 2014, at which time any outstanding borrowings would be due and payable, with interest. If the Company does not have sufficient cash to repay the outstanding principal and interest under the Credit Facility, it would be required to refinance the Credit Facility. While the Company believes that in such event it would have a sufficient borrowing base to secure the necessary financing, the Company could incur additional costs due to higher interest rates or fees. At March 31, 2014 the Company had no aggregate indebtedness, including capital lease obligations, short-term debt and long term debt.

Inflation has not had a material effect on the Company's business or results of operations during the first six months of fiscal 2014.

Litigation and Contingencies

The Company becomes, from time to time, a party to personal injury litigation arising out of incidents involving the use of its products. The Company believes that any potential judgments resulting from these claims over its self-insured retention will be covered by the Company's product liability insurance. The Company is also currently a defendant in a patent infringement claim brought by Dräger Medical GmbH and its affiliates related to certain models of the Company's Litholyme and Carbolyne single-use carbon dioxide absorption cartridges. See Part II, Item 1 – Legal Proceedings, below, for more information concerning litigation.

Critical Accounting Policies

The impact and any associated risks related to the Company's critical accounting policies on business operations are discussed throughout "Management's Discussion and Analysis of Financial Condition and Results of Operations," where such policies affect the Company's reported and expected financial results. For a detailed discussion on the application of these and other accounting policies, see the Company's Annual Report on Form 10-K for the year ended June 30, 2013.

Recently Issued Accounting Guidance

See Note 1 – Summary of Significant Accounting and Reporting Policies for more information on recent accounting pronouncements and their impact, if any, on the Company's financial statements. Management believes there have been no material changes to our critical accounting policies.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

At March 31, 2014, the Company did not have any debt outstanding. The revolving credit facility bears an interest rate using the 30-day LIBOR rate as the basis, as defined in the loan agreement, and therefore is subject to additional expense should there be an increase in market interest rates while borrowing on the revolving credit facility.

The Company had no holdings of derivative financial or commodity instruments at March 31, 2014. The Company has international sales; however these sales are denominated in U.S. dollars, mitigating foreign exchange rate fluctuation risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and that such information is accumulated and communicated to the Company's management, including

its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Based upon their evaluation of those controls and procedures performed as of March 31, 2014, the Chief Executive Officer and Chief Financial Officer of the Company concluded that its disclosure controls and procedures were effective.

Changes in internal control over financial reporting

There were no changes in the Company's internal control over financial reporting during the quarter ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

Dräger Medical GmbH, Draeger Medical Systems, Inc. and Draeger Medical Inc. v. Allied Healthcare Products, Inc., filed in the United States District Court for the District of Delaware, Case No. 1:13-cv-01656-SLR. On or about October 4, 2013, Dräger Medical GmbH and certain affiliates (the “Dräger Plaintiffs”) filed a patent infringement lawsuit against Allied in the District of Delaware, asserting that Allied infringes United States Patent Nos. 7,487,776 and 8,286,633, both protecting particular combinations of carbon dioxide absorption cartridges and adapters which fit on anesthesia machines. The Dräger Plaintiffs assert that Allied’s sales of certain models of its Litholyme and Carbolyme single-use carbon dioxide absorption cartridges infringe both patents. Allied has answered the Complaint, asserting invalidity of the patents, non-infringement, and implied license under the doctrine of permissive repair.

On October 25, 2013, the Dräger Plaintiffs filed a motion for preliminary injunction requesting that Allied be enjoined from selling certain models of its Litholyme and Carbolyme cartridges during the pendency of the litigation. A hearing on the motion for preliminary injunction occurred on February 7, 2014. The parties are waiting for the courts’ order in response to the parties motions. On March 24, 2014, the Court ruled in Allied’s favor and denied Dräger’s motion for a preliminary injunction, stating among other things that Dräger had not carried its burden of showing that Allied had infringed Dräger’s patents.

The Company cannot estimate a possible loss or range of loss for this matter because damages claimed by the Dräger Plaintiffs have not been specified and the proceedings are in early stages. The Company intends to defend against any further litigation brought by the Dräger Plaintiffs and pursue counterclaims for invalidity, non-infringement, and implied license.

Item 6. Exhibits

(a) Exhibits:
