BEACON ROOFING SUPPLY, INC.

Notes to Condensed Consolidated Financial Statements

(unaudited; dollars in thousands, except share and per share amounts)

1. Basis of Presentation

Beacon Roofing Supply, Inc. (the “Company”) prepared the condensed consolidated financial statements in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the requirements of the Securities and Exchange Commission (SEC). As permitted under those rules, certain footnotes or other financial information have been condensed or omitted. The balance sheet as of June 30, 2014 has been presented for a better understanding of the impact of seasonal fluctuations on the Company's financial condition.

In management's opinion, the financial statements include all normal and recurring adjustments that are considered necessary for the fair presentation of the Company's financial position and operating results. The results for the three-month period (third quarter) ended June 30, 2015 are not necessarily indicative of the results to be expected for the twelve months ending September 30, 2015 (fiscal year 2015 or “2015”).

The Company's inventories are primarily comprised of finished goods valued at the lower of cost or market (net realizable value). Cost is determined using the moving weighted-average cost method.

The nine-month periods ended June 30, 2015 and June 30, 2014 each had 189 business days, while the three-month periods ended June 30, 2015 and June 30, 2014 each had 64 business days.

These interim Condensed Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and Notes thereto contained in the Company's fiscal year 2014 (“2014”) Annual Report on Form 10-K for the year ended September 30, 2014, collectively referred to as the “2014 Annual Report”.

2. Net Income per Share

Basic net income per common share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing net income by the weighted average number of common shares and dilutive common share equivalents then outstanding using the

treasury stock method. Common equivalent shares consist of the incremental common shares issuable upon the exercise of stock options and vesting of restricted stock awards.

The following table presents the basic and diluted weighted average shares outstanding for each period presented:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2015	2014	2015	2014
Weighted average common shares outstanding	49,638,251	49,315,892	49,526,436	49,185,893
Effect of dilutive securities:				
Stock option awards	475,064	597,218	473,177	636,700
Restricted stock awards	85,811	114,130	90,374	123,788
Shares for diluted earnings per share	50,199,126	50,027,240	50,089,987	49,946,381

The following table includes the number of shares that may be dilutive common shares in the future. These shares were not included in the computation of diluted earnings per share because the effect was either antidilutive or the performance condition was not met.

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2015	2014	2015	2014
Stock options awards	1,328,452	926,693	1,335,952	925,729
Restricted stock awards	—	197,700	2,206	176,700

BEACON ROOFING SUPPLY, INC.**Notes to Condensed Consolidated Financial Statements****(unaudited; dollars in thousands, except share and per share amounts)****3. Comprehensive Income and Capital Structure**

The following table presents the activity included in stockholders' equity during the nine months ended June 30, 2015:

	Common Stock	Additional Paid- In Capital	Retained Earnings	Accumulated Other Comprehensive Income (Loss)	Total Stockholders' Equity
Balance at September 30, 2014	\$ 493	\$ 328,059	\$ 495,128	\$ (6,579)	\$ 817,101
Issuance of common stock	3	5,104	—	—	5,107
Stock-based compensation	—	7,305	—	—	7,305
Net income	—	—	31,470	—	31,470
Other comprehensive loss	—	—	—	(8,529)	(8,529)
Balance at June 30, 2015	\$ 496	\$ 340,468	\$ 526,598	\$ (15,108)	\$ 852,454

Accumulated other comprehensive income (loss) consists of adjustments related to the translation of foreign currencies and fair value adjustments associated with cash flow hedges. The following table presents the changes in accumulated other comprehensive income (loss), by component, during the nine months ended June 30, 2015:

	Foreign Currency Translation	Derivative Financial Instruments	Accumulated Other Comprehensive Income (Loss)
Balance at September 30, 2014	\$ (5,290)	\$ (1,289)	\$ (6,579)
Other comprehensive income (loss) recognized in accumulated other comprehensive income (loss)	(8,413)	(116)	(8,529)
Balance at June 30, 2015	\$ (13,703)	\$ (1,405)	\$ (15,108)

There were no reclassifications out of accumulated other comprehensive income (loss) during the nine months ended June 30, 2015.

4. Stock-Based Compensation

On February 12, 2014, the shareholders of the Company approved the Beacon Roofing Supply, Inc. 2014 Stock Plan (the “2014 Plan”). The 2014 Plan provides for discretionary awards of stock options, stock, stock units and stock appreciation rights (“SARs”) for up to 5,100,000 shares of common stock to selected employees and non-employee directors. As of June 30, 2015, there were 3,425,716 shares of common stock available for awards under the 2014 Plan, subject to increase for shares that are forfeited or expire, or are used for tax withholding on stock awards and stock unit awards under the 2004 Plan (defined below) and the 2014 Plan.

In addition to the 2014 Plan, the Company also maintains the amended and restated Beacon Roofing Supply, Inc. 2004 Stock Plan (the “2004 Plan”). Upon shareholder approval of the 2014 Plan, the Company ceased issuing equity awards from the pre-existing 2004 Plan and all future equity awards will be issued from the 2014 Plan.

The Company recognizes the cost of employee services rendered in exchange for awards of equity instruments based on the fair value of those awards at the date of the grant. Compensation expense for time-based equity awards is recognized, on a straight-line basis, net of forfeitures, over the requisite service period for the fair value of the awards that actually vest. Compensation expense for performance-based equity awards is recognized, net of forfeitures, by projecting the number of restricted units that are expected to vest based on the achievement of the underlying related performance measures.

BEACON ROOFING SUPPLY, INC.**Notes to Condensed Consolidated Financial Statements****(unaudited; dollars in thousands, except share and per share amounts)**

For all equity awards granted prior to October 1, 2014, in the event of a change in control of the Company, all awards are immediately vested. Beginning in fiscal 2015, equity awards contain a “double trigger” change in control mechanism. Unless an award is continued or assumed by a public company in an equitable manner, an award shall become fully vested immediately prior to a change in control (at 100% in the case of a performance-based restricted stock award). If an award is so continued or assumed, vesting will continue in accordance with the terms of the award, unless there is a qualifying termination within one-year following the change in control, in which event the award shall become fully vested immediately (at 100% in the case of a performance-based restricted stock award).

Stock options

Non-qualified options generally expire 10 years after the grant date and, except under certain conditions, the options are subject to continued employment and vest in one-third increments over a three-year period following the grant dates. During the nine months ended June 30, 2015 and 2014, the Company recorded stock-based compensation expense related to stock option awards of \$4.8 million and \$5.2 million, respectively. As of June 30, 2015, there was \$7.3 million of total unrecognized compensation cost related to unvested stock options. That cost is expected to be recognized over a weighted-average period of 1.67 years.

The following table illustrates the assumptions used in the Black-Scholes pricing model for options granted during the nine months ended June 30, 2015:

	2015
Risk-free interest rate	1.83 %
Expected volatility	31.69%
Expected life (in years)	5.58
Expected dividend yield	0.00 %

Expected lives of the options granted are based primarily on historical activity, while expected volatilities are based on historical volatilities of the Company’s stock. Estimated forfeiture rates vary by grant and range up to 8.86% as of June 30, 2015.

Information regarding the Company's stock options is summarized below:

	Number of Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in millions)
Outstanding at September 30, 2014	2,364,211	\$ 22.98		
Granted	482,479	\$ 28.58		
Exercised	(257,838)	\$ 17.71		
Canceled	(73,587)	\$ 29.33		
Outstanding at June 30, 2015	2,515,265	\$ 24.43	6.5	\$ 23.4
Vested or Expected to Vest at June 30, 2015	2,402,902	\$ 24.16	6.4	\$ 23.0
Exercisable at June 30, 2015	1,619,301	\$ 20.72	5.2	\$ 20.7

BEACON ROOFING SUPPLY, INC.**Notes to Condensed Consolidated Financial Statements****(unaudited; dollars in thousands, except share and per share amounts)***Restricted stock awards*

During the nine months ended June 30, 2015 and 2014, the Company recorded stock-based compensation expense related to restricted stock awards of \$2.5 million and none, respectively. As of June 30, 2015, there was \$8.9 million of total unrecognized compensation cost related to unvested restricted stock awards. That cost is expected to be recognized over a weighted-average period of 2.52 years.

The total fair values of the restricted stock awards were determined based upon the number of shares or units and the closing prices of the Company's common stock on the dates of the grants. The restricted stock awards granted to management are subject to continued employment, except under certain conditions, and will vest if the Company attains a targeted rate of return on invested capital at the end of a three-year period. The actual number of shares or units that will vest can range from 0% to 125% of the management grants depending upon actual Company performance below or above the target level and the Company estimates that performance in determining the projected number of shares or units that will vest and the related compensation cost. The restricted stock awards granted to non-employee directors are also subject to continued service, vest at the end of one year (except under certain conditions) and the underlying common shares will not be distributed until six months after the director separates from the Company. Beginning in 2014, the six month period was eliminated and shares will be delivered within ten days after termination of service on the board. In November 2014 and 2013, the Company also issued restricted stock awards that are subject to continued employment and will vest over three to five years.

Information regarding the Company's restricted shares and units is summarized below:

	Number of Shares	Weighted- Average Grant Price	Weighted- Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in millions)
Outstanding at September 30, 2014	482,076	\$ 31.28		
Granted	230,842	\$ 27.97		
Lapse of restrictions/conversions	(67,953)	\$ 19.88		
Canceled	(79,859)	\$ 26.74		

Edgar Filing: BEACON ROOFING SUPPLY INC - Form 10-Q

Outstanding at June 30, 2015	565,106	\$ 32.52	2.6	\$ 17.0
Vested or Expected to Vest at June 30, 2015	339,735	\$ 32.12	3.4	\$ 11.3

5. Acquisitions

In the nine months ended June 30, 2015, the Company acquired eight branches from the following three acquisitions:

On October 1, 2014, the Company purchased certain assets of Applicators Sales & Service (“Applicators”), a distributor of residential roofing, siding, windows and related accessories with four locations in Maine and one location in New Hampshire and annual sales of approximately \$48 million.

On October 15, 2014, the Company purchased certain assets of Wholesale Roofing Supply (“WRS”), a distributor of residential roofing products with a nine-acre facility located in Grand Prairie, Texas and annual sales of approximately \$34 million.

On June 1, 2015, the Company purchased certain assets of ProCoat Systems, Inc. (“ProCoat”), a distributor of residential and commercial exterior building materials including stucco, stone, waterproofing and concrete restoration with branches located in Denver and Ft. Collins, Colorado with annual sales of approximately \$23 million.

The Company preliminarily recorded the acquired assets and liabilities at their estimated fair values at the acquisition date, with resulting goodwill of \$34.2 million (which is not deductible for tax purposes) and \$31.8 million in intangible assets associated with these acquisitions.

Total long-term portion of borrowings under equipment financing facilities	\$ 21,703	\$ 25,614	\$ 17,827

7. Financial Instruments*Financial Derivatives*

The Company uses derivative financial instruments to manage its exposure related to fluctuating cash flows from changes in interest rates. Use of derivative financial instruments in hedging programs subjects the Company to certain

risks, such as market and credit risks. Market risk represents the possibility that the value of the derivative instrument will change. In a hedging relationship, the change in the value of the derivative is offset to a great extent by the change in the value of the underlying hedged item. Credit risk related to derivatives represents the possibility that the counterparty will not fulfill the terms of the contract. The notional, or contractual, amount of the Company's derivative financial instruments is used to measure interest to be paid or received and does not represent the Company's exposure due to credit risk. The Company's current derivative instruments are with large financial counterparties rated highly by nationally recognized credit rating agencies.

The Company uses interest rate derivative instruments to manage the risk related to fluctuating cash flows from interest rate changes by converting a portion of its variable-rate borrowings into fixed-rate borrowings. On March 28, 2013, we entered into an interest rate swap agreement with a notional amount of \$213.8 million that expires on March 31, 2017. This agreement swaps the thirty-day LIBOR to a fixed- rate of 1.38%. The instrument has scheduled reductions of the notional amount equal to \$2.8 million per quarter, effectively matching the repayment schedule under the Term Loan. As of June 30, 2015, the interest rate swap has a notional amount of \$188.4 million.

For derivative instruments designated as cash flow hedges, the Company records the effective portions of changes in their fair value, net of taxes, in other comprehensive income. The effectiveness of the hedges is periodically assessed by the Company during the lives of the hedges by 1) comparing the current terms of the hedges with the related hedged debt to assure they continue to coincide and 2) through an evaluation of the ability of the counterparties to the hedges to honor their obligations under the hedges. Any ineffective portions of the hedges are recognized in earnings through interest expense, financing costs and other.

BEACON ROOFING SUPPLY, INC.**Notes to Condensed Consolidated Financial Statements****(unaudited; dollars in thousands, except share and per share amounts)**

The Company records any differences paid or received on its interest rate hedges as adjustments to interest expense. The table below presents the combined fair values of the interest rate derivative instruments:

Instrument	Balance Sheet Location	June 30, 2015	September 30, 2014	June 30, 2014	Fair Value Hierarchy
Designated interest rate swaps (effective)	Accrued expenses	\$ 2,321	\$ 2,124	\$ 3,202	Level 2
		\$ 2,321	\$ 2,124	\$ 3,202	

The fair values of the interest rate hedges were determined through the use of pricing models, which utilize verifiable inputs such as market interest rates that are observable at commonly quoted intervals (generally referred to as the “LIBOR Curve”) for the full terms of the hedge agreements. These values reflect a Level 2 measurement under the applicable fair value hierarchy.

The table below presents the amounts of gain (loss) on the interest rate derivative instruments recognized in other comprehensive income (OCI):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2015	2014	2015	2014
Amount of gain (loss) recognized in OCI (net of tax)				
Designated interest rate swaps	\$ 182	\$ (222)) \$ (116)) \$ 320

During the three and nine months ended June 30, 2015 and 2014, there were no amounts related to non-designated interest rate derivative instruments which were recognized in interest expense, financing costs and other.

Cash and cash equivalents

The Company considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents. Cash and cash equivalents also include unsettled credit card transactions. Cash equivalents have been comprised of money market funds, which invest primarily in commercial paper or bonds with a rating of A-1 or better, and bank certificates of deposit. The carrying values of the cash equivalents for the periods presented equaled the fair values, which were determined under Level 1 of the Fair Value Hierarchy.

8. Foreign Net Revenue

Foreign (Canadian) net revenue totaled \$56.7 million and \$51.7 million during the three months ended June 30, 2015 and 2014, respectively, and \$122.7 million and \$111.8 million during the nine months ended June 30, 2015 and 2014, respectively.

9. Subsequent Events

On July 27, 2015, BECN announced that it entered into a definitive merger agreement to acquire Roofing Supply Group (“RSG”), a leading roofing products distributor owned by investment firm Clayton, Dubilier & Rice (“CD&R”), in a cash and stock transaction valued at approximately \$1.1 billion. Under the terms of the agreement, RSG shareholders will receive approximately \$286 million in cash and \$291 million of Beacon common stock, and Beacon will refinance approximately \$565 million of RSG's net debt. Beacon will fund the cash portion of the purchase price through a new ABL Revolver, Term Loan B and a senior unsecured bond offering. The transaction is targeted to close on October 1, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion in conjunction with Management's Discussion and Analysis included in our 2014 Annual Report on Form 10-K. Unless otherwise specifically indicated, all references to "2015" refer to the three months (third quarter) and nine months (year-to-date) ended June 30, 2015 of our fiscal year ending September 30, 2015, and all references to "2014" refer to the three months (third quarter) and nine months (year-to-date) ended June 30, 2014 of our fiscal year ended September 30, 2014. Certain tabular information may not foot due to rounding and certain reclassifications are made to prior year sales by product line to conform to the current year presentation.

Overview

Founded in 1928, Beacon Roofing Supply, Inc. (NASDAQ: BECN) is the largest publicly traded distributor of residential and commercial roofing materials and complementary building products, including siding, windows, specialty lumber products, and waterproofing systems for residential and non-residential building exteriors. We purchase products from a large number of manufacturers and then distribute these goods to a customer base consisting of contractors and, to a lesser extent, general contractors, retailers, and building materials suppliers.

As of June 30, 2015, we operated 273 branches throughout the United States and Canada. We stock one of the most extensive assortments of high-quality branded products in the industry with approximately 11,000 SKUs available in inventory, enabling us to deliver products to our customers on a timely basis. In fiscal year 2014, approximately 92% of our net sales were in the United States.

Execution of the operating plan at each of our branches drives our financial results. Revenues are impacted by the relative strength of the residential and non-residential roofing markets we serve. We allow each of our branches to develop its own marketing plan and mix of products based upon its local market. We differentiate ourselves from the competition by providing customer services, including job site delivery, tapered insulation layouts and design and metal fabrication, and by providing credit. We consider customer relations and our employees' knowledge of roofing and exterior building materials to be very important to our ability to increase customer loyalty and maintain customer satisfaction. We invest significant resources in training our employees in sales techniques, management skills and product knowledge. Although we consider these attributes important drivers of our business, we continually pay close attention to controlling operating costs.

Our growth strategy includes both internal growth (opening branches, growing sales with existing customers, adding new customers and introducing new products) and acquisition growth. Our main acquisition strategy is to target market leaders in geographic areas that we do not service or that complement our existing operations in an area. The following transactions highlight our recent success delivering on our growth strategy:

We have continued to focus on organic greenfield growth with the opening of five new branches in 2015, 26 new branches in 2014, 10 new branches in 2013 and four new branches in 2012. These 45 new branch locations in the past 45 months have allowed us to strategically penetrate deeper into many of our existing markets and enter into new markets. Although these new greenfield locations impact our operating cost structure in the near-term, we believe that our greenfields are strategically located within markets with strong dynamics and opportunity to quickly establish our presence and gain local market share.

We have continued to focus on growth through acquisitions in October 2014 and June 2015, with the strategic acquisitions of Applicators Sales & Service, Wholesale Roofing Supply, and ProCoat Systems, Inc.

Applicators Sales & Service is a distributor of residential roofing, siding, windows and related accessories with four locations in Maine and one location in New Hampshire. This acquisition complemented an existing market in which we previously had operations, allowing us to capture more of the localized market share. In addition, Applicators provides us with a high mix of complementary products.

Wholesale Roofing Supply is a distributor of residential roofing products and related accessories with a nine-acre facility located in Grand Prairie, Texas. This acquisition complemented an existing market in which we previously had operations, allowing us to capture more of the localized market share.

ProCoat Systems, Inc. ("ProCoat") is a distributor of residential and commercial exterior building materials including stucco, stone, waterproofing and concrete restoration. This acquisition strengthens our complementary product offerings both to our customers in the Denver and the surrounding markets. This acquisition also will allow Beacon to introduce ProCoat's products to other Beacon locations across the country.

In August 2014, we acquired All Weather Products, a distributor of residential and commercial roofing products and related accessories, with three locations in the western province of British Columbia, Canada. This acquisition complemented an existing market in which we previously had operations, allowing us to capture more of the localized market share.

Results of Operations

The following discussion compares our results of operations for the three and nine months ended June 30, 2015 and 2014.

The following table presents, for the periods indicated, information derived from our consolidated statements of operations expressed as a percentage of net sales for the periods presented. Percentages may not foot due to rounding.

	Three Months Ended June 30,		Nine Months Ended June 30,					
	2015	2014	2015	2014				
Net sales	100.0	%	100.0	%	100.0	%	100.0	%
Cost of products sold	76.4		77.3		76.6		77.2	
Gross profit	23.6		22.7		23.4		22.8	
Operating expenses	16.9		15.8		20.0		19.3	
Income from operations	6.7		6.9		3.4		3.5	
Interest expense, financing costs and other	0.3		0.4		0.5		0.5	
Income before income taxes	6.3		6.5		2.9		3.0	
Income tax expense	2.4		2.5		1.1		1.1	
Net income	3.9	%	4.0	%	1.8	%	1.9	%

In managing our business, we consider all growth, including the opening of new branches, to be internal (organic) growth unless it results from an acquisition. When we refer to growth in existing markets or internal growth, we include growth from existing and newly opened branches but exclude growth from acquired branches until they have been under our ownership for at least four full fiscal quarters at the start of the fiscal reporting period. When we refer to regions, we are referring to our geographic regions. At June 30, 2015, we had a total of 273 branches in operation. Our existing market calculations for the quarter ended June 30, 2015 and YTD 2015 include 263 branches and exclude ten branches because they were acquired after the start of last year. Acquired markets for YTD 2015 include activity from branches acquired under the All Weather Products, Applicators Sales & Service, Wholesale Roofing Supply, and ProCoat acquisitions (See Note 5 to the Condensed Consolidated Financial Statements). When we refer to our net product costs, we are referring to our invoice cost, less the impact of short-term buying programs (also referred to as “special buys” given the manner in which they are offered).

Three Months Ended June 30, 2015 (“2015”) Compared to the Three Months Ended June 30, 2014 (“2014”)

The following table presents a summary of our results of operations for the three months ended June 30, 2015 and 2014, broken down by existing markets and acquired markets.

(dollars in thousands)	Existing Markets		Acquired Markets		Consolidated	
	June 30, 2015	2014	June 30, 2015	2014	June 30, 2015	2014
Net Sales	\$695,854	\$663,397	\$ 22,360	\$ —	\$718,214	\$663,397
Gross Profit	162,762	150,813	6,674	—	169,436	150,813
Gross Margin	23.4 %	22.7 %	29.8 %	—%	23.6 %	22.7 %
Operating Expenses	114,745	105,004	6,700	(1)	121,445	105,004
Operating Expenses, as a % of Net Sales	16.5 %	15.8 %	30.0 %	—%	16.9 %	15.8 %
Operating Income	\$48,017	\$45,809	\$ (26)	\$ —	\$47,991	\$45,809
Operating Margin	6.9 %	6.9 %	-0.1 %	—%	6.7 %	6.9 %

(1) In 2015 and 2014, we recorded amortization expense for our acquired markets related to intangible assets recorded under purchase accounting of \$2.1 million and none, respectively.

Net Sales

Consolidated net sales increased \$54.8 million, or 8.3%, to \$718.2 million during 2015 from \$663.4 million in 2014. Existing market sales increased \$32.5 million, or 4.9%. Net sales within our acquired markets were \$22.4 million in 2015 due to the sales impact from the acquisition in June 2015, the two acquisitions in October 2014, and the acquisition during the fourth quarter of our 2014 fiscal year. The three-month periods ended June 30, 2015 and June 30, 2014 each had 64 business days. We believe our 2015 existing market sales were influenced primarily by the following factors:

increased demand in our residential and complementary products groups;

increased selling prices in our complementary products group; and

five new greenfield branches opened during the first nine months of 2015, combined with 26 additional greenfield branches opened in fiscal 2014;

partially offset by:

lower residential roofing average selling prices; and

challenging weather conditions in several of our geographic markets during the spring.

In 2015, we acquired eight branches (See Note 5 to the Condensed Consolidated Financial Statements), opened five greenfield branches and closed four branches. In 2015, we have estimated the impact of inflation or deflation on our sales and gross profit by looking at changes in our average selling prices and gross margins (discussed below). Average overall selling prices declined approximately 1% to 2% during the third quarter of 2015, compared to the third quarter of 2014, driven primarily by declines in residential selling prices which were down approximately 3%, year over year. These declines were partially offset by continued increases in the average selling prices of complementary products which increased approximately 3% to 4%, year over year. Commercial (non-residential) selling prices remained relatively flat (less than 1% movement). During the same period, average overall product costs decreased by less than 1%. Net product costs for commercial (non-residential) products remained relatively flat (less than 1% movement), net product costs for complementary products increased approximately 2%, and residential net product costs decreased approximately 1% to 2%, year over year. Overall, gross margins in third quarter 2015 improved over prior year driven by improved gross margin in our complementary products group, combined with a favorable shift to higher-margin residential products.

Existing markets net sales by geographical region increased (decreased) as follows: Northeast 12.1%; Mid-Atlantic 0.9%; Southeast 10.4%; Southwest (8.4%); Midwest 7.3%; West 15.2%; and Canada 6.9%. These variations were primarily caused by short-term factors such as local market conditions, weather conditions and storm activity.

Product group sales for our existing markets were as follows:

(dollars in thousands)	June 30, 2015		June 30, 2014		Change
	Sales	Mix	Sales	Mix	

Edgar Filing: BEACON ROOFING SUPPLY INC - Form 10-Q

Residential roofing products	\$346,762	49.8 %	\$317,528	47.9 %	\$29,234	9.2 %
Non-residential roofing products	252,000	36.2 %	249,357	37.6 %	2,643	1.1 %
Complementary building products	97,092	14.0 %	96,512	14.5 %	580	0.6 %
Total existing market sales	\$695,854	100.0 %	\$663,397	100.0 %	\$32,457	4.9 %

For 2015, our acquired markets recognized sales of \$12.7 million, \$0.7 million and \$9.0 million in residential roofing products, non-residential roofing products and complementary building products, respectively. Due to the timing of our acquisitions in 2014, there was no acquired market activity for the prior year comparative period. The 2015 existing market sales of \$695.9 million, plus the sales from acquired markets of \$22.4 million, equals to our reported total 2015 sales of \$718.2 million. We believe the existing market information is useful to investors because it helps explain organic growth or decline.

Gross Profit

Gross profit for consolidated and existing markets were as follows:

(dollars in thousands)	June 30, 2015	June 30, 2014	Change	
Gross profit	\$ 169,436	\$ 150,813	\$ 18,623	12.3 %
Existing markets	162,762	150,813	11,949	7.9 %
Gross margin	23.6 %	22.7 %		0.9 %
Existing markets	23.4 %	22.7 %		0.7 %

Our existing market gross profit increased \$11.9 million, or 7.9% in 2015, while gross profit within our acquired markets was \$6.7 million in 2015. Our overall gross margins improved to 23.6% in 2015, due to improved gross margins within our complementary products group and a favorable shift in sales mix to residential and complementary product sales, which was able to offset the year over year declines in residential product selling prices. Gross margins within our existing markets for 2015 also improved to 23.4%, from 22.7% in 2014.

Direct sales (products shipped by our vendors directly to our customers), which typically have substantially lower gross margins (and operating expenses) compared to our warehouse sales, represented 17.4% and 18.6% of our net sales in 2015 and 2014, respectively. We believe variations in direct sales activity to be primarily caused by short-term factors such as local market conditions, weather conditions and storm activity. None of these variations were driven by material regional impacts from changes in the direct sales mix of our geographical regions.

Operating Expenses

Operating expenses for consolidated and existing markets were as follows:

(dollars in thousands)	June 30, 2015	June 30, 2014	Change	
Operating expenses	\$ 121,445	\$ 105,004	\$ 16,441	15.7%
Existing markets	114,745	105,004	9,741	9.3 %
Operating expenses, as a % of sales	16.9	% 15.8	%	1.1%
Existing markets	16.5	% 15.8	%	0.7%

Operating expense in our existing market increased by \$9.7 million, or 9.3% in 2015, to \$114.7 million, as compared to \$105.0 million in 2014, while operating expense within our acquired markets was \$6.7 million in 2015. The following factors were the leading causes of the increased operating expense in our existing markets:

- as part of our growth strategy, we opened 23 greenfield locations between April 2014 and June 2015, which has driven incremental operating expense of \$4.3 million over the prior year;

- an increase in payroll and employee benefit costs of \$3.5 million due to an increase in variable incentive compensation and increased health care costs; and

- an increase in non-cash stock compensation costs of \$2.5 million due to increased equity grants.

During the third quarter of 2015 and 2014, we recorded \$2.7 million and \$3.5 million, respectively, of expense within our existing markets related to the amortization of intangible assets recorded under purchase accounting. Our existing markets operating expense, as a percentage of the related net sales in 2015 was 16.5%, compared to 15.8% in 2014.

Interest Expense, Financing Costs and Other

Interest expense, financing costs and other was \$2.5 million during the third quarter of 2015 and 2014, respectively. We use derivative financial instruments to manage our exposure related to fluctuating cash flows from changes in interest rates. The impact of our interest rate derivative was to increase our interest expense, financing costs and other by \$0.6 million in both 2015 and 2014.

Nine Months Ended June 30, 2015 (“YTD 2015”) Compared to the Nine Months Ended June 30, 2014 (“YTD 2014”)

The following table presents a summary of our results of operations for the nine months ended June 30, 2015 and 2014, broken down by existing markets and acquired markets.

(dollars in thousands)	Existing Markets		Acquired Markets		Consolidated	
	June 30, 2015	2014	June 30, 2015	2014	June 30, 2015	2014
Net Sales	\$1,673,955	\$1,600,411	\$ 53,485	\$ —	\$1,727,440	\$1,600,411
Gross Profit	388,458	364,510	15,316	—	403,774	364,510
Gross Margin	23.2	% 22.8	% 28.6	% —	23.4	% 22.8
Operating Expenses	328,459	308,826	17,393	(1)	—	345,852
Operating Expenses, as a % of Net Sales	19.6	% 19.3	% 32.5	% —	20.0	% 19.3
Operating Income (Loss)	\$59,999	\$55,684	\$ (2,077))	\$ —	\$57,922
Operating Margin	3.6	% 3.5	% -3.9	% —	3.4	% 3.5

(1) In YTD 2015 and YTD 2014, we recorded amortization expense for our acquired markets related to intangible assets recorded under purchase accounting of \$3.3 million and none, respectively.

Net Sales

Consolidated net sales increased \$127.0 million, or 7.9%, to \$1,727.4 million in YTD 2015 from \$1,600.4 million in YTD 2014. Existing market sales increased \$73.5 million, or 4.6%. Net sales within our acquired markets were \$53.5 million in YTD 2015 due to the sales impact from the acquisition in June 2015, two acquisitions in October 2014 and the acquisition during the fourth quarter of our 2014 fiscal year. The nine-month periods ended June 30, 2015 and June 30, 2014 each had 189 business days. We believe our 2015 existing market sales were influenced primarily by the following factors:

- increased demand in our residential and complementary products groups;

- increased selling prices in our complementary products group; and

- five new greenfield branches opened during the first nine months of 2015, combined with 26 additional greenfield branches opened in fiscal 2014;

partially offset by:

- lower direct sales activity; and

- lower residential roofing average selling prices.

We estimate the impact of inflation or deflation on our sales and gross profit by looking at changes in our average selling prices and gross margins (discussed below). Average overall selling prices declined approximately 1% in YTD 2015, compared to the YTD 2014, driven primarily by declines in residential selling prices which were down by approximately 3%, year over year. These declines were partially offset by continued increases in the average selling prices of complementary products which increased approximately 2% to 3%, year over year. Commercial (non-residential) selling prices remained relatively flat (less than 1% movement). During the same period, net product costs of our residential roofing products decreased approximately 2% to 3%, commercial (non-residential) product costs remained relatively flat (less than 1% movement), and complementary net product costs increased approximately 2%. Overall gross margins increased in YTD 2015 due to an improvement in gross margin in a complementary products group combined with favorable shift in sales mix to higher-margin residential and complementary products.

Existing year-over-year market net sales, by geographical region, increased (decreased) as follows: Northeast 9.3%; Mid-Atlantic 3.1%; Southeast (0.4%); Southwest (9.2%); Midwest 13.6%; West 12.9%; and Canada 7.2%. These

variations were primarily caused by short-term factors such as local market conditions, weather conditions and storm activity.

Product group sales for our existing markets for the year-to-date period ended were as follows:

	June 30, 2015		June 30, 2014		Change	
	Sales	Mix	Sales	Mix		
Residential roofing products	\$814,030	48.6 %	\$755,586	47.2 %	\$58,444	7.7 %
Non-residential roofing products	607,076	36.3 %	604,692	37.8 %	2,384	0.4 %
Complementary building products	252,849	15.1 %	240,133	15.0 %	12,716	5.3 %
Total existing market sales	\$1,673,955	100.0 %	\$1,600,411	100.0 %	\$73,544	4.6 %

In YTD 2015, our acquired markets recognized sales of \$29.8 million, \$2.3 million, and \$21.4 million in residential roofing products, commercial (non-residential) roofing products and complementary building products, respectively. Due to the timing of our acquisitions in 2014, there was no acquired market activity for the prior year comparative period. The YTD 2015 existing market sales of \$1,673.9 million, plus the sales from acquired markets of \$53.5 million, agrees to our reported total YTD 2015 sales of \$1,727.4 million. We believe the existing market information is useful to investors because it helps explain organic growth or decline.

Gross Profit

Gross profit for consolidated and existing markets for the year-to-date period were as follows:

(dollars in thousands)	June 30, 2015		June 30, 2014		Change
Gross profit	\$ 403,774		\$ 364,510		\$ 39,264
Existing markets	388,458		364,510		23,948
Gross margin	23.4	%	22.8	%	0.6%
Existing markets	23.2	%	22.8	%	0.4%

Our existing market gross profit increased \$23.9 million, or 6.6%, in YTD 2015, while gross profit within our acquired markets was \$15.3 million in YTD 2015. Our overall and existing market gross margins increased in YTD 2015 to 23.4% and 23.2%, respectively, from 22.8% and 22.8%, respectively, in YTD 2014. The increased overall gross margins in YTD 2015 were due primarily to pricing increases across our complementary products as a result of increased demand and the impact of our acquisitions in fiscal 2015, combined with a favorable shift in our sales mix during YTD 2015 towards residential and complementary products, which generally have higher gross margins than our commercial (non-residential) products.

Direct sales (products shipped by our vendors directly to our customers), which typically have substantially lower gross margins (and operating expenses) compared to our warehouse sales, represented 16.7% and 19.2% of our net sales during YTD 2015 and YTD 2014, respectively. This decrease in the percentage of direct sales was primarily attributable to the lower mix of commercial (non-residential) roofing product sales, as well as lower roofing sales to lumber yards and other building material suppliers which are more commonly facilitated by direct shipment. There were no material regional impacts from changes in the direct sales mix of our geographical regions.

Operating Expenses

Operating expenses for consolidated and existing markets for the year-to-date period were as follows:

(dollars in thousands)	June 30, 2015	June 30, 2014	Change	
Operating expenses	\$ 345,852	\$ 308,826	\$37,026	12.0%
Existing markets	328,459	308,826	19,633	6.4 %
Operating expenses, as a % of sales	20.0	% 19.3	%	0.7%
Existing markets	19.6	% 19.3	%	0.3%

In YTD 2015, operating expenses in our existing markets increased by \$19.6 million, or 6.4%, to \$328.5 million, as compared to \$308.8 million in YTD 2014, while operating expense within our acquired markets was \$17.4 million in YTD 2015. The following factors were the leading causes of the increased operating expenses in our existing markets:

- as part of our strategic growth strategy, we opened 26 greenfield locations during fiscal 2014 and have added an additional five greenfield branches in the first nine months of 2015, which has driven incremental operating expense of \$15.8 million over the prior year; and

- an increase in payroll and employee benefit costs of \$4.6 million due to an increase in variable incentive compensation and increased health care costs; and

- an increase in non-cash stock compensation costs of \$1.1 million due to increased equity grants.

During YTD 2015 and YTD 2014, we recorded \$8.8 million and \$10.7 million, respectively, of expense within our existing markets related to the amortization of intangible assets recorded under purchase accounting. Our existing market operating expenses as a percentage of the related net sales in YTD 2015 was 19.6%, compared to 19.3% in YTD 2014, primarily due to the continued greenfield activity over the past 21 months and the associated start-up costs.

Interest Expense, Financing Costs and Other

Interest expense, financing costs and other was \$8.0 million in YTD 2015, compared to \$7.7 million in YTD 2014. The impact of our interest rate derivative was to increase our interest expense, financing costs and other by \$1.8 million in YTD 2015 and \$1.9 million in YTD 2014.

Income Taxes

Income tax expense was \$18.5 million in YTD 2015, compared to \$18.3 million in YTD 2014. The increase in expense was due to an increase in pre-tax book income. The effective tax rate is 39.0% in YTD 2015 before discrete items, compared to 39.3% in YTD 2014. The lower rate was primarily due to a lower effective state tax rate in YTD 2015. We currently expect our annual effective tax rate to be approximately 38.5%.

Seasonality and Quarterly Fluctuations

In general, sales and net income are highest during our first, third and fourth fiscal quarters, which represent the peak months of construction and re-roofing, especially in our branches in the northern and mid-western U.S. and in Canada. We have historically incurred low net income levels or net losses during the second quarter when our sales are substantially lower.

We generally experience an increase in inventory, accounts receivable and accounts payable during the third and fourth quarters of the year as a result of the seasonality of our business. Our peak cash usage generally occurs during the third quarter, primarily because accounts payable terms offered by our suppliers typically have due dates in April, May and June, while our peak accounts receivable collections typically occur from June through November.

We generally experience a slowing of our accounts receivable collections during our second quarter, mainly due to the inability of some of our customers to conduct their businesses effectively in inclement weather in certain of our divisions. We continue to attempt to collect those receivables, which require payment under our standard terms. We do not provide material concessions to our customers during this quarter of the year.

Our vendors are also affected by the seasonality in the industry and are more likely to provide seasonal incentives in our second quarter as a result of the lower level of roofing activity. We generally experience our peak working capital needs during the third quarter after we build our inventories following the winter season but before we begin collecting on most of our spring receivables.

Certain Quarterly Financial Data

The following table sets forth certain unaudited quarterly data for fiscal year 2015 (ending September 30, 2015) and fiscal year 2014 which, in the opinion of management, reflect all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of this data. Results of any one or more quarters are not necessarily indicative of results for an entire fiscal year or of continuing trends. Totals may not total due to rounding.

	Fiscal 2015			Fiscal 2014			
	Qtr 1	Qtr 2	Qtr 3	Qtr 1	Qtr 2	Qtr 3	Qtr 4
	(unaudited; dollars in millions, except per share data)

Liquidity and Capital Resources

We had cash and cash equivalents of \$17.6 million at June 30, 2015, compared to \$54.5 million at September 30, 2014 and \$26.4 million at June 30, 2014. Our net working capital was \$439.4 million at June 30, 2015, compared to \$462.1 million at September 30, 2014 and \$431.0 million at June 30, 2014.

2015 Compared to 2014

Our net cash provided by operating activities was \$11.2 million in YTD 2015, compared to cash used in operating activities of \$46.8 million in YTD 2014. Cash from operations increased \$58.0 million, primarily driven by an increase of \$52.0 million related to changes in working capital primarily from decreased inventory levels.

Net cash used in investing activities was \$98.3 million in YTD 2015, compared to \$25.3 million used in YTD 2014. During 2015, we spent \$85.3 million on acquisitions. Capital expenditures were \$13.8 million in YTD 2015, compared to \$26.1 million in YTD 2014. We currently expect fiscal year 2015 capital expenditures to total between 0.75% to 1.0% of net sales, mostly dependent upon our sales volume and the impact of new branch openings.

Net cash provided by financing activities was \$50.6 million in YTD 2015, compared to \$51.5 million in YTD 2014. Net borrowings under the revolving lines of credit were \$16.1 million more in YTD 2015, compared to YTD 2014. In YTD 2015, we had net repayments of \$4.1 million under the equipment financing facilities, whereas in YTD 2014 we had net borrowings of \$11.5 million under the equipment financing facilities. Proceeds from stock option exercises decreased by \$1.8 million in YTD 2015 compared to YTD 2014.

Capital Resources

Our principal source of liquidity at June 30, 2015 was our cash and cash equivalents of \$17.6 million and our available borrowings of \$258.0 million under our revolving lines of credit, which took into account all of the debt covenants under the Credit Facility (see below), including the maximum consolidated total leverage ratio and minimum consolidated interest coverage ratio. Borrowings outstanding under the revolving lines of credit in the accompanying balance sheets were classified as short-term debt since there were no current expectations of a minimum level of outstanding revolver borrowings in the following twelve months.

Liquidity is defined as the current amount of readily available cash and the ability to generate adequate amounts of cash to meet the current needs for cash. We assess our liquidity in terms of our cash and cash equivalents on hand and the ability to generate cash to fund our operating activities, taking into consideration the seasonal nature of our business.

Significant factors which could affect future liquidity include the following:

the adequacy of available bank lines of credit;

the ability to attract long-term capital with satisfactory terms;

cash flows generated from operating activities;

acquisitions; and

capital expenditures.

Our primary capital needs are for working capital obligations and other general corporate purposes, including acquisitions and capital expenditures. Our primary sources of working capital are cash from operations and cash equivalents supplemented by bank borrowings. In the past, we have financed larger acquisitions initially through increased bank borrowings and the issuance of common stock. We then repay any such borrowings with cash flows from operations. We have funded most of our past capital expenditures with cash on hand or through increased bank borrowings, including equipment financing, and then have reduced those obligations with cash flows from operations.

We believe we have adequate current liquidity and availability of capital to fund our present operations, meet our commitments on our existing debt and fund anticipated growth, including expansion in existing and targeted market areas. We seek potential acquisitions from time to time and hold discussions with certain acquisition candidates. If suitable acquisition opportunities or working capital needs arise that would require additional financing, we believe that our financial position and earnings history provide a sufficient base for obtaining additional financing resources at reasonable rates and terms, as we have in the past. We may also issue additional shares of common stock to raise funds, which we last did in December 2005, or we may issue preferred stock.

Indebtedness

We currently have the following credit facilities:

a senior secured credit facility in the United States; and

a Canadian senior secured credit facility.

Senior Secured Credit Facility

On April 5, 2012, we entered into a five-year senior secured credit facility that includes a \$550 million United States credit facility (individually, the “U.S. Credit Facility”) and a CDN\$15 million (\$12.0 million) Canadian credit facility (individually, the “Canadian Revolver”) with Wells Fargo Bank, National Association, and a syndicate of other lenders (combined, the “Senior Secured Credit Facility”). The \$550 million U.S. Credit Facility consists of a revolving credit facility of \$325 million (individually, the “U.S. Revolver”), which includes a sub-facility of \$20 million for letters of credit, and a \$225 million term loan (individually, the “Term Loan”). The Term Loan has required amortization of 5% per year that is payable in quarterly installments, with the balance due on March 31, 2017. The Company may increase the Credit Facility by up to \$200 million under certain conditions. There was CDN\$15.0 million (\$12.0 million) and \$188.4 million outstanding under the Canadian Revolver and Term Loan, respectively, at June 30, 2015. There were \$4.9 million of outstanding standby letters of credit at June 30, 2015. There were no amounts outstanding under the U.S. Revolver at June 30, 2015.

The Credit Facility provides for borrowings under the Company’s U.S. Revolver and Canadian Revolver at a Base Rate. The Base Rate for borrowings under the U.S. Revolver is defined as the higher of the Prime Rate, or the Federal Funds Rate plus 0.50%, plus a margin above that rate. For borrowings made under the Canadian Revolver, the Base Rate is defined as the higher of the Canadian Prime Rate, or the annual rate of interest equal to the sum of the CDOR rate plus 1.00%, plus a margin above that rate. The margin for both base rates is currently 0.75% per annum and can range from 0.50% to 1.50% per annum depending upon the Company’s Consolidated Total Leverage Ratio, as defined in the Credit Facility.

Additionally, for Base Rate borrowings made under the U.S. Revolver, the Company may elect an optional interest rate equal to the one (1), two (2), three (3), or six (6) month LIBOR rate, plus a margin above that rate. In connection with this election, the Company is also required to elect an interest period that corresponds with the underlying LIBOR rate that was elected. The margin is currently 1.75% per annum and can range from 1.50% to 2.50% per annum depending upon the Company’s Consolidated Total Leverage Ratio, as defined in the Credit Facility.

Current unused commitment fees on the revolving credit facilities are 0.38% per annum. The unused commitment fees can range from 0.35% to 0.50% per annum, again depending upon the Company’s Consolidated Total Leverage Ratio.

As of June 30, 2015, outstanding borrowings under the Canadian Revolver carried an interest rate equal to the Canadian Prime rate, plus 0.75% (3.60% at June 30, 2015). Borrowings under the Term Loan carried an interest rate equal to the LIBOR rate, plus 1.75% (1.94% at June 30, 2015).

Financial covenants under the Credit Facility are as follows:

Maximum Consolidated Total Leverage Ratio

On the last day of each fiscal quarter, our Consolidated Total Leverage Ratio (the ratio of our outstanding debt to our trailing twelve-month earnings before interest, income taxes, depreciation, amortization and stock-based compensation), as more fully defined in the Credit Facility, must not be greater than 3.50:1 or 4.00:1 under a one-time request subsequent to an acquisition. At June 30, 2015, this ratio was 2.04:1.

Minimum Consolidated Interest Coverage Ratio

On the last day of each fiscal quarter, our Consolidated Interest Coverage Ratio (the ratio of our trailing twelve-month earnings before interest, income taxes, depreciation, amortization and stock-based compensation to our cash interest expense for the same period), as more fully defined in the Credit Facility, must not be less than 3.00:1. At June 30, 2015 this ratio was 13.19:1.

As of June 30, 2015, we were in compliance with these covenants. Substantially all of our assets, including the capital stock and assets of wholly-owned subsidiaries, secure obligations under the Credit Facility.

Equipment Financing Facilities

As of June 30, 2015, there was a total of \$26.9 million outstanding under our equipment financing facilities, with fixed interest rates ranging from 2.33% to 4.49% and payments due through September 2021. The Company's prior equipment financing facility matured on October 1, 2014.

Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the Private Securities Litigation Reform Act of 1995

Our disclosure and analysis in this report contains forward-looking information that involves risks and uncertainties. Our forward-looking statements express our current expectations or forecasts of possible future results or events, including projections of future performance, statements of management's plans and objectives, future contracts, and forecasts of trends and other matters. You can identify these statements by the fact that they do not relate strictly to historic or current facts and often use words such as "anticipate," "estimate," "expect," "believe," "will likely result," "outlook," "project" and other words and expressions of similar meaning. No assurance can be given that the results in any forward-looking statements will be achieved and actual results could be affected by one or more factors, which could cause them to differ materially. For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act.

Certain factors that may affect our business and could cause actual results to differ materially from those expressed in any forward-looking statements include those set forth under the heading "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended September 30, 2014.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our market risk disclosures set forth in Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" of our 2014 Annual Report on Form 10-K have not changed materially for the first nine months of fiscal 2015.

Item 4. Controls and Procedures

As of June 30, 2015, management, including the CEO and CFO, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Act")). Based on that evaluation, management, including the CEO and CFO, concluded that as of June 30, 2015, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and to ensure that information required to be disclosed by us in the reports that we file or submit under the Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. We maintain a system of internal control over financial reporting that is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States. Based on the most recent evaluation, we have concluded that no significant change in our internal control over financial reporting occurred during the last

fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
