Exchange Act (17 CFR 240.13e-4(c))

Item 2.02. Results of Operations and Financial Condition

Edgar Filing: EASTMAN KODAK CO - Form 8-K

On July 20, 2005, Eastman Kodak Company issued a press release and a supplemental financial discussion document describing its financial results for its second fiscal quarter ended June 30, 2005. Copies of the press release and financial discussion document are attached as Exhibits 99.1 and 99.2, respectively, to this report.

Within the Company's second quarter 2005 press release and financial discussion document, the Company makes reference to certain non-GAAP financial measures including "Earnings from continuing operations, excluding non-operational items", "Earnings from operations, excluding non-operational items", "Earnings from continuing operations, excluding the impact of the non-operational net charges", "Earnings per share, excluding non-operational items", "Free cash flow", "Operating cash flow" and "Investable cash flow", which have directly comparable GAAP financial measures, and to certain calculations that are based on non-GAAP financial measures, including "Days sales outstanding" and "Days supply in inventory." The Company believes that these measures represent important internal measures of performance. Accordingly, where these non-GAAP measures are provided, it is done so that investors have the same financial data that management uses with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year and quarter-sequential basis. Whenever such information is presented, the Company has complied with the provisions of the rules under Regulation G and Item 2.02 of Form 8-K. The specific reasons, in addition to the reasons described above, why the Company's management believes that the presentation of the non-GAAP financial measures provides useful information to investors regarding Kodak's financial condition, results of operations and cash flows are as follows:

Earnings from continuing operations, excluding non-operational items/Earnings from operations, excluding non-operational items/Earnings from continuing operations, excluding the impact of the non-operational net charges/Earnings per share, excluding non-operational items - The Company's management believes that the presentation of earnings from continuing operations, excluding non-operational items/earnings from operations, excluding non-operational items/earnings from continuing operations, excluding the impact of the non-operational net charges/ earnings per share, excluding non-operational items, are important additional measures of performance that can be used for comparing results between reporting periods. These operating measures represent the principle internal measures of performance, and form the basis of internal management performance expectations and certain incentive compensation.

Free cash flow / Operating cash flow / Investable cash flow - The Company believes that the presentation of free cash flow, operating cash flow and investable cash flow is useful information to investors as they facilitate the comparison of cash flows between reporting periods. In addition, management utilizes these measures as tools to assess the Company's ability to repay debt and repurchase its own common stock, after it has satisfied its working capital needs, dividends, and funded capital expenditures, acquisitions and investments. The free cash flow measure equals net cash provided by continuing operations, as determined under Generally Accepted Accounting Principles in the U.S. (U.S. GAAP) minus capital expenditures. The operating cash flow measure equals free cash flow plus proceeds from the sale of assets, minus acquisitions, debt assumed in acquisitions, investments in unconsolidated affiliates, and dividends. The investable cash flow measure equals operating cash flow excluding the impact of acquisitions and debt assumed in acquisitions, and forms the basis of internal management performance expectations and certain incentive

Edgar Filing: EASTMAN KODAK CO - Form 8-K

compensation. Accordingly, the Company believes that the presentation of this information is useful to investors as it provides them with the same data as management uses to facilitate their assessment of the Company's cash position.

Days sales outstanding (DSO) - The Company believes that the presentation of a DSO result that includes the impact of reclassifying rebates as an offset to receivables is useful information to investors, as this calculation is more reflective of the Company's receivables performance and cash collection efforts due to the fact that most customers reduce their actual cash payment to the Company by the amount of rebates owed to them.

Days supply in inventory (DSI) - The Company believes that the presentation of a DSI result that is based on inventory before the LIFO reserve is useful information to investors, as this calculation is more reflective of the Company's actual inventory turns due to the fact that the inventory values in the calculation are based on current cost. The Company also believes that the presentation of a DSI result that is based on a cost of goods sold amount that excludes certain manufacturing-related costs that are considered to be unusual, or that occur infrequently, is useful information to investors, as it is more reflective of the Company's actual inventory performance.

Item 9.01. Financial Statements and Exhibits

(c) Exhibits

Exhibit 99.1	Press release issued July 20, 2005 regarding financial results for the second quarter of 2005	Furnished with this document
Exhibit 99.2	Financial discussion document issued July 20, 2005 regarding financial results for the second quarter of 2005	Furnished with this document

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

EASTMAN KODAK COMPANY
