Item 1.01 Entry into a Material Definitive Agreement

As described in more detail in Item 3.02 of this Current Report on Form

## Edgar Filing: Calibre Energy, Inc. - Form 8-K

8-K, on April 13, 2007 we completed a \$5,000,000 financing through the private placement of 8,000,000 shares of Series A Convertible Preferred Stock ("Series A Preferred") with BlueWater Capital Group, LLC, a Houston, TX-based private investment fund, managed by Prentis B. Tomlinson, Jr., Calibre's Chairman and Chief Executive Officer.

We anticipate that the proceeds from the Series A Preferred will be sufficient to fund our planned capital budget and general and administrative expenditures for the remainder of 2007.

The 8,000,000 shares of Series A Preferred were issued at \$0.625 per share, have a liquidation preference of \$5 million, carry no coupon and are not accompanied by or issued in conjunction with any warrants or options. Each share of the Series A Preferred shall be convertible at the election of the BlueWater Capital Group, LLC into shares of Common Stock based on the ratio required to cause the number of shares of Common Stock issuable upon the conversion of 8,000,000 shares of Series A Preferred Stock to equal 75% of the number of shares of Common Stock then issued and outstanding.

The issuance of the Series A Preferred, which is authorized and designated to have that number of votes equal to 51% of the total votes entitled to be cast by all classes of stock of the Company, results in the holder of the Series A Preferred exercising substantial influence over the outcome of all matters requiring a stockholder vote. The conversion of the Series A Preferred into Common Stock will result in significant dilution to the Company's stockholders and the book value of their shares of the Company's common stock. Accordingly, any investment in the Company's common stock will continue to be highly speculative.

### Item 3.02. Unregistered Sale of Securities

On April 13, 2007, we completed a private placement of 8,000,000 Series A Convertible Preferred Shares with BlueWater Capital Group, LLC, a private investment group managed by our Chairman, CEO and President Prentis B. Tomlinson, Jr. in exchange for net proceeds of \$5,000,000 of which \$1,000,000 has been received by Calibre and the remaining \$4,000,000 has been structured as a note payable to the Calibre in monthly increments of \$800,000 over the next 5 months. The Series A Preferred has that number of votes equal to 51% of the total votes entitled to be cast by all outstanding capital stock. After the receipt of the total proceeds, the preferred shares may be convertible, at the election of the Holder, into a fixed amount of common stock, equal to 75% of total outstanding shares of common stock at the time of conversion.

Each holder of shares of Series A Convertible Preferred Stock shall be entitled at the election of the holder to cause any or all of such shares to be converted into shares of Common Stock on the basis of the Conversion Ratio then in effect, provided, however, that the conversion of the Series A Convertible Preferred Stock shall not be effective until the Articles of Incorporation of the Company have been amended to increase the number of authorized shares of Common Stock to at least 200,000,000 shares (the "Amendment"). Each share of Series A Convertible Preferred Stock shall be convertible into shares of Common Stock based on the ratio required to cause the number of shares of Common Stock issuable upon the conversion of 8,000,000 shares of Series A Preferred Stock to equal 75% of the number of shares of Common Stock then issued and outstanding after the conversion (the "Conversion Ratio").

The Series A Preferred are not entitled to receive any dividends unless dividends are declared and paid by us on the Company's Common Stock. If we pay dividends on our Common Stock, then each holder of a share of Series A Convertible Preferred Stock shall be entitled to receive the amount of dividends such holder would have received if its shares of Series A Convertible Preferred Stock had already been converted into shares of Common Stock. The Series A

## Edgar Filing: Calibre Energy, Inc. - Form 8-K

Preferred were not issued in conjunction with any warrants.

Prior to conversion, the Series A Preferred has a liquidation preference equal to \$5 million. In the event of any liquidation, dissolution or winding up of Calibre, either voluntary or involuntary (a "liquidation event"), a holder of the Series A Convertible Preferred Stock shall be entitled to receive out of our assets, prior to the holders of the Common Stock and the holders of Preferred Stock with rights junior to the Series A Preferred, for each share of Series A Convertible Preferred Stock held by such holder, \$.625 per share (the "Liquidation Preference").

### Item 3.03 Material Modification to Rights of Security Holders

The voting power of each share of Series A Convertible Preferred Stock shall be equal to the number of votes required to cause the aggregate of the votes entitled to be cast by all of the issued and outstanding Series A Convertible Preferred Stock to equal 51% of all votes entitled to be cast by all our classes of stock. The Series A Convertible Preferred Stock shall be entitled to vote on any and all matters brought to a vote of holders of Common Stock. Holders of Series A Convertible Preferred Stock shall be entitled to notice of all shareholder meetings or written consents with respect to which they would be entitled to vote, which notice would be provided to the holders of the Common Stock pursuant to the Company's Bylaws and applicable statutes.

On April 13, 2007, our board of directors approved an amendment to Section 9 the Company's bylaws, pursuant to Nevada law, which state that any action required to be taken at a meeting of the stockholders, or any other action which may be taken at a meeting of the stockholders, may be taken without a meeting if a consent in writing setting forth the action so taken shall be signed by those stockholders holding the number of votes necessary to approve the taking of such action at a meeting at which all stockholders entitled to vote with respect to the subject matter thereof were present and voting, and such consent shall have the same force and effect as a vote at a meeting.

### Item 5.05 Changes in Control of Registrant

The issuance of the Series A Preferred, which is authorized and designated to carry 51% of the of all votes entitled to be cast by all classes of stock of the Company, results in the holder of the Series A Preferred exercising substantial influence over the outcome of all matters requiring a stockholder vote. The conversion of the Series A Preferred into Common Stock will result in significant dilution to the Company's stockholders and the book value of their shares of the Company's common stock.

As a result the holder or holders of Series A Convertible Preferred Stock may have the ability to influence significantly any decisions relating to:

- o elections to our board of directors;
- o amendments to our certificate of incorporation;
- o the outcome of any corporate transaction or other matter submitted to our stockholders for approval, including mergers, consolidations and the sale of all or substantially all of our assets; and
- o a change of control of Calibre (which may have the effect of discouraging third party offers to acquire Calibre).
