ITEM 5. OTHER EVENTS

On December 21, 2001, we entered into an Asset Purchase Agreement with Grupo Industrial Cierres Ideal, S.A. de C.V., Talon, Inc. and Industrias Unidas, S.A. de C.V. Pursuant to the Asset Purchase Agreement, we acquired from Talon and Grupo Industrial: (1) certain inventory and equipment, (2) all patents held by Talon and (3) all of Talon's rights to its trade names and trademarks bearing the TALON(R)name. In addition, the Asset Purchase Agreement terminated that certain 10-year exclusive license and distribution agreement, dated as of April 3, 2000 by and among us, Grupo Industrial and Talon.

Under the Asset Purchase Agreement, we issued to Talon 500,000 shares of our common stock, par value \$0.001 per share, a promissory note in the amount of \$4,900,000 and \$100,000 in cash held in escrow. The Asset Purchase Agreement required Talon to place 50,000 shares of our common stock and \$100,000 in escrow for a period of 12 months to satisfy any indemnification claims we may have under the Asset Purchase Agreement. The common stock was issued at the market value of our stock on the date of closing. The promissory note is unsecured, bears interest at prime plus 2% and is subordinated to our obligations under our senior credit facility with UPS Capital Global Trade Finance Corporation. In connection with

the Asset Purchase Agreement we also entered into a mutual release with Talon and Grupo Industrial pursuant to which Talon and Grupo Industrial released us

Edgar Filing: TAG IT PACIFIC INC - Form 8-K

from our obligations under a promissory note and other current liabilities under the Exclusive License and Distribution Agreement. Further, 850,000 shares of our series B convertible preferred stock held by Grupo Industrial were cancelled at the closing of the Asset Purchase Agreement.

The Asset Purchase Agreement, Promissory Note, Stockholders Agreement, Mutual Release and Escrow Agreement are attached as Exhibit 99.1, Exhibit 99.2, Exhibit 99.3, Exhibit 99.4 and Exhibit 99.5, respectively, to this Form 8-K. A copy of the press release published by us in connection with these agreements and dated January 7, 2002 is attached as Exhibit 99.6 to this Form 8-K. Exhibits 99.1, 99.2, 99.3, 99.4, 99.5 and 99.6 are incorporated herein by this reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on behalf of the undersigned hereunto duly authorized.

EXHIBIT LIST

- Exhibit 99.1 Asset Purchase Agreement, dated as of December 21, 2001, among Tag-It Pacific, Inc. Grupo Industrial Cierres Ideal, S.A. de C.V., Talon Inc. and Industrias Unidas, S.A. de C.V.
- Exhibit 99.2 Promissory Note, dated as of December 21, 2001, by Tag-It Pacific, Inc. for the benefit of Talon, Inc.
- Exhibit 99.3 Stockholders Agreement, dated as of December 21, 2001, among Tag-it Pacific, Inc. and Talon, Inc.
- Exhibit 99.4 Mutual Release, dated as of December 21, 2001, among Tag-It Pacific, Inc, Etic Art S.A. de C.V. and Cierres Ideal De Mexico, S.A. DE C.V.
- Exhibit 99.5 Escrow Agreement, dated as of December 21, 2001, among Tag-It Pacific, Inc., Talon, Inc and Wells Fargo Bank, National Association.
- Exhibit 99.6 Press Release issued by Tag-It Pacific, Inc. on January 7, 2001.

Page 3

Other

6,483 10,619 \$82,510 \$114,201

Major Customers

Net sales to major customers for the three months ended March 31, 2014 and 2015 were as follows (in thousands, except for percentages):

	Three Months Ended March 31,			
	2014	2015	2014	2015
	Amount	Percentage of Net Sales	Amount	Percentage of Net Sales
Wal-Mart	\$ 18,732	22.7%	\$ 29,806	26.1%
Target	10,005	12.1	12,132	10.6
Toys 'R' Us	12,554	15.2	9,496	8.3
	\$ 41,291	50.0%	\$ 51,434	45.0%

No other customer accounted for more than 10% of the Company's total net sales.

At December 31, 2014 and March 31, 2015, the Company's three largest customers accounted for approximately 29.8% and 31.1% respectively, of net accounts receivable. The concentration of the Company's business with a relatively small number of customers may expose the Company to material adverse effects if one or more of its large customers were to experience financial difficulty. The Company performs ongoing credit evaluations of its top customers and maintains an allowance for potential credit losses.

JAKKS PACIFIC, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 3 — Inventory

Inventory, which includes the ex-factory cost of goods, in-bound freight, duty and capitalized warehouse costs, is valued at the lower of cost (first-in, first-out) or market, net of inventory obsolescence reserve, and consists of the following (in thousands):

	December 31, 2014	March 31, 2015
Raw materials	\$ 1,040	\$ 1,002
Finished goods	77,787	78,472
	\$ 78,827	\$ 79,474

Note 4 — Revenue Recognition and Reserve for Sales Returns and Allowances

Revenue is recognized upon the shipment of goods to customers or their agents, depending upon terms, provided there are no uncertainties regarding customer acceptance, the sales price is fixed or determinable and collectability is reasonably assured and not contingent upon resale.

Generally, the Company does not allow product returns. It provides its customers a negotiated allowance for breakage or defects, which is recorded when the related revenue is recognized. However, the Company does make occasional exceptions to this policy and consequently accrues a return allowance based upon historic return amounts and management estimates. The Company occasionally grants credits to facilitate markdowns and sales of slow moving merchandise. These credits are recorded as a reduction of gross sales at the time of occurrence.

The Company also participates in cooperative advertising arrangements with some customers, whereby it allows a discount from invoiced product amounts in exchange for customer purchased advertising that features the Company's products. Typically, these discounts range from 1% to 6% of gross sales, and are generally based upon product purchases or specific advertising campaigns. Such amounts are accrued when the related revenue is recognized or when the advertising campaign is initiated. These cooperative advertising arrangements are accounted for as direct selling expenses.

The Company's reserve for sales returns and allowances amounted to \$24.5 million as of December 31, 2014, compared to \$17.6 million as of March 31, 2015. This decrease is primarily due to certain customers taking their year-end allowances related to 2014 sales during 2015.

JAKKS PACIFIC, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 5 — Credit Facility

In March 2014, the Company and its domestic subsidiaries entered into a secured credit facility with General Electric Capital Corporation (the “GE Loan Agreement”). The GE Loan Agreement provides for a \$75.0 million revolving credit facility subject to availability based on prescribed advance rates on certain accounts receivable and inventory. The amounts outstanding under the revolving credit facility are payable in full upon maturity of the revolving credit facility on March 27, 2017. The revolving credit facility is secured by a security interest in favor of the lender covering a substantial amount of the assets of the Company. The amount outstanding on the revolving credit facility as of March 31, 2015 is nil; the total borrowing capacity was approximately \$21.4 million.

The Company’s ability to borrow under the GE Loan Agreement is also subject to its ongoing compliance with certain financial covenants, including that the Company and its domestic subsidiaries maintain a fixed charge coverage ratio of at least 1.2:1.0 based on (i) the trailing three quarters as of September 30, 2014; and (ii) the trailing four quarters as of December 31, 2014 and thereafter.

The GE Loan Agreement allows the Company to borrow under the revolving credit facility at LIBOR or at a base rate, plus applicable margins of 325 basis point spread over LIBOR and 225 basis point spread on base rate loans. In addition to standard fees, the revolving credit facility has an unused line fee based on the unused amount of the credit facility, ranging from 38.5 to 62.5 basis points. As of March 31, 2015, the rate on the revolving credit facility was 0.625%.

The GE Loan Agreement also contains customary events of default, including a cross default provision and a change of control provision. In the event of a default, all of the obligations of the Company and its subsidiaries under the GE Loan Agreement may be declared immediately due and payable. For certain events of default relating to insolvency and receivership, all outstanding obligations become due and payable.

As of March 31, 2015, the Company was in compliance with the financial covenants under the GE Loan Agreement. In the event the Company fails to meet any of the financial covenants or any other covenants under the GE Loan Agreement in the future, the lender could declare an event of default, which could have a material adverse effect on the Company’s financial condition and results of operations. The Company would be required to obtain amendments and/or waivers or renegotiate the GE Loan Agreement with its lender. However there is no assurance that the lender will grant any waiver or agree to an amendment or renegotiation of the GE Loan Agreement. Any such amendment or waiver will likely require payment of a fee, result in higher interest rates on outstanding loan amounts and/or impose other restrictions. If the lender does not agree to a waiver and/or amendment and determine an event of default has occurred, the lender may accelerate all obligations of the Company under the GE Loan Agreement, demand immediate repayment of all obligations, and/or terminate all commitments to extend further credit under the GE Loan Agreement. If access to our credit facility is limited or terminated, liquidity could be constrained, which might affect the Company’s operations and growth prospects, and the Company might need to seek additional equity or debt financing. There is no assurance that such alternative financing would be available on acceptable terms or at all. Furthermore, any equity financing could result in dilution to existing stockholders and any debt financing might include restrictive covenants that could impede the Company’s ability to effectively operate and grow its business in the future.

Note 6 — Convertible Senior Notes

In November 2009, the Company sold an aggregate of \$100.0 million principal amount of 4.50% Convertible Senior Notes due 2014 (the “2014 Notes”). The 2014 Notes were senior unsecured obligations of the Company, paid cash interest semi-annually at a rate of 4.50% per annum and matured on November 1, 2014. In July 2013, the Company repurchased an aggregate of \$61.0 million principal amount of the 2014 Notes at par plus accrued interest with a portion of the net proceeds from the issuance of \$100.0 million principal amount of 4.25% convertible senior notes due 2018 resulting in a gain on extinguishment of \$0.1 million, and as of November 1, 2014, the Company paid the outstanding balance of \$39.0 million related to the 2014 Notes.

Accounting Standards Codification (“ASC”) 470-20, “Debt with Conversion and Other Options,” requires the issuer of certain convertible debt instruments that may be settled in cash (or other assets) upon conversion to separately account for the liability (debt) and equity (conversion option) components of the instrument in a manner that reflects the issuer's non-convertible debt borrowing rate. In accordance with ASC 470-20, the Company allocated \$13.7 million of the original \$100.0 million principal amount of the 2014 Notes to the equity component, which represented a discount to the debt that was amortized to interest expense through November 1, 2014. Interest expense associated with the amortization of the discount was \$0.3 million for the three months ended March 31, 2014.

In July 2013, the Company sold an aggregate of \$100.0 million principal amount of 4.25% Convertible Senior Notes due 2018 (the “2018 Notes”). The 2018 Notes are senior unsecured obligations of the Company paying interest semi-annually in arrears on August 1 and February 1 of each year at a rate of 4.25% per annum and will mature on August 1, 2018. The initial conversion rate for the 2018 Notes is 114.3674 shares of JAKKS common stock per \$1,000 principal amount of notes, equivalent to an initial conversion price of approximately \$8.74 per share of common stock, subject to adjustment in certain events. Upon conversion, the 2018 Notes will be settled in shares of the Company’s common stock. Holders of the 2018 Notes may require that the Company repurchase for cash all or some of their notes upon the occurrence of a fundamental change (as defined in the 2018 Notes). The Company used \$61.0 million of the approximately \$96.0 million in net proceeds from the offering to repurchase at par \$61.0 million principal amount of the 2014 Notes. The remainder of the net proceeds has been, and will be, used for general corporate purposes.

In June 2014, the Company sold an aggregate of \$115.0 million principal amount of 4.875% Convertible Senior Notes due 2020 (the “2020 Notes”). The 2020 Notes are senior unsecured obligations of the Company paying interest semi-annually in arrears on June 1 and December 1 of each year at a rate of 4.875% per annum and will mature on June 1, 2020. The initial conversion rate for the 2020 Notes is 103.7613 shares of our common stock per \$1,000 principal amount of notes, equivalent to an initial conversion price of approximately \$9.64 per share of common stock, subject to adjustment in certain events. Upon conversion, the 2020 Notes will be settled in shares of the Company’s common stock. Holders of the 2020 Notes may require that the Company repurchase for cash all or some of their notes upon the occurrence of a fundamental change (as defined in the 2020 Notes). The Company received net proceeds of approximately \$110.4 million from the offering of which \$24.0 million was used to repurchase 3.1 million shares of the Company’s common stock under a prepaid forward purchase contract and \$39.0 million was used to redeem the remaining outstanding principal amount of the 2014 Notes at maturity. The remainder of the net proceeds will be used for general corporate purposes.

The fair value of the 2018 Notes as of December 31, 2014 and March 31, 2015 was approximately \$96.3 million and \$96.4 million, respectively, based upon the most recent quoted market price. The fair value of the 2020 Notes as of December 31, 2014 and March 31, 2015 was approximately \$100.9 million and \$101.9 million, respectively, based upon the most recent quoted market price. The fair value of the convertible senior notes is considered to be a Level 2 measurement on the fair value hierarchy.

Note 7 — Income Taxes

The Company's income tax expense of \$0.4 million for the three months ended March 31, 2015 reflects an effective tax rate of (5.97%). The Company's income tax benefit of \$0.5 million for the three months ended March 31, 2014 reflects an effective tax rate of 2.88%. The majority of the provision relates to foreign taxes.

JAKKS PACIFIC, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 8 — Loss Per Share

The following table is a reconciliation of the weighted average shares used in the computation of loss per share for the periods presented (in thousands, except per share data):

	Three Months Ended March 31,		Per-Share	2015		Per-Share
	Loss	2014 Weighted Average Shares		Loss	Weighted Average Shares	
Loss per share – basic and diluted						
Net loss available to common stockholders	\$ (16,305)	22,003	\$ (0.74)	\$ (7,581)	19,090	\$ (0.40)

Basic earnings per share is calculated using the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated using the weighted average number of common shares and common share equivalents outstanding during the period (which consist of warrants, options and convertible debt to the extent they are dilutive). The weighted average number of common shares outstanding excludes shares repurchased pursuant to a prepaid forward share repurchase agreement (See Note 9). Common share equivalents that could potentially dilute basic earnings per share in the future, which were excluded from the computation of diluted loss per share, totaled approximately 2,894,667 and 2,613,433 for the three months ended March 31, 2014 and 2015, respectively. Convertible notes interest and related common share equivalents excluded from the diluted earnings per share calculation due to being anti-dilutive were approximately 14,193,366 shares and 23,469,568 shares for the three months ended March 31, 2014 and 2015, respectively.

JAKKS PACIFIC, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 9 — Common Stock and Preferred Stock

The Company has 105,000,000 authorized shares of stock consisting of 100,000,000 shares of \$.001 par value common stock and 5,000,000 shares of \$.001 par value preferred stock.

In June 2014, the Company effectively repurchased 3,112,840 shares of its common stock at an average cost of \$7.71 per share for an aggregate amount of \$24.0 million pursuant to a prepaid forward share repurchase agreement entered into with Merrill Lynch International (“ML”). These repurchased shares are treated as retired for basic and diluted EPS purposes although they remain legally outstanding. The Company reflects the aggregate purchase price of its common shares repurchased as a reduction to stockholders’ equity allocated to common stock and additional paid-in capital. No shares have been delivered to the Company by ML as of March 31, 2015.

In January 2015, the Company issued an aggregate of 525,734 shares of restricted stock at a value of approximately \$3.6 million to two executive officers, which vest, subject to certain company financial performance criteria, over a one to three year period. In addition, an aggregate of 73,855 shares of restricted stock were issued to its five non-employee directors, which vest in January 2016, at an aggregate value of approximately \$0.5 million.

All issuances of common stock, including those issued pursuant to stock option and warrant exercises, restricted stock grants and acquisitions, are issued from the Company’s authorized but not issued and outstanding shares.

JAKKS PACIFIC, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 10 — Business Combinations

In July 2012, the Company acquired all of the stock of Maui, Inc., an Ohio corporation, Kessler Services, Inc., a Nevada corporation, and A.S. Design Limited, a Hong Kong corporation (collectively, “Maui”). The total initial consideration of \$37.6 million consisted of \$36.2 million in cash and the assumption of liabilities in the amount of \$1.4 million. In addition, the Company agreed to pay an earn-out of up to an aggregate amount of \$18.0 million in cash over the three calendar years following the acquisition based on the achievement of certain financial performance criteria. The fair value of the expected earn-out of \$16.0 million was accrued and recorded as goodwill as of the acquisition date. All future changes to the earn-out liability will be credited to income. Maui did not achieve the prescribed earn-out targets for 2013 or 2014, therefore, \$6.0 million and \$5.9 million, respectively, was credited to other income in the fourth quarter of 2013 and third quarter of 2014. Maui is a leading manufacturer and distributor of spring and summer activity toys and impulse toys and was included in the Company’s results of operations from the date of acquisition.

JAKKS PACIFIC, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 11 — Joint Ventures

The Company owns a fifty percent interest in a joint venture (“Pacific Animation Partners”) with the U.S. entertainment subsidiary of a leading Japanese advertising and animation production company. The joint venture was created to develop and produce a boys’ animated television show, which it licenses worldwide for television broadcast as well as consumer products. The Company is producing and marketing toys based upon the television program under a license from the joint venture. The joint venture has also licensed certain other merchandising rights to third parties. The Company is responsible for fifty percent of the operating expenses of the joint venture and thirty-one percent of the production costs of the television show. The joint venture completed and delivered 65 episodes of the show, which began airing in February 2012, and has since ceased production of the television show. The Company’s investment is being accounted for using the equity method. For the three months ended March 31, 2014 and 2015, the Company recognized income of \$0.3 million and nil from the joint venture, respectively, including producer fees and royalty income from the joint venture in the amount of \$0.2 million and nil for the respective quarters.

As of December 31, 2014 and March 31, 2015, the balance of the investment in the Pacific Animation Partners joint venture includes the following components (in thousands):

	December 31, 2014	March 31, 2015
Capital contributions	\$ 3,856	\$ 3,856
Equity in cumulative net loss	(3,856)	(3,856)
Investment in joint venture	\$ —	\$ —

In September 2012, the Company entered into a joint venture (“DreamPlay Toys”) with NantWorks LLC (“NantWorks”) in which it owns a fifty percent interest. Pursuant to the operating agreement of DreamPlay Toys, the Company paid to NantWorks cash in the amount of \$8.0 million and issued NantWorks a warrant to purchase 1.5 million shares of the Company’s common stock at a value of \$7.0 million in exchange for the exclusive right to arrange for the provision of the NantWorks recognition technology platform for toy products. The Company has classified these rights as an intangible asset and is amortizing the asset over the anticipated revenue stream from the exploitation of these rights. The joint venture entered into a Toy Services Agreement with an initial term of three years expiring on October 1, 2015 and a renewal period at the option of the Company expiring October 1, 2018, subject to the achievement of certain financial targets, to develop and produce toys utilizing recognition technologies owned by NantWorks. Pursuant to the terms of the Toy Services Agreement, NantWorks is entitled to receive a preferred return based upon net sales of DreamPlay Toys product sales and third-party license fees. The accrued preferred return for NantWorks was approximately \$50,000 and \$36,472 for the three months ended March 31, 2014 and 2015, respectively. The Company retains the financial risk of the joint venture and is responsible for the day-to-day operations, including development, sales and distribution, for which it is entitled to receive any remaining profit or is responsible for any losses, and the results of operations of the joint venture are consolidated with the Company’s results. Sales of DreamPlay Toys products commenced in the third quarter of 2013.

In addition, the Company purchased for \$7.0 million in cash a five percent economic interest in a related entity, DreamPlay, LLC, that will exploit the proprietary recognition technologies in non-toy consumer product categories. NantWorks has the right to repurchase the Company’s interest for \$7.0 million. The Company has classified this

investment as a long term asset on its balance sheet and is accounting for it using the cost method. As of March 31, 2015 the Company determined that the value of this investment will be realized and that no impairment has occurred.

In November 2014, the Company entered into a joint venture with Meisheng Culture & Creative Corp., for the purpose of providing certain JAKKS licensed and non-licensed toys and consumer products to agreed upon territories of the People's Republic of China. The joint venture includes a subsidiary in the Shanghai Free Trade Zone that is expected to sell, distribute and market these products, which can include dolls, plush, role play products, action figures, costumes, seasonal items, technology and app-enhanced toys and many more, based on top entertainment licenses and JAKKS' own proprietary brands. The Company owns fifty-one percent of the joint venture. Only minimal expenses were incurred in 2015 and the non-controlling interest's share of the losses from the joint venture for the three months ended March 31, 2015 was immaterial.

JAKKS PACIFIC, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 12 — Goodwill

The changes to the carrying amount of goodwill as of December 31, 2014 and March 31, 2015 are as follows (in thousands):

	Traditional Toys and Electronics	Role Play, Novelty and Seasonal Toys	Total
Balance at December 31, 2014	\$ 24,881	\$ 19,611	\$ 44,492
Adjustments to goodwill for foreign currency translation	(280)	—	(280)
Balance, March 31, 2015	\$ 24,601	\$ 19,611	\$ 44,212

The Company applies a fair value-based impairment test to the carrying value of goodwill and indefinite-lived intangible assets on an annual basis and, if certain events or circumstances indicate that an impairment loss may have been incurred, on an interim basis. The analysis of potential impairment of goodwill requires a two-step process. The first step is the estimation of fair value. If step one indicates that an impairment potentially exists, the second step is performed to measure the amount of impairment, if any. Goodwill impairment exists when the estimated fair value of goodwill is less than its carrying value. There was no goodwill impairment during the three months ended March 31, 2014 and 2015.

Note 13 — Intangible Assets Other Than Goodwill and Other Assets

Intangible assets other than goodwill and other assets consist primarily of licenses, product lines, customer relationships and trademarks. Amortized intangible assets are included in Intangibles in the accompanying balance sheets. Trademarks are disclosed separately in the accompanying balance sheets. Debt offering costs from the issuance of the Company's convertible senior notes are included in Other Long Term Assets in the accompanying balance sheets. Intangible assets and debt issuance costs as of December 31, 2014 and March 31, 2015 are as follows (in thousands, except for weighted useful lives):

	Weighted Useful Lives (Years)	December 31, 2014			March 31, 2015		
		Gross Carrying Amount	Accumulated Amortization	Net Amount	Gross Carrying Amount	Accumulated Amortization	Net Amount
Amortized Intangible Assets:							
Licenses	4.96	\$ 91,488	\$ (85,113)	\$ 6,375	\$ 91,488	\$ (85,269)	\$ 6,219
Product lines	5.84	66,594	(27,235)	39,359	66,594	(28,463)	38,131
Customer relationships	5.21	9,348	(7,831)	1,517	9,348	(7,976)	1,372
Trade names	5.00	3,000	(1,450)	1,550	3,000	(1,600)	1,400
Non-compete/Employment contracts	3.90	3,333	(3,230)	103	3,333	(3,240)	93
Total amortized intangible assets		173,763	(124,859)	48,904	173,763	(126,548)	47,215
Deferred Costs:							
Debt issuance costs	4.01	14,923	(6,418)	8,505	14,923	(6,967)	7,956
Unamortized Intangible Assets:

Note 15 — Litigation

On July 25, 2013, a purported class action lawsuit was filed in the United States District Court for the Central District of California captioned Melot v. JAKKS Pacific, Inc. et al., Case No. CV13-05388 (JAK) against Stephen G. Berman, Joel M. Bennett (collectively the "Individual Defendants"), and the Company (collectively, "Defendants"). On July 30, 2013, a second purported class action lawsuit was filed containing similar allegations against Defendants captioned Dylewicz v. JAKKS Pacific, Inc. et al., Case No. CV13-5487 (OON). The two cases (collectively, the "Class Action") were consolidated on December 2, 2013 under Case No. CV13-05388 JAK (SSx) and lead plaintiff and lead counsel appointed. On January 17, 2014, Plaintiff filed a consolidated class action complaint (the "First Amended Complaint") against Defendants which alleged that the Company violated Section 10(b) of the Securities Exchange Act and Rule 10b-5 promulgated thereunder by making false and/or misleading statements concerning Company financial projections and performance as part of its public filings and earnings calls from July 17, 2012 through July 17, 2013. Specifically, the First Amended Complaint alleged that the Company's forward looking statements, guidance and other public statements were false and misleading for allegedly failing to disclose (i) certain alleged internal forecasts, (ii) the Company's alleged quarterly practice of laying off and rehiring workers, (iii) the Company's alleged entry into license agreements with guaranteed minimums the Company allegedly knew it was unable to meet; and (iv) allegedly poor performance of the Monsuno and Winx lines of products after their launch. The First Amended Complaint also alleged violations of Section 20(a) of the Exchange Act by Messrs. Berman and Bennett. The First Amended Complaint sought compensatory and other damages in an undisclosed amount as well as attorneys' fees and pre-judgment and post-judgment interest. The Company filed a motion to dismiss the First Amended Complaint on February 17, 2014, and the motion was granted, with leave to replead. A Second Amended Complaint ("SAC") was filed on July 8, 2014 and it set forth similar allegations to those in the First Amended Complaint about discrepancies between internal projections and public forecasts and the other allegations except that the claim with respect to guaranteed minimums that the Company allegedly knew it was unable to meet was eliminated. The Company filed a motion to dismiss the SAC and that motion was granted with leave to replead. A Third Amended Complaint ("TAC") was filed on March 23, 2015 with similar allegations. The foregoing is a summary of the pleadings and is subject to the text of the pleadings which are on file with the Court. We believe that the claims in the Class Action are without merit, and we intend to defend vigorously against them. However, because the Class Action is in a preliminary stage, we cannot assure you as to its outcome, or that an adverse decision in such action would not have a material adverse effect on our business, financial condition or results of operations.

On February 25, 2014, a shareholder derivative action was filed in the Central District of California by Advanced Advisors, G.P. against the Company, nominally, and against Messrs. Berman, Bennett, Miller, Skala, Glick, Ellin, Almagor, Poulsen and Reilly and Ms. Brodsky (Advanced Partners, G.P., v. Berman, et al., CV14-1420 (DSF)). On March 6, 2014, a second shareholder derivative action alleging largely the same claims against the same defendants was filed in the Central District of California by Louisiana Municipal Police Employees Retirement System (Louisiana Municipal Police Employees Retirement System v. Berman et al., CV14-1670 (GHF)). On April 17, 2014, the cases were consolidated under Case No. 2:14-01420-JAK (SSx) (the "Derivative Action"). On April 30, 2014, a consolidated amended complaint ("CAC") was filed, which alleged (i) a claim for contribution under Sections 10(b) and 21(D) of the Securities Exchange Act related to allegations made in the Class Action; (ii) derivative and direct claims for alleged violations of Section 14 of the Exchange Act and Rule 14a-9 promulgated thereunder related to allegedly misleading statements about Mr. Berman's compensation plan in the Company's October 25, 2013 proxy statement; (iii) derivative claims for breaches of fiduciary duty related to the Company's response to an unsolicited indication of interest from Oaktree Capital, stock repurchase, standstill agreement with the Clinton Group, and decisions related to the NantWorks joint venture; and (iv) claims against Messrs. Berman and Bennett for breach of fiduciary duty related to the Class Action. The CAC seeks compensatory damages, pre-judgment and post-judgment interest, and declaratory and equitable relief. The foregoing is a summary of the CAC and is subject to the text of the CAC, which is on file with the Court. A motion to dismiss the CAC or, in the alternative, to stay the CAC, was filed in May 2014. The Court granted the motion in part and denied the motion in part with leave for plaintiff to file an amended pleading. Plaintiff declined to do so. Accordingly, claims i, ii and iv have been dismissed and only the elements of claim iii not relating to the NantWorks joint venture remain. Thus, there are no surviving claims against Messrs. Poulsen, Reilly and Bennett and Ms. Brodsky and the Court approved the parties' stipulation to strike their names as defendants in the CAC. Pleadings in response to the CAC were filed on October 30, 2014, which are on file with the Court. The matter was referred to mediation by the Court and the parties, at the mediation, reached an agreement in principle to resolve the action. Thereafter the parties entered into a memorandum of such agreement, which is subject to Court approval. A motion has been filed seeking preliminary approval of the settlement and to establish the procedure for final approval of the settlement, which motion is scheduled to be heard on May 15, 2015.

We are a party to, and certain of our property is the subject of, various pending claims and legal proceedings that routinely arise in the ordinary course of our business, but we do not believe that any of these claims or proceedings will have a material effect on our business, financial condition or results of operations.

Note 16 — Share-Based Payments

The Company's 2002 Stock Award and Incentive Plan (the "Plan") provides for the awarding of stock options and restricted stock to employees, officers and non-employee directors. Under the Plan, the Company grants directors, certain executives and other key employees restricted common stock, with vesting contingent upon completion of specified service periods ranging from one to five years. The Company also grants certain executives performance-based awards, with vesting contingent upon the Company's achievement of specified financial goals. The Plan is more fully described in Notes 15 and 18 to the Consolidated Financial Statements in the Company's 2014 Annual Report on Form 10-K.

The following table summarizes the total share-based compensation expense and related tax benefits recognized for the three months ended March 31, 2014 and 2015 (in thousands):

	Three Months Ended March	
	2014	2015
Restricted stock compensation expense	\$ 277	\$ 504
Tax benefit related to restricted stock compensation	\$ —	\$ —

Stock option activity pursuant to the Plan for the three months ended March 31, 2015 is summarized as follows:

	Plan Stock Options	
	Number of Shares	Weighted Average Exercise Price
Outstanding and Exercisable, December 31, 2014	75,000	\$ 20.69
Granted	—	—
Exercised	—	—
Cancelled	(37,500)	22.11
Outstanding and Exercisable, March 31, 2015	37,500	\$ 19.27

Restricted stock award activity pursuant to the Plan for the three months ended March 31, 2015 is summarized as follows:

	Restricted Stock Awards	
	Number of Shares	Weighted Average Grant Price
Outstanding, December 31, 2014	568,057	\$ 6.54
Awarded	599,588	6.80
Released	(80,794)	7.10
Forfeited	(10,918)	6.32
Outstanding, March 31, 2015	1,075,933	\$ 6.64

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of financial condition and results of operations should be read together with our Condensed Consolidated Financial Statements and Notes thereto, which appear elsewhere herein.

Critical Accounting Policies and Estimates

The accompanying consolidated financial statements and supplementary information were prepared in accordance with accounting principles generally accepted in the United States of America. Significant accounting policies are discussed in Note 2 to the Consolidated Financial Statements set forth in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. Inherent in the application of many of these accounting policies is the need for management to make estimates and judgments in the determination of certain revenues, expenses, assets and liabilities. As such, materially different financial results can occur as circumstances change and additional information becomes known. The policies with the greatest potential effect on our results of operations and financial position include:

Allowance for Doubtful Accounts. Our allowance for doubtful accounts is based upon management's assessment of the business environment, customers' financial condition, historical collection experience, accounts receivable aging, customer disputes and the collectability of specific customer accounts. If there were a deterioration of a major customer's creditworthiness, or actual defaults higher than our historical experience, our estimates of the recoverability of amounts due to us could be overstated, which could have an adverse impact on our operating results. Our allowance for doubtful accounts is also affected by the time at which uncollectible accounts receivable balances are actually written off.

Major customers' accounts are monitored on an ongoing basis; more in-depth reviews are performed based upon changes in a customer's financial condition and/or the level of credit being extended. When a significant event occurs, such as a bankruptcy filing by a specific customer, and on a quarterly basis, the allowance is reviewed for adequacy and the balance or accrual rate is adjusted to reflect current risk prospects.

Revenue Recognition. Our revenue recognition policy is to recognize revenue when persuasive evidence of an arrangement exists, title transfer has occurred (product shipment), the price is fixed or readily determinable and collectability is probable. Sales are recorded net of sales returns and discounts, which are estimated at the time of shipment based upon historical data. We routinely enter into arrangements with our customers to provide sales incentives and support customer promotions and we provide allowances for returns and defective merchandise. Such programs are primarily based upon customer purchases, customer performance of specified promotional activities and other specified factors such as sales to consumers. Accruals for these programs are recorded as sales adjustments that reduce gross revenue in the period in which the related revenue is recognized.

Goodwill and other indefinite-lived intangible assets. Goodwill and indefinite-lived intangible assets are not amortized, but are tested for impairment at least annually at the reporting unit level.

Factors we consider important that could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of our use of the acquired assets or the strategy for our overall business;
- and
- significant negative industry or economic trends.

Due to the subjective nature of the impairment analysis, significant changes in the assumptions used to develop the estimate could materially affect the conclusion regarding the future cash flows necessary to support the valuation of long-lived assets, including goodwill. The valuation of goodwill involves a high degree of judgment. Based upon the assumptions underlying the valuation, impairment is determined by estimating the fair value of a reporting unit and comparing that value to the reporting unit's book value. If the implied fair value is more than the book value of the reporting unit, an impairment loss is not indicated. If impairment exists, the fair value of the reporting unit is allocated to all of its assets and liabilities excluding goodwill, with the excess amount representing the fair value of goodwill. An impairment loss is measured as the amount by which the book value of the reporting unit's goodwill exceeds the estimated fair value of that goodwill.

Goodwill, Trademarks (net) and Intangible assets amounted to \$93.7 million as of March 31, 2015 and \$ 95.7 million as of December 31, 2014.

Reserve for Inventory Obsolescence. We value our inventory at the lower of cost or market. Based upon a consideration of quantities on hand, actual and projected sales volume, anticipated product selling prices and product lines planned to be discontinued, slow-moving and obsolete inventory is written down to its net realizable value.

Failure to accurately predict and respond to consumer demand could result in us under-producing popular items or over-producing less popular items. Furthermore, significant changes in demand for our products would impact management's estimates in establishing our inventory provision.

Management's estimates are monitored on a quarterly basis and a further adjustment to reduce inventory to its net realizable value is recorded, as an increase to cost of sales, when deemed necessary under the lower of cost or market standard.

Discrete Items for Income Taxes. A discrete tax expense of \$211,000 related to the conclusion of the California income tax audits for the tax years 2008 to 2010 and an adjustment in the overpayment account for Wisconsin was recognized during the three months ended March 31, 2015. During this same period in 2014, we recognized a discrete tax benefit of \$44,000 related to a reduction in the tax reserves resulting from closed statutes of limitation and a discrete tax expense of \$15,000 related to a New York State income tax audit.

Income taxes and interest and penalties related to income tax payable. We do not file a consolidated return for our foreign subsidiaries. We file federal and state returns and our foreign subsidiaries each file returns as required. Deferred taxes are provided on an asset and liability method, whereby deferred tax assets are recognized as deductible temporary differences and operating loss and tax credit carry-forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Management employs a threshold and measurement process for recording in the financial statements uncertain tax positions taken or expected to be taken in a tax return. Tax benefits that are subject to challenge by tax authorities are analyzed and accounted for in the income tax provision.

We accrue a tax reserve for additional income taxes, which may become payable in future years as a result of audit adjustments by tax authorities. The reserve is based upon management's assessment of all relevant information and is periodically reviewed and adjusted as circumstances warrant. As of March 31, 2015 and December 31, 2014, our income tax reserves were approximately \$0.4 million and \$2.5 million, respectively. The \$0.4 million balance primarily relates to the potential adjustments in the area of withholding taxes.

Share-Based Compensation. We grant restricted stock awards to our employees (including officers) and to non-employee directors under our 2002 Stock Award and Incentive Plan (the “Plan”), which incorporated the shares remaining under our Third Amended and Restated 1995 Stock Option Plan. The benefits provided under the Plan are share-based payments. We amortize over a requisite service period, the net total deferred restricted stock expense based upon the fair value of the stock on the date of the grants. In certain instances, the service period may differ from the period in which each award will vest. Additionally, certain groups of grants are subject to an expected forfeiture rate calculation.

New Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (ASU 2014-09), which supersedes nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. ASU 2014-09 defines a five step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than are required under existing U.S. GAAP. The standard is effective for annual periods beginning after December 15, 2016, and interim periods therein, using either of the following transition methods: (i) a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients, or (ii) a retrospective approach with the cumulative effect of initially adopting ASU 2014-09 recognized at the date of adoption (which includes additional footnote disclosures). The Company is currently evaluating the impact of our pending adoption of ASU 2014-09 on our consolidated financial statements and have not yet determined the method by which we will adopt the standard in 2017.

In August 2014, the FASB amended the FASB Accounting Standards Codification and amended Subtopic 205-40, “Presentation of Financial Statements — Going Concern.” This amendment prescribes that an entity’s management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity’s ability to continue as a going concern within one year after the date that the financial statements are issued. The amendments will become effective for the Company’s annual and interim reporting periods beginning January 1, 2017. Upon adoption the Company will use this guidance to evaluate going concern.

Results of Operations

The following unaudited table sets forth, for the periods indicated, certain statement of income data as a percentage of net sales.

	Three Months Ended March 31,	
	2014	2015
Net sales	100.0%	100.0%
Cost of sales	71.5	69.0
Gross profit	28.5	31.0
Selling, general and administrative expenses	46.6	34.7
Loss from operations	(18.1)	(3.7)
Equity in net income of joint venture	0.4	0.0
Interest income	0.1	0.0
Interest expense	(2.7)	(2.6)
Loss before provision (benefit) for income taxes	(20.3)	(6.3)
Provision (benefit) for income taxes	(0.6)	0.3
Net loss	(19.7)%	(6.6)%

The following unaudited table summarizes, for the periods indicated, certain income statement data by segment (in thousands).

	Three Months Ended March 31,	
	2014	2015
Net Sales		
Traditional Toys and Electronics	\$ 35,592	\$ 65,045
Role Play, Novelty and Seasonal Toys	46,918	49,156
	82,510	114,201
Cost of Sales		
Traditional Toys and Electronics	27,683	47,331
Role Play, Novelty and Seasonal Toys	31,272	31,492
	58,955	78,823
Gross Profit		
Traditional Toys and Electronics	7,909	17,714
Role Play, Novelty and Seasonal Toys	15,646	17,664
	\$ 23,555	\$ 35,378

Comparison of the Three Months Ended March 31, 2014 and 2015

Net Sales

Traditional Toys and Electronics. Net sales of our Traditional Toys and Electronics segment were \$65.0 million for the three months ended March 31, 2015 compared to \$35.6 million for the prior year period, representing an increase of \$29.4 million, or 82.6%. The increase in net sales was primarily driven by an increase in unit sales of dolls and accessories related to the Disney Princess, Frozen®, Cinderella and Fairies. Other contributors included Nintendo plush and figures, and Star Wars figures.

Role Play, Novelty and Seasonal Toys. Net sales of our Role Play, Novelty and Seasonal Toys were \$49.2 million for the three months ended March 31, 2015 compared to \$46.9 million for the prior year period, representing an increase of \$2.3 million, or 4.9%. The increase in net sales was primarily driven by an increase in unit sales of Disney Princess dress-up and role-play, including Frozen®, Princess, Cinderella and Fairies, partially offset by a year-over-year decline in unit sales for Q1 in our Kids Only and Moose Mountain divisions driven by timing, as these orders came in Q2 in 2015 versus Q1 in 2014.

Cost of Sales

Traditional Toys and Electronics. Cost of sales of our Traditional Toys and Electronics segment was \$47.3 million, or 72.8% of related net sales for the three months ended March 31, 2015 compared to \$27.7 million, or 77.8% of related net sales for the prior year period, representing an increase of \$19.6 million, or 70.8%. The increase in cost of sales is directly a function of higher sales, while the percentage of sales decline is due to savings in product costing, offset in part by higher royalties in Q1 2015 compared to the prior year. The increase in royalties is driven by a shift in the product mix to products with relatively higher royalty rates. Our depreciation of molds and tools for the segment showed a slight decline from 2014 due to more effective tooling.

Role Play, Novelty and Seasonal Toys. Cost of sales of our Role Play, Novelty and Seasonal Toys segment was \$31.5 million, or 64.0% of related net sales for the three months ended March 31, 2015 compared to \$31.3 million, or 66.7% of related net sales for the prior year period, representing an increase of \$0.2 million, or 0.6%. The increase in cost of sales is directly a function of higher sales, while the percentage of sales decline is due to savings in product costing, offset in part by higher royalties in Q1 2015 compared to the prior year. The increase in royalties is driven by a shift in the product mix to products with relatively higher royalty rates. Our depreciation of molds and tools for the segment showed a slight decline from 2014 due to more cost effective tooling

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$39.6 million for the three months ended March 31, 2015 and \$38.5 million for Q1 of the prior year, constituting 34.7% and 46.6% of net sales, respectively. Selling, general and administrative expenses increased by \$1.1 million from the prior year period primarily due to an increase in salaries and benefits, including higher bonus expense and higher temporary labor cost, partially offset by savings in legal, rent and travel and entertainment expense.

Interest Income

Interest income for the three months ended March 31, 2015 was \$19,267, compared to \$27,367 for the three months ended March 31, 2014.

Interest Expense

Interest expense was \$3.0 million in the three months ended March 31, 2015, as compared to \$2.2 million in the prior period. The increase is due to the additional interest expense related to our convertible senior notes payable due in 2018 and 2020. In the three months ended March 31, 2015, we booked interest expense of \$2.9 million related to our convertible senior notes payable due in 2018 and 2020, \$0.1 million related to our revolving credit facility and \$0.1 million related to the interest component of our Maui acquisition earn out payment, partially offset by \$0.1 million related to uncertain tax positions taken or expected to be taken in a tax return. In the three months ended March 31, 2014, we booked interest expense of \$2.0 million related to our convertible senior notes payable due in 2014 and 2018 and \$0.2 million related to the interest component of our Maui acquisition earn out payment.

Provision for Income Taxes

Our income tax expense, which includes federal, state and foreign income taxes and discrete items, was \$0.4 million, or an effective tax rate of (5.97%), for the three months ended March 31, 2015. During the comparable period in 2014, our income tax benefit was \$0.5 million, or an effective tax rate of 2.88%.

Seasonality and Backlog

The retail toy industry is inherently seasonal. Generally, our sales have been highest during the third and fourth quarters, and collections for those sales have been highest during the succeeding fourth and first quarters. Our working capital needs have been highest during the third and fourth quarters.

While we have taken steps to level sales over the entire year, sales are expected to remain heavily influenced by the seasonality of our toy and Halloween products. The result of these seasonal patterns is that operating results and the demand for working capital may vary significantly by quarter. Orders placed with us are generally cancelable until the date of shipment. The combination of seasonal demand and the potential for order cancellation makes accurate forecasting of future sales difficult and causes us to believe that backlog may not be an accurate indicator of our future sales. Similarly, financial results for a particular quarter may not be indicative of results for the entire year.

Liquidity and Capital Resources

As of March 31, 2015 we had working capital of \$234.2 million, compared to \$246.2 million as of December 31, 2014. The decrease was primarily attributable to operating loss in Q1 2015 and seasonably lower accounts receivable balances, partially offset by lower accrued expenses and accounts payable.

Operating activities provided net cash of \$38.8 million in the three months ended March 31, 2015, as compared to using net cash of \$11.1 million in the prior year period. Net cash was primarily impacted by a decrease in accounts receivable, partially offset by decreases in accounts payable and accrued expenses. Our accounts receivable turnover as measured by days sales for the quarter outstanding in accounts receivable was 82 days as of March 31, 2015, compared to 71 days as of March 31, 2014. Other than open purchase orders issued in the normal course of business, we have no obligations to purchase finished goods from our manufacturers. As of March 31, 2015, we had cash and cash equivalents of \$105.1 million.

Our investing activities used net cash of \$5.5 million in the three months ended March 31, 2015, as compared to \$0.9 million in the prior year period, consisting primarily of cash paid for leasehold improvements and the purchase of molds and tooling used in the manufacture of our products of \$3.1 million. As part of our strategy to develop and market new products, we have entered into various character and product licenses with royalties generally ranging from 1% to 16% payable on net sales of such products. As of March 31, 2015, these agreements required future aggregate minimum guarantees of \$43.8 million, exclusive of \$18.7 million in advances already paid. Of this \$43.8 million future minimum guarantee, \$29.0 million is due over the next twelve months.

Our financing activities were net cash neutral in the three months ended March 31, 2015, as compared to providing \$8.4 million of cash in the prior year period from borrowings on our credit facility.

In July 2012, we acquired all of the stock of Maui, Inc., an Ohio corporation, Kessler Services, Inc., a Nevada corporation, and A.S. Design Limited, a Hong Kong corporation (collectively, “Maui”). The initial cash consideration totaled \$36.2 million. In addition, we agreed to pay an earn-out of up to an aggregate amount of \$18.0 million in cash over the three calendar years following the acquisition based upon the achievement of certain financial performance criteria, which has been accrued and recorded as goodwill as of the acquisition date. All future changes to the earn-out liability will be credited to income. Maui did not achieve the prescribed earn-out targets for 2013 and 2014, therefore, \$6.0 million and \$5.9 million, respectively, was credited to other income in the fourth quarter of 2013 and the third quarter of 2014, respectively. Maui is a leading manufacturer and distributor of spring and summer activity toys and impulse toys and was included in our results of operations from the date of acquisition.

In March 2014, we, and our domestic subsidiaries, entered into a secured credit facility with General Electric Capital Corporation (the “GE Loan Agreement”). The GE Loan Agreement provides for a \$75.0 million revolving credit facility subject to availability based on prescribed advance rates on certain accounts receivable and inventory. The amounts outstanding under the revolving credit facility are payable in full upon maturity of the revolving credit facility on March 27, 2017. The revolving credit facility is secured by a security interest in favor of the lender covering a substantial amount of the assets of the Company. The amount outstanding on the revolving credit facility as of March 31, 2015 is nil; the total borrowing capacity was approximately \$21.4 million.

In November 2009, we sold an aggregate principal amount of \$100.0 million of 4.50% Convertible Senior Notes (the “2014 Notes”) due 2014. The 2014 Notes, which were senior unsecured obligations and paid interest semi-annually at a rate of 4.50% per annum matured on November 1, 2014. The Company repurchased \$61.0 million of the 2014 Notes during the quarter ended September 30, 2013 and as of November 1, 2014, we paid the outstanding balance of \$39.0 million related to the 2014 Notes.

In July 2013, we sold an aggregate of \$100.0 million principal amount of 4.25% Convertible Senior Notes due 2018 (the “2018 Notes”). The 2018 Notes, which are senior unsecured obligations, pay interest semi-annually in arrears on August 1 and February 1 of each year at a rate of 4.25% per annum and will mature on August 1, 2018. The initial conversion rate for the 2018 Notes will be 114.3674 shares of our common per \$1,000 principal amount of notes, equivalent to an initial conversion price of approximately \$8.74 per share of common stock, subject to adjustment in certain events. Upon conversion, the 2018 Notes will be settled in shares of the Company’s common stock. Holders of the 2018 Notes may require us to repurchase for cash all or some of their notes upon the occurrence of a fundamental change (as defined in the 2018 Notes). We used \$61.0 million of the approximate \$96.0 million in net proceeds from the offering to repurchase at par \$61.0 million principal amount of 2014 Notes. The remainder of the net proceeds will be used for general corporate purposes.

In June 2014, the Company sold an aggregate of \$115.0 million principal amount of 4.875% Convertible Senior Notes due 2020 (the “2020 Notes”). The 2020 Notes are senior unsecured obligations of the Company paying interest semi-annually in arrears on June 1 and December 1 of each year at a rate of 4.875% per annum and will mature on June 1, 2020. The initial conversion rate for the 2020 Notes is 103.7613 shares of our common per \$1,000 principal amount of notes, equivalent to an initial conversion price of approximately \$9.64 per share of common stock, subject to adjustment in certain events. Upon conversion, the 2020 Notes will be settled in shares of the Company’s common stock. Holders of the 2020 Notes may require us to repurchase for cash all or some of their notes upon the occurrence of a fundamental change (as defined in the 2020 Notes). The Company received net proceeds of approximately \$110.4 million from the offering of which \$24.0 million was used to repurchase 3.1 million shares of the Company’s common stock under a prepaid forward purchase contract and \$39.0 million was used to redeem the remaining outstanding principal amount of the 2014 Notes at maturity. The remainder of the net proceeds will be used for general corporate purposes.

We believe that our cash flows from operations, cash and cash equivalents on hand and the availability under our credit facility will be sufficient to meet our working capital and capital expenditure requirements and provide us with adequate liquidity to meet our anticipated operating needs for at least the next 12 months. Although operating activities are expected to provide cash, to the extent we grow significantly in the future and due to the seasonality of our business, our operating and investing activities may use cash and, consequently, this growth may require us to obtain additional sources of financing. There can be no assurance that any necessary additional financing will be available to us on commercially reasonable terms, if at all. As of December 31, 2014 and March 31, 2015, we held cash and short term investments held by our foreign subsidiaries of \$60.8 million and \$94.8 million, respectively. Although a significant portion of our cash is held by our foreign subsidiaries off-shore, we intend to finance our long-term liquidity requirements out of net cash provided by operations and net cash and cash equivalents and availability under our credit facility. As of March 31, 2015, we do not have any off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

We issued convertible senior notes in principal amount of \$100.0 million with a fixed interest rate of 4.25% per annum in July 2013 and \$115.0 million principal amount of senior notes with a fixed interest rate of 4.875% per annum in June 2014, all of which remain outstanding as of March 31, 2015. Accordingly, we are not generally subject to any direct risk of loss arising from changes in interest rates on these issuances.

Our exposure to market risk includes interest rate fluctuations in connection with our revolving credit facility (see Note 5 - Credit Facility in the accompanying notes to the consolidated financial statements for additional information). Borrowings under the revolving credit facility bear interest at a variable rate based on Prime Lending Rate or LIBOR Rate at the option of the Company. For Prime Lending Rate loans, the interest rate is equal to the highest of (i) the Federal Funds Rate plus a margin of 0.50%, (ii) the rate last quoted by The Wall Street Journal as the "Prime Rate," or (iii) the sum of a LIBOR rate plus 1.00%, plus a margin of 2.25%. For LIBOR rate loans, the interest rate is equal to a LIBOR rate plus a margin of 3.25%. Borrowings under the revolving credit facility are therefore subject to risk based upon prevailing market interest rates. Interest rate risk may result from many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors that are beyond our control. During the three months ended March 31, 2015, the maximum amount borrowed under the revolving credit facility was nil and the average amount of borrowings outstanding was nil. As of March 31, 2015, the amount of total borrowings outstanding under the revolving credit facility was nil. If the prevailing market interest rates relative to these borrowings increased by 10%, our interest expense during the period ended March 31, 2015 would have increased by less than \$0.1 million.

Foreign Currency Risk

We have wholly-owned subsidiaries in Hong Kong, China, Canada, Spain, France and the United Kingdom. Sales made by the Hong Kong subsidiaries are denominated in U.S. dollars. However, purchases of inventory are typically denominated in Hong Kong dollars or Chinese Yuan and local operating expenses are denominated in the local currency of the subsidiary, thereby creating exposure to changes in exchange rates. Changes in the local currency/U.S. dollar exchange rates may positively or negatively affect our operating results. We do not believe that near-term changes in these exchange rates, if any, will result in a material effect on our future earnings, fair values or cash flows, and, therefore, we have chosen not to enter into foreign currency hedging transactions. We cannot assure you that this approach will be successful, especially in the event of a significant and sudden change in the value of the Hong Kong dollar or Chinese Yuan relative to the U.S. dollar. Our subsidiaries in the United Kingdom, Spain and France have limited operations and, therefore, we have a nominal currency translation risk at this time.

Item 4. Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Report, have concluded that as of that date, our disclosure controls and procedures were effective. There has been no change in our internal control over financial reporting identified in connection with the evaluation required by Exchange Act Rule 13a-15(d) that occurred during the period covered by this Report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II
OTHER INFORMATION

Item 1. Legal Proceedings

On July 25, 2013, a purported class action lawsuit was filed in the United States District Court for the Central District of California captioned Melot v. JAKKS Pacific, Inc. et al., Case No. CV13-05388 (JAK) against Stephen G. Berman, Joel M. Bennett (collectively the “Individual Defendants”), and the Company (collectively, “Defendants”). On July 30, 2013, a second purported class action lawsuit was filed containing similar allegations against Defendants captioned Dylewicz v. JAKKS Pacific, Inc. et al., Case No. CV13-5487 (OON). The two cases (collectively, the “Class Action”) were consolidated on December 2, 2013 under Case No. CV13-05388 JAK (SSx) and lead plaintiff and lead counsel appointed. On January 17, 2014, Plaintiff filed a consolidated class action complaint (the “First Amended Complaint”) against Defendants which alleged that the Company violated Section 10(b) of the Securities Exchange Act and Rule 10b-5 promulgated thereunder by making false and/or misleading statements concerning Company financial projections and performance as part of its public filings and earnings calls from July 17, 2012 through July 17, 2013. Specifically, the First Amended Complaint alleged that the Company’s forward looking statements, guidance and other public statements were false and misleading for allegedly failing to disclose (i) certain alleged internal forecasts, (ii) the Company’s alleged quarterly practice of laying off and rehiring workers, (iii) the Company’s alleged entry into license agreements with guaranteed minimums the Company allegedly knew it was unable to meet; and (iv) allegedly poor performance of the Monsuno and Winx lines of products after their launch. The First Amended Complaint also alleged violations of Section 20(a) of the Exchange Act by Messrs. Berman and Bennett. The First Amended Complaint sought compensatory and other damages in an undisclosed amount as well as attorneys’ fees and pre-judgment and post-judgment interest. The Company filed a motion to dismiss the First Amended Complaint on February 17, 2014, and the motion was granted, with leave to replead. A Second Amended Complaint (“SAC”) was filed on July 8, 2014 and it set forth similar allegations to those in the First Amended Complaint about discrepancies between internal projections and public forecasts and the other allegations except that the claim with respect to guaranteed minimums that the Company allegedly knew it was unable to meet was eliminated. The Company filed a motion to dismiss the SAC and that motion was granted with leave to replead. A Third Amended Complaint (“TAC”) was filed on March 23, 2015 with similar allegations. The foregoing is a summary of the pleadings and is subject to the text of the pleadings which are on file with the Court. We believe that the claims in the Class Action are without merit, and we intend to defend vigorously against them. However, because the Class Action is in a preliminary stage, we cannot assure you as to its outcome, or that an adverse decision in such action would not have a material adverse effect on our business, financial condition or results of operations.

On February 25, 2014, a shareholder derivative action was filed in the Central District of California by Advanced Advisors, G.P. against the Company, nominally, and against Messrs. Berman, Bennett, Miller, Skala, Glick, Ellin, Almagor, Poulsen and Reilly and Ms. Brodsky (Advanced Partners, G.P., v. Berman, et al., CV14-1420 (DSF)). On March 6, 2014, a second shareholder derivative action alleging largely the same claims against the same defendants was filed in the Central District of California by Louisiana Municipal Police Employees Retirement System (Louisiana Municipal Police Employees Retirement System v. Berman et al., CV14-1670 (GHF)). On April 17, 2014, the cases were consolidated under Case No. 2:14-01420-JAK (SSx) (the “Derivative Action”). On April 30, 2014, a consolidated amended complaint (“CAC”) was filed, which alleged (i) a claim for contribution under Sections 10(b) and 21(D) of the Securities Exchange Act related to allegations made in the Class Action; (ii) derivative and direct claims for alleged violations of Section 14 of the Exchange Act and Rule 14a-9 promulgated thereunder related to allegedly misleading statements about Mr. Berman’s compensation plan in the Company’s October 25, 2013 proxy statement; (iii) derivative claims for breaches of fiduciary duty related to the Company’s response to an unsolicited indication of interest from Oaktree Capital, stock repurchase, standstill agreement with the Clinton Group, and decisions related to the NantWorks joint venture; and (iv) claims against Messrs. Berman and Bennett for breach of fiduciary duty related to the Class Action. The CAC seeks compensatory damages, pre-judgment and post-judgment interest, and declaratory

and equitable relief. The foregoing is a summary of the CAC and is subject to the text of the CAC, which is on file with the Court. A motion to dismiss the CAC or, in the alternative, to stay the CAC, was filed in May 2014. The Court granted the motion in part and denied the motion in part with leave for plaintiff to file an amended pleading. Plaintiff declined to do so. Accordingly, claims i, ii and iv have been dismissed and only the elements of claim iii not relating to the NantWorks joint venture remain. Thus, there are no surviving claims against Messrs. Poulsen, Reilly and Bennett and Ms. Brodsky and the Court approved the parties' stipulation to strike their names as defendants in the CAC. Pleadings in response to the CAC were filed on October 30, 2014, which are on file with the Court. The matter was referred to mediation by the Court and the parties, at the mediation, reached an agreement in principle to resolve the action. Thereafter the parties entered into a memorandum of such agreement, which is subject to Court approval. A motion has been filed seeking preliminary approval of the settlement and to establish the procedure for final approval of the settlement, which motion is scheduled to be heard on May 15, 2015.

We are a party to, and certain of our property is the subject of, various pending claims and legal proceedings that routinely arise in the ordinary course of our business, but we do not believe that any of these claims or proceedings will have a material effect on our business, financial condition or results of operations.

Item 1A. Risk Factors

From time to time, including in this Quarterly Report on Form 10-Q, we publish forward-looking statements, as disclosed in our Disclosure Regarding Forward-Looking Statements beginning immediately following the Table of Contents of this Report. We note that a variety of factors could cause our actual results and experience to differ materially from the anticipated results or other expectations expressed or anticipated in our forward-looking statements. The factors listed below are risks and uncertainties that may arise and that may be detailed from time to time in our public announcements and our filings with the Securities and Exchange Commission, such as on Forms 8-K, 10-Q and 10-K. We undertake no obligation to make any revisions to the forward-looking statements contained in this Report to reflect events or circumstances occurring after the date of the filing of this report.

Our inability to redesign, restyle and extend our existing core products and product lines as consumer preferences evolve, and to develop, introduce and gain customer acceptance of new products and product lines, may materially and adversely impact our business, financial condition and results of operations.

Our business and operating results depend largely upon the appeal of our products. Our continued success in the toy industry will depend upon our ability to redesign, restyle and extend our existing core products and product lines as consumer preferences evolve, and to develop, introduce and gain customer acceptance of new products and product lines. Several trends in recent years have presented challenges for the toy industry, including:

- Age Compression: the phenomenon of children outgrowing toys at younger ages, particularly in favor of interactive and high technology products;

- increasing use of technology;

- shorter life cycles for individual products; and

- higher consumer expectations for product quality, functionality and value.

We cannot assure you that:

- our current products will continue to be popular with consumers;

- the product lines or products that we introduce will achieve any significant degree of market acceptance;

- the life cycles of our products will be sufficient to permit us to recover licensing, design, manufacturing, marketing and other costs associated with those products; or

- Our inclusion of new technology will result in higher sales or increased profits.

Our failure to achieve any or all of the foregoing benchmarks may adversely affect our business, financial condition and results of operations.

The failure of our character-related and theme-related products to become and/or remain popular with children may materially and adversely impact our business, financial condition and results of operations.

The success of many of our character-related and theme-related products depends upon the popularity of characters in movies, television programs, auto racing events and other media. We cannot assure you that:

media associated with our character-related and theme-related product lines will be released at the times we expect or will be successful;

the success of media associated with our existing character-related and theme-related product lines will result in substantial promotional value to our products;

we will be successful in renewing licenses upon expiration on terms that are favorable to us; or

we will be successful in obtaining licenses to produce new character-related and theme-related products in the future.

Our failure to achieve any or all of the foregoing benchmarks may cause the infrastructure of our operations to fail, thereby adversely affecting our business, financial condition and results of operations.

There are risks associated with our license agreements.

Our current licenses require us to pay minimum royalties

Sales of products under trademarks or trade or brand names licensed from others account for substantially all of our net sales. Product licenses allow us to capitalize on characters, designs, concepts and inventions owned by others or developed by toy inventors and designers. Our license agreements generally require us to make specified minimum royalty payments, even if we fail to sell a sufficient number of units to cover these amounts. In addition, under certain of our license agreements, if we fail to achieve certain prescribed sales targets, we may be unable to retain or renew these licenses.

Some of our licenses are restricted as to use

Under the majority of our license agreements, the licensors have the right to review and approve our use of their licensed products, designs or materials before we may make any sales. If a licensor refuses to permit our use of any licensed property in the way we propose, or if their review process is delayed, our development or sale of new products could be impeded.

New licenses are difficult and expensive to obtain

Our continued success will substantially depend upon our ability to obtain additional licenses. Intense competition exists for desirable licenses in our industry. We cannot assure you that we will be able to secure or renew significant licenses on terms acceptable to us. In addition, as we add licenses, the need to fund additional royalty advances and guaranteed minimum royalty payments may strain our cash resources.

A limited number of licensors account for a large portion of our net sales

We derive a significant portion of our net sales from a limited number of licensors. If one or more of these licensors were to terminate or fail to renew our license or not grant us new licenses, our business, financial condition and results of operations could be adversely affected.

The toy industry is highly competitive and our inability to compete effectively may materially and adversely impact our business, financial condition and results of operations.

The toy industry is highly competitive. Globally, certain of our competitors have financial and strategic advantages over us, including:

greater financial resources;

larger sales, marketing and product development departments;

stronger name recognition;

longer operating histories; and

greater economies of scale.

In addition, the toy industry has no significant barriers to entry. Competition is based primarily upon the ability to design and develop new toys, procure licenses for popular characters and trademarks and successfully market

products. Many of our competitors offer similar products or alternatives to our products. Our competitors have obtained and are likely to continue to obtain licenses that overlap our licenses with respect to products, geographic areas and markets. We cannot assure you that we will be able to obtain adequate shelf space in retail stores to support our existing products, expand our products and product lines or continue to compete effectively against current and future competitors.

We may not be able to sustain or manage our product line growth, which may prevent us from increasing our net revenues.

Historically, we have experienced growth in our product lines through acquisitions of businesses, products and licenses. This growth in product lines has contributed significantly to our total revenues over the last few years. For example, revenues associated with companies we acquired since 2008 were approximately \$422.2 million for the year ended December 31, 2014, and \$67.7 million for the three months ended March 31, 2015, respectively, representing 52.1% and 59.3% of our total revenues for those periods. As a result, comparing our period-to-period operating results may not be meaningful and results of operations from prior periods may not be indicative of future results. We cannot assure you that we will continue to experience growth in, or maintain our present level of, net sales.

Our growth strategy calls for us to continuously develop and diversify our toy business by acquiring other companies, entering into additional license agreements, refining our product lines and expanding into international markets, which will place additional demands on our management, operational capacity and financial resources and systems. The increased demand on management may necessitate our recruitment and retention of qualified management personnel. We cannot assure you that we will be able to recruit and retain qualified personnel or expand and manage our operations effectively and profitably. To effectively manage future growth, we must continue to expand our operational, financial and management information systems and train, motivate and manage our work force. There can be no assurance that our operational, financial and management information systems will be adequate to support our future operations. Failure to expand our operational, financial and management information systems or to train, motivate or manage employees could have a material adverse effect on our business, financial condition and results of operations.

In addition, implementation of our growth strategy is subject to risks beyond our control, including competition, market acceptance of new products, changes in economic conditions, our ability to obtain or renew licenses with commercially reasonable terms and our ability to finance increased levels of accounts receivable and inventory necessary to support our sales growth, if any. Accordingly, we cannot assure you that our growth strategy will be successful.

If we are unable to acquire and integrate companies and new product lines successfully, we will be unable to implement a significant component of our growth strategy.

Our growth strategy depends, in part, upon our ability to acquire companies and new product lines. Future acquisitions, if any, may succeed only if we can effectively assess characteristics of potential target companies and product lines, such as:

attractiveness of products;

suitability of distribution channels;

management ability;

financial condition and results of operations; and

the degree to which acquired operations can be integrated with our operations.

We cannot assure you that we can identify attractive acquisition candidates or negotiate acceptable acquisition terms, and our failure to do so may adversely affect our results of operations and our ability to sustain growth. Our acquisition strategy involves a number of risks, each of which could adversely affect our operating results, including:

difficulties in integrating acquired businesses or product lines, assimilating new facilities and personnel and harmonizing diverse business strategies and methods of operation;

diversion of management attention from operation of our existing business;

loss of key personnel from acquired companies;

failure of an acquired business to achieve projected financial results; and

limited capital to finance acquisitions.

A limited number of customers account for a large portion of our net sales, so that if one or more of our major customers were to experience difficulties in fulfilling their obligations to us, cease doing business with us, significantly reduce the amount of their purchases from us or return substantial amounts of our products, it could have a material adverse effect on our business, financial condition and results of operations.

Our three largest customers accounted for 47.4% and 45.0% of our net sales for the year ended December 31, 2014 and the three months ended March 31, 2015, respectively. Except for outstanding purchase orders for specific products, we do not have written contracts with or commitments from any of our customers and pursuant to the terms of certain of our vendor agreements, even some purchase orders may be cancelled without penalty up until delivery. A substantial reduction in or termination of orders from any of our largest customers could adversely affect our business, financial condition and results of operations. In addition, pressure by large customers seeking price reductions, financial incentives, changes in other terms of sale or for us to bear the risks and the cost of carrying inventory could also adversely affect our business, financial condition and results of operations. If one or more of our major customers were to experience difficulties in fulfilling their obligations to us, cease doing business with us, significantly reduce the amount of their purchases from us or return substantial amounts of our products, it could have a material adverse effect on our business, financial condition and results of operations. In addition, the bankruptcy or other lack of success of one or more of our significant retailers could negatively impact our revenues and bad debt expense.

We depend upon our Chief Executive Officer and any loss or interruption of his services could adversely affect our business, financial condition and results of operations.

Our success has been largely dependent upon the experience and continued services of Stephen G. Berman, our President and Chief Executive Officer. We cannot assure you that we would be able to find an appropriate replacement for Mr. Berman should the need arise, and any loss or interruption of Mr. Berman's services could adversely affect our business, financial condition and results of operations.

We depend upon third-party manufacturers, and if our relationship with any of them is harmed or if they independently encounter difficulties in their manufacturing processes, we could experience product defects, production delays, cost overruns or the inability to fulfill orders on a timely basis, any of which could adversely affect our business, financial condition and results of operations.

We depend upon many third-party manufacturers who develop, provide and use the tools, dies and molds that we generally own to manufacture our products. However, we have limited control over the manufacturing processes themselves. As a result, any difficulties encountered by the third-party manufacturers that result in product defects, production delays, cost overruns or the inability to fulfill orders on a timely basis could adversely affect our business, financial condition and results of operations. Product defects could lead to recalls and personal injury claims which could be costly and harmful to our business reputation.

We do not have long-term contracts with our third-party manufacturers. Although we believe we could secure other third-party manufacturers to produce our products, our operations would be adversely affected if we lost our relationship with any of our current suppliers or if our current suppliers' operations or sea or air transportation with our overseas manufacturers were disrupted or terminated even for a relatively short period of time. Our tools, dies and molds are located at the facilities of our third-party manufacturers.

Although we do not purchase the raw materials used to manufacture our products, we are potentially subject to variations in the prices we pay our third-party manufacturers for products, depending upon what they pay for their raw materials.

We have substantial sales and manufacturing operations outside of the United States, subjecting us to risks common to international operations.

We sell products and operate facilities in numerous countries outside the United States. For the year ended December 31, 2014 and three months ended March 31, 2015, sales to our international customers comprised approximately 19.3% and 37.1%, respectively, of our net sales. We expect our sales to international customers to account for a greater portion of our revenues in future fiscal periods. Additionally, we utilize third-party manufacturers, located principally in China, and are subject to the risks normally associated with international operations, including:

currency conversion risks and currency fluctuations;

limitations, including taxes, on the repatriation of earnings;

political instability, civil unrest and economic instability;

greater difficulty enforcing intellectual property rights and weaker laws protecting such rights;

complications in complying with laws in varying jurisdictions and changes in governmental policies;

greater difficulty and expenses associated with recovering from natural disasters, such as earthquakes, hurricanes and floods

transportation delays and interruptions;

the potential imposition of tariffs; and

the pricing of intercompany transactions may be challenged by taxing authorities in both Hong Kong and the United States, with potential increases in income taxes.

Our reliance upon external sources of manufacturing can be shifted, over a period of time, to alternative sources of supply, should such changes be necessary. However, if we were prevented from obtaining products or components for a material portion of our product line due to medical, political, labor or other factors beyond our control, our operations would be disrupted while alternative sources of products were secured. Also, the imposition of trade sanctions by the United States against a class of products imported by us from, or the loss of “normal trade relations” status by, China could significantly increase our cost of products imported from that nation. Because of the importance of international sales and international sourcing of manufacturing to our business, our financial condition and results of operations could be significantly and adversely affected if any of the risks described above were to occur.

Our business is subject to extensive government regulation and any violation by us of such regulations could result in product liability claims, loss of sales, diversion of resources, damage to our reputation, increased warranty costs or removal of our products from the market, and we cannot assure you that our product liability insurance for the foregoing will be sufficient.

Our business is subject to various laws, including the Federal Hazardous Substances Act, the Consumer Product Safety Act, the Flammable Fabrics Act and the rules and regulations promulgated under these acts. These statutes are administered by the Consumer Products Safety Commission (“CPSC”), which has the authority to remove from the market products that are found to be defective and present a substantial hazard or risk of serious injury or death. The CPSC can require a manufacturer to recall, repair or replace these products under certain circumstances. We cannot

assure you that defects in our products will not be alleged or found. Any such allegations or findings could result in:

product liability claims;

loss of sales;

diversion of resources;

damage to our reputation;

increased warranty and insurance costs; and

removal of our products from the market.

Any of these results may adversely affect our business, financial condition and results of operations. There can be no assurance that our product liability insurance will be sufficient to avoid or limit our loss in the event of an adverse outcome of any product liability claim.

We depend upon our proprietary rights, and our inability to safeguard and maintain the same, or claims of third parties that we have violated their intellectual property rights, could have a material adverse effect on our business, financial condition and results of operations.

We rely upon trademark, copyright and trade secret protection, nondisclosure agreements and licensing arrangements to establish, protect and enforce our proprietary rights in our products. The laws of certain foreign countries may not protect intellectual property rights to the same extent or in the same manner as the laws of the United States. We cannot assure you that we or our licensors will be able to successfully safeguard and maintain our proprietary rights. Further, certain parties have commenced legal proceedings or made claims against us based upon our alleged patent infringement, misappropriation of trade secrets or other violations of their intellectual property rights. We cannot assure you that other parties will not assert intellectual property claims against us in the future. These claims could divert our attention from operating our business or result in unanticipated legal and other costs, which could adversely affect our business, financial condition and results of operations.

Market conditions and other third-party conduct could negatively impact our margins and implementation of other business initiatives.

Economic conditions, such as rising fuel prices, level of consumer debt, increased competition and decreased consumer confidence, may adversely impact our margins. Such a weakened economic and business climate could create uncertainty and adversely affect our sales and profitability. Other conditions, such as the unavailability of electronics components, may impede our ability to manufacture, source and ship new and continuing products on a timely basis. Significant and sustained increases in the price of oil could adversely impact the cost of the raw materials used in the manufacture of our products, such as plastic.

We may not have the funds necessary to purchase our outstanding convertible senior notes upon a fundamental change or other purchase date, as required by the indenture governing the notes.

In June 2014, the Company sold an aggregate of \$115.0 million principal amount of 4.875% Convertible Senior Notes due on June 1, 2020 (the "2020 Notes"). Holders of the 2020 Notes may require us to repurchase for cash all or some of their notes upon the occurrence of a fundamental change (as defined in the 2020 Notes). Upon conversion, the 2020 Notes will be settled in shares of the Company's common stock. In July 2013, the Company sold an aggregate of \$100.0 million principal amount of 4.25% Convertible Senior Notes due on August 1, 2018 (the "2018 Notes"). Holders of the 2018 Notes may require us to repurchase for cash all or some of their notes upon the occurrence of a fundamental change (as defined in the 2018 Notes). Upon conversion, the 2018 Notes will be settled in shares of the Company's common stock. Restrictions on borrowings under or loss of the credit facility could have a material adverse effect on our financial condition including an adverse impact on our ability to pay the 2018 Notes and 2020 Notes when due.

Restrictions under or the loss of availability under our credit facility could adversely impact our financial condition and our ability to pay our convertible notes when due.

In March 2014, we obtained a \$75.0 million revolving line of credit. Any amounts borrowed under the revolving credit line are our senior secured obligations. All outstanding borrowings under the revolving credit line are accelerated and become immediately due and payable (and the revolving credit line terminates) in the event of a default which includes, among other things, failure to comply with financial ratio covenants or breach of

representations contained in the credit line documents, defaults under other loans or obligations, involvement in bankruptcy proceedings, an occurrence of a change of control or an event constituting a material adverse effect on us (as such terms are defined in the credit line documents). We are also subject to negative covenants which, during the life of the credit line, prohibit and/or limit us from, among other things, incurring certain types of other debt, acquiring other companies, making certain expenditures or investments, changing the character of our business, and certain changes to our executive officers.

We have a full valuation allowance on the entire balance of deferred taxes on our books since their future realization is uncertain.

Deferred tax assets are realized by prior and future taxable income of appropriate character. Current accounting standards require that a valuation allowance be recorded if it is not likely that sufficient taxable income of appropriate character will be generated to realize the deferred tax assets. In the fourth quarter of 2012, we established a full valuation allowance against our United States deferred tax assets, resulting in a non-cash charge to income of \$91.7 million.

An adverse decision in litigation in which we have been named as a defendant could have a material adverse effect on our financial condition and results of operations

We are defendants in a class action and the nominal defendant in a derivative action described herein and under “Legal Proceedings” in our periodic reports filed pursuant to the Securities Exchange Act of 1934 (see “Legal Proceedings”). No assurances can be given that the results of these litigation matters will be favorable to us or that an adverse decision in such litigation would not have a material adverse impact on our financial condition and results of operations.

* * * * *

The factors listed above are not exhaustive. Other sections of this Quarterly Report on Form 10-Q include additional factors that could materially and adversely impact JAKKS’s business, financial condition and results of operations. Moreover, JAKKS operates in a very competitive and rapidly changing environment. New factors emerge from time to time, and it is not possible for management to predict the impact of all of these factors on JAKKS’s business, financial condition or results of operations, or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.
