**Item 4.02(a) Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review**

Xenon Pharmaceuticals Inc. (the “Company”) has determined that a restatement of its financial statements is required for the quarterly period ended March 31, 2015. The corrections will have no impact on the Company’s cash and cash equivalents and marketable securities, total assets, revenue, or cash flows for the above mentioned period.

The Audit Committee of the Company’s Board of Directors concluded on August 10, 2015, after discussion with the Company’s management and its independent registered public accounting firm, KPMG LLP, that the financial statements included in the Company’s Quarterly Report on Form 10-Q for the quarter ended March 31, 2015 (the “Q1 2015 Form 10-Q”) should no longer be relied upon.

Prior to the Company’s initial public offering in November 2014, the Company granted stock options with exercise prices denominated in Canadian dollars under its Amended and Restated Stock Option Plan to members of the Company’s board of directors and certain consultants. Following the Company’s change in functional currency on January 1, 2015 to the U.S. dollar, the options with exercise prices denominated in Canadian dollars that were granted to members of the Company’s board of directors and certain consultants were subject to liability accounting. Liability classified awards are measured at fair value using the Black-Scholes option-pricing model at each reporting period with changes in fair value recognized as compensation cost of the period. Prior to January 1, 2015, these options were subject to equity accounting. In the Q1 2015 Form 10-Q, the Company accounted for these liability options under equity accounting instead of under liability accounting.
