FOR IMMEDIATE RELEASE

**SILICOM REPORTS 4th QUARTER AND
FULL YEAR 2004 RESULTS**

*Accumulating Design Wins Deliver 4th Straight Quarter of Revenue Growth
Well positioned to become the Leading Provider of Networking Products to
the Emerging High-Potential Security and Networking Appliances Markets*

KFAR SAVA, Israel January 31, 2005 Silicom Ltd. (NASDAQ:SILCF) today reported financial results for the fourth quarter and full year ended December 31, 2004.

Revenues for the fourth quarter of 2004 were \$1,581,000, an increase of 55% compared to \$1,020,000 in the fourth quarter of 2003, and the Company's highest revenues since Q1 2001. Net loss for the period was (\$87,000), or (\$0.02) per share, compared to (\$282,000), or (\$0.07) per share for the fourth quarter of 2003.

Revenues for 2004 were \$4,559,000, an increase of 22% compared to \$3,725,000 for 2003. Net loss for 2004 was (\$1,240,000), or (\$0.30) per share, compared to (\$1,509,000), or (\$0.37) per share, for 2003.

Commenting on the results, Shaïke Orbach, President and CEO, said, "We are proud to report our strongest revenues and lowest net loss since Q1 2001, a testament to the Company's accelerating Design Win momentum. Since announcing the first order for our new multi-port networking product lines in November 2003, we have accumulated more than 20 Design Wins worldwide, including Silicon Graphics (NYSE: SGI), several distinguished world-leading Internet security and firewall appliances manufacturers, and many others. These Design Wins are an expanding platform which delivered a growing stream of revenues throughout each quarter of 2004, and that we expect to generate continued growth ahead as they mature into mass production and the appliances market grows to its potential.

Mr. Orbach continued, "The driver for our success is the combination of the Design Wins we have already secured, which alone would provide growth, additional Design Wins we expect to secure in the future and the significant growth of all of our target market segments, particularly the Security and Networking Appliances markets. The new generations of Security and Networking appliances are bringing with them the need for a new class of connectivity components – components that offer a new level of functionality (in combinations of port density, copper/fiber interfaces, bypassing, tapping), throughput, reliability, availability and serviceability. One of the first to recognize the specific needs of this growing market, we designed unique functionality to support these needs into our solutions. As proved by our Design Wins success, the industry recognizes the need, and understands that our products are the answer."

Edgar Filing: SILICOM LTD - Form 6-K

As such, we believe we are positioned to emerge as the leading player of this emerging market. In the year ahead, we will continue to mine the Design Win base, and expand the platform with additional Design Wins. With unique products that fit the need of growing markets, we feel well-positioned and are working to achieve our full potential.

Silicom Ltd. is an industry-leading provider of communications connectivity solutions and advanced enabling technologies, making it the preferred time-to-market and performance partner to many of the industry's significant players. With core expertise in high performance, innovative technologies for networking and operating systems, the Company develops high-performance networking solutions for manufacturers of storage, Internet traffic management, security, and other types of server-based systems characterized by multi-port high-performance environments. Silicom also offers an extensive range of PC Cards, PCI cards and USB products. For more information, please visit: www.silicom.co.il.

Statements in this press release which are not historical data are forward-looking statements which involve known and unknown risks, uncertainties, or other factors not under the Company's control, which may cause actual results, performance, or achievements of the Company to be materially different from the results, performance, or other expectations implied by these forward-looking statements. These factors include, but are not limited to, those detailed in the Company's periodic filings with the Securities and Exchange Commission. The Company disclaims any duty to update such statements.
