FOR IMMEDIATE RELEASE

Alvarion® Wins a Project with Safaricom to Deploy a Nationwide WiMAX Network in Kenya

Initial phase of over \$12 Million for new infrastructure project to connect Kenya with high-speed broadband using 802.16e WiMAX technology, leveraging the new maritime fiber optic cable

Tel-Aviv, Israel, October 6, 2009 Alvarion Ltd. (NASDAQ: ALVR), the world's leading provider of WiMAX and wireless broadband solutions, today announced it was selected by leading Kenyan mobile services provider Safaricom for a three-year turnkey WiMAX project to deploy high-speed broadband services throughout Kenya. Using Alvarion's BreezeMAX® solution at 3.5 GHz frequency band, the WiMAX network, will enable wireless broadband for residential and corporate users, rural areas, municipalities, banks, schools and universities.

Safaricom, the largest mobile carrier in Kenya and East Africa, provides integrated data and voice communication solutions. The Safaricom WiMAX project will augment the Kenyan undersea fiber optic cable that now connects East Africa to international communications networks. The buildout of this fiber network is aimed at improving the broadband infrastructure in the country. Safaricom is also among several companies participating in this government initiative to bring fiber connectivity to Kenya.

With the commercial implementation of WiMAX, Safaricom will be able to expand into new markets and offer enhanced broadband wireless services to enterprises, residential subscribers, community broadband initiatives, local government connectivity, and a multitude of other value added applications.

Alvarion's WiMAX solution will give Safaricom the reach and network capacity to grow its subscriber base by connecting all of Kenya. Alvarion's radio base stations are built with unique innovations in radios and power amplifiers that enable better coverage and capacity and provide significant reduction in power consumption while creating an environmentally friendly network.

4

Our new WiMAX broadband network will enable us to offer high quality broadband services to our customers throughout the country, connecting all of Kenya, and creating new opportunities for business growth for multiple segments," said Michael Joseph, CEO of Safaricom. We will rely on Alvarion's proven WiMAX solutions and unparalleled experience in deploying advanced wireless broadband networks of this kind to help us build the network that will establish Safaricom as a broadband leader in the country. Safaricom's WiMAX network will be rolled out in both urban and rural markets throughout the country to provide equal opportunity to people by enabling various types of data applications including e-learning and e-government initiatives.

We are proud to partner with Safaricom, one of the most advanced and innovative operators in East Africa. We look forward to creating a state of the art network with Safaricom to bring new innovative services to Kenya," said Tzvika Friedman, president and CEO of Alvarion. Our WiMAX solutions are customized for emerging markets with capabilities that can help reduce operating costs and boost network capacity, and help deliver advanced voice and data services for a variety of applications.

Alvarion has a strong presence in Africa and has deployed over 60 WiMAX networks in the continent.

About Safaricom

With a subscriber base of over 14 million and about 2,000 base stations across the country, Safaricom is Kenya's leading total telecommunications services provider with a huge investment and market leadership in both voice and data services.

Formed at the turn of the decade as a joint venture between Vodafone and Telkom Kenya, the firm has built a solid reputation as a hot-house for innovation. Two years ago, it pioneered M-PESA, the first mobile money transfer service, anywhere in the world. Only recently, Safaricom, in another global first, became the first firm to commercially launch a solar-powered phone, Simu ya Solar.

About Alvarion

Alvarion (NASDAQ: ALVR) is the largest WiMAX pure-player with the most extensive WiMAX customer base and over 250 commercial deployments around the globe. Committed to growing the WiMAX market, the company offers solutions for a wide range of frequency bands supporting a variety of business cases. Through its OPEN WiMAX strategy, superior IP and OFDMA know-how, and ability to deploy end-to-end turnkey WiMAX projects, Alvarion is shaping the new wireless broadband experience (www.alvarion.com).

This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on the current expectations or beliefs of Alvarion's management and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: potential impact on our business of the current global recession; Alvarion's inability to capture market share in the expected growth of the WiMAX market as anticipated, due to, among other things, competitive reasons or failure to execute in our sales, services provisioning, marketing or manufacturing objectives; inability to further identify, develop and achieve success for new products, services and technologies; increased competition and its effect on pricing, spending, third-party relationships and revenues; as well as the inability to establish and maintain relationships with commerce, advertising, marketing, and technology providers, and other risks detailed from time to time in the Company's 20-F Annual Report Risk Factors section as well as in other filings with the Securities and Exchange Commission.

Information set forth in this press release pertaining to third parties has not been independently verified by Alvarion and is based solely on publicly available information or on information provided to Alvarion by such third parties for inclusion in this press release. The web sites appearing in this press release are not and will not be included or incorporated by reference in any filing made by Alvarion with the Securities and Exchange Commission, which this press release will be a part of.

You may request Alvarion's future press releases or a complete Investor Kit by contacting Kika Stayerman, kika.stayerman@alvarion.com or +972.3.767.4159.
