US same store sales were down 2.4% in the period compared to a fall of 5.5% in the second quarter, with Jared showing some early signs of a slowing sales decline. In the UK, same store sales were down 0.2% against 4.3% in the second quarter, an improved performance by Ernest Jones being noteworthy.

Signet is well prepared for the very important Holiday Season; however, the outlook on both sides of the Atlantic remains very uncertain."

**Note 1 - Impact of constant exchange rates**

Signet has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as 'at constant exchange rates' throughout this release. Signet considers this to be a useful measure for analyzing and explaining changes and trends in its results. The impact of the re-calculation of sales at constant exchange rates, including a reconciliation to GAAP sales, is shown below.
