#### Forward-looking statements

Certain sections in this document contain ‘forward-looking statements’ as that term is defined in the United States Private Securities Litigation Reform Act of 1995, such as statements that include the words ‘expect’, ‘estimate’, ‘project’, ‘anticipate’, ‘believes’, ‘should’, ‘intend’, ‘plan’, ‘could’, ‘probability’, ‘risk’, ‘target’, ‘goal’, ‘objective’, ‘will’, ‘endeavor’, ‘optimistic’, ‘prospects’ and similar expressions or variations on such expressions. These statements concern or may affect future matters, such as RBS's future economic results, business plans and current strategies. Forward-looking statements are subject to a number of risks and uncertainties that might cause actual results and performance to differ materially from any expected future results or performance expressed or implied by the forward-looking statements. Factors that could cause or contribute to differences in current expectations include, but are not limited to, legislative, fiscal and regulatory developments, accounting standards, competitive conditions, technological developments, exchange rate fluctuations and general economic conditions. These and other factors, risks and uncertainties that may impact any forward-looking statement or RBS's actual results are discussed in RBS's 2015 Annual Report and Accounts (ARA). The forward-looking statements contained in this document speak only as at the date hereof, and RBS does not assume or undertake any obligation or responsibility to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

### The Royal Bank of Scotland Group plc (RBS)

#### Business reorganisation and reporting changes

This announcement sets out changes to RBS's financial reporting: a change in accounting policy for pensions; revised operating segments; and changes in results presentation. The announcement contains restated financial results for the year ended 31 December 2014 and, to aid comparison of RBS's fourth quarter 2015 results with prior periods, restated financial information for the quarters ended 30 September 2015 and 31 December 2014.

#### Pension accounting policy

In light of developments during 2015, in particular publication by the International Accounting Standards Board of its exposure draft of amendments to IFRIC 14 ‘IAS 19 - The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction’, RBS has revised its accounting policy for determining whether or not it has an unconditional right to a refund of surpluses in its employee pension funds. Previously, where trustees have the power to use a scheme surplus to enhance benefits for members, RBS did not regard such power, in and of itself, as undermining the bank's unconditional legal right to a refund of a surplus existing at that point in time. Under the new policy, where RBS has a right to a refund, this is no longer regarded as unconditional if pension fund trustees can use a scheme surplus to enhance benefits for plan members. As a result of this policy change, a minimum funding requirement to cover an existing shortfall in a scheme may give rise to an additional liability and surpluses may not be recognised in full. The accounting policy change is being applied retrospectively and comparatives restated.

### Segmental reorganisation

RBS continues to deliver on its plan to build a stronger, simpler and fairer bank for both customers and shareholders. To support this and reflect the progress made, the previously reported operating segments will now realign as follows:

Personal & Business Banking (PBB) comprises two reportable segments:

- UK PBB serves individuals and mass affluent customers in the UK together with small businesses (generally up to £2 million turnover). UK PBB includes Ulster Bank customers in Northern Ireland.
  - Ulster Bank RoI serves individuals and businesses in the Republic of Ireland (RoI).

Commercial & Private Banking (CPB) comprises three reportable segments:

- Commercial Banking serves commercial and mid-corporate customers in the UK.
  - Private Banking serves high net worth individuals in the UK.
- RBS International (RBSI) serves retail, commercial, corporate and financial institution customers in Jersey, Guernsey, Isle of Man and Gibraltar.

Corporate & Institutional Banking (CIB) serves UK and western European customers, both corporates and financial institutions, supported by trading and distribution platforms in the UK, US and Singapore.

Capital Resolution includes CIB Capital Resolution and the remainder of RBS Capital Resolution (RCR).

Williams & Glyn (W&G) comprises RBS England and Wales branch-based businesses, along with certain small and medium enterprises and corporate activities across the UK.

Central items & other includes corporate functions, such as treasury, finance, risk management, compliance, legal, communications and human resources. Central functions manages RBS capital resources and RBS-wide regulatory projects and provides services to the reportable segments. Balances in relation to Citizens and the international private banking business are included in Central items in the relevant periods.

## The Royal Bank of Scotland Group plc (RBS)

### Reporting changes

In line with RBS's strategy to be a simpler bank the following reporting changes have been implemented in relation to the presentation of the results.

### One-off and other items

The following items were previously reported separately after operating profit; they are now reported within operating profit:

- Own credit adjustments;
- Gain/(loss) on redemption of own debt;
- Write-down of goodwill;
- Strategic disposals; and
- RFS Holdings minority interest (RFS MI) (restated for periods up to and including Q4 2014 only; this has been reported within operating profit since Q1 2015).

Own credit adjustments are included within segmental results in CIB, Capital Resolution and Central items (Treasury) in line with where the related liabilities are recorded. The non-statutory results will continue to show these items and restructuring costs and litigation and conduct costs as separate line items within the relevant caption of the income statement where significant.

### Allocation of central balance sheet items

RBS allocates all central costs relating to Services and Functions to the business using appropriate drivers; these are reported as indirect costs in the segmental income statements. However, previously central balance sheet items have not been allocated. The assets (and risk-weighted assets) held centrally, mainly relating to Treasury, are now allocated to the business using appropriate drivers.

#### Revised treasury allocations

Treasury allocations which are included within segmental net interest income and segmental net interest margins, have been revised to reflect the following:

- In preparation for the separation of W&G, the element of treasury allocations previously charged to UK PBB is now retained centrally.
- To reflect the impact of changes to the notional equity allocation detailed below.

#### Revised segmental return on equity

RBS's CET 1 target is 13% but for the purposes of computing segmental return on equity (ROE), to better reflect the differential drivers of capital usage, segmental operating profit after tax and adjusted for preference dividends is divided by notional equity allocated at different rates of 11% (Commercial Banking and Ulster Bank RoI), 12% (RBS International) and 15% for all other segments, of the monthly average of segmental risk-weighted assets after capital deductions (RWAes). This notional equity was previously 13% for all segments. In addition, due to changes in UK tax rules enacted in the Finance Act 2015, RBS has increased its longer-term effective 31 December tax rate. The notional tax rate used in the segmental ROE has been revised from 25% to 28% (Ulster Bank RoI - 15%; RBS International - 10%). RBS's forward planning tax rate is 26%.

### The Royal Bank of Scotland Group plc (RBS)

#### Annual results 2015

RBS's results for the year ended 31 December 2015 will be announced on Friday 26 February 2016. These results will be reported on the new structure and reporting basis as described above.

In conjunction with this Restatement Document, a financial supplement showing restated financial information for the last nine quarters will be available at <http://www.rbs.com/ir>

#### Document roadmap

Pages 17 to 41 show the income statement, balance sheet line items and key metrics for the new reportable segments. These reflect the re-presentation of certain items that were previously reported below operating profit.

Appendix 1 reconciles the previously published non-statutory consolidated income statement to the re-presented position and the previously published statutory consolidated income statement, consolidated statement of comprehensive income and consolidated balance sheet to the restated position. The Common Equity Tier 1 capital position and RWAs will not be restated but an illustration of the impact on the metrics of the items, discussed under 'Pension accounting policy' and 'Reporting changes' is also included on pages 1 and 2.

Appendix 2 summarises the performance of each of the new reportable segments and shows how the previously reported segments have been allocated to the new reportable segments as well as the adjustments to the new reporting basis. These tables include the income statement, key metrics (e.g. ROE, net interest margin including and excluding central interest-earning assets (IEAs), cost:income ratio) and balance sheet line items.

Appendix 3 shows the adjustments to the previously reported segment results to the new reporting basis and how these segments have been allocated to the new reportable segments. These tables include certain key metrics and balance sheet line items.

Notes:

(1) Central items includes unallocated costs and assets which principally comprise volatile items under IFRS and balances in relation to Citizens and international private banking.

(2) Refer to Appendix 1 for reconciliations of restated operating profit/(loss) to profit/(loss) attributable to ordinary (3) shareholders.

Excluding own credit adjustments, gain on redemption of own debt and strategic disposals.

(4) Excluding restructuring costs and litigation and conduct costs and write-down of goodwill.

(5) RBS's CET 1 target is 13% but for the purposes of computing segmental return on equity (ROE), to better reflect the differential drivers of capital usage, segmental operating profit after tax and adjusted for preference dividends is divided by notional equity allocated at different rates of 11% (Commercial Banking and Ulster Bank RoI), 12% (RBS International) and 15% for all other segments, of the monthly average of segmental risk-weighted assets after capital deductions (RWAEs). This notional equity was previously 13% for all segments. In addition, due to changes in UK tax rules enacted in the Finance Act 2015, RBS has increased its longer-term effective 31 December tax rate. The notional tax rate used in the segmental ROE has been revised from 25% to 28% (Ulster Bank RoI - 15%; RBS International - 10%). RBS's forward planning tax rate is 26%.

(6) Including disposal groups.

(7) Provision coverage represents loan impairment provisions as a percentage of risk elements in lending.
