<u>Reasons for excluding charges and credits</u> Management believes that the exclusion of these items enables it to evaluate more effectively the Company s operations period over period and to identify operating trends that could otherwise be masked by the excluded items.

WesternGeco pretax operating loss before charges and credits. As described above, fiscal 2003 results include a multiclient library impairment charge and a vessel impairment charge. Management believes that the exclusion of these items from WesternGeco pretax operating loss enables it to evaluate more effectively WesternGeco s operations period over period and to identify operating trends that could otherwise be masked by the excluded items.

The foregoing non-GAAP financial measures should be considered in addition to, not as a substitute for, or superior to, total debt, net income, cash flows or other measures of financial performance prepared in accordance with GAAP as more fully discussed in the Company s financial statements and filings with the Securities and Exchange Commission.
