2. Management Policy

(1) Principal management policy

The Company's management philosophy set forth below represents the core set of principles that forms the foundation for our strategies and decision-making process.

[Group Management Philosophy]

Founded on the key principles of trust and reliability,
Mitsubishi Tokyo Financial Group
contributes to the prosperity of its customers at home and abroad
and of the communities it serves, and
continuously creates social and economic value,
by providing comprehensive financial services.

(2) Basic policy regarding profit distribution

Given the public nature of a bank holding company, it is the Company's policy to endeavor to maintain stable dividends and bolster its corporate constitution and continue sound management by improving the Company group's overall strength. For the fiscal year ended March 31, 2004, the Company plans to pay year-end dividends of (Y)6,000 per share for common stock, (Y)41,250 per share for class 1 preferred stock (which, together with the interim dividend, shall result in a total of (Y)82,500 per share for the fiscal year ended March 31, 2004) and (Y)8,100 per share for class 2 preferred stock (which, together with the interim dividend, shall result in a total of (Y)16,200 per share for the fiscal year ended March 31, 2004).

(3) Basic policy relating to the possible lowering of the minimum investment amount

With regard to the possible lowering of the minimum investment amount of the Company's common stock, the Company does not believe that it needs to make any actions immediately, after taking into account such factors as the stock price, the number of shareholders, liquidity issues and the transaction costs and potential benefits. The Company, however, will continue to consider, as appropriate, the possibility of lowering the minimum investment amount, taking into account the investors' needs and the factors described above.

(4) Management target/1/

The company has set the following management targets for the fiscal year ending March 31, 2007:

- .. The company aims to achieve consolidated net business profits before credit costs for trust account and provision for formula allowance for loan losses of approximately (Y)1,270 billion,
- .. The company aims to achieve a consolidated net income of approximately (Y)600 billion,
- .. The company strives toward efficient management of capital, setting a target ROE/2/ of around 14%, and
- .. The company strives to toward reduction of expenses, setting a target consolidated expense ratio of around 45%.

Note 1) The assumptions for these targets are: in the year ending march 31, 2007, the euro-yen rate (3 months) of 0.5% (period average), Japanese yen-US dollar exchange rate of (Y)105 at the end of the period and actual GDP growth rate of 2.8%.

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

Note 2) ROE shall be calculated as follows:

$$\frac{\text{Consolidated net income} - \text{Dividends on non-convertible preferred stock}}{\frac{\{(\text{Consolidated shareholders' equity at the beginning of period} - \text{Number of outstanding shares of non-convertible preferred stock at the beginning of period} \times \text{Issued price} - \text{Land revaluation excess at the beginning of period} - \text{Unrealized gains (losses) on securities available for sale at the beginning of period} \} + \{ \text{Consolidated shareholders' equity at the end of period} - \text{Number of outstanding shares of non-convertible preferred stock at the end of period} \times \text{Issued price} - \text{Land revaluation excess at the end of period} - \text{Unrealized gains (losses) on securities available for sale at the end of period} \}}{2}} \times 100$$

(5) Medium term management strategy

MTFG has drawn up a new 3-year plan, "First Medium-Term Strategic Plan" and "Medium-Term Business Plan (2004)" that will begin from fiscal 2004, and has set an aspiration of becoming one of the world's top ten financial institutions by market capitalization.

To realize this aspiration, on April 1, 2004 we introduced an integrated business group system comprising three core business areas: Retail, Corporate, and Trust Assets (Asset Management and Administration). These three businesses will also be the Group's core sources of net operating profit. In addition, the role of the holding company has shifted from strategic coordination to integrated strategic management. As such, Groupwide strategy will be decided by the holding company and executed by Group companies.

Outline of the business strategies that will be pursued under this new structure is as follows.

(1) Enhancing corporate value

First, we aim to reduce the overlap of functions within the Group, and pursue efficiency and the benefits associated with our scale as a Group. Second, through the integration of our diverse banking, trust and securities functions we aim to deliver a diversity of products and services to our customers as an integrated Group. Third, in pursuit of integration synergies we will create and develop new services and channels. Through these three value-creating initiatives we aim to achieve a radical increase in gross profits while also controlling expenses.

(2) Delivering value to customers and to society

The entire Group will be thoroughly customer focused. We intend to shift the axis of our approach to focus on customer needs rather than business type, and to actively approach customers in order to actualize their latent needs. By delivering services that integrate the specialized functions of banking, trust and securities we aim to fulfill the true needs of our customers. In these ways we intend to foster a deep sense of trust in MTFG and to further raise our brand value as a comprehensive financial services provider that contributes to the creation of value by its customers.

Furthermore, we reaffirm our commitment to contribute to the prosperity of our customers at home and abroad and of the communities we serve, and to continuously create social and economic value, as described in our Group management philosophy. A commitment to provide a better society and environment for future generations is part of our corporate social responsibility, and we aim to achieve sustainable growth in our corporate value by enhancing the appreciation of our Group among customers, shareholders and other stakeholders over the medium and long term.

(3) Pursuing enhanced business efficiency and soundness, and building a robust management structure

The business resources released through this integration will be injected into growth areas such as our retail and trust assets businesses, and we will implement a focused allocation of our business

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

resources in pursuit of business efficiency on a Group consolidated basis. In addition we aim to further enhance our financial strength by continuing to dispose of non-performing loans and reduce our equity portfolio.

- 7 -

(6) Issues facing the company

MTFG aims to build a robust management structure appropriate for a financial institution that aims to join the global top ten. Based on our business strategy outlined above we intend to move rapidly to deal with key business issues. For example, in our retail business we will significantly increase the number of sales managers as we aim for a major increase in our marketing strength. Matching the needs of our customers at various life stages we are developing a life cycle model that aims to deliver high quality financial services to our customers in a wide variety of fields including asset management and administration, loans, and settlement. At the same time we are actively seeking to develop new, profitable opportunities.

In our corporate business with large listed companies we are aiming to grow profits from investment banking, trust assets business and securities by raising our proposal strength and product competitiveness. In respect of medium-sized clients we are not limiting our approach just to traditional lending business but are actively approaching clients for investment banking business such as securitization. In respect of small to medium-sized clients we are strengthening our line up of lending products as we aim to expand our business base.

In our trust assets business (asset management and administration) we are joining together as a group to utilize existing infrastructure, jointly use back office and IT systems and rapidly realize cost reductions. Through pursuit of a unified strategy we aim to increase the satisfaction of customers while confirming our status as a top-class domestic financial group.

In terms of internal controls we are formulating an appropriate response to the new BIS capital adequacy regulations and Section 404 of the Sarbanes-Oxley Act (Appraisal of internal controls on financial reporting) to further strengthen our management structure.

In these ways MTFG will actively pursue its integrated Group strategy. We aim to enhance our own corporate value by mobilizing the comprehensive strengths of the Group to meet the diversifying and increasingly sophisticated needs of customers, while expanding our solid income base and strengthening our competitiveness.

(7) Corporate governance principles and status of implementation of corporate governance changes

[Corporate Governance Principles]

The "Group Management Philosophy" is the basic policy for forming management strategies and all activities relating to the business decisions the Company makes. The Company also established the "MTFG Code of Ethics" which is a set of common values and ethical principles to be shared by the employees of the Company. The Company is committed to improving the corporate governance structure through the implementation of the "Group Management Philosophy" and "MTFG Code of Ethics."

[MTFG Code of Ethics]

. Establishment of Trust

Fully cognizant of the importance of the Group's social responsibilities and public role, we strive to maintain unwavering trust from society through the sound and proper management of our business activities,

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

- based on the principle of accountability.
- . Serving Our Clients First
We recognize that the satisfaction of our clients and their confidence in MTFG form the foundation of the Group's very existence. As such, we endeavor to always provide our clients with the highest quality products and services best suited to their needs.
 - . Sound and Transparent Management

The Compliance Advisory Committee met 4 times and advised and made proposals to the Board. The Advisory Board met 3 times and advised the Executive Committee.
During fiscal year 2003, the Company took active steps with respect to the disclosure of corporate information, including public disclosure of quarterly financial information which started in July, 2002, issuance of "Mini-Disclosure 2003" reports for individual customers, and disclosure of corporate information of the Company on its website.

3. Results of Operations and Financial Condition

(1) Results of operations

With respect to the financial and economic environment for the fiscal year ended March 31, 2004, in the beginning of the fiscal year, the growth of the overseas economies slowed down due to the war in Iraq and the outbreak of the SARS epidemic. After these events, however, the overseas economies moved toward recovery, particularly in the United States which implemented a large-scale tax reduction and in the Peoples' Republic of China where domestic demand continued to increase. The Japanese economy continued to recover as exports and capital expenditures increased due to a recovery in overseas demand, and conditions of employment and personal income showed signs of improvement.

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

Prices of domestic corporate goods along with consumer prices for the fiscal year ended March 31, 2004 recovered to approximately the same level as the previous fiscal year. This was due in part to a rise in prices of raw materials resulting from a recovery in global demand and a rise of rice prices resulting from a cold summer in Japan.

Regarding the financial environment, in the United States, the federal fund rate was lowered from 1.25% to 1.00% in June 2003. In the EU, the European Central Bank's policy rate was reduced from 2.5% to 2.0%. In Japan, the Bank of Japan continued to further strengthen its current "easy monetary policy," and the short-term interest rate remained at near zero percent. The long-term interest rate reached a record low in June 2003 and then rose by a large margin. The recovery of the domestic stock prices was prominent, exemplified by the rise of the Nikkei Stock Average by approximately 47% during the fiscal year ended March 31, 2004. The yen value fell against the U.S. dollar at one time toward the end of the fiscal year ended March 31, 2004, but the yen generally appreciated throughout the fiscal year.

Amidst this environment, a net income increased by (Y)722.3 billion from a net loss of (Y)161.4 billion for the fiscal year ended March 31, 2003 to a net income of (Y)560.8 billion for the fiscal year ended March 31, 2004. This increase was primarily due to the following factors.

- 11 -

The first factor was a (Y)28.8 billion increase in net business profits before credit costs for trust accounts and provision for formula allowance for loan losses from (Y)764.2 billion for the fiscal year ended March 31, 2003 to (Y)793.1 billion for the fiscal year ended March 31, 2004.

The second factor was a (Y)611.7 billion decrease in total credit costs from (Y)538.7 billion for the fiscal year ended March 31, 2003 to (Y)72.9 billion reversal of total credit costs for the fiscal year ended March 31, 2004.

The third factor was an improvement in net gains (losses) on equity securities. For the fiscal year ended March 31, 2004, net gains on equity securities was (Y)3.3 billion compared to net losses on equity securities of (Y)488.0 billion for the fiscal year ended March 31, 2003.

In addition, special gains of (Y)41.9 billion refunded enterprise taxes by the Tokyo Metropolitan Government and special gains of (Y)26.5 billion resulting from gains on transfer of the substitutional portion of future pension obligations were recorded for the fiscal year ended March 31, 2004. Impairment losses of (Y)21.5 billion were recorded as special losses for the fiscal year ended March 31, 2004. The Company applied "Accounting Standards for Impairment of Fixed Assets" at early stage for the fiscal year ended March 31, 2004.

Ordinary profit by business segment was; (Y)391.8 billion for the banking segment, (Y)130.9 billion for the trust banking segment and (Y)43.8 billion for the securities segment. Ordinary profit (loss) by geographic segment was; (Y)385.6 billion in Japan, (Y)136.6 billion in North America, (Y)52.7 billion in Europe and the Middle East, (Y)29.7 billion in Asia and Oceania excluding Japan, respectively, and ordinary loss of (Y)5.9 billion in Latin America.

Notes to Consolidated Financial Statements

Notes related to the Consolidated Balance Sheet as of March 31, 2004 are as follows:

1. Basis of Presentation

The accompanying Consolidated Balance Sheet of Mitsubishi Tokyo Financial Group, Inc. ("MTFG") and its subsidiaries is compiled as required by the Banking Law and in conformity with accounting principles generally accepted in Japan, which are different in certain respects as compared to the application and disclosure requirements of International Accounting Standards. For the convenience of readers, the presentation is modified in certain respects from the original Japanese report. The amounts are presented in millions of yen and are rounded down to the nearest million.

2. Trading Assets and Liabilities

Transactions for trading purposes (for purposes of seeking to capture gains arising from short-term changes in interest rates, currency exchange rates or market prices of securities and other market-related indices or from gaps among markets) are included in Trading assets and Trading liabilities on a trade date basis.

Trading assets and Trading liabilities are stated at market value at fiscal year end.

3. Investment Securities

Debt securities being held to maturity are stated at amortized cost computed by the moving-average method (straight-line amortization). Other securities (securities available for sale) whose current value can be estimated are stated at market value at fiscal year end (sale cost is calculated by the moving-average method) and other non-marketable securities are stated at cost or amortized cost computed by the moving-average method. Unrealized gains and losses on securities available for sale are included in shareholders' equity, net of income taxes, other than the case that the securities embedding derivatives are measured at fair value in their entirety and the change in the fair value is recognized in current earnings.

4. Securities in Money Held in Trust

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

Securities included in Money held in trust of sole investment mainly for the purpose of security investment are stated at the same method as described in notes 2. and 3.

5. Derivatives

Derivatives for purposes other than trading are stated at market value in principle.

In the previous fiscal year, MTFG's domestic banking subsidiary and trust banking subsidiary adopted the transitional treatments prescribed in the Industry Audit Committee Report No. 25, "Treatment of Accounting and Auditing Concerning Accounting for Foreign Currency Transactions in the Banking Industry" issued by the Japanese Institute of Certified Public Accountants (the "JICPA") on July 29, 2002. According to the transitional treatments, currency swap transactions and fund swap transactions for the purpose of funds borrowing/lending in different currencies were accounted for on an accrual basis as financing transactions in accordance with the Industry Audit Committee Report No. 20, "Temporary Treatment of Accounting and Auditing Concerning Accounting for Foreign Currency Transactions in the Banking Industry" issued by the JICPA on November 14, 2000. In the current fiscal year, such swap transactions are stated at market value as derivative transactions and net assets or liabilities are recorded on the balance sheet in accordance with the standard treatments of the Industry Audit Committee Report No. 25.

- 18 -

As a result, "Other assets" and "Other liabilities" increased by (Y)62,207 million, respectively. With respect to the currency swap transactions and fund swap transactions which had been accounted for on an accrual basis, the change had no effects on the results of operations since MTFG's domestic banking subsidiary and trust banking subsidiary applied hedge accounting in accordance with the Industry Audit Committee Report No. 25. Summary of the hedge accounting is described in Note 16.

In the previous fiscal year, the translation adjustments of forward exchange transactions and other relevant transactions in MTFG's domestic banking subsidiary were reported as other in "Other assets" or other in "Other liabilities" on a net basis by applying the transitional treatments prescribed in the Industry Audit Committee Report No. 25. In the current fiscal year, they are reported as trading derivative financial instruments in "Trading assets" and "Trading liabilities" or as derivative financial instruments in "Other assets" and "Other liabilities" on a gross basis in accordance with the standard treatments of the Report No. 25. The translation adjustments of forward exchange transactions and other relevant transactions in MTFG's domestic trust banking subsidiary were reported as other in "Other assets" or other in "Other liabilities." In the current fiscal year, they are reported as trading derivative financial instruments in "Trading assets" and "Trading liabilities" or as derivative financial instruments in "Other assets" and "Other liabilities." As a result, "Trading assets" decreased by (Y)100,223 million, "Trading liabilities" decreased by (Y)138,205 million, "Other assets" increased by (Y)567,858 million and "Other liabilities" increased by (Y)605,840 million.

6. Premises and Equipment

Depreciation for buildings and equipment of MTFG and its domestic banking subsidiary and trust banking subsidiary is computed using the declining-balance method.

Principal estimated useful lives are as follows:

Buildings	15 years to 50 years
Equipment and furniture	4 years to 15 years

Depreciation for buildings and equipment of other consolidated subsidiaries is computed principally using the straight-line method based on the estimated

useful lives.

7. Software

Costs of computer software developed or obtained for internal use are deferred and amortized using the straight-line method over the estimated useful lives of 5 to 10 years.

8. Bond Discount and Bond Issuance Cost

Bond discount is amortized over the remaining life of the bond.

Bond issuance cost is charged to expenses when incurred.

9. Translation of Foreign Currency Items

Foreign currency assets and liabilities and overseas branches' accounts of MTFG's domestic banking subsidiary and trust banking subsidiary are principally translated into yen equivalents at the exchange rates prevailing at fiscal year end, except equity securities of affiliated companies which are translated into yen equivalents at the exchange rates prevailing at the acquisition date for those securities.

Foreign currency assets and liabilities of other consolidated subsidiaries are principally translated into yen equivalents at the exchange rates prevailing at fiscal year end of each company.

- 19 -

10. Allowance for Loan Losses

An allowance for loan losses of MTFG's primary domestic consolidated subsidiaries is provided as detailed below, pursuant to the internal rules for self-assessment of asset quality and the internal rules for providing allowances for credit losses:

For claims to debtors who are legally bankrupt (due to bankruptcy, special liquidation, suspension of transactions with banks by the rules of clearing houses, etc.) or virtually bankrupt, an allowance is provided based on the amount of claims, after the charge-off as stated below, net of amounts expected to be collected through the disposal of collateral or execution of guarantees.

For claims to debtors who are likely to become bankrupt for which future cash flows could not be reasonably estimated, an allowance is provided for the amount considered to be necessary based on an overall solvency assessment performed for the amount of claims, net of amounts expected to be collected through the disposal of collateral or execution of guarantees.

For claims to debtors who are likely to become bankrupt and to be closely watched for which future cash flows could be reasonably estimated, an allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate and the carrying value of the claim.

For other claims, an allowance is provided based on historical loan loss experience.

The allowance for loans to specific foreign borrowers is provided based on the amount of expected losses due to the political and economic situation of their respective countries.

All claims are assessed by the branches and credit supervision divisions based on the internal rules for self-assessment of asset quality. The credit examination divisions, which are independent from branches and credit supervision divisions, subsequently conduct audits of their assessments, and an allowance is provided based on audit results.

For collateralized or guaranteed claims to debtors who are legally bankrupt or virtually bankrupt, the amount of claims exceeding the estimated value of collateral or guarantees, which is deemed uncollectible, has been charged-off and the amount was (Y)528,339 million.

An allowance for loan losses of other consolidated subsidiaries is provided based on historical loan losses experience or estimated collectibility of

specific claims.

11. Allowance for Losses on Investment Securities

An allowance for losses on investment securities is provided based on the estimated losses on non-marketable debt securities.

12. Reserve for Employees' Bonuses

A reserve for employees' bonuses is provided for the payment of employees' bonuses based on estimated amounts of the future payments attributed to the current fiscal year.

13. Reserve for Employees' Retirement Benefits

A reserve for employees' retirement benefits is provided for the payment of employees' retirement benefits based on estimated amounts of the actuarial retirement benefit obligation and the related pension assets. Prior service cost is amortized using the straight-line method over 10 years. Net actuarial gain (loss) is amortized using the straight-line method over 10 years commencing from the next fiscal year of incurrence. The unrecognized net retirement benefit obligation at the adoption of new accounting standard is being amortized using the straight-line method over 5 years.

14. Equipment Used under Finance Lease Agreements

Equipment used under finance lease agreements is accounted for as equipment leased under operating leases, except for those leases which transfer ownership of leased equipment to the lessee, in which case the equipment is capitalized.

- 20 -

15. Hedge Accounting for Interest Rate Risks

With respect to hedge accounting for interest rate risks arising from financial assets and liabilities, in the previous fiscal year, MTFG's domestic banking subsidiary and trust banking subsidiary principally applied the "macro hedge" accounting for which they manage interest rate risks arising from various deposits and loans etc. with derivative transactions as a whole in conformity with the transitional treatments prescribed in the Industry Audit Committee Report No. 24, "Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Banking Industry" issued by the JICPA on February 13, 2002. Since the beginning of the current fiscal year, they have adopted portfolio hedges or individual hedges prescribed in the Report No. 24 and the Accounting Committee Report No. 14, "Practical Guidelines for Accounting for Financial Instruments" issued by the JICPA on January 31, 2000. The method of the hedge accounting is the deferral method other than the exceptional method for certain interest rate swaps which meet the conditions of the exceptional treatment.

In hedging activities to offset changes in the fair value of fixed rate deposits and loans etc., MTFG's domestic banking subsidiary and trust banking subsidiary distinguish hedged items by grouping the hedged items by their maturities and designate interest rate swap transactions etc. as hedging instruments individually or in accordance with the Industry Audit Committee Report No. 24. In hedging activities offsetting changes in the fair value of fixed rate bonds, they distinguish hedged items by individual bond or identical type of bonds and designate interest rate swap transactions etc. as hedging instruments.

In hedging activities to fix forecasted cash flows on variable rate or short-term fixed rate deposits and loans etc., MTFG's domestic banking subsidiary and trust banking subsidiary distinguish hedged items by grouping the hedged items by their index interest rates and repricing terms and designate interest rate swap transactions etc. as hedging instruments in accordance with the Industry Audit Committee Report No. 24. Since material terms related to the hedged items and hedging instruments are substantially identical, hedge

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

relationship is deemed to be highly effective and the hedge effectiveness testing is substituted. Effectiveness is also tested by correlation of fluctuation factors in interest rates.

Deferred hedge losses and deferred hedge gains recorded on the balance sheet as of March 31, 2003 as a result of the macro hedge accounting are realized as expenses or income over the remaining lives of the hedging instruments (at most 15 years from 2003). Deferred hedge losses and deferred hedge gains attributable to the macro hedge accounting as of March 31, 2004 were (Y)198,066 million and (Y)239,720 million, respectively.

16. Hedge Accounting for Foreign Exchange Risks

With respect to hedge accounting for foreign exchange risks attributable to foreign-currency-denominated financial assets and liabilities, since the beginning of the current fiscal year, MTFG's domestic banking subsidiary and trust banking subsidiary have applied the deferral hedge accounting by distinguishing hedged items by grouping the foreign-currency-denominated financial assets and liabilities by currencies and designating currency swap transactions and forward exchange contracts (funds swap transactions) as hedging instruments, pursuant to the Industry Audit Committee Report No. 25.

They also engage in "portfolio hedge" to hedge foreign exchange risk attributable to foreign-currency-denominated investments in affiliated companies and foreign-currency-denominated securities available for sale (other than bonds), using foreign-currency-denominated liabilities and forward exchange contracts as hedging instruments. They apply the deferral hedge method to foreign-currency-denominated investments in affiliated companies and the fair value hedge method to foreign-currency-denominated securities available for sale (other than bonds).

17. Intercompany and Intracompany Swap Transactions

With respect to the intercompany and intracompany derivative transactions, realized gains (losses) or valuation gains (losses) on the interest rate swap transactions and currency swap transactions are reported in current earnings or deferred as assets or liabilities without elimination if mirror transactions with the third parties against these swap transactions designated as hedging instruments are appropriately conducted in conformity with the non-arbitrary and strict hedging policy in accordance with the Industry Audit Committee Report No. 24 and No. 25.

- 21 -

18. Consumption Taxes

The National Consumption Tax and the Local Consumption Tax are excluded from transaction amounts. The portion of the National Consumption Tax and the Local Consumption Tax, which were paid on the purchase of premises and equipment and which are not deductible as a tax credit, are charged to expenses when incurred.

19. Reserve for Expenses Related to EXPO 2005 Japan

A reserve for expenses related to EXPO 2005 Japan is provided for the expenses related to the participation in the EXPO 2005 Japan scheduled to be held in 2005 based on the estimated contractual participation expenses allocated over the period. The reserve is provided pursuant to Article 43 of the Commercial Code and includes the allowance provided pursuant to Article 68-52 of the Special Taxation Measures Law.

20. Reserves under Special Laws

Pursuant to Article 82 of the Financial Futures Transactions Law, a reserve for contingent liabilities from brokering of financial futures transactions of (Y)31 million was provided.

Pursuant to Article 51 of the Securities and Exchange Law, a reserve for

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

contingent liabilities from brokering of securities transactions of (Y)1,129 million was provided.

21. Consolidated Corporate-tax System

MTFG and certain domestic consolidated subsidiaries adopt consolidated corporate-tax system, with MTFG being a parent company under the system.

22. Due from Directors of MTFG

Due from directors of MTFG was (Y)92 million.

23. Accumulated Depreciation

Accumulated depreciation on premises and equipment was (Y)619,149 million.

24. Accumulated Impairment Losses

Accumulated impairment losses on fixed assets were (Y)21,586 million.

25. Accumulated Deferred Gains on Sales of Real Estate

Accumulated deferred gains on sales of real estate of (Y)45,867 million were deducted from the acquisition cost of newly acquired premises and equipment.

26. Lease Contracts

Other than premises and equipment which are reported on the consolidated balance sheet, some electronic computers are used by the lease contracts.

- 22 -

27. Nonaccrual Loans

Loans to customers in bankruptcy and past due loans are included in Loans and bills discounted, and the amounts were (Y)46,138 million and (Y)693,477 million, respectively. The amount of past due loans included loans of (Y)1,050 million entrusted to the Resolution and Collection Corporation, which facilitates the removal of problem loans from balance sheet.

Loans are generally placed on nonaccrual status when substantial doubt is judged to exist as to ultimate collectibility of either principal or interest if they are past due for a certain period or for other reasons. Loans to customers in bankruptcy represent nonaccrual loans, after the partial charge-off of claims deemed uncollectible, to debtors who are legally bankrupt, which are defined in Article 96, Paragraph 1, Subparagraph 3 and 4 of Enforcement Ordinance for the Corporation Tax Law. Past due loans are nonaccrual loans other than loans to customers in bankruptcy and loans for which interest payments are deferred in order to assist the financial recovery of debtors in financial difficulties.

28. Accruing Loans Contractually Past Due 3 Months or More

Accruing loans contractually past due 3 months or more are included in Loans and bills discounted, and the amount was (Y)12,260 million. Loans classified as loans to customers in bankruptcy or past due loans are excluded.

29. Restructured Loans

Restructured loans are included in Loans and bills discounted, and the amount was (Y)701,648 million. Such restructured loans are loans on which concessions (e.g., reduction of the stated interest rate, deferral of interest payment, extension of maturity date, reduction of the face amount or maturity amount of the debt or accrued interest) have been granted to debtors in financial difficulties to assist them in their financial recovery and eventually to be able to repay to creditors. Loans classified as loans to customers in bankruptcy, past due loans or accruing loans contractually past due 3 months or more are excluded.

30. Nonaccrual Loans, Accruing Loans Contractually Past Due 3 Months or More

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

and Restructured Loans

Total amount of nonaccrual loans, accruing loans contractually past due 3 months or more and restructured loans was (Y)1,453,524 million. The amount of past due loans included loans of (Y)1,050 million entrusted to the Resolution and Collection Corporation, which facilitates the removal of problem loans from balance sheet.

The amounts reflected in Notes 27. to 30. represent the gross receivable amounts prior to reduction for the allowance for loan losses.

31. Bills Discounted

Bills discounted are accounted for as secured lending transactions in conformity with the Industry Audit Committee Report No.24. Bills accepted by other banks, commercial bills, bills of exchange, and foreign bills bought discounted by MTFG's domestic banking subsidiary and trust banking subsidiary are permitted to be sold or pledged and the total face value was (Y)730,910 million.

32. Assets Pledged

Assets pledged as collateral were as follows:

Cash and due from banks	(Y)1,882 million
Trading assets	(Y)189,155 million
Investment securities	(Y)829,776 million
Loans and bills discounted	(Y)3,961,200 million
Premises and equipment	(Y)28,872 million

- 23 -

Liabilities related to the pledged assets were as follows:

Deposits	(Y)199,085 million
Call money and bills sold	(Y)4,405,600 million
Borrowed money	(Y)109,378 million
Other liabilities	(Y)10,567 million
Acceptances and guarantees	(Y)1,806 million

In addition, Cash and due from banks of (Y)165,087 million, Trading assets of (Y)2,658 million, Investment securities of (Y)3,581,458 million, Loans and bills discounted of (Y)1,413,206 million and Other assets of (Y)76,484 million were pledged as collateral for settlement of exchange or derivatives transactions or as valuation margin.

Trading assets of (Y)2,258,988 million and Investment securities of (Y)2,497,697 million were sold under repurchase agreements or lent under secured lending transactions, and Payables under repurchase agreements of (Y)2,304,661 million and Payables under securities lending transactions of (Y)2,525,523 million were corresponding.

Bills rediscounted are accounted for secured borrowing transactions in conformity with the Industry Audit Committee Report No.24. The total face value of bills accepted by other banks, commercial bills, and bills of exchange rediscounted by MTFG's domestic banking subsidiary and trust banking subsidiary was (Y)25,199 million.

33. Land Revaluation Excess

Pursuant to the Law concerning Revaluation of Land, March 31, 1998, land used for business operations of domestic subsidiaries has been revalued as of the following dates. Land revaluation excess is included in Shareholders' equity, net of income taxes. The land revaluation excess includes MTFG's ownership percentage of affiliated companies' land revaluation excess.

Date of the revaluation:

Domestic banking subsidiary	March 31, 1998
Domestic trust banking subsidiary	March 31, 2002
Other domestic subsidiaries	December 31, 2001

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

The method of the revaluation as set forth in Article 3, Paragraph 3 of the Law:

Pursuant to Article 2, Subparagraph 4 of the Enforcement Ordinance for the Law concerning Revaluation of Land, the land price for the revaluation is determined based on the method established and published by the Director General of National Tax Agency in order to calculate the land value for a basis of determining the taxable amount subject to land value tax prescribed by Article 16 of the Land Value Tax Law, reflecting appropriate adjustments for land shape and timing of the assessment and based on real estate appraisal information defined by Article 5 of the Law.

The difference between the total fair value of the land used for business operations which had been revalued pursuant to Article 10 of the Law and the total book value of such land as of March 31, 2004 was (Y)107,006 million.

Land used for business operations of a certain affiliated company has been revalued as of March 31, 2002.

34. Subordinated Borrowings

Subordinated borrowings of (Y)708,221 million were included in Borrowed money.

35. Subordinated Bonds

Subordinated bonds of (Y)1,497,892 million were included in Bonds and notes.

36. Guaranteed Trusts

Principal amounts of Jointly operated designated money trusts and Loan trusts of MTFG's trust banking subsidiary, for which repayment of the principal to the customers is guaranteed, were (Y)948,854 million and (Y)1,131,498 million, respectively.

- 24 -

37. Net Assets per Common Share

Net assets per common share were (Y)620,797.48.

38. Write Down of Investment Securities

Marketable securities other than trading securities are written down when a decline in the market value below the cost of the securities is substantial and the valuation differences are recognized as losses, based upon the judgment that the decline in market value is other than temporary at the current fiscal year-end. A "substantial decline in the market value" is recognized based on the classification of issuers as follows, pursuant to the internal rules for self-assessment of asset quality:

Issuers who are legally bankrupt, virtually bankrupt or likely to become bankrupt: Market value is lower than cost

Issuers who are to be closely watched: Market value is 30% or more lower than cost

Other issuers: Market value is 50% or more lower than cost

39. Market Value of Securities

Market value and valuation differences of securities were as follows. Securities below include trading securities, trading commercial paper and trading short-term corporate bonds classified as Trading assets, negotiable certificates of deposits classified as Cash and due from banks and investments in commodity investment trusts classified as Commercial paper and other debt purchased. The same definition is applied in Notes 40. to 42.

Among the valuation differences above, the amounts of shareholders' equity, net of income taxes were (Y)947,322 million as a result of recognizing (Y)191 million profits, which were related to the securities embedding derivatives and measured in their entirety, in current earnings. Those amounts, net of (Y)386,296 million of related deferred tax liabilities, were (Y)561,025 million. Net valuation differences, excluding minority interest of (Y)3,001 million and adding MTFG's ownership percentage of affiliates' unrealized gains on securities available for sale of (Y)2,056 million, were (Y)560,080 million which were included in Unrealized gains on securities available for sale.

40. Securities Available for Sale Sold

Securities available for sale sold during the fiscal year were as follows:

43. Money Held in Trust

Classification of Money held in trust was as follows:

Money held in trust for trading purposes

Balance sheet amount	(Y)334,316 million
Valuation gains included in Income before income taxes and others	(Y)8,247 million

Other Money held in trust

		(in millions)

Valuation differences, net of (Y)161 million of related deferred tax liabilities, were (Y)235 million which were included in Unrealized gains on securities available for sale.				

44. Securities Lent/Borrowed

Unsecured securities lent for which borrowers have rights of sale or pledge were included in Investment securities and the amount was (Y)18,210 million.

With respect to borrowed securities and purchased securities under resale agreements that are permitted to be sold or pledged, (Y)2,034,714 million were pledged, (Y)619,431 million were lent and (Y)4,916,039 million were held at hand at this fiscal year end.

45. Loan Commitments

Contracts of overdraft facilities and loan commitment limits are contracts

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

under which customers are lent to up to the prescribed limits in response to the customers' application for a loan as long as there is no violation of any condition in the contracts. The unused amount within the limits relating to these contracts was (Y)29,949,651 million.

Since many of these commitments expire without being drawn, the unused amount does not necessarily represent a future cash requirement. Most of these contracts have conditions that allow MTFG and its consolidated subsidiaries to refuse the customers' application for a loan or decrease the contract limits with proper reasons (e.g., changes in financial situation, deterioration in customers' creditworthiness, etc.). At the inception of contracts, MTFG and its consolidated subsidiaries obtain real estate, securities, etc. as collateral if considered to be necessary. Subsequently, MTFG and its consolidated subsidiaries perform periodic reviews of the customers' business results based on internal rules, and take necessary measures to reconsider conditions in contracts and/or require additional collateral and guarantees.

46. Employees' Retirement Benefits

The funded status and amounts recognized in the Consolidated Balance Sheet were as follows:

	(in millions of yen)
Projected benefit obligation	(997,243)
Fair value of plan assets	958,308
Projected benefit obligation in excess of plan assets	(38,935)
Unrecognized plan assets	(57,822)
Unrecognized net obligation at transition	16,100
Unrecognized net actuarial loss	276,175
Unrecognized prior service cost	(37,753)
Net amount recognized in the Consolidated Balance Sheet	157,764
Prepaid pension costs	189,249
Reserve for employees' retirement benefits	(34,932)

- 27 -

47. Transfer of Substitutional Portion of Pension Obligations

On August 1, 2003, according to the enactment of the Defined Benefit Pension Plan Law, MTFG's domestic banking subsidiary obtained an approval of exemption from the substitutional portion of its future pension obligations by the Minister of Health, Labor and Welfare. MTFG's domestic banking subsidiary recognized extinguishment of benefit obligation and plan assets as of the date of approval in accordance with a transitional measurement prescribed in Article 47-2 of the Accounting Committee Report No. 13, "Practical Guidelines for Accounting for Retirement Benefits (Interim Report)" issued by the JICPA on September 14, 1999.

As a result, special gains of (Y)26,503 million were recorded in this fiscal year.

The substitutional portion of the plan assets which will be transferred to the government in the subsequent year measured at the fiscal year-end was (Y)96,729 million.

48. Derivatives Embedded in Hybrid Financial Instruments

The derivatives, which were embedded in hybrid financial instruments and not required to be accounted separately from the host contracts, had been accounted for on an accrual basis together with the host contracts. Since the beginning of the current fiscal year, such embedded derivatives have been measured at market value and their valuation gains (losses) have been reported in current earnings if they are managed separately from the host contracts.

Such hybrid financial instruments had been risk adjusted items in the macro hedge accounting. Since the beginning of the current fiscal year, MTFG's domestic banking subsidiary and trust banking subsidiary have adopted the standard treatments of the Industry Audit Committee Report No. 24 and,

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

therefore, valuation gains (losses) on the derivatives which used to be risk adjusting instruments in the macro hedge accounting are reported in current earnings. In response to this change, they changed the accounting for the embedded derivatives, which had been accounted together with the host contracts, and measured them at market value and reported their valuation gains (losses) in current earnings if they are managed separately from the host contracts.

As a result, ordinary profit and income before income taxes and others increased by (Y)10,435 million, respectively.

49. Impairment of Fixed Assets

In the previous years, valuation loss attributable to the significant decline in the fair value of owned and unutilized land below the carrying amount of it had been recognized. Effective April 1, 2003, the MTFG Group adopted "Accounting Standards for Impairment of Fixed Assets" issued by the Business Accounting Council on August 9, 2002 and Financial Accounting Standard Implementation Guidance No. 6, "Implementation Guidance for Accounting Standard for Impairment of Fixed Assets" issued by the Accounting Standards Board of Japan, "ASBJ" on October 31, 2003, because their early adoption in the fiscal year ended March 31, 2004 was permitted. The adoption had an impact on Income before income taxes and others by (Y)15,255 million.

Notes related to the Consolidated Statement of Operations for the year ended March 31, 2004 are as follows:

1. Basis of Presentation

The accompanying Consolidated Statement of Operations is compiled as required by the Banking Law and in conformity with accounting principles generally accepted in Japan, which are different in certain respects as compared to application and disclosure requirements of International Accounting Standards. For the convenience of readers, the presentation is modified in certain respects from the original Japanese report. The amounts are presented in millions of yen and are rounded down to the nearest million.

2. Net Income per Common Share

Net income per common share was (Y)87,156.62.

3. Net Income per Common and Common Equivalent Share

Net income per common and common equivalent share was (Y)85,017.34.

4. Trading Profits and Losses

Profits and losses on trading transactions (dividends and interest, gains or losses on sales, and valuation gains or losses) are shown as Trading profits or Trading losses on a trade date basis.

5. Other Ordinary Income

Other ordinary income included gains on sales of equity securities of (Y)90,571 million.

6. Other Ordinary Expenses

Other ordinary expenses included losses on loan charge-offs of (Y)70,472 million and losses on sales of loans and other claims of (Y) 61,264 million.

7. Impairment of Fixed Assets

Impairment losses on fixed assets of MTFG's domestic banking subsidiary, trust banking subsidiary and a certain consolidated subsidiary for the fiscal year are as follows:

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

Area	Principal Use	Type	Impairme (in milli
Metropolitan Area	Business Premises		5
	Idle Properties and training facilities, etc. held for sale	Land, Building and Properties	22
Others	Business Premises		3
	Idle Properties and training facilities, etc. held for sale	Land, Building and Properties	14

MTFG's domestic banking subsidiary and trust banking subsidiary group business premises by each business location (sharing physically identical assets) such as a branch, an office, a department, etc. for which profit and loss are continuously measured and recognized as the minimum unit of grouping, and group unutilized assets and assets to be sold by each asset as the minimum unit of grouping. Since the head office, training facilities, computer system and business operation centers, company houses and dormitories, recreation facilities, etc. do not have identifiable cash flows that are largely independent of the cash flows of other assets and liabilities and of other asset groups, they are grouped as shared assets.

- 29 -

Though MTFG's domestic banking subsidiary revalued land used for business operations pursuant to the Law concerning Revaluation of Land, promulgated on March 31, 1998, the 8 business premises described above made unrealized losses due to declines in land prices after the revaluation of land. Since the sum of the undiscounted future cash flows on these business premises was exceeded by the carrying amount of the business premises after the revaluation, the carrying amount was reduced to the recoverable amount of the business premises and the difference of these amounts ((Y)3,541 million) was recognized as an impairment loss and reported in Special Losses. The recoverable amount used for the measurement of the impairment loss was the fair value less cost to sell. The fair value less cost to sell was determined based on the method established and published by the Director General of National Tax Agency in order to calculate the land value for a basis of determining the taxable amount subject to land value tax prescribed by Article 16 of the Land Value Tax Law, etc.

MTFG's domestic banking subsidiary, trust banking subsidiary and a certain consolidated subsidiary reduced the carrying amount of the above mentioned 30 idle properties and 6 recreation facilities to be disposed to the recoverable amount of them and the difference ((Y)18,045 million) of these amounts was recognized as an impairment loss and reported in Special Losses. The recoverable amount used for the measurement of the impairment loss was the fair value less cost to sell. The fair value less cost to sell was determined based on the expected amount for sale or real estate appraisal, etc.

8. Amortization of Bond Discount

Since the Ministerial Ordinance of the Banking Law Another Form was revised based on Article 40 of Cabinet Ordinance relating to revising a part of the Ministerial Ordinance, though amortization of bond discount had been reported separately as "Amortization of debenture discounts" in the previous years, it was included in "Interest on debentures" in the current fiscal year.

Note related to the Consolidated Statement of Capital Surplus and Retained Earnings for the year ended March 31, 2004 is as follows:

1. Basis of Presentation

The accompanying Consolidated Statement of Capital Surplus and Retained Earnings is compiled as required by the Banking Law and in conformity with accounting principles generally accepted in Japan, which are different in certain respects as compared to application and disclosure requirements of International Accounting Standards. For the convenience of readers, the presentation is modified in certain respects from the original Japanese report. The amounts are presented in millions of yen and are rounded down to the nearest million.

Notes related to the Consolidated Statement of Cash Flows for the year ended March 31, 2004 are as follows:

1. Basis of Presentation

The accompanying Consolidated Statement of Cash Flows is compiled as required by the Banking Law and in conformity with accounting principles generally accepted in Japan, which are different in certain respects as compared to application and disclosure requirements of International Accounting Standards. - In the previous fiscal year, MTFG's domestic banking subsidiary and trust banking subsidiary adopted the transitional treatments prescribed in the Industry Audit Committee Report No. 25, "Treatment of Accounting and Auditing Concerning Accounting for Foreign Currency Transactions in the Banking Industry" issued by the Japanese Institute of Certified Public Accountants (the "JICPA") on July 29, 2002. According to the transitional treatments, currency swap transactions and fund swap transactions for the purpose of funds borrowing/lending in different currencies were accounted for on an accrual basis as financing transactions in accordance with the Industry Audit Committee Report No. 20, "Temporary Treatment of Accounting and Auditing Concerning Accounting for Foreign Currency Transactions in the Banking Industry" issued by the JICPA on November 14, 2000. In the current fiscal year, such swap transactions are stated at market value as derivative transactions and net assets or liabilities are recorded on the balance sheet in accordance with the standard treatments of the Industry Audit Committee Report No. 25.
As a result, assets increased by 62,207 million yen, and its effect in the Banking segment and the Trust Banking segment was 59,734 million yen and 2,473 million yen, respectively.
In the previous fiscal year, the translation adjustments of forward exchange transactions and other relevant transactions in MTFG's domestic banking subsidiary were reported as other in "Other assets" or other in "Other liabilities" on a net basis by applying the transitional treatments prescribed in the Industry Audit Committee Report No. 25. In the current fiscal year, they are reported as trading derivative financial instruments in "Trading assets" and "Trading liabilities" or

as derivative financial instruments in "Other assets" and "Other liabilities" on a gross basis in accordance with the standard treatments of the Report No. 25. The translation adjustments of forward exchange transactions and other relevant transactions in MTFG's domestic trust banking subsidiary were reported as other in "Other assets" or other in "Other liabilities." In the current fiscal year, they are reported as trading derivative financial instruments in "Trading assets" and "Trading liabilities" or as derivative financial instruments in "Other assets" and "Other liabilities." As a result, assets increased by 467,635 million yen, and its effect in the Banking segment and the Trust Banking segment was 466,600 million yen and 1,034 million yen, respectively.

4. The derivatives, which were embedded in hybrid financial instruments and not required to be accounted separately from the host contracts, had been accounted for on an accrual basis together with the host contracts. Since the beginning of the current fiscal year, such embedded derivatives have been measured at market value and their valuation gains (losses) have been reported in current earnings if they are managed separately from the host contracts.

Such hybrid financial instruments had been risk adjusted items in the macro hedge accounting. Since the beginning of the current fiscal year, MTFG's domestic banking subsidiary and trust banking subsidiary have adopted the standard treatments of the Industry Audit Committee Report No. 24 and, therefore, valuation gains (losses) on the derivatives which used to be risk adjusting instruments in the macro hedge accounting are reported in current earnings. In response to this change, they changed the accounting for the embedded derivatives, which had been accounted together with the host contracts, and measured them at market value and reported their valuation gains (losses) in current earnings if they are managed separately from the host contracts. As a result, ordinary profit increased by 10,435 million yen, and its effect in the Banking segment and the Trust Banking segment was 8,885 million yen and 1,550 million yen, respectively.

3. With the implementation of the "Metropolitan ordinance regarding the imposition of enterprise taxes through external standards taxation on banks in Tokyo" (Tokyo Metropolitan Ordinance No.145, 2000) ("the metropolitan ordinance"), enterprise taxes which were hitherto levied on income are now levied on gross business profit.
- On October 18, 2000, MTFG's domestic banking subsidiary and trust banking subsidiary filed a lawsuit with the Tokyo District Court against the Tokyo metropolitan government and the Governor of Tokyo seeking to void the metropolitan ordinance. MTFG's domestic banking subsidiary and trust banking subsidiary won the case eventually entirely on March 26, 2002 with a decision of the Tokyo District Court in favor of MTFG's domestic banking subsidiary and trust banking subsidiary, on the grounds that the metropolitan ordinance was illegal. The District Court ordered the metropolitan government to return to MTFG's domestic banking subsidiary and trust banking subsidiary advance tax payments of (Y)11,741 million and also awarded to MTFG's domestic banking subsidiary and trust banking subsidiary damages of (Y)300 million. On March 29, 2002, the metropolitan government lodged an appeal with the Tokyo High Court against the decision, and on April 9, 2002, the plaintiff banks at the first trial, including MTFG's domestic banking subsidiary and trust banking subsidiary, also lodged an appeal. MTFG's domestic banking subsidiary and trust banking subsidiary won the second-trial case eventually on January 30, 2003 with a decision of the Tokyo High Court in the Bank's favor, on the grounds that the metropolitan ordinance was illegal. The High Court ordered the metropolitan government to return to MTFG's domestic banking subsidiary and trust banking subsidiary advance tax payments of (Y)30,409 million. On February 10, 2003, the metropolitan government lodged a final appeal with the Supreme Court against the decision, and on February 13, 2003 the plaintiff banks at the first trial, including MTFG's domestic banking subsidiary and trust banking subsidiary also lodged a final appeal.
- It is the opinion of MTFG's domestic banking subsidiary and trust banking subsidiary that the metropolitan ordinance is both unconstitutional and illegal. MTFG's domestic banking subsidiary and trust banking subsidiary have asserted this opinion in the courts and the matter is still in litigation. The fact that during this fiscal year MTFG's domestic banking subsidiary and trust banking subsidiary have applied the same treatment as in the previous fiscal year, accounting for enterprise taxes through external standards taxation on banks in Tokyo in accordance with the metropolitan ordinance, is because MTFG's domestic banking subsidiary and trust banking subsidiary have deemed it appropriate at this stage to continue with the same accounting treatment as before. This accounting treatment does not constitute in any way an admission on the part of MTFG's domestic banking subsidiary and trust banking subsidiary either of the constitutionality or of the legality of the metropolitan ordinance. With the implementation of the municipal ordinance, enterprise taxes relating to banks in Tokyo were recorded in Other ordinary expenses in the amount of (Y)19,593 million this fiscal year. As a result, there was a respective increase in Ordinary loss by the same amount as compared with the previous standards under which enterprise taxes were levied on income, and its effect in the Banking segment and the Trust Banking segment was (Y)14,960 million and (Y)4,633 million, respectively. Since the enterprise taxes in question are not included in the calculations for accounting for tax effects, there was a decrease in Assets of (Y)102,488 million as compared with the amount that it would have been had the enterprise taxes been levied on income instead of gross profits, and its effect in the Banking segment and the Trust Banking segment was (Y)99,307 million and (Y)3,180 million, respectively.
- With the implementation of the "Municipal Ordinance regarding the imposition of enterprise taxes through external standards taxation on banks in Osaka" (Osaka Municipal Ordinance No.131, 2000) ("the municipal

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

ordinance"), enterprise taxes which were hitherto levied on income are now levied on gross business profit.

On April 4, 2002, MTFG's domestic banking subsidiary and trust banking subsidiary filed a lawsuit with the Osaka District Court against the Osaka municipal government and the Governor of Osaka seeking to void the municipal ordinance. With the implementation of the "Revision of Municipal Ordinance regarding the imposition of enterprise taxes through external standards taxation on banks in Osaka" (Osaka Municipal Ordinance No.77, 2002) ("the revised municipal ordinance 2002") on May 30, 2002, and the implementation of the "Revision of Municipal Ordinance regarding the imposition of enterprise taxes through external standards taxation on banks in Osaka" (Osaka Municipal Ordinance No.14, 2003) ("the revised municipal ordinance 2003") on April 1, 2003, the special treatment regarding the tax basis is to be applicable from the fiscal year beginning on April 1, 2003. The enterprise taxes which the banks should pay to Osaka municipal government this fiscal year are subject to the supplementary provision 2 of the revised municipal ordinance 2003, which provides the banks shall pay the enterprise taxes based on the lesser of gross business profit or income. MTFG's domestic banking subsidiary and trust banking subsidiary, therefore, filed and paid the enterprise taxes based on income. The fact that MTFG's domestic banking subsidiary and trust banking subsidiary filed and paid the enterprise taxes according to the revised municipal ordinance does not constitute in any way an admission on the part of MTFG's domestic banking subsidiary and trust banking subsidiary either of the constitutionality or of the legality of the revised municipal ordinance 2002 and 2003 as well as the municipal ordinance. Since the enterprise taxes in question are not included in the calculations for accounting for tax effects, there was a decrease in Assets of (Y)17,240 million as compared with the amount that it would have been had the enterprise taxes been levied on income instead of gross profits, and its effect in the Banking segment and the Trust Banking segment was (Y)16,722 million and (Y)517 million.

4. With the implementation of the "Revision of the Local Tax Law" (Legislation No.9, 2003) on March 31, 2003, the tax basis of enterprise taxes, which was stipulated as "income and liquidation income" by the 12th paragraph of Article 72 of the Local Tax Law before the revision, is to be a combination of "amount of added value", "amount of capital" and "income and liquidation income" from the fiscal year beginning on April 1, 2004. The enterprise taxes that have tax bases of the "amount of added value" and the "amount of capital" are not pertinent to the enterprise taxes that have tax bases of income-related amounts. The "Revision of the Local Tax Law" also stipulates that the metropolitan ordinance and the municipal ordinance are to be abolished from the fiscal year beginning on April 1, 2004. In connection with the "Revision of the Local Tax Law", the effective statutory tax rates of MTFG, domestic banking subsidiary and trust banking subsidiary used in the calculations of deferred tax assets and liabilities from the fiscal year beginning on April 1, 2004 changed from 42.05% to 40.49%, from 37.98% to 40.46% and from 38.50% to 40.49%, respectively. As a result, there were an increase in Assets of (Y)65,953 million and its effect in the Banking segment, Trust Banking segment, Securities segment and Other segment was an increase of (Y)56,480 million, an increase of (Y)9,491 million, a decrease of (Y)18 million and a decrease of (Y)0 million, respectively.
5. Since the current fiscal year, MTFG has adopted Financial Accounting Standard No.1 "Accounting Standard for Treasury Stock and Reversal of Legal Reserves" issued by the Accounting Standards Board of Japan on

February 21, 2002. As a result, Ordinary loss decreased by (Y)21,444 million, and its effect in the Banking segment and the Trust Banking segment was an increase of (Y)15,445 million and a decrease of (Y)36,889 million, respectively.

On October 18, 2000, MTFG's domestic banking subsidiary and trust banking subsidiary filed a lawsuit with the Tokyo District Court against the Tokyo metropolitan government and the Governor of Tokyo seeking to void the metropolitan ordinance. It is the opinion of MTFG's domestic banking subsidiary and trust banking subsidiary that the metropolitan ordinance is both unconstitutional and illegal. MTFG's domestic banking subsidiary and trust banking subsidiary have asserted this opinion in the courts and the matter is still in litigation. This financial summary report and the accompanying financial highlights contain forward-looking statements and other forward-looking information relating to the company and/or the group as a whole (the "forward-looking statements"). The forward-looking statements are not historical facts and include, reflect or are otherwise based upon, among other things, the company's current estimations, projections, views, policies, business strategies, targets, expectations, assumptions and evaluations with respect to general economic conditions, its results of operations, its financial condition, its management in general and other future events. Accordingly, they are inherently susceptible to uncertainties, risks and changes in circumstances and are not guarantees of future performance.

Some forward-looking statements represent targets that the company's management will strive to achieve through the successful implementation of the company's business strategies. The company may not be successful in implementing its business strategy, and actual results may differ materially, for a wide range of possible reasons. Other forward-looking statements reflect the assumptions and estimations upon which the calculation of deferred tax assets has been based and are themselves subject to the full range of uncertainties, risks and changes in circumstances outlined above.

In light of the many risks, uncertainties and possible changes, you are advised not to put undue reliance on the forward-looking statements. The company is under no obligation - and expressly disclaims any obligation - to update or alter the forward-looking statements, except as may be required by any applicable laws and regulations or stock exchange rules.

Notes to Non-Consolidated Financial Statements

The accompanying Non-Consolidated Financial Statements are compiled as required by the Securities and Exchange Law of Japan and in conformity with accounting principles generally accepted in Japan, which are different in certain respects as compared to the application and disclosure requirements of International Accounting Standards. For the convenience of readers, the presentation is modified in certain respects from the original Japanese report. The amounts are presented in millions of yen and are rounded down to the nearest million.

Significant accounting policies

1. Investments
Investments in subsidiaries are stated at cost determined by the moving-average method.
2. Depreciation for fixed assets
Depreciation for premises and equipment is computed using the declining-balance method based on the following estimated useful lives. The range of estimated useful lives is principally as follows:

Leasehold improvements	3 years to 50 years
Equipment and furniture	3 years to 20 years

 Amortization for intangible assets is computed by the straight-line method over estimated useful lives. Costs of computer software developed or obtained for internal use are deferred and amortized using the straight-line method over an estimated useful life of 5 years.
3. Deferred charges
Organization costs are deferred and amortized using the straight-line method over 5 years pursuant to the Commercial Code of Japan.

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

4. Reserve
A reserve for employees' bonuses is provided for the payment of employees' bonuses based upon estimated amounts of the future payments attributed to the current fiscal year.
5. Consumption Taxes
National Consumption Taxes and Local Consumption Taxes are excluded from transaction amounts.
6. Consolidated Corporate-tax System
MTFG has adopted the consolidated corporate-tax system.

Change in accounting policies

Effective April 1, 2003, MTFG adopted "Accounting Standard for Impairment of Fixed Assets" issued by the Business Accounting Council on August 9, 2002 and Financial Accounting Standard Implementation Guidance No. 6, "Implementation Guidance for Accounting Standard for Impairment of Fixed Assets" issued by the Accounting Standards Board of Japan on October 31, 2003, because their early adoption in the fiscal year ended March 31, 2004 was permitted. There is no effect on profit (loss) for the current fiscal year or total shareholders' equity as of the fiscal year end attributable to this change.

(6) Classification Based on Prior Year Operating Results as Provided in the JICPA Audit Committee Report No. 66

Classification	Prior year operating results	Estimable period of future taxable			
		1 year	5 years	Estimable period	limi
1	Sufficient taxable income for more than three consecutive fiscal years	XXXXXX	XXXXXX	XXXXXX	X
2	Stable but insufficient taxable income for three consecutive fiscal years	XXXXXX	XXXXXX	XXXXXX	
3	Precarious and insufficient operating results due to volatile profit	XXXXXX	XXXXXX		
4	Material net operating loss carryforwards	XXXXXX			

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

Exception	Net operating loss carryforwards are attributable to extraordinary factors	XXXXX	XXXXX
5	Tax loss for three consecutive fiscal years and tax loss for the current fiscal year is expected		Cannot estimate future taxable income

Although we recorded taxable income for the fiscal year ended March 31, 2004, we are classified as "4" described above since we have material net operating loss carryforwards. However, since we believe the net operating loss carryforwards are attributable to extraordinary factors such as changes in laws and regulations, we apply the exception to classification 4. (Five years' future taxable income is estimable.)

(7) Extraordinary Factors Such as Changes in Laws and Regulations

Our net operating loss carryforwards were incurred due to, among other things, the followings: (i) we accelerated the final disposal of nonperforming loans in response to both the "Emerging Economic Package," which provided guidance to major banks to remove from their balance sheets claims to debtors classified as "likely to become bankrupt" or below, and the "Program for Financial Revival," which urged major banks to reduce the ratio of disclosed claims to total claims by about half; and (ii) we reduced our holdings of strategic equity investments under the "Law Concerning Restriction, etc. of Banks' Shareholdings etc."

(8) Realizability of Deferred Tax Assets at March 31, 2004 (Assumptions)

	(in billions of yen)
	Five year total (2004 to 2008)
1 Net business profits (based on our business plan) (*1)	4,620.0
2 Net business profits (basis of realizability determination) (*2)	3,990.0
3 Income before income taxes (basis of realizability determination)	3,240.0
4 Taxable income before adjustments (basis of realizability determination) (*3)	3,880.0
5 Temporary difference + net operating loss carryforwards (for which deferred tax assets shall be recognized)	2,750.0
6 Deferred tax assets at March 31, 2004 (*4)	1,119.0

(*1) Total of the two banks, before credit costs

(*2) Based on the scenario that current short-term interest rate level continues for the next five years

(*3) Before reversals of existing deductible temporary differences and net operating loss carryforwards

(*4) Line "5" multiplied by effective tax rate (consolidated corporate-tax basis)

(4) Classification Based on Prior Year Operating Results as Provided in the JICPA Audit Committee Report No.66

Although we recorded taxable income for the year ended March 31, 2004, we are classified as "4" described above since we have material net operating loss carryforwards. However since we believe the net operating loss carryforwards are attributable to extraordinary factors such as changes in laws and regulations, we apply the exception to classification 4. (Five years' future taxable income is estimable.)

[Extraordinary Factors Such as Changes in Laws and Regulations]

Our net operating loss carryforwards were incurred due to, among other things, the followings : (i) we accelerated the final disposal of nonperforming loans in response to both the "Emerging Economic Package," which provided guidance to major banks to remove from their balance sheets claims to debtors classified as "likely to become bankrupt" or below, and the "Program for Financial Revival," which urged major banks to reduce the ratio of disclosed claims to total claims by about half; and (ii) we reduced our holdings of strategic equity investments under the "Law Concerning Restriction, etc. of Banks' Shareholdings etc."

(5) Realizability of Deferred Tax Assets at March 31, 2004 (Assumptions)

	(in billions of yen)
	Five year total (2004 to 2008)
Net business profits (based on our business plan) (*1)	3,590.0
Net business profits (basis of realizability determination) (*2)	3,070.0
Income before income taxes (basis of realizability determination)	2,490.0
Taxable income before adjustments (basis of realizability determination) (*3)	2,980.0
Temporary difference + net operating loss carryforwards (for which deferred tax assets shall be recognized)	1,987.2
Deferred tax assets at March 31, 2004 (*4)	801.3

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

- (*1) Total of the two banks, before credit costs
- (*2) Based on the scenario that current short-term interest rate level continues for the next five years
- (*3) Before reversals of existing deductible temporary differences and net operating loss carryforwards
- (*4) Temporary difference + net operating loss carryforwards (for which deferred tax assets shall be recognized) multiplied by effective tax rate (consolidated corporate-tax basis)

(4) Classification Based on Prior Year Operating Results as Provided in the JICPA Audit Committee Report No.66

Although we recorded taxable income for the year ended March 31, 2004, we are classified as "4" described above since we have material net operating loss carryforwards. However since we believe the net operating loss carryforwards are attributable to extraordinary factors such as changes in laws and regulations, we apply the exception to classification 4. (Five years' future taxable income is estimable.)

[Extraordinary Factors Such as Changes in Laws and Regulations]

Our net operating loss carryforwards were incurred due to, among other things, the followings : (i) we accelerated the final disposal of nonperforming loans in response to both the "Emerging Economic Package," which provided guidance to major banks to remove from their balance sheets claims to debtors classified as "likely to become bankrupt" or below, and the "Program for Financial Revival," which urged major banks to reduce the ratio of disclosed claims to total claims by about half; and (ii) we reduced our holdings of strategic equity investments under the "Law Concerning Restriction, etc. of Banks' Shareholdings etc."

(5) Realizability of Deferred Tax Assets at March 31, 2004 (Assumptions)

Exception	Net operating loss carryforwards are attributable to extraordinary factors	XXXXX	XXXXX
5	Tax loss for three consecutive fiscal years and tax loss for the current fiscal year is expected		Cannot estimate future taxable income

Although we recorded taxable income for the fiscal year ended March 31, 2004, we are classified as "4" described above since we have material net operating loss carryforwards. However, since we believe the net operating loss carryforwards are attributable to extraordinary factors such as changes in laws and regulations, we apply the exception to classification 4. (Five years' future taxable income is estimable.)

(7) Extraordinary Factors Such as Changes in Laws and Regulations

Our net operating loss carryforwards were incurred due to, among other things, the followings: (i) we accelerated the final disposal of nonperforming loans in response to both the "Emerging Economic Package," which provided guidance to major banks to remove from their balance sheets claims to debtors classified as "likely to become bankrupt" or below, and the "Program for Financial Revival," which urged major banks to reduce the ratio of disclosed claims to total claims by about half; and (ii) we reduced our holdings of strategic equity investments under the "Law Concerning Restriction, etc. of Banks' Shareholdings etc."

II. Overview of MTFG's First Medium-Term Strategic Plan

1. Aspiration - To join the Global Top Ten

Within three years MTFG aims to become one of the world's top ten financial institutions by market capitalization

2. Basic strategy to achieve our aspiration

-
- . Enhance our corporate value by pursuing integration synergies utilizing three value-creating initiatives, and significantly strengthen core net operating profit by considerably expanding gross profits while also controlling expenses.
 - . Create value for customers through a thorough focus on customers and an integrated Group strategy.
 - . Pursue efficiency on a consolidated Group basis by improving and unifying management and administration of the Group.
 - . Promote measures to achieve renewed growth. The holding company has assumed the role of providing integrated strategic management, and has introduced an integrated business group system. In addition to personnel development and training and strategic deployment of IT systems, we aim to build a robust management structure that is appropriate for a member of the global top ten.
-

(1) Enhancement of corporate value

- . Three value-creating initiatives

- X Reduce overlaps and pursue scale merits

We intend to mobilize the comprehensive strengths of the Group to provide financial services to retail and corporate customers and to achieve scale merits and efficiencies that are difficult to achieve within the individual banking, trust and securities businesses.

- X Promote cross-selling between banking, trust and securities businesses

Based on a thorough understanding of customers' needs and through intra-Group collaboration, we intend to provide customers with truly unified financial services and realize integration synergies.

Mitsubishi Tokyo Financial Group, Inc.

- X Create and develop new services and channels

In each of our business areas - retail, corporate and trust assets (asset management and administration) - we seek integration synergies by creating and developing new services and channels.

MTFG Plaza - Integrated retail outlets that seek to provide convenience of time and place.

Global partner - A team approach combining the expertise of banking, trust and securities.

New investment trust company - Integrate the Group's asset management platform and further utilize our marketing channels under the Mitsubishi brand.

. Solid income base

By enhancing the core competencies of the Group, which include a high quality customer base, a full line-up of products and services and the leading global network among Japanese banks, we aim to maintain and expand our solid income base.

(2) Delivery of value to customers and to society

. Thorough customer focus

We intend to shift the axis of our approach to focus on customer needs rather than business type and build a structure that can rapidly and efficiently deliver innovative products and services. By actively approaching customers we will actualize the latent needs of our customers, and aim to fulfill their true needs by delivering services that integrate the specialized functions of banking, trust and securities. In these ways we intend to foster a sense of trust in MTFG and further raise our brand value as a comprehensive financial services provider that contributes to the creation of value by its customers.

. Socially responsible management

We reaffirm our commitment to contribute to the prosperity of our customers at home and abroad and of the communities we serve, and to continuously create social and economic value, as described in our Group management philosophy. A commitment to provide a better society and environment for future generations is part of our corporate social responsibility, and we aim to achieve sustainable growth in our corporate value by enhancing the appreciation of our Group among customers, shareholders and other stakeholders over the medium and long term.

(3) A business strategy to create corporate value

. Basic business strategy

X Unified Group strategy formulation

New business strategy and strategy with respect to particular customers will be formulated by the Executive Committee and each integrated business group of the holding company as we seek to implement our strategies as a unified Group.

X Focused allocation of business resources to strategic areas

Business resources released through the integration of Group functions will be injected into strategic growth areas such as our retail and trust assets businesses.

X Reduction of expense ratio by expanding gross profits

We aim to reduce the expense ratio by significantly increasing gross profits while controlling Group consolidated expenses.

X Creation of new products and services

The new integrated business groups will combine banking, trust and securities functions to develop new products and services that aim to fulfill the requirements of the most sophisticated customers and that can be standardized for other customers.

X Continue to further reduce our balance of NPLs and equity holdings

. Disposal of non-performing loans

Further reduce our balance of NPLs and target an NPL ratio of 1 to 2% (sum of BTM & MTBC non-consolidated figures) by fiscal 2006.

. Reduction of equity holdings (Book-value basis)

Continue to reduce equity holdings and target a level of around 50% of core capital by fiscal 2006.

. Overall management and administration of the Group

We are introducing a Groupwide appraisal system as part of our initiative to foster a consolidated Group mindset and pursuing the improvement and unification of various kinds of management and administration including finances, risk management and asset & liability management. We seek to further improve our business efficiency through unified management and administration.

. Pursue efficiency as a consolidated Group

We aim to improve business efficiency through concentrating and streamlining the corporate center functions of MTFG, BTM and MTBC, conducting joint procurement and joint office space management, reviewing investment costs, improving productivity, and radically redesigning and speeding up business processes.

(4) Measures to achieve renewed growth

. Personnel development and training

We will implement large-scale personnel exchanges, aiming for the most effective deployment of staff within the Group. We will also train professional experts in various areas of business to aggressively pursue the creation of new value.

. Organization

The role of the holding company has shifted from strategic coordination to integrated strategic management, and we have introduced an integrated business group system by reorganizing our business focused on the axis of customer needs. Furthermore, through improvement of corporate governance, we aim to speed up

business management.

- . IT Systems

We will improve IT systems and infrastructure and are considering sharing these systems and infrastructure within the Group.

- . Building a robust management structure

We aim to build a robust management structure that is appropriate for a financial group that aims to join the global top ten. We are formulating an appropriate response to the new BIS capital adequacy regulations and Section 404 of the Sarbanes-Oxley Act (Appraisal of internal controls on financial reporting) while using a number of business performance indicators as part of our new structure to comprehensively progress reforms of the Group.

3. Financial Targets (Fiscal 2006 Targets)

- . Consolidated Financial Targets

The fiscal 2006 targets assume the following:

- A 3-month yen Tibor of 0.5% (the average for the plan period)

3. General and administrative expenses / Gross profits (before trust account write-offs)

Mitsubishi Tokyo Financial Group, Inc.

- . Profit targets by business area

We aim to approximately double the total net operating profit contributed by our three businesses of retail, corporate and trust assets (core net operating profit) from the fiscal 2003 level. (Retail business more than 3 times, Corporate business approximately 1.5 times and Trust Assets business more than 4 times (each compared to fiscal 2003)).

Fiscal 2006

Edgar Filing: MITSUBISHI TOKYO FINANCIAL GROUP INC - Form 6-K

Net operating profit ((Y) Billions)	Fiscal 2003 (Actual)	(Target) (compared to Fiscal 2003)
Integrated Retail Banking Business Group	95.1	More than 3 times*
Integrated Corporate Banking Business Group	403.2	Around 1.5 times
Integrated Trust Assets Business Group	9.5	More than 4 times
TOTAL (Core net operating profit)	507.9	Approx. 2 times

* Assuming no increase in interest rates, more than 2 times.

. Business portfolio targets

We aim to grow the combined share of total net operating profits contributed by the three business groups from 63% in fiscal 2003 to more than 75% in fiscal 2006. Target shares of total net operating profit for each business group are as follows: The retail business from 12 % in fiscal 2003 to more than 25 % in fiscal 2006; the corporate business from 50 % in fiscal 2003 to 45-50 % in fiscal 2006; and the trust assets business from 1% in fiscal 2003 to 3-5% in fiscal 2006.
