Table of Contents**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****1. Basis of Presentation**

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-KSB Annual Report for 2003 filed with the Securities and Exchange Commission. The accompanying unaudited consolidated financial statements reflect all adjustments (which were normal and recurring) that are, in the opinion of the Company's management, necessary to present the financial position, results of operations, and cash flows of the Company. The results of operations and other data for the three and nine-month period ended June 30, 2004 are not necessarily indicative of results that may be expected for the fiscal year ending September 30, 2004 or any future period. The consolidated balance sheet of the Company as of September 30, 2003 has been derived from the audited consolidated balance sheet of the Company as of that date and have been restated to comply with the provisions of FIN 46 (Revised).

Stock Options

At June 30, 2003, the Company has a stock-based employee compensation plan. The Company accounts for this plan under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations. No stock-based employee compensation cost is reflected in net income, as all options granted under this plan had an exercise price equal to the market value of the underlying common stock on the grant date. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value provisions of FASB Statement No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

2. Recent Accounting Changes

During the quarter ended March 31, 2004, the Company applied the provisions of Financial Accounting Standards Board Interpretation 46 (Revised), Consolidation of Variable Interest Entities, to its trust preferred securities. The primary impact of this change was to report the Company's subordinated debt to the trust on the face of the accompanying balance sheet rather than the minority interest in the trust, as previously presented. This change has been made for all periods presented. This change did not have a material impact on the Company's total assets, liabilities, stockholders' equity or results of operations.

3. Subsequent Event

On July 9, 2004 at 5:00 p.m., the Company completed its strategic alliance with Independence Bancorp, New Albany Indiana (Bancorp). The Company now operates under the name of 1st Independence Financial Group, Inc. (1st Independence Financial) and First Financial now operates under the name of 1st Independence Bank, Inc. First Financial Bank was merged with and into 1st Independence Bank, Bancorp's wholly owned subsidiary. Approximately 690,000 shares of 1st Independence Financial's common stock will be issued to Bancorp's shareholders. Additionally, 1st Independence Financial will change its year end from September 30 to December 31.

Under the terms of the agreement, one share of the Company's common stock will be issued for each share of Bancorp. The acquisition will be accounted for under the purchase method of accounting. The Company will recognize approximately \$258,000 in core deposit intangibles which will be amortized over a seven year period and approximately \$11,466,000 of goodwill. At June 30, 2004, Bancorp had total assets and shareholders' equity of approximately \$145,843,000 and \$8,520,000. The results of operations of Bancorp will be included in the Company's results beginning July 9, 2004.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

At June 30, 2004, total assets increased approximately \$6.8 million to \$180.4 million from \$173.6 million at September 30, 2003. For the three months ended June 30, 2004, the Company incurred a net loss of \$682,000 or \$(.58) per diluted share. This represents a decrease in net earnings of \$909,000 compared to the same three month period in 2003. Net earnings for the three month period ended June 30, 2003 totaled \$227,000 or \$.18 per diluted share. For the nine months ended June 30, 2004, the Company incurred a net loss of \$339,000 or \$(.29) per diluted share, representing a decrease in net earnings of \$1.2 million compared to net earnings of \$876,000 or \$.69 per diluted share for the nine-month period ended June 30, 2003.

During the quarter ended June 30, 2004, the Company incurred a non-recurring net charge of approximately \$469,000 after taxes, or \$.40 per diluted share, in connection with the termination of its data processing contract as a result of the merger with Independence Bancorp, which was completed on July 9, 2004. See Note 3 Subsequent Event to the Unaudited Condensed Consolidated Financial Statements.

Additionally, on or about May 28, 2004, a complaint was filed in the Circuit Court of Anderson in the Commonwealth of Kentucky by certain persons arising from a stock buyback made by the Company in a tender offer prior to the announcement of a merger. Such persons are seeking damages in connection with the shares it sold in the tender offer. The Company believes that the complaint is without merit.

On July 9, 2004, the Company completed its strategic alliance with Independence Bancorp, New Albany, Indiana, see Note 3 Subsequent Event to the Unaudited Condensed Consolidated Financial Statements. Upon completion of the strategic alliance, the Company expanded its operations by adding four full service banking offices located in New Albany, Jeffersonville and Marengo, Indiana and Louisville, Kentucky. The Company also operates 1st Independence Mortgage Group, Inc. in both Louisville, Kentucky and Southern Indiana. Because of the Company's expanded operations, non-interest will increase in future periods.

The average balance of interest-bearing liabilities was \$151.5 million in the three-month period ended June 30, 2004 compared to \$134.2 million for the same period in 2003.

Provision for Losses on Loans

The provision for losses is charged to operations to bring the total allowance for loan losses to a level that represents management's best estimate of the losses inherent in the portfolio based on:

Historical experience;

Volume;

Type of lending conducted by the Banks;

Industry standards;

The level and status of past due and non-performing loans;

The general economic conditions in the Bank's lending areas;

Other factors affecting the collectibility of the loans in the portfolio.

For the three months ended June 30, 2004, the provision for loan losses was \$27,000 compared to \$60,000 for the same period in 2003. The decrease in the provision for loan losses in 2004 as compared to the 2003 period was primarily related to the \$60,000 provision for loan losses in 2003 in connection with Citizens' loan portfolio.

The allowance for loan losses is maintained at a level that represents management's best estimates of losses in the loan portfolio at the balance sheet date. However, there can be no assurance that the allowance for losses will be adequate to cover losses, which may be realized in the future.

and that additional provisions for losses will not be required.

Non-Interest Income

Non-interest income was \$82,000 and \$241,000 for the quarters ended June 30, 2004 and 2003, respectively. The decrease in non-interest income of \$159,000 in 2004 compared to 2003 is primarily due to the loss of \$90,000 on the writeoff of assets in connection with the merger with Independence Bancorp and the decrease in the earnings of the equity method investee of \$46,000.

Non-Interest Expense

Non-interest expense increased approximately \$1.3 million, or 146.9% to \$2.2 million for the three-month period ended June 30, 2004 compared to \$905,000 for the same period in 2003. The increase of \$1.3 million is primarily due to an increase in data processing expense of \$957,000, an increase in compensation expense of \$271,000, plus an increase in other operating expenses of \$79,000. The increase in data processing of \$957,000 is primarily due to a lease termination fee and other related charges on a

service bureau contract for data processing services, as a result of the merger with Independence Bancorp. Compensation expense increased \$271,000 of which approximately \$150,000 is related to increases in benefit expenses pertaining to the ESOP and other retirement plans. The increase in other operating expense is primarily due to an increase in printing cost of \$37,000 associated with the merger.

Effective June 30, 2004, Jack D. Hood's employment ended as Treasurer and Director of the Company and First Financial. Mr. Hood will be paid his salary through June 30, 2005. The increase in data processing expense is due to a lease termination fee and other related charges totaling approximately \$957,000, resulting from the merger with Independence Bancorp. Liquidity

Edgar Filing: 1ST INDEPENDENCE FINANCIAL GROUP, INC. - Form 10QSB

The liquidity of the Company depends primarily on the dividends paid to it by First Financial and Citizens. The payment of cash dividends by the Banks on their common stocks is limited by regulations of the OTS and the FDIC, which are tied to their level of compliance with their regulatory capital requirements.

The Banks' primary sources of funds are deposits and proceeds from principal and interest payments of loans. Additional sources of liquidity are advances from the FHLB of Cincinnati and other borrowings, such as Federal Funds purchased. At June 30, 2004, First Financial had advances from the FHLB totaling \$7.5 million, and Citizens had advances from the FHLB totaling \$1.84 million. First Financial and Citizens use FHLB borrowings during periods when management of the Banks believe that such borrowings provide a lower cost source of funds than deposit accounts, and they desire liquidity in order to help expand its lending operations.

Table of Contents

The Company's operating activities produced positive cash flows for the quarters ended June 30, 2004 and 2003.

The Company's most liquid assets are cash and cash-equivalents, which include investments in highly liquid, short-term investments. At June 30, 2004 and September 30, 2003, cash and cash equivalents totaled \$6.7 million and \$8.5 million, respectively.

At June 30, 2004, the Banks had \$89.2 million in certificates of deposits due within one year and \$18.2 million due between one and three years. Management believes, based on past experience, that the Banks will retain much of the deposits or replace them with new deposits. At June 30, 2004, the Banks had \$1.0 million in outstanding commitments to originate mortgages, unused home equity and commercial lines of credit totaling \$11.2 million, available construction loan draws of \$5.1 million, and standby letters of credit outstanding of \$34,000. The Banks intend to fund these commitments with short-term investments and proceeds from loan repayments.
