Table of Contents**Flag Financial Corporation and Subsidiary****Notes to Consolidated Financial Statements**

The accompanying consolidated financial statements have not been audited. The results of operations are not necessarily indicative of the results of operations for the full year or any other interim periods.

Note 1. Basis of Presentation

The consolidated financial statements include the accounts of Flag Financial Corporation (Flag or the Company) and its wholly owned subsidiary, Flag Bank (the Bank). All significant intercompany accounts and transactions have been eliminated in consolidation.

The consolidated financial information furnished herein represents all adjustments that are, in the opinion of management, necessary to present a fair statement of the results of operations, and financial position for the periods covered herein and are normal and recurring in nature. For further information, refer to the consolidated financial statements and related notes included in Flag s annual report on Form 10-K for the year ended December 31, 2005.

Note 2. Merger and Acquisition

On November 21, 2005, Flag acquired 100 percent of the outstanding common shares of First Capital Bancorp (First Capital), a bank holding company headquartered in Norcross, Georgia. First Capital was the parent company of First Capital Bank, a community bank with five banking offices in the north metro Atlanta market. The merger accelerated Flag s strategy to continue to grow its presence in the metro Atlanta area. The consideration for the acquisition was a combination of cash and common stock with an aggregate purchase price of approximately \$137.6 million. The total consideration consisted of \$19.1 million in cash, approximately 6.9 million shares of Flag Financial common stock with a value of approximately \$112.7 million and 784,000 stock options with a value of approximately \$5.8 million. The value of the shares of common stock issued of \$16.28 was based on the average closing price of Flag s common stock for the 20 trading days immediately preceding the merger.

In conjunction with the merger, Flag accrued certain merger related expenses related to severance and personnel related charges, professional fees, contract termination costs, systems conversion and related charges. The severance and personnel related costs include severance, employee retention, payments related to change in control provisions of employment contracts and other costs associated with employee termination. Professional fees include investment bankers, legal and accounting fees. Contract termination costs include amounts owed to service providers as a result of early termination of service contracts. Systems conversion and related charges include charges necessary to convert the operations of acquired branches. At March 31, 2006, accrued merger costs of \$975,000 remained unpaid.

The following table presents a summary of merger accrual activity for 2006 (in thousands):

	Accrued at December 31, 2005	Utilized	Balance at March 31, 2006
Severance and personnel related charges	\$ 1,507	\$ (553)	\$ 954
Professional fees	3	(3)	
Systems conversion and related charges	28	(7)	21
Total	\$ 1,538	\$ (563)	\$ 975

Table of Contents**Flag Financial Corporation and Subsidiary****Notes to Consolidated Financial Statements****Note 3. Net Earnings Per Common Share**

Net earnings per common share are based on the weighted average number of common shares outstanding during each period. The calculation of basic and diluted earnings per share is as follows (in thousands, except per share amounts):

	Three Months Ended March 31,	
	2006	2005
Basic earnings per share:		
Net earnings	\$ 5,384	\$ 1,827
Weighted average common shares outstanding	16,890	8,515
Basic earnings per share	\$ 0.32	\$ 0.21
Diluted earnings per share:		
Net earnings	\$ 5,384	\$ 1,827
Effect of dilutive stock options and warrants	508	753
Diluted earnings per share	\$ 0.31	\$ 0.20

Note 4. Stock-Based Compensation

Effective January 1, 2006, Flag adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 123(R), *Share-Based Payment*. SFAS No. 123(R) requires compensation expense to be recognized for share-based payments over the vesting period based on the award's fair value at the date of grant. SFAS No. 123(R) also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow as previously required.

Flag adopted SFAS 123(R) using the modified prospective application; accordingly, the financial statements for periods prior to January 1, 2006, will not include compensation cost calculated under the fair value method. Under the modified prospective application, SFAS 123(R) applies to new awards and to awards modified, repurchased or cancelled after the effective date. SFAS 123(R) also applies to awards granted prior to, but not yet vested, as of January 1, 2006, as if the fair value method required for pro forma disclosure under SFAS 123, *Accounting For Stock-Based Compensation*, were in effect for expense recognition purposes. For the quarter ended March 31, 2006, Flag recognized \$132,000 in share-based compensation costs or \$0.01 per basic and diluted share. As of March 31, 2006, all of Flag's unvested stock options are tax qualifying and no income tax benefits were recognized relating to the compensation expense.

Prior to the adoption of SFAS No. 123(R), Flag accounted for stock-based compensation to employees and non-employee members of the Board under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. No stock-based employee compensation cost was reflected in net earnings, as all stock options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant.

Table of Contents**Flag Financial Corporation and Subsidiary****Notes to Consolidated Financial Statements****Note 4. Stock-Based Compensation, continued**

The following table illustrates the effect on net earnings and earnings per share if Flag had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation for the quarter ended March 31, 2005 (in thousands, except per share amounts):

Net earnings as reported	\$ 1,827
Deduct: Total stock-based employee compensation expense determined under fair-value based method for all awards	(50)
Pro forma net earnings	\$ 1,777
Basic earnings per share:	
As reported	\$ 0.21
Pro forma	0.21
Diluted earnings per share:	
As reported	\$ 0.20
Pro forma	0.19

Flag sponsors an employee stock incentive plan and a director stock incentive plan. The plans were adopted for the benefit of directors and key officers and employees in order that they may purchase Flag stock at a price equal to the fair market value on the date of grant. A total of 1,314,000 shares were reserved for possible issuance under the employee plan and approximately 267,000 shares were reserved under the director plan. The options generally vest over a four-year period and expire after ten years. The plans expired in 2004 and a new plan was adopted. A total of 543,000 shares were reserved for the benefit of directors and key officers and employees under the new plan.

In connection with the Company's 2002 private placement of common stock and warrants, warrants were issued for the purchases of common stock for \$1 per warrant. The warrants allow each holder to purchase one additional share of common stock for each share purchased in connection with the private placement and were issued as of the date of issuance of common stock sold in the private placement. There are 24,000 warrants issued, but not exercised at March 31, 2006. The warrants are exercisable for a period of ten years following the 2002 issuance at prices of \$9.10 per share.

First Capital had stock option plans for key employees with similar provision as Flag's plan. Options under First Capital's acquired plans were converted at the exchange ratio effective for common shares of 1.6 per share. No options are available for grant under the acquired plans.

A summary of activity in the warrants and stock option plans is presented below.

	Shares	Weighted Average Price Per Share
Outstanding, at December 31, 2005	1,746,656	\$ 10.58
Granted during the year	22,500	17.21
Cancelled during the year	(6,950)	13.13
Exercised during the year	(19,125)	7.84

Outstanding, at March 31, 2006	1,743,081	\$ 10.69
--------------------------------	-----------	----------

Table of Contents**Flag Financial Corporation and Subsidiary****Notes to Consolidated Financial Statements****Note 4. Stock-Based Compensation, continued**

A summary of options and warrants outstanding as of March 31, 2006 is presented below:

Options and Warrants Outstanding	Range of Price per Share	Weighted Average Price Per Share	Years Remaining	Options and Warrants Currently Exercisable	Weighted Average Price Per Share
436,431	\$ 3.47 - 6.75	\$ 6.05	3	436,431	\$ 6.06
453,956	6.76 - 10.00	8.24	5	453,956	8.24
852,694	10.01 - 16.36	14.37	8	609,209	14.19
1,743,081	\$ 3.47 - 16.36	\$10.69	6	1,499,596	\$10.02

During the first three months of 2006 and 2005 the fair value of each option was estimated on the date of grant using the Black-Scholes options-pricing model with the following weighted average assumptions:

	Three Months Ended March 31, 2006	2005
Weighted average grant date fair value	\$5.07	\$3.92
Risk-free interest rate (range)	4.37% - 4.38%	4.24%
Expected dividend yield (range)	1.55% - 1.56%	1.80%
Expected stock price volatility (range)	0.2425 - 0.2445	0.2225
Expected life	7 years	7 years

Responsive to its plan of implementation of SFAS No. 123(R) and consistent with Flag's long-term compensation strategies, the Board of Directors of Flag approved the granting of 232,000 options in the fourth quarter of 2005 which were vested immediately. The decision to accelerate the vesting of these options was made primarily to reduce noncash compensation expense that would have been recorded in Flag's statement of earnings in future periods as a result of the adoption of SFAS No. 123(R) in January 2006.

As of March 31, 2006, there was \$850,000 in total unrecognized compensations cost related to nonvested share-based compensation arrangements granted under the plans. The cost is expected to be recognized over a weighted average period of 11.0 months.

Note 5. Recent Accounting Pronouncements

In addition to the adoption of SFAS No. 123(R) in the first quarter of 2006, the following are other recent accounting pronouncements affecting Flag.

In February 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 155 *Accounting for Certain Hybrid Financial Instruments - an amendment of SFAS No. 133 and 140*. This statement provides entities with relief from having to separately determine the fair value of an embedded derivative that would otherwise be required to be bifurcated from its host contract in accordance with the requirements of SFAS 133. Entities can make an irrevocable election to measure such hybrid financial instruments at fair value in its entirety, with subsequent changes in fair value recognized in earnings. This election can be made on an instrument-by-instrument basis. The effective date of this standard is for all financial instruments acquired, issued or subject to a remeasurement event occurring after the beginning of an entity's first fiscal year that begins after September 15, 2006. SFAS No. 155 is not expected to have a material impact on Flag's financial position, results of operations or disclosures.

Table of Contents

Flag Financial Corporation and Subsidiary

Notes to Consolidated Financial Statements

Note 5. Recent Accounting Pronouncements, continued

In November 2005, the FASB issued FSP Nos. FAS 115-1 and 124-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*, which addresses the determination as to when an investment is considered impaired, whether that impairment is other than temporary, and the measurement of an impairment. The FSP also includes accounting considerations subsequent to the recognition of an other-than-temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. The guidance in the FSP amends SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, SFAS No. 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations*, and APB Opinion No. 18, *The Equity Method of Accounting for Investments in Common Stock*. The new disclosure requirements of FSP Nos. FAS 115-1 and 124-1 are effective for reporting periods beginning after December 15, 2005. During the quarter ended March 31, 2006, the Company did not experience any other-than-temporary impairment.

In May 2005, the FASB issued SFAS No. 154, *Accounting Changes and Error Corrections*, which replaces APB Opinion No. 20, *Accounting Changes*, and SFAS No. 3, *Reporting Accounting Changes in Interim Financial Statements*, and provides guidance on the accounting for and reporting of accounting changes and error corrections. SFAS No. 154 applies to all voluntary changes in accounting principle and requires *retrospective application* (a term defined by the statement) to prior periods' financial statements, unless it is impracticable to determine the effect of a change. It also applies to changes required by an accounting pronouncement that does not include specific transition provisions. In addition, SFAS No. 154 redefines *restatement* as the revising of previously issued financial statements to reflect the correction of an error. The statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Flag adopted SFAS No. 154 beginning January 1, 2006. The adoption of SFAS 154 did not have an effect on our consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Forward-Looking Statements

The following discussion and comments contain forward-looking statements relating to, without limitation, future economic performance, plans and objectives of management for future operations, and projections of revenues and other financial items that are based on the beliefs of our management, as well as assumptions made by and information currently available to our management. The words "expect", "estimate", "anticipate", and "believe", as well as similar expressions, are intended to identify forward-looking statements. Our actual results may differ materially from the results discussed in the forward-looking statements, and our operating performance each quarter is subject to various risks and uncertainties. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to, (i) the strength of the U.S. economy as well as the strength of the local economies in which operations are conducted; (ii) the effects of changing interest rates, which could lower margins; (iii) unanticipated inflation, interest rate, market and monetary fluctuations; (iv) unanticipated regulatory proceedings or legal actions, or changes in accounting policies and practices as adopted by the Financial Accounting Standards Board; (v) issues involved in the integration of acquisitions; and (vi) the timely development of products and services that position Flag to succeed in an increasingly competitive industry. If we are unsuccessful in managing the risks relating to these factors, together with other risks incident to the operation of our business, our financial condition, results of operations and cash flows could be adversely affected. Forward-looking statements speak only as of the date on which they are made. We undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made to reflect the occurrence of unanticipated events.

Flag Financial Corporation and Subsidiary

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Overview

The Company's net income for the quarter ended March 31, 2006, was \$5.4 million, or \$0.31 per diluted share, compared with net income of \$1.8 million, or \$0.20 per diluted share, for the same quarter last year.

The Company identifies three primary contributors to the magnitude of earnings improvement: (1) the successful integration of First Capital Bank into Flag Bank, (2) the success of the Company's core deposit programs, and (3) the continued outstanding performance of its lending programs.

As a result of both the First Capital acquisition and Flag's focus on core deposit growth, its funding mix has changed significantly over the past year. At the recent quarter end, noninterest-bearing deposits made up 15.7% of total deposits, up from 7.4% at March 31, 2005. Further, certificates of deposit which are the most expensive type of deposit funding, declined as a percent of total deposits from 43.0% to 40.7%. While the net interest margin decreased in the first quarter of 2006 compared to 2005, this improvement in funding mix has had a positive effect on the components of the Company's net interest margin.

The Company also continues to steadily grow its loan portfolio and produce good credit quality indicators. Solid production combined with the First Capital acquisition increased gross loans outstanding from \$615.1 million to \$1.27 billion from March 31, 2005 to March 31, 2006, while non-performing assets as a percentage of total loans dropped from 1.10% to 0.58%. The Company realized net recoveries for the first quarter of 2006 as collections on previously realized losses exceeded charge-offs.

The efficiency ratio improved to 54.3% compared to 71.8% in the first quarter of 2006 and 2005, respectively. The improvement is primarily attributable to the successful integration of First Capital Bank and management's continued focus on managing operating expenses.

Recent Merger and Acquisition

In November 2005, Flag acquired 100 percent of the outstanding common shares of First Capital, a bank holding company headquartered in Norcross, Georgia. First Capital was the parent company of First Capital Bank, a community bank with five banking offices in the north metro Atlanta market. The merger accelerated Flag's strategy to continue to grow its presence in the metro Atlanta area. The consideration for the acquisition was a combination of cash and common stock with an aggregate purchase price of approximately \$137.6 million. The total consideration consisted of \$19.1 million in cash, approximately 6.9 million shares of Flag Financial common stock with a value of approximately \$112.7 million and 784,000 in stock options with a value of approximately \$5.8 million.

Critical Accounting Policies

The accounting principles we follow and our methods of applying these principles conform with accounting principles generally accepted in the United States and with general practices within the banking industry. In connection with the application of those principles, we have made judgments, estimates and assumptions which, in the case of estimating our allowance for loan losses (ALL), have been critical to the determination of our financial position and results of operations. Management assesses the adequacy of the ALL regularly during the year, and formally prior to the end of each calendar quarter. This assessment includes procedures to estimate the allowance and test the adequacy and appropriateness of the resulting balance.

This estimation process can affect our estimated loan loss expense for a given period. Generally, the allowance for loan losses increases as the outstanding balance of loans or the level of classified or impaired loans increases. Loans or portions of loans that are deemed uncollectible are charged against and reduce the allowance. The allowance is replenished by means of a provision for loan losses that is charged as an expense. As a result, our estimate of the allowance for loan losses affects our earnings directly.

Table of Contents

Flag Financial Corporation and Subsidiary

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

The ALL consists of two portions (1) allocated amounts representing the potential exposures on specifically identified credits and other exposures readily predictable by historical or comparative experience; and (2) an unallocated amount representative of inherent loss which is not readily identifiable. Even though the ALL is composed of two components, the entire ALL is available to absorb any credit losses. Allocated amounts are used on loans where management has determined that there is an increased probability or severity of loss rather than on the loan portfolio as a whole. We base the allocation for these unique loans primarily on risk rating grades assigned to each of these loans as a result of our loan management and review processes. We then assign each risk-rating grade a loss ratio, which is determined based on the experience of management, discussions with banking regulators and our independent loan review process. We estimate losses on impaired loans based on estimated cash flows discounted at the loan's original effective interest rate or based on the underlying collateral value. To the extent that management does not believe that a certain loan's risk is appropriately represented by the risk rating grades, a specific review of the credit is performed which would result in a specific allocation for that particular loan.

Unallocated amounts are particularly subjective and do not lend themselves to exact mathematical calculation. The unallocated amount represents estimated inherent credit losses which may exist, but have not yet been identified, as of the balance sheet date. In estimating the unallocated amount, we consider such matters as changes in the local or national economy, the depth or experience in the lending staff, any concentrations of credit in any particular industry group, and new banking laws or regulations. After we assess applicable factors, we evaluate the aggregate unallocated amount based on our management's experience. We then evaluate the resulting ALL balance by comparing the balance in the ALL to historical trends and peer information. Our management then evaluates the result of the procedures performed, including the result of our testing, and concludes on the appropriateness of the balance of the ALL in its entirety.

The audit committee of our board of directors reviews the assessment prior to the filing of quarterly and annual financial information. In assessing the adequacy of the ALL, we also rely on an ongoing independent loan review process. We undertake this process both to ascertain whether there are loans in the portfolio whose credit quality has weakened over time and to assist in our overall evaluation of the risk characteristics of the entire loan portfolio. Our loan review process includes the judgment of management, input from our independent loan reviewer, and reviews that may have been conducted by bank regulatory agencies as part of their usual examination process.

See Provision and Allowance for Loan Losses for additional information.

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation****Overview of Financial Condition**

Total assets were \$1.77 billion at March 31, 2006, an increase of \$67.8 million or 4.0%, from \$1.70 billion at December 31, 2005. Interest-earning assets (consisting of loans, investment securities and short-term investments) totaled \$1.58 billion or 89.4% of total assets at March 31, 2006, compared to \$1.51 billion or 88.7% of total assets at December 31, 2005. During the same period, stockholders' equity increased \$4.8 million or 2.4% to \$209.6 million at March 31, 2006.

Loans

Loans are reported at their outstanding unpaid balances, net of the allowance for loan losses, deferred loan fees and unamortized premiums or discounts on purchased loans. Balances within the major loans receivable categories are represented in the following table (in thousands):

	March 31, 2006	% of Total Loans	December 31, 2005	% of Total Loans	March 31, 2005	% of Total Loans
Commercial/financial/agricultural	\$ 133,513	10.6%	\$ 126,293	10.3%	\$ 59,183	9.6%
Real estate - construction	492,483	38.9%	448,336	36.7%	178,892	29.1%
Real estate - mortgage	621,284	49.1%	626,189	51.3%	360,939	58.7%
Installment loans to individuals	17,568	1.4%	20,961	1.7%	16,083	2.6%
Lease financings	23		46		18	
Total loans	1,264,871	100.0%	1,221,825	100.0%	615,115	100.0%
Less: Allowance for loan losses	17,360		16,779		8,862	
Total net loans	\$ 1,247,511		\$ 1,205,046		\$ 606,253	

Loans outstanding, net, totaled \$1.25 billion at March 31, 2006 an increase of \$42.5 million or 3.5%, compared to \$1.21 billion at December 31, 2005. Construction loans located in the metropolitan Atlanta increased \$23.6 million in the quarter ended March 31, 2006 compared to December 31, 2005. Correspondent lending, which is included in commercial also contributed to the increase in the quarter ended March 31, 2006, increasing the loan portfolio by \$19.9 million over the December 31, 2005 level. Loans outstanding, net, represented 78.7% and 79.7% of interest-earning assets at March 31, 2006 and December 31, 2005, respectively.

Flag engages in a full complement of lending activities, including permanent residential mortgage loans, permanent residential construction loans, commercial mortgage loans, commercial business loans, financial loans, agricultural loans and consumer installment loans. Flag concentrates its lending activities in several areas that management believes provides adequate diversification with acceptable yield and risk levels. These areas include, but are not limited to construction, commercial real estate, agricultural and correspondent lending (lending services to other community banks). The majority of Flag's real estate loans are secured by real property located in West-Central and Middle Georgia and metropolitan Atlanta, Georgia. While risk of loss is primarily tied to the credit quality of the various borrowers, risk of loss may also increase due to factors beyond Flag's control, such as local, regional and/or national economic downturns. General conditions in the real estate market may also impact the relative risk in the real estate portfolio. Of the target areas of lending activities, commercial and financial loans are generally considered to have a greater risk of loss than real estate loans or consumer installment loans. For more information see Management's Discussion and Analysis of Financial Condition and Results of Operations - Provision and Allowance for Loan Losses.

Table of Contents

Flag Financial Corporation and Subsidiary

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Investment Securities

Investment securities at March 31, 2006, totaled \$286.6 million, an increase of \$39.4 million or 15.9%, from \$247.2 million at December 31, 2005. Investment securities comprised 18.1% and 16.3% of interest-earning assets at March 31, 2006 and December 31, 2005, respectively. Flag initiated a repositioning of its balance sheet designed to further reduce its exposure to an anticipated continued increase in interest rates and to improve net interest margin and net interest income levels. Flag sold \$67.6 million in fixed-rate investments and reinvested the proceeds in a combination of fixed-rate and variable rate investments with a higher average yield. The composition of the investment securities portfolio reflects management's strategy of maintaining an appropriate combination of liquidity, interest-rate risk and yield. Flag seeks to maintain an investment portfolio with minimal credit risk, investing mostly in obligations of the United States Treasury or other state and federal governmental agencies or quasi-agencies.

Federal Funds Sold and Other Interest-Bearing Deposits

Short-term investments (federal funds sold and other interest-bearing deposits) totaled \$21.3 million at March 31, 2006, a decrease of \$4.0 million or 15.8%, from the December 31, 2005 level of \$25.3 million. Short-term investments amounted to 1.3% of interest-earning assets at March 31, 2006 and 1.7% of interest-earning assets at December 31, 2005.

Premises and Equipment

Premises and equipment at March 31, 2006, totaled \$13.8 million, a decrease of \$224,000 or 1.6%, from \$14.0 million at December 31, 2005. In the quarter ended March 31, 2006, Flag sold its mortgage office in Columbus, Georgia, with a net book value of \$309,000 and recognized a pre-tax gain on the sale of \$219,000.

Deposits

Total deposits at March 31, 2006, were \$1.36 billion, an increase of \$79.2 million or 6.2% from \$1.28 billion at December 31, 2005. Core deposits offer the Bank a lower cost source of funds. Core deposits (noninterest-bearing demand, interest-bearing demand, money market and savings accounts) were \$808.1 million at March 31, 2006, compared to \$724.6 million at December 31, 2005. Core deposits now comprise 59.3% of the total deposit base at March 31, 2006 versus 56.4% at December 31, 2005. Noninterest-bearing deposits grew \$42.1 million to \$214.8 million at March 31, 2006 compared to \$172.7 million at December 31, 2005. The shift in the deposit base is consistent with Flag's strategic intent to increase core deposits as a source of funding and the success of the Smartstreet cash management program. Smartstreet offers custom banking and cash management services for community associations and management companies.

Time deposits declined \$4.3 million or 0.8% to \$555.0 million at March 31, 2006 compared to \$559.3 million at December 31, 2005. Time deposits comprised 40.7% of the total deposit base at March 31, 2006 compared to 43.6% at December 31, 2005. Total deposits represented 88.4% of funding sources at March 31, 2006 compared to 86.9% at December 31, 2005.

Repurchase Agreements

Repurchase agreements decreased \$2.6 million or 63.5% to \$1.5 million at March 31, 2006 from \$4.1 million at December 31, 2005. Repurchase agreements represented 0.1% of funding sources liabilities at March 31, 2006 versus 0.3% at December 31, 2005.

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation****Advances from the Federal Home Loan Bank**

Advances from the Federal Home Loan Bank (FHLB) declined \$13.0 million or 9.0% to \$130.5 million at March 31, 2006 compared to \$143.5 million at December 31, 2005. The decline in borrowings from the FHLB reflects Flag's successful implementation of its deposit initiatives. FHLB borrowings represented 8.5% of funding sources at March 31, 2006 compared to 9.7% at December 31, 2005.

FHLB advances as of March 31, 2006 and December 31, 2005 are as follows:

	March 31, 2006	December 31, 2005
FHLB advances, interest payable at fixed rates ranging from 4.51% to 5.92%; advances mature at various maturity dates from October 24, 2007 through January 17, 2012; weighted average rate at March 31, 2006 is 4.99%.	\$ 13,984	13,878
FHLB advances, interest payable at variable rates ranging from 4.32% to 4.92%; advances mature at various maturity dates from September 17, 2007 through April 25, 2012; weighted average rate at March 31, 2006 is 4.61%.	116,515	129,591
	\$ 130,499	143,469

Junior Subordinated Debentures

Junior subordinated debentures remained stable at \$46.8 million at March 31, 2006 and December 31, 2005. Junior subordinated debentures represented 3.0% of funding sources at March 31, 2006 versus 3.2% at December 31, 2005. For more information see Management's Discussion and Analysis of Financial Condition and Results of Operations - Capital.

Liquidity Management and Funding Sources

Liquidity management involves Flag's ability to maintain adequate short-term assets to meet the cash flow expectations of depositors and other lending institutions and to provide funds for the growth in interest-earning assets on a timely and cost effective basis. Liquidity is managed daily by understanding the cash flow expectations of depositors and other lending institutions and maintaining enough liquid assets to meet these expectations.

Liquid assets (assets that can be easily converted to cash) at March 31, 2006, totaled \$186.8 million and included cash and due from banks, federal funds sold and other interest-bearing deposits, unpledged investment securities available-for-sale and mortgage loans held-for-sale.

Deposits provide a significant portion of the Company's cash flow needs and continue to provide a relatively stable, low cost source of funds. As of March 31, 2006, Flag had \$324.5 million of deposits due on demand, \$462.8 million in money market deposits, \$20.8 million in savings deposits and \$424.3 million of time deposits and other borrowings due within one year. Other funding sources readily available to the Company are purchased funds, including wholesale funding sources. Wholesale funding sources include advances from the FHLB, federal funds purchased and securities sold under agreements to repurchase. Flag maintains available lines of credit with other financial institutions. These include federal funds and other lines of credit totaling \$92 million and a line of credit with the FHLB totaling \$323.7 million. Flag also maintains a line of credit with the Federal Reserve Bank of Atlanta (the FRB) totaling \$194.9 million at March 31, 2006. At March 31, 2006, of the \$610.0 million in total lines, \$481.6 million is still available to Flag. The available commitment level varies proportional to the collateral balances for the FHLB and FRB lines of credit.

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**

Cash flows from operations are also a source of liquidity. Net cash from operations results primarily from net income adjusted for certain items such as depreciation and amortization, provision for loan losses, gains on the sale of investments in real estate and timing differences from the sale of loans held for sale versus originations of loans held for sale.

Off Balance Sheet Arrangements

Flag is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments consist of commitments to extend credit and standby letters of credit. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Standby letters of credit are written conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. A commitment involves, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheets. Flag's exposure to credit loss in the event of non-performance by the other party to the instrument is represented by the contractual notional amount of the instrument.

Since certain commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Flag uses the same credit policies in making commitments to extend credit as they do for on-balance sheet instruments. Collateral held for commitments to extend credit varies but may include accounts receivable, inventory, property, plant, equipment, and income-producing commercial properties.

The following table summarizes Flag's off-balance-sheet financial instruments whose contract amounts represent credit risk as of March 31, 2006 and December 31, 2005 (in thousands):

	2006	2005
Commitments to extend credit	\$ 397,962	\$ 398,512
Standby letters of credit	\$ 6,605	\$ 13,670

Market Risk Sensitivity

Market rate sensitivity is the tendency for changes in the interest rate environment to be reflected in Flag's net interest income and results of operations. Flag, through its asset and liability management program, seeks to balance maturities and rates on interest-earning assets and the corresponding funding such that interest rate fluctuations have a minimal impact on earnings and the value of Flag's equity.

Historically, the average term to maturity or repricing (rate changes) of assets (primarily loans and investment securities) has exceeded the average repricing period of liabilities (primarily deposits and borrowings). Flag's primary source of funding has been demand and money market deposits (interest-bearing and noninterest-bearing) instead of time deposits and wholesale borrowings with longer maturities. This method of funding interest-earning assets has issues concerning interest rate risk, liquidity and profitability, all of which were contemplated and measured by the Company. Flag concluded that this strategy is the most profitable method of funding growth in interest-earning assets of the Company for the foreseeable future and has committed significant sales, marketing and training resources at being successful in this effort. Where interest rate risk is concerned, Flag considered factors such as account size, relationship strength and historical rate levels needed to remain competitive. Generally speaking, it is the opinion of management that these deposits are less sensitive to rate movements than the interest-earning assets they are funding. Flag uses an interest rate simulation model that uses management assumptions and theories regarding rate movements and the impact each movement will have on individual components of the balance sheet. As of March 31, 2006, Flag's simulation model shows that Flag's balance sheet is asset-sensitive, meaning a rising rate environment would have a positive impact on Flag's net interest income. The Company uses three standard scenarios—rates unchanged, rising rates, and declining rates—in analyzing interest rate sensitivity. At March 31, 2006, Flag's simulation model indicated that a 100 basis points increase or decrease over the next

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**

twelve months would increase net interest income approximately 4.69%, and decrease net interest income approximately 6.44% in the rising and declining rate scenarios, respectively, versus the projection under unchanged rates. Management expects that the Federal Reserve will continue to raise interest rates in 2006, though the Federal Reserve could be set to take a pause, perhaps as early as the June meeting.

Management carefully measures and monitors market rate sensitivity and believes that its operating strategies offer protection against interest rate risk. As required by various regulatory authorities, Flag's Board of Directors established an interest rate risk policy, which sets specific limits on interest rate risk exposure. Adherence to this policy is reviewed by Flag's executive committee and presented at least annually to the Board of Directors.

Flag's management from time to time uses certain derivative instruments in an effort to add stability to the Company's net interest income and manage exposure to changing interest rates. All derivatives are classified as either fair value hedges (those designed to hedge the fair market value of asset or liabilities affected by changing interest rates) or cash flow hedges (those designed to mitigate exposure to variability in expected future cash flows due to changing interest rates).

At March 31, 2006, the Company had interest rate swaps, interest rate floors and an interest rate corridor designated as cash flow hedges. No fair value hedges were outstanding. The following table summarizes the outstanding derivative instruments (dollars in thousands):

Interest Rate Swaps

Type	Transaction Date	Term Date	Notional	Receive Rate	Pay Rate	Fair Value
Receive Fixed, Pay LIBOR Swap	June 2004	June 2006	\$ 15,000	3.00%	4.82063%	\$ (76)
Receive Fixed, Pay LIBOR Swap	June 2004	Dec 2006	5,000	3.27%	4.82063%	(73)
Total Received Fixed Swaps			\$ 20,000	3.07%	4.82063%	\$ (149)

Interest Rate Floors

Type	Transaction Date	Term Date	Notional	Strike Rate	Current Rate	Fair Value
Prime Based Floorlets	May 2005	May 2008	\$ 50,000	5.50%	7.75%	\$ 2
Prime Based Floorlets	May 2005	May 2010	50,000	5.50%	7.75%	2
Total Interest Rate Floors			\$ 100,000	5.50%	7.75%	\$ 2

Type	Transaction Date	Term Date	Notional	Cap Purchased	Cap Sold	Fair Value
Interest Rate Corridor	Nov 2002	Nov 2007	\$ 5,000	4.00%	7.00%	\$ 95

As of March 31, 2006, the change in net unrealized losses of \$87,000, pretax, for derivatives designated as cash flow hedges is separately disclosed in accumulated other comprehensive income. For cash flow hedges, losses on derivative contracts reclassified from accumulated other comprehensive income to current period earnings are included in the line item in the Consolidated Statement of Earnings in which the hedged

item is recorded and in the same period the hedged item affects earnings. At March 31, 2006, Flag determined that a portion of its interest rate

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**

swaps were ineffective. As a result, Flag reclassified \$54,000 from accumulated other comprehensive income to current period earnings.

Capital

At March 31, 2006, the capital ratios of Flag and the Bank met all regulatory capital requirements to be well capitalized. Minimum ratios required for holding companies and banks to ensure capital adequacy are 8% for total capital to risk weighted assets and 4% each for Tier 1 capital to average assets. Minimum ratios required for holding companies and banks to be well capitalized under prompt corrective action provisions are 10% for total capital to risk weighted assets, 6% for Tier 1 capital to risk weighted assets and 5% for Tier 1 capital to average assets.

The Company has four statutory trusts which offered and sold Preferred Securities. The proceeds of such issuances, together with the proceeds of the related issuance of common securities of each trust were invested in junior subordinated debentures. Flag has outstanding junior subordinated debentures totaling \$46.8 million at March 31, 2006.

The following table reflects Flag's capital position with respect to the regulatory minimums as of March 31, 2006:

	Actual Amount	%	Required Amount	%	Excess Amount	%
Total Capital (to Risk Weighted Assets)	\$ 156,261	11.78%	\$ 106,146	8.00%	\$ 50,115	3.78%
Tier 1 Capital (to Risk Weighted Assets)	139,299	10.50%	53,073	4.00%	86,226	6.50%
Tier 1 Capital (to Average Assets)	139,299	8.65%	64,410	4.00%	74,889	4.65%

Provision and Allowance for Loan Losses

Flag's focus on credit quality continues to produce positive results. Recoveries of previously recognized losses exceeded charge-offs for the quarter ended March 31, 2006. Net recoveries to average loans were 0.04% for the quarter ended March 31, 2006 compared to net charge-offs of 0.08% for the quarter ended December 31, 2005. As a result of the growth in loans outstanding, loan loss provision for the quarter ended March 31, 2006 totaled \$465,000 compared to \$375,000 for the quarter ended December 31, 2005.

The allowance for loan losses is established through provisions for loan losses charged to expense. Loans are charged against the allowance for loan losses when management believes that the collection of the principal is unlikely. The allowance is an amount which, in management's judgment, will be adequate to absorb losses on existing loans that may become uncollectible.

The allowance for loan losses totaled \$17.4 million at March 31, 2006, compared to \$16.8 million at December 31, 2005. The allowance for loan losses to loans outstanding remained stable at 1.37% at March 31, 2006 and December 31, 2005. The ratio of the allowance for loan losses to nonperforming loans declined slightly to 2.84 times at March 31, 2006 from 2.89 times at December 31, 2005. Management considered the level of charge-offs and nonperforming loans, as well as the mix of nonperforming loans, in determining the level of allowance for loan losses.

An allocation of the allowance for loan losses has been made according to the respective amounts deemed necessary to provide for the probability of incurred losses within the various loan categories. Although other relevant factors are considered, management believes that the level of loan loss allowance at March 31, 2006, was adequate based primarily on previous charge-off experience, adjusted for risk characteristics associated with changes in the composition and growth in the loan portfolio, the specific circumstances of the concentrations in the nonaccrual loans and loans past due 90 days and still accruing, including the market value of collateral and

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**

economic conditions that may affect the borrowers' ability to repay and such other factors which, in management's judgment, deserve recognition under existing economic conditions.

While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in economic conditions. In addition, various regulatory agencies, as an integral part of their examination process, periodically review Flag's allowance for loan losses. Such agencies may require Flag to recognize additions to the allowance based on their judgments about information available to them at the time of their examination. For more information Management's Discussion and Analysis of Financial Condition and Results of Operation - Nonperforming Assets.

The following table presents an analysis of the allowance for loan losses for the three month periods ended March 31, 2006 and 2005 (in thousands):

	Three Months Ended March 31,	
	2006	2005
Balance of allowance for loan losses at beginning of period	\$ 16,779	\$ 8,602
Provision charged to operating expense	465	375
Charge offs:		
Commercial/financial/agricultural	(9)	(252)
Real estate mortgage loans	(131)	(4)
Real estate construction loans		
Installment loans to individuals	(13)	(11)
Total charge-offs	(153)	(267)
Recoveries:		
Commercial/financial/agricultural	11	58
Real estate mortgage loans	250	59
Real estate construction loans		18
Installment loans to individuals	8	17
Total recoveries	269	152
Net recoveries (charge-offs)	116	(115)
Balance of allowance for loan losses at end of period	\$ 17,360	\$ 8,862

See Critical Accounting Policies for an explanation of our methodology for determining the appropriate level for the allowance and its effect on our results of operations.

Nonperforming Assets

Nonperforming assets (nonaccrual loans, loans over 90 days past due and still accruing, other real estate owned and repossessions) totaled \$7.3 million at March 31, 2006, compared to \$6.9 million at December 31, 2005. Nonperforming assets remained unchanged at 0.41% of total assets as of March 31, 2006 and December 31, 2005.

Flag has a loan review function that continually monitors selected accruing loans for which general economic conditions or changes within a particular industry could cause the borrowers financial difficulties. The loan review function also identifies loans with high degrees of credit or other risks. The focus of loan review is to maintain a low level of nonperforming assets and to return current nonperforming assets to earning status.

Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

Flag's strong credit quality is attributed to a combination of Flag's strict credit culture that focuses more heavily on the quality of the borrower's financial condition and collateral values, a comprehensive loan review program and strict management of problem assets. At March 31, 2006, there were no commitments to advance additional funds on any loan classified as nonaccrual.

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**

The following table summarizes the nonperforming assets for the three month periods presented (in thousands):

	March 31, 2006	December 31, 2005	March 31, 2005
Loans on nonaccrual	\$ 6,118	\$ 5,694	\$ 5,822
Loans past due 90 days and still accruing	97	120	
Other real estate owned and repossessions	1,086	1,123	918
Total nonperforming assets	\$ 7,301	\$ 6,937	\$ 6,740
Total nonperforming assets as a percentage of total assets	0.41%	0.41%	0.80%

The \$6.1 million in nonaccrual loans at March 31, 2006 included \$3.0 million in Small Business Association (SBA) loans, of which SBA guaranteed \$2.4 million. This compares to nonaccrual SBA loans of \$2.4 million at December 31, 2005, of which SBA guaranteed \$2.0 million. Flag's SBA portfolio was acquired in the merger with First Capital.

Results of Operations for the Three Month Periods Ended March 31, 2006 and 2005

Net income Net income for the quarter ended March 31, 2006, was \$5.4 million or \$0.31 per diluted share, an increase of 194.7% compared to \$1.8 million or \$0.20 per diluted share for the quarter ended March 31, 2005. The increase in earnings reflects the successful integration of First Capital, the continued performance of Flag's lending programs and the continued growth in core deposits.

Net interest income Net interest income for the quarter ended March 31, 2006, was \$16.3 million, an increase of \$7.7 million or 90.3%, from \$8.6 million for the quarter ended March 31, 2005. Flag's net interest margin (net interest income on a taxable equivalent basis divided by average earning assets) decreased to 4.32% from 4.55% on average earning assets of \$1.54 billion and \$772.4 million for the quarter ended March 31, 2006 and 2005, respectively. The inclusion of First Capital's loan portfolio caused a decline in the yield on interest-earning assets, which was in part mitigated by the increase in interest rates during 2005 and in the first quarter of 2006. Flag's balance sheet is considered asset sensitive when its assets (loans and securities) reprice faster or to a greater extent than liabilities (deposits and borrowings). An asset-sensitive balance sheet will produce more net interest income when interest rates rise and less net interest income when interest rates decline. The Federal Reserve has increased the discount rate eight times since March 31, 2005, increasing the rate from 2.75% to 4.75%. For more information on Flag's asset and liability management program see Management's Discussion and Analysis of Financial Condition and Results of Operation Market Risk Sensitivity.

Interest income Interest income in the first quarter of 2006, was \$28.3 million, an increase of \$15.5 million or 121.1%, from \$12.8 million for the same quarter of 2005. The increase is primarily due to higher levels of average interest-earning assets. Increases in average interest-earning assets are a result of the merger with First Capital and continued strong internal growth. The taxable equivalent yield on interest-earning assets increased 70 basis points to 7.46% in the first quarter of, compared to 6.76% in the first quarter of 2005.

Interest income and fees on loans in the first quarter of 2006 increased \$12.8 million or 111.9%, to \$24.2 million compared to \$11.4 million in the same quarter of 2005. Average loans outstanding during the first quarter of 2006, increased \$629.6 million or 103.2%, to \$1.24 billion compared to \$610.2 million for 2005. The yield on loans during the first quarter of 2006 increased 31 basis points to 7.92% from 7.61% in the first quarter of 2005. Increases in interest rates during the 12 month period ended March 31, 2006, were largely offset by the inclusion of the First Capital lower yielding loan portfolio.

Interest on investment securities increased \$2.6 million or 238.3%, to \$3.6 million in the first quarter of 2006 from \$1.1 million in the first quarter of 2005. The increase in interest income in the first quarter of 2006 was

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**

driven both by higher levels of average investment securities and an increase in the yield. In the first quarter of 2006, average investment securities increased \$147.0 million or 128.1%, to \$261.7 million compared to \$114.7 million in the first quarter of 2005. The taxable equivalent yield on investment securities increased 175 basis points to 5.72% in the first quarter of 2006 compared to 3.97% in the first quarter of 2005. In the fourth quarter of 2005, Flag initiated a repositioning of its balance sheet designed to further reduce its exposure to an anticipated continued increase in interest rates and to improve net interest margin and net interest income levels. Flag sold \$67.6 million in fixed-rate investments and reinvested the proceeds in a combination of fixed-rate and variable rate investments with a higher average yield.

Interest on federal funds sold and other interest-bearing deposits increased \$159,000 or 52.8%, to \$460,000 in the first quarter of 2006 from \$301,000 in the same quarter last year. Interest on federal funds sold and other interest-bearing deposits increased as a result of an increase in the yield. In the first quarter of 2006, the average balance of interest on federal funds sold and other interest-bearing deposits decreased \$7.5 million or 15.8%, to \$40.0 million compared to \$47.5 million in the first quarter of 2005. The yield on federal funds sold and other interest-bearing deposits increased 209 basis points to 4.66% in the first quarter of 2006 from 2.57% in the first quarter of 2005.

Interest expense Interest expense in the first quarter of 2006 was \$11.9 million, an increase of \$7.7 million or 183.9%, from \$4.2 million in the same quarter of 2005. The increase is due to higher levels of average interest-bearing liabilities coupled with a rising interest rate environment. Increases in average interest-bearing liabilities are a result of the merger with First Capital and continued strong internal growth. In the first quarter of 2006, average interest-bearing liabilities increased \$596.7 million or 85.3%, to \$1.30 billion from \$699.5 million in the first quarter of 2005. Flag's total cost of interest-bearing liabilities increased 130 basis points to 3.74% in the first quarter of 2006 from 2.44% in the first quarter of 2005.

Interest expense on deposits increased \$5.7 million or 149.9% to \$9.6 million in the first quarter of 2006 from \$3.8 million in the first quarter of 2005. Average core deposits (noninterest-bearing demand, interest-bearing demand, money market and savings accounts) increased \$354.1 million or 86.8%, to \$762.3 million in the first quarter of 2006 compared to \$408.1 million in the first quarter of 2005. Core deposits offer the Bank a lower cost source of funds. The cost of core deposits increased 46 basis points to 2.14% in the first quarter of 2006 compared to 1.68% in the first quarter of 2005. Average noninterest-bearing demand deposits increased \$150.3 million or 281.9%, to \$203.7 million in the first quarter of 2006 compared to \$53.3 million in the first quarter of 2005. This significant increase in noninterest-bearing deposits was consistent with Flag's strategic intent to increase core deposits as a lower cost source of funding. Average time deposits in the first quarter of 2006 were \$554.7 million, an increase of \$254.9 million or 85.0%, from \$299.8 million in the first quarter of 2005. The cost of time deposits increased 116 basis points to 4.04% in the first quarter of 2006 compared to 2.88% in the first quarter of 2005. The increase in the cost of deposits is primarily attributable to increased pricing of Flag's deposit products as a result of the rising rate environment.

Interest expense on other borrowings in the first quarter of 2006 was \$2.4 million, an increase of \$2.0 million or 522.8%, compared to \$384,000 in the first quarter of 2005. Average FHLB advances and other borrowings increased \$105.5 million or 385.6%, to \$132.8 million in the first quarter of 2006 compared to \$27.3 million in the first quarter of 2005. The cost of FHLB advances and other borrowings increased 208 basis points to 4.81% in the first quarter of 2006 compared to 2.73% in the first quarter of 2005. The increase in the cost of other borrowings and FHLB advances is attributable to the rising rate environment.

Average junior subordinated debentures increased \$32.4 million or 224.2%, to \$46.8 million in the first quarter of 2006 compared to \$14.4 million in the first quarter of 2005. In 2005, the Company issued \$25.8 million to finance the merger with First Capital and for other general operating expenses. In addition, through its acquisition with First Capital in the fourth quarter of 2005, the Company recorded \$6.6 million in junior subordinated debt. The cost of junior subordinated debentures increased 144 basis points to 6.84% in the first

Table of Contents**Flag Financial Corporation and Subsidiary****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**

quarter of 2006 compared to 5.40% in the first quarter of 2005. The increase in the cost of junior subordinated debentures is attributable to the rising rate environment and the related effect on the variable rate coupons.

The following tables reflect the average balances, the interest income or expense and the average yield and cost of the Company's interest-earning assets and interest-bearing liabilities during the three month periods presented (dollars in thousands):

(1) Tax equivalent basis.

Noninterest income Noninterest income for the first quarter of 2006 totaled \$3.3 million, an increase of \$730,000 or 28.1%, compared to \$2.6 million in the first quarter of 2005. Traditionally service charges on deposit accounts and revenues from mortgage banking activities have been the largest components of noninterest income.

Service charges on deposit accounts decreased to \$716,000 for the first quarter of 2006, a decrease of \$33,000 or 4.5%, from \$749,000 in the first quarter of 2005. While deposits grew substantially over the past year, a

Table of Contents

Flag Financial Corporation and Subsidiary

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

significant amount of the growth was in higher balance accounts, including commercial accounts, which typically provide lower levels of fee income.

Mortgage banking activities includes origination fees, service release premiums and the gain on the sales of mortgage loans held-for-sale. Mortgage banking activities totaled \$899,000, an increase of \$319,000, or 55.0%, compared to \$580,000 in the first quarter of 2005. The increase in mortgage banking activities income is due to a higher level of originations of loans held-for-sale, which totaled \$38.1 million and \$28.4 million in the first quarter of 2006 and 2005, respectively.

Payroll Solutions contributed \$773,000 to other income in the first quarter of 2006, an increase of \$192,000 or 33.1%, compared to \$581,000 in the first quarter of 2005. The increase in fees is primarily due to new business started in the period, strong client retention and an increase in the number of employees on Payroll Solutions' clients' payrolls.

In the first quarter of 2006, Flag sold its office in Columbus, Georgia and recognized a pre-tax gain on the sale totaling \$219,000. In the first quarter of 2006, total gains on the sales of fixed assets were \$220,000 compared to gains recognized of \$25,000 in the first quarter of 2005. Gains on the sales of other real estate owned totaled \$31,000 in the first quarter of 2006, a decrease of \$60,000, or 65.9%, from \$91,000 in the first quarter of 2005. In the first quarter of 2005, Flag recognized gains on the sales of investment securities of \$123,000.

Other income increased \$216,000 or 57.0% to \$595,000 in the first quarter of 2006, compared to \$379,000 in the first quarter of 2005. In the first quarter of 2006, service fees on SBA loans totaled \$153,000. Service fees on SBA loans were generated by the SBA loan portfolio acquired in the merger with First Capital.

Noninterest expense Noninterest expense for the first quarter of 2006 totaled \$10.8 million, an increase of \$2.7 million or 33.1%, compared to \$8.1 million in the first quarter of 2005. Increases in salaries and benefits, occupancy expense, communications and postage, printing and supplies are primarily related to the increase in personnel and branches as a result of the merger with First Capital in the fourth quarter of 2005.

Salaries and employee benefits totaled \$6.5 million, an increase of \$1.5 million or 30.7%, from \$5.0 million in the first quarter of 2005. As a result of the merger with First Capital, increases in salaries and employees benefits are primarily related to additional personnel in the metro Atlanta area.

Occupancy expense for the first quarter of 2006 totaled \$1.2 million, an increase of \$241,000 or 25.2%, from \$956,000 in the first quarter of 2005. Increases in rent expense are related to the addition of the First Capital branches and loan production offices.

Professional fees were \$410,000, a decrease of \$139,000 or 25.4%, compared to \$549,000 in the same quarter of 2005. The decrease in the first quarter of 2006 is in part due to a decline in the amount of expenses related to continued compliance with the Sarbanes-Oxley Act. In the first quarter of 2005, professional fees included \$50,000 related to the merger with First Capital.

Communication and equipment costs for the first quarter of 2006 were \$716,000, an increase of \$203,000 or 39.6%, from \$513,000 in the first quarter of 2005. The increase is primarily a result of the additional offices acquired through the merger with First Capital. Postage, printing and supplies costs in the first quarter of 2006 totaled \$411,000, an increase of \$165,000 or 67.1%, compared to \$246,000 in the first quarter of 2005. The increase in new customer accounts added through the First Capital acquisition contributed to the increase in postage, printing and supplies.

Other noninterest expense totaled \$1.5 million for the first quarter of 2006, an increase of \$686,000 or 79.8%, compared to \$860,000 in the same quarter of 2005. Increases in other noninterest expense are also primarily a result of the merger with First Capital. Marketing expense totaled \$291,000, an increase of \$154,000 or 124.1%.

Table of Contents

Flag Financial Corporation and Subsidiary

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

from \$137,000 in the first quarter of 2005. Marketing expense increased primarily due to increased marketing efforts in the metro Atlanta area. Other outside service fees increased in the first quarter of 2006, to \$270,000, an increase of \$154,000 or 130.8%, from \$117,000 in the first quarter of 2005. Outsides service fees include both increases in service charges paid to the Federal Reserve and safekeeping fees paid on investments. These increases are primarily related to higher levels of transactions processed by the Federal Reserve and an increase in investments resulting from the merger with First Capital. Due to higher balances of amortizable intangible assets, related to the merger with First Capital, amortization expense increased \$120,000 to \$142,000 in the first quarter of 2006 compared to \$22,000 in the first quarter of 2005. In the first quarter of 2006, travel and entertainment increased \$105,000 or 105.5%, to \$205,000 compared to \$100,000 in the first quarter of 2005. The increase is primarily due to increased levels of personnel.

Income taxes Income tax expense for the quarter ended March 31, 2006, totaled \$3.0 million compared to \$862,000 in the first quarter of 2005. Flag's effective tax rate increased to 35.8% in the first quarter of 2006 compared to 32.1% in the first quarter of 2005. Flag's increase in the effective tax rate is due to the higher level of earnings and less relative levels of tax exempt income.

Flag Financial Corporation and Subsidiary

Item 3. Quantitative and Qualitative Disclosures about Market Risk

As of March 31, 2006, there were no substantial changes in the composition of Flag's market-sensitive assets and liabilities or their related market values from that reported as of December 31, 2005. The foregoing disclosures related to the market risk of Flag should be read in conjunction with Flag's audited consolidated financial statements, related notes and management's discussion and analysis of financial condition and results of operations for the year ended December 31, 2005, included in Flag's 2005 Annual Report on Form 10-K.

Item 4. Controls and Procedures

As of the end of the period covered by this report, Flag carried out an evaluation, under the supervision and with the participation of Flag's management, including Flag's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Flag's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, Flag's Chief Executive Officer and Chief Financial Officer concluded that Flag's disclosure controls and procedures are effective in timely alerting them to material information relating to Flag (including its consolidated subsidiary) that is required to be included in Flag's periodic filings with the Securities and Exchange Commission. There have been no significant changes in Flag's internal controls or, to Flag's knowledge, in other factors that could significantly affect those internal controls subsequent to the date Flag carried out its evaluation, and there have been no corrective actions with respect to significant deficiencies or material weaknesses.

Table of Contents**Flag Financial Corporation and Subsidiary****Part II. Other Information****Item 1. Legal Proceedings** None**Item 1A. Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2005, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth information regarding the Company's purchases of its common stock on a monthly basis during the quarter ended March 31, 2006 (in thousands):

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part Of Publicly Announced Plans Or Programs ⁽¹⁾	Maximum Number Of Shares that May Yet Be Purchased Under the Plans or Programs
