Economic Update - Colonial Investment Grade Municipal Trust

The US economy grew at a solid but uneven pace during the 12-month period that began December 1, 2005 and ended November 30, 2006. Gross domestic product (GDP) growth was robust in the first quarter of 2006, as businesses created jobs at a brisk pace, industrial production rose and both personal spending and personal income moved higher. However, a weak housing market began to weigh on the economy, and the manufacturing sector contracted late in the period--registering its first downturn since the spring of 2003. Against this backdrop, economic growth averaged 3.0% for the 12-month period.

Between December and June, the Federal Reserve Board (the Fed) raised a key short-term interest rate, the federal funds rate, five times--to 5.25%. But as economic growth slowed, the Fed turned cautious and declined to increase the federal funds rate after its June meeting. Inflation also retreated during the period, which lent further support to the Fed's decision. Investors reacted favorably to the prospect of stable or possibly even lower interest rates and both the stock and bond markets rallied in the second half of the period.

Solid returns from fixed income markets

Although yields moved higher early in the period, the US fixed income markets delivered respectable returns, as prices rose and yields declined in reaction to the Fed's mid-year decision to put further short-term rate increases on hold. The yield on the 10-year US Treasury note, a bellwether for the bond market, ended the period at 4.4%--slightly lower than where it started. High-yield bonds led the fixed income markets, reflecting investor confidence

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

about the overall resilience of the economy despite its slower pace of growth.

The views expressed in the Economic Update and the Portfolio Manager's report reflect the current views of the respective parties. These views are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict so actual outcomes and results may differ significantly from the views expressed. These views are subject to change at any time based upon economic, market or other conditions and the respective parties disclaim any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for the trust are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any fund. References to specific company securities should not be construed as a recommendation or investment advice.

Portfolio Manager's Report - Colonial Investment Grade Municipal Trust

Price per share

as of 11/30/06 (\$)

Market price	10.73
Net asset value	11.53

1-year total return

as of 11/30/06 (%)*

Market price	8.96
Net asset value	8.79
Lipper General Municipal Debt Funds (Leveraged) Category average	9.06

Performance is historical, assumes reinvestment of all dividends and capital gains, and does not guarantee future results. Investment return and principal value fluctuate with changing market conditions so that, when sold, shares may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Please call 800-730-6001 for the trust's most recent performance. Total return based on net asset value reflects changes in the trust's net asset value during each period. Total return based on market value reflects changes in market value. These figures will differ depending on the level of any discount from or premium to net asset value during the period.

Distributions declared per
common share

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

12/01/05-11/30/06 (\$) 0.58

A portion of the trust's income may be subject to the alternative minimum tax. The trust may at times purchase tax-exempt securities at a discount from their original issue price. Some or all of this discount may be included in the trust's ordinary income, and any market discount is taxable when distributed.

For the 12-month period ended November 30, 2006, Colonial Investment Grade Municipal Trust generated a total return of 8.96%, based on its market price, and 8.79%, based on investment at net asset value. Changes in the market price of the trust's shares reflect demand and are not necessarily linked directly to changes in the trust's net asset value. These returns were slightly below the average return of the Lipper General Municipal Debt Funds (Leveraged) Classification, which was 9.06% for the same period.^{1/} The trust benefited from having above-average stakes in longer-maturity bonds, non-callable and non-rated bonds. Non-callable bonds are bonds that cannot be redeemed (or called) by the issuer before maturity, while non-rated bonds are issues that have not been rated by the major credit ratings agencies. An underweight in certain lower rated, higher-yielding securities modestly hampered returns.

Municipal bonds fared well in weak and strong markets

In the first half of the period, inflation concerns and rising short-term interest rates put pressure on bond prices. Municipal bonds held up better than taxable bonds in this environment. And when inflation concerns eased and the Federal Reserve Board paused after two years of steadily raising short-term interest rates, municipal bonds performed as well as Treasuries during the rally that ensued. For the 12-month period, longer-maturity bonds, which tend to be more sensitive to interest rate changes, beat shorter-maturity issues, while high-yield municipals, notably airline bonds, outpaced investment grade bonds.

Standouts came from airline and health care sectors

The trust's position in airline bonds did well, especially during the first half of the period, led by US Airways, Inc. (0.3% of total investments)^{2/}, which came out of bankruptcy and merged with America West Airlines, Inc. In the health care sector, bonds issued by Pioneer Health Care (0.7% of total investments), a Colorado nursing home, benefited from improved credit quality. Elsewhere, the trust gained ground on the sale of short-term callable bonds and from profit-taking in non-callable bonds, which had rallied. Tempering these gains were bonds issued by Northwest Airlines, which we sold at a loss, and bonds issued by the Main Line and Haverford Nursing Home (0.2% of total investments) in Pennsylvania, which declined as credit problems emerged.

Decline in income

The trust's dividend yield fell over the past year as the income derived from leverage declined. The trust's leverage comes from its preferred shares, which were issued in 1999 to allow the trust to borrow against its underlying investments. We invest the proceeds from the preferred shares in longer maturity, higher-yielding bonds, and then pay out to preferred shareholders a short-term rate influenced by the federal

^{1/}Lipper Inc., a widely respected data provider in the industry, calculates an average total return (assuming reinvestment of distributions) for mutual funds with investment objectives similar to those of the trust. Lipper makes no adjustment for the effect of sales loads.

^{2/}Holdings are discussed as of November 30, 2006, and are subject to change.

*See page 27 for the returns based on market price for the last five fiscal years.

Portfolio Manager's Report (continued) - Colonial Investment Grade Municipal Trust

Top 5 sectors

as of 11/30/06 (%)	
Refunded/Escrowed	10.0
Hospitals	9.8
State Appropriated	8.0
Local General Obligations	7.6
Investor Owned	7.6

Quality breakdown

as of 11/30/06 (%)	
AAA	41.5
AA	9.6
A	11.4
BBB	20.1
BB	0.8
B	0.8
Non-Rated	15.3
Cash Equivalents	0.5

Sector and quality breakdowns are calculated as a percentage of total investments. Ratings shown in the quality breakdown represent the rating assigned to a particular bond by one of the following nationally recognized rating agencies: Standard & Poor's, a division of The McGraw Hill Companies, Inc., Moody's Investors Service, Inc. or Fitch Ratings, Ltd. Ratings are relative and subjective and are not absolute standards of quality. Credit quality does not remove market risk. The majority of the bonds that are non-rated are considered by the advisor to be of non-investment grade quality. Portfolio characteristics and holdings are subject to change periodically and may not be representative of current characteristics and holdings. Because the trust is actively managed, there is no guarantee that the trust will maintain these sectors or continue to have this quality breakdown in the future.

funds rate. A decline in long-term rates and a rise in short-term rates reduced the income available to common shareholders. Leverage, however, continued to give common shareholders a higher dividend payment than would have been available without it.

Although the trust's yield declined in absolute terms, it improved versus competitors through the selective addition of some higher-yielding bonds, including high-quality housing bonds subject to the alternative minimum tax and

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

non-rated retirement housing bonds.

A favorable outlook

Although housing and manufacturing have been weak, we believe that the service and retailing sectors remain strong, which bodes well for continued economic growth. In this environment, we expect inflation, the nemesis of bond investors, to remain in check, especially as international competition increases. Going forward, we plan to keep the trust's focus on longer-maturity bonds, whose prices can be more heavily influenced by inflation expectations.

Portfolio Management

Maureen G. Newman has been the portfolio manager of Colonial Investment Grade Municipal Trust since January 2002. Ms. Newman has managed various municipal funds for Columbia Management Advisors, LLC or its predecessors or affiliate organizations since May 1996.

Shares of closed-end funds frequently trade at a discount to net asset value. The price of the trust's shares is determined by a number of factors, several of which are beyond the control of the trust. Therefore, the trust cannot predict whether its shares will trade at, below or above net asset value.

Investing in fixed-income securities may involve certain risks, including the credit quality of individual issuers, possible prepayments, market or economic developments and yield and share price fluctuations due to changes in interest rates. When interest rates go up, bond prices typically drop, and vice versa.

Investing in high-yield or "junk" bonds offers the potential for higher income than investments in investment-grade bonds, but also has a higher degree of risk. Changes in economic conditions or other circumstances may adversely affect a high-yield bond issuer's ability to make timely principal and interest payments.

Tax-exempt investing offers current tax-exempt income, but it also involves special risks. The value of the trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trust. Interest income from certain tax-exempt bonds may be subject to certain state and local taxes and, if applicable, the alternative minimum tax. Capital gains are not exempt from income taxes.

Notes to Financial Statements - Colonial Investment Grade Municipal Trust

November 30, 2006

Note 1. Organization

Colonial Investment Grade Municipal Trust (the "Trust") is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end management investment company.

Investment Goal

The Trust seeks as high a level of after-tax return as is consistent with prudent risk, by pursuing current income generally exempt from ordinary federal income tax and opportunities for long-term appreciation from a portfolio primarily invested in investment grade municipal bonds.

Trust Shares

The Trust may issue an unlimited number of common shares. On August 26, 1999, the Trust issued 2,400 Auction Preferred Shares ("APS").

Note 2. Significant Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements.

Security Valuation

Debt securities generally are valued by pricing services approved by the Trust's Board of Trustees, based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available are valued at an over-the-counter or exchange bid quotation. Certain debt securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis.

Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Investments in open-end investment companies are valued at net asset value.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Investments for which market quotations are not readily available, or that have quotations which management believes are not reliable, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board of Trustees. If a security is valued at a "fair value", such value is likely to be different from the last quoted market price for the security.

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("SFAS 157"), was issued. SFAS 157 is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management has recently begun to evaluate the impact the application of SFAS 157 will have on the Trust's financial statement disclosures.

Security Transactions

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

Floating Rate Notes Issued in Conjunction with Securities Held

The Trust may sell a fixed-rate bond ("Fixed-Rate Bond") to a broker, who deposits the Fixed-Rate Bond into a special-purpose entity, from which are issued floating-rate notes ("Floating-Rate Notes") that are sold to third parties. The Floating-Rate Notes have interest rates that reset weekly and Floating-Rate Note holders have the option to tender their

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

November 30, 2006

notes to the broker at par at each reset date. A residual certificate (an "Inverse Floater"), which pays interest equal to the difference between the Fixed-Rate Bond and the Floating-Rate Notes, is also issued by the special-purpose entity. The Inverse Floater also gives the holder the right to cause the Floating-Rate Note to be called at par and to require transfer of the Fixed-Rate Bond to the holder of the Inverse Floater, thereby liquidating the special-purpose entity. In certain transactions, the Trust ultimately receives the Inverse Floater plus cash equivalent to the proceeds raised from the issuance of the Floating-Rate Notes in exchange for the Fixed-Rate Bonds.

Although the Trust physically holds the Inverse Floater, because of its unilateral right to cause the liquidation of the special-purpose entity and recover the Fixed-Rate Bond it originally sold to the broker, the Trust accounts for this transaction as a secured borrowing pursuant to Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, by including the Fixed-Rate Bond in its Portfolio of Investments, and recognizing the Floating-Rate Notes as a liability on its Statement of Assets and Liabilities.

Futures Contracts

The Trust may invest in futures contracts to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts involves certain risks, which include: (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to differing trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities, or (3) an inaccurate prediction by Columbia Management Advisors, LLC of the future direction of interest rates. Any of these risks may involve amounts exceeding the variation margin recorded in the Trust's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Trust deposits cash or securities with the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by the Trust equal to the daily change in the contract value and are recorded as variation margin receivable or payable and offset in unrealized gains or losses. The Trust recognizes a realized gain or loss when the contract is closed or expires.

Delayed Delivery Securities

The Trust may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Trust to subsequently invest at less advantageous prices. The Trust identifies cash or liquid portfolio securities as segregated with the custodian in an amount equal to the delayed delivery commitment.

Swap Contracts

The Trust may engage in swap transactions such as interest rate and forward swaps, consistent with its investment objective and policies to obtain a desired return at a lower cost than if the Trust had invested directly in the asset that yielded the desired return. Swaps involve the exchange by the Trust with another party of their respective commitments to pay or receive interest or total return throughout the lives of the agreements. The interest to be paid or received on swaps is included in net realized gain/(loss) on investments. Unrealized gains are reported as an asset and unrealized losses are reported as

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

a liability on the Statement of Assets and Liabilities. A realized gain or loss is recorded upon termination of swap agreements and is equal to the difference between the Trust's basis in the swap and the proceeds from (or cost of) the closing transaction. Swap agreements are stated at fair value. Notional principal amounts are used to express the extent of involvement in these transactions, but the amounts potentially subject to credit risk are much smaller.

If there is a default by the counterparty to a swap contract, the Trust will be limited to contractual remedies pursuant to the agreements related to the transaction. There is no assurance that the swap contract counterparties will be able to meet their obligations pursuant to the swap contracts or that, in the event of default, the Trust will succeed in pursuing contractual remedies. The Trust thus assumes the risk that it may be delayed in or prevented from obtaining payments owed to it pursuant to the swap contracts.

30

Colonial Investment Grade Municipal Trust

November 30, 2006

The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Income Recognition

Interest income is recorded on the accrual basis. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis. Premium and discount are amortized and accreted, respectively, on all debt securities. Dividend income is recorded on ex-date.

Federal Income Tax Status

The Trust intends to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Trust intends to distribute in each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, such that the Trust should not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

Distributions to Shareholders

Distributions to common shareholders are recorded on the ex-date. Distributions to Auction Preferred shareholders are recorded daily and payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on November 30, 2006, was 3.25%. For the year ended November 30, 2006, the Trust declared dividends to Auction Preferred shareholders amounting to \$2,010,998, representing an average dividend rate of 3.35% per APS.

Indemnification

In the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims against the Trust. Also, under the Trust's organizational documents and by contract, the Trustees and Officers of the Trust are indemnified against certain liabilities that may arise out of their

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

duties to the Trust. However, based on experience, the Trust expects the risk of loss due to these warranties and indemnities to be minimal.

Note 3. Federal Tax Information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. Reclassifications are made to the Trust's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

For the year ended November 30, 2006, permanent book and tax basis differences resulting primarily from differing treatments for discount accretion/premium amortization on debt securities and market discount reclassifications were identified and reclassified among the components of the Trust's net assets as follows:

Undistributed Net Investment	Accumulated Income Net Realized Loss	Paid-In Capital
\$(4,159)	\$4,158	\$1

Net investment income and net realized gains (losses), as disclosed on the Statement of Operations, and net assets were not affected by this reclassification.

The tax character of distributions paid during the years ended November 30, 2006 and November 30, 2005 was as follows:

	November 30, 2006	2005
Distributions paid from:		
Tax-Exempt Income	\$8,656,146	\$8,894,949
Ordinary Income *	30,073	--
Long-Term Capital Gains	--	--

*For tax purposes short-term capital gains distributions, if any, are considered ordinary income distributions.

As of November 30, 2006, the components of distributable earnings on a tax basis were as follows:

Undistributed Tax-Exempt Income	Undistributed Long-term Capital Gains	Net Unrealized Appreciation*
\$618,639	\$--	\$11,928,123

*The differences between book-basis and tax-basis net unrealized appreciation/depreciation are primarily due to discount accretion/premium amortization on debt securities.

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

Colonial Investment Grade Municipal Trust

November 30, 2006

Unrealized appreciation and depreciation at November 30, 2006, based on cost of investments for federal income tax purposes, was:

Unrealized appreciation	\$15,868,315
Unrealized depreciation	(3,940,192)
Net unrealized appreciation	\$11,928,123

The following capital loss carryforwards, determined as of November 30, 2006, may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

Year of Expiration	Capital Loss Carryforward
2008	\$ 107,459
2010	1,238,884
Total	\$1,346,343

Capital loss carryforwards of \$436,281 were utilized during the year ended November 30, 2006 for the Trust.

Under current tax rules, certain capital losses realized after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. As of November 30, 2006, post-October capital losses of \$526,181 attributed to security transactions were deferred to December 1, 2006.

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109 (the "Interpretation"). This Interpretation is effective for fiscal years beginning after December 15, 2006 and is to be applied to open tax positions upon initial adoption. This Interpretation prescribes a minimum recognition threshold and measurement method for the financial statement recognition of tax positions taken or expected to be taken in a tax return and also requires certain expanded disclosures. Management has recently begun to evaluate the application of this Interpretation to the Trust and has not at this time quantified the impact, if any, resulting from the adoption of this Interpretation on the Trust's financial statements.

Note 4. Fees and Compensation Paid to Affiliates

Investment Advisory Fee

Columbia Management Advisors, LLC ("Columbia"), an indirect, wholly-owned subsidiary of Bank of America Corporation ("BOA"), is the investment advisor to the Trust and provides administrative and other services. Columbia receives a monthly investment advisory fee at the annual rate of 0.65% of the Trust's average weekly net assets, including assets applicable to the APS.

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

Columbia has also voluntarily agreed to reduce the investment advisory fee by the annual rate of 0.02% of the Trust's average weekly net assets, including assets applicable to the APS. Columbia, at its discretion, may revise or discontinue this arrangement any time.

Pricing and Bookkeeping Fees

Columbia is responsible for providing pricing and bookkeeping services to the Trust under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated certain functions to State Street Bank & Trust Company ("State Street"). As a result, the total fees payable under the pricing and bookkeeping agreement (other than certain reimbursements paid to Columbia and discussed below) are paid to State Street.

Under its pricing and bookkeeping agreement with the Trust, Columbia receives an annual fee of \$38,000 paid monthly plus an additional monthly fee based on the level of average daily net assets for the month; provided that during any 12-month period, the aggregate fee (exclusive of out-of-pocket expenses and charges) shall not exceed \$140,000.

The Trust also reimburses Columbia and State Street for out-of-pocket expenses and charges, including fees payable to third parties for pricing the Trust's portfolio securities and direct internal costs incurred by Columbia in connection with providing fund accounting oversight and monitoring and certain other services. For the year November 30, 2006, the effective pricing and bookkeeping fee rate for the Trust, inclusive of out-of-pocket expenses, was 0.045% of the Trust's average daily net assets.

32

Colonial Investment Grade Municipal Trust

November 30, 2006

Custody Credits

The Trust has an agreement with its custodian bank under which custody fees may be reduced by balance credits. These credits are recorded as a reduction of total expenses on the Statement of Operations. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

Fees Paid to Officers and Trustees

All officers of the Trust, with the exception of the Trust's Chief Compliance Officer, are employees of Columbia or its affiliates and receive no compensation from the Trust. The Board of Trustees has appointed a Chief Compliance Officer to the Trust in accordance with federal securities regulations. The Trust, along with other affiliated funds, pays its pro-rata share of the expenses associated with the Chief Compliance Officer. The Trust's expenses for the Office of the Chief Compliance Officer will not exceed \$15,000 per year.

The Trust's Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

Other

Columbia provides certain services to the Trust related to Sarbanes-Oxley

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

compliance. For the year ended November 30, 2006, the Trust paid \$2,526 to Columbia for such services. This amount is included in "Other expenses" on the Statement of Operations.

Note 5. Portfolio Information

For the year ended November 30, 2006, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$74,215,896 and \$62,587,045, respectively.

At November 30, 2006, the Trust held an Inverse Floater related to the following security:

Par

MA Port Authority, Series 1994 C, 5.75%, 7/1/29 \$2,000,000

against which has been issued \$1,000,000 par of Floating Rate Notes bearing interest at a rate of 3.69%. Interest paid on the Floating Rate Notes during the year ended November 30, 2006 was at an average rate of 3.66%. The Trust's physical holding at November 30, 2006 was of an Inverse Floater of \$1,000,000 par, market value of \$1,137,860, bearing interest at a rate of 7.811% and exempt from registration pursuant to Rule 144A under the Securities Act of 1933.

Note 6. Preferred Shares

The Trust currently has outstanding 2,400 APS. The APS have a liquidation preference of \$25,000 per APS plus accumulated but unpaid dividends and have certain class-specific preferences over the common shares. The dividend rate on the APS is set, typically every seven days, through an auction process. Dividends on the APS are cumulative. Each holder of the APS is entitled to one vote per APS. Unless otherwise required by law or under the terms of the bylaws, each holder of APS has the same voting rights as common shareholders and will vote together with common shareholders as a single class. The holders of APS, voting as a separate class, have the right to: (a) elect at least two Trustees, (b) elect a majority of the Trustees at any time when dividends on the APS are due and unpaid for two full years, and (c) vote on certain matters affecting the rights of the APS.

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Trust is required to meet more stringent asset coverage requirements under the terms of the APS agreement and in accordance with the guidelines prescribed by the APS' rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain APS. At November 30, 2006, there were no such restrictions on the Trust.

Note 7. Disclosure of Significant Risks and Contingencies

Concentration of Credit Risk

The Trust holds investments that are insured by private insurers who guarantee the payment of principal and interest in the event of default or that are supported by a letter of credit. Each of the Trust's insurers is rated Aaa by Moody's Investor Services, Inc. ("Moody's") or rated AAA by Standard

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

Colonial Investment Grade Municipal Trust

November 30, 2006

& Poor's except for Radian Asset Assurance, Inc., which is rated Aa3 and AA by Moody's and Standard & Poor's, respectively. At November 30, 2006, investments supported by private insurers that represent greater than 5% of the total investments of the Trust were as follows:

Insurer	% of Total Investments
MBIA Insurance Corp.	13.3%
Ambac Assurance Corp.	9.8
Financial Guaranty Insurance Corp.	5.4

Geographic Concentration

The Trust has greater than 5% of its total investments at November 30, 2006 invested in debt obligations issued by the states of California, Florida, Illinois, Massachusetts, and New York, and their respective political subdivisions, agencies and public authorities. The Trust is more susceptible to economic and political factors adversely affecting issuers of the specific state's municipal securities than are municipal bond funds that are not concentrated to the same extent in these issuers.

High-Yield Securities

Investing in high-yield securities may involve greater credit risk and considerations not typically associated with investing in U.S. government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk" bonds. Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid to the extent that there is no established secondary market.

Legal Proceedings

On February 9, 2005, Columbia Management Advisors, Inc. (which has since merged into Banc of America Capital Management, LLC (now named Columbia Management Advisors, LLC)) ("Columbia") and Columbia Funds Distributor, Inc. (which has been renamed Columbia Management Distributors, Inc.) (the "Distributor") (collectively, the "Columbia Group") entered into an Assurance of Discontinuance with the New York Attorney General ("NYAG") (the "NYAG Settlement") and consented to the entry of a cease-and-desist order by the Securities and Exchange Commission ("SEC") (the "SEC Order"). The SEC Order and the NYAG Settlement are referred to collectively as the "Settlements". The Settlements contain substantially the same terms and conditions as outlined in the agreements in principle which Columbia Group entered into with the SEC and NYAG in March 2004.

Under the terms of the SEC Order, the Columbia Group agreed, among other things, to: pay \$70 million in disgorgement and \$70 million in civil money penalties; cease and desist from violations of the antifraud provisions and certain other provisions of the federal securities laws; maintain certain compliance and ethics oversight structures; retain an independent consultant to review the Columbia Group's applicable supervisory, compliance, control and other policies and procedures; and retain an independent distribution consultant (see below). The Columbia Funds have also voluntarily undertaken to implement certain governance measures designed to maintain the independence of

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

their boards of trustees. The NYAG Settlement also, among other things, requires Columbia and its affiliates to reduce management fees for certain Columbia Funds (including the former Nations Funds) and other mutual funds collectively by \$32 million per year for five years, for a projected total of \$160 million in management fee reductions.

Pursuant to the procedures set forth in the SEC order, the \$140 million in settlement amounts described above will be distributed in accordance with a distribution plan developed by an independent distribution consultant and approved by the SEC. The independent distribution consultant has been in consultation with the staff of the SEC and has submitted a proposed plan of distribution. The SEC has released the proposed plan of distribution for public notice and comment but has not yet approved a final plan of distribution.

As a result of these matters or any adverse publicity or other developments resulting from them, the market price of trust shares could decline.

A copy of the SEC Order is available on the SEC website at <http://www.sec.gov>. A copy of the NYAG Settlement is available as part of the Bank of America Corporation Form 8-K filing on February 10, 2005.

In connection with the events described in detail above, various parties have filed suit against certain funds, the Trustees of the Columbia Funds, FleetBoston Financial

34

Colonial Investment Grade Municipal Trust

November 30, 2006

Corporation and its affiliated entities and/or Bank of America and its affiliated entities.

On February 20, 2004, the Judicial Panel on Multidistrict Litigation transferred these cases and cases against other mutual fund companies based on similar allegations to the United States District Court in Maryland for consolidated or coordinated pretrial proceedings (the "MDL"). Subsequently, additional related cases were transferred to the MDL. On September 29, 2004, the plaintiffs in the MDL filed amended and consolidated complaints. One of these amended complaints is a putative class action that includes claims under the federal securities laws and state common law, and that names Columbia, the Distributor, the Trustees of the Columbia Funds, Bank of America Corporation and others as defendants. Another of the amended complaints is a derivative action purportedly on behalf of the Columbia Funds that asserts claims under federal securities laws and state common law.

On February 25, 2005, Columbia and other defendants filed motions to dismiss the claims in the pending cases. On March 1, 2006, for reasons stated in the court's memoranda dated November 3, 2005, the U.S. District Court for the District of Maryland granted in part and denied in part the defendants' motions to dismiss. The court dismissed all of the class action claims pending against the Columbia Funds Trusts. As to Columbia and the Distributor, the claims under the Securities Act of 1933, the claims under Sections 34(b) and 36(a) of the Investment Company Act of 1940 ("ICA") and the state law claims were dismissed. The claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and claims under Section 36(b) of the ICA were not dismissed.

On March 21, 2005, a purported class action was filed in Massachusetts state

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

court alleging that the conduct, including market timing, entitles Class B shareholders in certain Columbia funds to an exemption from contingent deferred sales charges upon early redemption ("the CDSC Lawsuit"). The CDSC Lawsuit has been removed to federal court in Massachusetts and the federal Judicial Panel has transferred the CDSC Lawsuit to the MDL.

On April 4, 2006, the plaintiffs and the Columbia defendants named in the MDL, including the Columbia Funds, entered into a term sheet containing the principal terms of a stipulation of settlement that would settle all Columbia-related claims in the MDL described above, including the CDSC Lawsuit. On April 6, 2006, the U.S. District Court for the District of Maryland stayed all actions with respect to these Columbia-related claims.

In 2004, certain Columbia funds, the Trustees of the Columbia Funds, advisers and affiliated entities were named as defendants in certain purported shareholder class and derivative actions making claims, including claims under the Investment Company and the Investment Advisers Acts of 1940 and state law. The suits allege, inter alia, that the fees and expenses paid by the funds are excessive and that the advisers and their affiliates inappropriately used fund assets to distribute the funds and for other improper purposes. On March 2, 2005, the actions were consolidated in the Massachusetts federal court as In re Columbia Entities Litigation. The plaintiffs filed a consolidated amended complaint on June 9, 2005 naming the Columbia Funds as nominal defendants. On November 30, 2005, the judge dismissed all claims by plaintiffs and ordered that the case be closed. The plaintiffs filed a notice of appeal to the United States Court of Appeals for the First Circuit on December 30, 2005; this appeal is currently pending. The parties have advised the appellate court that they are engaged in settlement discussions and the court has, accordingly, deferred the briefing schedule for the appeal. The settlement has not yet been finalized. Any settlement ultimately agreed by the parties will be subject to court approval.

This matter is ongoing. Accordingly, no estimate can be made of the financial impact, if any, of this litigation on any fund.

35

Report of Independent Registered Public Accounting Firm

To the Trustees and the Shareholders of Colonial Investment Grade Municipal Trust

In our opinion, the accompanying statement of assets and liabilities, including the investment portfolio, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Colonial Investment Grade Municipal Trust (the "Trust") at November 30, 2006, and the results of its operations, the changes in its net assets and its financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at November 30, 2006 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP
Boston, Massachusetts
January 25, 2007

36

Unaudited Information - Colonial Investment Grade Municipal Trust

Federal Income Tax Information

99.60% of distributions from net investment income will be treated as exempt income for federal income tax purposes.

For the calendar year ended December 31, 2006, 18.42% of distributions from net investment income is subject to the alternative minimum tax.

37

Dividend Reinvestment Plan

Colonial Investment Grade Municipal Trust

Pursuant to the Trust's Dividend Reinvestment Plan (the "Plan"), all shareholders whose shares are registered in their own names will have all distributions reinvested automatically in additional shares of the Trust by Computershare (the "Plan Agent") unless a shareholder elects to receive cash. Shareholders whose shares are held in the name of a broker or nominee will have distributions reinvested automatically by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or the nominee or the shareholder elects to receive distributions in cash. If the service is not available, such distributions will be paid in cash. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee for details. All distributions to shareholders who elect not to participate in the Plan will be paid by check mailed directly to the shareholder of record on the record date therefore by the Plan Agent as the dividend disbursing agent.

Non-participants in the Plan will receive distributions in cash. Distributions payable to participants in the Plan will be applied by the Plan Agent, acting as agent for Plan participants, to the purchase of shares of the Trust. Such shares will be purchased by the Plan Agent at the then current market price of such shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole shares credited to his account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account. A shareholder's notice of election to withdraw from the Plan must be received by the Plan Agent before the record date for a dividend in order to be given effect with respect to that

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

dividend.

In the case of shareholders such as banks, brokers or nominees holding shares for others who are the beneficial owners of those shares, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholder of record as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There is no charge to Plan participants for reinvesting distributions. The Plan Agent's fees for the handling of the reinvestment of distributions will be paid by the Trust. Each participant in the Plan will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of distributions. Purchase orders from the participants in the Plan may be combined with those of other participants and the price paid by any particular participant may be the average of the price paid on various orders executed on behalf of groups of participants in the Plan.

The automatic reinvestment of distributions will not relieve participants of any income tax that may be payable on such dividends or distributions.

The Plan may be amended or terminated on 30 days written notice to Plan participants. Contact the Plan Agent for additional information regarding the Plan. All correspondence concerning the Plan should be directed to Computershare by mail at P.O. Box 43010, Providence, RI 02940-3010, or by phone at 1-800-730-6001.

(independent registered public accounting firm) prior
to October, 2002.

Board Consideration and Approval of Investment Advisory Agreements

The Advisory Fees and Expenses Committee of the Board of Trustees meets one or more times annually to review the advisory agreements (collectively, the "Agreements") of the funds for which the Trustees serve as trustees (each a "fund") and determine whether to recommend that the full Board approve the continuation of the Agreements for an additional one-year period. After the Committee has made its recommendation, the full Board, including the Independent Trustees, determines whether to approve the continuation of the Agreements. In addition, the Board, including the Independent Trustees, considers matters bearing on the Agreements at most of its other meetings throughout the year and meets regularly with the heads of each investment area within Columbia. Through the Board's Investment Oversight Committees, Trustees also meet with selected fund portfolio managers at various times throughout the year.

The Trustees receive and review all materials that they, their legal counsel or Columbia, the funds' investment adviser, believe to be reasonably necessary for the Trustees to evaluate the Agreements and determine whether to approve the continuation of the Agreements. Those materials generally include, among other items, (i) information on the investment performance of each fund relative to the performance of peer groups of mutual funds and the fund's performance benchmarks, (ii) information on each fund's advisory fees and other expenses, including information comparing the fund's expenses to those of peer groups of mutual funds and information about any applicable expense caps and fee "breakpoints," (iii) information about the profitability of the Agreements to Columbia, including potential "fall-out" or ancillary benefits that Columbia and its affiliates may receive as a result of their relationships with the funds and (iv) information obtained through Columbia's response to a questionnaire prepared at the request of the Trustees by counsel to the funds and independent legal counsel to the Independent Trustees. The Trustees also consider other information such as (v) Columbia's financial results and financial condition, (vi) each fund's investment objective and strategies and the size, education and experience of Columbia's investment staffs and their use of technology, external research and trading cost measurement tools, (vii) the allocation of the funds' brokerage, if any, and the use of "soft" commission dollars to pay for research products and services, (viii) Columbia's resources devoted to, and its record of compliance with, the funds' investment policies and restrictions, policies on personal securities transactions and other compliance policies, (ix) Columbia's response to various legal and regulatory proceedings since 2003 and (x) the economic outlook generally and for the mutual fund industry in particular. In addition, the Advisory Fees and Expenses Committee confers with the funds' independent fee consultant and reviews materials relating to the funds' relationships with Columbia provided by the independent fee consultant. Throughout the process, the Trustees have the opportunity to ask questions of and request additional materials from Columbia and to consult with independent legal counsel to the Independent Trustees and the independent fee consultant.

The Board of Trustees most recently approved the continuation of the Agreements at its October, 2006 meeting, following meetings of the Advisory Fees and Expenses Committee held in August, September and October, 2006. In considering whether to approve the continuation of the Agreements, the Trustees, including the Independent Trustees, did not identify any single factor as determinative,

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

and each weighed various factors as he or she deemed appropriate. The Trustees considered the following matters in connection with their approval of the continuation of the Agreements:

The nature, extent and quality of the services provided to the funds under the Agreements. The Trustees considered the nature, extent and quality of the services provided by Columbia and its affiliates to the funds and the resources dedicated to the funds by Columbia and its affiliates. Among other things, the Trustees considered (i) Columbia's ability (including its personnel and other resources, compensation programs for personnel involved in fund management, reputation and other attributes) to attract and retain highly qualified research, advisory and supervisory investment professionals; (ii) the portfolio management services provided by those investment professionals; and (iii) the trade execution services provided on behalf of the funds. For each fund, the Trustees also considered the benefits to shareholders of investing in a mutual fund that is part of a family of funds offering exposure to a variety of asset classes and investment disciplines and providing a variety of fund and shareholder services. After reviewing those and related factors, the Trustees concluded, within the context of their overall conclusions regarding each of the Agreements, that the

43

nature, extent and quality of services provided supported the continuation of the Agreements.

Investment performance of the funds and Columbia. The Trustees reviewed information about the performance of each fund over various time periods, including information prepared by an independent third party that compared the performance of each fund to the performance of peer groups of mutual funds and performance benchmarks. The Trustees also reviewed a description of the third party's methodology for identifying each fund's peer group for purposes of performance and expense comparisons. The Trustees also considered additional information that the Advisory Fees and Expenses Committee requested from Columbia relating to funds that presented relatively weaker performance and/or relatively higher expenses.

In the case of each fund whose performance lagged that of a relevant peer group for certain (although not necessarily all) periods, the Trustees concluded that other factors relevant to performance were sufficient, in light of other considerations, to warrant continuation of the fund's Agreements. Those factors varied from fund to fund, but included one or more of the following: (i) that the fund's performance, although lagging in certain recent periods, was stronger over the longer term; (ii) that the underperformance was attributable, to a significant extent, to investment decisions that were reasonable and consistent with the fund's investment strategy and policies and that the fund was performing as expected, given these investment decisions, market conditions and the fund's investment strategy; (iii) that the fund's performance was competitive when compared to other relevant performance benchmarks or peer groups; (iv) that Columbia had taken or was taking steps designed to help improve the fund's investment performance, including, but not limited to, replacing portfolio managers or modifying investment strategies; and (v) that the fund was proposed to be reorganized into another fund, and that such reorganization would result in a reduction in fund expenses.

The Trustees also considered Columbia's performance and reputation generally, the funds' performance as a fund family generally, and Columbia's historical

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

responsiveness to Trustee concerns about performance and Columbia's willingness to take steps intended to improve performance.

After reviewing those and related factors, the Trustees concluded, within the context of their overall conclusions regarding each of the Agreements, that the performance of each fund and Columbia was sufficient, in light of other considerations, to warrant the continuation of the Agreement(s) pertaining to that fund.

The costs of the services provided and profits realized by Columbia and its affiliates from their relationships with the funds. The Trustees considered the fees charged to the funds for advisory services as well as the total expense levels of the funds. That information included comparisons (provided by management and by an independent third party) of each fund's advisory fees and total expense levels to those of the fund's peer groups and information about the advisory fees charged by Columbia to comparable institutional accounts. In considering the fees charged to those accounts, the Trustees took into account, among other things, management's representations about the differences between managing mutual funds as compared to other types of accounts, including differences in the services provided, differences in the risk profile of such business for Columbia, and the additional resources required to manage mutual funds effectively. In evaluating each fund's advisory fees, the Trustees also took into account the demands, complexity and quality of the investment management of the fund. The Trustees considered existing advisory fee breakpoints, and Columbia's use of advisory fee waivers and expense caps, which benefited a number of the funds. The Trustees also noted management's stated justification for the fees charged to the funds, which included information about the investment performance of the funds and the services provided to the funds.

The Trustees also considered the compensation directly or indirectly received by Columbia and its affiliates from their relationships with the funds. The Trustees reviewed information provided by management as to the profitability to Columbia and its affiliates of their relationships with each fund, and information about the allocation of expenses used to calculate profitability. When reviewing profitability, the Trustees also considered court cases in which adviser profitability was an issue in whole or in part, the performance of the relevant funds, the expense level of each fund, and whether Columbia had implemented breakpoints and/or expense caps with respect to the fund.

After reviewing those and related factors, the Trustees concluded, within the context of their overall conclusions

44

regarding each of the Agreements, that the advisory fees charged to each fund, and the related profitability to Columbia and its affiliates of their relationships with the fund, supported the continuation of the Agreement(s) pertaining to that fund.

Economies of Scale. The Trustees considered the existence of any economies of scale in the provision by Columbia of services to each fund, to groups of related funds, and to Columbia's investment advisory clients as a whole and whether those economies were shared with the funds through breakpoints in the investment advisory fees or other means, such as expense waivers/reductions and additional investments by Columbia in investment, trading and compliance resources. The Trustees noted that many of the funds benefited from

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

breakpoints, expense caps, or both. In considering those issues, the Trustees also took note of the costs of the services provided (both on an absolute and a relative basis) and the profitability to Columbia and its affiliates of their relationships with the funds, as discussed above.

After reviewing those and related factors, the Trustees concluded, within the context of their overall conclusions regarding each of the Agreements, that the extent to which economies of scale were shared with the funds supported the continuation of the Agreements.

Other Factors. The Trustees also considered other factors, which included but were not limited to the following:

- .. the extent to which each fund had operated in accordance with its investment objective and investment restrictions, the nature and scope of the compliance programs of the funds and Columbia and the compliance-related resources that Columbia and its affiliates were providing to the funds;
- .. the nature, quality, cost and extent of administrative and shareholder services performed by Columbia and its affiliates, both under the Agreements and under separate agreements for the provision of transfer agency and administrative services;
- .. so-called "fall-out benefits" to Columbia and its affiliates, such as the engagement of its affiliates to provide distribution, brokerage and transfer agency services to the funds, and the benefits of research made available to Columbia by reason of brokerage commissions generated by the funds' securities transactions, as well as possible conflicts of interest associated with those fall-out and other benefits, and the reporting, disclosure and other processes in place to disclose and monitor those possible conflicts of interest; and
- .. the draft report provided by the funds' independent fee consultant, which included information about and analysis of the funds' fees, expenses and performance.

Based on their evaluation of all factors that they deemed to be material, including those factors described above, and assisted by the advice of independent counsel and the independent fee consultant, the Trustees, including the Independent Trustees, approved the continuance of each of the Agreements through October 31, 2007.

45

Summary of Management Fee Evaluation by Independent Fee Consultant

INDEPENDENT FEE CONSULTANT'S EVALUATION OF THE PROCESS BY WHICH MANAGEMENT FEES ARE NEGOTIATED FOR THE COLUMBIA MUTUAL FUNDS OVERSEEN BY THE COLUMBIA ATLANTIC BOARD

Prepared Pursuant to the February 9, 2005 Assurance of Discontinuance between the Office of Attorney General of New York State and Columbia Management Advisors, Inc. and Columbia Funds Distributor, Inc. October 11, 2006

I. Overview

Columbia Management Advisors, LLC ("CMA") and Columbia Funds Distributors, Inc./1/ ("CFD") agreed on February 9, 2005 to the New York Attorney General's Assurance of Discontinuance ("AOD"). Among other things, the AOD stipulates

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

that CMA may manage or advise a Columbia Fund ("Fund" and together with all such funds or a group of such funds as the "Funds") only if the Independent Members of the Fund's Board of Trustees (such Independent Members of the Fund's Board together with the other members of the Fund's Board, referred to as the "Trustees") appoint a Senior Officer or retain an Independent Fee Consultant ("IFC") who is to manage the process by which proposed management fees are negotiated. The AOD further stipulates that the Senior Officer or IFC is to prepare a written annual evaluation of the fee negotiation process.

On September 14, 2006, the Independent Members of the Funds' Boards retained me as IFC for the Funds. In this capacity, I have prepared the second annual written evaluation of the fee negotiation process. I am successor to the first IFC, Erik Sirri, who prepared the annual evaluation in 2005 and who contributed to the second annual written evaluation until his resignation as IFC in August 2006 to become Director of the Division of Market Regulation at the U.S. Securities and Exchange Commission./2/

A. Role of the Independent Fee Consultant

The AOD charges the IFC with "managing the process by which proposed management fees...to be charged the Columbia Fund are negotiated so that they are negotiated in a manner which is at arms' length and reasonable and consistent with this Assurance of Discontinuance." In this role, the IFC does not replace the Trustees in negotiating management fees with CMA, and the IFC does not substitute his or her judgment for that of the Trustees about the reasonableness of proposed fees. As the AOD states, CMA "may manage or advise a Columbia Fund only if the reasonableness of the proposed management fees is determined by the Board of Trustees...using...an annual independent written evaluation prepared by or under the direction of...the Independent Fee Consultant."

B. Elements Involved in Managing the Fee Negotiation Process

Managing the fee negotiation process has three elements. One involves reviewing the information provided by CMG to the Trustees for evaluating the proposed management fees and augmenting that information, as necessary, with additional information from CMG or other sources and with further analyses of the information and data. The second element involves reviewing the information and analysis relative to at least the following six factors set forth in the AOD:

- 1.The nature and quality of CMA's services, including the Fund's performance;
- 2.Management fees (including any components thereof) charged by other mutual fund companies for like services;
- 3.Possible economies of scale as the Fund grows larger;
- 4.Management fees (including any components thereof) charged to institutional and other clients of CMA for like services;

/1/ CMA and CFD are subsidiaries of Columbia Management Group, Inc. ("CMG"), which also is the parent of Columbia Management Services, Inc. ("CFS"), the Funds' transfer agent. Before the date of this report, CMA merged into an affiliated entity, Banc of America Capital Management, LLC, which was renamed Columbia Management Advisors, LLC and which carries on the business of CMA. CFD also has been renamed Columbia Management Distributors, Inc.

/2/ I am an independent economic consultant. From August 2005 until August 2006, I provided support to Mr. Sirri as an independent consultant. From 1994 to 2004, I was Chief Economist at the Investment Company Institute. Earlier, I was Section Chief and Assistant Director at the Federal Reserve Board and Professor of Economics at Oklahoma State University. I have no material relationship with Bank of America or CMG, aside from serving as

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

IFC, and I am aware of no material relationship with any of their affiliates. To assist me with the report, I engaged NERA Economic Consulting, an independent consulting firm that has had extensive experience in the mutual fund industry. I also have retained Willkie Farr & Gallagher LLP as counsel to advise me in connection with the report.

46

5. Costs to CMA and its affiliates of supplying services pursuant to the management fee agreements, excluding any intra-corporate profit; and

6. Profit margins of CMA and its affiliates from supplying such services.

The final element involves providing the Trustees with a written evaluation of the above factors as they relate to the fee negotiation process.

C. Organization of the Annual Evaluation

The 2006 annual evaluation focuses on the six factors and contains a section for each factor except that CMA's costs and profits from managing the Funds have been combined into a single section. In each section, the discussion of the factor considers and analyzes the available data and other information as they bear upon the fee negotiation process. If appropriate, the discussion in the section may point out certain aspects of the proposed fees that may warrant particular attention from the Trustees. The discussion also may suggest other data, information, and approaches that the Trustees might consider incorporating into the fee negotiation process in future years.

In addition to a discussion of the six factors, the report reviews the status of recommendations made in the 2005 IFC evaluation. The 2006 report also summarizes the findings with regard to the six factors and contains a summary of recommendations for possible enhancements to the process.

II. Status of 2005 Recommendations

The 2005 IFC evaluation contains recommendations aimed at enhancing the evaluation of proposed management fees by Trustees. The section summarizes those recommendations and includes my assessment of the response to the recommendations.

1. Recommendation: Trustees should consider requesting more analytical work from CMG in the preparation of future 15(c) materials.

Status: CMG has provided additional analyses to the Trustees on economies of scale, a comparative analysis of institutional and retail management fees, management fee breakpoints, risk-adjusted performance, fee waivers and expense reimbursements, and CMG's costs and profitability.

2. Recommendation: Trustees may wish to consider whether CMG should continue expanding the use of Morningstar or other third party data to supplement CMG's fee and performance analysis that is now based primarily on Lipper reports.

Status: CMG has used data from Morningstar Inc. to compare with data from Lipper Inc. ("Lipper") in performing the Trustees' screening procedures.

3.Recommendation: Trustees should consider whether...the fund-by-fund screen...should place comparable emphasis on both basis point and quintile information in their evaluation of the funds...Also, the Trustees should consider incorporating sequences of one-year performance into a fund-by-fund screen.

Status: CMG has not provided Trustees with results of the screening process using percentiles. CMG has provided Trustees with information on the changes in performance and expenses between 2005 and 2006 and data on oneyear returns.

4.Recommendation: Given the volatility of fund performance, the Trustees may want to consider whether a better method exists than th[e] fee waiver process to deal with fund underperformance.

Status: It is my understanding that the Trustees have determined to address fund underperformance not only through fee waivers and expense caps but also through discussions with CMG regarding the sources of underperformance. CMG has provided Trustees with an analysis of the relationship between breakpoints, expense reimbursements, and fee waivers.

5. Recommendation: [Seventy-one] percent of funds [have] yet to reach their first management fee breakpoint...Trustees may wish to consider whether the results of my ongoing economies-of-scale work affects the underlying economic assumptions reflected in the existing breakpoint schedules.

Status: CMG has prepared a memo for the Trustees discussing its views on the nature and sharing of potential economies of scale. The memo discuses CMG's view that economies of scale arise at the complex level rather than the fund level. The memo also describes steps, including the introduction of breakpoints, taken to share economies of scale with shareholders. CMG's analysis, however, does

47

not discuss specific sources of economies of scale and does not link breakpoints to economies of scale that might be realized as the Funds' assets increase.

6.Recommendation: Trustees should continue working with management to address issues of funds that demonstrate consistent or significant underperformance even if the fee levels for the funds are low.

Status: Trustees monitor performance on an ongoing basis.

III. Findings

A. General

1.Based upon my examination of the available information and the six factors, I conclude that the Trustees have the relevant information necessary to evaluate the reasonableness of the proposed management fees for the Funds. CMG has provided the Trustees with relevant materials on the six factors through the 15(c) contract renewal process and in materials prepared for review at Board and Committee meetings.

2.In my view, the process by which the proposed management fees of the Funds

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

have been negotiated in 2006 thus far has been, to the extent practicable, at arms' length and reasonable and consistent with the AOD.

B. Nature and Quality of Services, Including Performance

- 3.The performance of the Funds has been relatively strong, especially that of fixed-income Funds. For each of the 1-, 3-, 5- and 10-year performance periods, over 60 percent of the funds have ranked in the top three performance quintiles.
- 4.The performance of the equity Funds overall, though less concentrated in the top two quintiles than the fixed-income Funds, improved in 2006 relative to that in 2005. The fixedincome funds maintained the relatively high performance level of 2005 in 2006.
- 5.The Funds' overall performance adjusted for risk was significantly stronger than performance unadjusted for risk. Domestic and international equity funds, in particular, moved to higher relative performance rankings after adjusting for risk.
- 6.The procedure used to construct the performance universe in which each Fund's performance is ranked relative to comparable funds may bias a Fund's ranking upward within that universe. The bias occurs because the performance ranking procedure includes all share classes of multi-class funds in the universe and because the procedure ranks either no-load or A share classes of the Funds. No-load and A share classes generally have lower total expenses than B and C shares (owing to B and C shares having higher distribution/service fees) and thus, given all else, would outperform many of B and C share classes included in the universe. A preliminary analysis that adjusts for the bias results in a downward movement in the relative performance for the Funds but does not change the general finding that the Funds' performance has been strong relative to comparable funds.

C. Management Fees Charged by Other Mutual Fund Companies

- 7.The Funds' management fees and total expenses are generally low relative to those of their peers. At least 56 percent of the Funds are in the first or second quintiles with the lowest fees and expenses and nearly three-fourths or more in the first three quintiles. Equity Funds are more highly concentrated in the first three quintiles than fixedincome Funds.
- 8.The fee and expense rankings as whole are similar to those in 2005 in that the majority of funds are ranked in the top quintiles. Nonetheless, a number of individual funds experienced a change in ranking between 2005 and 2006. This fund-level instability may reflect sensitivity of rankings to the composition of the comparison groups, as the membership of the peer groups typically changed substantially between the two years.

- 9.The Liberty Money Market Fund VS appears to have a higher management fee structure than that of other Columbia money market funds of comparable asset size.

D. Trustees' Fee and Performance Evaluation Process

- 10.The Trustees' evaluation process identified 21 funds in 2006 for further review based upon their relative performance or expenses. Seventeen of these funds had been subject to review in 2004 or 2005.

E. Potential Economies of Scale

- 11.CMG has prepared a memo for the Trustees containing its views on the sources and sharing of potential economies of

scale. CMG views economies of scale as arising at the complex level and would regard estimates of scale economies for individual funds as unreliable. CMG has not, however, identified specific sources of economies of scale nor has it provided any estimates of the magnitude of any economies of scale. In the memo, CMG also describes measures taken by the Trustees and CMG that seek to share any potential economies of scale through breakpoints in management fee schedules, expense reimbursements, fee waivers, enhanced shareholder services, fund mergers, and operational consolidation. These measures, although of significant benefit to shareholders, have not been directly linked in the memo to the existence, sources, and magnitude of economies of scale.

F. Management Fees Charged to Institutional Clients

12. CMG has provided Trustees with comparisons of mutual fund management fees and institutional fees based upon standardized fee schedules and upon actual fees. Based upon the information, institutional fees are generally lower than the Funds' management fees. This pattern is consistent with the economics of the two financial products. Data are not available, however, on actual institutional fees at other money managers. Thus, it is not possible to determine the extent to which differences between the Funds' management fees and institutional fees are consistent with those seen generally in the marketplace.

G. Revenues, Expenses, and Profits

13. The financial statements and the methodology underlying their construction generally form a sufficient basis for Trustees to evaluate the expenses and profitability of the Funds.

IV. Recommendations

A. Performance

1. Trustees may wish to consider incorporating risk-adjusted measures in their evaluation of performance. CMG has begun to prepare reports for the Trustees with risk adjustments, which could form the basis for formally including the measures in the 15(c) materials. To this end, Trustees may wish to have CMG prepare documents explaining risk adjustments and describing their advantages and disadvantages.

2. Trustees may wish to consider having CMG evaluate the sensitivity of performance rankings to the design of the universe. The preliminary analysis contained in the evaluation suggests that the method employed by Lipper, the source of performance rankings used by the Trustees, may bias performance rankings upward.

B. Economies of Scale

3. Trustees may wish to consider having CMG extend its analysis of economies of scale by examining the sources of such economies, if any. Identification of the sources may enable the Trustees and CMG to gauge their magnitude. It also may enable the Trustees and CMG to build upon past work on standardized fee schedules so that the schedules themselves are consistent with any economies

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

of scale and their sources. Finally, an extension of the analysis may enable the Trustees and CMG to develop a framework that coordinates the use of fee waivers and expense caps with the standard fee schedules and with any economies of scale and their sources.

C. Institutional Fees

4.Trustees may wish to consider encouraging CMG to build further upon its expanded analysis of institutional fees by refining the matching of institutional accounts with mutual funds, by dating the establishment of each institutional account, and by incorporating other accounts, such as subadvisory relationships, trusts, offshore funds, and separately managed accounts into the analysis.

D. Profitability

5.Trustees may wish to consider requesting that CMG expand the reporting of revenues and expenses to include more line-item detail for management and administration, transfer agency, fund accounting, and distribution.

6.Trustees may wish to consider requesting that CMG provide a statement of its operations in the 15(c) materials.

7.Trustees may wish to consider the treatment of the revenue sharing with the Private Bank of Bank of America in their review of CMG's profitability.

Respectfully submitted,
John D. Rea

49

APPENDIX

SOURCES OF INFORMATION USED IN THE EVALUATION

The following list generally describes the sources and types of information that were used in preparing this report.

- 1.Performance, management fees, and expense ratios for the Funds and comparable funds from other fund complexes from Lipper and CMG. The sources of this information were CMG and Lipper;
- 2.CMG's expenses and profitability obtained directly from CMG;
- 3.Information on CMG's organizational structure;
- 4.Profitability of publicly traded asset managers from Lipper;
- 5.Interviews with CMG staff, including members of senior management, legal staff, heads of affiliates, portfolio managers, and financial personnel;
- 6.Documents prepared by CMG for Section 15(c) contract renewals in 2005 and 2006;
- 7.Academic research papers, industry publications, professional materials on mutual fund operations and profitability, and SEC releases and studies of mutual fund expenses

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

8. Interviews with and documents prepared by Ernst & Young LLP in its review of the Private Bank Revenue Sharing Agreement;

9. Discussions with Trustees and attendance at Board and committee meetings during which matters pertaining to the evaluation were considered.

In addition, I engaged NERA Economic Consulting ("NERA") to assist me in data management and analysis. NERA has extensive experience in the mutual fund industry that provides unique insights and special knowledge pertaining to my independent analysis of fees, performance, and profitability. I have also retained attorneys in the Washington, D.C. office of Willkie Farr & Gallagher LLP as outside counsel to advise me in connection with my evaluation.

Finally, meetings and discussions with CMG staff were informative. My participation in Board and committee meetings in which Trustees and CMG management discussed issues relating to management contracts were of great benefit to the preparation of the evaluation.

Important Information About This Report

Colonial Investment Grade Municipal Trust

Transfer Agent

Computershare
P.O. Box 43010
Providence, RI 02940-3010

The trust mails one shareholder report to each shareholder address. Shareholders can order additional reports by calling 800-730-6001. In addition, representatives at that number can provide shareholders information about the trust.

Financial advisors who want additional information about the trust may speak to a representative at 800-426-3750.

A description of the trust's proxy voting policies and procedures is available (i) at www.columbiamanagement.com; (ii) on the Securities and Exchange Commission's website at www.sec.gov, and (iii) without charge, upon request, by calling 800-730-6001. Information regarding how the trust voted proxies relating to portfolio securities during the 12-month period ended June 30 is available from the SEC's website. Information regarding how the trust voted proxies relating to portfolio securities is also available at www.columbiamanagement.com.

The trust files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The trust's Form N-Q is available on the SEC's website at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

Annual Certifications -- As required, on June 21, 2006, the trust submitted to the New York Stock Exchange ("NYSE") the annual certification of the trust's Chief Executive Officer certifying that he is not aware of any violation of the NYSE's Corporate Governance listing standards. The trust also has included the certifications of the trust's Chief Executive Officer and Chief Financial

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

Officer required by Section 302 of the Sarbanes-Oxley Act of 2002 as exhibits to the trust's Form N-CSR filed with the Securities and Exchange Commission for the annual period.

This report has been prepared for shareholders of Colonial Investment Grade Municipal Trust.

COLONIAL INVESTMENT GRADE MUNICIPAL TRUST

ANNUAL REPORT

SHC-42/115615-1106 (01/07) 07/33123

Item 2. Code of Ethics.

- (a) The registrant has, as of the end of the period covered by this report, adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (b) The registrant's Board adopted, effective January 3, 2006, a revised code of ethics described in 2(a) above. This revised code of ethics, which is attached as an exhibit hereto, does not differ materially from the code of ethics in effect for the year ended November 30, 2005.
- (c) During the period covered by this report, there were no waivers, including any implicit waivers, from a provision of the code of ethics described in 2(a) above that relates to one or more of the items set forth in paragraph (b) of this item's instructions.

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that Douglas A. Hacker, Thomas E. Stitzel and Anne-Lee Verville, each of whom are members of the registrant's Board of Trustees and Audit Committee, each qualify as an audit committee financial expert. Mr. Hacker, Mr. Stitzel and Ms. Verville are each independent trustees, as defined in paragraph (a)(2) of this item's instructions and collectively constitute the entire Audit Committee.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees. Aggregate Audit Fees billed by the principal accountant for professional services rendered during the fiscal years ended November 30, 2006 and November 30, 2005 are approximately as follows:

2006	2005
----	----
\$27,800	\$25,000

Audit Fees include amounts related to the audit of the registrant's annual

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years.

(b) Audit-Related Fees. Aggregate Audit-Related Fees billed to the registrant by the principal accountant for professional services rendered during the fiscal years ended November 30, 2006 and November 30, 2005 are approximately as follows:

2006	2005
----	----
\$13,700	\$13,200

Audit-Related Fees include amounts for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported in Audit Fees above. In both fiscal years 2006 and 2005, Audit-Related Fees include agreed-upon procedures performed for semi-annual shareholder reports and rating agency reviews.

During the fiscal years ended November 30, 2006 and November 30, 2005, there were no Audit-Related Fees billed by the registrant's principal accountant to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for an engagement that related directly to the operations and financial reporting of the registrant.

(c) Tax Fees. Aggregate Tax Fees billed by the principal accountant to the registrant for professional services rendered during the fiscal years ended November 30, 2006 and November 30, 2005 are approximately as follows:

2006	2005
----	----
\$3,800	\$3,100

Tax Fees consist primarily of the review of annual tax returns and include amounts for professional services by the principal accountant for tax compliance, tax advice and tax planning.

During the fiscal years ended November 30, 2006 and November 30, 2005, there were no Tax Fees billed by the registrant's principal accountant to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for an engagement that related directly to the operations and financial reporting of the registrant.

(d) All Other Fees. Aggregate All Other Fees billed by the principal accountant to the registrant for professional services rendered during the fiscal years ended November 30, 2006 and November 30, 2005 are approximately as follows:

2006	2005
----	----
\$0	\$0

All Other Fees include amounts for products and services provided by the principal accountant, other than the services reported in paragraphs

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

(a) through (c) above.

Aggregate All Other Fees billed by the registrant's principal accountant to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for an engagement that related directly to the operations and financial reporting of the registrant during the fiscal years ended November 30, 2006 and November 30, 2005 are approximately as follows:

2006	2005
-----	-----
\$505,500	\$255,500

In both fiscal years 2006 and 2005, All Other Fees include internal control reviews of the registrant's investment advisor.

(e) (1) Audit Committee Pre-Approval Policies and Procedures

The registrant's Audit Committee is required to pre-approve the engagement of the registrant's independent accountants to provide audit and non-audit services to the registrant and non-audit services to its investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) or any entity controlling, controlled by or under common control with such investment adviser that provides ongoing services to the registrant ("Adviser Affiliates"), if the engagement relates directly to the operations and financial reporting of the registrant.

The Audit Committee has adopted a Policy for Engagement of Independent Accountants for Audit and Non-Audit Services ("Policy"). The Policy sets forth the understanding of the Audit Committee regarding the engagement of the registrant's independent accountants to provide (i) audit and permissible audit-related, tax and other services to the registrant (collectively "Fund Services"); (ii) non-audit services to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and Adviser Affiliates, if the engagement relates directly to the operations or financial reporting of a Fund (collectively "Fund-related Adviser Services"); and (iii) certain other audit and non-audit services to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is

subcontracted with or overseen by another investment adviser) and Adviser Affiliates. Unless a type of service receives general pre-approval under the Policy, it requires specific pre-approval by the Audit Committee if it is to be provided by the independent accountants. Pre-approval of non-audit services to the registrant, the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and Adviser Affiliates may be waived provided that the "de minimis" requirements set forth under paragraph (c) (7) (i) (C) of Rule 2-01 of Regulation S-X are met.

Under the Policy, the Audit Committee may delegate pre-approval authority to any pre-designated member or members who are Independent Trustees/Directors. The member(s) to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next regular meeting. The Audit Committee's responsibilities with respect to the pre-approval of services performed by the independent

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

accountants may not be delegated to management.

The Policy requires the Fund Treasurer and/or Director of Board Administration to submit to the Audit Committee, on an annual basis, a schedule of the types of services that are subject to general pre-approval. The schedule(s) provide a description of each type of service that is subject to general pre-approval and, where possible, will provide estimated fee caps for each instance of providing each service. The Audit Committees will review and approve the types of services and review the projected fees for the next fiscal year and may add to, or subtract from, the list of general pre-approved services from time to time based on subsequent determinations. That approval acknowledges that the Audit Committee is in agreement with the specific types of services that the independent accountants will be permitted to perform.

The Fund Treasurer and/or Director of Board Administration shall report to the Audit Committee at each of its regular meetings regarding all Fund Services or Fund-related Adviser Services initiated since the last such report was rendered, including a general description of the services, actual billed and projected fees, and the means by which such Fund Services or Fund-related Adviser Services were pre-approved by the Audit Committee.

(e) (2) The percentage of services described in paragraphs (b) through (d) of this Item approved pursuant to the "de minimis" exception under paragraph (c) (7) (i) (C) of Rule 2-01 of Regulation S-X during both fiscal years ended November 30, 2006 and November 30, 2005 was zero.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not

including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for the fiscal years ended November 30, 2006 and November 30, 2005 are approximately as follows:

2006	2005
-----	-----
\$523,000	\$271,800

(h) The registrant's Audit Committee of the Board of Directors has considered whether the provision of non-audit services that were rendered to the registrant's adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c) (7) (ii) of Rule 2-01 of Regulation S-X, is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants.

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a) (58) (A) of the Exchange Act (15 U.S.C. 78c(a) (58) (A)). Douglas A. Hacker, Thomas E. Stitzel and Anne-Lee Verville are each independent trustees and collectively constitute the entire Audit

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

Committee.

Item 6. Schedule of Investments

The registrant's "Schedule I - Investments in securities of unaffiliated issuers" (as set forth in 17 CFR 210.12-12) is included in Item 1 of this Form N-CSR.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The Fund has delegated to Columbia Management Advisors, LLC (the "Advisor") the responsibility to vote proxies relating to portfolio securities held by the Fund. In deciding to delegate this responsibility to the Advisor, the Board of Trustees of the Trust reviewed and approved the policies and procedures adopted by the Advisor. These included the procedures that the Advisor follows when a vote presents a conflict between the interests of the Fund and its shareholders and the Advisor, its affiliates, its other clients or other persons.

The Advisor's policy is to vote all proxies for Fund securities in a manner considered by the Advisor to be in the best interest of the Fund and its shareholders without regard to any benefit to the Advisor, its affiliates, its other clients or other persons. The Advisor examines each proposal and votes against the proposal, if, in its judgment, approval or adoption of the proposal would be expected to impact adversely the current or potential

market value of the issuer's securities. The Advisor also examines each proposal and votes the proxies against the proposal, if, in its judgment, the proposal would be expected to affect adversely the best interest of the Fund. The Advisor determines the best interest of the Fund in light of the potential economic return on the Fund's investment.

The Advisor addresses potential material conflicts of interest by having predetermined voting guidelines. For those proposals that require special consideration or in instances where special circumstances may require varying from the predetermined guideline, the Advisor's Proxy Committee determines the vote in the best interest of the Fund, without consideration of any benefit to the Advisor, its affiliates, its other clients or other persons. The Advisor may also address potential material conflicts of interest by delegating the proxy to an independent third party voting agent.

The Advisor's Proxy Committee is composed of representatives of the Advisor's investment management team, compliance, legal and fund administration functions. In addition to the responsibilities described above, the Proxy Committee has the responsibility to review, at least annually, the Advisor's proxy voting policies to ensure consistency with internal and regulatory agency policies and to develop additional predetermined voting guidelines to assist in the review of proxy proposals.

The Proxy Committee may vary from a predetermined guideline if it determines that voting on the proposal according to the predetermined guideline would be expected to impact adversely the current or potential market value of the issuer's securities or to affect adversely the best interest of the client. References to the best interest of a client refer to the interest of the client in terms of the potential economic return on the client's investment. In determining the vote on any proposal, the Proxy Committee does not consider any benefit other than benefits to the owner of the securities to be voted. A member of the Proxy Committee is prohibited from voting on any proposal for which he or she has a conflict of interest by reason of a direct relationship with the issuer or other party affected by a given proposal. Persons making

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

recommendations to the Proxy Committee or its members are required to disclose to the Committee any relationship with a party making a proposal or other matter known to the person that would create a potential conflict of interest.

The Advisor has retained a third party vendor to implement its proxy voting process. The vendor provides proxy analysis, record keeping services and vote disclosure services.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a) (1) PORTFOLIO MANAGER

MAUREEN G. NEWMAN, a senior vice president of Columbia Management Advisors, LLC, is the manager for the Fund and has managed the Fund since January 2002. Ms. Newman has been associated with Columbia Management Advisors, LLC or its predecessors since May 1996.

(2) OTHER ACCOUNTS MANAGED BY THE PORTFOLIO MANAGER

The following table shows the number and assets of other investment accounts (or portions of investment accounts) that the Fund's portfolio manager managed as of the Fund's fiscal year-end.

Portfolio Manager	Other SEC- registered open-end and closed-end funds		Other pooled investment vehicles		Other accounts	
	Number of accounts	Assets	Number of accounts	Assets	Number of accounts	Assets
Maureen G. Newman	3	\$1.4 billion	0	\$0	10	\$3.7 million

None of these accounts are subject to an advisory fee that is based on the performance of the account.

POTENTIAL CONFLICTS OF INTEREST IN MANAGING MULTIPLE ACCOUNTS

Like other investment professionals with multiple clients, a portfolio manager for the Fund may face certain potential conflicts of interest in connection with managing both the Fund and other accounts at the same time. The paragraphs below describe some of these potential conflicts, which Columbia Management Advisors, LLC believes are faced by investment professionals at most major financial firms. Columbia Management Advisors, LLC and the Trustees of the Fund have adopted compliance policies and procedures that attempt to address certain of these potential conflicts.

The management of accounts with different advisory fee rates and/or fee structures, including accounts that pay advisory fees based on account performance ("performance fee accounts"), may raise potential conflicts of interest by creating an incentive to favor higher-fee accounts. These potential conflicts may include, among others:

- . The most attractive investments could be allocated to higher-fee accounts or performance fee accounts.

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

- . The trading of higher-fee accounts could be favored as to timing and/or execution price. For example, higher-fee accounts could be permitted to sell securities earlier than other accounts when a prompt sale is desirable or to buy securities at an earlier and more opportune time.
- . The trading of other accounts could be used to benefit higher-fee accounts (front-running).
- . The investment management team could focus their time and efforts primarily on higher-fee accounts due to a personal stake in compensation.

Potential conflicts of interest may also arise when the portfolio managers have personal investments in other accounts that may create an incentive to favor those accounts. As a general matter and subject to limited exceptions, Columbia Management Advisors, LLC's investment professionals do not have the opportunity to invest in client accounts, other than the Columbia Funds.

A potential conflict of interest may arise when the Fund and other accounts purchase or sell the same securities. On occasions when a portfolio manager considers the purchase or sale of a security to be in the best interests of the Fund as well as other accounts, Columbia Management Advisors, LLC 's trading desk may, to the extent permitted by applicable laws and regulations, aggregate the securities to be sold or purchased in order to obtain the best execution and lower brokerage commissions, if any. Aggregation of trades may create the potential for unfairness to the Fund or another account if one account is favored over another in allocating the securities purchased or sold -- for example, by allocating a disproportionate amount of a security that is likely to increase in value to a favored account.

"Cross trades," in which one Columbia account sells a particular security to another account (potentially saving transaction costs for both accounts), may also pose a potential conflict of interest. Cross trades may be seen to involve a potential conflict of interest if, for example, one account is permitted to sell a security to another account at a higher price than an independent third party would pay. Columbia Management Advisors, LLC and the Funds' Trustees have adopted compliance procedures that provide that any transactions between the Fund and another Columbia-advised account are to be made at an independent current market price, as required by law.

Another potential conflict of interest may arise based on the different investment objectives and strategies of the Fund and other accounts. For example, another account may have a shorter-term investment horizon or different investment objectives, policies or restrictions than the Fund. Depending on another account's objectives or other factors, a portfolio manager may give advice and make decisions that may differ from advice given, or the timing or nature of decisions made, with respect to the Fund. In addition, investment decisions are the product of many factors in addition to basic suitability for the particular account involved. Thus, a particular security may be bought or sold for certain accounts even though it could have been bought or sold for other accounts at the same time. More rarely, a particular security may be bought for one or more accounts managed by a portfolio manager when one or more other accounts are selling the security (including short sales). There may be circumstances when purchases or sales of portfolio securities for one or more accounts may have an adverse effect on other accounts.

The Fund's portfolio manager who is responsible for managing multiple funds and/or accounts may devote unequal time and attention to the management of those funds and/or accounts. As a result, the portfolio manager may not be able to formulate as complete a strategy or identify equally attractive investment

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

opportunities for each of those accounts as might be the case if he or she were to devote substantially more attention to the management of a single fund. The effects of this potential conflict may be more

pronounced where funds and/or accounts overseen by a particular portfolio manager have different investment strategies.

The Fund's portfolio managers may be able to select or influence the selection of the brokers and dealers that are used to execute securities transactions for the Fund. In addition to executing trades, some brokers and dealers provide portfolio managers with brokerage and research services (as those terms are defined in Section 28(e) of the Securities Exchange Act of 1934), which may result in the payment of higher brokerage fees than might have otherwise be available. These services may be more beneficial to certain funds or accounts than to others. Although the payment of brokerage commissions is subject to the requirement that the portfolio manager determine in good faith that the commissions are reasonable in relation to the value of the brokerage and research services provided to the fund, a portfolio manager's decision as to the selection of brokers and dealers could yield disproportionate costs and benefits among the funds and/or accounts that he or she manages.

Columbia Management Advisors, LLC or an affiliate may provide more services (such as distribution or recordkeeping) for some types of funds or accounts than for others. In such cases, a portfolio manager may benefit, either directly or indirectly, by devoting disproportionate attention to the management of fund and/or accounts that provide greater overall returns to the investment manager and its affiliates.

The Fund's portfolio manager(s) may also face other potential conflicts of interest in managing the Fund, and the description above is not a complete description of every conflict that could be deemed to exist in managing both the Fund and other accounts. In addition, the Fund's portfolio manager may also manage other accounts (including their personal assets or the assets of family members) in their personal capacity. The management of these accounts may also involve certain of the potential conflicts described above. Investment personnel at Columbia Management Advisors, LLC, including the Fund's portfolio manager, are subject to restrictions on engaging in personal securities transactions pursuant to Codes of Ethics adopted by the Columbia Management Advisors, LLC and the Fund, which contain provisions and requirements designed to identify and address certain conflicts of interest between personal investment activities and the interests of the Fund.

(3) COMPENSATION

As of the Fund's most recent fiscal year end, the portfolio manager received all of her compensation from Columbia Management Advisors, LLC and its parent company, Columbia Management Group, in the form of salary, bonus, stock options and restricted stock. A portfolio manager's bonus is variable and is generally based on (1) an evaluation of the manager's investment performance and (2) the results of a peer and/or management review of such individual, which takes into account skills and attributes such as team participation, investment process, communication and professionalism. In evaluating investment performance, Columbia Management Advisors, LLC generally considers the one-, three- and five-year performance of mutual funds and other accounts

under the portfolio manager's oversight relative to the benchmarks and peer groups noted below, emphasizing the manager's three- and five-year performance. Columbia Management Advisors, LLC may also consider the portfolio manager's

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

performance in managing client assets in sectors and industries assigned to the manager as part of her investment team responsibilities, where applicable. For portfolio managers who also have group management responsibilities, another factor in their evaluation is an assessment of the group's overall investment performance.

Portfolio Manager	Performance Benchmark	Peer Group
----- Maureen G. Newman	----- Lehman Municipal Bond Index	----- Lipper General Municipal Debt Funds (Leveraged)

The size of the overall bonus pool each year is determined by Columbia Management Group and depends in part on levels of compensation generally in the investment management industry (based on market compensation data) and Columbia Management Advisors, LLC 's profitability for the year, which is influenced by assets under management.

(4) OWNERSHIP OF SECURITIES

The table below shows the dollar ranges of shares of the Fund beneficially owned (as determined pursuant to Rule 16a-1(a)(2) under the Securities Exchange Act of 1934, as amended) by the portfolio manager listed above at the end of the Fund's most recent fiscal year:

Portfolio Manager	Dollar Range of Equity Securities in the Fund Beneficially Owned
----- Maureen G. Newman	----- None

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Period	Registrant Purchases of Equity Securities*			
	(a) Total Number of Shares Purchased	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
06/01/06 through 06/30/06	6,401	\$10.27	6,401	N/A
07/01/06 through 07/31/06	6,346	\$ 9.93	6,346	N/A
08/01/06 through 08/31/06	6,073	\$10.40	6,073	N/A
09/01/06 through 09/30/06	5,770	\$10.56	5,770	N/A
10/01/06 through 10/31/06	5,556	\$10.81	5,556	N/A
11/01/06 through 11/30/06	5,618	\$11.19	5,618	N/A
Total	35,764	\$10.51	35,764	N/A

* Includes shares purchased by the Dividend Reinvestment Agent pursuant to the Registrant's Dividend Reinvestment Plan.

Item 10. Submission of Matters to a Vote of Security Holders.

Edgar Filing: COLONIAL INVESTMENT GRADE MUNICIPAL TRUST - Form N-CSR

There have not been any material changes to the procedures by which shareholders may recommend nominees to the registrant's board of directors, since those procedures were last disclosed in response to requirements of Item 7(d) (2) (ii) (G) of Schedule 14A or this Item.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officers, based on their evaluation of the registrant's disclosure controls and procedures as of a date within 90 days of the filing of this report, have concluded that such controls and procedures are adequately designed to ensure that information required to be disclosed by the registrant in Form N-CSR is accumulated and communicated to the registrant's management, including the principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.
- (b) There was no change in the registrant's internal control over financial reporting that occurred during the registrant's second fiscal quarter of the period covered by

this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits.

- (a) (1) Code of ethics required to be disclosed under Item 2 of Form N-CSR attached hereto as Exhibit 99.CODE ETH.
- (a) (2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) attached hereto as Exhibit 99.CERT.
- (a) (3) Not applicable.
- (b) Certification pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 (17 CFR 270.30a-2(b)) attached hereto as Exhibit 99.906CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
