Each committee conducts an annual assessment to determine whether it has sufficient information, resources and time to fulfill its obligations and whether it is performing its obligations. Under the Board's Corporate Governance Guidelines, each committee may retain experts to assist it in carrying out its responsibilities. The Board of Directors has determined that the members of the Audit Committee, Compensation Committee, and the Nominating and Corporate Governance Committee are independent as required by applicable laws and regulations, and the National Association of Securities Dealers listing standards.

The Board and executive management believes that good corporate governance is important to ensure that we are managed for the long-term benefit of our stockholders. The Board and executive management team have been reviewing and will continue to review our corporate governance policies and practices for compliance with applicable regulations and comparison to those suggested by various authorities in corporate governance and the practices of other public companies.

The Audit Committee reviews our accounting practices, internal accounting controls and financial results and oversees the engagement of our independent registered public accountants. This committee also oversees management's performance of its responsibility for the integrity of our accounting and financial reporting and our systems of internal controls, the performance and qualifications of the independent accountants (including the independent accountant's independence), and our compliance with legal and regulatory requirements. This committee establishes procedures, as required under applicable law, for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls and the confidential and anonymous submission by employees and others regarding questionable or possibly fraudulent actions or activities. The Board of Directors, based on the recommendation of the Audit Committee, has designated David Lubrano as the audit committee financial expert. directors, including the members of such committee. The committee also reviews, and recommends to the full Board, the compensation and benefits for non-employee Directors. During 2006, the members of this committee were George Beitzel, serving as Chairperson, Amos Kaminski, and David Lubrano.

The committee reviews and evaluates the policies and practices with respect to the size, composition, independence and functioning of the Board and its committees and reflects those policies and practices in corporate governance guidelines, and evaluates the qualifications of, and recommends to the full Board, candidates for election as Directors. COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy

Bitstream's executive compensation program is intended to attract and retain highly-qualified senior managers by providing competitive compensation opportunities that reflect our business results and the individual executive's performance. During the year ended December 31, 2006, we used salary, bonus, and stock options, to meet these goals. We believe that these compensation opportunities will motivate management's efforts by ensuring that the rewards received by our executives are consistent with the achievement of our business objectives and with the value added by management to the stockholders' interests. The program provides for base salaries that reflect such factors as level of responsibility, internal fairness and external competitiveness.

We also believe that a substantial portion of each of our executive's compensation should be in the form of an incentive bonus. Receipt of this bonus in any given year is contingent upon our achievement of target levels of sales and earnings, strategic acquisitions and other initiatives, introduction of innovative products and services, and the achievement of and progress toward other significant annual financial and operational objectives as determined by the Compensation Committee in its sole discretion. In general, the total cash compensation of our executive officers approximates the average of compensation paid to executives of appropriate comparable companies who occupy positions of similar responsibilities. Our compensation program also provides long-term incentive opportunities in the form of stock options and other forms of equity compensation that strengthen the mutuality of economic interest between management and our stockholders and encourage management stability and continuity. During the year ended December 31, 2006, we awarded options to purchase shares under our 2006 Incentive Compensation Plan to our executive officers that will vest with respect to the right of exercise over a four-year period.

The following is a discussion of each element of our executive compensation program, including a description of the decisions and actions taken by the Compensation Committee with respect to the 2006 compensation for the Chief Executive Officer (the CEO) and all executive officers as a group.

Management Compensation Program

Overview

Compensation of our executive officers in the year ended December 31, 2006 (as reflected in the tables that follow with respect to the Named Executive Officers) consisted of the following elements: base salaries and annual incentive bonuses and stock option grants under our 2006 Incentive Compensation Plan. Total annual cash compensation for each executive officer varies each year based on the achievement of our annual objectives and the individual officer's performance.

Base Salary

With respect to determining the base salary of each of the executive officers, the Compensation Committee takes into consideration a variety of factors, including the executive's level of managerial responsibility, total Company and career experience, personal performance, and the salaries of similar positions in comparable companies in our industry and geographical area. We review the results of various industry salary surveys to ensure our understanding of competitive compensation levels and practices in the marketplace. From time to time, we utilize the services of a

recognized, independent external consulting firm to determine marketplace compensation values and practices, and to assess the reasonableness of the overall compensation program. During 2006, we retained the services of GK Partners to assist us with our marketplace analysis.

Annual Incentive Compensation

Our compensation philosophy includes granting annual cash bonuses which reflect the Company's business results and each executive's performance. We therefore maintain discretion to vary overall cash compensation

Table of Contents

for a given year by varying the size of the cash bonus based on corporate performance and individual performance. These cash bonuses reflect a material part of the overall compensation, with target payments ranging from 50%-100% of salary, depending on management position and overall company performance, and subject to the Compensation Committee's discretion to award bonuses greater or lower than the target if they deem it appropriate. Because we believe that senior executives can have the greatest impact on the Company's overall success, we typically set bonus targets at a higher percentage of base salaries for these executives, as compared with other Company employees. However, no executive or employee is guaranteed an annual bonus and the Committee reserves the right to reduce or eliminate bonus awards as it deems appropriate.

Our annual incentive bonus to our executive officers (including the Named Executive Officers) is based on the achievement of objective, financial and operational performance targets and the discretion of the Compensation Committee. These targets may include sales volume, net operating income, accomplishment of certain strategic business initiatives and other performance objectives as may be determined annually. In determining individual incentive bonus awards, the accountability of executive officers and their individual contributions towards the attainment of these objectives are considered. In determining awards for the most recent performance year, we placed considerable emphasis on sales growth, achievement of earnings objectives, new product development, and management of corporate expenses and cash and cash equivalents on hand. The calculation of our financial and operational performance with respect to the determination of these incentive bonus awards, if any, is made as soon as is practicable after the completion of our fiscal year.

Long-Term Incentive Awards

In addition to cash compensation, the Compensation Committee and the Board believe that providing executive officers with stock ownership opportunities aligns the interests of the executives with other stockholders and encourages the executives' long-term retention with the Company. To date, the long-term incentive element of our management compensation program has been in the form of stock option grants. The 2006 Incentive Compensation Plan, which was adopted on April 14, 2006 and approved by the stockholders on June 1, 2006, authorizes a committee of two or more directors designated by the Board, currently the Compensation Committee, to grant stock options, restricted stock, stock granted as a bonus or in lieu of another award or other stock based awards of up to 2,000,000 shares of Class A Common Stock.

The 2006 Incentive Compensation Plan is intended to create opportunities for executive officers and other key employees of the Company to acquire a proprietary interest in the Company and thereby enhance their efforts in the service of the Company and its stockholders. In addition, the vesting provisions of such awards (which limit the exercisability of such options for certain periods of time) encourage the continued service and stability of the management team.

Awards are typically granted annually, although supplemental awards are granted from time-to-time. All options granted in fiscal 2006 were subject to a four-year vesting provision. We award executive stock options based upon each executive's management position, responsibilities and performance over the previous year and the executive officer's anticipated future performance, potential and responsibilities. We also review prior option grants to each executive, including the number of shares that continue to be subject to vesting under their respective outstanding options, in setting the size of options to be granted to the executive officers. In addition, we use data compiled by our independent compensation consultant on stock options granted by comparable companies based on industry and revenue. On August 3, 2006, the Board awarded Incentive Stock Options (ISOs) to purchase 25,000 Class A Shares to each of John Collins, James Dore, Sampo Kaasila, and Costas Kitsos and 50,000 Class A Shares to Anna Chagnon. Such options have an exercise price equal to the fair market value of the Class A Common Stock of the Company on the date of grant as reported on NASDAQ, are exercisable for ten years and vest in one-fourth increments on each of the first, second, third and fourth anniversaries of the date of the grant.

Table of Contents

Individual Performance

Anna M. Chagnon has served as our Chief Executive Officer since October 2003. Ms. Chagnon's salary remained at \$250,000 for 2006. The Compensation Committee has determined that Ms. Chagnon's salary is below the median salary of Chief Executive Officers in a selected group of comparable companies. Ms. Chagnon is eligible to participate in the same executive compensation programs in which our other executive-level employees participate. For 2006, Ms. Chagnon's target bonus was 60% of salary. The Compensation Committee evaluates Ms. Chagnon's performance and determines her bonus by reviewing the Company's overall revenue growth and operating profit, her supervision of the Company's management team, and the Company's success in achieving the goals contained in the Company's budget for the year. This year, the Compensation Committee determined that Ms. Chagnon met those goals by, among other things, guiding the Company to better-than-budgeted financial results, and helping to consummate several key new business relationships. Accordingly, the Committee awarded Ms. Chagnon a bonus of \$200,000 (133% of her target bonus). Her total annual compensation for 2006 (including compensation derived from salary and annual incentive bonus) was determined by the Compensation Committee in consideration of the same performance criteria used to establish pay levels for all other executive-level employees. On August 3, 2006, Ms. Chagnon was granted a stock option under our 2006 Incentive Compensation Plan for 50,000 shares of our common stock at a price per share of \$4.45 as part of the annual grant process described above. These options vest over four years at a rate of 25% on the first, second, third and fourth anniversary of the grant.

Ms. Chagnon directly supervises and manages the other named executive officers (NEO s) of the Company. Ms. Chagnon reviews the NEO s performance against operating and strategic goals set for that executive during the previous year. She then further assesses each of the NEO s individual performance by measuring the NEO s contribution to the Company s consolidated results and the Company s success in achieving the goals contained in the Company s budget for the year. Based on this assessment, Ms. Chagnon recommends bonus amounts for each of the NEO s to the Compensation Committee. The Compensation Committee considers Ms. Chagnon s recommendations and approves or modifies, as necessary, the recommended bonus amounts as it deems appropriate, in its sole discretion. For 2006, the Committee set the target bonus for the other NEO s at 50% of their respective annual salary. Based upon the Company s better-than-budgeted financial results and Ms. Chagnon s evaluation that each of the NEO s had met their goals and exceeded expectations in contributing to a very strong year for the Company, Ms. Chagnon recommended and the Compensation Committee awarded bonuses of \$100,000 (approximately 133% of the individual target bonus) to each of the NEO s.

Employment and Severance Agreements

The Company does not currently have any written employment and/or severance agreements (including any that might pertain to a Change-in-Control of the Company) with the Chief Executive Officer (Ms. Chagnon) or any of the other Named Executive Officers.
