COLUMBIA SPORTSWEAR COMPANY

PROXY STATEMENT

Annual Meeting of Shareholders

SUMMARY OF PROCEDURES

Proxy Statement Information. The Board of Directors of Columbia Sportswear Company, an Oregon corporation, is soliciting proxies to be used at the annual meeting of shareholders to be held at 3:00 p.m. Pacific Time on Wednesday, May 21, 2008, at the Company's headquarters, located at 14375 NW Science Park Drive, Portland, Oregon 97229, for the purposes set forth in the accompanying Notice of Annual Meeting. This Proxy Statement, our 2007 Annual Report to Shareholders, and our form of proxy will be provided to shareholders on or about April 4, 2008. The expense of soliciting proxies, including the cost of preparing, assembling, and mailing the Notice, Proxy Statement, 2007 Annual Report to Shareholders, and form of proxy, will be borne by the Company. We will ask fiduciaries, custodians, brokerage houses and similar parties to forward copies of proxy materials to beneficial owners of the Company's stock, and we will reimburse these parties for their reasonable and customary charges for distribution expenses. Proxies will be solicited by use of the mail and the internet, and our directors, officers and employees may also solicit proxies by telephone, facsimile, and personal contact. No additional compensation will be paid for these services. We have retained W.F. Doring & Co. to assist in the solicitation of proxies from nominees and brokers at an estimated fee of \$3,500 plus related out-of-pocket expenses.

Electronic Delivery of Proxy Materials. In accordance with the rules recently adopted by the Securities and Exchange Commission, the Company's proxy materials are available to all shareholders on the Internet. Instead of receiving paper copies of the Notice, Annual Report to Shareholders, Proxy Statement and/or form of proxy in the mail, you may receive these communications electronically via the Internet. If you received any proxy materials in the mail this year and would like to receive the materials electronically next year, please write to us at Columbia Sportswear Company, Attention: Investor Relations, 14375 NW Science Park Drive, Portland, Oregon 97229. Once you provide your consent to receive electronic delivery of proxy materials via the Internet, your consent will remain in effect until you revoke it.

Householding of Proxy Materials. The Securities and Exchange Commission has adopted rules that permit companies and intermediaries to satisfy the delivery requirements for proxy statements with respect to two or more shareholders sharing the same address by delivering a single Notice or set of proxy materials addressed to those shareholders. This process, which is commonly referred to as householding, may be more convenient for shareholders and less expensive for companies. A number of brokers with accountholders who are Company shareholders will be householding our Notice or proxy materials. If you have received notice from your broker that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If at any time you no longer wish to participate in householding, please notify your broker or write to us at Columbia Sportswear Company, Attention: Investor Relations, 14375 NW Science Park Drive, Portland, Oregon 97229. You may also contact Investor Relations at (503) 985-4000. If you currently receive multiple copies of the proxy materials and would like to request householding, please contact your broker.

Who Can Vote. Only shareholders of record at the close of business on March 24, 2008 (the record date) are entitled to notice of and to vote at the annual meeting or any adjournments of the annual meeting. At the close of business on March 24, 2008, 34,860,827 shares of our Common Stock, the only authorized voting security of the Company, were issued and outstanding. Because shareholders are entitled to one vote per share, a total of 34,860,827 votes are entitled to be cast at the annual meeting.

CORPORATE GOVERNANCE

Corporate Governance Guidelines. The Board of Directors has adopted a Nominating and Corporate Governance Committee Charter that is available for review on our website at www.columbia.com. Under our Nominating and Corporate Governance Committee Charter, which adopts the standards for independence under the applicable NASDAQ listing rules and the Securities and Exchange Commission rules, a majority of the members of the Board of Directors must be independent as determined by the Board of Directors. The Board of Directors has determined that Messrs. Albers, Babson, Bryant, George, Klenz and Stanton are independent and, accordingly, a majority of our Board of Directors is independent. In addition, all members of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are independent. There are no undisclosed transactions, relationships, or arrangements considered by the Board of Directors in connection with the determination of whether any particular Director is independent.

The Company has also adopted a Code of Business Conduct and Ethics that applies to our Chief Executive Officer, Chief Financial Officer, Corporate Controller, and all other Company directors and officers. A copy of our Code of Business Conduct and Ethics is available on our website at www.columbia.com.

Communications with Board. Any shareholder may communicate with the Board of Directors, individually or as a group, by writing to the member or members of the Board of Directors, c/o Peter J. Bragdon, Vice President, General Counsel and Secretary, Columbia Sportswear Company, 14375 NW Science Park Drive, Portland, Oregon 97229. Communications should be sent by overnight or certified mail, return receipt requested. All communications will be compiled by the Secretary and submitted to the individual director to whom it is addressed. Communications with the Board of Directors regarding recommendations of individuals for consideration by the Nominating and Corporate Governance Committee to become nominees for election to the Board of Directors must be made in accordance with the Director Nomination Policy described below.

Board Meetings. The Board of Directors met six times in 2007. Four executive sessions of the Board of Directors were held in 2007. Each director attended at least 75% of the total number of meetings of the Board of Directors and of any committee on which he or she served in 2007. We do not maintain a formal policy regarding director attendance at annual shareholder meetings; however, we encourage directors to attend the annual meeting of shareholders. All nine of our directors attended our 2007 annual meeting of shareholders.

Board Committees. The Board of Directors has designated three standing committees. The Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee each operate under a written charter that is available for review on our website at www.columbia.com. The current membership of each committee and its principal functions, as well as the number of times it met during fiscal year 2007, is described below.

Audit Committee. The Audit Committee is composed of Messrs. George, Bryant, and Stanton. The Board of Directors has determined that each member of the Audit Committee meets all applicable independence and financial literacy requirements. The Board has also determined that Mr. George is an audit committee financial expert as defined in regulations adopted by the Securities and Exchange Commission. A description of the functions performed by the Audit Committee and Audit Committee activity is set forth below in Report of the Audit Committee. The Audit Committee met five times in 2007.

Compensation Committee. The Compensation Committee is composed of Messrs. Albers, Babson and Klenz. The Compensation Committee determines compensation for the Company's executive officers and administers the Company's 1997 Stock Incentive Plan, the 1999 Employee Stock Purchase Plan, and the Executive Incentive Compensation Plan. The Compensation Committee met five times in 2007. The Compensation Committee's processes and procedures for determining compensation for the Company's executive officers and directors are described below in Compensation Committee Discussion and Analysis.

Table of Contents

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee is composed of Messrs. Babson, Albers, Bryant, George, Klenz and Stanton. The Nominating and Corporate Governance Committee develops and recommends corporate governance guidelines and standards for business conduct and ethics, identifies individuals qualified to become Board members, and makes recommendations regarding nominations for director. The Nominating and Corporate Governance Committee will consider individuals recommended by shareholders for nomination as director in accordance with the procedures described under Director Nomination Policy below. The Nominating and Corporate Governance Committee also oversees the annual self-evaluations of the Board and its committees and makes recommendations concerning the size, structure, composition and membership of the Board of Directors and its committees. The Nominating and Corporate Governance Committee met four times in 2007.

Director Nomination Policy. Shareholders may recommend individuals for consideration by the Nominating and Corporate Governance Committee to become nominees for election to the Board of Directors by submitting a written recommendation to the Nominating and Corporate Governance Committee c/o Peter J. Bragdon, Vice President, General Counsel and Secretary, Columbia Sportswear Company, 14375 NW Science Park Drive, Portland, Oregon 97229. Communications should be sent by overnight or certified mail, return receipt requested. Submissions must include sufficient biographical information concerning the recommended individual, including age, five-year employment history with employer names and a description of the employer's business, whether the individual can read and understand financial statements, and board memberships, if any, for the Nominating and Corporate Governance Committee to consider. The submission must be accompanied by a written consent of the individual to stand for election if nominated by the Board and to serve if elected by the shareholders. Recommendations received by December 31, 2008 will be considered for nomination at the 2009 Annual Meeting of Shareholders. Recommendations received after December 31, 2008 will be considered for nomination at the 2010 Annual Meeting of Shareholders. In addition to shareholder recommendations, the Nominating and Corporate Governance Committee may identify potential director nominees through referrals by directors, officers, employees, and third parties, referrals by search firms, and internal research and recruitment activities.

Following the identification of director candidates, the Nominating and Corporate Governance Committee meets to discuss and consider each candidate's qualifications and determines by majority vote the candidate(s) who the Nominating and Corporate Governance Committee believes will best serve the Company. In evaluating director candidates, the Nominating and Corporate Governance Committee considers a variety of factors, including the composition of the Board as a whole, the characteristics (including independence, diversity, age, skills and experience) of each candidate, and the performance and continued tenure of incumbent Board members. The Committee will consider these factors to evaluate potential candidates regardless of the source of the recommendation. The Committee believes that director candidates should possess high ethical character, business experience with high accomplishment in his or her respective field, the ability to read and understand financial statements, relevant expertise and experience, and the ability to exercise sound business judgment. Candidates must also be over 21 years of age. In addition, the Committee believes at least one member of the Board should meet the criteria for an audit committee financial expert as defined by the Securities and Exchange Commission rules, and that a majority of the members of the Board should meet the definition of independent director under the applicable NASDAQ listing requirements and Securities and Exchange Commission rules. The Committee also believes key members of our management should participate as members of the Board.

Compensation Committee Interlocks and Insider Participation. No member of our Compensation Committee is a past or present officer or employee of ours or any of our subsidiaries, nor has any member of our Compensation Committee had any relationship requiring disclosure under Item 404 of Regulation S-K under the Securities Exchange Act of 1934. Likewise, none of our executive officers has served on the Board of Directors or Compensation Committee (or other committee serving an equivalent function) of any other entity, where one of the other entity's executive officers served on our Board of Directors or Compensation Committee.

Certain Relationships and Related Transactions. Joseph Boyle, son of Timothy P. Boyle and grandson of Gertrude Boyle, is employed by the Company as a merchandiser. Joseph Boyle receives an annual salary of \$70,000 and is eligible to receive bonus and employment benefits available to other employees in comparable positions. The Nominating and Corporate Governance Committee reviewed and ratified this transaction.

Related Transactions Approval Process. Our Nominating and Corporate Governance Committee generally approves in advance any transactions with an officer, director, 5% shareholder, or any immediate family member of an officer, director, or 5% shareholder (related person) pursuant to our written related person transaction approval policy. A related person transaction is any actual or proposed transaction or series of transactions amounting to more than \$120,000 in which the Company was or is to be a participant, and in which a related person had or will have a direct or indirect material interest. Our policy requires that the Committee review the material facts of any transaction that could potentially qualify as a related person transaction and either approve or disapprove of our entry into the transaction. If advance Committee approval is not feasible, the related person transaction is considered, and if the committee determines it to be appropriate, ratified at the Committee s next regularly scheduled meeting. In determining whether to approve or ratify a transaction, the Committee takes into account, among other factors it deems to be appropriate, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated person under the same or similar circumstances and the extent of the related person s direct or interest in the transaction. If a related person transaction is ongoing, the Committee may establish guidelines for management to follow in its ongoing dealings with the related person. Thereafter, the Committee reviews and assesses ongoing relationships with the related person annually to see that they are in compliance with the Committee s guidelines and are appropriate.

Section 16(a) Beneficial Ownership Reporting Compliance. Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers, directors, and persons who own more than 10% of our Common Stock to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Executive officers, directors, and beneficial owners of more than 10% of our Common Stock are required to furnish to us copies of all section 16(a) reports they file. Based solely on a review of reports that we received and on written representations from reporting persons regarding compliance, we believe that all section 16(a) transactions were reported on a timely basis.

AUDIT COMMITTEE REPORT

The Audit Committee's role is to provide governance, guidance, and oversight regarding financial information provided by the Company to the public or governmental bodies, the Company's systems of internal controls, and the Company's auditing, accounting, and financial reporting processes in general. In accordance with the Audit Committee charter, the Audit Committee also oversees the relationship between the Company and its independent auditor, including recommending appointment of the independent auditor, reviewing and pre-approving the scope of services and related fees to be paid to the independent auditor, and assessing the auditor's independence. The Audit Committee regularly meets with management and the Company's independent auditor, Deloitte & Touche LLP, to discuss, among other things, the preparation of the financial statements, including key accounting and reporting issues.

The Audit Committee has:

Reviewed and discussed with management and Deloitte & Touche LLP the audited financial statements;

Discussed with Deloitte & Touche LLP the matters required to be discussed under generally accepted auditing standards and Statement on Auditing Standards No. 61, as amended (Communication with Audit Committees);

Received the written disclosures and the letter from Deloitte & Touche LLP required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and discussed with Deloitte & Touche LLP the auditor's independence from the Company and its management; and

Reviewed and approved the amount of fees paid to Deloitte & Touche LLP for audit and non-audit services, and discussed whether Deloitte & Touche LLP's provision of non-audit services was compatible with maintaining its independence. In considering the nature of the non-audit services provided by Deloitte & Touche LLP, the Audit Committee determined that these services are compatible with the provision of independent audit services.

Based on the Audit Committee's review and the meetings, discussions and reports described above, and subject to the limitations of the Audit Committee's role and responsibilities referred to above and in the Audit Committee charter, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements for the year ended December 31, 2007, be included in the Company's Annual Report on Form 10-K.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis, or CD&A, discusses our compensation program for our Chief Executive Officer, or CEO, our Chief Financial Officer, or CFO and our three other most highly compensated officers, which we collectively refer to as our named executive officers. Our named executive officers are:

Timothy P. Boyle, President and CEO;

Bryan L. Timm, Vice President and CFO;

Gertrude Boyle, Chairman of our Board of Directors;

Patrick D. Anderson, Vice President and Chief Operating Officer, or COO; and

Mark J. Sandquist, Vice President of Apparel and Equipment.

In this CD&A, the terms we, us, our and the Company refer to Columbia Sportswear Company and not to the Compensation Committee. The compensation programs for our named executive officers also generally apply to our other executive officers, and references in this CD&A to the executive officers include the named executive officers and the other executive officers.

In this CD&A, we describe our overall compensation philosophy, objectives and practices. Our compensation philosophy and objectives generally apply to all of our employees, and most of our employees are eligible to participate in the three main components of our compensation program: base salary, annual cash bonus, and long-term incentives. The relative value of each of these components of our compensation program varies from year to year and for each individual employee, depending on our financial and stock price performance and the employee's role and responsibilities.

Our compensation program is designed:

to align executive officer and shareholder financial interests;

to enable us to attract, retain and motivate key, highly talented executive officers; and

to consider competitive compensation practices and other relevant factors without establishing compensation targets at specific benchmark percentiles.

Highlights of our compensation program also include the following:

we employ our executive officers at will, and we have no severance payment arrangements and no change of control agreement with any of our named executive officers;

Edgar Filing: COLUMBIA SPORTSWEAR CO - Form DEF 14A

our executive officers realize a significant portion of their compensation only when we achieve annual and long-term business goals and when our stock price increases;

we engage in extensive processes that require Compensation Committee review and approval of compensation program design and practices, advice of an independent compensation consultant engaged by the Committee, comprehensive discussions between the Committee and our President and CEO regarding our President and CEO's performance and the performance of our other executive officers; and

we have established appropriate practices regarding the timing and pricing of stock option grants.

Compensation objectives

Leadership and motivation of our executive officers are critical to our long-term success. We believe our executive officer compensation program enables us to attract, retain and motivate key high-quality executive officers who are primarily responsible for our long-term success. Our executive officer compensation program also seeks to align these officers' compensation with our short- and long-term operating and stock market performance.

The market for high quality executive officers in our industry is competitive. As with any company, part of attracting and keeping the executive officers we want involves offering total compensation packages that are competitive with those offered by other companies. Our challenge is to offer a compensation program that is competitive and at the same time reinforces our core values of quality, performance and execution.

Compensation program design

Our compensation program is designed to reward our executive officers when they achieve our targeted annual performance goals, increase shareholder value and maintain long-term careers with us. Accordingly, we:

provide total compensation that is competitive with other companies in our industry;

link bonuses to corporate and individual performance; and

align management interests with shareholder interests by tying executive officer compensation in part to long-term shareholder returns.

In our view, a competitive pay package in our industry includes a salary that guarantees a minimum level of compensation for an executive officer, a meaningful bonus tied to achievement of both corporate and individual objectives, equity incentives that offer significant rewards if the market price of our Common Stock increases in the future, and benefits consistent with what is offered by similar companies. The total compensation package for our executive officers is substantially weighted toward incentive compensation tied to corporate and individual performance and equity incentives. Therefore, when targeted performance levels are not achieved and/or our stock decreases, executive officer compensation is substantially reduced. When targeted performance levels are exceeded and our stock price increases, executive officer compensation is substantially increased.

We have no severance payment arrangements and no change of control agreement with any of our named executive officers.

Components of compensation

We have a relatively simple compensation program. For 2007, our compensation program for named executive officers included the following three main components:

base salary;

annual, short-term incentive compensation; and

long-term, equity-based incentive compensation consisting of stock options and performance-based restricted stock units (RSUs). These three components constitute what we refer to as total direct compensation with respect to each named executive officer. We also provide compensation in the form of various other employee benefits and perquisites. Each of these elements helps us achieve the objectives of the program, and we believe that, together, they have been and will continue to be effective in achieving our overall objectives. A short description of each follows.

Table of Contents

Base salary

We provide an annual base salary to each named executive officer based in large part on job responsibility, experience level, individual performance, and the amount and nature of the other compensation paid to the named executive officer.

Short-term incentive compensation

We have established an Executive Incentive Compensation Plan for executive officers that provides for the payment of annual bonuses to motivate and reward achievement of corporate objectives. The plan satisfies the requirements of Section 162(m) of the Internal Revenue Code for shareholder-approved, performance-based compensation. The Compensation Committee generally determines the structure of the overall short-term incentive program at the beginning of the year. In setting the structure and the amount of the overall bonus target, the Committee considers the Company's strategic goals and plan, its operational and financial budget, and other factors, all of which are designed to improve shareholder value. The maximum bonus payable to any executive officer under the plan for a calendar year is \$2 million.

We may also award discretionary bonuses outside of the Executive Incentive Compensation Plan, based on extraordinary individual performance. We may or may not award an annual cash bonus, and any amount awarded varies according to the achievement of company and individual performance objectives.

Equity-based incentives

Equity-based incentives represent a direct link between executive officer compensation and shareholder returns. In light of this, we believe that offering equity incentives to our executive officers that become more valuable if the market price of our Common Stock increases provides an appropriate additional incentive to the executive officers to work toward this goal. Our equity awards to named executive officers take the form of stock options and performance-based RSUs. Because our Chairman and our President and CEO each hold substantial amounts of our outstanding Common Stock, however, to date we have not granted equity-based incentives to these executive officers. Each form of equity award constitutes approximately 50% of the overall long-term incentive we provide to named executive officers, excluding our Chairman and our President and CEO. Before 2006, our primary long-term incentive compensation had been awarded in the form of stock options. Stock options offer the possibility of large gains if our stock appreciates significantly, but no value and little incentive if our stock price drops. Stock options granted under our stock option plan have exercise prices not less than 100% of the closing market price of our Common Stock on the date of the option grant. In 2006, we shifted toward granting RSUs to our executive officers in addition to stock options. We believe that RSUs offer similar incentives to stock options since they reward increases in the market price of our Common Stock, and in that way tie the interests of executive officers to our shareholders' interests. Unlike stock options, however, these awards can provide retention value even if our stock price does not increase, and also subject executive officers to the same downside risk experienced by shareholders. Further, because of the perceived value of RSUs, we have been able to offer somewhat reduced total grant values than we previously offered solely in the form of stock options. This has reduced the shareholder dilution associated with our equity incentive programs. Finally, we believe that RSUs and restricted stock are being used increasingly by other companies as the primary equity incentives for executives and we need to offer these types of incentives to remain competitive in attracting and retaining executive officers.

Benefits and perquisites

We provide our named executive officers with benefits and perquisites consistent with what other similar companies provide. In 2007, our named executive officers were offered other benefits that were substantially the same as those offered to all our U.S. employees. These benefits included a 401(k) plan and medical, dental and vision insurance. We also provide an enhanced long-term disability benefit to our named executive officers. This benefit is designed to provide additional protection to our named executive officers in the event of catastrophic

Table of Contents

illness or disability. We provide our Chairman and our President and CEO and his dependents with health insurance at no cost to these executive officers, and we reimburse our Chairman and our President and CEO for health care plan deductibles, co-payments, and other out-of-pocket health care expenses up to a maximum aggregate amount of \$100,000 per individual and each dependent per year. We also pay various club membership fees for our Chairman and our President and Chief Executive Officer.

Weighting of components of compensation

The use and weight of each compensation component is based on a subjective determination by the Compensation Committee of the importance of each in meeting our overall objectives. In general, we seek to put a significant amount of each named executive officer's potential total direct compensation at risk based on corporate, individual and stock price performance. As a result, compensation paid on an ongoing, current basis in the form of base salary, benefits and perquisites generally represents less than half of each named executive officer's potential total direct compensation at target performance levels. In addition, we believe annual compensation paid to our named executive officers, other than our Chairman and our President and CEO, in the form of cash generally should represent approximately 60% to 65%, and consequently non-cash compensation generally should represent approximately 35% to 40%, of each named executive officer's potential total compensation at target performance levels. Our President and CEO, who currently holds approximately 43% of our outstanding Common Stock, and our Chairman, who currently holds approximately 15% of our outstanding Common Stock, have not received, and in 2007 did not receive, any equity compensation awards.

Compensation process

The Board of Directors or the Compensation Committee makes all executive officer compensation decisions. Each year, the Committee reviews and evaluates the compensation paid to our executive officers and determines the base salary, target bonus and the equity related grants for each executive officer. We believe the compensation we pay should be competitive, reasonable and performance-based.

Our process for determining compensation involves a review of competitive compensation analyses to estimate the 25th percentile, median and 75th percentile positions for base salary, target total cash compensation (base salary plus target bonus), and target total direct compensation (base salary plus target bonus plus equity related grants). The Compensation Committee believes competitive, reasonable and appropriate levels of compensation approximate the competitive median for each of these compensation measures. We believe these levels are consistent with our compensation program objectives and are appropriate because our target total direct compensation is variable, since bonus plus equity-based awards generally represent approximately 60% of target total direct compensation for named executive officers (excluding our Chairman and our President and CEO, who receive no equity-based incentives), and we do not provide a pension plan or other defined benefit retirement plans. We also consider several other factors when determining appropriate compensation levels for each executive officer, including:

our analyses of competitive compensation practices;

individual performance and contributions to financial goals such as sales revenue and operating margin;

individual leadership, expectations, expertise, skills and knowledge;

labor market conditions; and

information and advice from an independent compensation consultant engaged by the Committee.

Our approach to evaluating these factors is not formulaic, and the Compensation Committee may place more or less weight on a particular factor when determining an executive officer's compensation. Because our Chairman and our President and CEO each hold substantial amounts of our outstanding Common Stock, however, to date we have not granted equity-based incentives to these executive officers. In addition, we have no equity ownership requirements for executive officers.

Table of Contents

Treatment of prior compensation

The Compensation Committee considers, in addition to the factors described above, equity awards previously granted to each individual, each individual's accumulated vested and unvested equity awards, the current value and potential value over time using stock appreciation assumptions for vested and unvested equity awards, the vesting schedule of the individual's outstanding equity awards, comparison of individual equity awards between executive officers and in relation to other compensation elements, shareholder dilution, and total accounting expense as part of its annual evaluation of executive compensation. The amount of past compensation, including annual bonus awards and amounts realized or realizable from prior equity awards, is generally not a significant factor in the Committee's evaluation because bonuses are awarded for annual performance and equity awards are granted as part of the target total direct compensation the Committee establishes each year.

Involvement of CEO and management

In determining the total compensation for each executive officer, the Compensation Committee considers the specific recommendations of our President and CEO and our Vice President of Human Resources, input from the Committee's outside compensation consultant, and the Committee's own assessment of the executive officer's performance, the executive officer's expectations and other factors it deems relevant. Our President and CEO's and our Vice President of Human Resources' recommendations to the Committee typically include discussion of the role and responsibilities of the executive officer within the Company, the performance of the executive officer, the expected future contributions of the executive officer, the executive officer's own expectations, and competitive and market considerations. Although our President and CEO and our Vice President of Human Resources make recommendations regarding the executive officers, neither participates in the discussions concerning his or her own compensation. Our President and CEO does not make recommendations regarding his own compensation, which is solely the responsibility of the Committee.

Compensation consultants

The Compensation Committee retained PricewaterhouseCoopers as its outside compensation consultant for 2007. The Committee chose PricewaterhouseCoopers primarily because of the competence, knowledge, background and reputation of the representative who advises the Committee. PricewaterhouseCoopers provides the Committee with:

information about market trends in executive officer compensation,

general information on compensation practices at other companies,

specific data on the compensation paid to executive officers at peer companies, and

analysis of performance measures used in incentive programs.

PricewaterhouseCoopers also:

assists the Committee in its evaluation of executive pay, practices and programs,

advises the Committee on ad hoc issues related to broad-based compensation plans and international compensation issues.

PricewaterhouseCoopers reports on executive officer compensation matters and presents findings directly to the Compensation Committee. From time to time our Vice President of Human Resources provides information and feedback to PricewaterhouseCoopers on various compensation matters and uses PricewaterhouseCoopers as a compensation consultant. Moreover, PricewaterhouseCoopers provides our Vice President of Human Resources and our President and CEO with copies of the information provided to the Committee.

Competitive survey information

We use multiple compensation survey sources, including general industry surveys, retail/wholesale surveys, and apparel industry surveys. Data represented in these surveys are submitted confidentially by participating companies. Each survey provides a comprehensive list of all companies that participated in the survey, but compensation information is reported statistically without identifying company participants by name. We do not benchmark against specific companies or a specific peer group of companies. We participate in the Towers Perrin (retail/wholesale and general industry) and ICR Limited (apparel industry) specialty surveys. PricewaterhouseCoopers compiles the data from these sources and from surveys purchased from Mercer Human Resource Consulting (general industry) and Watson Wyatt Data Services (general industry). These surveys include participating companies that are both smaller and larger than the Company based on annual revenues and market capitalization. We generally focus on a subset of companies within a comparable range of revenues (typically between 50% and 200% of our annual revenues) or apply revenue-based regression analysis to the survey data for comparability purposes. The result of our analysis is an approximate market composite for each element of compensation for each executive officer. Our primary reference point is the median, or 50th percentile, of the composite data.

Other key practices and policies

Tax considerations

The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code when determining the compensation of executive officers. Section 162(m) limits the amount that we may deduct for compensation paid to our President and CEO and to each of our four most highly compensated officers to \$1,000,000 per person, unless certain exemption requirements are met. We believe that compensation paid under our executive officer incentive plans is generally fully deductible for federal income tax purposes. In some circumstances, however, the Committee may approve compensation that will not meet these requirements as a means to ensure competitive levels of total compensation for our executive officers. In any event, the Committee intends to maintain an approach to executive officer compensation that strongly links pay to performance.

Equity granting practices

Our practice has been to grant equity incentives to executive officers and non-executive employees on an annual basis. In connection with our transition to the use of both stock options and performance-based RSUs as named executive officer equity compensation, for 2006 these equity incentives were granted in the third quarter. Under our current written policy, annual equity incentives are granted at the Compensation Committee's first regularly scheduled meeting of the year, which usually is in January. The grants are made after completion of our annual performance review process. Individual grant amounts and all terms of the award are approved by the Committee at the meeting, and the exercise price per share for each stock option granted is the per share closing market price of our Common Stock on the grant date. The Committee grants these equity incentives at its discretion, but generally cannot reduce or increase a specific award once made.

Grants of equity incentives to non-executive employees residing in the United States generally are delegated to the Special Option Committee of our Board of Directors at the Compensation Committee's first regularly scheduled meeting of the year. The Compensation Committee approves the aggregate grant amounts and terms other than price at the meeting, after which the Special Option Committee determines which particular non-executive employees will receive grants and the specific amounts of any equity incentive that will be granted to the non-executive employee. The Special Option Committee then grants these equity incentives on the last trading day in February, and the exercise price per share for each stock option granted is the per share closing market price of our Common Stock on the grant date.

Table of Contents

Grants of equity incentives to non-executive employees residing outside the United States generally are delegated to the Special Option Committee at the Compensation Committee's first regularly scheduled meeting of the year. The Compensation Committee approves the aggregate grant amounts and most terms other than price at the meeting. The Special Option Committee may approve terms necessary or advisable to adhere to local laws, and the Special Option Committee determines which particular non-executive employees will receive grants and the specific amounts of any equity incentive that will be granted to the non-executive employee. The Special Option Committee then generally grants these equity incentives on the last trading day in February, and the exercise price per share for each stock option granted is the per share closing market price of our Common Stock on the grant date. If it is not possible to grant the equity incentives on the last trading day in February because of administrative or other reasons, including the time needed to comply with local laws, the Special Option Committee will grant the equity incentives on the last trading day in March. Regardless, the exercise price per share for each stock option granted is the per share closing market price of our Common Stock on the particular grant date.

In addition, the Compensation Committee grants equity incentives to newly hired executive officers and for executive officer promotion or retention purposes. The Compensation Committee also delegates authority to the Special Option Committee to grant equity incentives to newly hired non-executive employees and for non-executive employee promotion or retention purposes. Equity incentives for newly hired executive officers and non-executive employees, and for non-executive employee promotion and retention purposes, are granted on the last trading day of the month in which the newly hired executive officer commences employment or in which the promotion or retention grant is made. Equity incentives for executive officer promotion and retention purposes are granted on the date the Compensation Committee authorizes the particular grant. In all of these cases, the exercise price per share for each stock option granted is the per share closing market price of our Common Stock on the particular grant date.

We have no program or practice to time equity incentive grants in connection with the release of material non-public information.

Committee discretion

The Compensation Committee may reduce the amount payable under the Executive Incentive Compensation Plan to a named executive officer by up to 100%, based on factors that it determines warrant such a reduction, but historically has not exercised this discretion to any significant degree. The Committee also has the discretion, at or prior to the time it sets the performance target, to include or exclude any extraordinary items affecting the performance target and to adjust the performance target to take into account changes in accounting. Under the plan, the Committee has no discretion to increase any amount payable to a named executive officer. The Committee may, however, authorize additional cash compensation outside of the plan. For example, the Committee could award additional one-time compensation for retention purposes or for a named executive officer's extraordinary contributions to the Company.

Analysis of 2007 named executive officer compensation

General

Our competitive compensation analyses identified relevant market survey data for all our named executive officers except Mrs. Boyle. The Compensation Committee, with the concurrence of PricewaterhouseCoopers, determined that the available competitive market survey data did not adequately reflect Mrs. Boyle's role, scope of work, responsibilities and influence on our business performance. Mrs. Boyle has significant marketing responsibilities and plays a prominent role in our civic and community relations activities. The Committee determined that establishing Mrs. Boyle's target total direct compensation relative to that of our President and CEO is an appropriate approach in the absence of relevant competitive market survey data. For 2007, the Committee determined that Mrs. Boyle's target total direct compensation should be between 60% and 70% of our President and CEO's target total direct compensation.

Table of Contents

The 2007 Target Total Direct Compensation table below summarizes the target total direct compensation levels established by the Compensation Committee. Following the table, we discuss each compensation element summarized in the table.

Base salary

The Compensation Committee reviews each named executive officer's salary annually and makes adjustments when appropriate to reflect competitive market factors and the individual factors described above under Compensation process. The key factors in the Committee's evaluation of the named executive officer's 2007 annual salary included anticipated increases in the labor market and individual performance that merited an increased salary. Based on these factors, the Committee approved an aggregate 6% increase to the named executive officers' salaries, effective January 1, 2007. Mr. Boyle's salary increased 5.4%. Mrs. Boyle's salary increased 4% and was set at 98% of our President and CEO's salary. Increases for the other named executive officers ranged from 3% for Mr. Anderson to 11% for Mr. Timm. The 2007 base salaries for all named executive officers other than Mrs. Boyle were within 5% of the competitive market median base salary levels.

Short-term incentive compensation

The executive officers' annual target bonuses were determined as a percentage of annual salary. The portion of the 2007 target bonus available to be paid to a named executive officer under the plan varied among our named executive officers, ranging from 40% of annual salary for named executive officers other than our President and CEO to 110% of annual salary for our President and CEO. Our President and CEO's target bonus amounts constitute a greater percentage of his base salary than the other named executive officers in part because, unlike the other named executive officers (excluding our Chairman), our President and CEO to date has not received equity compensation awards.

The amount of the actual bonus paid under the plan to each named executive officer is based on the extent to which the Company meets or exceeds a performance target set by the Compensation Committee, which consists of a net income goal adjusted for income taxes and discretionary bonus payments. The net income target is set to align with our strategic plan and expectations regarding our performance. Over the

past four years, we have achieved performance in excess of the target three times, but have not achieved the maximum, stretch

Table of Contents

performance level. The payout percentage over the past five years has been between approximately 82% and 108% of the participants' target award opportunity, with an average payout percentage over the past five years of 101% of the target award opportunity. The Committee intends to set the threshold and stretch performance target levels so that the relative difficulty of achieving the target level is consistent from year to year.

The net income target constituted 80% of the total annual bonus potentially payable to each named executive officer under the plan in 2007. The remaining 20% of the total bonus was based on the named executive officer's individual performance during the year. The Compensation Committee determines whether the named executive officer (other than our President and CEO) has met or exceeded the individual performance objectives, which were set early in 2007 by our President and CEO and consist of financial, operational, brand and product, and personnel goals. This determination is based in large part on our President and CEO's assessment of the named executive officer's performance against those objectives. The Committee makes its own determination about whether our President and CEO has met or exceeded his individual performance objectives, which were set early in 2007 by the Committee and consist of short-term operational goals, long-term strategic goals, and leadership objectives. To the extent that a named executive officer has met or exceeded the individual performance objectives and Company performance was at least 65% of the net income target under the Executive Incentive Compensation Plan, the Committee may award to the named executive officer the full bonus amount based on achievement of the individual performance objectives (i.e., the amount constituting 20% of the named executive officer's total potential bonus). If the Committee determines that a named executive officer has not met the individual performance objectives, the corresponding bonus amount may be reduced or eliminated. The table below summarizes the various potential 2007 bonus payouts under the plan as approved by the Committee.

(2) The Threshold Company Performance Component is paid out if 80% of the net income target set by the Compensation Committee is achieved, and constitutes the minimum Company performance component required under the Executive Incentive Compensation Plan.

- (3) The Stretch Company Performance Component is paid out if 120% of the net income target set by the Compensation Committee is achieved, and constitutes the maximum Company performance component that may be paid out under the Executive Incentive Compensation Plan.

Assuming the target bonus levels were achieved, Mr. Boyle's total cash compensation (annual salary plus target bonus) for 2007 was 16% above the competitive market median total cash compensation. Mr. Boyle's positioning reflects the fact that he does not receive any equity-based incentives because he owns a substantial amount of our Common Stock. Mrs. Boyle's total cash compensation was set at approximately 65% of our President and CEO's total cash compensation. Total cash compensation for each of our other named executive officers was within 10% of the competitive market median.

For 2007, we achieved 101.71% of the net income target set by the Compensation Committee. The Committee also awarded discretionary bonuses to named executive officers, other than our Chairman and our President and CEO, for 2007 performance. The table below summarizes the actual bonus payouts made under the Executive Incentive Compensation Plan and at the Committee's discretion for 2007 performance.

Equity-based incentives

The Compensation Committee granted equity awards to named executive officers, other than our Chairman and our President and CEO, in the form of performance-based RSUs and stock options in 2007. Each form of equity award constituted approximately 50% of the expected value of the overall long-term incentive provided to those named executive officers. The Committee awarded a competitive number of RSUs and option shares that, when added to the particular named executive officer's target total cash compensation, resulted in a target total direct compensation level that the Committee determined was reasonable and appropriate. We do not believe that the estimated fair value of our equity-based incentives reflected in the Summary Compensation Table and the Grants of Plan-Based Awards table is a measure of the compensation actually received or that may be received. Our executive officers are motivated by the potential appreciation in the value of these equity-based incentives if the market price of our Common Stock increases.

All of our equity-based incentives are subject to vesting. Performance-based RSUs granted to named executive officers in 2007 vest on the first anniversary of the last day of a three-year performance period. The number of performance-based RSUs that vest is determined by reference to achievement of specified performance goals during the performance period. 20% of the award, the individual performance component, is subject to forfeiture based on achievement of individual performance ratings. Each named executive officer will

Table of Contents

forfeit one-third of the individual performance component each time the named executive officer receives less than an exceeds expectations rating on any of the named executive officer's three annual evaluations in the performance period. 80% of the award, the Company performance component, is subject to increase or forfeiture based on specified cumulative operating income and average return on invested capital levels in the performance period. If minimum levels of cumulative operating income and average return on invested capital are not met, each named executive officer will forfeit the entire company performance component of the award. Above these minimum levels, each named executive officer may be awarded from 25% to 200% of the target Company performance component, depending on the relative achievement of the target levels of cumulative operating income and average return on invested capital. Generally, the Compensation Committee intends to set the minimum and maximum levels of cumulative operating income and average return on invested capital so that the relative difficulty of achieving these levels is consistent over each three-year performance period.

RSU vesting and stock option vesting are suspended during specified permitted leaves of absence. The delayed vesting of our equity incentives provides a significant incentive for named executive officers to remain with the Company through the vesting period, particularly if our stock price has increased since the incentive was granted and/or is perceived to increase in the future.

Assuming the target bonus levels and equity-based incentives performance targets were achieved, our named executive officers' total direct compensation (annual salary plus bonus plus the expected value of equity incentives) was within 5% of the competitive market median total direct compensation. Mr. Boyle's total direct compensation was substantially below the competitive market median, reflecting the fact that Mr. Boyle does not receive grants of equity-based incentives because he owns a substantial amount of our Common Stock. Because our Chairman does not receive grants of equity-based incentives, Mrs. Boyle's total direct compensation was set at 65% of our President and CEO's total direct compensation.

In making compensation determinations, the Compensation Committee did not specifically consider the ratio of our President and CEO's compensation to that of the executive officers, other than for our Chairman. We note that the average target total direct compensation of our three named executive officers other than our Chairman and our President and CEO was 51% of our President and CEO's target total direct compensation. Specifically, Mr. Timm's target total direct compensation was 52% of our President and CEO's, Mr. Anderson's was 53% of our President and CEO's, and Mr. Sandquist's was 48% of our President and CEO's. We believe these relationships appropriately reflect each named executive officer's level of responsibility.

Excluding our Chairman and our President and CEO, neither of whom received equity-based incentives, the total direct compensation of our named executive officers consisted of the following proportions of components: 44% in base salary, 18% in target short-term incentive compensation, and 38% in equity-based incentives. We believe that our compensation program for named executive officers is aligned with shareholders' interests as a result of the significant variable and long-term structure of target total direct compensation, and the manner in which the variable compensation is determined.

Table of Contents**Changes in 2008 compensation arrangements**

For 2008, the portion of the target bonus available to be paid under the plan to a named executive officer has increased to 50% from 40% of annual salary for named executive officers other than our President and CEO. Consequently, the ranges of threshold to stretch bonuses as a percentage of annual salary of named executive officers other than our President and CEO have changed as set forth in the table below.

Narrative Disclosure to 2007 Outstanding Equity Awards at Fiscal Year-End Table

The amounts set forth in the Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested column represent the threshold number of RSUs that may be earned by each of the named executive officers during the July 20, 2006 through December 31, 2008 performance period (for 2006 grants), and the January 18, 2007 through December 31, 2009 performance period (for 2007 grants), depending on the extent to which individual and company performance goals are met or exceeded.

The amounts set forth in the Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested column were calculated using a value of \$44.09 per share, the closing market price of our Common Stock on December 31, 2007, the last business day of the year, multiplied by the threshold number of RSUs granted in 2007 that may be earned during the applicable performance period. This value may not correspond to the actual value that will be realized by the named executive officers, which depends on the extent to which performance conditions are ultimately met and the value of our Common Stock in future periods.

RSUs earned during the 2006 grant performance period will vest on December 31, 2009, and RSUs earned during the 2007 grant performance period will vest on December 31, 2010.

DIRECTOR COMPENSATION

Our director compensation program is intended to enable us to:

Attract and retain qualified non-employee directors by providing total compensation that is competitive with other companies; and

Align directors' interests with shareholders' interests by including equity as a significant portion of each non-employee director's compensation package.

In setting director compensation, we consider compensation offered to directors by other companies, the amount of time that our directors spend providing services to us, and the experience, skill and expertise that our directors have. Directors who are employees of the Company receive no separate compensation for their service as directors.

Each director who is not an employee of the Company receives:

a \$60,000 annual board service fee;

a \$10,000 annual committee service fee for each committee on which the director serves as a member;

a \$15,000 annual committee chair fee for each committee (except the Audit Committee) that the director serves on as chair;

a \$20,000 annual Audit Committee chair fee if the director chairs the Audit Committee;

a \$3,500 Company merchandise allowance;

reasonable out-of-pocket expenses incurred in attending meetings; and

an annual equity award as follows:

a stock option grant valued at \$50,000 (using the Black-Scholes valuation method) to purchase shares of our Common Stock at an exercise price equal to the closing market price of our Common Stock on the date of grant, and

a grant of restricted stock units valued at \$50,000 based on the closing market price of our Common Stock on the date of grant, discounted by the present value of the future stream of dividends over the vesting period using the Black-Scholes valuation method.

One-third of the stock options become exercisable and one-third of the shares of restricted stock units vest annually on each anniversary of the grant date. Directors may elect to receive equity compensation in lieu of the \$60,000 cash retainer, allocated between stock options and restricted stock unit awards and vesting fully on the first anniversary of the grant date. In 2007, three of our seven non-employee directors elected to receive 467 restricted stock units and an option to acquire 1,476 shares of Common Stock in lieu of the \$60,000 annual fee for the twelve month period beginning May 17, 2007.

Annual cash fees paid to the directors are approved by the Compensation Committee and paid quarterly beginning on the date the director is elected by shareholders at our annual meeting of shareholders. The 2007 Director Compensation Table does not include reimbursement for reasonable out-of-pocket expenses incurred in connection with meeting attendance. Messrs. Babson, Klenz and Stanton each received equity in lieu of \$30,000 of the annual fees due to each of them for fiscal 2007 service, and Ms. Bany received equity in lieu of \$60,000 of the annual fees due to her for fiscal 2007 service. Equity grants in lieu of fees are included in the Stock Awards and Option Awards columns as described in footnote 1 to the 2007 Director Compensation Table.
