**II The Business**

**(1) Operating Results**

In the electronics industry during the second quarter under review, while there was a growing demand for flat-panel TVs related to the Beijing Olympics, severe business conditions continued in Japan and overseas, due mainly to rising prices for raw materials and energy, and price declines centered on digital products. Under these circumstances, in fiscal 2009 as the middle year of the three-year mid-term management plan GP3, Panasonic is striving to produce successful results and create a new trend for achieving goals. Aiming at getting growth back on track and strengthening profitability, Panasonic is implementing initiatives focused on four major themes: double-digit growth in overseas sales, expansion of four strategic businesses, manufacturing innovation and the eco ideas strategy.

Consolidated group sales for the second quarter amounted to 2,191.7 billion yen. Explaining the second quarter results, sales gains were recorded mainly in digital AV products.

Regarding earnings, operating profit\* for the second quarter amounted to 118.6 billion yen. Although there were positive effects of comprehensive cost reduction activities including materials costs, this result was due mainly to the negative effects of intensified global price competition and a stronger yen against the U.S. dollar, as well as rising prices for crude oil and other raw materials.

These and other factors resulted in income before income taxes of 84.0 billion yen. This result was due mainly to the expenses associated with the company name change and brand unification, and write-down of investment securities as a result of a decline in stock prices.

Provision for income taxes amounted to 23.8 billion yen and the effective tax rate to income before income taxes resulted in 28.3%, due mainly to a decrease in tax expenses associated with tax benefits in overseas subsidiaries in lower tax countries.

Minority interests and equity in earnings of associated companies were 8.0 billion yen and 3.1 billion yen, respectively.

As a result of all the factors stated, the Company recorded a net income of 55.5 billion yen.

- \* In order to be consistent with financial reporting practices generally accepted in Japan, operating profit (loss) is presented as net sales less cost of sales and selling, general and administrative expenses. Under U.S. generally accepted accounting principles, certain expenses such as impairment losses on long-lived assets and expenses associated with the implementation of early retirement programs at certain domestic and overseas companies are included as part of operating profit in the consolidated statements of income.

a. Digital AVC Networks

Digital AVC Networks sales amounted to 1,056.6 billion yen. Favorable sales of flat-panel TVs and DVD recorders contributed to an overall sales increase in video and audio equipment. Segment profit amounted to 47.8 billion yen, due mainly to price declines centered on digital AV products as well as rising raw materials prices.

2. Solutions for the Environment and Comfortable Living

c. MEW and PanaHome

Sales of MEW and PanaHome amounted to 495.9 billion yen. At MEW and its subsidiaries, overall sales decreased, due mainly to sluggish sales in home appliances business including health-enhancing equipment. At PanaHome Corporation and its subsidiaries, sluggish housing market conditions led to a decrease in sales. Segment profit amounted to 25.3 billion yen, mainly as a result of the sales decrease.

AND SUBSIDIARIES

3. Devices and Industry Solution

Sales of Devices and Industry Solution amounted to 644.8 billion yen and segment profit was 44.4 billion yen. The breakdown is as follows:

d. Components and Devices

Sales of Components and Devices amounted to 335.6 billion yen. Sluggish sales of general electronic components and batteries resulted in a decrease in overall sales. Segment profit amounted to 29.5 billion yen, due mainly to the decrease in sales.

**Operating Results by Domestic and Overseas Company Location\***

\* The following information shows the geographical sales and profit by region for the second quarter ended September 30, 2008.

Japan

Although sales gains were recorded in flat-panel TVs, DVD recorders and air conditioners, sales of companies in Japan amounted to 1,686.3 billion yen. This was due mainly to a decrease in sales as a result of deconsolidation of

JVC. Profit in this region amounted to 92.2 billion yen, as a result of price declines and high raw materials prices.

Americas

Although sales gains were recorded in flat-panel TVs, digital cameras and DVD recorders, sales of companies in the Americas amounted to 289.5 billion yen. This was due mainly to a decrease in sales as a result of deconsolidation of JVC and the effects of a stronger yen against the U.S. dollar. Profit in this region amounted to 7.1 billion yen mainly as a result of rationalization efforts.

Europe

Although favorable sales were recorded in flat-panel TVs, sales of companies in Europe amounted to 289.8 billion yen. This was due mainly to a decrease in sales as a result of deconsolidation of JVC. Despite the rationalization efforts, profit in this region resulted in a loss of 2.0 billion yen, due mainly to the effect of price declines and high raw materials prices.

PANASONIC CORPORATION  
AND SUBSIDIARIES

Asia and Others

Although favorable sales were recorded in flat-panel TVs, DVD recorders and other digital AV products, as well as white goods such as washing machines and microwaves, sales of companies in Asia and Others amounted to 763.3 billion yen. This was due mainly to a decrease in sales as a result of deconsolidation of JVC. Geographical profit amounted to 38.7 billion yen, due mainly to sales increase mainly in flat-panel TVs and rationalization effects.

**(3) Consolidated Assets, Liabilities, Minority Interests and Stockholders Equity**

The Company's consolidated total assets as of September 30, 2008 decreased 315.8 billion yen to 7,299.4 billion yen, compared with 7,615.2 billion yen at the end of first quarter of fiscal 2009.

With regard to assets, cash and cash equivalents decreased 183.5 billion yen, and investments and advances decreased 82.6 billion yen due primarily to the effects of stock price decline.

With regard to liabilities, short-term borrowings were down by 40.7 billion yen and other accrued expenses also decreased. Accordingly, total liabilities resulted in 3,108.7 billion yen, a decrease of 222.5 billion yen from the end of the first quarter of fiscal 2009.

Minority interests decreased 5.1 billion yen to 511.1 billion yen.

Stockholders' equity decreased 88.2 billion yen from the previous quarter's 3,767.7 billion yen, to 3,679.5 billion yen. Although other retained earnings increased 55.4 billion yen, this decrease was due primarily to a decrease of cumulative translation adjustments by 70.5 billion yen as a result of a stronger yen, a decrease of unrealized holding gains of available-for-sale securities by 52.3 billion yen, and an increase of treasury stock by 30.8 billion yen as a result of the repurchase of the Company's own shares as part of Panasonic's financial strategy to enhance shareholder value.

**(4) Cash Flows**

Cash flows from operating activities

Net cash provided by operating activities in the fiscal 2009 second quarter amounted to 13.5 billion yen. This was attributable mainly to net income and depreciation, despite a decrease in accrued expenses and other current liabilities.

Cash flows from investing activities

Net cash used in investing activities in the fiscal 2009 second quarter amounted to 85.1 billion yen. Although there were proceeds from disposition of investments and advances, this result was due mainly to capital expenditures of 108.3 billion yen for tangible fixed assets, mainly consisting of manufacturing facilities for priority business areas such as plasma display panels (PDP), liquid crystal display (LCD) panels and semiconductors.

PANASONIC CORPORATION  
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

**(c) Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and its majority-owned, controlled subsidiaries. The Company also consolidates entities in which controlling interest exists through variable interests in accordance with Financial Accounting Standards Board (FASB) Interpretation No. 46 (revised December 2003),

Consolidation of Variable Interest Entities. Investments in companies and joint ventures over which we have the ability to exercise significant influence (generally through an ownership interest of between 20% to 50%) are included in Investments and advances in the consolidated balance sheets. All significant intercompany balances and transactions have been eliminated in consolidation.

**(d) Use of Estimates**

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

**(e) Adoption of New Accounting Pronouncements**

In September 2006, FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The Company applied SFAS No. 157 on April 1, 2008. In February 2008, FASB issued Staff Position No. 157-2, Effective Date of FASB Statement No. 157, which partially delays the effective date of SFAS No. 157 by one year for certain nonfinancial assets and liabilities. The adoption of SFAS No. 157 is not expected to have a material effect on the Company's consolidated financial statements and the Company has omitted the disclosures required by SFAS No. 157.

In September 2006, FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158's provisions regarding the change in the measurement date of postretirement benefit plans require the fair value of plan assets and benefit obligations to be measured as of the date of the fiscal year-end consolidated balance sheet and the Company applied SFAS No. 158's provisions on April 1, 2008. In conformity with the provisions, the Company and certain subsidiaries changed the measurement date to March 31 for those postretirement benefit plans with a December 31 measurement date. With the change in the measurement date, beginning balances of Retained earnings and Accumulated other comprehensive income (loss) Pension liability adjustments at April 1, 2008 has been reduced by 3,727 million yen and 73,571 million yen, respectively.
